(x) The proposed action will not so change the nature of the borrower's activities as to make it ineligible for FHA loan assistance.

(2) *Processing.* All subordinations pertaining to other than chattel liens will be closed in accordance with instructions from the Office of the General Counsel (OGC). When national office approval is required or the State Director desires advice pertaining to a requested subordination, the borrower's loan docket together with a current operating budget, financial statement, copy of proposed lien, appraisal report, borrower's written request, OGC opinion, and other necessary supporting information, will be sent to the national office.

(f) *Loan reamortization.* (1) The State Director is authorized to approve reamortization of loans for borrowers having a delinquency which cannot be brought current within 1 year while maintaining a reasonable reserve when all of the following conditions exist:

(i) The debt(s) to be reamortized does not exceed the State Director's loan approval authorization.

(ii) The borrower has demonstrated for at least 1 year by actual performance or has presented a budget which clearly indicates that it is able to meet the proposed payment schedule.

(iii) There is no extension of the final maturity date.

(2) Proposals for reamortization exceeding the limits set in subparagraph (1) of this paragraph, and those evidenced by notes which are not delinquent may be reamortized with prior approval of the national office. Requests for such reamortization will be forwarded to the national office along with the loan docket, a current budget and financial statement, and the State Director's statement of essential facts and recommendation.

(3) Processing will be handled as follows:

(i) Borrowers other than public bodies requesting reamortization will complete Form FHA 451–30, "Reamortization Agreement." All of the note, including principal and interest, will be reamortized. Reamortization will be accomplished through the use of a new note unless the OGC recommends that the terms of the existing note be modified through the use of Form FHA 451–30, or if that is legally inadequate through the use of other appropriate form.

(ii) Public body borrowers may effect reamortization by any procedure which in the opinion of their counsel and OGC is legally permissible under State law and acceptable to the State Director. Appendix 3 of Part 1823, Subpart A of this chapter would not apply to the new bonds.

(4) The properly executed new instrument(s) or endorsement, as appropriate, will be forwarded to the Finance Office together with the original existing note or bond attached thereto. The copy of the new note or bond or endorsement will be retained by the Finance Office until the account is paid in full or otherwise satisfied.

(g) *Consent to borrower's granting lease of security—(1) State Director's consent.* The State Director may consent to the leasing of all or a portion of security property, when:

(i) The lease will not adversely affect the repayment of the loan or the Government's rights under the security instrument.

(ii) Leasing is not an alternative to, or means of, delaying liquidation action.

(iii) The lease and use of any proceeds from such lease will further the objectives of the loan.

(iv) Rental income is assigned to FHA in an amount sufficient to make regular payments on the loan, and operate and maintain the facility, unless such payments are otherwise adequately assured.

(v) The lease is advantageous to the borrower and is not to the Government's disadvantage.

(vi) If foreclosure action has been approved and the case has been submitted to OGC, consent to lease and use of proceeds will be granted only with the concurrence of the OGC.

(vii) The lease shall not exceed a 1-year period. The property may not be under lease more than 2 consecutive years without authorization from the national office.

V 37-67 APR 6 72 XUM

(2) *Mineral leases.* The State Director, unless liquidation is pending, is authorized to approve mineral leases when:

(i) The lessee agrees in the lease or elsewhere, or is liable without any agreement, to pay adequate compensation for any damage to the real estate surface and improvements. Damage compensation will be assigned to FHA by the use of Form FHA 443–16, "Assignment of Income from Real Estate Security," or other appropriate instrument, or to the prior lienholder.

(ii) Royalty payments are adequate and are assigned to FHA on Form FHA 443–16.

(iii) All or a portion of delay rentals and bonus payments may be assigned on Form FHA 443–16 if needed for protection of the Government's interests.

(iv) The lease, subordination, or consent form is acceptable to the OGC.

(3) *Processing.* When FHA's consent to a lease is required, the borrower will complete and submit Form FHA 465–1, "Application for Partial Release, Subordination, or Consent." This form will show the terms of the proposed lease and will specify the use of proceeds including any proceeds to be released to the borrower. When another lienholder's mortgage requires consent to lease, his consent will be obtained. When the approval of the national office is required or if the State Director wishes a lease transaction reviewed prior to approval, he will forward the loan docket, a copy of the proposed lease, and any other pertinent information along with his recommendations to the national office.

(h) *Membership liability.* As a loan approval requirement, some borrowers may have special agreements with members for the purchase of shares of stock or for the payment of a pro rata share of the loan in event of default, or they may have in their corporate instruments authority to make special assessments in such event. Such agreements may be referred to as individual liability agreements and may be assigned to and held by the FHA as additional security for the loan. In other cases the borrower's note may be endorsed by individuals. Such liability instruments will be serviced in a manner indicated by their contents so as to adequately protect the interest of the FHA.

(i) *Other security.* Other security such as collateral assignments, water stock certificates, notices of lienholder interest (Bureau of Land Management grazing permits), and waivers of grazing privileges (Forest Service grazing permits), will be serviced so as to protect the interest of FHA, and pursuant to any special servicing actions developed by the State Director with the assistance of the OGC. Evidence of such security will be filed in the loan docket in the county office. A notation will be made on Form FHA 405–10, "Management System Card—Association," showing necessary servicing action.

(j) *Correcting errors in security instruments.* Land, buildings, or chattels included in the mortgage through mutual mistake when substantiated by the factual situation may be released from the mortgage by the State Director. The release is contingent on the State Director with the advice of the OGC determining that a mutual error existed at the time such property was included in the Government's mortgage.

§ 1861.83 Sale or exchange of security property.

(a) *Authority.* Approval to a cash sale of a portion of the borrower's assets or an exchange of security property may be given when the approving official determines:

(1) The consideration is adequate.

(2) The release will not prevent carrying out the purpose of the loan.

(3) The remaining property is adequate security for the loan, or the transaction will not adversely effect FHA's security position.

(4) The proceeds are used for one or more of the following purposes:

(i) To pay on FHA debts in accordance with paragraphs (a) and (b) of § 1861.82, on debts secured by a prior lien, and on debts secured by a subsequent lien if it is to FHA's advantage.

(ii) To purchase or to acquire through exchange property more suitable to the borrower's needs, provided the FHA secured debt will be as well secured after the transaction as before.

(iii) To develop or enlarge the facility provided that such action is necessary to improve the borrower's debt-paying ability, place his operation on a more sound basis, or otherwise further the objectives of the loan.

(5) The FHA liens are not released until receipt of the appropriate sale proceeds for application on the Government's claim. In any State in which it is necessary to obtain the insured note from the lender to present to the recorder before a release of a portion of the land from the mortgage, the borrower must pay any cost for postage and insurance of the note while in transit. The county supervisor will advise the borrower when it requests a partial release that it must pay such costs. If the borrower is unable to pay the costs from personal funds, they may be deducted from the sale proceeds. The amount of the charge will be based on the statement of actual cost furnishd by the insured lender.

(b) *Processing.* When a borrower requests permission to sell or exchange a portion of FHA's-security property, Form FHA 465–1, will be completed for real estate, or Form FHA 462–2, "Statement of Conditions on Which Lien Will be Released," will be completed for chattels. The county supervisor will forward Form FHA 465–1 or Form FHA 462–2, an appraisal report, as appropriate, the county office docket, his recommendation, and all other pertinent information to the State Director.

(c) *Releasing security*—(1) *Chattel security.* The county supervisor is authorized to satisfy or terminate chattel security instruments when paragraph (a) of this section and § 1871.8 of this chapter have been complied with. Satisfaction or termination of chattel security instruments will be accomplished in accordance with § 1871.13 of this chapter. Partial releases may be made by using Form FHA 460–1, "Partial Release," or Form FHA 460–6, "Partial Release (UCC States)." Form FHA 460–4, "Satisfaction," will be used when a debt has been paid in full or satisfied by debt settlement action.

(2) *Real estate.* Subject to paragraph (a) of this section, the State Director is authorized to consent to disposition of part of an interest in real estate security by approving Form FHA 465–1. Upon request for such consent, the county supervisor will forward Form FHA 465–1, the borrower's loan file, and any other pertinent information to the State Director. Partial release of real estate security may be made by use of Form FHA 460–1 or any other form approved by OGC. Form FHA 460–4 will be used when a debt has been paid in full or satisfied by debt settlement action.

(d) *Release of liability.* (1) When the FHA debt is paid in full from the sale of proceeds, the borrower will be released from liability by use of Form FHA 465–8, "Release from Personal Liability."

(2) When sale proceeds are not sufficient to pay the FHA debt in full and all security property has been disposed of, the remaining debt will be accelerated and the case reclassified to collection-only.

§ 1861.84 Liquidation of security.

When the county supervisor believes that continued servicing will not accomplish the objectives of the loan he will complete the form, "Report on Association Problem Case (Association-Type Projects)," available in all FHA offices, and submit it along with the county office file to the State office. If the State Director determines the account should be liquidated he will encourage the borrower to voluntarily sell the property and remit the proceeds to FHA. He will give the borrower a specified period of time not to exceed 180 days to accomplish such action. If the voluntary sale cannot be accomplished the loan will be liquidated in accordance with § 1861.85, 1861.86, or 1861.87.

§ 1861.85 Transfer of security and assumption of loans.

(a) *General.* Transfer and assumption may be approved subject to the following conditions:

(1) Transfers to eligible applicants will receive preference over transfers to ineligible applicants, provided recovery to FHA from the sale price is not less than it would be if the transfer were to an ineligible applicant.

(2) The present borrower is unable or unwilling to accomplish the objectives of the loan and the transfer will be to the Government's advantage.

(3) If the debt(s) exceeds the present market value of the security, the transferee will assume an amount at least equal to the present market value.

(4) If the FHA debt is less than the present market value, the transferee will assume an amount at least equal to the debt owed the FHA.

(5) The transfer will not adversely affect the FHA program in the area.

(6) FHA concurs in the plans for disposition of funds in the transferor's debt service, reserve and operation, and maintenance account.

(7) The county committee recommends the transfer.

(b) *Transfers to eligible applicants.* (1) The State Director is authorized to approve transfers of security property to and assumptions of FHA debts by transferees who would be eligible for the type of loan being transferred.

(2) If the interest rate or terms of the loan are changed, Form FHA 460–5, "Assumption Agreement (New Terms)," will be executed by the transferee. The new repayment period may not exceed the repayment period for a new loan of the type involved. If the current interest rate for such loans is higher than the rate specified in the note(s) being assumed, the current rate will apply except in cases of transfers from nonpublic to public bodies and mergers.

(3) If the full debt is assumed and the same interest rate and terms prevail, Form FHA 460–9, "Assumption Agreement (Same Terms—Eligible Transferee)," will be executed by the transferee.

(4) A loan for which the transferee is eligible may be made in connection with a transfer subject to the policies and procedures governing the kind of loan being made.

(5) If the transferor is to receive a payment for its equity, the total FHA debt must be assumed.

(6) Release of liability will be considered in accordance with the following:

(i) When all FHA security is transferred to an eligible applicant and the total outstanding debt is assumed, it will be the policy to release the transferor from liability.

(ii) In those cases where the transfer is for less than the full amount of the FHA debt, the transferor may be released from liability provided the State Director determines that the transferor has no reasonable debt-paying ability considering its assets and income at the time of the transfer and the county committee certifies that the transferor has cooperated in good faith, used due diligence to maintain the security property against loss, and has otherwise fulfilled the covenants incident to the loan to the best of its ability. If the county committee recommends a release of liability, such recommendation will be made on Form FHA 440–2, "County Committee Certification or Recommendation," in the blank space following item 10 similar to the following:

———, in our opinion does not have reasonable debt-paying ability to pay the balance of the debt not assumed after considering its assets and income at the time of the transfer. Transferors have cooperated in good faith, used due diligence to maintain the security against loss, and otherwise fulfilled the covenants incident to the loan to the best of its ability. Therefore, we recommend that the transferor be released of personal liability upon the transferee's assumption of that portion of the indebtedness equal to the present market value of the security.

(c) *Transfers to ineligible applicants.* Transfer of an FHA loan to an ineligible applicant is considered only when needed as a method for servicing problem cases in which objectives of the original loan cannot be realized but not for providing a means by which members can obtain an equity, and not as a method of providing a source of credit for purchasers. The State Director is authorized to approve a transfer of indebtedness to and assumption of the loan by an applicant who does not meet the eligibility requirements for the kind of loan being assumed when the transferee will make a downpayment of at least 20 percent of the amount of the debt to be assumed and the remaining balance is scheduled for repayment in not to exceed five equal annual installments with interest to the transferee at the rate set forth in Part 1810, Subpart A of this chapter, plus .125 percent at the time of transfer approval and in accordance with the following:

(1) Transferees must have the ability to pay the FHA debt in accordance with the assumption agreement and the legal capacity to enter into the contract. The applicant will submit a complete financial statement using Form FHA 442–12, "Financial Statement," or similar form. This information should be supplemented by a credit report from an independent source such as Dunn and Bradstreet or verified by an independent certified public accountant. When the transferee is a new corporation, consideration will be given to obtaining individual liability agreements from its members.

(2) Form FHA 465–5, "Transfer of Real Estate Security," modified as appropriate, will be executed by the transferee.

(3) This subpart does not preclude the transferor from receiving equity payments when the full amount of the FHA debt is assumed. However, such equity payments will not be made on more favorable terms than those on which the balance of the FHA debt will be paid.

(4) In cases involving transfers to ineligible applicants for the full amount of the FHA debt, the State Director may release the transferor from liability.

(d) *Submission to the national office.* All proposed transfers involving the following will be submitted to the national office for review and approval authorization:

(1) Those to be made on more liberal rates and terms than is set forth in paragraph (c) of this section. There will be no release of liability in connection with transfers involving a repayment period in excess of 5 years.

(2) Those proposing a cash downpayment to the present borrower in an amount which exceeds actual sales expenses.

(3) Water and waste disposal loans representing indebtedness for projects financed in part by FHA development grants.

(e) *Processing transfers.* (1) Form FHA 465–5, will be completed to reflect the agreement between the transferor and the transferee. The form will be prepared so as to show agreements on items such as the prorating of taxes and insurance, title, legal and filing fees, equity and method of payment, and other appropriate items.

(2) The effective date of the transfer will be the actual date the transfer is closed. This is the date on which Form FHA 460–5 or FHA 460–9 is signed. In connection with the use of either form, the unpaid principal balance and the accrued interest will be shown in table 1 and the accrued interest will be computed from Form FHA 451–26, or Form FHA 451–11, "Statement of Account," or Form 451–25, "Status of Account." If Form FHA 460–9 is used, the transferee will be informed of the amount of principal and interest owed as shown on the latest Transaction Record or Statement of Account. He will also be advised as to the amount that would be required to place the account on schedule as of the previous installment due date and any amounts that must be paid to bring any payments up to date. If Form FHA 460–5 is used, he should be advised of the amount needed to be on schedule by the next installment due date.

(3) The transferor will convey title of all assets to the transferee, unless other arrangements are agreed upon by all parties concerned, including FHA.

(4) There must be no lien judgment or other claims of parties other than FHA against the security being transferred unless the transferee is willing to accept such claims and the FHA approving official determines that such claims will not affect the transferee's ability to repay FHA's debt, meet all operating and maintenance costs, and to maintain the required reserves. The written consent of any other lienor will be obtained where required.

(5) The county supervisor will forward the loan docket to the State office including forms and documents listed in instructions available in all FHA offices.

(6) If the transfer is not within the State Director's approval authority, the State Director will forward the loan docket along with his recommendation to OGC for review and comments. Upon receipt of OGC's comments, the State Director will forward the complete file along with his recommendation to the national office. The form, "Report on Association Problem Case (Association-Type Projects)," available in all FHA offices, will be used to record the borrower's present situation and will be forwarded with the docket.

(7) If an insured loan is involved, the Finance Office will have the insured note assigned to the fund when the Assumption Agreement changes the terms of note or bond.

(8) The transferee will obtain insurance in accordance with the requirements for the outstanding loan(s) involved unless the approval official requires additional insurance as a condition of approval. If insurance is required, it may be obtained either by transfer of the existing coverage by the transferor or by acquisition of a new policy by the transferee. When the full amount of the FHA debt is being assumed and an amount

V 37-67 APR 6 72 XUM

has been advanced for insurance premiums or any other purposes the transfer will not be completed until the Finance Office has charged the advance to the transferor's account.

(9) The parties to the transfer will be responsible for obtaining the legal services necessary to accomplish the transfer. Transfer closing will be accomplished in accordance with OGC's instructions.

(10) When the transferee will be an eligible applicant, any development funds not to be refunded remaining in the transferor's supervised bank account will be transferred to the transferee's supervised bank account simultaneously with the closing of the transfer for use in completing planned development. All funds remaining in the supervised bank account will be refunded to FHA as a condition of transfer to an ineligible applicant.

(f) *Debt assumption or release from personal liability.* In each case where the full amount of the debt is assumed, or a release from personal liability is otherwise approved under this subpart, and all of the security is being transferred, Forms FHA 460–5, FHA 460–9, FHA 451–1, "Receipt for Payment," and FHA 465–8 will be completed and executed simultaneously with the closing of the transaction. The original of Forms FHA 460–5 or FHA 460–9 (including a signed copy for insured loan), Form FHA 451–1 when applicable, and a signed copy of Form FHA 465–8 will be transmitted immediately to the Finance Office. If a loan is involved, Form FHA 440–3, "Record of Actions," also will be sent to the Finance Office.

(g) *Transfer not completed.* If for any reason the transfer is not completed after approval, the Finance Office will be notified to resume servicing the account in the name of the transferor.

§ 1861.86 Voluntary conveyance of security to FHA.

(a) *General.* Voluntary conveyance should be considered only after the borrower has exhausted all reasonable efforts to liquidate the loan either through sale of its property or transfer and assumption.

(1) The State Director, subject to the policies outlined in this paragraph, is authorized to approve a voluntary conveyance with or without release of liability when the present market values of the property to be conveyed to the Government does not exceed $250,000.

(2) The borrower will complete and properly execute Form FHA 465–4, "Offer to Convey Security." A warranty deed using a State-approved form or a deed meeting the requirements of § 1807.2(e) (2) of this chapter and approved by OGC will be required and, whenever possible, completed and signed simultaneously with Form FHA 465–4; however, it will not be recorded until closing of the transaction. Any water rights not fully conveyed in the deed, any necessary assignments or transfers of water stock or membership certificates, or other water right title documents required will be obtained simultaneously with the execution of Form FHA 465–4 whenever possible, and in no case later than the closing of the transaction. Proposed bill of sale listing personal property items will be included.

(3) When the borrower's offer provides for less than full satisfaction of the account but is equal to the present market value of the security less any liens that are to remain outstanding, the State Director may accept the offer subject to the conditions outlined in Form FHA 465–4. If the offer provides for full satisfaction of all FHA debts, it may be accepted provided the value of the security less any liens to remain outstanding is sufficient to satisfy the FHA debt. If the offer to convey in full satisfaction of FHA debts is not acceptable, it will be returned to the county supervisor who will attempt to obtain an offer which will convey the security for its value as determined by the FHA.

(4) When an insured loan not held by the insurance fund is involved and the State Director decides to accept the offer to convey, he will request the Director, Finance Office, to have the insured loan assigned to the Agriculture Credit Insurance Fund (ACIF).

(5) Any funds remaining in the borrower's debt service, reserve or operation and maintenance accounts will be paid to FHA prior to closing the conveyance.

(6) Any funds remaining in the supervised bank account will be applied as a refund prior to assembling the voluntary conveyance docket.

(7) When a prior lien(s) exists, such lien(s) will be paid by standard Form 1034 only if it is determined that a substantially greater recovery on the Government's investment can be obtained from the sale of the real estate without the lien(s) than could be otherwise obtained, or the property is suitable for sale to an eligible applicant subject to the terms of the prior lien(s) and the holder of the prior lien(s), where his permission is necessary, will not agree for the Government to acquire the property and resell it subject to his lien(s). If the property is acquired subject to prior lien(s), any required payments on the prior lien(s) may be made while title of the property is held by the Government. All junior liens on the property except taxes and assessments which are or will become a lien on the property must be satisfied by the borrower without FHA assistance, unless in special circumstances it is clearly advantageous to FHA to make advances for the payment of such liens.

(b) *Release of liability.* Release of liability will be in accordance with the following:

(1) When the present market value of the security being conveyed less the amount of the prior lien(s) is equal to or exceeds the total FHA debt, it will be the policy to release the borrower from liability.

(2) When the present market value of the security is less than the total FHA debt, the State Director will determine whether the borrower is to be released from liability. This determination will be based upon the reasonable debt-paying ability of the borrower and recommendation of the county committee. In arriving at a determination of the reasonable debt-paying ability of the borrower, the State Director will consider its assets and income at the time of the proposed conveyance. If the county committee recommends a release of liability, a recommendation similar to the following will be recorded on Form FHA 440–2 in the blank space after item No. 10:

In our opinion (Name of Borrower(s)) has no reasonable debt-paying ability taking into consideration its assets and income at the time of the conveyance. The borrower has cooperated in good faith, used due diligence to maintain the security property against loss, and otherwise fulfilled the covenants incident to the loan to the best of its ability. Therefore, we recommend that the borrower be released from personal liability for any balance due on the secured indebtedness upon conveyance of the property to the Government.

(c) *Processing*—(1) *Docket submission.* When the State Director determines that voluntary conveyance to FHA is appropriate, he will instruct the county supervisor to assemble a voluntary conveyance docket and submit it to the State office along with the borrower's county office case folder(s).

(2) *Amount.* If the amount to be conveyed is more than $250,000, the voluntary conveyance docket and other pertinent information along with the State Director's recommendation will be submitted to the national office for review and authorization to approve.

(3) *Voluntary conveyance docket.* The voluntary conveyance docket will include the forms and documents listed in instructions available in all FHA offices.

(4) *Taxes.* When Form FHA 465–4 is submitted to the State Director, standard Form 1034 will be attached thereto for the payment of any taxes and assessments which are a lien or will become a lien on the property, or water assessments, or charges to protect the right to receive water, which are due and payable and which the borrower is not required to pay by the terms of Form FHA 465–4.

(5) *Title examination and closing instructions.* When a decision to accept the borrower's offer is made, title examination will be accomplished in accordance with advice of OGC. Title defects and encumbrances will be removed by the borrower except those recited in the FHA mortgage or subsequently approved by the FHA. When title defects and encumbrances have been removed, the voluntary conveyance docket including the title examination information will be submitted to OGC for review and issuance of closing instructions. The State Director's transmittal memorandum will include information as to items of expense incident to conveyance of title which have been paid by the FHA but are not shown on the statement of account, items of expense which are to be paid by the FHA, a statement as to whether the account is to be fully satisfied, and a request for preparation of necessary legal instruments not required to be prepared by the borrower's attorney.

(6) *Closing of conveyance.* The conveyance transaction will be closed in accordance with closing instructions issued by OGC. Expenses incident to closing the transaction to be paid by FHA will be handled in accordance with prescribed requirements. After the transaction is closed, all appropriate items will be returned to OGC for review. After OGC determines that the transaction has been properly closed, all documents will be returned to the State Director together with the advice as to the date when title to the properly was vested in the Government. A copy of OGC's memorandum to the State Director will be forwarded to the Finance Office. Property insurance will be handled in accordance with § 1806.4(b)(3) of this chapter. All other insurance such as personal liability or workmen's compensation will be canceled. Ordinarily, the fidelity bond coverage will also be dropped. However, in individual cases such as when a caretaker will continue to operate the facility and will be handling a substantial amount of revenue, the State Director may require continuance of fidelity bond coverage.

(7) *Credit of value of property on indebtedness.* The credit to be allowed on the account will be either the value of the security to be conveyed less the amount of any prior liens as determined by a present market value appraisal, or the total amount of the indebtedness owed on the account after all expense items referred to in subparagraph (6) of this paragraph have been charged thereto, whichever is less. After the transaction is closed and the amount of the credit to be allowed on the account is determined by the State Director, Form FHA 465–6, "Advice of Mortgaged Real Estate Acquired," and where applicable, Form FHA 465–8 will be completed and transmitted to the Finance Office by the State Director. The county supervisor will inventory and appraise personal property and submit list of items to the Finance Office.

(8) *Satisfied account.* The Finance Office will stamp the borrower's note "satisfied by surrender of security and release from liability" when the account is fully satisfied or the borrower is released from personal liability for any deficiency. The Finance Office will forward the stamped note to the county supervisor for delivery to the borrower.

(9) *Unsatisfied account.* When the account is not fully satisfied by surrender of the security and the borrower is not released from personal liability, the State Director will reclassify the account as collection-only by submitting Forms FHA 404–1, "Case Reclassification," FHA 450–10, "Advice of Borrower's Change of Address or Name," and FHA 465–6 to the Finance Office. He will accelerate the unpaid indebtedness by written notice to the borrower with a copy to the Finance Office. The Finance Office will retain the note(s) and send the county office a current Form FHA 451–11. Upon receipt of Form FHA 451–11, the county supervisor will reconcile the loan record card with the statement of account and service the loan as collection-only in accordance with Subpart A of this part.

§ 1861.87 Foreclosure.

Foreclosure action will be initiated when liquidation has been decided upon and all reasonable attempts to liquidate the loan through voluntary sale, transfer, or voluntary conveyance have been exhausted, and a substantial net recovery can be obtained on the FHA account(s).

(a) *National office authorization.* Foreclosure will not be initiated without prior authorization of the national office. The State Director will forward the docket, a report completed in accordance with the form, "Report on Association Problem Case (Association-Type Projects)," a statement of essential facts, and his recommendation to the national office requesting authority to proceed with foreclosure.

(b) *Processing foreclosure.* Upon receipt of national office authorization, the State Director will forward the docket to OGC requesting necessary instructions. The State Director, with the assistance of OGC, will be guided by the following:

(1) *Prior lienholders.* Prior lienholders will be provided an opportunity to institute the foreclosure proceedings with the FHA taking the action necessary to protect the interest of the Government. If the prior lienholder is unable or unwilling to foreclose, FHA will institute foreclosure proceedings, subject to the prior lien. Whether foreclosure of the FHA mortgage will be subject to the prior lien will depend upon such factors as the State law, the action or inaction of the prior lienholder, the condition of the prior lien account, and the amount of the prior lien debt in relation to the FHA debt. When a prior lien foreclosure sale is to be held, the State Director will immediately forward the docket, a copy of the OGC's opinion, a statement of all facts essential to a decision, and his recommendations to the national office for a review and advice as to further handling.

(2) *Existing leases or other agreements.* If the foreclosure is made subject to a lease or other agreement in which the lessor's interest is acquired by FHA through the foreclosure sale, the original or a copy of the lease will be submitted to the Finance Office along with Form FHA 465–6 for processing. Any oral lease in effect at the time the Government acquires the property will be reduced to writing in a form approved by the State Director with the concurrence of OGC, and its execution by the lessee will be obtained if possible. The lessee will be notified in writing that the Government has acquired the lessor's rights under the lease and directed to remit all payments to the county office. Payments to FHA under a lease which by its terms were due and payable prior to the date of the foreclosure sale will be applied first on any deficiency claim resulting from the foreclosure and then on any other FHA claim against the borrower. Any surplus remaining will be remitted to the borrower. Payments due and payable to the FHA after the date of acquisition pursuant to foreclosure will be collected and forwarded to the Finance Office as miscellaneous income. Receipts for collection made in accordance with this paragraph will be issued to: "Lease proceeds from property formerly owned by (borrower's name and case number) and leased to (name of lessee)." After a foreclosure sale is held, if a redemption period is involved and the borrower has possession of the property during such period or a right to lease proceeds during the redemption period, a lease will not be obtained by the Government or be sent to the Finance Office until the redemption period has expired and the Government has a right to such proceeds.

(3) *FHA debt acceleration.* Unpaid FHA debts will be accelerated unless OGC advises such action is unnecessary. Form FHA 455–21, "Notice for Acceleration and Demand for Payment," may be used as a guide for preparing the notice. After issuance of the acceleration notice, account and security servicing actions, including payment of insurance and taxes, debt acceleration will be taken only with the advice of OGC. Expenses incident to the foreclosure action which are approved by OGC for payment by FHA will be paid in accordance with prescribed requirements available in all FHA offices. If the OGC advises that a credit to the borrower's account or a standard form 1034 will not be acceptable for payment of the FHA bid, the State Director will obtain a check from the Finance Office for making the payment. Standard Form 1034 will be used for this purpose.

(4) *Obtaining notes from Finance Office.* For a direct loan or an insured loan held in ACIF, the State Director will request the Finance Office to send the original or conformed copy of the note to the county office. For an insured loan not held in ACIF, the State Director will request the Finance Office to have the loan assigned to the ACIF in accordance with Part 1873 of this chapter, and provide him with the original or conformed copy of the note.

(5) *Certified statements of account.* Form FHA 451–10, "Request for Statement of Account," will be forwarded to the Finance Office to obtain a statement of account for each account to be included in the foreclosure and to request the Finance Office not to issue any statements of account to the borrower until further notice.

(6) *Funds remaining in supervised bank account.* The State Director will prepare an order to the appropriate bank for withdrawal of any funds remaining in the supervised bank account. These funds will be applied as an extra payment.

(7) *Title evidence.* OGC will inform the State Director regarding title evidence requirements.

(8) *Title defects.* Ordinarily, no curative action will be taken with respect to title defects before foreclosure sale. However, where for special reason the State

V 37-67 APR 6 72 XUM

Director, with the advice of OGC, determines it would be in the best interest of FHA to cure certain defects before the foreclosure sale, the State Director may authorize the necessary curative action.

(9) *Deficiency judgments.* If it appears that the recovery to FHA from a sale by foreclosure will be insufficient to fully satisfy the FHA debt, the foreclosure action does not automatically result in a deficiency judgment, and if there are other assets from which recovery can likely be made, a deficiency judgment will be obtained if legally permissible. When a judgment is obtained, the account will be classified as a judgment case and the county supervisor will send Form FHA 455–20, "Notice of Judgment," to the Finance Office and the account will be serviced in accordance with § 1871.35(d) of this chapter. When action to obtain a deficiency judgment is pending at the time Form FHA 465–6 is sent to the Finance Office, the fact that it is pending will be indicated on Form FHA 465–6. When a deficiency judgment is not obtained, the borrower will be classified as collection-only, if appropriate, and Forms FHA 404–1 and FHA 450–10 will be sent immediately to the Finance Office and the account will be serviced accordingly.

(10) *Bidding.* The State Director will establish the maximum amount of the FHA bid and he or an employee designated by him is authorized to bid on behalf of the FHA. The FHA employee will make only one bid which will be for the authorized maximum bid. Such bid will be the estimated resale value of the security or gross investment, whichever is less.

(i) The estimated resale value means the amount for which the FHA could expect to resell the property in its present condition, on terms of 20 percent down with the balance payable in five equal annual installments with interest calculated in accordance with § 1861.85(c) and subject to any prior liens that will remain outstanding after the foreclosure sale. In establishing the estimated resale value, the State Director will consider the effect that any outstanding mineral rights, easements, other interest, or title defects will have on the resale of the property, and any other pertinent information affecting or indicating the resale price including an appraisal report showing present market value.

(ii) Gross investment means the total amount of the FHA debt plus all advances to be made by the FHA and charged to the mortgage debt before the foreclosure sale, plus the amount of any prior liens or other costs which the OGC advises must be paid from proceeds of the foreclosure sale.

(11) *Report on sale.* Immediately after a foreclosure sale the State Director will furnish OGC a report giving complete information relative to the sale, including a copy of Form FHA 465–6. The OGC will provide a final opinion regarding the foreclosure including any necessary additional instructions. If the FHA is the successful bidder at the foreclosure sale, Form FHA 465–6 will be completed and forwarded to the Finance Office by the county supervisor as soon as all information necessary for completion of the form is available without waiting for the final opinion of OGC. The Finance Office will be advised by memorandum of the date the Government actually acquires title to the property if different from the date of the foreclosure sale and any other pertinent information relating to redemption rights. The form will be dated the date of the sale.

(12) *Cancellation of foreclosure action.* When the State Director determines that foreclosure is unnecessary, he with the concurrence of OGC will notify the Finance Office and the county supervisor. The loan account will be reinstated. Any expenses incurred prior to cancellation of foreclosure action will be paid by the borrower.

(13) *Additional information.* The county supervisor will complete Form FHA 455–22, "Information for Litigation," as additional information when legal action is recommended which will involve the U.S. Attorney.

§ 1861.88 Mergers.

(a) *General.* State Directors are authorized to approve mergers or consolidations (which are herein referred to as mergers) when the resulting association will be eligible for an FHA loan and assumes all liabilities and acquires all assets of the merged borrowers. Mergers may be accomplished when:

(1) The merger is in the best interest of the Government and the merging borrower.

(2) The resulting borrower can meet all required operating and maintenance expenses, debt repayment, and maintain required reserves.

(3) All security property can be legally transferred to the resulting borrower.

(4) The membership of each organization involved is made aware of the proposed merger and a majority of the members of each is in favor of the proposal.

(5) If the merger involves assumption of less than the full amount of the debt and the merging borrower (transferor) is to be released of liability, the county committee recommendation must contain the statement contained in § 1861.85 (b) (6) (iii).

(6) The merger will not result in an outstanding FHA debt in excess of $4 million less the amount of any grants advanced to the merging borrowers.

(b) *Partial assumption.* Mergers which will involve assumption of less than the full amount of the FHA debt will be submitted to the national office along with the loan docket, comments of the OGC, and the State Director's recommendations for review and approval authorization.

(c) *Release of liability.* When all of the assets and liabilities of a merged borrower have been assumed by the resulting body, it will be the policy to release the merged borrower from liability.

(d) *Processing.* (1) When reamortization of one or more notes is being proposed in connection with the merger, § 1861.82 (f) will be followed.

(2) Forms FHA 460–5 and 460–9 will be executed as applicable by the resulting body.

(3) A loan for which the resulting body is eligible may be made in connection with a merger subject to the policies and procedures governing the kind of loan being made.

(4) The closing date of the merger will be the actual date the documents are prepared and the merger is effective.

(5) The county supervisor will submit the county office docket and other necessary forms and documents to the State Director for approval.

(e) *Insured loan.* If an insured loan is involved, the Finance Office will have the insured note assigned to the ACIF if the assumption agreement will change the terms of the note.

(f) *Merger not completed.* If for any reason the merger is not completed after the statement of the account has been received, the Finance Office will be notified to resume servicing the account in the names of the existing borrowers.

§ 1861.89 Special provisions applicable to Economic Opportunity (EO) cooperative loans.

(a) *Withdrawal of member and transfer to and assumption by new members of unincorporated cooperatives.* (1) Withdrawal of a member who is no longer utilizing the services of an association and transfer of his interest in the association to a new member who will assume the entire unpaid balance of the indebtedness of the withdrawing member may be permitted, provided the remaining members agree to accept the new member, and the transfer will not adversely affect the collection of the loan. The county supervisor will submit to the State office the county office file and the following:

(i) Form FHA 460–9, executed by the proposed new member.

(ii) County supervisor's statement of the current amount of the indebtedness involved.

(iii) A description and statement of the value of the security property.

(iv) Form FHA 442–15, "Membership Survey for Cooperative Association," for the proposed new member.

(v) A memorandum to justify the transaction.

(vi) Form FHA 440–2.

(vii) Form FHA 450–12, "Bill of Sale (Transfer by Withdrawing Member)," executed by the withdrawing member.

(viii) The form, "Agreement for New Member (With or Without Withdrawing Member)," as executed by the remaining members of the association, the proposed new member and the withdrawing member.

(2) If after review of the above information the State Director determines that the proposed new member is an eligible applicant and that there is justification for the transfer, he may approve the transfer and assumption by executing Form FHA 460–9.

(3) Upon completion of the above actions, the State Director may release the outgoing member from personal liability. Form FHA 465–8 will be used for this purpose.

(4) Form FHA 460–9 and if applicable, Form FHA 465–8 should be forwarded immediately to the Finance Office by memorandum with the advice that these forms are intended only to establish liability for a new member and to release an old member from liability.

(b) *Withdrawal of members from unincorporated cooperatives.*—(1) *Withdrawal when new member not available.* Withdrawal of a member who is no longer utilizing the services of an association may be permitted even though a new member is not available, provided:

(i) The State Director determines that:

(*a*) The remaining members have sufficient need for the property, and

(*b*) The withdrawal of the member will not adversely affect the collection of the loan.

(ii) The remaining members obtain from the outgoing member an agreement conveying the outgoing member's interest in the cooperative property to them. They may also wish to agree to protect the outgoing member against liability on the debt owed to FHA as well as any other debts. The form, "Agreement for Withdrawal of Member (Without New Member)," available in all FHA offices, may be used by the cooperative for the preparation of such agreement. The agreement will be between the withdrawing member and the remaining members of the cooperative, and FHA will not be a party to it. Upon execution of such an agreement, the State Director may release the outgoing member from personal liability. Form FHA 465–8 will be used for this purpose.

(iii) Form FHA 465–8 should be forwarded immediately to the Finance Office by memorandum with the advice that the form is intended only to release a withdrawing member from liability.

(c) *Addition of new members (no withdrawing member or transfer involved) for both incorporated and unincorporated cooperatives.* (1) A new member may be admitted to the association even though there is no withdrawing member, provided:

(i) The members of the association agree to accept the proposed new member, and

(ii) The State Director determines that the association owns adequate facilities to provide service to the new member.

(2) The county supervisor will submit to the State office the county office file and the following:

(i) Form FHA 460–9 executed by the proposed new member.

(ii) County supervisor's statement of the current amount of the indebtedness involved.

(iii) A description and statement of the value of the security property.

(iv) Form FHA 442–15 for the proposed new member.

(v) A memorandum to justify the transaction.

(vi) Form FHA 440–2.

(vii) The form, "Agreement for New Member (With or Without Withdrawing Member)," available in all FHA offices, as executed by the members of the association and the proposed new member.

(3) If after review of the above information the State Director determines that the proposed new member is an eligible applicant and that there is justification for the transaction, he may approve the transaction by executing Form FHA 460–9.

(4) Form FHA 460–9 should be forwarded immediately to the Finance Office by memorandum with the advice that the form is intended only to establish liability for a new member.

(d) *Deceased members of unincorporated associations.* Paragraph 10 of Form FHA 442–24, "Operating Agreement," provides that in case of the death of any member, the heirs or personal representative of the deceased member shall take his place in the association; this provision also covers sale of the decedent's interest in the association in case such sale is necessary for the payment of the debts of the estate.

(1) If the widow or other heirs do not wish to continue membership in the association, the remaining members may be permitted to continue to operate the property provided it is determined that FHA's financial interest will not be jeopardized. The remaining members should obtain from the deceased member's estate an agreement conveying the estate's interest in the cooperative property to them. They may wish to agree to protect the estate against liability on the debt to FHA as well as any other debts of the cooperative. If an agreement is obtained transferring the estate's interest in the cooperative property to the remaining members, and if such agreement protects the estate against liability on the debt to FHA, the State Director may release the outgoing member from personal liability. Form FHA 465–8 will be used for this purpose and should be forwarded immediately to the Finance Office by memorandum with the advice that the form is intended only to release the deceased member's estate interest from liability.

(2) The requirement of § 1871.39(f) of this chapter will be followed.

(e) *Action which affects individual members of unincorporated EO cooperative security.* The borrower will be expected to protect his own interest in condemnation, trespass, quiet title, and other cases affecting the security. The county supervisor will immediately furnish the complete facts concerning any action taken against individual members of unincorporated cooperatives to the State Director together with the county office case file.

§ 1861.90 Care, management, and disposal of acquired property.

Property acquired by FHA will be handled in accordance with Subpart C of Part 1872 of this chapter.

§ 1861.91 Water and waste disposal systems which have become part of an urban area.

(a) Water and/or waste disposal systems serving what were formerly rural areas but have now become a part of an urban area due to the growth of an urban community will be serviced as follows:

(1) If it is not practical for the urban community to immediately purchase the facility by paying FHA's debt in full or accept a transfer of the debt on an ineligible applicant basis, and if both the borrower and the urban community desire that the urban community operate and maintain the borrower facilities, the FHA borrower may, with prior approval of the national office, enter into a lease-purchase type arrangement with the urban community which will include:

(i) The urban community agreeing to:

(*a*) Assume responsibility for operation and maintenance of the facility, subject to nondiscrimination requirements and other requirements, to be specified in the agreement between the parties, which are applicable to the borrower, and

(*b*) Pay the association annually an amount necessary to enable it to meet all its obligations including reserve account requirements.

(ii) The FHA borrower agreeing to:

(*a*) Retain its corporate existence until FHA has been paid in full, and if the parties desire;

(*b*) Convey title of the facility to the urban community when the FHA debt has been paid in full.

(2) The State Director, with advice and guidance of OGC, will review the proposed agreement drafted by the borrower or the urban community. This draft agreement with the docket, any additional pertinent information, the State Director's recommendation, and OGC's comments will be forwarded to the national office for review and approval authorization.

§ 1861.92 Determining present market value.

(a) The value of security to be subordinated, sold, transferred, voluntarily conveyed, or foreclosed under this subpart will be determined by the State Director as follows:

(1) Where real estate and/or chattels are being disposed of which represent a relatively small portion of the total value of the security property, the State Director will determine that they are being disposed of at a reasonable price. He may require a current appraisal report.

(2) Where real estate or chattels are being disposed of represent a relatively large portion of the total value of the security property, the sale price will be at least the present market value.

(3) The State Director will require a current appraisal report completed in accordance with Subpart A of Part 1809 of this chapter.

§ 1861.93 Development grants.

In any case where it appears that the terms of the grant agreement may have been violated, the State Director will forward the docket to OGC for review and comments. After receipt of OGC's comments, the State Director will forward the docket, a copy of OGC's comments, and a statement of essential facts

V 37-67 APR 6 72 XUM

along with his recommendations to the national office.

§ 1861.94 Comprehensive planning grants.

Servicing problems with comprehensive planning grant recipients will be reviewed by the State Director with advice of OGC. The State Director will forward the grant docket, a copy of OGC's comments, and a statement of essential facts along with his recommendations to the national office.

§ 1861.95 Servicing planning advances.

Obligations incurred by recipients of planning advances may be declared nonreimbursable by the Administrator when the planned facility is not to be constructed, and the borrower does not have, nor can be reasonably expected to raise, the funds to repay such advances. In such cases the State Director will forward to the national office the following:

(a) A statement of essential facts including reasons why the borrower cannot repay the advance and his recommendation regarding declaration of all or part of the advance as nonreimbursable, and

(1) In the case involving the failure to locate an adequate water supply, copies of all well logs, survey reports, and other pertinent material supporting his recommendation, or

(2) In the case where the advance was based on particularly distressed economic conditions, the loan docket will be submitted. No commitment will be made to the borrower concerning cancellation of any obligations until written authorization has been received from the national office.

(b) In all cases where advances are not paid in full, plans, reports, well logs, and all other data assembled during investigation financed by the advance will be delivered to the county supervisor by the borrower.

§ 1861.96 Additional State Director's authorizations.

(a) State Directors are authorized to perform the following functions when they determine that such action likely will promote the loan or grant purposes without jeopardizing collectability of the loan or impairing the adequacy of the security, or will strengthen the security, or will facilitate, improve, or maintain the orderly collectability of the loan:

(1) Approve requests for permission to make changes in rules and regulations of associations, whether included in bylaws or resolutions or ordinances, including changes in rate schedules and fees.

(2) Approve association incurring additional indebtedness.

(3) Renew existing security instruments.

(4) Approve, with the concurrence of OGC, changes in a borrower's legal organization including revisions of articles of incorporation or charter and bylaws.

(5) Approve the extension or expansion of facilities and services.

(6) Require additional security when existing security is inadequate and the loan or security instruments obligate the borrower to give additional security, or in cases where the loan is in default and additional security is acceptable in lieu of other servicing actions.

(7) Release from mortgages securing Rural Renewal (RN) loan properties being sold by the borrower, provided the notes and mortgages given by the purchaser to the borrower are equal to the present market value and are assigned and pledged to the FHA and any money payable to the borrower is applied as an extra payment on the RN loan.

(b) All proposed servicing actions which the State Director is not authorized by this subpart to approve will be referred to the national office.

§ 1861.97 Payment in full.

Payment in full of a loan will be handled in accordance with Part 1866 of this chapter. The county supervisor will notify the bonding company in writing that the Government no longer has an interest in the fidelity bond and will release the FHA's interest in insurance policies in accordance with the applicable provisions of Part 1806 of this chapter. The county supervisor will release the FHA's interest in any other security in the manner prescribed by the State Director.

§ 1861.98 State requirements.

State requirements will be prepared with the advice and guidance of OGC, as necessary, to carry out this subpart. Each State requirement will include any and all particular information necessary to comply with appropriate State laws and regulations.

§ 1861.99 Redelegation of authority.

The State Director is authorized to redelegate in writing to the chief, community programs any authority to the State Director in this subpart.

§ 1861.100 Reports and recommendations.

Reports for association problem cases referred to in this subpart on certain forms available in all FHA offices, may have to be modified to provide for corporate execution, if appropriate, rather than the individual execution for which they were designed.

§ 1861.101 Servicing public bodies.

Servicing actions involving public bodies will be processed insofar as feasible in accordance with the other provisions of this subpart. The State Director is authorized to vary from such provisions to any extent that he with the advice and concurrence of OGC, determines reasonably appropriate to accomplish the servicing action.

Dated: March 31, 1972.

JOSEPH HASPRAY,
Deputy Administrator,
Farmers Home Administration.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 1]

NUTRITION LABELING

Proposed Criteria for Food Label Information Panel

Correction

In F.R. Doc. 72-4948 appearing at page 6493 in the issue of Thursday, March 30, 1972, in § 1.16(a) the word "must" in the second line should read "may".

[21 CFR Part 121]

AMINO ACIDS IN FOOD FOR HUMAN CONSUMPTION

Proposed Conditions of Safe Use in Food and Deletion From GRAS List

The Food and Drug Administration is conducting a comprehensive study of the individual substances listed in § 121.101 *Substances that are generally recognized as safe* of the food additive regulations (21 CFR 121.101).

In the FEDERAL REGISTER of June 25, 1971 (36 F.R. 12093), criteria were promulgated by which substances henceforth are to be judged for possible classification as generally recognized as safe (GRAS). Section 121.3(c) thereof provides that substances intended for human consumption for which limitations are necessary to assure safe use are not eligible for GRAS status. Accordingly, such substances must be removed from the existing GRAS list (21 CFR 121.101).

A number of amino acids are listed in § 121.101(d)(5) under "Nutrients and/or Dietary Supplements" as GRAS without further limitation. As provided in § 121.3(b), the mere natural presence of an amino acid in unprocessed foods in free or combined (as protein) form does not qualify it as safe for addition in a pure form as a component of a formulated or processed food. A risk to health exists when a free amino acid produces toxic or other adverse effects. A potential risk to health also exists when a free amino acid is added at a level that produces an "unbalanced" protein (one used inefficiently for growth), or that produces an amino acid-imbalanced diet, which affects the body's quantitative need for an amino acid.

Experimental animal studies have shown that the adverse effects of these imbalances are suboptimal food intake, growth retardation, and degeneration of certain organs which can lead to the animal's early death. Excessive intakes of most of the nutritionally essential amino acids (for example, histidine and methionine) and several of the nutritionally nonessential amino acids (for example, tyrosine and glycine) will produce undesirable biochemical and pathological effects in animals. This indicates a potential health risk for man if use is not limited.

The individual amino acids in whole egg protein are in such quantity and proportion that they comprise an ideal pattern for high quality protein. The content of a specific amino acid in this protein is exceptionally uniform when expressed as percent of the protein. It is therefore reasonable to conclude that the limit for safe addition of an amino acid to a food should be the difference between the amount of that amino acid present in whole egg protein (expressed as the percent of the total protein) and the amount present in the original protein to which the amino is being added. It is reasonable to conclude also that such addition of one or more amino acids is justifiable only to provide significant improvement in the nutritional quality of the original protein.

Accordingly, the Commissioner of Food and Drugs concludes:

(1) That the amino acids for nutritive purposes listed in § 121.101(d)(5) for human use should be revoked,

(2) That since the D-forms of these amino acids (except for methionine) are not metabolized as efficiently as the L-forms and the conversion of the D- to the L-form takes place only to a limited extent in the body, the safety of the D-forms is uncertain, thus limiting positive action to the L-forms (except for methionine);

(3) That a new food additive regulation ($121.1002 proposed below) should be established prescribing limitations for the safe and nutritionally significant use in human food of amino acids of specified stereochemical configuration for nutritive purposes only;

(4) That the addition of amino acids for nutritive purposes should be limited to those situations where the original protein has a protein efficiency ratio (PER) of less than 2.50, the addition of the additive(s) results in a PER of 2.50 or more for the finished food, and each individual additive included results in an increase of 0.25 or more in the PER;

(5) That exceptions can be made to the requirement of a PER of 2.50 or more for the finished food proposed in paragraph (c)(3) of § 121.1002. The Food and Drug Administration will consider petitions submitted by any interested person requesting this exception. Such petitions must include scientific data which establish the specific nutritional value (relative to human requirements) of protein in finished foods with PER values of less than 2.50 in which the biological quality of the original protein has been improved by adding an amino acid(s) in accord with all the other provisions of the proposed section.

(6) That, in lieu of requiring specific food additive approval for each use of an amino acid proposed below in order to show that it will significantly improve the biological quality of the protein, § 121.1002 should provide that it will be sufficient for the necessary test information to be retained in the user's files and to be made available upon request by representatives of FDA;

(7) That individual uses of the same or other amino acids for technological purposes other than nutritive will be authorized only by separate actions based on food additive petitions submitted to FDA; and

(8) That this action does not cover the inclusion of amino acids in foods which do not contain original intact protein; such uses will be the subject of separate actions.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201(s), 409(d), 701(a), 52 Stat. 1055, 72 Stat. 1784, 1787; 21 U.S.C. 321(s), 348(d), 371(a)) and under authority delegated to him (21 CFR 2.120), the Commissioner proposes that Part 121 be amended:

1. By revoking from § 121.101(d)(5) all amino acids for use in food for humans.

2. By adding to Subpart D a new section as follows:

§ 121.1002 Amino acids.

The food additive amino acids may be safely added as nutrients to intact protein-containing foods that are considered significant dietary protein sources in accordance with the following conditions:

(a) The food additive consists of one or more of the following individual amino acids in the free, hydrochloride salt, hydrated, or anhydrous form:

L-Alanine.
L-Arginine.
L-Aspartic acid.
L-Cysteine.
L-Cystine.
L-Glutamic acid.
Glycine.
L-Histidine.
L-Isoleucine.
L-Leucine.
L-Lysine.
DL-Methionine.
L-Methionine.
L-Phenylalanine.
L-Proline.
L-Serine.
L-Threonine.
L-Tryptophan.
L-Tyrosine.
L-Valine.

(b) The food additive meets the following specifications:

(1) As found in "Food Chemicals Codex," National Academy of Sciences-National Research Council (NAS–NRC) Publication No. 1406, First Edition (1966), and supplements thereto for the following:

L-Cystine.
L-Glutamic acid.
Glycine.
L-Leucine.
L-Lysine.
DL-Methionine.
L-Methionine.
L-Tyrosine.

(2) As found in "Specifications and Criteria for Biochemical Compounds," NAS–NRC Publication No. 1344, Second Edition (1967), for the following:

L-Alanine.
L-Arginine.
L-Aspartic acid.
L-Cysteine.
L-Histidine.
L-Isoleucine.
L-Phenylalanine.
L-Proline.
L-Serine.
L-Threonine.
L-Tryptophan.
L-Valine.

(c) The additive(s) is used or intended for use to significantly improve the biological quality of the original protein in intact protein-containing foods that are considered significant dietary protein sources, provided that:

(1) A reasonable daily adult intake of the finished food furnishes at least 6.5 grams of intact protein (based upon 10 percent of the daily allowance for the "reference" adult male recommended by the Food and Nutrition Board of the NAS–NRC ("Recommended Dietary Allowances," NAS–NRC Publication No. 1694, Seventh Edition (1968)).

(2) The original protein has a protein efficiency ratio (PER) of less than 2.50 (as determined by the method specified in paragraph (d) of this section).

(3) The additive(s) results in a PER of 2.50 or more for the finished food (as determined by the method specified in paragraph (d) of this section), unless an exception to this limitation has been authorized based on adequate data submitted in a petition. The Food and Drug Administration will consider petitions submitted by any interested person requesting such exceptions. Petitions must include scientific data establishing the specific nutritional value (relative to human requirements) of protein in finished foods with PER values of less than 2.50 in which the biological quality of the original protein has been improved by the addition of an amino acid(s) in accord with all of the other provisions of this section. When exceptions are granted, this section will be amended to indicate the approved exemptions from this limitation.

(4) Each additive results individually in an increase of 0.25 or more in the PER (as determined by the method described in paragraph (d) of this section). This increase must be substantiated by a statistically significant difference of at least a probability (P) value of less than 0.05.

(5) The amount of the additive added plus the amount naturally present in free and combined (as protein) form does not exceed the following levels of amino acids expressed as percent by weight of the total protein of the finished food:

V 37-67 APR 6 72 XUM

	Percent by weight of total protein (expressed as free amino acid)
L-Alanine	6.1
L-Arginine	6.6
L-Aspartic acid	7.0
L-Cystine (including L-cysteine)	2.3
L-Glutamic acid	12.4
Glycine	3.5
L-Histidine	2.4
L-Isoleucine	6.6
L-Leucine	8.8
L-Lysine	6.4
L- and DL-Methionine	3.1
L-Phenylalanine	5.8
L-Proline	4.2
L-Serine	8.4
L-Threonine	5.0
L-Tryptophan	1.6
L-Tyrosine	4.3
L-Valine	7.4

(d) Compliance with the limitations concerning PER under paragraph (c) of this section shall be determined by the method described in sections 39.166–39.170, "Official Methods of Analysis of the Association of Official Analytical Chemists," 11th Edition, 1970, if applicable, or if not applicable, then by appropriate animal feeding tests. If more than one amino acid is added, it will be necessary that the tests be designed to demonstrate that each added amino acid is required to significantly improve the biological quality of the protein as described in paragraph (c) of this section. Each manufacturer or person employing the additive(s) under the provisions of this section shall keep and maintain, throughout the period of his use of the additive(s) and for a minimum of 3 years thereafter, records of the tests required by this paragraph and shall make such records available upon request at all reasonable hours by any officer or employee of the Food and Drug Administration, or any other officer or employee acting on behalf of the Secretary of Health, Education, or Welfare and shall permit such officer or employee to inspect and copy such records and to make such inventories of stock as he deems necessary and otherwise to check the correctness of such records.

(e) To assure safe use of the additive, the label and labeling of the additive and any premix thereof shall bear, in addition to the other information required by the act, the following:

(1) The name of the amino acid(s) contained therein, including the specific optical and chemical forms.

(2) The amounts of each amino acid contained in any mixture.

(3) Adequate directions for use to provide a finished food meeting the limitations prescribed by paragraph (c) of this section.

Interested persons may, within 60 days after publication hereof in the FEDERAL REGISTER, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6–88, 5600 Fishers Lane, Rockville, Md. 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: March 28, 1972.

CHARLES C. EDWARDS,
Commissioner of Food and Drugs.

[FR Doc.72-5273 Filed 4-5-72;8:46 am]

[21 CFR Part 130]

METHADONE

Proposed Special Requirements for Use

Methadone has been under investigation for use in the maintenance treatment of narcotic addicts for approximately 9 years. For the past 2 years, interest in this use has grown steadily and intensely. In the FEDERAL REGISTER of April 2, 1971 (36 F.R. 6075), the Food and Drug Administration published § 130.44 (21 CFR 130.44) which established guidelines for investigating the use of methadone in maintenance treatment, for assuring the availability of valid data on such use, and for protecting the community from the hazards of diversion and abuse of methadone. These guidelines were developed in cooperation with the National Institute of Mental Health (NIMH) and the Bureau of Narcotics and Dangerous Drugs (BNDD), Department of Justice. To date the Food and Drug Administration and the Bureau of Narcotics and Dangerous Drugs have approved a substantial number of individual treatment units for use of methadone in treating addiction.

In addition to being used for investigational purposes, methadone has been prescribed by individual physicians and has been dispensed in medical institutions both for heroin detoxification and for maintenance therapy. It is not possible to determine how widespread the use of methadone for maintenance therapy has been outside investigational new drug plans, but there is evidence that this use is substantial.

The Food and Drug Administration, in cooperation with the National Institute of Mental Health and the Special Action Office for Drug Abuse Prevention, is undertaking an intensive inspection program to ascertain that existing programs operating under investigational new drug status (IND) meet the requirements of § 130.44. Within the immediate future, each program will be visited by an inspection team. Programs will be allowed to continue to operate if they meet the existing requirements of § 130.44. However, in addition, the proposed special requirements contained in this notice are being encompassed by the inspection in anticipation of improved requirements to be in effect in the future. To reduce the potential for diversion and misuses methadone is also being withdrawn systematically from pharmacies that are not dispensing it solely as part of approved treatment programs using methadone.

The use of methadone presents difficult and unique questions of medical judgment, law enforcement, and public policy that have not previously been encountered with other new drugs. Methadone presently represents the only drug for which there is substantial evidence of effectiveness in the treatment of heroin addiction. Although the short-term use of the drug has been shown to be relatively safe from a toxicity standpoint, more information is necessary on the toxicity of long-term use. Balancing the benefits against the risks, the Food and Drug Administration and numerous professional groups, advisory committees, and experts with whom it has consulted have concluded that the drug should be made available for all addicts who consent to use it in approved treatment programs. Retention of the drug solely on an investigational status appears to be no longer warranted.

At the same time, concern has been expressed that the usual form of NDA (new drug application) approval could lead to greater diversion or misuse of the drug, since it permits unrestricted distribution and allows physicians to use wide discretion in prescribing the drug. It has been suggested that the investigational status of the drug should be retained both to obtain additional toxicity data and as a control mechanism, at least until greater experience is obtained in reducing the potential dangers of diversion and medical misuse. The FDA recognizes these dangers and agrees that strong control must be maintained over the distribution and use of the drug. Since it is an opiod the potential for abuse is greater than for other drugs permitted for widespread medical use. The Food and Drug Administration could not conclude that it is safe if it cannot be properly controlled and would be required to disapprove its use. Some diversion and misuse will inevitably result from the availability of any drug, but it is particularly important that strong controls be available for methadone because of its known addicting potential. Finally, some have pointed out that it is premature to move completely from IND to NDA status because more information has yet to be obtained. The Commissioner concurs that unlimited approval of an NDA for methadone would not be appropriate at this time.

To provide the strongest possible control over the distribution and use of methadone, the Commissioner has concluded that both the IND and NDA control mechanisms should be utilized together with the authority granted under the Comprehensive Drug Abuse Control Act of 1970. Like an NDA, the drug will be available for treatment in all cases where there is medical justification. Like an IND controlled drug, there will be a permanent record showing the pattern of distribution of the drug because the institutions using the drug and the physicians and pharmacists operating in cooperation with the institution will be required to register all use of the drug. It will permit the Food and Drug Administration to withdraw methadone from its present unqualified approval status in pharmacies for detoxification, analgesic, and antitussive purposes. Thus, a new closed system of distribution will be established, under which any diversion or misuse can immediately be stopped at the source of supply. At the same time the drug will be available for use without all the IND restrictions for all addicts for whom it is medically justified.

The Commissioner recognizes that this is a novel form of control designed to reflect the unique problems posed by this drug. It has not previously been necessary to utilize IND and the NDA procedures concurrently in order to assure the safe and effective use of a new drug. Because of the seriousness of the medical and social problems associated with heroin addiction and because methadone is the only drug available for the treatment of heroin addiction, the Commissioner has concluded that it is no longer feasible to retain methadone solely for investigational use. It is therefore appropriate to add the special requirements set forth in this proposal in order to permit the drug to be available wherever medical opinion concludes that it should be used in the treatment of heroin addiction.

The Commissioner feels that the mandate in section 4 of the Comprehensive Drug Abuse Prevention and Control Act of 1970 can be appropriately applied to determining the conditions under which methadone may be safely used in treating narcotic addicts. This section requires the Secretary of Health, Education, and Welfare • • • after consultation with the Attorney General and with national organizations representative of persons with knowledge and experience in the treatment of narcotic addicts, to determine the appropriate methods of professional practice in the medical treatment of narcotic addiction. • • • The Secretary has delegated the authority to make this determination to the Commissioner of Food and Drugs.

In carrying out the requirements of the Comprehensive Drug Abuse Prevention and Control Act, the Commissioner has widely consulted and maintained close communications with the medical profession regarding use of methadone. Among those associations or groups consulted are the American Medical Association's Council on Mental Health, the National Research Council's Committee on Problems of Drug Dependence, the American Psychiatric Association's Commission on Drug Abuse, a task force of the American Society of Pharmacology and Experimental Therapeutics, the Joint Food and Drug Administration/National Institutes of Mental Health Psychotomimetic Advisory Committee, the FDA Drug Abuse Advisory Committee, the Special Action Office of the White House, and the National Institute of Mental Health. The consensus is strong among medical experts and the Food and Drug Administration that currently available evidence on the safety and effectiveness of methadone is sufficient to permit its use for the maintenance treatment of narcotic addiction as proposed in this notice.

On the basis of the above considerations, the Commissioner of Food and Drugs, after consultation with the associations and groups listed above and the Bureau of Narcotics and Dangerous Drugs, and with the endorsement of the Special Action Office of the White House, proposes that the special requirements set out in this notice be imposed upon the use of methadone. These new controls should not interfere with the availability of methadone in the treatment of severe pain or for detoxification of hospitalized addicts. Methadone for the treatment of severe pain on either an inpatient or outpatient basis will be available from hospital pharmacies.

It is proposed that patients under 18 not be admitted to a treatment program using methadone until additional study is completed to determine whether methadone may be safely and effectively used in their treatment. Such additional study must be conducted pursuant to all the requirements of the usual investigational new drug plan. This will mean that juveniles will be excluded from virtually all ongoing treatment programs using methadone except investigational programs with an IND approval. Comment is solicited as to whether the benefits of completing additional studies outweigh the risks of excluding these patients from treatment programs at this time with the likely result that they will continue to use injected heroin.

Under this proposal, the distribution of the drug is limited to treatment programs using methadone and to hospital pharmacies approved by the Food and Drug Administration. Requests for approval of programs received by FDA will be sent to BNDD for any comment it may have prior to FDA approval. BNDD may inspect any such program or may furnish FDA any relevant information from its files. FDA will give great weight to any information, comments, or recommendation received from BNDD in determining whether approval should be granted or, once granted, should be revoked. Methadone will no longer be permitted for antitussive use as the benefits of methadone for this use do not outweigh the risk involved from unsafe and ineffective use.

The Food and Drug Administration believes that State health or mental health authorities are essential to adequately controlling methadone, to assuring that the need for a methadone program exists, and to establishing criteria and guidance for rehabilitation efforts. Approval of a program by the State health or mental health authority designated under the provisions of section 314(d) of the Public Health Service Act or by his designee will be a part of approval of the treatment programs using methadone by FDA. The Food and Drug Administration will contact each State to establish the necessary channels of communication and to establish procedure for the implementation of the program, and will provide information upon request.

Section 130.44 *Conditions for investigational use of methadone for maintenance programs for narcotic addicts* (21 CFR 130.44) will continue in effect until a final order is issued after consideration of the comments submitted on this proposal. To increase control over methadone and to improve patient care prior to the finalization of this proposal, however, the guidelines in § 130.44 will be enforced as a requirement for a methadone maintenance investigational program. Any IND that varies in any material respect from the protocol in § 130.44 will require justification.

The following additional provisions will be required of all methadone maintenance investigational programs during the time between the publication of this proposal and its final promulgation:

1. Only oral dosage forms of methadone formulated in such a way as to reduce its potential for parenteral abuse and accidental ingestion will be provided patients for unsupervised use under approved programs.

2. The selection of patients is to be carried out in accordance with the requirements of item V, B, of the form "Application for Approval of Treatment Program Using Methadone" which appears in proposed § 130.48(b)(2)(i).

3. Dosage for detoxification and maintenance is to be in accordance with the requirements of item VIII, A, of the form "Application for Approval of Treatment Program Using Methadone" which appears in proposed § 130.48(b)(2)(i).

4. The recordkeeping requirements are to be in accordance with the information requested in the form "Annual Report for Treatment Program Using Methadone" which appears in proposed § 130.48(b)(2)(iii).

5. All patients in the methadone investigational program are to be given careful consideration for discontinuance of methadone in accordance with item VIII, D, of the form "Application for Approval of Treatment Program Using Methadone" which appears in proposed § 130.48(b)(2)(i).

6. Distribution of methadone will be restricted to direct shipments to approved investigational programs and hospital pharmacies, unless an alternative method of distribution is approved by FDA after consultation with BNDD.

The above stated provisions will be required of all new and ongoing methadone investigational programs within 30 days of the date of publication of this notice. An amended "Notice of Claimed Investigational Exemption for Methadone for Use in the Maintenance Treatment of Narcotic Addicts" shall be submitted by all ongoing programs and by new programs. These amended forms may be obtained from the Food and Drug Administration, 5600 Fishers Lane, Rockville, Md. 20852.

Accordingly, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 505, 701(a), 52 Stat. 1052–58 as amended, 1055; 21 U.S.C. 355, 371(a)) and the Comprehensive Drug Abuse Prevention and Control Act of 1970 (sec. 4, 84 Stat. 1241; 42 U.S.C. 257a) and under authority delegated to him (21 CFR 2.120), the Commissioner of Food and Drugs proposes that § 130.48 be amended by adding a new paragraph (b), as follows:

V 37-67 APR 6 72 XUM

§ 130.48 Drugs that are subjects of approved new drug applications and that require special studies, records, and reports.

* * * * *

(b) *Methadone.* Methadone is an approved drug for marketing as an analgesic and for the detoxification and treatment of narcotic addicts. Methadone has been under investigation for a number of years for use as an oral substitute for heroin in the maintenance treatment of narcotic addicts. The nature of the use of methadone in maintenance treatment is such that the drug may be used for long periods of time. Further chronic toxicity studies are needed to establish the safety of long-term use. In view of the usefulness of methadone and the tremendous social problems associated with the narcotics problem, the Commissioner of Food and Drugs finds that it is not in the public interest to withhold the drug from the market until further long-term studies have been completed. In view of problems of abuse and misuse associated with the widespread availability of methadone, adequate controls are essential for the safe use of the drug. The drug should nevertheless continue to be available for treatment of severe pain in patients where no substitute therapy is suitable. In view of these considerations, the Commissioner of Food and Drugs has concluded that it is essential to the public interest to prescribe detailed conditions for safe and effective use of methadone. Methadone maintenance treatment will be permitted under both the IND and NDA control mechanisms established in the statute and regulations. These conditions of use are intended to assure that the required studies for assessing the safety of the long-term administration are performed, to monitor records and determine that required reports are maintained, to maintain close control over distribution and availability of the drug, and to detail responsibilities for such control:

(1) The following conditions must be met in order for methadone to be used for maintenance and detoxification in connection with a treatment program using methadone:

(i) The drug is limited to oral dosage forms formulated in such a way as to reduce its potential for parenteral abuse and accidental ingestion.

(ii) The manufacturers of methadone will develop additional data from chronic animal toxicity studies in which the drug is administered orally at high doses to dogs or monkeys for 1 year and rats for 18 months or mice for 2 years. Observations will include effects on behavior, growth, food and water consumption, blood and urine chemistry, hematological systems, cardiovascular and respiratory systems. Postmortem examinations will include complete gross and histopathological examinations. Reproduction studies following the FDA 1966 guidelines will be performed.

(iii) Further chronic clinical studies with particular attention to the toxicity of methadone in the hematopoietic, cardiovascular, endocrine, hepatic, and immunological systems will be performed under federally sponsored programs.

(iv) Reports of studies will be submitted pursuant to § 130.13.

(v) At the end of each year after the date of approval, representatives of the Food and Drug Administration, the applicant, appropriate experts, and, if necessary, the investigator(s) will meet to determine whether or not clinical studies should be continued.

(vi) Shipments of the drug are restricted to direct shipments by the holders of approved or investigational new drug applications for methadone to approved treatment programs using methadone. Alternative methods of distribution may be used if they are approved by FDA after consultation with the Bureau of Narcotics and Dangerous Drugs. These treatment programs using methadone must have been reviewed by the appropriate State health or mental health authority designated pursuant to section 314(d) of the Public Health Service Act, or his designee, and notification of the program's approval must have been received from the Food and Drug Administration. Prior to such notification, applications for treatment programs using methadone shall be reviewed by FDA and shall be sent by FDA to BNDD for any information, comments, or recommendations it may have.

(2) A treatment program using methadone shall be approved by FDA if all of the following conditions are met:

(i) The person assuming responsibility for the program must complete, sign, and file in triplicate with the Food and Drug Administration a Form FD ------, "Application for Approval of Treatment Program Using Methadone" as follows:

Form FD ------ —Application for Approval of Treatment Program Using Methadone

Name of other identification of program ----
Address ----------

COMMISSIONER,
Food and Drug Administration,
Bureau of Drugs (BD–22),
Rockville, Md. 20852.

DEAR SIR: As the person (program director) responsible for this program, I submit this request for approval of a treatment program using methadone to provide maintenance treatment and detoxification for narcotic addicts. I understand that failure to abide by the requirements described below are a violation of the law and may result in revocation of approval of my application, seizure of my drug supply, an injunction, and criminal prosecution.

I. Attached is evidence to indicate approval of the program by the State authority designated pursuant to section 314(d) of the Public Health Service Act (or his designee).

II. Attached is the name, complete address, and a summary of the scientific training and experience of each physician and all other professional personnel having major responsibilities for the program and rehabilitative efforts and a signed Form FD ------, "Medical Responsibility Statement for Treatment Program Using Methadone" for every licensed practitioner authorized to prescribe, dispense, or administer methadone under the program. (Copies of the required form are obtainable from this agency at the same address to which this application is mailed.)

III. Attached is the name, address, and description of each hospital, institution, clinical laboratory facility, or other facility available to provide the necessary services. The program must have ready access to a comprehensive range of medical and rehabilitative services. These shall be described and shall comply with any guidelines established by Federal or State authorities.

IV. Attached is a statement of the approximate number of addicts to be included in the program.

V. The following minimal treatment standards will be used:

A. Attached is a statement which will be given to the addicts to inform them about the program. Participation in the program should be voluntary.

B. Care will be exercised in the selection of patients to prevent the possibility of admitting a person who has not been dependent upon heroin or other morphine-like drugs and thereby creating de novo a state of dependence upon methadone. The mere use of an opiate, even if periodic or intermittent, cannot be equated with drug dependence. Admission to the program will be dependent upon a history of physiological dependence on one or more opiate drugs (which will be recorded in the applicant's medical record) and evidence of current physiological dependence on opiates as demonstrated by the results of urinalysis and signs of opiate withdrawal. It is highly unlikely that an individual would be currently dependent on opiates without a positive urinalysis for opiates and/or without demonstrating at least the early signs of withdrawal (lacrimation, rhinorrhea, pupillary dilatation, and piloerection) during the initial period of abstinence. Other positive evidence of use can be obtained by noting the presence of needle tracks and by obtaining additional history from relatives and friends. The withdrawal signs may be observed during an initial period of hospitalization or while the individual is an outpatient undergoing diagnostic evaluation (history, physical examination, and laboratory studies). Loss of appetite and increased body temperature, pulse rate, blood pressure, and respiratory rate are also signs of withdrawal, but their detection requires inpatient observations.

C. An exception to the requirement for evidence of current physiological dependence on opiates will be allowed under exceptional circumstances. For example, methadone treatment may be initiated for an individual with a history of opiate addiction a short time prior to or upon release from a stay of 1 month or longer in a penal or chronic care institution. In these circumstances, the reasons for this exception, appropriate descriptions of the facilities, procedures, and qualifications of the personnel of the institution or other appropriate justification will be sent to the Food and Drug Administration at the time of filing this application or with the Annual Report.

D. Additional study is necessary to determine whether methadone may be safely and effectively used in the treatment of patients under 18. No such patients will be admitted to a treatment program using methadone unless prior approval of a Form FD 1571, "Notice of Claimed Investigational Exemption for a New Drug," has been obtained. Such approval will be granted only for a controlled clinical study and not for an ongoing treatment program.

VI. I agree that an admission evaluation and record will be made and maintained for each patient upon admission to the program and will consist of the following:

A. Personal, history including age, sex, educational level, employment history, criminal history, and past history of drug abuse of all types;

B. Medical history and history of psychiatric illness and current legal problems, if any; and

C. Physical examination results.

VII. I understand that there is a danger of drug dependent persons attempting to enroll in more than one methadone maintenance program in order to obtain quantities of methadone either for the purpose of self-administration or illicit marketing. To prevent such multiple enrollments, I will participate in whatever local, regional, or national patient identification system exists or is developed. Except in an emergency situation, methadone shall not be provided to a patient who is known to be currently receiving the drug from any other treatment program using methadone. Except as provided in item XV of this form, information that would identify the patient will be kept confidential pursuant to section 303 of the Public Health Service Act and will not be divulged in any civil, criminal, administrative, legislative, or other proceedings conducted by Federal, State, or local authorities.

VIII. The following minimal procedures will be used for ongoing care:

A. Dosage and administration for detoxification and maintenance:

1. The methadone will be administered in oral form.

2. In detoxification, the patient may be placed on a substitutive methadone administration schedule when there are significant symptoms of withdrawal. The dosage schedule indicated below is recommended but should be varied depending upon clinical judgment. Initially, a single oral dose of 15–20 milligrams of methadone will often be sufficient. Additional methadone can be provided if withdrawal symptoms are not suppressed or whenever symptoms reappear. When patients are physically dependent on high doses of methadone, it may be necessary to exceed these levels. With the exception of such patients, 40 milligrams per day in single or divided doses will usually constitute an adequate stabilizing dose level. Stabilization can be continued for 2 to 3 days and then the amount of methadone can be gradually decreased. The rate at which methadone is decreased will be determined separately for each patient. The dose of methadone can be decreased on a daily basis or, at most, in 2-day intervals. However, the amount of intake must always be sufficient to keep withdrawal symptoms at a tolerable level. In hospitalized patients a daily reduction of 20 percent of the total daily dose usually will be tolerated and causes little discomfort. When the total dosage has decreased to 20 milligrams per day, the dose can be reduced by 50 percent per day without producing significant discomfort. If a patient complains of undue distress, phenothiazine may be used in lieu of increasing the methadone dose. In ambulatory patients, a somewhat slower schedule may be needed.

In any event, if methadone is administered for more than 3 weeks, the procedure will be considered to have progressed from detoxification or treatment of the acute withdrawal syndrome to that of methadone maintenance even though the goal and intent may be eventual total withdrawal:

3. In maintenance treatment the initial dosage of methadone should control the abstinenece symptoms that follow withdrawal of heroin but should not be so great as to cause marked sedation or respiratory depression. It is important that the initial dosage be adjusted to the narcotic tolerance of the new patient. If such a patient has been a heavy user of heroin up to the day of admission, he may be given 20 milligrams orally for the first dose and another 20 milligrams 4 to 8 hours later or 40 milligrams in a single oral dose. If he enters treatment with little or no narcotic tolerance (e.g., if he has recently been released from jail or other confinement), the initial dosage can be one half these quantities. When there is any doubt, a smaller dose can be used initially. Then the patient should be kept under observation, and, if symptoms of abstinence are distressing, 10-milligram doses may be repeated as needed. Subsequently the dosage can be adjusted individually as tolerated and required with a maintenance level of approximately 40 to 100 milligrams daily. Occasionally, higher dosage levels may be required but must be justified in the medical record.

4. The methadone will be dispensed by a practitioner licensed by law to administer drugs and administered by him or under close supervision. For maintenance, initially (the first several weeks), the subject will receive the medication under observation daily, or at least 6 days a week. For detoxification, the drug will be administered daily under close observation. It is recognized that diversion occurs primarily when patients take medication from the clinic for self-administration. It is also recognized, however, that daily attendance at a clinic may be incompatible with gainful employment, education, and responsible homemaking. Therefore, in maintenance treatment, after demonstrating satisfactory adherence to the program regulations for at least 3 months and showing substantial progress in his rehabilitation, the patient may be permitted to reduce to twice weekly the times when he must receive the drug under observation. The rest of the time he may administer the drug himself, but no more than a 3-day supply will routinely be allowed in his possession. However, the requirement that the drug always be administered under supervision will be relaxed only in the following instances: (a) If the patient is responsibly employed on a regular and full-time basis, or (b) if the patient is a full-time student in a recognized institution of learning and is regularly in attendance and performing satisfactorily, or (c) if the patient is a part-time employee and part-time student and otherwise meets the criteria set forth in (a) and (b) above, or (d) if the patient is directly responsible, as a parent or as one in *loco parentis*, for the day-to-day welfare of one or more children under the age of 10 and customary observed medication intake would cause such a child or children to be without adequate supervision. Additional medication may also be provided in exceptional circumstances such as illness, family crises, or necessary travel when hardship would result from requiring the customary observed medication intake for such specific period as may be in question. In such circumstances the reasons for providing additional medication will be recorded.

B. In maintenance treatment, a urinalysis will be performed at least once a week for morphine and any other drug clinically indicated. Patients with take-home privileges for methadone should also be tested weekly for methadone. Urine specimens will be collected under direct observation. It is recommended but not required that patients be followed for other drug and alcohol abuse.

C. An adequate clinical record will be maintained for each patient. This record will contain the date of each visit, the results of each urinalysis, a detailed account of any adverse reactions, any significant physical or psychological disability, and other relevant aspects of the treatment programs. If a patient misses appointments for 2 weeks or more without notifying the program, the episode of care will be considered terminated, and this will be noted on his clinical record. If he returns for care, he will be readmitted and his record will be reopened.

D. All patients in the maintenance program will be given careful consideration for discontinuance of methadone after social rehabilitation has been maintained for a reasonable period of time. The patient will be given sufficient information regarding the methadone maintenance technique, so that he can elect to pursue the goal of eventually withdrawing from methadone and becoming drug-free.

IX. A report on Form FD ------, "Annual Report for Treatment Program Using Methadone" will be submitted to the Food and Drug Administration by January 30 of each year. (Copies of the form are available from this agency at the same address to which this application is mailed.)

X. To prevent diversion into illicit channels, adequate security will be maintained over stocks of methadone and over the manner in which it is distributed, as required by the Bureau of Narcotics and Dangerous Drugs.

XI. Accurate records traceable to patients will be maintained showing dates, quantity, and batch or code marks of the drug used. These records should be retained for a period of 3 years.

XII. In a maintenance program, the program director may establish satellite operations for treatment and dispensing of medication but will obtain and submit to FDA a signed FD ------, "Medical Responsibility Statement for Treatment Program Using Methadone," for every such operation. Only after patients have been stabilized at their optimal dosage level may they be referred to the satellite operations for obtaining medication and other treatment including any appropriate rehabilitative services. Subsequent to such referral, the program director will retain continuing responsibility for the patient's care, and the patient must be periodically checked at the primary facility of the program. No satellite operation will provide care for more than 10 patients at any one time, unless the program director has justified an increase and obtained approval from the State authority.

XIII. All representations in this application are currently accurate, and no changes will be made in the program until they have been approved by the Food and Drug Administration.

XIV. If the program or any individual under the program is disapproved, the program director will recall the methadone from the disapproved sources and return the drug to the manufacturer.

XV. Inspections of this program may be undertaken by the State authority and the Food and Drug Administration. The identity of the patient will be kept confidential except when the patient or his legal representative consents to the release of such information, when it is necessary to make followup investigations on adverse effect information related to the drug, when the medical welfare of the patient would be threatened by a failure to reveal such information, or when it is necessary to verify records pursuant to proceedings to revoke approval of the program.

Signature: ----------
(Program Director)

(ii) The following completed and signed form referred to in items II and XII of Form FD ------ is submitted in duplicate to the Food and Drug Administration:

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

FOOD AND DRUG ADMINISTRATION

Form FD ------—Medical Responsibility Statement for Treatment Program Using Methadone

(To be completed by the individual responsible for the dispensing of medication in

V 37-67
APR 6 72
XUM

each facility and every physician working in an approved program, whether ultimately responsible for dispensing medication or not.)

Name of practitioner licensed by law to administer drugs _____
Name of program or program director _____
Program address _____
Date _____

The undersigned _____ agrees to assume responsibility for the prescribing and administering of methadone under the above identified program and to abide by the standards for maintenance treatment and detoxification.

The name of each patient treated at a satellite facility and the frequency of visits will be registered with the program director. An annual report (Form FD _____), "Annual Report for Methadone Maintenance Programs" will be submitted to the program director for submission to FDA. The patient must always report to the same satellite operation unless prior approval is obtained from the program director for treatment at another satellite operation.

I. The following minimal treatment standards will be used:

A. A program statement will be given to the addicts to inform them about the program. Participation in the program should be voluntary.

B. Care will be exercised in the selection of patients to prevent the possibility of admitting a person who has not been dependent upon heroin or other morphine-like drugs and thereby creating de novo a state of dependence upon methadone. The mere use of an opiate, even if it is periodic or intermittent, cannot be equated with drug dependence. Admission to the program will depend upon a history of physiological dependence on one or more opiate drugs (which will be recorded in the applicant's medical record) and evidence of current physiological dependence on opiates as demonstrated by the results of urinalysis and signs of opiate withdrawal. It is highly unlikely that an individual would be currently dependent on opiates without a positive urinalysis for opiates and/or without demonstrating at least the early signs of withdrawal (lacrimation, rhinorrhea, pupillary dilatation, and piloerection) during the initial period of abstinence. Other positive evidence of use can be obtained by noting the presence of needle tracks and by obtaining additional history from relatives and friends. The withdrawal signs may be observed during an initial period of hospitalization or while the individual is an outpatient undergoing diagnostic evaluation (history, physical examination, and laboratory studies). Loss of appetite and increased body temperature, pulse rate, blood pressure, and respiratory rate are also signs of withdrawal, but their detection requires inpatient observation.

C. An exception to the requirement for evidence of current physiological dependence on opiates will be allowed under exceptional circumstances. For example, methadone treatment may be initiated for an individual with a history of opiate addiction a short time prior to or upon release from a stay of 1 month or longer in a penal or chronic care institution. In these circumstances, the reasons for this exception, appropriate descriptions of the facilities, procedures, and qualifications of the personnel of the institution or other appropriate justification will be sent to the Food and Drug Administration at the time of filing this form or with the annual report.

D. Additional study is necessary to determine whether methadone may be safely and effectively used in the treatment of patients under 18. No such patients will be admitted to a treatment program using methadone unless prior approval of Form FD 1571, "Notice of Claimed Investigational Exemption for a New Drug," has been obtained. Such approval will be granted only for a controlled clinical study and not for an ongoing treatment program.

II. I agree that an admission evaluation and record will be made and maintained for each patient upon admission to the program and will consist of the following:

A. Personal history including age, sex, educational level, employment history, criminal history, and past history of drug abuse of all types;

B. Medical history and history of psychiatric illness and current legal problems, if any; and

C. Physical examination results.

III. The following minimal procedures will be used for on-going care;

A. Dosage and administration for detoxification and maintenance:

1. The methadone will be administered in oral form.

2. In detoxification, the patient may be placed on a substitutive methadone administration schedule when there are significant symptoms of withdrawal. The dosage schedule indicated below is recommended but should be varied depending upon clinical judgment. Initially, a single oral dose of 15–20 milligrams of methadone will often be sufficient. Additional methadone can be provided if withdrawal symptoms are not suppressed or whenever symptoms reappear. When patients are physically dependent on high doses of methadone it may be necessary to exceed these levels. With the exception of such patients, 40 milligrams per day in single or divided doses will usually constitute an adequate stabilizing dose level. Stabilization can be continued for 2 to 3 days and then the amount of methadone can be gradually decreased. The rate at which methadone is decreased will be determined separately for each patient. The dose of methadone can be decreased on a daily basis or, at most, in 2-day intervals. However, the amount of intake must always be sufficient to keep withdrawal symptoms at a tolerable level. In hospitalized patients a daily reduction of 20 percent of the total daily dose usually will be tolerated and causes little discomfort. When the total dosage has decreased to 20 milligrams per day, the dose can be reduced by 50 percent per day without producing significant discomfort. If a patient complains of undue distress, phenothiazine may be used in lieu of increasing the methadone dose. In ambulatory patients, a somewhat slower schedule may be needed.

In any event, if methadone is administered for more than 3 weeks, the procedure will be considered to have progressed from detoxification or treatment of the acute withdrawal syndrome to that of methadone maintenance even though the goal and intent may be eventual total withdrawal.

3. In maintenance treatment, the initial dosage of methadone should control the abstinence symptoms that follow withdrawal of heroin but should not be so great as to cause marked sedation or respiratory depression. It is important that the initial dosage be adjusted to the narcotic tolerance of the new patient. If such a patient has been a heavy user of heroin up to the day of admission, he may be given 20 milligrams orally for the first dose and another 20 milligrams 4 to 8 hours later or 40 milligrams in a single oral does. If he enters treatment with little or no narcotic tolerance (e.g., if he has recently been released from jail or other confinement), the initial dosage can be one half these quantities. When there is any doubt, a smaller dose can be used initially. Then the patient should be kept under observation, and, if symptoms of abstinence are distressing, the administration of 10-milligram doses may be repeated as needed. Subsequently the dosage can be adjusted individually as tolerated and required with a maintenance level of approximately 40 to 100 milligrams daily. Occasionally, higher dosage levels may be required but must be justified in the medical record.

4. The methadone will be dispensed by a practitioner licensed by law to administer drugs and administered by him or under close supervision. For maintenance, initially (the first several weeks) the subject will receive the medication under observation daily, or at least 6 days a week. For detoxification, the drug will be administered daily under close observation. It is recognized that diversion occurs primarily when patients take medication from the clinic for self-administration. It is also recognized, however, that daily attendance at a clinic may be incompatible with gainful employment, education, and responsible homemaking. Therefore, in maintenance treatment, after demonstrating satisfactory adherence to the program regulations for at least 3 months and showing substantial progress in his rehabilitation, the patient may be permitted to reduce to twice weekly the times when he must receive the drug under observation. The rest of the time he may administer the drug himself, but no more than a 3-day supply will routinely be allowed in his possession. However, the requirement that the drug always be administered under supervision will be relaxed only in the following instances: (a) If the patient is responsibly employed on a regular and full-time basis, or (b) if the patient is a full-time student in a recognized institution of learning and is regularly in attendance and performing satisfactorily, or (c) if the patient is a part-time employee and/or part-time student and otherwise meets the criteria set forth in (a) and (b) above, or (d) if the patient is directly responsible, as a parent or as one in *loco parentis*, for the day-to-day welfare of one or more children under the age of 10 and customary observed medication intake would cause such a child or children to be without adequate supervision. Additional medication may also be provided in exceptional circumstances such as illness, family crisis, or necessary travel when hardship would result from requiring the customary observed medication intake for such specific period as may be in question. In such circumstances the reasons for providing additional medication will be recorded.

B. In maintenance treatment, a urinalysis will be performed at least once a week for morphine and any other drug clinically indicated. Patients with take-home privileges for methadone should also be tested weekly for methadone. Urine specimens will be collected under direct observation. It is recommended but not required that patients be followed for other drug and alcohol abuse.

C. An adequate clinical record will be maintained for each patient. This record will contain the date of each visit, the results of each urinalysis, a detailed account of any adverse reactions, any significant physical or psychological disability, and other relevant aspects of the treatment program. If a patient misses appointments for 2 weeks or more without notifying the program, the episode of care will be considered terminated, and this will be noted on his clinical record. If he returns for care, he will be readmitted and his record will be reopened.

D. All patients in the maintenance program will be given careful consideration for discontinuance of methadone maintenance after social rehabilitation has been maintained for a reasonable period of time. The patient will be given sufficient information regarding the methadone maintenance technique, so that he can elect to pursue the goal of eventually withdrawing from methadone and becoming drug-free.

IV. To prevent diversion into illicit channels, adequate security will be maintained over stocks of methadone under my control and over the manner in which it is distributed, as required by the Bureau of Narcotics and Dangerous Drugs.

V. All representations in this application are currently accurate, and no changes will be made in the program until they have been approved by the program director and the Food and Drug Administration.

VI. If I am disqualified, I agree to return any remaining stock of methadone to the parent program.

VII. Inspections of this program may be undertaken by the State authority and the Food and Drug Administration. The identity of the patient will be kept confidential except when the patient or his legal representative consents to the release of such information, when it is necessary to make followup investigations on adverse effect information related to the drug, when the medical welfare of the patient would be threatened by a failure to reveal such information, or when it is necessary to verify records pursuant to proceedings to revoke approval of the program.

(iii) The following completed and signed form refered to in item IX of Form FD _____, "Application for Approval of Methadone Program," is submitted in duplicate in accordance with the instructions in item IX.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

FOOD AND DRUG ADMINISTRATION

Form FD _____—Annual Report for Treatment Program Using Methadone

This form is to be completed in duplicate for each calendar year. One copy is to be sent to the Food and Drug Administration and one copy to the State authority on or before January 30.

1. Name of other identification of program _____
Address _____

Number of satellite units _____ (Attach a list showing address and person responsible for each unit).

2. Total Treatment Capacity _____

3. Drug Forms Dispensed:

Amount of each formulation dispensed (in grams) during the year:

Formulation	*Amount*
a. _____	_____
b. _____	_____
c. _____	_____

4. Number of individuals who applied to the program but were not admitted or given admission evaluation _____

5. Census of Patients Maintained on Methadone:

a. Number under care at the beginning of the year being reported _____

Of those in treatment at the beginning of the year:

(1) Number continuously under care through the year being reported (still under care) _____

(2) Number discharged or transferred to other types of programs and not readmitted _____

(3) Number discharged or transferred to other types of programs and readmitted (still under care) _____

(4) Number discharged and readmitted (no longer under care) _____

b. Number admitted to care during year—not previously treated in this program:

(1) Number still under care at the end of the year _____

(2) Number discharged or transferred to other types of programs and not readmitted _____

(3) Number discharged or transferred to other types of programs and readmitted (still under care) _____

(4) Number discharged and readmitted (no longer under care) _____

c. Number admitted to care during the year—previously treated in this program prior to the past year:

(1) Number still under care at the end of the year _____

(2) Number discharged or transferred to other types of programs and not readmitted _____

(3) Number discharged and transferred to other types of programs and readmitted (still under care) _____

(4) Number discharged and readmitted (no longer under care) _____

6. Demographic and treatment characteristics of patients under care at the end of the year being reported:

a. Give the number of males and females in each age category:

Age	*Sex*	
	Male	*Female*
Under 18	_____	_____
18–20	_____	_____
21–25	_____	_____
26–35	_____	_____
36–45	_____	_____
46+	_____	_____

b. For the year being reported, give the number of patients who have been under continuous care for the following periods of time:

Under three months	_____
3 months to one year	_____
One to two years	_____
Two to five years	_____
Over five years	_____

c. Total number of individuals treated to date _____

d. For the year being reported, give the number of patients stabilized at each dosage level:

Daily dosage, mgm.	*No. of patients*
Under 40	_____
40–59	_____
60–79	_____
80–99	_____
100–119	_____
120–160	_____
Over 160	_____

e. For the year being reported, give the number of patients in the past 8 weeks who have fallen in the following categories:

	No. of Patients
No positive urinalysis for opiates for 2 months or more	_____
Occasional positive urinalysis for opiates (monthly or less)	_____
Frequent positive urinalysis for opiates (more than once per month; still dependent)	_____
In program for less than 2 months	_____

7. Give the number of patients having significant adverse reactions, particularly reactions related to hematopoietic, cardiovascular, endocrine, and immunological functions (attach a completed copy of Form FD–1639 "Drug Experience Report" for each incident; forms obtainable from the Food and Drug Administration):

Type of reaction	*No. of patients*
_____	_____
_____	_____
_____	_____

8. Give the number of patients who have died while under methadone care (attach a completed copy of Form FD–1639 "Drug Experience Report" for each incident; forms obtainable from the Food and Drug Administration):

	No. of patients
a. Definitely methadone-related	_____
b. Not methadone-related	_____

Signature: _____
Program Director

3. Within 60 days after receipt of an application for a treatment program using methadone, the applicant will receive notification of approval or refusal.

4. Refusal or revocation of a program approval.

(i) Refusal or revocation of approval of a program may be proposed to the Commissioner of Food and Drugs by the Director of the FDA Bureau of Drugs, on his own initiative or at the request of representatives of the Bureau of Narcotics and Dangerous Drugs or the designated State authority.

(ii) Before presenting such a proposal to the Commissioner, the Director of the Bureau of Drugs or his representative will notify the program applicant of the proposed action and the reasons therefor and will offer him an opportunity to explain the matters in question in an informal conference and/or in writing. If an explanation is offered by the applicant but not accepted by the Bureau of Drugs and if the hearing is requested within 10 days after receipt of notification that the explanation is unacceptable, the Commissioner will provide the program applicant an opportunity for an informal hearing on the question of whether the applicant should be entitled to receive methadone for use in a treatment program. Representatives of the State authority and/or BNDD may participate in the conference with the Bureau official or with the Commissioner.

(iii) The Commissioner will evaluate all available information, including any explanation or assurance presented by the program applicant. If he finds that the program applicant has failed to submit adequate assurance that the conditions for receiving methadone for use in a program will be met or that the program applicant has repeatedly or deliberately failed to comply with the conditions for receiving methadone for treatment of addicts or that the applicant has deliberately submitted false information to the Food and Drug Administration, the Commissioner will notify the program applicant, the appropriate State officials, BNDD, and all other appropriate persons that the program applicant is not entitled to receive methadone for treatment of narcotic addicts.

(iv) If a program applicant has had a program application refused or revoked, such refusal or revocation may be reversed when the Commissioner determines that the applicant has presented adequate assurance that he will employ such drugs solely in compliance with the requirements for a methadone program.

5. Program directors will be allowed 3 months from the final promulgation of this paragraph in order to obtain the necessary approvals and establish procedures for adhering to these conditions. During this interim period the State authority may permit one or more hospitals in areas of the State without approved programs to dispense methadone for the detoxification and maintenance treatment of narcotic addicts. The holders of approved new drug applications will be notified by the Food and Drug

V 37-67
APR 6 72
XUM

Administration that methadone can be distributed to these hospital pharmacies after the State authority has so informed FDA.

6. Conditions for approving the use of methadone in analgesia and in hospitalized patients in detoxification.

(i) The drug is in oral or parenteral form.

(ii) Transportation is restricted to direct shipments to hospitals which have submitted a notification (FD ------ "Application for approval of Methadone Program,") to the Food and Drug Administration that they wish to receive the drug. The Food and Drug Administration will provide methadone manufacturers with the names of the hospitals that have submitted signed Forms FD ------, "Hospital Request for Methadone for Analgesia in Severe Pain and for Detoxification".

(iii) For a hospital to receive shipments of methadone for use as an analgesic and for detoxification, a responsible hospital official must complete, sign, and file in triplicate with the Food and Drug Administration a Form FD ------, "Hospital Request for Methadone for Analgesia in Severe Pain and for Detoxification," as follows:

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

FOOD AND DRUG ADMINISTRATION

Form FD- ------

Hospital Request for Methadone for Analgesia in Severe Pain and for Detoxification

Name of Hospital----------
Address ----------

COMMISSIONER,
Food and Drug Administration,
Bureau of Drugs (BD–22),
Rockville, Md. 20852.

DEAR SIR: I submit this notice of intent to receive supplies of methadone to be used for analgesia and detoxification. I understand that the failure to abide by the requirements described below may result in discontinuance of shipments of methadone, seizure of the drug supply on hand, injunction, and criminal prosecution.

1. The name of the individual (pharmacist) responsible for receiving and securing supplies of methadone is ----------

2. There are ------ beds in the hospital. (Give the number.)

3. A general description of the hospital and nature of patient care undertaken is attached.

4. The anticipated quantity of supply needed per year is ----------

5. Adequate security will be maintained over stocks of methadone to prevent diversion into illicit channels. All stocks will be secured in a locked cabinet or safe.

6. Methadone will be dispensed for detoxification of hospitalized patients only and for analgesia in severe pain for hospitalized and outpatients. If methadone is administered for treatment of heroin dependence for more than 3 weeks, the procedure passes from treatment of the acute withdrawal syndrome (detoxification) to methadone maintenance. Such treatment can be undertaken only by approved methadone maintenance programs. This does not preclude the maintenance of an addict who is hospitalized for treatment for medical conditions other than addiction and whose enrollment in a specific maintenance program has been verified by the hospital.

7. Prior to filling a physician's prescription for methadone for outpatients, I will obtain from the physician a statement indicating that all such prescriptions will be limited to use for analgesia in severe pain and his agreement to maintain records to substantiate such use. These records will be available in the hospital or made available at the request of the hospital administrator.

On January 30 of each year, the hospital will report to the Food and Drug Administration the names of all physicians who prescribed methadone for analgesia on an outpatient basis during the previous year.

8. Prescriptions will not be filled if they are written by a physician who has not submitted the required commitment to the hospital.

9. Accurate records are maintained showing dates, quantity, and batch or code marks of the drug used. The records are to be retained for a period of 3 years.

10. The Food and Drug Administration may inspect the supplies or use of the drug. The identity of the patient will be kept confidential except when the patient or his legal representative consents to the release of such information, when it is necessary to make followup investigations on adverse effect information related to the drug, when the medical welfare of the patient would be threatened by a failure to reveal such information, or when it is necessary to verify records pursuant to proceedings to revoke approval of the hospital.

Signature: ----------
(Hospital Official)

Interested persons may, within 90 days after publication hereof in the FEDERAL REGISTER, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6–88, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: April 3, 1972.

CHARLES C. EDWARDS,
Commissioner of Food and Drugs.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[33 CFR Part 82]

[CGD 72–67P]

CALCASIEU CHANNEL, LA., SABINE PASS, TEX. AND VENTURA MARINA, CALIF.

Boundary Lines of Inland Waters

The Coast Guard is considering amending the lines of demarcation for inland waters at Calcasieu Channel, La., Sabine Pass, Tex., and Ventura Marina, Calif. This amendment is being proposed to bring the line of demarcation descriptions into conformance with recent changes to aids to navigation in the affected locations.

Calcasieu Channel Lighted Whistle Buoy 1 has been discontinued in connection with the deepening and extension of the channel. Therefore, it is proposed to use Calcasieu Channel Lighted Whistle Buoy 20 in the boundary description. This proposed change moves the line of demarcation at Calcasieu Channel 500 yards to seaward.

Sabine Pass Lighted Whistle Buoy 1 has been discontinued in connection with the deepening and extension of the channel. Therefore, it is proposed to use Sabine Bank Channel Lighted Bell Buoy 18 in the boundary description. This proposed change moves the line of demarcation 900 yards seaward.

Because of a detached, offshore breakwater, Ventura Marina presents an unusual harbor entrance not clearly described by the general rules for boundary lines for inland waters (33 CFR 82.2). The proposed regulation provides a specific line of demarcation at the entrance to Ventura Marina.

Interested persons may participate in this proposed rule making by submitting written data, views, or arguments to the Executive Secretary, Marine Safety Council, U.S. Coast Guard Headquarters, Room 8234, 400 Seventh Street SW., Washington, DC 20590. Each person submitting comments should include his name and address and give reasons for any recommended change in the proposal. Copies of all written communications received will be available for examination by interested persons at the office of the Executive Secretary, Marine Safety Council.

All comments received before May 8, 1972, will be considered before final action is taken on this proposal. The proposed regulations may be changed in the light of comments received.

In consideration of the foregoing, it is proposed that Part 82 be amended by revising §§ 82.103, and 82.106 and adding § 82.144 to read as follows:

§ 82.103 Mississippi Passes, La., to Sabine Pass, Tex.

A line drawn from a point 5.1 miles, 107° true, from Pass a Loutre Abandoned Lighthouse to South Pass Lighted Whistle Buoy 2; thence to southwest Pass Entrance Midchannel Lighted Whistle Buoy; thence to Ship Shoal Daybeacon; thence to Calcasieu Channel Lighted Whistle Buoy 20; thence to Sabine Bank Channel Lighted Bell Buoy 18.

§ 82.106 Sabine Pass, Tex., to Galveston, Tex.

A line drawn from Sabine Bank Channel Lighted Bell Buoy 18 to Galveston Bay Entrance Channel Lighted Whistle Buoy 1.

§ 82.144 Ventura Marina.

(a) A line drawn from the south end of the detached breakwater to Ventura Marina Light 4.

(b) A line drawn 080° true from the north end of the detached breakwater to shore.

(Sec. 2, 28 Stat. 672, as amended, sec. 6(b)(1), 80 Stat. 938; 33 U.S.C. 151, 49 U.S.C. 1655(b); 49 CFR 1.46(b))

Dated: March 31, 1972.

G. H. READ,
Captain, U.S. Coast Guard, Acting Chief, Office of Merchant Marine Safety.

[FR Doc.72–5366 Filed 4–5–72;8:47 am]

[46 CFR Part 177]

[OGD 72–68P]

HULL STRUCTURE

Notice of Proposed Rule Making

The Coast Guard is considering amending the small passenger vessel (under 100 gross tons) regulations to require fire retardant fibrous glass reinforced plastic (FRP) construction for all FRP vessels built or certified after the date of promulgation of this rule. Currently certificated FRP vessels would be allowed to continue in service.

Interested persons may participate in this proposed rule making by submitting written data, views, or arguments to the Coast Guard (CMC), Room 8234, 400 Seventh Street SW., Washington, DC 20590. Each person submitting comments should identify the notice number, CGD 72–68P, any specific wording recommended, reasons for any recommended change, and the name, address and organization, if any, of the commentator. All comments received by May 8, 1972, will be fully considered and evaluated before final action is taken on this proposal.

Copies of all written communications received will be available for examination in Room 8234, Nassif Building, 400 Seventh Street SW., Washington, DC, both before and after May 8, 1972. The proposal contained in this document may be changed in the light of the comments received.

In the February 24, 1971 issue of the FEDERAL REGISTER (36 F.R. 3425), the Coast Guard published a notice of proposed rule making to amend the navigation and vessel inspection regulations. Included in the notice, and in the Merchant Marine Council Public Hearing Agenda, March 29, 1971 (CG–249), was Item PH 9–71, which proposed amendments to 46 CFR 177.10–1(c).

The Coast Guard held a public hearing on March 29, 1971 in Washington, D.C., on the amendments proposed in the notice. Interested persons were given the opportunity to submit comments both before and at the public hearing and to make oral comments concerning all the proposed amendments at the public hearing. Extension of time to submit written comments on the proposals was granted by a notice published in the April 10, 1971, issue of the FEDERAL REGISTER (36 F.R. 6902).

Eleven written comments were received on Item PH 9–71. In general, the comments evidenced confusion regarding the implementation and application of the proposed amendment. In order to eliminate possible sources of confusion, the original proposal is hereby withdrawn, and a new amendment is now being proposed.

The original proposal would have added paragraph (c) to 46 CFR 177.10–1 to require fibrous glass reinforced plastic constructed hulls of vessels regulated by Subchapter T to be of materials acceptable to the Officer in Charge, Marine Inspection, and to require resins used in general construction to be of a fire retardant type.

The proposal in this document would amend § 177.10–5 of Title 46, Code of Federal Regulations to require that each hull, structural bulkhead, deck, or deckhouse made of fibrous glass reinforced plastic on vessels that carry 150 passengers or less must be constructed with fire retardant resins, laminates of which meet military specification MIL–R–21607, except those vessels that were certificated on the date of promulgation of the rule and in continuous service under the certificate of inspection will be permitted to operate so long as they conform to maintenance requirements.

The Coast Guard has found that vessels of fibrous glass reinforced plastic that are constructed with resins that are not fire retardant do not have sufficient protection against fires. The proposal in this document is made to minimize such hazards on small passenger-carrying vessels constructed of fibrous glass reinforced plastic. In order not to create an undue burden on owners of existing vessels not constructed with this material, certification for carriage of 150 passengers or less would be permitted until approximately 6 months after promulgation of this rule.

In consideration of the foregoing, it is proposed to amend § 177.10–5 by adding paragraphs (a–1) and (a–2) to read as follows:

§ 177.10–5 Fire protection.

• • • • •

(a–1) Except for a vessel complying with the requirements contained in paragraph (a–2) of this section, each hull, structural bulkhead, deck or deckhouse made of fibrous glass reinforced plastic on each vessel that carries 150 passengers or less must be constructed with fire retardant resins, laminates of which have been demonstrated to meet military specification MIL–R–21607 after a 1-year exposure to weather. Military specification MIL–R–21607 may be obtained from the Commanding Officer, Naval Supply Depot, 5801 Tabor Avenue, Philadelphia, PA 19120.

(a–2) Each hull, structural bulkhead, deck or deckhouse made of fibrous reinforced plastic on a vessel that carries 150 passengers or less, that was certificated on (date to be inserted will be 6 months after date of promulgation of the rule), and that has a valid certificate of inspection on the date of reinspection, may continue in service. Any repairs must be as follows:

(1) Minor repairs and alterations must be made to the same standard as the original construction or a higher standard; and

(2) Major alterations and conversions must comply with the requirements of this subpart.

• • • • •

This proposal is made under the authority of R.S. 4405, as amended (46 U.S.C. 375), section 3, 70 Stat. 152 (46 U.S.C. 390b), R.S. 4462, as amended (46 U.SC 416), section 6(b)(1), 80 Stat 937 (46 U.S.C. 1655(b)(1)); 49 CFR 1.46(b).

Dated: March 31, 1972.

G. H. READ,
Captain, U.S. Coast Guard, Acting Chief, Office of Merchant Marine Safety.

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 72–SO–26]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would designate the Tallassee, Ala., transition area.

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Federal Aviation Administration, Southern Region, Air Traffic Division, Post Office Box 20636, Atlanta, GA 30320. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in light of comments received.

The official docket will be available for examination by interested persons at the Federal Aviation Administration, Southern Region, Room 724, 3400 Whipple Street, East Point, GA.

The Tallassee transition area would be designated as:

That airspace extending upward from 700 feet above the surface within a 6.5-mile radius of Tallassee Municipal Airport (lat. 32°29'00" N., long. 85°53'00" W.); within 2 miles each side of Tuskegee VOR 270° radial, extending from the VOR to 19 miles west of the VOR.

The proposed designation is required to provide controlled airspace protection for IFR operations at Tallassee Municipal Airport. Prescribed instrument approach procedures to this airport, utilizing the Tuskegee VOR, are proposed in conjunction with the designation of this transition area.

V 37-67
APR 6 72
XUM

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in East Point, Ga., on March 28, 1972.

DUANE W. FREER,
Acting Director, Southern Region.

DEPARTMENT OF THE TREASURY

Bureau of Customs

[T.D. 72-95]

CERTAIN STEEL CORES

Designation as Instruments of International Traffic

MARCH 30, 1972.

It has been established to the satisfaction of the Bureau that steel cores, 14 feet 6 inches in length by 11¼ inches in diameter and weighing 410 pounds, used for the transportation of felt paper, are substantial, suitable for and capable of repeated use, and used in significant numbers in international traffic.

Under the authority of § 10.41a(a)(1), Customs Regulations (19 CFR 10.41a(a)(1)), I hereby designate the above-described steel cores as "instruments of international traffic" within the meaning of section 322(a), Tariff Act of 1930, as amended. These cores may be released under the procedures provided for in § 10.41a, Customs Regulations.

[SEAL] LEONARD LEHMAN,
Acting Commissioner of Customs.

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[Sacramento Area Office Redelegation Order 1, Amdt. 3]

SUPERINTENDENTS AND AREA FIELD REPRESENTATIVE

Name Changes in Field Offices and Their Heads

This notice is published in exercise of authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs by 230 DM 2 (32 F.R. 13938).

This delegation is issued under the authority delegated to the Commissioner of Indian Affairs from the Secretary of the Interior in section 25 of Secretarial Order 2508 (10 BIAM 2.1) and redelegated by the Commissioner to the Area Directors in 10 BIAM 3.

The Sacramento Area Office Redelegation Order 1 was published on page 14036 of the September 4, 1969 FEDERAL REGISTER (34 F.R. 14036) and subsequently amended on page 4142 of the March 5, 1970, FEDERAL REGISTER (35 F.R. 4142) and page 23258 of the December 7, 1971, FEDERAL REGISTER (36 F.R. 23258). Sacramento Area Office Redelegation Order 1 is being amended to reflect a recent change in the names of the field offices and their heads.

As amended, Sacramento Area Office Redelegation Order 1 is further amended as follows:

1. In the heading, "Area Field Representative and Director of Palm Springs, Sacramento Area Office" is changed to read "Superintendents and Area Field Representative, Sacramento Area Office".
2. In section 1.2, "Area Field Representative, Director" is changed to read "Superintendent, Area Field Representative".
3. In section 1.3, "Area Field Representative and Director" is changed to read "Superintendent and Area Field Representative".
4. In the heading and text of Part 2, "Area Field Representatives and Director of Palm Springs" is changed to read "Superintendents and Area Field Representative, Palm Springs Area Field Office".
5. In sections 2.5(b) and 3.1, "Director of the Palm Springs Office" and "Director, Palm Springs Office" are changed to read "Area Field Representative, Palm Springs Area Field Office".
6. In sections 2.5(c) and 2.50, "Area Field Representative, Hoopa Area Field Office" is changed to read "Superintendent, Hoopa Agency".
7. In section 2.5(d), "Area Field Representative, Riverside Area Field Office" is changed to read "Superintendent, Southern California Agency" and "Riverside Area Field Office" is changed to read "Southern California Agency".

The effective date of this delegation will be the date of signature by the Area Director.

WILLIAM E. FINALE,
Area Director.

MARCH 24, 1972.

Approved: March 30, 1972.

JOHN O. CROW,
Deputy Commissioner of Indian Affairs.

Bureau of Land Management

[Sacramento 075930]

CALIFORNIA

Order Providing for Opening of Lands

MARCH 28, 1972.

In accordance with the authority redelegated to me by the State Director, California State Office, Bureau of Land Management, effective January 12, 1972 (37 F.R. 491), it is ordered as follows:

1. Pursuant to publication of Notice (36 F.R. 19343, October 2, 1971) the U.S. Geological Survey canceled Power Site Classification No. 144 of May 15, 1926; Power Site Classification No. 185 of July 14, 1927 (as interpreted January 17, 1936); and Power Site Classification No. 290 of January 17, 1936, to the extent that they affect the following described land:

MOUNT DIABLO MERIDIAN, CALIFORNIA

POWER SITE CLASSIFICATION 144

T. 20 S., R. 30 E.,
Sec. 22, SE¼;
Sec. 23, SW¼SW¼ and SE¼SE¼;
Sec. 24, S½S½;
Sec. 25, N½N½;
Sec. 26, NE¼, NE¼NW¼, S½NW¼, NE¼SW¼, and N½SE¼.
T. 20 S., R. 31 E.,
Sec. 19, lot 4;
Sec. 29, SW¼SW¼;
Sec. 30, lots 1 and 2, W½NE¼, NE¼NW¼, and SE¼;
Sec. 31, NE¼NE¼;
Sec. 32, W½.

POWER SITE CLASSIFICATION 185

T. 17 S., R. 29 E.,
Sec. 2, lot 9;
Sec. 3, lots 5 to 9, inclusive;
Sec. 4, SW¼NW¼ and NE¼SE¼;
Sec. 13, lot 1 and NW¼SW¼;
Sec. 15, N½SW¼ and NW¼SE¼;
Sec. 24, NE¼NW¼ and SE¼SE¼.
T. 18 S., R. 29 E.,
Sec. 13, NW¼SW¼;
Sec. 14, NE¼SE¼ and S½SE¼;
Sec. 15, SW¼SW¼ and SE¼SE¼;
Sec. 16, SW¼ and SE¼SE¼;
Sec. 22, N½NW¼;
Sec. 23, W½NE¼ and S½NW¼.

POWER SITE CLASSIFICATION 290

T. 17 S., R. 29 E.,
Sec. 38, lot 2, NE¼, and E½SE¼;
Sec. 39, lots 1 to 6, inclusive; SW¼NE¼, S½NW¼, and NW¼SE¼;
Sec. 40, lot 1 and SE¼NE¼.

The areas described, including public lands, nonpublic lands, and lands within the Sequoia National Forest aggregate approximately 3,517 acres.

The State of California has waived its preference right of application for highway rights-of-way or material sites afforded it by section 24 of the Federal Power Act of June 10, 1920.

2. At 10 a.m., on May 8, 1972, the public lands shall be open to the operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received at or prior to 10 a.m., on May 8, 1972, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

At 10 a.m., on May 8, 1972, the national forest lands shall be open to such forms of disposition as may by law be made of such lands.

3. The public lands have been and will continue to be open to applications and offers under the mineral leasing laws,

V 37-67 APR 6 72 XUM

and to location under the U.S. mining laws.

Inquiries concerning the lands should be addressed to the Bureau of Land Management, E-2841 Federal Office Building, 2800 Cottage Way, Sacramento, CA 95825.

WALTER F. HOLMES,
Chief, Branch of Lands and Minerals Operations.

DEPARTMENT OF AGRICULTURE

Animal and Plant Health Inspection Service

OFFICE OF THE DEPUTY ADMINISTRATOR FOR PLANT PROTECTION AND QUARANTINE ET AL.

Delegation of Authority

By order 37 F.R. 6327 effective April 2, 1972, the Secretary of Agriculture established the Animal and Plant Health Inspection Service in the Department of Agriculture and vested in the Assistant Secretary for Marketing and Consumer Services certain functions and responsibilities relating to the animal and plant health activities of the Animal and Plant Health Service and the meat and poultry inspection activities of the Consumer and Marketing Service, including the functions prescribed in the provisions in Title 7, Code of Federal Regulations, Chapter I, Parts 54, 70, and 81, and Chapter III and in Title 9, Code of Federal Regulations, Chapters I and III.

By order 37 F.R. 6505 effective April 2, 1972, the Assistant Secretary for Marketing and Consumer Services delegated on a temporary basis, to the Administrator, Animal and Plant Health Inspection Service, the functions and responsibilities vested in the said Assistant Secretary relating to animal and plant health activities and meat and poultry inspection activities.

For the purpose of providing for the orderly exercise of the functions and responsibilities so delegated, including administration of the provisions in the aforesaid chapters of the Code of Federal Regulations, pending further organizational structuring in the Animal and Plant Health Inspection Service, authority is hereby delegated on a temporary basis to all persons in or organizationally under the following components of the Animal and Plant Health Service and the Consumer and Marketing Service which were transferred to the Administrator, Animal and Plant Health Inspection Service, to continue to perform the functions heretofore performed by them as members of such components, including functions under aforesaid chapters:

Office of the Deputy Administrator for Plant Protection and Quarrantine, Animal and Plant Health Service.

Office of the Deputy Administrator for Veterinary Services, Animal and Plant Health Service.

Office of the Deputy Administrator for Meat and Poultry Inspection, Consumer and Marketing Service.

This delegation shall also apply to the successors in office of such persons. All actions heretofore taken by such persons or their successors in accordance with delegations are hereby ratified.

This action shall become effective April 2, 1972.

Done in Washington, D.C., this 2d day of April 1972.

F. J. MULHERN,
Acting Administrator, Animal and Plant Health Inspection Service.

[FR Doc.72-5281 Filed 4-5-72;8:47 am]

Commodity Credit Corporation

BARLEY LOAN PROGRAMS

Notice of Voluntary Early Delivery Provisions for Farm Stored Barley Loans

Notwithstanding the provisions of § 1421.23(g) and 1421.537(c) of 7 CFR Part 1421, producers who have outstanding farm stored Commodity Credit Corporation loans from the 1968, 1969, 1970, and 1971 crops of barley will be permitted to make voluntary early delivery of such barley and receive storage payments for the balance of the 1971-72 storage period on resealed crops of farm stored barley and will be charged with no storage deductions with respect to 1971 crop farm stored barley delivered prior to the loan maturity date.

Since this notice implements the announcement made by press release on February 18, 1972, in view of the urgency for informing producers of the voluntary early delivery option, compliance with the notice of proposed rule making and public participation procedure would be impracticable and contrary to the public interest. Therefore, this notice is issued without compliance with such procedure.

Signed at Washington, D.C., on March 30, 1972.

KENNETH E. FRICK,
Executive Vice President, Commodity Credit Corporation.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[Docket No. B-537]

DAVID A. CARLSON

Notice of Loan Application

MARCH 29, 1972.

David A. Carlson, Minturn, Maine 04659, has applied for a loan from the Fisheries Loan Fund to aid in financing the purchase of a new fiberglass vessel, about 30-foot length, to engage in the fishery for lobsters, shrimp, and scallops.

Notice is hereby given, pursuant to the provisions of 16 U.S.C. 742c, Fisheries Loan Fund Procedures (50 CFR Part 250, as revised), and Reorganization Plan No. 4 of 1970, that the above-entitled application is being considered by the National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Department of Commerce, Interior Building, Washington, D.C. 20235. Any person desiring to submit evidence that the contemplated operation of such vessel will cause economic hardship or injury to efficient vessel operators already operating in that fishery must submit such evidence in writing to the Director, National Marine Fisheries Service, within 30 days from the date of publication of this notice. If such evidence is received it will be evaluated along with such other evidence as may be available before making a determination that the contemplated operation of the vessel will or will not cause such economic hardship or injury.

PHILIP M. ROEDEL,
Director.

[FR Doc.72-5275 Filed 4-5-72;8:46 am]

[Docket No. G-526]

AYLMER GORDON GRAY, JR.

Notice of Loan Application

MARCH 29, 1972.

Aylmer Gordon Gray, Jr., 2807 Broome Lane, Beaufort, S.C. 29902, has applied for a loan from the Fisheries Loan Fund to aid in financing the purchase of a used wood vessel, about 73-foot length, to engage in the fishery for shrimp.

Notice is hereby given, pursuant to the provisions of 16 U.S.C. 742c, Fisheries Loan Fund Procedures (50 CFR Part 250, as revised), and Reorganization Plan No. 4 of 1970, that the above entitled application is being considered by the National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Department of Commerce, Interior Building, Washington, D.C. 20235. Any person desiring to submit evidence that the contemplated operation of such vessel will cause economic hardship or injury to efficient vessel operators already operating in that fishery must submit such evidence in writing to the Director, National Marine Fisheries Service, within 30 days from the date of publication of this notice. If such evidence is received it will be evaluated along with such other evidence as may be available before making a determination that the contemplated operation of the vessel will or will not cause such economic hardship or injury.

PHILIP M. ROEDEL,
Director.

Office of Import Programs

CHILDREN'S HOSPITAL MEDICAL CENTER

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 71-00577-33-46040. Applicant: The Children's Hospital Medical Center, 300 Longwood Avenue, Boston, MA 02115. Article: Electron microscope, Model EM 300. Manufacturer: Philips Electronic, The Netherlands. Intended use of article: The article will be used for a project concerning a study of congenital heart disease that involves the examination of embryonic hearts and the embryonic cardiac connective tissue. Another area of research concerns electron microscope examination of connective tissue, particularly calcified tissue (bone and tooth).

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article has a specified resolving capability of 3.5 angstroms. The most closely comparable domestic instrument is the Model EMU-4C electron microscope manufactured by the Forgflo Corp. The Model EMU-4C has a specified resolving capability of 5 angstroms. (The lower the numerical rating in terms of angstrom units, the better the resolving capability.) We are advised by the Department of Health, Education, and Welfare (HEW) in its memorandum dated December 30, 1971 that the additional resolving capability of the foreign article is pertinent to the purposes for which the foreign article is intended to be used. We, therefore, find that the Model EMU-4C is not of equivalent scientific value to the foreign article for such purposes as the article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

SETH M. BODNER,
Director, Office of Import Programs.

[FR Doc. 72-5263 Filed 4-5-72;8:45 am]

DEPARTMENT OF AGRICULTURE ET AL.

Notice of Consolidated Decision on Applications for Duty-Free Entry of Electron Microscopes

The following is a consolidated decision on applications for duty-free entry of electron microscopes pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.). (See especially § 701.11(c).)

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 71-00517-33-46040. Applicant: U.S. Department of Agriculture, ARS Plant Science Research Division, Plant Virology Laboratory, Plant Industry Stations, Beltsville, Md. 20705. Article: Electron microscope, Model JEM-100B. Manufacturer: Japan Electron Optics Laboratory Co., Ltd., Japan. Intended use of article: This article will be used for research aimed at improving the freeze-etching and related techniques of preparing biological specimens for electron microscopy and studying the molecular morphology of viruses and other pathogens, both within the infected cells and isolated form. Application received by Commissioner of Customs: April 29, 1971. Advice submitted by Department of Health, Education, and Welfare on: September 3, 1971.

Docket No. 72-00020-33-46040. Applicant: University of Pennsylvania, Biology Department, 27th and Hamilton Walk, Philadelphia, PA 19104. Article: Electron microscope, Model JEM-100B and accessories. Manufacturer: Japan Electron Optics Laboratory, Ltd., Japan. Intended use of article: The article will be used in research studies of the membrane systems in muscle cells and in an educational course teaching the electron microscope. Application received by Commissioner of Customs July 9, 1971. Advice submitted by Department of Health, Education, and Welfare on January 14, 1972.

Docket No. 72-00035-33-46040. Applicant: Duke University Medical Center, Department of Pathology, Post Office Box 3712, Durham, N.C. 27710. Article: Electron microscope, Model JEM-100B. Manufacturer: Japan Electron Optics Lab. Co., Ltd., Japan. Intended use of article: The article will be used in research to determine the ultrastructure of a number of biological materials notably various cell membranes, especially those of heart muscle; and of viruses, in order to correlate these anatomical observations with functional biological phenomenon. The article will also be used in teaching medical students a course in ultrastructural and molecular pathology and in training residents, postdoctoral fellows and graduate students in electron microscopy. Application received by Commissioner of Customs July 19, 1971. Advice submitted by Department of Health, Education, and Welfare on January 28, 1972.

Comments: No comments have been received in regard to any of the foregoing applications.

Decision: Applications approved. No instrument or apparatus of equivalent scientific value to the foreign articles, for the purposes for which the articles are intended to be used, is being manufactured in the United States.

Reasons: Each foreign article has a specified resolving capability of 3.0 angstroms. The most closely comparable domestic instrument is the Model EMU-4C electron microscope which is manufactured by the Forgflo Corp. (Forgflo). The Model EMU-4C has a specified resolving capability of 5 angstroms. (Resolving capability bears an inverse relationship to its numerical rating in angstrom units, i.e., the lower the rating, the better the resolving capability.) We are advised by the Department of Health, Education, and Welfare in the respectively cited memoranda, that the additional resolving capability of the foreign articles is pertinent to the purposes for which each of the foreign articles to which the foregoing applications relate is intended to be used. We, therefore, find that the Forgflo Model EMU-4C is not of equivalent scientific value to any of the articles to which the foregoing applications relate, for such purposes as these articles are intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to any of the foreign articles to which the foregoing applications relate, for such purposes as these articles are intended to be used, which is being manufactured in the United States.

SETH M. BODNER,
Director, Office of Import Programs.

[FR Doc.72-5262 Filed 4-5-72;8:45 am]

GEORGETOWN UNIVERSITY SCHOOL OF MEDICINE ET AL.

Notice of Consolidated Decision on Applications for Duty-Free Entry of Ultramicrotomes

The following is a consolidated decision on applications for duty-free entry of ultramicrotomes pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.). (See especially § 701.11(e).)

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 72-00055-33-46500. Applicant: Georgetown University School of Medicine, 3900 Reservoir Road NW., Washington, DC 20007. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article will be used in studies of materials of a diverse biological nature; mainly mammalian tissues derived from human biopsy specimens and various experimental laboratory animals in the various

V 37-67
APR 6 72
XUM

research projects to be performed. In addition, the article will be used to instruct beginning graduate students in the principles of ultramicrotomy and electron microscopy and to provide an opportunity to gain essential laboratory experience. Application received by Commissioner of Customs: July 26, 1971. Advice submitted by Department of Health, Education, and Welfare on February 11, 1972.

Docket No. 72-00056-33-46500. Applicant: West Virginia University, Department of Anatomy, Room 4052 BSB, Medical Center, Morgantown, W. Va. 26506. Article: Ultramicrotome, Model LKB Produkter AB, Sweden. Intended use of article: The article will be used in the preparation of tissues for a variety of projects which include:

1. An ultrastructural comparison of human basal cell carcinomas of different etiologies;

2. An electron microscopic study of developing mechanotransducers in certain insects;

3. An electron microscopic study of developing teeth in frogs;

4. An electron microscopic study of coal dust deposition in the lungs of mice;

5. An electron microscopic study of microtubule development in a variety of tissues; and

6. An ultrastructural study of calcification in developing Amphibia. Application received by Commissioner of Customs, July 26, 1971. Advice submitted by Department of Health, Education, and Welfare on February 11, 1972.

Comments: No comments have been received with respect to any of the foregoing applications. Decision: Applications approved. No instrument or apparatus of equivalent scientific value to the foreign articles for such purposes as these articles are intended to be used, is being manufactured in the United States.

Reasons: Each of the foreign articles provides a range of cutting speeds from 0.1 to 20 millimeters per second. The most closely comparable domestic instrument is the Model MT-2B ultramicrotome which is manufactured by Ivan Sorval, Inc. (Sorvall). The Model MT-2B has a range of cutting speeds from 0.09 to 3.2 millimeters per second. The conditions for obtaining high-quality sections that are uniform in thickness, depend to a large extent on the hardness, consistency, toughness and other properties of the specimen materials, the properties of the embedding materials, and geometry of the block. In connection with a prior application (Docket No. 69-00665-33-46500), which relates to the duty-free entry of an article that is identical to those to which the foregoing applications relate, the Department of Health, Education, and Welfare (HEW) advised that "Smooth cuts are obtained when the speed of cutting, (among such [other] factors as knife edge condition and angle), is adjusted to the characteristics of the material being sectioned. The range of cutting speeds and a capability for the higher cutting speeds is, therefore, a pertinent characteristic of the ultramicrotome to be used for sectioning materials that experience has shown difficult to section."

In connection with another prior application (Docket No. 70-00077-33-46500) which also relates to an article that is identical to those described above, HEW advised that "ultrathin sectioning of a variety of tissues having a wide range in density, hardness etc." requires a maximum range in cutting speed and, further, that the "production of ultrathin serial sections of specimens that have a great variation in physical properties is very difficult." Accordingly, HEW advises in its respectively cited memoranda, that cutting speeds in excess of 4 millimeters per second are pertinent to the satisfactory sectioning of the specimen materials and the relevant embedding materials that will be used by the applicants in their respective experiments.

For these reasons, we find that the Sorvall Model MT-2B ultramicrotome is not of equivalent scientific value to the foreign articles to which the foregoing applications relate, for such purposes as these articles are intended to be used. The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to any of the foreign articles to which the foregoing applications relate, for such purposes as these articles are intended to be used, which is being manufactured in the United States.

SETH M. BODNER,
Director,
Office of Import Programs.

[FR Doc.72-5261 Filed 4-5-72;8:45 am]

MOUNT SINAI HOSPITAL ET AL.

Notice of Consolidated Decision on Applications for Duty-Free Entry of Electron Microscopes

The following is a consolidated decision on applications for duty-free entry of electron microscopes pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.). (See especially § 701.11(e).)

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 71-00561-33-46040. Applicant: The Mount Sinai Hospital, University Circle, Cleveland, Ohio 44106. Article: Electron microscope, Model HU-12. Manufacturer: Hitachi, Ltd., Japan. Intended use of article: The article will be used for the training of graduate students and postdoctorates in the techniques and application of electron microscopy. M.D.'s and Ph. D.'s whose major interest is to obtain results as rapidly and as simply as possible will use the electron microscope as a tool to accomplish their projects. Detailed projects concern ultrastructure of pathology calcified tissues and localization of tritiated parathyroid hormone in bone. Application received by Commissioner of Customs May 19, 1971. Advice submitted by Department of Health, Education, and Welfare on December 17, 1971.

Docket No. 71-00619-33-46040. Applicant: VA Hospital No. 614, 1030 Jefferson Avenue, Memphis, TN 38104. Article: Electron microscope, Model HU-12. Manufacturer: Hitachi, Ltd., Japan. Intended use of article: The article will be used in an intensive research program underway to identify an enzyme produced by basal cell epithelioma important to the cure of this the most common skin cancer; investigation of various keratinizing tissues of the skin such as hair and nail; and train residents in electron microscopy. Application received by Commissioner of Customs June 28, 1971. Advice submitted by Department of Health, Education, and Welfare on December 30, 1971.

Comments: No comments have been received in regard to any of the foregoing applications.

Decision: Applications approved. No instrument or apparatus of equivalent scientific value to the foreign articles, for the purposes for which the articles are intended to be used, is being manufactured in the United States.

Reasons: Each foreign article has a specified resolving capability of 3.0 angstroms. The most closely comparable domestic instrument is the Model EMU-4C electron microscope which is manufactured by the Forgflo Corp. (Forgflo). The Model EMU-4C has a specified resolving capability of 5 angstroms. (Resolving capability bears an inverse relationship to its numerical rating in angstrom units, i.e., the lower the rating, the better the resolving capability.) We are advised by the Department of Health, Education, and Welfare in the respectively cited memoranda, that the additional resolving capability of the foreign articles is pertinent to the purposes for which each of the foreign articles to which the foregoing applications relate is intended to be used. We, therefore, find that the Forgflo Model EMU-4C is not of equivalent scientific value to any of the articles to which the foregoing applications relate, for such purposes as these articles are intended to be used. The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to any of the foreign articles to which the foregoing applications relate, for such purposes as these articles are intended to be used, which is being manufactured in the United States.

SETH M. BODNER,
Director,
Office of Import Programs.

[FR Doc.72-5264 Filed 4-5-72;8:45 am]

NEW YORK STATE OFFICE OF GENERAL SERVICES

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article, pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 72-00072-33-46040. Applicant: New York State Office of General Services, Alfred E. Smith State Office Building, Albany, N.Y. 12225. Article: Electron microscope, Model EM-7. Manufacturer: Associated Electronic Industries, United Kingdom. Intended use of article: The article will be used for a wide range of biological and medical studies; including the examination of living cells, whole and component parts, normal and abnormal; and whole microorganisms including bacteria and viruses.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article provides a maximum accelerating voltage of 1200 kilovolts. The most closely comparable domestic instrument is the Model EMU-4C manufactured by the Forgflo Corp. (Forgflo). The Model EMU-4C has a specified maximum accelerating voltage of 100 kilovolts.

We are advised by the Department of Health, Education, and Welfare (HEW) in its memorandum dated February 16, 1972, that the higher accelerating voltage provides proportionately greater penetrating power and, consequently, higher resolution for a specimen of a given thickness. HEW further advises that due to the nature of the material on which research will be conducted with the use of the foreign article, relatively thick specimens must be used in the experiments and, therefore, the higher accelerating voltage of the foreign article is a pertinent characteristic. For these reasons, we find that the Model EMU-4C is not of equivalent scientific value to the foreign article for such purposes as this article is intended to be used.

The Department of Commerce knows of no other instrument being manufactured in the United States, which is of equivalent scientific value to the foreign article for such purposes as this article is intended to be used.

SETH M. BODNER,
Director,
Office of Import Programs.

Notice of Consolidated Decision on Applications for Duty-Free Entry of Electron Microscopes

The following is a consolidated decision on applications for duty-free entry of ultramicrotomes pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.). (See especially § 701.11(e).)

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 71-00506-33-46040. Applicant: New York University Medical Center, 560 First Avenue, New York, NY 10016. Article: Electron microscope, Model Elmiskop 101. Manufacturer: Siemens A.G., West Germany. Intended use of article: The article will be used for high resolution electron micrography of biologically important macromolecules to measure the size and shape (stained or unstained) by ultrathin support films. DNA studies will be made and the enzymes to be studied will include those involved in fatty acid biosynthesis and in protein biosynthesis such as ribosomal particles. Application received by Commissioner of Customs April 20, 1971. Advice submitted by Department of Health, Education, and Welfare on August 27, 1971.

Docket No. 72-00065-33-46040. Applicant: The University of Iowa, Iowa City, Iowa 52240. Article: Electron microscope, Model Elmiskop 101 and accessories. Manufacturer: Siemens A.G., West Germany. Intended use of article: The article will be used to study biological tissue specimens removed from mammalian reproductive tracts and certain portions of the central nervous system in investigations directed toward a better understanding of the mechanism of action of contraceptive devices and drugs. These investigations are related to a multidisciplinary approach to the problem of interference with implementation of the fertilized ovum, and employment of existing drugs to enhance the effect of current contraceptive measures, as well as possible design of new and different contraceptive drugs. The article will also be used in a lecture and laboratory course covering all aspects of electron microscopy. Application received by Commissioner of Customs July 29, 1971. Advice submitted by Department of Health, Education, and Welfare on February 11, 1972.

Comments: No comments have been received in regard to any of the foregoing applications.

Decision: Applications approved. No instrument or apparatus of equivalent scientific value to the foreign articles, for the purposes for which the articles are intended to be used, is being manufactured in the United States.

Reasons: Each foreign article has a specified resolving capability of 3.5 angstroms. The most closely comparable instrument is the Model EMU-4C electron microscope which is manufactured by the Forgflo Corp. (Forgflo). The Model EMU-4C has a specified resolving capability of five angstroms. (Resolving capability bears an inverse relationship to its numerical rating in angstrom units, i.e., the lower the rating, the better the resolving capability.) We are advised by the Department of Health, Education, and Welfare in the respectively cited memoranda, that the additional resolving capability of the foreign articles is pertinent to the purposes for which each of the foreign articles to which the foregoing applications relate is intended to be used. We, therefore, find that the Forgflo Model EMU-4C is not of equivalent scientific value to any of the articles to which the foregoing applications relate, for such purposes as these articles are intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to any of the foreign articles to which the foregoing applications relate, for such purposes as these articles are intended to be used, which is being manufactured in the United States.

SETH M. BODNER,
Director,
Office of Import Programs.

[FR Doc.72-5259 Filed 4-5-72;8:45 am]

SOUTHWEST MISSOURI STATE COLLEGE

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 71-00078-33-46040. Applicant: Southwest Missouri State College, 901 South National Springfield, MO 65802. Article: Electron microscope, Model HU-11F. Manufacturer: Hitachi Perkin-Elmer, Japan. Intended use of article: The article is intended to be used in various research projects which include:

1. Direct and indirect study of noncrystalline biomolecules;

2. Ultrastructural study of light-induced changes in tomato pitch cells;

3. Significance of the different properties of various plant peroxidases as marker proteins in protein tracer studies;

4. A study on the development or more specified enzyme localizations at the ultrastructural level; and

V 37-67 APR 6 72 XUM

5. Origin, transport, and deposition of induced peroxidase protein in plant cell walls.

The article will also be used in teaching a course, "Methods in Electron Microscopy" to graduate students.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article has a specified resolving capability of 3.5 angstroms. The most closely comparable domestic instrument is the Model EMU-4C electron microscope manufactured by the Forgflo Corp. The Model EMU-4C has a specified resolving capability of 5 angstroms. (The lower the numerical rating in terms of angstrom units, the better the resolving capability.) We are advised by the Department of Health, Education, and Welfare (HEW) in its memorandum dated February 18, 1972 that the additional resolving capability of the foreign article is pertinent to the purposes for which the foreign article is intended to be used. We, therefore, find that the Model EMU-4C is not of equivalent scientific value to the foreign article for such purposes as the article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

SETH M. BODNER,
Director,
Office of Import Programs.

[FR Doc.72-5266 Filed 4-5-72;8:46 am]

STATE UNIVERSITY OF NEW YORK AT ALBANY

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 71-00496-33-46500. Applicant: State University of New York, at Albany, Department of Biological Sciences, Albany, N.Y. 12203. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produckter A.B., Sweden. Intended use of article: The article will be used in a study of the reticulopodia of allogromia and cell movement systems; the ultrastructure of closely identified tips of growing pollen tubes; and the ultrastructure and physiology of the accoustic receptor of the noctuid moth.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: Examination of the applicant's thin sections under the electron microscope will provide optimal information when such sections are uniform in thickness and have smoothly cut surfaces. Conditions for obtaining high quality sections depend to a large extent on the properties of the specimen being sectioned (e.g., hardness, consistency, toughness, etc.), the properties of the embedding media and the geometry of the block. In connection with a prior case (Docket No. 69-00665-33-46500) which relates to the duty-free entry of an identical foreign article, the Department of Health, Education, and Welfare (HEW) advised that "Smooth cuts are obtained when the speed of cutting (among such [other] factors as knife edge condition and angle), is adjusted to the characteristics of the material being sectioned. The range of cutting speeds and a capability for the higher cutting speeds is, therefore, a pertinent characteristic of the ultramicrotome to be used for sectioning materials that experience has shown difficult to section." In connection with another prior case (Docket No. 70-00077-33-46500) relating to the duty-free entry of an identical foreign article, HEW advised that "ultrathin sectioning of a variety of tissues having a wide range in density, hardness etc." requires a maximum range in cutting speed and, further, that "The production of ultrathin serial sections of specimens that have great variation in physical properties is very difficult." The foreign article has a cutting speed range of 0.1 to 20 millimeters/second (mm/sec). The most closely comparable domestic instrument is the Model MT-2B ultramicrotome manufactured by Ivan Sorvall, Inc. (Sorvall). The Sorvall Model MT-2B ultramicrotome has a cutting speed range of 0.09 to 3.2 mm/sec. We are advised by HEW in its memorandum of August 27, 1971 that cutting speeds higher than those available on the MT-2B are pertinent to the purposes for which the article is intended to be used.

We, therefore, find that the Model MT-2B ultramicrotome is not of equivalent scientific value to the foreign article for such purposes as this article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

SETH M. BODNER,
Director,
Office of Import Programs.

STATE UNIVERSITY OF NEW YORK AT BUFFALO ET AL.

Notice of Consolidated Decision on Applications for Duty-Free Entry of Scientific Articles; Correction

In the notice of consolidated decision on applications for Duty-Free Entry of scientific articles appearing at page 6328 in the FEDERAL REGISTER of Tuesday, March 28, 1972, the following docket should be deleted.

Docket No. 71-00067-01-77040. Applicant: University of Wyoming, Department of Chemistry, Box 3838 University Station, Laramie, WY 82070. Article: Mass Spectrometer, Model CH-5. Date of denial without prejudice to resubmission: October 21, 1971.

SETH M. BODNER,
Director,
Office of Import Programs.

[FR Doc.72-5258 Filed 4-5-72;8:45 am]

STATE UNIVERSITY OF NEW YORK AT STONY BROOK ET AL.

Notice of Consolidated Decision on Applications for Duty-Free Entry of Electron Microscopes

The following is a consolidated decision on applications for duty-free entry of electron microscopes pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.). (See especially § 701.11(e).)

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 72-00054-99-46040. Applicant: State University of New York at Stony Brook, Stony Brook, N.Y. 11790. Article: Electron microscope, HS-8. Manufacturer: Hitachi, Ltd., Japan. Intended use of article: The article will be used to instruct students, residents and fellows in the principles of electron microscopy. Application received by Commissioner of Customs July 26, 1971. Advice submitted by Department of Health, Education, and Welfare on February 11, 1972.

Docket No. 72-00060-99-46040. Applicant: Mankato State College, Mankato, Minn. 56001. Article: Electron microscope, HS-8. Manufacturer: Hitachi, Ltd., Japan. Intended use of article: The article will be used investigating mammalian sperm surfaces and surface reactions using ruthenium red staining techniques, in investigating the effect of various hormones in the fine structure of the caput epidiymus, and in investigating centrifugally prepared cell fractions employed in metabolism studies of selected insecticides. The article will also be used to train students in the operation and use of the electron microscope as a part of courses of zoology, botany, and microbiology. Application received by Commissioner of Customs July 29, 1971. Advice submitted by Department of Health, Education, and Welfare on February 11, 1972.

Comments: No comments have been received with respect to any of the foregoing applications.

Decision: Applications approved. No instrument or apparatus of equivalent scientific value to the foreign articles, for such purposes as these articles are intended to be used, is being manufactured in the United States.

Reasons: Each applicant requires an electron microscope which is suitable for instruction in the basic principles of electron microscopy. Each of the foreign articles to which the foregoing applications relate is a relatively simple, medium resolution electron microscope designed for confident use by beginning students with a minimum of detailed programing. The most closely comparable domestic instrument is the Model EMU-4C electron microscope which is a relatively complex instrument designed primarily for research, which requires a skilled electron microscopist for its operation. We are advised by the Department of Health, Education, and Welfare in its respectively cited memoranda, that the relative simplicity of design and ease of operation of the foreign articles described above are pertinent to the applicants' educational purposes. We, therefore, find that the Forgflo Model EMU-4C electron microscope is not of equivalent scientific value to any of the foreign articles described above for such purposes as these articles are intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to any of the foreign articles to which the foregoing applications relate, for such purposes as these articles are intended to be used, which is being manufactured in the United States.

SETH M. BODNER,
Director,
Office of Import Programs.

UNIVERSITY OF CINCINNATI

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 72-00077-33-43780. Applicant: University of Cincinnati, College of Medicine, Eden and Bethesda Avenues, Cincinnati, Ohio 45219. Article: Laryngo-Synchronstrobescope K33. Manufacturer: Rolf Timcke, West Germany. Intended use of article: The article will be used to teach medical students, interns, and residents the anatomic and physiologic action of the vocal cords and the voice box.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article is an integrated system for controlled examination of vocal cord mechanics coupled with microphonic sensing over a broad range of frequency and intensity. In addition the article provides stopped-action type photography or observation synchronized by phase detection of sound waves, in manual or automatic modes. We are advised by the Department of Health, Education, and Welfare (HEW) in its memorandum dated February 18, 1972, that the characteristics described above are pertinent to the purposes for which the foreign article is intended to be used. HEW further advises that it knows of no domestic manufacturer that provides an integrated device having the pertinent specifications of the foreign article.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

SETH M. BODNER,
Director,
Office of Import Programs.

UNIVERSITY OF IOWA

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 72-00057-33-20700. Applicant: University of Iowa, Iowa City, Iowa 52240. Article: Distansense, proximity probe. Manufacturer: Beta Engineering Co., Israel. Intended use of article: The article will be used in research studies of patients with disease of the right hemisphere who show a specific deficit in controlling movements under a condition in which they have to depend on "muscle sense" rather than vision for guidance. This research will be replication and extension of a study of impaired utilization of kinesthetic feedback in the right hemispheric lesion done by an Israeli neurologist.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article is tailor-made to a particular type of research which the applicant is trying to confirm and extend and is essentially the same instrument used by the original investigator. We are advised by the Department of Health, Education, and Welfare (HEW) in its memorandum dated February 11, 1972, that the use of an instrument which is, as nearly as possible, the same instrument used initially is pertinent to the applicant's intended purposes. HEW further advises that it knows of no scientifically equivalent domestic instrument for the applicant's intended purposes.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

SETH M. BODNER,
Director,
Office of Import Programs.

UNIVERSITY OF WASHINGTON

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 71-00508-33-46040. Applicant: University of Washington, Dental School, Department of Oral Biology, B-122-HSB-RD-50, Seattle, Wash. 98105. Article: Electron microscope, Model EM 801. Manufacturer: Associated Electrical Industries, Ltd., United Kingdom. Intended use of article: The article will be used for the study of the formation of the byssus attachment apparatus in bivalves and the complex interaction of three cell types of the synthesis, secretion and polymerization of extraorganismal collagen. Another

V 37-67 APR 6 72 XUM

project involves the changes in mammalian exocrine glands resulting from malnutrition and undernutrition.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article provides a specimen holder capable of taking 2 centimeters of serial sections. The most closely comparable domestic instrument is the Model EMU-4C electron microscope manufactured by Forgflo Corp. (Forgflo). We are advised by the Department of Health, Education, and Welfare (HEW) in its memorandum dated August 27, 1971, that the specimen holder capacity of 2 centimeters of serial sections of the article is pertinent to the applicant's research studies. HEW further advises that the EMU-4C does not have an equivalent specimen holder.

We, therefore, find that the EMU-4C is not of equivalent scientific value to the foreign article for such purposes as this article is intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

SETH M. BODNER,
Director,
Office of Import Programs.

YALE UNIVERSITY ET AL.

Notice of Consolidated Decision on Applications for Duty-Free Entry of Electron Microscopes

The following is a consolidated decision on applications for duty-free entry of electron microscopes pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.). (See especially § 701.11(e).)

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 71-00354-33-46040. Applicant: Yale University, Purchasing Department, 20 Ashmun Street, New Haven, CT 06520. Article: Electron miscroscope, Model HU-11E. Manufacturer: Hitachi, Ltd., Japan. Intended use of article: The article will be used for research combining cytochemistry and electron microscopy, inquiring into the relationship of biochemical activity to the fine structural elements of cells. Investigations concern the fine structural localization of enzymes, lipoprotein lipase, hormone sensitive lipase, and synthesized gold ligands adenosine monophosphate. Application received by Commissioner of Customs January 18, 1971. Advice submitted by Department of Health, Education, and Welfare on November 19, 1971.

Docket No. 71-00554-33-46040. Applicant: Philadelphia General Hospital, 34th Street and Civic Center Boulevard, Philadelphia, PA 19104. Article: Electron microscope, Model HU-11E. Manufacturer: Hitachi, Ltd., Japan. Intended use of article: The article will be used to study the biosynthesis and degradation of collagen, the major protein found in tissues such as skin, bone, and small blood vessels. Sections of tissues and cells which are either synthesizing or degrading collagen will be examined by the electron microscope. Also molecules such as emzymes which are involved in either the biosynthesis or degradation of collagen will be examined. Application received by Commissioner of Customs May 18, 1971. Advice submitted by Department of Health, Education, and Welfare on September 23, 1971.

Comments: No comments have been received in regard to any of the foregoing applications.

Decision: Applications approved. No instrument or apparatus of equivalent scientific value to the foreign articles, for the purposes for which the articles are intended to be used, is being manufactured in the United States.

Reasons: Each foreign article has a specified resolving capability of 3.5 angstroms. The most closely comparable domestic instrument is the Model EMU-4C electron microscope which is manufactured by the Forgflo Corp. (Forgflo). The Model EMU-4C has a specified resolving capability of 5 angstroms. (Resolving capability bears an inverse relationship to its numerical rating in angstrom units, i.e., the lower the rating, the better the resolving capability.) We are advised by the Department of Health, Education, and Welfare in the respectively cited memoranda, that the additional resolving capability of the foreign articles is pertinent to the purposes for which each of the foreign articles to which the foregoing applications relate is intended to be used. We, therefore, find that the Forgflo Model EMU-4C is not of equivalent scientific value to any of the articles to which the foregoing applications relate, for such purposes as these articles are intended to be used.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to any of the foreign articles to which the foregoing applications relate, for such purposes as these articles are intended to be used, which is being manufactured in the United States.

SETH M. BODNER,
Director,
Office of Import Programs.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[Docket No. FDC-D-453]

BEECHAM-MASSENGILL PHARMACEUTICALS

Certain Drug Products Containing Neomycin Sulfate and Polymyxin B Sulfate; Notice of Drugs Deemed Adulterated

An announcement concerning the products, (1) Swinex, (2) Daribiotic Liquid, (3) Daribiotic Boloids, and (4) Daribiotic Soluble Powder marketed by Beecham-Massengill Pharmaceuticals, Division of Beecham Inc. (formerly the S. E. Massingill Co.), Bristol, Tenn. 37620, was published in the FEDERAL REGISTER of August 12, 1970 (35 F.R. 12789, DESI 9928V). The announcement set forth the findings of the Food and Drug Administration following review of reports received from the National Academy of Sciences—National Research Council, Drug Efficacy Study Group.

Said announcement provided the manufacturer and all interested persons a 6-month period in which to submit new animal drug applications. Beecham-Massengill Pharmaceuticals has not submitted new animal drug applications for the above products. However, they advised the Commissioner of Food and Drugs that Daribiotic Soluble Powder has been discontinued.

Based on the foregoing and the information before him, the Commissioner concludes that the above named drugs are adulterated within the meaning of section 501(a)(5) of the Federal Food, Drug, and Cosmetic Act in that they are not the subject of approved new animal drug applications pursuant to section 512 of the act. Therefore, notice is given to Beecham - Massengill Pharmaceuticals, and all interested persons that all stocks of said drugs within the jurisdiction of the act are deemed adulterated within the meaning of the act, and are subject to appropriate regulatory action.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 501(a)(5), 512, 52 Stat. 1049 as amended, 82 Stat. 343-51; 21 U.S.C. 351(a)(5), 360b) and under the authority delegated to the Commissioner (21 CFR 2.120).

Dated: March 30, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.72-5294 Filed 4-5-72;8:48 am]

CIVIL AERONAUTICS BOARD

[Docket 24353; Order 72-3-94]

AMERICAN AIRLINES, INC., ET AL.

Order of Investigation and Suspension of Fare Increases

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 29th day of March 1972.

By tariff revisions marked to become effective April 1, 1972, American Airlines, Inc. (American)[1] Eastern Air Lines, Inc. (Eastern),[2] and Pan American World Airways, Inc (Pan American)[3] propose to increase their fares between northeastern U.S.-gateway points, on the one hand, and Puerto Rico and the U.S. Virgin Islands, on the other hand, by approximately 9 percent.

Earlier this year the carriers proposed essentially the same increases. By Order 72-1-85 dated January 24, 1972, the Board rejected those filings since in its opinion, the carriers had not adequately demonstrated that the proposed increases were within the stabilization guidelines or otherwise consistent with the purposes of the Economic Stabilization Act of 1970. The Board indicated that any refiling of the fare proposals must be accompanied by data specifically enumerated in that order.

The carriers have accompanied their present filings with additional material which consists primarily of future year forecasts, with and without the proposed fare increases, and certain other data required by the Board's economic regulation 723 necessary for the Board to certify the increases to the Price Commission. All carriers submitted forecasts based upon a 65-percent load factor (66.7-percent load factor in the case of Eastern) in the San Juan market rather than the aggregate 58.2 percent experienced in the year ended September 1971.

American's estimate indicates that with an adjusted load factor of 65 percent, it would earn a 7.8-percent return on investment with the requested fare increase, and a 3.6-percent return without the increase. The estimated return for its Virgin Islands operation would be a negative 9.4 percent even with the proposed increase. American further alleges that its forecast assumes no increase in 1971 unit costs, and that it reflects a downward adjustment of 3 percent in the wages and salaries of ground personnel to reflect increased productivity associated with the use of wide-bodied equipment. Since only known contracted increases are included, the carrier alleges that its forecast is in effect unrealistic, and that cost increases which it will incur in 1972 but were not included would add at least $1 million to forecast expenses.

Eastern estimates that its return on investment for the future year will be 8.07 percent with the proposed increase and a capacity adjustment which would result in a 66.8-percent load factor. Eastern alleges that without a fare increase (but also with a 66.8-percent load factor) its future year return would be 4.98 percent—woefully inadequate to meet future needs.

Pan American indicates that the proposed increases are clearly justified by cost considerations since present revenues are far below actual costs, and that the increases will serve to offset some but not all of its present loss. The fare increase will allegedly not enable Pan American to achieve even a minimum return on investment. Its forecast is alleged to reflect only cost increases actually experienced or known contractual increases, and to include a potential improvement in productivity estimated at 10 percent on all salaries and related payroll expenses, excluding cockpit and cabin crews.

The Commonwealth of Puerto Rico (Commonwealth) and the Government of the U.S. Virgin Island (Virgin Islands) have filed complaints against the proposals requesting their suspension and investigation. The Virgin Islands indicates that it fully agrees with the arguments and economic data advanced by the Commonwealth and requests that it be associated with those comments. Otherwise, its complaint is limited to the allegations that the economy of the Virgin Islands is dependent upon tourism and that the proposed increases would have an adverse impact.

The Commonwealth alleges that, at load factors the carriers agreed are attainable during capacity discussions in February 1972, profits for northeast U.S.-Puerto Rico operations would be more than adequate at current fares. It further contends that the nature of the San Juan market (high density turnaround service) justifies a higher load factor than the 65 percent used by the carriers in their forecasts, and that the Board's 1963 decision in the Puerto Rico Third-Class Fares case (30 CAB 244, 266-67) requires use of a 75-percent load factor for rate-making purposes.

With respect to the individual forecasts, the Commonwealth alleges that Pan American's overall results are so far out of line that it cannot be considered a rate-making carrier in the market, and notes in particular that Pan American's indirect costs are substantially higher than those of either American and Eastern. The Commonwealth alleges that American's forecast revenues are at odds with its earlier submission, and that its passenger service and general and administrative expenses should be adjusted downward to reflect Latin American Division unit costs rather than system unit costs. When these adjustments are made, it is claimed that American's profit would exceed $9 million annually-more than a fair return.

The Commonwealth alleges that Eastern's forecast should be adjusted to reflect a 75-percent load factor, and that if this were done its profit would be $10,255,000, representing a return on investment of 10.8 percent. It further states that there are substantial discrepancies between Eastern's unit costs and the lower unit costs projected by American. Finally, the Commonwealth alleges that the proposed increases are inconsistent with the Price Commission's goal of holding price increases to 2.5 percent per year, and that price increases totaling 27 percent in less than 3 years are clearly inflationary, excessive, and unnecessary.

In answer to the complaints, the three carriers contend that there was no agreement, individually or collectively, during the capacity discussions that an annual load factor of 75 percent is attainable. At one point in the discussions a 66-percent load factor (which approximates the current break-even point) was used as a starting point from which to begin discussion, but they emphasize that in no way did this mean that the carriers arrived at any agreement that 66 percent was reasonably attainable, and certainly not 75 percent. The carriers assert that the 75-percent load factor found reasonable in a 9-year-old case (Puerto Rico Third-Class Fares) has little or no validity today. Eastern notes that forecast break-even load factor is 66.8 percent, while at domestic fare levels it would be 43 percent. It questions the Commonwealth's position which would require the carriers to conduct Puerto Rican operations at an overall fare level, which results in a break-even load factor 55 percent higher than would be experienced at the domestic fare level.

With respect to the individual forecasts, American asserts that it used its experienced passenger mile yield for mainland-Puerto Rico operations, as reflected in reports on file with the Board. With respect to its expense forecast, American asserts that, had it used its Latin American Division unit costs as suggested by the Commonwealth, its forecast costs would be $2.8 million higher than estimated.

Pan American contends that its operating expenses per available ton mile are not out of line with other carriers, and that it has experienced a steady reduction in cost per available ton mile over the last 3 years. It alleges that one of the primary reasons it is not faring as well as other carriers is that its operating revenue per revenue ton mile is far less, on a system basis, than that obtained by such carriers as American, Eastern, TWA, and United; that a large proportion of its services are in very low yield areas; and that it does not have the benefit of an extensive domestic network enjoying much higher-yield levels.

Eastern states that even by the Commonwealth's own calculations it would not achieve its allowable return operating at a 75-percent load factor, a level which it believes is totally unreasonable. It further asserts that the focus of a comparison between it and American should be on the basis of the cost of carrying passengers, and that the relevant units for measurement are therefore available and revenue passenger miles, not ton

miles which it claims place inappropriate emphasis on the B-747 belly cargo capacity. When compared on a seat mile basis, Eastern alleges that its costs are quite similar to American's.

With respect to price stabilization criteria, the carriers claim that the proposed increases will increase system revenues by less than 1 percent, that even with a 9-percent increase they will be unable to recover all costs (including the cost of capital) in the forecast year, and that the increase is the minimum required to assure safe and adequate service and attain the profit margin needed to attract capital at reasonable costs.

In our opinion the carriers have demonstrated a need for some revenue increase in their northeast U.S.-Puerto Rico/Virgin Islands services. We have carefully reviewed the carriers' respective forecasts and conclude that those of American and Eastern are substantially reliable from a cost standpoint,[4] and that the fares proposed are cost based. We have also carefully analyzed the contentions of the various parties, as well as the traffic-flow data in the San Juan market available to us. This market is characterized by an extreme directional imbalance in traffic flow as indicated in Appendix C and also by wide seasonal fluctuations. While daytime services in low traffic months appear fairly equally utilized in both directions (albeit at load factors below 50 percent), night services show a disparity of between 10- and 15-percentage points in favor of southbound flights. By way of contrast, during the month of December 1971 southbound services both day and night showed load factors for the three carriers generally ranging between 75 and 85 percent. On the other hand, load factors on return northbound day services were from 20- to 40-percentage points lower, and from 37- to 50-percentage points lower in night services. For these reasons, we believe the average annual load factor of 65 percent (somewhat higher for Eastern) relied upon by the carriers in developing their forecasts is appropriate at this time for rate-making purposes in the San Juan market. On this basis, American and Eastern forecast returns on investment of 6.1 percent and 8.1 percent, respectively, and Pan American would remain in a loss position.

Nevertheless, we are not persuaded that the full 9-percent across-the-board increase requested is warranted pending investigation. It is our belief that the fare structure which has evolved in the Puerto Rican market and its impact upon traffic flows raise a broad question as to the economics of the services now provided which should be fully explored in an evidentiary hearing. While the instant proposal deals only with fares between points in the northeast United States, on the one hand, and Puerto Rico/Virgin Islands, on the other hand, we believe all fares between the U.S. mainland and Puerto Rico and the Virgin Islands warrant investigation since there is clearly an interrelationship between the fares in all markets. Moreover, the question of the proper construction of fares to interior U.S. points has posed problems in recent years.

In the interim, we will permit the carriers to increase, as proposed, both night third-class and night first-class fares in the New York-San Juan market and to increase their various excursion fares in all markets in the amounts proposed. However, in view of the problems with the proposed fare structure, we have decided to suspend the remaining fare increases. In reaching this determination we have also taken into account the rather sudden and strong resurgence in traffic growth which has occurred generally in recent months and which could materially alter the profit picture in this market. Moreover, we are concerned with the fact that the present proposal would compound with the two fare increases permitted in 1969 to total over 27 percent in less than 3 years.

The present night third-class fares in the New York-San Juan market are $57 and $61 for midweek and weekend travel respectively, and yield between 3.5 and 3.8 cents. The carriers propose to increase the midweek night fare by $5 to $62, and the weekend night fare by $6 to $67. By way of comparison application of the domestic coach formula to the New York-San Juan market, assuming night coach fares at 80 percent of day coach, would result in a night coach fare of $83.33.

It is also important to bear in mind that approximately 50 percent of third-class travel is in night service, far more than is the case domestically. This would appear, in our opinion, to raise a very real question whether a fare structure which has resulted in carriage of almost half the traffic on extremely low yield, so-called "off-peak," services is economically sound, particularly since it seems also to have accentuated the directional peaking problem.[5] Today, the spread between night and daytime third-class fares is $14 (midweek) and $15 (weekend) one way. By permitting the carriers to increase the night fares, the spread will be reduced to $9 one-way, which we believe will bring the respective fare levels more in line with the cost and relative value of the services.

The Price Commission has issued regulations governing price increases by regulated enterprises.[6] These regulations require inter alia that the regulatory agency certify certain information to the Commission in connection with the increases the agency approves[7] and also certify that certain criteria established by the Commission are met.[8] The former includes such information as a comparison of the new and former prices, the percentage increase, the amount of increased revenues expected, and the effect on the company's profits. The latter criteria are that the increase is cost-based and does not reflect future inflationary expectations, the increase is the minimum required to assure continued service, and provide earnings needed to attract capital at reasonable cost and maintain credit.

On the basis of the information furnished by the carriers, otherwise available to the Board, and discussed earlier in this order, the Board certifies as follows:

1. The increases permitted to become effective pending investigation amount to approximately 9 percent of present first class and third class night fares in the New York-San Juan market, and various excursion fares in all northeast United States-Puerto Rico/Virgin Islands markets. Examples of the new and prior fares are set forth in Appendix D.[8a]

2. Based on traffic volume estimated for a future year[9] the increased fares are forecast to raise American's revenues by $1.7 million, Eastern's revenues by $1.8 million and Pan American's revenues by $1.5 million or an average of 3.2 percent for American, 2.4 percent for Eastern, and 2.4 percent for Pan American. For the three carriers combined, the estimated increase in revenues approximates 2.7 percent. In relation to system operations, the increases are estimated to amount to less than one quarter of one percent.

3. Without an increase, none of the three carriers would realize a profit margin (net income after interest and taxes as a percent of revenues). With the increase permitted herein, Eastern will realize a profit margin of 1.2 percent, while American and Pan American will still not realize a profit margin.

4. The increased fares permitted herein are forecast to increase return (income before interest expense and after taxes) on investment for northeast U.S.-Puerto Rico/Virgin Islands operations from 1.8 percent without an increase to 3.3 percent, or an increase of 1.5 percentage points for American, and from 5.0 percent without an increase to 6.2 percent, or an increase of 1.2 percentage points for Eastern. Pan American would realize no return before or after the increase permitted. The increase is expected to effect a change of less than one-tenth of one percent on system return on investment for all three carriers. All forecast data assumes at least a 65 percent load factor in the San Juan market.

5. There is sufficient evidence before us in connection with these increases to enable the Board to conclude that:

a. the increase is cost based and does not reflect inflationary expectations;

b. the increase is the minimum required to assure continued, adequate and safe service, and to provide for necessary expansion to meet future requirements; and

c. the increase is the minimum required to avoid impairment of the carriers' credit in the short term pending full investigation of the Puerto Rico/Virgin Islands fare structure.

In view of the above, and upon consideration of all relevant matters, the Board has determined that passenger fares between the U.S. mainland, on the one hand, and Puerto Rico and the U.S. Virgin Islands, on the other hand, may be unjust or unreasonable, or unjustly discriminatory, or unduly preferential, or unduly prejudicial, or otherwise unlawful, and should be investigated. The Board further concludes that, except to the extent indicated above, the proposals contained in the instant tariff filings should be suspended pending investigation.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204, 403, 404, and 1002 thereof,

It is ordered, That:

1. An investigation be instituted to determine whether the fares and provisions described in Appendix F[10] and Appendix G[10] hereto, and rules, regulations, or practices affecting such fares and provisions, including subsequent revisions and reissues thereof, are or will be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful maximum and/or minimum fares and the lawful provisions, and rules, regulations, or practices affecting such fares and provisions;

2. Pending hearing and decision by the Board, the fares and provisions described in Appendix F hereto are suspended and their use deferred to and including June 29, 1972, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

3. Except to the extent granted herein, the complaints in Docket 24175, Docket 24300, and Docket 24301 are hereby dismissed;

4. The investigation ordered herein be assigned for hearing before an Examiner of the Board at a time and place hereafter to be designated; and

5. Copies of this order be filed on the aforesaid tariffs and served upon American Airlines, Inc., Caribbean-Atlantic Airlines, Inc., Delta Air Lines, Inc., Eastern Air Lines, Inc., and Pan American World Airways, Inc., the Commonwealth of Puerto Rico, and the Government of the U.S. Virgin Islands, which are hereby made parties to this proceeding.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.[11] [12]

[FR Doc.72-5805 Filed 4-5-72;8:49 am]

[Docket 21866-9; Order 72-3-113]

EASTERN AIR LINES, INC.

Order of Suspension Concerning Revised Application of Night Coach Fares

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 31st day of March 1972.

By tariff revisions[1] effective April 2 and 16, 1972, Eastern Air Lines, Inc. (Eastern) proposes to revise the application of deluxe night coach and night coach fares in certain markets by adding the following exceptions to the usual hourly parameters (10 p.m. and 3:59 a.m.) for night coach service.

1. Flights from Atlanta to Houston, Louisville, New York, Orlando, Philadelphia, and Tampa will be scheduled to depart between 10 p.m. and 6:45 a.m.

2. Flights from St. Louis to Atlanta will be scheduled to depart between 9 p.m. and 3:59 a.m.

3. Flights from Baltimore to Miami will be scheduled to depart between 9 p.m. and 3:59 a.m.

4. Flights from New York to Orlando and Tampa will also be scheduled to depart between 4 a.m. and 6:30 a.m.

In addition, Eastern proposes that night coach fares would apply in the Houston-Columbus, Ohio market on flights departing Houston between the hours of 10 p.m. and 6:27 a.m., and departing the intermediate point Atlanta between the hours of 6:28 a.m. and 9:50 a.m., or the intermediate point Charlotte between the hours of 6:28 a.m. and 11:05 a.m.

In support of the proposed 6:45 a.m. exception for selected Atlanta markets, Eastern alleges that it is presently operating at a disadvantage in these markets and contends that the proposed night coach service will equalize its competitive position while at the same time offering the public savings afforded by lower night coach fares. Eastern submitted a comparison of its contemplated early-morning flights in these markets with flights now operated by Delta at night coach fares out of Atlanta, which indicates that its flights are scheduled to depart within 30 minutes before or after Delta's flights.

The carrier contends that the exception relating to St. Louis is necessary to provide through night coach service from St. Louis to the many destinations available via connection at the Atlanta night coach complex, and that the 9 p.m. departure is dictated by the difference in time zones between St. Louis and Atlanta.

In support of the exception relating to the Baltimore-Washington-Miami service, Eastern alleges that in view of the 10 p.m. departure curfew in effect at National Airport, it cannot schedule this flight at a later hour. Accordingly, Eastern is requesting an exception for Baltimore so that the entire flight can be designated as night coach service.

Lastly, Eastern alleges that it proposes to provide a 6:30 a.m. departure in the New York-Orlando/Tampa market on an experimental basis to determine the generative effect of scheduling a low-fare flight at this early hour of the morning. The carrier states that the earliest flights in the market currently depart at 7:45 a.m.; and that since the New York-Orlando/Tampa market is primarily a vacation market the 6:30 a.m. departure is certainly off-peak. It is contended that by establishing a flight at this hour a family making a one- or two-day excursion will have a maximum amount of time at their final destination, and that a price incentive is necessary to induce people to travel at this early hour.

Delta Air Lines, Inc. (Delta) has filed a complaint[2] requesting that the proposal be suspended and investigated, the essential thrust of which is that the exceptions violate the Board's off-peak coach policy, that they might spread in domino fashion to other markets, and that the exceptions would seriously disrupt the existing fare structure. Delta alleges that the Board's present night coach policy provides that night coach fares shall apply to flights originating between the hours of 10 p.m. and 3:59 a.m., or to later departures on continuing segments of flights that originate within these time parameters; that Delta's exceptions which Eastern cites in support of its proposal are departures on continuing segments of flights that originated at points other than Atlanta between the 10 p.m.-3:59 a.m. period, and thereby are in full accord with the Board's present policy; and that Eastern's proposed exceptions would apply to originating flights and are thus not consistent with the present night coach parameters.

Delta alleges that it has carefully nurtured and developed night coach traffic over the years at considerable expense, and has spent a great deal of time solving various scheduling problems in an attempt to comply with the Board's policy that the hour of origination governs the designation of a flight as night coach. The complainant contends that, on the other hand, Eastern now intends to "siphon-off" this traffic without bothering with schedule complexities, by

---

[4] Pan American's costs appear to be significantly out of line with American and Eastern, particularly in certain functional expense categories. However, it is to be expected that Pan American's problems are temporary and that on-going programs will restore it to a more favorable earnings position. In these circumstances we need not give much weight to Pan American's relatively unfavorable earnings, but rather will rely primarily on the results of American and Eastern in our evaluation of the proposals before us.

[5] We are similarly concerned with the carriers' current rules which permit departures at night coach fares as late as 7:30 a.m. We are not convinced that departures at this time are consistent with the objectives of night services, as opposed to creating an unnecessary dilution in revenues.

[2] Northeast Airlines, Inc. (Northeast) has filed an answer supporting Delta's complaint.

V 37-67 APR 6 72 XUM

proposing to tailor the Board's policy to fit its flight origination times.

In answer to the complaint, Eastern alleges with respect to the Atlanta proposal that Delta is incorrect in its claim that, since Delta's night coach flights comply with Board policy, Eastern is not at a competitive disadvantage by being required to charge a fare 20 percent higher for flights departing at approximately the same time in the same markets. Eastern also contends that a flight designation should not be of any decisional significance in evaluating Eastern's proposal—the fact that Delta gives the same flight number to a 3 a.m. departure at New Orleans and a 6:21 a.m. departure at Atlanta does not distinguish Eastern's originating departure at the same time from Atlanta in any meaningful way.

Eastern states that Delta itself feels that passenger originations at the hours Eastern has proposed at Atlanta are off-peak, or it would have converted the flights to normal day fares when they passed through Atlanta. Eastern also contends that Delta's attempt to raise the spectre of a wholesale alteration in off-peak fare service if Eastern is allowed to meet Delta's fares is erroneous, and that it was Delta, not Eastern, which introduced these fares at these times in these Atlanta markets.

With respect to the New York-Orlando/Tampa market, Eastern alleges that the proposed 6:30 a.m. departure is off-peak, and that scheduling an early morning departure from New York allows Eastern to increase its equipment utilization and position an aircraft at Orlando for a prime time northbound departure without the need for ferrying. Eastern alleges that its proposed Baltimore exception would serve as precedent only for the proposition that a carrier may operate a flight from Friendship or Dulles through National at off-peak fares if the departure from National is within the normal off-peak departure hours.

Upon consideration of the tariff proposals, the complaint, the answers thereto, and other relevant matters, the Board finds that the proposals to provide night coach services in the New York-Orlando/Tampa markets as late as 6:30 a.m., in the Houston-Columbus market as late as 6:27 a.m., and the Baltimore-Miami market as early as 9 p.m. may be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and should be suspended. The Board finds that on the basis of the facts and information before us, the complaint does not set forth sufficient facts to warrant suspension of the 6:45 a.m. exception proposed in selected Atlanta markets, and the 9 p.m. exception in the St. Louis-Atlanta market, and the request therefore will be denied. The proposals are already under investigation in the Domestic Passenger-Fare Investigation, Docket 21866-9.[3]

We recognize that the proposed 6:45 a.m. exception applicable to selected Atlanta markets is a departure from the Board's present night coach policy which is under investigation in the ongoing investigation in Docket 21866-9. Nevertheless, in the circumstances which result from use of Atlanta as a hub for connecting night coach service, we do not believe Eastern should be required to charge higher fares than Delta on flights with approximately the same departure times and itineraries, merely because its early morning departures originate in Atlanta. It is the departure time which is of interest to the passenger boarding at Atlanta, not the technicality of where the flight originates. The proposed 9 p.m. exception for St. Louis departures is for the purpose of making connections with flights out of Atlanta after midnight, and the Board has previously permitted similar exceptions for this purpose. Moreover, we note that TWA, the only carrier providing competitive through service between St. Louis and Atlanta, did not file a complaint against Eastern's proposal.

Turning to the 6:30 a.m. departure in the New York-Orlando/Tampa markets, Eastern's justification appears to be couched essentially in terms of its desire to generate family travel rather than achieving the customary objectives stemming from provision of night coach service. The carrier has not supplied the type of supporting information which should properly accompany a promotional fare proposal, particularly since a plethora of promotional fares are already available in these markets. For these reasons, and since we believe that this proposed exception has the potential for spreading to other markets, we conclude that it should not be permitted without investigation.[4]

We will suspend the proposed 9 p.m. night coach departure at Baltimore, since, as worded, this provision would permit a much broader departure from the night coach policy than Eastern has justified or allegedly desires at this time. The exception is apparently intended to enable a flight to depart the origin point Baltimore early enough to depart the intermediate point Washington prior to the 10 p.m. curfew at the latter airport. However, the exception as proposed would permit any flight departing Baltimore at 9 p.m. (including nonstops) to be designated as night coach, and Eastern has in no way attempted to demonstrate that such departures would be off-peak.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 403, 404, and 1002 thereof,

It is ordered, That:

1. Pending hearing and decision by the Board, "Exception 7" and "Exception 8" to the Application of Fare Class FN and Fare Class YN appearing on 23d revised page 305 and the addition of Houston and the provisions in connection therewith in Table 1 on 23d revised page 306 of Airline Tariff Publishers, Inc., Agent CAB No. 136 are suspended and their use deferred to and including June 30, 1972, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

2. Except to the extent granted herein, the complaint in Docket 24309 is hereby dismissed; and

3. Copies of this order be filed with the aforesaid tariffs and be served upon Delta Air Lines, Inc., Eastern Air Lines, Inc., and Northeast Airlines, Inc.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc.72-5306 Filed 4-5-72;8:49 am]

[Docket 23486; Order 72-3-112]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order To Show Cause and Order Approving Agreement Relating to Charters

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 31st day of March 1972.

There has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958, as amended, and Part 261 of the Board's Economic Regulations, an agreement among various air carriers, foreign air carriers, and other carriers, embodied in the resolutions of the Traffic Conferences of the International Air Transport Association (IATA) adopted at meetings recently held in Miami and Geneva, and assigned the above designated CAB agreement number. The agreement relates to IATA Resolution 045 governing passenger charters for various areas.[1] The resolutions are proposed for effectiveness April 1, 1972.[2] The effect of the resolutions would be to revalidate the IATA Charter Resolution for most areas of the world through March 31, 1973, with minor amendments.

The amendments proposed would alter the provision concerning the maximum size of membership of a chartering group by raising it from 20,000 members to 50,000 members except with respect to charters originating in Scandinavia, which would remain at 20,000 members.

For the reasons hereinafter set forth, the Board has decided to approve the above resolutions through June 30, 1972, subject to conditions similar to those applied when the IATA Charter Resolution was last revalidated (Order 71-2-5, adopted February 1, 1971),[3] and to afford interested parties an opportunity to show cause by May 1, 1972, why the agreements embodying the IATA Charter Resolution should not be disapproved after June 30, 1972 insofar as they apply to air transportation to or from the United States.[4]

The Board is mindful of the incompatibility of the new and evolving charter concepts and the essentially unchanging character of the IATA Charter Resolution with its many charter limiting provisions. This incompatibility raises a basic question as to whether the present charter agreement, or in fact any charter agreement between IATA members, continues to serve a useful regulatory purpose. It is on this question that we especially seek the comments of interested parties.

The Board has not been satisfied with the disparity between its charter rules and the charter rules agreed to by the members of IATA. The IATA agreement is in some respects more restrictive than the Board's rules, and in other respects more liberal. To the extent the IATA Resolution is more restrictive than the Board's rules, it prevents the public from taking advantage of charter services to the same extent as the Board has found to be required in the public interest, and limits the IATA carriers in their competition for the mass air transportation market. To the extent the IATA carriers have agreed to rules that are more liberal than the Board's rules, the Board has historically conditioned its approval of the Resolution to preclude such operations in air transportation. Since the Board extended its charter rules to cover both on-route and off-route charter operations by both U.S. and foreign scheduled carriers, there may be no valid basis for having two sets of differing charter regulations, one by the U.S. Government and one by certain air carriers. We note that certain IATA carriers appear to be so disenchanted with their Charter Resolution as to set up subsidiary companies to engage in charter operations, thus, in effect, circumventing the requirements of 045.

For the foregoing reasons, the Board tentatively finds that the IATA Charter Resolution is adverse to the public interest. However, the Board recognizes that the resolution has been in effect, and has been approved by the Board, for many years, and that it would be appropriate to afford interested parties an opportunity to show cause why we should not make our tentative finding final. In order that interested parties may have sufficient time to prepare their comments, and the Board may have time to consider the comments, we will approve the subject resolutions through June 30, 1972. The Board therefore finds that these resolutions, as conditioned, will not be adverse to the public interest or in violation of the Act, and should be approved through June 30, 1972.

Accordingly, it is ordered:

1. That resolutions R-35, R-69, R-147 (insofar as it relates to Resolution 045), R-199, R-259, and R-298, all filed as part of Agreement CAB 22863, be and they hereby are approved, subject to the conditions stated in the Appendix hereto,[5] and provided that the Board's approval shall be limited to the period ending June 30, 1972, insofar as such resolutions relate to air transportation, as defined in the Act.

2. That interested parties are hereby directed to show cause why the IATA Charter Resolution (045) should not be disapproved to the extent that the resolution relates to air transportation, as defined in the Act, after June 30, 1972;

3. That such comments shall be filed in this docket on or before May 1, 1972;[6] and

4. That this order shall be served on all holders of foreign air carrier permits or certificates of public convenience and necessity, and upon the Departments of Justice, State, and Transportation.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc.72-5307 Filed 4-5-72;8:49 am]

[Docket 23486; Order 72-3-107]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Agreements on Fare Matters

Issued under delegated authority March 30, 1972.

By Order 72-3-35, dated March 13, 1972, action was deferred, with a view toward eventual approval, on certain resolutions incorporated in an agreement adopted by Joint Conferences 1-2 and 1-2-3 of the International Air Transport Association (IATA). The subject resolutions, which are a part of those adopted at January 1972 meetings in Geneva for application on Mid-Atlantic routes, involve administrative, technical, and procedural matters and do not affect basic fare levels.

In deferring action on the subject resolutions, 10 days were granted in which interested persons might file petitions in support of or in opposition to the proposed action. No petitions have been received within the filing period, and the tentative conclusions in Order 72-3-35 will herein be made final.

Accordingly, it is ordered, That the subject portions of Agreement CAB 22863 be and hereby are approved.

This order will be published in the FEDERAL REGISTER.

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc.72-5308 Filed 4-5-72;8:49 am]

[Docket 23486; Order 72-3-108]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Agreements on Fare Matters

Issued under delegated authority March 30, 1972.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations, between various air carriers, foreign air carriers, and other carriers embodied in the resolutions of Joint Conference 1-2 of the International Air Transport Association (IATA). The agreement, which has been assigned the above-designated CAB agreement number, was adopted by mail vote.

The agreement relates to the sale in foreign currencies of winter group inclusive tour (GIT) fares[1] during the month of April.[2] It provides that the carrier exchange rates to be used in converting from basic fare levels, which are specified in U.S. dollars, shall be those which prevailed on December 20, 1971, rather than those slated to become effective on April 1, 1972, with respect to most worldwide fares. The latter reflect general currency adjustments necessitated by the devaluation of the U.S. dollar and the resulting revaluation of foreign currencies. Inasmuch as the basic dollar fare levels for winter GIT travel during the 1-month extended period of validity are not slated to be adjusted upward on April 1 as in the case of other transatlantic fares, the application of new currency conversion rates in the absence of the instant agreement would result in lower fare levels in foreign currencies relative to those in U.S. dollars.

Pursuant to authority duly delegated by the Board in the Board's Regulations, 14 CFR 385.14, it is not found, on a tentative basis, that Resolutions JT12 (Mail 790) 084 p. and JT12 (Mail 790) 084 pp., which are incorporated in Agreement CAB 22990, are adverse to the public interest or in violation of the Act.

---

[1] We are also suspending the proposed Houston exception (providing for 6:27 a.m. departures) since there appears in fact, to be no competitive necessity involved. Eastern has indicated that it will withdraw the proposal on this basis.

[2] R-35 was to have been effective Feb. 1, 1972.

[3] Our action herein is without prejudice to our final decision in Docket 21866-9.

[1] R-147 is IATA Standard Revalidation Resolution 002, and so our action herein is only insofar as it concerns IATA Resolution 045.

[2] The resolutions presently before us cover all areas except TC2 (Europe) and JT123 (North Atlantic). Agreement has not been reached in TC2 (Europe). Since the IATA Charter Resolution as it applies to JT123 (North Atlantic) has been approved until Mar. 31, 1973, we would propose to withdraw that approval effective July 1, 1972.

[3] The language of the conditions has been changed somewhat to eliminate redundancy. Also, the condition on one-way passengers and intermingling has been revised to conform to changes in the Board's charter rules effected since the IATA Charter Resolution was last approved.

[4] The resolutions presently before us cover all areas except TC2 (Europe) and JT123 (North Atlantic). Agreement has not been reached in TC2 (Europe). Since the IATA Charter Resolution as it applies to JT123 (North Atlantic) has been approved until Mar. 31, 1973, we would propose to withdraw that approval effective July 1, 1972.

[5] Filed as a part of the original document.

[6] Twelve (12) copies of such comments shall be filed.

[1] As approved by the Board in Order 72-1-17 (dated Jan. 7, 1972) for 7/8-day travel to/from Europe and 9/16-day travel to/from Africa by 10 or more passengers.

[2] By Order 72-3-58 of Mar. 17, 1972, the Board approved carrier provisions to extend, through Apr. 30, 1972, the availability of current winter GIT fare levels to passengers. These were initially scheduled to expire on Mar. 31, 1972.

V 37-67 APR 6 72 XUM

Accordingly, it is ordered, That action on Agreement CAB 22990 be and hereby is deferred with a view toward eventual approval.

Persons entitled to petition the Board for review of this order pursuant to the Board's Regulations, 14 CFR 385.50, may, within 10 days from the date of service of this order, file such petitions in support of or in opposition to our proposed action herein.

This order will be published in the FEDERAL REGISTER.

[SEAL] HARRY J. ZINK,
Secretary.

In F.R. Doc. 72-4285 appearing on page 5766 in the issue of Tuesday, March 21, 1972, the word "Army" in the fourth line should read "Arms".

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 16495]

DOMESTIC COMMUNICATIONS SATELLITE SERVICE [1]

Applications Accepted for Filing

MARCH 28, 1972.

The following amendments to pending applications for domestic satellite facilities are accepted for filing for consideration in Docket No. 16495 in accordance with the procedures specified in previous public notices (FCC 70-953; FCC 71-174; FCC Public Notice 65963, issued on April 13, 1971; and FCC Public Notice 69147, issued on June 15, 1971):

The following amendments to the applications listed below are hereby accepted for filing:

File No.	Applicant	Amendments
11-DSE(R)-P-71 through 18-DSE (R)-P-71.	Teleprompter Corp. et al.	This amendment reflects changes in the Board of Directors of Teleprompter Corp. (Details are contained in amendments, January 19, 1972, to applications of Teleprompter Transmission of Kansas, Inc., for renewal of license of Stations KTQ 85 et al.
19-DSS-P-71.	Fairchild Industries.	This amendment revises the frequency and polarization plan; decreases the sensitivity of the satellite receivers; increases power from the earth stations (from 73 dBW per 34 MHz channel to 85 dBW, resulting from an increase in power output from 12 W nominal to 190 W.); and a change in orbit location of one space station from 115° to 100° and of the reserved orbit location from 124° to 96° W. longitude.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

[Docket Nos. 15461, etc.; FCC 72R-83]

CHAPMAN RADIO AND TELEVISION CO. ET AL.

Memorandum Opinion and Order Enlarging Issues

In regard applications of William A. Chapman and, George K. Chapman, d/b/a, Chapman Radio and Television Company, Homewood, Ala., Docket No. 15461, File No. BPCT-3282; Alabama Television, Inc., Birmingham, Ala., Docket No. 16760, File No. BPCT-3706; Birmingham Broadcasting Company, Birmingham, Ala., for construction permit for new television broadcast station, Docket No. 16761, File No. BPCT-3707; Birmingham Television Corporation (WBMG), Birmingham, Ala., for modification of construction permit, Docket No. 16758, File No. BPCT-3663.

1. This proceeding involves the applications of Chapman Radio and Television Company (Chapman), Alabama Television, Inc. (Alabama Television), (BBC), and Birmingham Television Corporation (WBMG), for authorization to construct a new UHF television broadcast station.[1] Hearing Examiner David I. Kraushaar released a Supplemental Initial Decision,[2] FCC 71D-20, on April 27, 1971, in which he concluded that grant of Alabama Television's application was warranted since it had demonstrated its superior comparative qualifications in the initial hearing in this proceeding and that nothing adduced during the remand hearing affected this original determination.[3] Exceptions and briefs in support thereof were filed by the parties.[4 5] Subsequently, on May 21, 1971, BBC and WBMG filed a joint petition to enlarge issues and reopen the record and for prompt action on this joint petition.[6 7] Petitioners seek the addition of the following issues against Alabama Television:

[1] The amendments submitted by each applicant are grouped together rather than listed separately under "Space Stations" and "Earth Stations."

[1] Chapman, Alabama Television and BBC are mutually exclusive applicants seeking authorization to construct a new UHF television broadcast station; WBMG, the fourth applicant and permittee of Station WBMG (TV), Channel 42, in Birmingham, seeks modification of its construction permit to specify operation on the same channel. With the exception of Chapman which proposes to operate its facility in Homewood, Ala., each of the applicants has specified Birmingham, Ala., as its station location.

[2] The following is a brief recitation of the history of this proceeding. The proceeding was designated for hearing by Order, FCC 66-636, released July 20, 1966. On Aug. 30, 1968, Hearing Examiner David I. Kraushaar released an Initial Decision (19 FCC 2d 185, 14 RR 2d 6), recommending a grant of the application of Alabama Television under the comparative issue. The Review Board, after oral argument on exceptions, affirmed the Examiner's ultimate resolution of the proceeding (19 FCC 2d 157, 17 RR 2d 60, reconsideration denied 20 FCC 2d 556, 17 RR 2d 1028). By Order, FCC 70-744, 24 FCC 2d 282, released July 13, 1970, the Commission, inter alia, granted a petition for enlargement of issues filed by BBC and dismissed petitions for review pending before it as moot. The proceeding was thus remanded to the Hearing Examiner for the preparation of a Supplemental Initial Decision under misrepresentation and equal opportunity employment requirement issues with respect to Alabama Television, and a comparative efforts issue; subsequently, a § 1.65 issue was specified against BBC.

[3] The Hearing Examiner favorably resolved the outstanding issues concerning lack of candor and equal opportunity employment requirements specified against Alabama Television.

[4] The following pleadings were filed: (1) Exceptions, filed June 24, 1971, by Chapman; (2) exceptions, brief in support thereof and request for oral argument, filed June 24, 1971, by BBC; (3) exceptions, brief in support thereof and request for oral argument, filed June 29, 1971, by WBMG; (4) brief in reply to exceptions of (a) WBMG, filed July 19, 1971, (b) Chapman, filed July 6, 1971, and (c) BBC, filed July 6, 1971, by Alabama Television; and (5) Broadcast Bureau's reply to exceptions, filed July 8, 1971.

[5] Oral argument was held before a panel of the Review Board on Jan. 25, 1972.

[6] BBC and WBMG also filed a joint petition for institution of inquiry pursuant to section 403 of the Communications Act of 1934, as amended, and for other relief with the Commission. The Commission, by Order, FCC 72-34, released Jan. 14, 1972, dismissed the request for institution of a section 403 inquiry and denied alternate relief, which would have directed the Review Board to reopen the record and enlarge the issues in the proceeding, stating: "• • • the full sweep of this adjudicatory proceeding now awaits action by the Review Board, and it, therefore, is in a better position at this juncture to assess the contentions advanced before it in support of the petition to enlarge issues and reopen the record • • •."

[7] Other related pleadings before the Board for consideration are: (a) Opposition, filed June 3, 1971, by Alabama Television; (b) Broadcast Bureau's opposition, filed June 3, 1971; (c) supplement to petition, filed Feb. 10, 1972, by BBC and WBMG; (d) supplemental opposition, filed Feb. 23, 1972, by Alabama Television; and (e) joint reply to supplemental opposition, filed Mar. 10, 1972, by BBC and WBMG.

1. To determine, in light of all the facts and circumstances surrounding the Complaint of the U.S. Attorney General, whether George J. Mitnick and Joseph Engel and consequently Alabama Television, Inc., are qualified to own and operate a television broadcasting station in Birmingham, Ala.

2. To determine, in light of the actions in Federal Courts charging Civil Rights violations against 3 of Alabama Television, Inc.'s principals, the history of civil rights compliance of all companies of Alabama's Directors in their own businesses, and whether the facts there deduced impeach the Equal Employment Program, only recently adopted, which is the subject of Issue 3 added by the Commission.

The Review Board will reopen the record and enlarge the issues in order to determine the significance of the civil judgment which has been entered against two of Alabama Television's principals.[8] In addition to the adduction of evidence under the newly-framed issue, the Board is of the view that remand is compelled in order to insure a full and true disclosure of the facts with respect to the equal opportunity employment issue. In this connection, the Board will also consider those exceptions of BBC and WBMG which directly relate to the disposition of that issue.

2. BBC and WBMG allege that, as of the time the joint petition was filed, three of Alabama Television's principals, representing more than one-third ownership in the applicant, have been charged with violating the civil rights of persons of the Negro race.[9] The joint petitioners note that the most recent incident, involving two additional Alabama Television principals and directors, is a complaint instituted by the U.S. Justice Department, which alleges that Mitnick and Engel, among others, violated Title VIII of the Civil Rights Act of 1968.[10] The existence of this complaint and the subsequent judgment warrant the addition of an issue inquiring into the character qualifications of Alabama Television, BBC and WBMG assert. Further, in light of this additional incident, petitioners contend, it is important to allay any doubts as to the sincerity or willingness of Alabama Television's principals to practice nondiscrimination in accordance with the Commission's equal employment opportunity requirements. As a means to this end, BBC and WBMG request a specific issue inquiring into the past business practices of the applicants' principals.

3. A specific issue is required, petitioners suggest, since their efforts to elicit this information under the equal employment opportunities issue have been frustrated by the Hearing Examiner's evidentiary rulings. Initially, BBC and WBMG relate, the Examiner ruled (in response to their request that he permit examination of the hiring policies of all companies owned by Alabama Television principals) that only the employment practices of companies of principals who will be integrated into the day-to-day operations of the station are relevant for purposes of discovery.[11] Thereafter, petitioners point out, in response to two further pretrial requests for information from Alabama Television by BBC,[12] the Examiner reaffirmed this position and ruled that the applicant had adequately responded in an opposition pleading and in its objections and conditional answers to the request for admission of facts (FCC 70M-1499, released November 3, 1971); thus, petitioners complain, with the exception of information relating to the hiring policies of the Birmingham Trust National Bank, they received only partial information with respect to two Alabama Television principals. Subsequently, BBC and WBMG continue, they made an informal request to Alabama Television to make its Board of Directors available for cross-examination; but only two directors, John S. Jemison and Paul Aiken, were produced. Even in this regard, however, examination was unduly restricted, petitioners contend, since objections to the line of questioning with respect to these directors were repeatedly sustained during the hearing (citing Tr. 5588-92).

4. In their exceptions, BBC and WBMG argue that the Hearing Examiner foreclosed the adduction of relevant and material evidence under the equal opportunity employment issue. They assert that the Examiner not only unduly limited the scope of information deemed relevant for purposes of discovery, but that he adhered to the same constrictive standard with respect to the scope of cross-examination he would permit during the hearing.

5. In opposition, Alabama Television argues that an independent Commission inquiry into the facts and circumstances surrounding the complaint would be inappropriate until the case is fully and finally decided by the Federal courts.[13] In any event, the applicant contends, an adverse determination in that case would have no bearing upon the qualifications of Alabama Television, because Mitnick and Engel play only a passive role in the apartment operation and, similarly, neither director will be integrated into the day-to-day operation of the proposed station. In a supplementary pleading, Alabama Television notes that although the district court found the defendants guilty of civil rights violations, it specifically found that Engel and Mitnick were "in the nature of silent partners" in the apartment operation and further that "defendants Engel and Mitnick did not participate in business decisions in the operation of the apartment." Thus, Alabama Television argues, its character qualifications should not be drawn into question because of an innocent violation of civil rights legislation. With respect to the second requested issue, Alabama Television contends that there is nothing in the record which would indicate any insincerity or unwillingness to comply with the equal employment requirements on the part of Engel and Mitnick in light of the affidavits in which both principals affirm their personal support for the principle of equal employment and their unqualified endorsement of the applicants' affirmative action employment program.

6. Noting that the joint petition may suffer from some technical deficiencies,[14] the Broadcast Bureau nevertheless expresses the view that the allegations contained in the civil complaint are of a very serious nature and, accordingly, raise questions which could affect the qualifications of Alabama Television to be a Commission licensee. Therefore, the Bureau concludes that it would not be in the public interest to grant the application of Alabama Television until after the outcome of the court proceeding. Accordingly, the Bureau recommends that the Review Board withhold its decision until the civil action is resolved (citing "Grayson Television Company, Inc.," FCC 67-1094, released October 4, 1967). Similarly, the Bureau argues that since the second requested issue is also based in part on the existence of the

[8] The predicate for the joint petition was the filing of a civil complaint against two of Alabama Television's principals (J. George Mitnick and Joseph Engel) and others for alleged violations of Title VIII of the Civil Rights Act of 1968, 42 U.S.C. section 3610 et seq. An adverse judgment was entered in that proceeding on Jan. 27, 1972, by the U.S. Court for the Southern District of Alabama, Southern Division. Subsequently, a notice of appeal was filed with the U.S. Court of Appeals for the Fifth Circuit on behalf of the defendants.

[9] The first instance of this nature was discussed in a memorandum opinion and order, FCC 70-744, 24 FCC 2d 282, released July 13, 1970, in which the Commission refused to add a character qualifications issue against Alabama Television because of the conduct of its president, 16.2 percent stockholder and director, John S. Jemison. Mr. Jemison is the controlling stockholder and owner of Elmwood Cemetery which refused, on racial grounds, to inter a young Negro soldier who had died in Vietnam. A lawsuit was instituted by the soldier's family. Thereupon judgment was entered for the plaintiffs (Terry v. Elmwood, No. 69-490, U.S. District Court for the Northern District of Alabama, Southern Division). The Commission noted that Mr. Jemison had taken affirmative action to expedite resolution of the controversy and that the restrictive covenants constituted extenuating circumstances for the conduct charged. Moreover, the Commission found that Mr. Jemison would not be involved in the day-to-day operation of the station, and that no question had been raised as to the qualifications of the principals of Alabama Television who will be responsible for its management and the making of policy decision.

[10] Specifically, the complaint alleges that Mitnick and Engel, among others, because of racial considerations discriminated against persons in the rental of apartments in an apartment building owned by them.

[11] Citing Tr. 5124-5125; 5129-5130.

[12] BBC filed a petition for production of information and documents and a request for admission of facts.

[13] Citing Report on Uniform Policy as to Violation by Applicants of Laws of the United States, 1 RR Part 3, 91:495 (1951).

[14] Specifically, the Bureau points out that the petitioners waited at least 42 days after learning of the existence of the complaint before filing the joint petition; additionally, the Bureau questions whether or not the allegations contained in the complaint are sufficiently particular to satisfy Commission requirements.

V 37 ■ 67
APR 6 72
XUM

civil rights complaint, Review Board action should be withheld until the resolution of the court action.

7. The Commission can grant an application for a broadcast authorization only upon finding that the "public interest, convenience, and necessity" would be served by a grant. In making this determination, the Commission has long held that certain violations of law are appropriate considerations in determining whether an applicant possesses the requisite qualifications to be a licensee. See "Uniform Policy," supra. Although the question of whether the violation is of sufficient importance to reflect on an applicant's qualifications depends upon various circumstances, violations of certain laws, such as antitrust violations, have been singled out as being so directly related to an applicant's fitness that such violations ordinarily must be considered. The Board is of the view that violations of civil rights legislation demand similar scrutiny.[15] As stated in "notice of proposed rule making to require broadcast licensees to show nondiscrimination in their employment practices," supra, "it follows that the Commission should take into account allegations raising substantial questions whether an applicant has violated, or is in violation of, the Civil Rights Act or a pertinent State law in this field." Accordingly, if a violation has been established, as it has in this case on the Federal district court level, this clearly raises a question as to the applicant's qualifications to be a broadcast licensee. The Review Board will therefore add an issue inquiring into the significance of the civil judgment in the evaluation of the qualifications of Alabama Television. However, since the judgment is pending on appeal, the Board is of the view that the inquiry under this issue should be withheld pending a full and final determination by the Federal courts.

8. In addition to the foregoing, further hearing is required under the existing equal opportunity employment issue. In the Board's view, an inquiry into the civil rights compliance of the companies owned by Alabama Television's directors[16] is encompassed within the issue. Thus, while we are not convinced that alleged past discriminatory conduct is dispositive of the question of an applicant's "willingness"[17] to pursue a nondiscriminatory hiring policy or to operate in the public interest, we believe that such conduct constitutes clear cause for exploration by the Commission in the form of a more searching scrutiny of the applicant in this important respect.[18] In this connection, the Board is of the opinion that the Eaxminer's restriction of the scope of evidence deprived the other applicants of their right to a full and true disclosure of the facts under the equal opportunity employment issue. As correctly noted by the joint petitioners, the Examiner not only unduly limited the scope of information deemed relevant for purposes of discovery, but he also adhered to that same constrictive standard with respect to the scope of cross-examination he would permit during the hearing.[19] Thus, further hearing is also required under this issue in order to remedy a deficient record.

9. In view of the foregoing, the Review Board will reopen the record and remand the proceeding to the Hearing Examiner for further hearing.[20] The Examiner is instructed to conduct further hearing under the equal opportunity employment issue and the issues added herein,[21] and prepare a further Supplemental Initial Decision re-evaluating his findings and conclusions under the equal opportunity employment issue, the additional issues, and to the extent necessary, the standard comparative issue.

10. *Accordingly, it is ordered,* That the joint petition to enlarge issues and reopen the record and prayer for prompt action on this joint petition, filed May 21, 1971, by Birmingham Broadcasting Company and Birmingham Television Corporation (WBMG), is granted to the extent indicated herein, and is denied in all other respects; and

11. *It is further ordered,* That the issues in this proceeding are enlarged to include the following:

1. To determine the facts and circumstances surrounding the civil suit filed by the United States Attorney General against Joseph Engel, George J. Mitnick, and three other named defendants, under Title VIII of the Civil Rights Act of 1968, 42 U.S.C. 3601, et seq.,

2. To determine the effect, if any, of the evidence adduced pursuant to the foregoing issue on the basic or comparative qualifications of Alabama Television, Inc.

and

12. *It is further ordered,* That the burden of proceeding with the introduction of evidence under the issues added herein shall be on Birmingham Broadcasting Company and Birmingham Television Corporation (WBMG), and the burden of proof under these issues shall be on Alabama Television, Inc.

13. *It is further ordered,* That the record in this proceeding is reopened and that this proceeding is remanded to the Examiner for further hearing on the equal opportunity employment issue in addition to the above-specified issues.

Adopted: March 28, 1972.

Released: March 31, 1972.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

[FR Doc.72-5311 Filed 4-5-72;8:40 am]

---

[15] In this connection, the Commission stated in Notice of Proposed Rule Making to Require Broadcast Licensees to Show Nondiscrimination in Their Employment Practices, FCC 68-702, 13 FCC 2d 766, that its concern with such violations is twofold. One aspect is its concern with the National policy against discrimination in hiring. The other consideration is that since broadcasting is an important mass media form which makes use of the airwaves belonging to the public, an applicant must obtain a Federal license under a public interest standard and must operate in the public interest.

[16] We disagree with the Hearing Examiner's ruling that past business practices of principals are relevant only if such principals are integrated into the day-to-day operation of the station. The business practices of directors who control the applicant and who will be responsible for making policy decisions are also relevant to the issue. Accordingly, aside from its independent significance, the civil proceeding instituted against, inter alia, Mitnick and Engel is relevant to the resolution of the equal opportunity employment issue.

[17] When adding this issue, the Commission indicated that its concern was broader in scope and significance than mere assurances on the part of Alabama Television that it would comply with the Commission's requirements. The Commission stated:

Finally, we deem it appropriate to delve into the matter of Alabama Television's employment policies. In light of the cemetery incident (and particularly Alabama Television's possible misrepresentations concerning the incident) and Alabama Television's apparent failure to contact members of minority groups with regard to community needs, we are concerned about Alabama Television's willingness to practice equal-opportunity employment.

[18] It should be noted in this regard that even where no violation of a specific statute is established or alleged, specific allegations may raise serious public interest issues warranting a full hearing. (See Uniform Policy, par. 15 at 91:499; National Broadcasting Co. v. United States, 319 U.S. 190; Mansfield Journal Co. v. F.C.C., 180 F2d. 28 (CADC)); and Notice of Proposed Rule making, supra.

[19] Recognizing that the right of cross-examination is not unlimited and that the presiding officer, of necessity, must make an initial determination as to whether or not cross-examination is being pressed to unreasonable lengths, the Board is of the opinion that the Examiner was not warranted in foreclosing cross-examination necessary to the development of a full and meaningful record. See section 7(c) of the Administrative Procedure Act, 5 USC section 1006(c); Jupiter Associates, Inc., 6 FCC 2d 13, 8 RR 2d 1254 (1966); NLRB v. Miami Coca-Cola Bottling Company, 360 F 2d. 569 (5th Cir. 1966); Chapman Radio and Television, Inc., 6 FCC 2d 768, 9 RR 2d 595 (1967).

[20] Cf. Babcom, Inc., 31 FCC 2d 425, 22 RR 2d 828 (1971).

[21] The hearing under the new issues must, of course, await the outcome of the civil suit now under appeal. Although the further hearing under the equal opportunity employment issue may commence earlier, it cannot be completed until the suit is resolved, since the suit may be relevant to the resolution of the equal opportunity employment issue.

[Docket Nos. 18711, 18712; FCC 72R-88]

WPIX, INC., AND FORUM COMMUNICATIONS, INC.

Memorandum Opinion and Order Enlarging Issues

In regard applications of WPIX, Inc. (WPIX), New York, N.Y., for renewal of broadcast license, Docket No. 18711, File No. BRCT-98; Forum Communications, Inc., New York, N.Y., for construction permit for new television broadcast station, Docket No. 18712, File No. BPCT-4249.

1. This proceeding involves the mutually exclusive applications of WPIX, Inc. (WPIX), seeking renewal of its television broadcast license at New York, N.Y., and Forum Communications, Inc. (Forum), requesting a construction permit for a similar facility at New York. The applications were designated for hearing on various issues by Commission Order, released October 28, 1969 (FCC 69-1162, 20 FCC 2d 298, 17 RR 2d 782).[1] Presently before the Review Board is a petition to enlarge issues, filed December 13, 1971, by WPIX, which requests the addition of a "Suburban" issue against Forum.[2]

2. In its petition, WPIX questions the efforts Forum has made to ascertain the community needs and interests of the area and the means by which Forum intends to meet those needs and interests. Specifically, WPIX argues that Forum's ascertainment efforts are deficient in the following particulars: (1) Loss of supporting records for interviews summarized in Forum's application as filed on May 22, 1969; (2) failure to determine the composition and distinctive attributes of the community; (3) no information concerning the number of interviews conducted with black or Puerto Rican leaders or with other representatives of racial, ethnic, and poverty groups; (4) lack of involvement of Forum's principals in the interviews; (5) the use of professional research organizations to conduct interviews of community leaders; (6) lack of survey of the general public; and (7) failure of the questionnaires to elicit views concerning community needs and interests. WPIX then argues that even though the Commission found that Forum had complied with contemporaneous survey requirements[3] the Board should enlarge the issues as requested because the deficiencies in Forum's survey efforts were not revealed until "cross-examination of Forum's principals at the hearing" (November 29, 1971, through December 7, 1971). Furthermore, WPIX argues, Forum's ascertainment efforts must be judged by the "Primer's"[4] new standards and are therefore patently deficient.

3. In its opposition, Forum initially argues that WPIX's petition is untimely under § 1.229 of the Commission's rules, because no new information was produced at the hearings commencing on November 29, 1971, which would warrant an ascertainment issue against Forum. Forum goes on, however, to attempt to demonstrate that its ascertainment efforts are adequate, whether judged by standards pertaining at the time the Forum application was filed or under the "Primer" standards. In reference to the loss of supporting records for the interviews it conducted, Forum concedes the loss but contends that since no real question has been raised as to whether the interviews were in fact properly conducted and abstracted the loss does not detract from the efforts Forum has made. Further, Forum notes, the originals were available for more than 2 years, or until the summer of 1971. Referring to the composition and attributes of the community, Forum argues that it "did indeed conduct an exhaustive demographic study * * *" and goes on to list various reference works utilized. In regard to Forum's principals' involvement in the interviews, Forum contends that it designated a "full-time management-level employee" (Mrs. Theodora Sklover)[5] to work directly with Forum's President to coordinate and develop its continuing community ascertainment efforts. In reference to the use of professional research organizations to gather survey information, Forum contends that such use is allowable if, as here, it is done in conjunction with extensive personal consultations with community leaders and the public by an applicant's management-level employees (citing Alvin L. Korngold, 27 FCC 2d 222, 20 RR 2d 1244 (1971)). In reference to WPIX's criticism of the questionnaires used by Forum during its interviews, Forum contends that the "major purpose" of the questionnaires was to "pin-point the needs and interests of the community leader's organization and then to determine whether these needs and interests were being adequately served * * *" Forum also points to the interviews by Mrs. Sklover and the professional research organization with respect to the alleged deficiencies regarding the survey of the general public.

4. The Broadcast Bureau, in its opposition to WPIX's petition, argues that WPIX's petition is grossly untimely and good cause has not been shown for its untimeliness.[6] In reference to the loss of supporting records by Forum, the Bureau contends that it would be pointless at this late date to conclude that such loss flaws the entire survey. Overall, the Broadcast Bureau expresses the view that it is satisfied that Forum's opposition and attached affidavits "have demonstrated compliance with the Commission's ascertainment requirements as codified by the Primer." WPIX, in its reply to the oppositions, reiterates the points raised in its initial petition and argues that the documents referred to by Forum's opposition do not adequately answer the questions raised in the petition to enlarge. Specifically, argues WPIX, Forum's opposition does not resolve deficiencies in the areas of: (1) Consultation with a true cross-section of community leaders; (2) a valid survey of the general public; and (3) derivation of information concerning community problems.

5. The Board will grant petitioner's request for a "Suburban" issue. In our view, although there is no one deficiency in Forum's survey which would, standing alone, necessitate addition of an issue, the cumulative effect of the apparent deficiencies in Forum's ascertainment efforts is sufficient to raise a substantial question as to whether or not Forum has complied with the "Primer's" requirements.[6] First, Forum concedes violation of the "Primer" by the loss of supporting records. In reference to Forum's determination of the composition and attributes of the community, the Board points out that the "Primer" (Q. & A. 10) states that even if the applicant shows consultations with a wide variety of groups it is "still required to submit a showing in support of its determination of the composition of the community. The purpose * * * is to inform the applicant and the Commission what groups comprise the community." It appears that no formal demographic study was made by Forum and only FCC documents were initially relied upon (Tr. 12006-10). Similarly, Forum has nowhere shown that it prepared an adequate summary of the applicable data or that its determination is based upon anything more than generalities and estimates. Forum has simply supplied no concrete information on which a determination of the composition of the community can be based. The "Primer" (Q. & A. 4) also requires an applicant to consult with the "leaders of the significant groups in the community" and this specifically includes racial and ethnic groups. Yet, Forum has not established an adequate breakdown of these groups, other than the general heading of "minority interests," and Forum does not show, for example, how many blacks and/or Puerto Ricans have been interviewed. Another "Primer" requirement is that consultations with community leaders must be conducted by principals or management-level employees and not by a professional research or survey service ("Primer" Q. & A. 11(a) and 12). It appears that Forum's actions in this regard may not be

---

[1] The Commission recently redesignated this proceeding for hearing (FCC 72-144, released Feb. 24, 1972); as a result, the instant petition will be regarded as having been timely filed.

[2] Also before the Board are the following related pleadings: (a) Opposition, filed Jan. 13, 1972, by Forum; (b) opposition, filed Jan. 20, 1972, by the Broadcast Bureau; (c) reply, filed Feb. 1, 1972, by WPIX; (d) motion for leave to file rejoinder and rejoinder to WPIX's reply to oppositions, filed Feb. 4, 1972, by Forum; (e) response to motion for leave to file rejoinder, filed Feb. 10, 1972, by WPIX. Forum requests leave to file rejoinder, (d) above, because WPIX's reply allegedly "contains a number of distortions of fact" and "also raises one new matter." The Review Board will deny Forum's request. The alleged "distortions of fact" are not sufficiently serious to permit a response and, also, WPIX's reply will be treated as if it is "limited to matters raised within the oppositions," as required by Commission § 1.45(b).

[3] WPIX, Inc., 20 FCC 2d 298, 17 RR 2d 782 (1969).

[4] Primer on Ascertainment of Community Problems by Broadcast Applicants, 27 FCC 2d 650, 21 RR 2d 1507 (1971), hereinafter referred to as Primer.

[5] Because this is no longer a valid argument (see footnote 1, supra) the Board will not discuss it further.

[6] The Board notes that the Primer explicitly applies to all applications for "construction permits for new broadcast stations" (Primer, Q. & A. 1), and applicants were given 90 days to amend their applications if they believed it necessary. Primer, paragraph 79. See Harry D. Stephenson and Robert E. Stephenson, FCC 72R-31, ------ FCC 2d ------, released Feb. 8, 1972.

V 37-67 APR 6 72 XUM

totally satisfactory. First, the designation of Mrs. Theodora Sklover as a "management-level employee" is questionable in the present circumstances. The employment of a consultant to aid in an applicant's survey efforts is not sufficient, standing alone, to qualify the consultant as a "management-level employee." A showing should be made that a dialog can be established and maintained between the community and the decisionmaking personnel of the applicant. Another area that the Board believes raises a serious question of Forum's compliance with "Primer" requirements (Q. & A. 4) involves the adequacy of Forum's survey of the general public. One of Forum's principals stated that Forum did not undertake a full-dress survey of the general public (Tr. 12036–39). In fact, the only efforts to survey the general public apparently consists of four "focused group interviews" and four "Forum Forums," which were part of a "disproportionate, stratified sampling approach" recommended by a professional research organization. Overall, it appears that no more than 200 people were involved. The Board is unable to find on the basis of the pleading that such a sampling complies with the requirement for a survey of the general public. Cf. "The Tuscarawas Broadcasting Company," FCC 72–213, ____ FCC 2d ____, released March 15, 1972. Finally, the Board has reviewed the questionnaires used by Forum in conducting its surveys and it appears that there may be serious deficiencies. The questions used do not specifically elicit the views of the person interviewed concerning community needs and interests or community problems ("Primer" Q. & A. 3 and 18). Instead, the questions asked during the interviews sought information concerning: (1) The "principal activities" or "major concerns and interests" of the interviewee's organization; (2) whether the programing of existing New York stations adequately served the needs and interests of that organization; and (3) the ways in which Forum's station can stay in closer contact with the community or contribute to serving the needs and interests of the leader's organization. Such questions and information are only peripherally related to the basic purpose of ascertaining what the person consulted believes to be the problems of the "community." Indeed, the determination of community problems and how the applicant proposes to meet them are the basic purpose of the "Primer" as a whole and strict compliance in this regard is essential. In view of the foregoing, the Board believes that an evidentiary exploration of Forum's efforts to ascertain community needs is warranted.

7. *Accordingly, it is ordered,* That the motion for leave to file rejoinder, filed February 4, 1972, by Forum Communications, Inc., is denied; that the rejoinder and the response thereto, filed February 10, 1972, by WPIX, Inc., are dismissed; that the petition to enlarge issues, filed December 13, 1971, by WPIX, Inc., is granted; and that the issues in this proceeding, are enlarged to include the following:

To determine the efforts made by Forum Communications, Inc., to ascertain the community needs and interests of the area to be served and the means by which it proposes to meet those needs and interests.

8. *It is further ordered,* That the burdens of proceeding with the introduction of evidence and proof under the issue added herein, shall be on Forum Communications, Inc.

Adopted: March 29, 1972.

Released: March 31, 1972.

FEDERAL COMMUNICATIONS COMMISSION,[†]

[SEAL] BEN F. WAPLE, *Secretary.*

[FR Doc.72-5312 Filed 4-5-72;8:49 am]

[FCC 72-252]

CERTAIN PUBLIC AND LIMITED COAST CLASSES I AND II RADIOTELEPHONE STATIONS

Memorandum Opinion and Order Regarding Waivers

In the matter of waiver of §§ 81.132, 81.304, and 81.360 of the Commission's rules to permit certain Public and Limited Coast Classes I and II Radiotelephone Stations to continue the use of double sideband (DSB) emissions on the medium and/or high frequency bands after January 1, 1972.

1. The Commission has received waiver requests from certain Public and Limited Coast Classes I and II Radiotelephone Station licensees requesting waiver of the Commission's rules to permit their continued use of double sideband (DSB) emissions on the medium and/or high frequency bands after January 1, 1972. These classes of coast stations provide regional service or service up to several thousand miles, to ships on medium and high maritime frequencies. Public and Limited Classes I and II Radiotelephone Stations, except in Alaska or on inland waters other than the Great Lakes or the Mississippi River, are authorized pursuant to §§ 81.132, 81.304, 81.360 and 81.361 of our rules to emit only single sideband (SSB) on the medium and high frequency bands commencing January 1, 1972.

2. The waiver requests here under consideration concern coast stations subject to the above-mentioned SSB emission requirements. Such requirements for the medium frequencies were contained in a first report and order released June 16, 1970, in Docket No. 18307 and for the high frequencies in a third report and order released December 22, 1969, in Docket No. 18271. For discussion purposes the requests have been grouped below according to reasons given for the requests.

3. The first group of waiver requests for public coast stations are based upon the asserted present unavailability of suitable new SSB equipment and/or a lack of time in which to convert presently used DSB equipment to SSB operation. The licensees indicate that specially designed SSB equipment is on order and/or in the process of construction. In this connection the American Telephone and Telegraph Co. states that for the Bell System, which operates most of the stations in this group, development of suitable SSB equipment, contracted for in August 1970, has been delayed because of unanticipated circuit design problems. The company states that (a) only the prototype level has been achieved with field trials expected to commence in April or May 1972; (b) manufacture and delivery of the first unit is expected in the third quarter of 1972 and installation and operation of this initial unit should be completed in the fourth quarter of 1972; and (c) total Bell System conversion to SSB will be effectuated by December 31, 1973. The Commission licensing records indicate that many of the Bell System receiving and transmitting locations are separated and therefore this may require transmitters and receivers that are not integrated into a single piece of electronic equipment such as the units now generally available on the commercial market.

4. The Hawaiian Telephone Co. requests a delay because, like Bell, it has experienced a delay in delivery of station equipment that is specially designed to provide the best possible service to the public during "the difficult period when a multimode capability is required".

5. A request by General Telephone of Florida is also included in this group because of equipment delivery delays. The company states that on October 29, 1971, it completed all acts necessary for it, as assignee, to assume control of its station from a previous licensee, and since that date has been negotiating for new SSB equipment with the same firm that is supplying the Bell System and with an additional firm.

6. An additional request from a licensee in this group has been received from Great Lakes Marine Radio, Inc., which states that it needs additional time to design, develop, and obtain Commission type acceptance of SSB equipment that will be superior to any now available on the market. The applicant states that the station is equipped to receive SSB transmissions and that there will be no degradation of service during the extension period since to its knowledge there are only two vessels on the Great Lakes equipped with SSB radio equipment and they believe these are for experimental purposes only. All of the licensees and pertinent information concerning the stations in this first group are attached hereto as Annex A.

7. Another group of requests for waivers until, in some cases, 1977, are from public coast station licensees generally who state that they have petitioned, or intend to petition, the Commission for permission to discontinue operation of Class I or II (medium and high frequency) public coast facilities and they are reluctant to undergo the financial expense of conversion to SSB. The licensees assert, essentially, that in some cases conversion to VHF operations or complete termination of service is contemplated, and revenues from medium and high frequency operations are not sufficient to justify the expenditure of the considerable amounts of money required to convert to SSB operations for the relatively short interim period. A list of all licensees and pertinent information concerning the stations involved in this group are attacher hereto as Annex B.

8. Another waiver request received is for Public Coast Class II–B Station, call sign WMI, with a transmitter location at Lorain, Ohio. The licensee of that station, Lorain Electronics Corp., states it is disadvantaged by the decrease in Great Lakes shipping in the last 20 years and has already petitioned to discontinue service at two of its three public coast stations and is uncertain at this time whether to petition to discontinue service at WMI, its third location. The company seeks waiver until January 1, 1974, at the latest, to either petition to discontinue service at the third location or to become operational with SSB equipment.

9. In addition to the above waiver requests the city of San Diego, Calif., licensee of Limited Coast Class II–B Station, call sign KWD, at San Diego, Calif. requests a waiver to permit DSB operation until September 1, 1972. The city states that through administrative oversight it failed to budget funds for SSB operation, but states an intention to become operational with SSB equipment as soon as administratively possible.

10. A request is also on file by Central Radio Telegraph Co. which operates station WLC at Rogers City, Mich., for a waiver of the SSB rule requirements, based on somewhat different reasons. In addition to equipment availability problems, this licensee states that it has not yet been conclusively decided whether the maritime communications system adopted for general use on the Great Lakes will consist of only VHF operations, or whether it will also include continued operation in the medium and high frequency bands. The company asserts that it would be unreasonable to require coast stations to install SSB equipment now if only VHF operation is ultimately adopted for use on the Great Lakes and the company requests a waiver of the SSB requirements until January 1, 1974, by which time the question should be decided, and its equipment problems resolved.

11. Finally, RCA Global Communications Inc. requests similar rule waivers for reasons different than any of those described above. The company is the licensee of Public Coast Class I–B Station, call sign KQM at Kahuku, Hawaii and has joined in an application on file for consent to assignment to Radiocall, Inc., and requests waiver until approval by the Commission of its application or 60 days after denial to allow time to petition to discontinue the service or to install SSB equipment. Action on this application may be delayed because of oppositions on file by several parties which raise questions as to whether the grant of the application would serve the public interest.

12. We believe the requests for rule waivers to allow continued double sideband operation, for a limited period of time, of public coast stations by licensees who foresee possible early discontinuation of service is equitable and reasonable. To require a licensee to purchase new station equipment that would be used for only a relatively short period of time, substantially less than its normal usable life, could impose an unreasonable financial hardship on a licensee and would be contrary to the public interest. We, therefore, will grant these requests, not until 1977 as requested by some licensees, but only until final Commission action on any petition for discontinuation of service that may be filed and provided that such petitions are filed not later than January 1, 1973. We consider this a reasonable time for the licensees to study and assess current developments in the field of maritime public radiocommunications, as the developments affect them, and reach a business judgment as to whether to request Commission permission to discontinue service. Additionally, this will allow licensees the time necessary to compile the information needed by us to determine whether the public interest would be served by permitting them to discontinue operation of their Class I or II stations.

13. With respect to the requests for rule waivers so that double sideband station operations can be continued by licensees who assert that suitable equipment is not available, or that budgetary or administrative obstacles must be overcome, we are not entirely persuaded that the rule waivers for these licensees are justified. These licensees have been on international notice since the final action of the World Administrative Radio Conference in Geneva, Switzerland in 1967, and on national notice from the dates of the release of our notices of proposed rule making in Docket Nos. 18307 and 18271 on September 12, 1968, and August 8, 1968, respectively, to implement portions of the international agreements, that eventual single sideband operations in the maritime services was to be expected. On the basis of the information furnished us by these licensees in their requests for rule waiver, we are not convinced that they began early enough to cope with any equipment, budgetary or administrative problems peculiar to them in meeting the January 1, 1972 deadline for converting to SSB operations. Further, to grant these rule waiver requests would delay us in reaching our objective, described in several recent rule making proceedings, of better service and alleviating congestion on the medium and high maritime frequencies. Also the continued DSB operation of these stations may be a detriment to some ships that are now operating with SSB station equipment. We note, however, notwithstanding the long period of advance notice described above, these licensees do not yet have the necessary SSB station equipment and it appears, therefore, that we have no practicable course of action other than to grant the requests. To deny the requests for temporary continued use of DSB operations pending development and installation of SSB equipment would not provide a practical solution to the problem nor would it apparently result in any earlier SSB public correspondence service by the stations involved in these requests. Therefore, with some reluctance, and mindful of the above-described possible undesirable consequences, we will grant the requested rule waivers so that additional time will be available to the subject licensees to acquire and install the equipment needed to come into compliance with our SSB rule provisions. We also agree with the licensee of station WLC at Rogers City, Mich., that a waiver is warranted for the reasons furnished. This will allow the licensee time to determine the action that is appropriate in its case in view of the unresolved question of the extent to which VHF will be used on the Great Lakes.

14. *Accordingly, it is ordered,* That the licensees listed in Annex A attached hereto, are granted waivers of §§ 81.132 and 81.304 of the rules until the date requested by each licensee as shown on Annex A, so that the station may continue to operate with double sideband emissions until that date, or until the installation of SSB station equipment, whichever is sooner.

15. *It is further ordered,* That the city of San Diego, Calif. as licensee of Limited Coast Station KWD is granted a waiver of the provisions of §§ 81.132 and 81.360 concerning SSB operations so that it may continue to operate with double sideband emissions until September 1, 1972, or until the installation of SSB station equipment, whichever is sooner.

16. *It is further ordered,* That the licensees of the Class I or II Public Coast Stations shown in Annex B attached hereto and Lorain Electronics for its station WMI at Lorain, Ohio are granted waivers of the SSB provisions of §§ 81.132 and 81.304 of the rules pending the filing of an application for discontinuation of Class I or II Public Coast station service and until final action by the Commission on such an application; provided that the application is filed not later than January 1, 1973.

17. *It is further ordered,* That Central Radio Telegraph Co. is granted a waiver of the SSB provisions of §§ 81.132 and 81.304 of the rules until January 1, 1974, with respect to the operation of station WLC at Rogers City, Mich.

18. *It is further ordered,* That RCA Global Communications is granted a waiver of the SSB provisions of §§ 81.132 and 81.304 until final Commission action

[†] Board Member Nelson dissenting and voting to deny for the reasons advanced by the Bureau.

APR 6 1972 XUM

on the pending application for assignment of license of Public Coast Station KQM. In event the application is disapproved, RCA Global Communications is hereby granted an additional 60 days waiver thereafter to either install SSB station equipment, or, alternatively, to request permission to discontinue Class I station service in which case, an additional waiver is granted until the Commission acts on such a request providing the request is filed within the 60 day period. In event the pending application for consent to assignment is granted, a 60 day SSB rule waiver is hereby granted to Radiocall, Inc., to allow time to acquire and install necessary SSB station equipment.

Adopted: March 23, 1972.

Released: March 30, 1972.

FEDERAL COMMUNICATIONS COMMISSION,[1]

INTERSTATE COMMERCE COMMISSION

ASSIGNMENT OF HEARINGS

APRIL 3, 1972.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC 134060 Sub 6, Davinder Freightways, Ltd., continued to April 11, 1972, at the Edgewater Inn, Pier 67, Seattle, Wash.

MC 117940 Sub 71, Nationwide Carriers, Inc., now assigned April 19, 1972, at St. Paul, Minn., postponed indefinitely.

MC 95540 Sub 825, Watkins Motor Lines, Inc., now assigned April 20, 1972, at Denver, Colo., postponed indefinitely.

MC 135772, Barrett Transfer & Storage Co., now assigned April 24, 1972, at Seattle, Wash., cancelled and reassigned to April 24, 1972, Sixth Floor, Highway License Bldg., 12th and Franklin St., Olympia, Wash.

FD 26615, City of Wheeling, W. Va. Abandonment Baltimore & Ohio Railroad Tracks, Wheeling, Ohio County, W. Va., and FD 26674, City of Wheeling, W. Va. Abandonment of Operations Penn Central Transportation Company Tracks, Wheeling, Ohio County, W. Va., now assigned April 24, 1972, at Wheeling, W. Va., postponed to July 24, 1972, in Civil Service Room, New Post Office Building, 2501 Chapline Street, Wheeling, W. Va.

MOTOR CARRIER TRANSFER PROCEEDINGS

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

As provided in the Commission's general rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 30 days from the date of service of the order. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-73032. By order of March 28, 1972, Division 3, acting as an Appellate Division, approved the transfer to J. E. Lammert Transfer, Inc., Grand Island, Nebr., of the operating rights in certificates Nos. MC-111722 (Corrected) and MC-111722 (Sub-No. 3) issued August 7, 1961, and November 16, 1964, to Chester C. Chittenden, doing business as Chet's Truck Line, Ottumwa, Iowa, authorizing the transportation of general commodities, with usual exceptions, between Ottumwa, Iowa, on the one hand, and, on the other, specified points in Illinois and Indiana, and meats, meat products, and meat byproducts, and articles distributed by meat packinghouses, except hides and commodities in bulk, from Ottumwa, Iowa, to Elk Grove Village and Addison, Ill. Charles J. Kimball, 605 South 14th Street, Lincoln, NE 68501, attorney for applicants.

[Notice 26]

MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER APPLICATIONS

MARCH 31, 1972.

The following applications are governed by Special Rule 1100.247[1] of the Commission's general rules of practice (49 CFR, as amended), published in the FEDERAL REGISTER issue of April 20, 1966, effective May 20, 1966. These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after date of notice of filing of the application is published in the FEDERAL REGISTER. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one (1) copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) of the Commission's rules of practice further provides that each applicant shall, if protests to its application have been filed, and within 60 days of the date of this publication, notify the Commission in writing (1) that it is ready to proceed and prosecute the application, or (2) that it wishes to withdraw the application, failure in which the application will be dismissed by the Commission.

Further processing steps (whether modified procedure, oral hearing, or other procedures) will be determined generally in accordance with the Commission's general policy statement concerning motor carrier licensing procedures, published in the FEDERAL REGISTER issue of May 3, 1966. This assignment will be by Commission order which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the FEDERAL REGISTER of a notice that the proceeding has been assigned for oral hearing.

No. MC 200 (Sub-No. 252), filed February 22, 1972. Applicant: RISS INTERNATIONAL CORPORATION, 903 Grand Avenue, Kansas City, MO 64106, also 100 West 10th Street, Wilmington, DE 64142. Applicant's representative: Rodger J. Walsh, 12th Floor, Temple Building, 903 Grand Avenue, Kansas City, MO 64106.

V 37-67 APR 6 72 XUM

Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products and meat byproducts* as described in sections A, B, and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from the plantsite and/or storage facilities utilized by Wilson Certified Foods, Inc., at Marshall, Mo., to points in Alabama, Connecticut, Florida, Georgia, Kentucky, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, and the District of Columbia (restricted to traffic originating at Marshall, Mo., and destined to points in the named States). NOTE: If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo.

No. MC 7832 (Sub-No. 16), filed March 8, 1972. Applicant: SAM LOWENSTEIN AND STANLEY LOWENSTEIN, a partnership, doing business as, SUPER M FOODS DELIVERY, 411A North Wood Avenue, Linden, NJ 07036. Applicant's representative: Bert Collins, 140 Cedar Street, New York, NY 10006. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is dealt in by wholesale, retail, chain grocer, department stores, and food business houses (except commodities in bulk), and, in connection therewith, *equipment, materials, and supplies* used in the conduct of such business (except commodities in bulk), between points in New Jersey, Pennsylvania, Maryland, New York, Connecticut, Rhode Island, Massachusetts, New Hampshire, Delaware, Virginia, and Washington, D.C. Restriction: The proposed service to be limited to a service under contract with Food Fair Stores, Inc. of Philadelphia, Pa. NOTE: If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.

No. MC 10223 (Sub-No. 4) (Amendment), filed January 18, 1971, published FEDERAL REGISTER issue of February 19, 1971, under MC 105809 Sub 14, and republished as amended this issue. Applicant: ROBERT E. MACK, SOPHIE R. MACK, ESTELLE M. FUNK, CAROL BROWN, AND THERESA R. MOLLOY, a partnership, doing business as, MACK TRANSPORTATION COMPANY, 4330 Torresdale Avenue, Philadelphia, PA 19124. Applicant's representative: John W. Frame, Box 626, 2207 Old Gettysburg Road, Camp Hill, PA 17011. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commodities* dealt in by hardware stores, from points in Connecticut, Maine, Massachusetts, New Hampshire, New York (except points in the New York, N.Y. commercial zone as defined by the Commission), Rhode Island, Vermont, Virginia, and West Virginia to the warehouse of Cotter & Co. at Philadelphia, Pa., restricted against the transportation of commodities in bulk. NOTE: Applicant also conducts operations as a motor contract carrier in No. MC 105809. The purpose of this republication is to show that applicant now seeks to conduct operations as a motor common carrier rather than as a contract carrier, and also to delete certain states. Dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Harrisburg or Philadelphia, Pa.

No. MC 10761 (Sub-No. 261), filed February 22, 1972. Applicant: TRANSAMERICAN FREIGHT LINES, INC., 1700 North Waterman Avenue, Detroit, MI 48209. Applicant's representative: A. Alvis Layne, Pennsylvania Building, Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Food, food preparations and foodstuffs*, in vehicles equipped to protect such products from heat or cold (except in bulk, in tank vehicles), from the plantsite and/or warehouse facilities of Kraftco Corp., at or near Fogelsville and Allentown, Pa., to points in Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, Ohio, and Rhode Island, restricted to traffic originating at named origins and destined to points in named territory. NOTE: If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.; Philadelphia, Pa., or Washington, D.C.

No. MC 16961 (Sub-No. 4), filed March 9, 1972. Applicant: HUTCHINS TRUCKING COMPANY, a corporation, 1000 Congress Street, Portland, ME 04102. Applicant's representative: Francis P. Barrett, 60 Adams Street, Milton, MA 02187. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is dealt in by wholesale, retail, and chain grocery and food business houses; *empty containers*, returned or rejected merchandise on return, from Northboro, Mass., to Portland, Bangor, Lewiston, Lincoln, Fairfield, Waterville, and Raymond, Maine and Rochester, N.H., under continuing contracts with Columbia Markets and Giguere's Supermarkets. NOTE: If a hearing is deemed necessary, applicant requests it be held at Portland, Maine.

No. MC 28060 (Sub-No. 21), filed March 8, 1972. Applicant: WILLERS, INC., 1400 North Cliff Avenue, Sioux Falls, SD 57101. Applicant's representative: Bruce E. Mitchell, Suite 1600, First Federal Building, Atlanta, Ga. 30303. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, from the plantsites and/or storage facilities of Tony Downs Food Co., at or near St. James, Madelia, and Butterfield, Minn., and Estherville, Iowa, to points in Iowa, South Dakota, Wisconsin, North Dakota, Nebraska, Kansas, Missouri, and Illinois. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. No duplicating authority sought. If a hearing is deemed necessary, applicant requests it be held at Minneapolis or St. Paul, Minn.

No. MC 29886 (Sub-No. 280), filed March 1, 1972. Applicant: DALLAS & MAVIS FORWARDING CO., INC., 4000 West Sample Street, South Bend, IN 46621. Applicant's representative: Charles Pieroni (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pollution control equipment and accessories*, from Roanoke, Ill., to points in the United States (except Alaska and Hawaii). NOTE: Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 35469 (Sub-No. 43), filed March 1, 1972. Applicant: MODERN TRANSFER CO., INC., 1300 Hanover Avenue, Allentown, PA 18001. Applicant's representative: P. F. Gilligan (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Food, food preparations, and foodstuffs*, in vehicles equipped to protect such products from heat or cold (except in bulk, in tank vehicles), from the plantsite and/or warehouse facilities of Kraftco Corp., at or near Fogelsville and Allentown, Pa., to points in Delaware, Maryland, Ohio, Virginia, and West Virginia, and the District of Columbia, restricted to traffic originating at named origins and destined to points in named territory. NOTE: If a hearing is deemed necessary, applicant requests it be held at Allentown, Pa., Philadelphia, Pa., or Washington, D.C.

No. MC 32882 (Sub-No. 66), filed February 28, 1972. Applicant: MITCHELL BROS. TRUCK LINES, a corporation, 3841 North Columbia Boulevard, Portland, OR 97217. Applicant's representative: Norman E. Sutherland, 1200 Jackson Tower, Portland, Oreg. 97205. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel* articles as described in Ex Parte No. MC 45, *Descriptions in Motor Carrier Certificates*, appendix V (61 M.C.C. 276), (1) between points in Colorado, Utah, and Wyoming, on the one hand, and, on the other, points in Oregon and Washington and (2) between points in Oregon and Washington, on the one hand, and on the other, points in Idaho and Montana. NOTE: Applicant states that the requested authority could be tacked with its present Sub 60 if granted. If a hearing is deemed necessary, applicant requests it be held at Portland, Oreg., or Seattle, Wash.

No. MC 41432 (Sub-No. 120), filed March 1, 1972. Applicant: EAST TEXAS MOTOR FREIGHT LINES, INC., 2355 Stemmons Freeway, Post Office Box 10125, Dallas, TX 75207. Applicant's representative: Hugh T. Matthews, 630 Fidelity Union Tower, Dallas, Tex. 75201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Implement, tool, hardware, and houseware handles*, from Diboll, Tex., to points in Alabama, Arizona, Arkansas, Colorado, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Missouri, Mississippi, Nebraska, New Mexico, Ohio, Oklahoma, Tennessee, Utah, Wisconsin, and West Virginia. NOTE: Applicant states that the requested authority will tack with regular route authority but such is not proposed. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex.

No. MC 46421 (Sub-No. 11), filed March 2, 1972. Applicant: ESCRO STORAGE & CARTAGE, INC., 360 Dingens Street, Buffalo, NY 14206. Applicant's representative: Herbert M. Canter, 345 South Warren Street, Syracuse, NY 13202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, commodities in bulk, household goods as defined by the Commission, and those requiring special equipment), from Buffalo, N.Y., to point in Cattaraugus, Chautauqua, Erie, Genesee, Niagara, Orleans, and Wyoming Counties, N.Y. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Applicant further states that no duplicating authority is being sought. If a hearing is deemed necessary, applicant requests it be held at Buffalo, Syracuse, or New York, N.Y., or Washington, D.C.

No. MC 48221 (Sub-No. 3), filed March 3, 1972. Applicant: W. N. MOREHOUSE TRUCK LINE, INC., 2501 O Street, Omaha, NE 68107. Applicant's representative: Donald L. Stern, 530 Univac Building, Omaha, Nebr. 68106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat byproducts and articles distributed by meat packinghouses*, as described in sections A, B, and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, from the plantsite and/or storage facilities utilized by Wilson Certified Foods, Inc., at Marshall, Mo., to points in Colorado, Illinois, Indiana, Kansas, Michigan, Nebraska, Ohio, and Utah, restricted to traffic originating at Marshall, Mo., and destined to points in the name destination States. NOTE: If a hearing is deemed necessary, applicant does not specify a location.

No. MC 51146 (Sub-No. 245) (Clarification), filed December 6, 1971, published in the FEDERAL REGISTER issues of January 6, 1972 and February 10, 1972, and republished as clarified this issue. Applicant: SCHNEIDER TRANSPORT & STORAGE, INC., 2661 South Broadway, Green Bay, WI 54304. Applicant's representative: D. F. Martin, Post Office Box 2298, Green Bay, WI 54306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Such commodities* as are manufactured or distributed by manufacturers or converters of cellulose materials and products, plastic materials and products, paper and paper products (except commodities in bulk), between the plantsites and storage facilities of Will Ross, Inc., located at various points throughout the United States, on the one hand, and, on the other, points in the United States (except Alaska and Hawaii), and (2) *materials and supplies* used in the manufacture and distribution of the commodities in (1) above, (except commodities in bulk), from points in the United States (except Alaska and Hawaii) to the plant and storage facilities of Will Ross, Inc., restricted to traffic originating at and destined to the named plant and storage facilities. NOTE: Common control may be involved. The purpose of this republication is to show the location of Will Ross, Inc. If a hearing is deemed necessary, applicant requests it be held at Milwaukee, Wis.

No. MC 52709 (Sub-No. 317), filed March 9, 1972. Applicant: RINGSBY TRUCK LINES, INC., 5773 South Prince Street, Littleton, CO 80120. Applicant's representative: Robert P. Tyler (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products and meat byproducts* as described in sections A, B, and C of appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from the plantsites and/or storage facilities utilized by Wilson Certified Foods, Inc., at Marshall, Mo., to points in Arizona, California, Colorado, Connecticut, Delaware, Idaho, Illinois, Indiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Montana, Nevada, New Hampshire, New Jersey, New York, North Dakota, Ohio, Oregon, Pennsylvania, Rhode Island, South Dakota, Utah, Vermont, Virginia, Washington, West Virginia, Wyoming, and the District of Columbia (restricted to traffic originating at Marshall, Mo., destined to points in the named States). NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Denver, Colo.

No. MC 53965 (Sub-No. 80) (Clarification), filed December 27, 1971, published in the FEDERAL REGISTER issue of February 3, 1972, and republished as amended, this issue. Applicant: GRAVES TRUCK LINE, INC., 739 North 10th Salina, KS. Applicant's representative: John E. Jandera, 641 Harrison Street, Topeka, KS 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between Elkhart, Ulysses, Syracuse, Tribune, Sharon Springs, and Goodland, Kans., and points in that part of Colorado east of the Continental Divide. NOTE: Applicant states that it intends to tack with presently held authority to serve points in Kansas, Oklahoma, and Texas, also to provide service from and to points in Nebraska and that portion of Missouri which lies within the Kansas City, Kans.-Mo. commercial zone. The purpose of this republication is to include additional tacking information. If a hearing is deemed necessary, applicant requests it be held at Salina and Garden City, Kans.

No. MC 56679 (Sub-No. 64), filed March 2, 1972. Applicant: BROWN TRANSPORT CORP., 125 Milton Avenue SE., Atlanta, GA 30315. Applicant's representative: B. K. McClain (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment because of size or weight), between Atlanta and Tennga, Ga., over U.S. Highway 41 to Cartersville, Ga., thence U.S. Highway 411 to Tennga, Ga., and return over the same route, serving all intermediate points on U.S. Highway 411 between Cartersville and Tennga, Ga. NOTE: If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga.

No. MC 60430 (Sub-No. 20), filed February 29, 1972. Applicant: FRIEDMAN'S EXPRESS, INC., 220 Conyngham Avenue, Wilkes Barre, PA 18702. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, NJ 07306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities requiring special equipment, commodities in bulk, and those injurious or contaminating to other lading), between New York, N.Y., on the one hand, and, on the other, points in Suffolk County, N.Y. Restriction: The authority sought is restricted to shipments having origin or destination at points in Pennsylvania, east of U.S. Highway 11 and north of the Pennsylvania Turnpike, except points in Lackawanna and Luzerne Counties, Pa. NOTE: Applicant states it will tack at New York, N.Y. with existing authority. If a hearing is deemed necessary, applicant requests it be held at Scranton, Pa., and New York, N.Y.

No. MC 64423 (Sub-No. 1), filed March 1, 1972. Applicant: FREY'S MOTOR EXPRESS, INC., Fox Farm Road, Route 1, Phillipsburg, N.J. 08865. Applicant's representative: Christian V. Graf, 407 North Front Street, Harrisburg, PA 17101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Food, food preparations and foodstuffs*, in vehicles equipped to protect such products from heat or cold (except in bulk in tank vehicles), from the plantsite and/or warehouse facilities of Kraftco Corp., at or near Fogelsville and Allentown, Pa. to points in New Jersey and New York, restricted to traffic originating at named origins and destined to points in named territory. NOTE: If a hearing is deemed necessary, applicant requests it be held at Philadelphia, Pa., or Washington, D.C.

No. MC 65697 (Sub-No. 47), filed February 22, 1972. Applicant: THEATRES SERVICE COMPANY, a corporation, 830 Willoughby Way NE., Post Office Box 1695, Atlanta, GA 30312. Applicant's representative: Archie B. Culbreth, Suite 246, 1252 West Peachtree Street NW., Atlanta, GA 30309. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: (1) *General commodities* (except classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), having an immediately prior or immediately subsequent movement by air, serving Andalusia and Moulton, Ala., and Calhoun Falls, S.C., as off-route points in connection with otherwise authorized regular route authority and (2) *automobile parts, accessories and related articles*, between Atlanta, Ga., and Calhoun Falls, S.C.: From Atlanta, Ga., over U.S. Highway 29 or 78 to Athens, Ga., thence over Georgia Highway 72 and South Carolina Highway 72 to Calhoun Falls, S.C., and return over the same route. NOTE: If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga.

No. MC 69695 (Sub-No. 13), filed March 7, 1972. Applicant: RAY L. BRANDT TRUCKING CO., a corporation, 460 West Philadelphia Street, York, PA 17404. Applicant's representative: John E. Fullerton, 407 North Front Street, Harrisburg, PA 17101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry fertilizer and dry fertilizer materials*, from the facilities of Agway, Inc., in Spring Garden Township, York County, Pa., to Wilmington, Del. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Harrisburg, Pa.

No. MC 74321 (Sub-No. 56), filed March 9, 1972. Applicant: B. F. WALKER, INC., 650 17th Street, Denver, CO 80202. Applicant's representative: Richard P. Kissinger (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dust collectors and component parts*, from the plantsite and warehouse facilities of Flex-Kleen Corp. at Chicago, Ill., and Libertyville, Ill., and the plantsite of Bloomer Fiske, Inc., at Chicago, Ill., to points in the United States (except Alaska and Hawaii). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Applicant further states that no duplicating authority is being sought. If a hearing is deemed necessary, applicant requests it be held at Denver, Colo., or Chicago, Ill.

No. MC 83539 (Sub-No. 332), filed March 6, 1972. Applicant: C & H TRANSPORTATION CO., INC., 1936–2010 West Commerce Street, Post Office Box 5976, Dallas, TX 75222. Applicant's representative: Thomas E. James (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic pipe and/or plastic tubing*, with or without plastic fittings for same, from Houston, Tex., to points in the United States (including Alaska, but excluding Hawaii). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Houston, Tex.

No. MC 88845 (Sub-No. 10), filed February 22, 1972. Applicant: PARCEL DELIVERY SERVICE, INC., 600 Belleville Turnpike, Kearny, N.J. 07032. Applicant's representative: Robert DeKroyft, 23 Branford Place, Newark, NJ 07102. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Drugs, toilet preparations, medicines, cosmetics, pencils, crayons, books, pens, candy, synthetic rubber clothing, wearing apparel, chemicals, salesmen's samples, gelatin capsules, condition powders, regulators or tonics, animal or poultry feed supplements*, not frozen without or containing antibiotics or vitamins; *weed killing compounds, petroleum jelly, plastic articles, paper boxes, soap, dental plate cleaning, dry razor blades, razors, hair dryers, disinfectants, deodorant, buffing and polishing compounds, cleaning, scouring, and washing compounds, starch, and textile softeners*, in packages or containers not exceeding 36 inches in length, girth, or width and not exceeding 100 pounds per piece, from points in Kearny, Edison, Clifton, Hammonton, Secacus, and Belleville Counties, N.J., and Hillsborough Township, Somerset County, N.J., to points in Orange, Rockland, and Suffolk Counties, N.Y., under contract with Beecham Products Co., Clifton, N.J.; the Gillette Co., Andover, Mass.; International Playtex Corp., Dover, Del.; the Andrew Jergens Co., Belleville, N.J.: Eli Lilly & Co., Indianapolis, Ind.; Lehn and Fink Products, Montvale, N.J.; the Gillette Co., Personal Care Division, Andover, Mass.; Russell Stover Candies, Kansas City, Mo.; Revlon, Inc., Edison, N.J.; Sterling Drug Co., New York, N.Y.; Venus Esterbrook Corp., Lewisburg, Tenn., Vick Chemical Co., Philadelphia, Pa., and Whitehall Laboratories, New York, N.Y. NOTE: If a hearing is deemed necessary, applicant requests it be held at Newark, N.J., or New York, N.Y.

No. MC 95304 (Sub-No. 15), filed December 30, 1971. Applicant: NORTHERN NECK TRANSFER, INC., Post Office Box 345, Montross, VA 22520. Applicant's representative: L. C. Major, Jr., Suite 301 Tavern Square, 421 King Street, Alexandria, VA 22314. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Building materials*, between points in Westmoreland County, Va., on the one hand, and, on the other, points in that portion of Virginia on and east of a line extending from the West Virginia-Virginia State line over U.S. Highway 11 to its junction with U.S. Highway 220, at or near Roanoke, Va., and thence over U.S. Highway 220 to its junction with Virginia-North Carolina State line south of Martinsville; (2) *Lumber* used in the manufacturing of pallets, skids, boxes, crates, and furniture from points in that portion of Virginia on and east of U.S. Highway 15, extending between the Virginia-Maryland State line on the north, and the Virginia-North Carolina State line on the south, to points in Maryland, Pennsylvania, New York, New Jersey, Delaware, North Carolina, and the District of Columbia, and (3) *Lumber treated poles and piling*, from Warsaw, Va., to points in Connecticut, Massachusetts, New Hampshire, Vermont, Maine, and Rhode Island. NOTE: Applicant states it has no authority with which the authority applied for in paragraph (2) could or would be tacked, however, applicant intends to tack the two separate grants of authority at Montross, Va., a point in the commonly authorized service area of Westmoreland County, Va., at which point its present general office and terminal is located, so as to provide service between points in the above-specified portion of Virginia involved in this application, on the one hand, and, on the other, points in Maryland, Delaware, Pennsylvania, New Jersey, and New York. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Richmond, Va.

No. MC 95540 (Sub-No. 837), filed March 3, 1972. Applicant: WATKINS MOTOR LINES, INC., 1120 West Griffin Road, Lakeland, FL 33801. Applicant's representative: Paul E. Weaver (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bananas, coconuts, and pineapples*, from Morehead City, N.C., to points in Indiana, Michigan, Illinois, Wisconsin, Minnesota, Iowa, Missouri, Arkansas, Oklahoma, Kansas, Nebraska, North Dakota, and South Dakota. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Miami, Fla.

No. MC 95540 (Sub-No. 836), filed March 3, 1972. Applicant: WATKINS MOTOR LINES, INC., 1120 West Griffin Road, Lakeland, FL 33801. Applicant's representative: Paul E. Weaver (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Unfrozen bakery products*, from Battle Creek, Mich., to points in Kentucky, Tennessee, Virginia, North Carolina, South Carolina, Georgia, Alabama, Mississippi, Louisiana, and Florida. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 95540 (Sub-No. 838), filed March 3, 1972. Applicant: WATKINS MOTOR LINES, INC., 1120 West Griffin Road, Lakeland, FL 33801. Applicant's representative: Paul E. Weaver (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Textiles and textile products*, from Etowah and Port Rayon, Tenn., to points in California. NOTE: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 95540 (Sub-No. 840), filed March 3, 1972. Applicant: WATKINS MOTOR LINES, INC., 1120 West Griffin Road, Lakeland, FL 33801. Applicant's representative: Paul E. Weaver (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meat, meat products, meat byproducts, and articles distributed by meat packinghouses*, as described in sections A, B, and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from the plantsite and/or storage facilities utilized by Wilson, Certified Foods, Inc., at Marshall, Mo., to points in Alabama, Connecticut, Delaware, Florida, Georgia, Louisiana, Maine, Maryland, Massachusetts, Mississippi, New Hampshire, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, and the District of Columbia, restricted to traffic originating at Marshall, Mo., and destined to points in the above named States. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 97397 (Sub-No. 11) (Amendment), filed December 15, 1971, published in the FEDERAL REGISTER issue of January 13, 1972, and republished as amended, this issue. Applicant: MARVIN M. BARKLEY, doing business as, BARKLEY TRUCK LINES, 604 Fourth Street SW., Watertown, SD 57201. Applicant's representative: Irving A. Hinderaker, 25 First Avenue SW., Watertown, SD 57201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Meats, meat products, meat byproducts, and articles distributed by meat packinghouses* as described in sections A, B, C, and D of Appendix I to the *report in Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and pelts); and (2) *foodstuffs*, when transported in the same vehicle with products described in (1) above, from Huron, S. Dak., to points in Beadle, Campbell, Day, Faulk, Hand, Kingsbury, Potter, Sully, Brookings, Clark, Deuel, Grant, Hughes, Marshall, Roberts, Walworth, Brown, Codington, Edmunds, Hamlin, Hyde, McPherson, and Spink Counties, S. Dak., restricted to traffic having a prior out-of-State movement by rail or motor carrier. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. The purpose of this republication is to redescribe the commodity description. If a hearing is deemed necessary, applicant requests it be held at Sioux Falls or Pierre, S. Dak.

No. MC 99107 (Sub-No. 7), filed February 23, 1972. Applicant: ELLIOTT TRUCK LINE, INC., Post Office Box 390, Boonville, IN 47601. Applicant's representative: Warren C. Moberly, 777 Chamber of Commerce Building, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), serving strip minesite of Amax Coal Co., a Division of American Metal Climax, Inc., located approximately 4 miles north and 2 miles east of Stevenson, Ind. (Warwick County), as an off-route point in connection with carrier's regular route operations between Dale and Evansville, Ind. NOTE: If a hearing is deemed necessary, applicant requests it be held at Indianapolis, Ind., or Washington, D.C.

No. MC 99776 (Sub-No. 9), filed March 1, 1972. Applicant: BUCKNER TRUCKING, INC., 8802 Liberty Road, Houston, TX 77028. Applicant's representative: J. G. Dail, Jr., 1111 E Street NW., Washington, DC 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber, lumber mill products, and wood products*, from points in Ashley, Bradley, Drew, and Union Counties, Ark., and points in Louisiana, to points in Texas, Oklahoma, Kansas, Missouri, Arkansas, Mississippi, Tennessee, and Alabama. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Applicant further states that no duplicating authority is being sought. If a hearing is deemed necessary, applicant requests it be held at New Orleans, La.

No. MC 103993 (Sub-No. 696), filed March 8, 1972. Applicant: MORGAN DRIVE-AWAY, INC., 2800 West Lexington Avenue, Elkhart, IN 46514. Applicant's representative: Paul D. Borghesani (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trailers*, designed to be drawn by passenger automobiles, in initial movements, from points in Knox County, Tenn., to points in the United States (except Alaska and Hawaii). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Nashville, Tenn.

No. MC 103993 (Sub-No. 697), filed March 8, 1972. Applicant: MORGAN DRIVE-AWAY, INC., 2800 West Lexington Avenue, Elkhart, IN 46514. Applicant's repersentative: Paul D. Borghesani (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Boats*, on undercarriages, from points in Hamilton County, Tenn., to points in the United States (except Alaska and Hawaii). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Nashville, Tenn.

No. MC 103993 (Sub-No. 698), filed March 8, 1972. Applicant: MORGAN DRIVE-AWAY, INC., 2800 West Lexington Avenue, Elkhart, IN 46514. Applicant's representative: Paul D. Borghesani (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trailers*, designed to be drawn by passenger automobiles, in initial movements, from points in Boulder County, Colo. (except Boulder, Colo.), to points in the United States (except Alaska and Hawaii). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Denver, Colo.

No. MC 104004 (Sub-No. 187), filed March 2, 1972. Applicant: ASSOCIATED TRANSPORT, INC., 380 Madison Avenue, New York, NY 10017. Applicant's repersentative: John P. Tynan, 69–20 Fresh Pond Road, Ridgewood, NY 11227. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Food, food preparations and foodstuffs*, in vehicles equipped to protect such products from heat or cold, except in bulk, in tank vehicles, from the plantsite and/or warehouse facilities of Kraftco Corp., at or near Fogelsville and Allentown, Pa., to points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, North Carolina, Ohio, Rhode Island, Virginia, and West Virginia, restricted to traffic originating at named origins and destined to points in named territory. NOTE: Common control may be involved. No duplicate authority sought, and applicant requests that any certificate issued be construed as not to grant more than one right to operate. If

V 37-67
APR 6 72
XUM

a hearing is deemed necessary, applicant requests it be held at New York, N.Y., or Washington, D.C.

No. MC 105501 (Sub-No. 6), filed February 14, 1972. Applicant: TERMINAL WAREHOUSE COMPANY, a corporation, 498 First Street NW., New Brighton, MN 55112. Applicant's representative: Will S. Tomljanovich, Post Office Box 3434, St. Paul, MN 55101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) (a) *Paper and paper products, woodpulp and products produced or distributed by manufacturers or converters of paper and paper products;* (b) *equipment, materials and supplies* used in the manufacture or distribution of commodities named in (a) above, (except commodities which because of size or weight require the use of special equipment, and except commodities in bulk), between International Falls, Minn., and points on the international boundary between the United States and Canada located in Minnesota and North Dakota, on the one hand, and, on the other, points in the United States located on and east of the western border of North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, and Texas; and (2) *paper and paper products and products produced or distributed by manufacturers or converters of paper and paper products*, from plants and warehouse or storage facilities utilized by Boise Cascade Corp. at Minneapolis and St. Paul, Minn., to points in the United States located on and east of the western border of North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, and Texas. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at St. Paul, Minn.

No. MC 105813 (Sub-No. 184), filed March 6, 1972. Applicant: BELFORD TRUCKING CO., INC., 3500 Northwest 79th Avenue, Miami, FL 33148. Applicant's representative: Edward G. Bazelon, 39 South La Salle Street, Chicago, IL 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, from St. James, Madelia, and Butterfield, Minn., and Estherville, Iowa, to points in Alabama, Florida, Georgia, North Carolina, South Carolina, and Tennessee. NOTE: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 107295 (Sub-No. 607), filed March 3, 1972. Applicant: PRE-FAB TRANSIT CO., a corporation, 100 South Main Street, Farmer City, IL 61842. Applicant's representative: Mack Stephenson, Post Office Box 146, Farmer City, IL 61842. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plywood and prefinished plywood panels*, from Wilmington, N.C., to points in the United States in and east of North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, and Texas. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Charlotte, N.C.

No. MC 107295 (Sub-No. 608), filed March 3, 1972. Applicant: PRE-FAB TRANSIT CO., a corporation, 100 South Main Street, Farmer City, IL 61842. Applicant's representative: Mack Stephenson, Post Office Box 146, Farmer City, IL 61842. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic pipe, and plastic tubing and fittings therefor*, from Houston, Tex., to points in the United States (except Alaska and Hawaii). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Houston, Tex.

No. MC 108053 (Sub-No. 113), filed March 6, 1972. Applicant: LITTLE AUDREY'S TRANSPORTATION COMPANY, INC., Post Office Box 129, Freemont, NE 68025. Applicant's representative: Carl L. Steiner, 39 South La Salle Street, Chicago, IL 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods and potato products*, not frozen, .1) from points in Idaho, Oregon, Washington, and Utah to points in Minnesota, Wisconsin, Indiana, Michigan, Ohio, Kentucky, West Virginia, Virginia, Pennsylvania, Maine, Vermont, New Hampshire, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Delaware, Maryland, and the District of Columbia; and (2) from points in California to points in Missouri (except Kansas City and St. Joseph), Minnesota, north of U.S. Highway 16; Wisconsin, north of Wisconsin Highway 11; Illinois, south of U.S. Highway 30; Indiana, south of U.S. Highway 30; Ohio, Kentucky, West Virginia, Virginia, Pennsylvania, Maine, Vermont, New Hampshire, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Delaware, Maryland, and the District of Columbia. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 108375 (Sub-No. 32), filed March 3, 1972. Applicant: LeROY L. WADE & SON, INC., 10550 I Street, PO Box 27053, Omaha, NE 68127. Applicant's representative: Donald L. Stern, 530 Univac Building, Omaha, Nebr. 68106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Used automobiles*, in truckaway service, (1) from points in Kansas, to Omaha, Nebr., and (2) from Omaha, Nebr., to points in Kansas. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr.

No. MC 108411 (Sub-No. 5) (Correction), filed February 14, 1972, published in the FEDERAL REGISTER issue of March 16, 1972, and republished as corrected, this issue. Applicant: STEARLY'S MOTOR FREIGHT, INC., Box B. Collegeville, PA 19426. Applicant's representative: John W. Frame, Box 626, 2207 Old Gettysburg Road, Camp Hill, PA 17011. NOTE: The purpose of this partial republication is to show the correct docket number assigned thereto as MC 108411 (Sub-No. 5) in lieu of MC 18411 (Sub-No. 5) incorrectly shown in the previous publication. The rest of the publication remains the same.

No. MC 108884 (Sub-No. 21), filed March 3, 1972. Applicant: ROGERS TRANSFER, INC., Route 46, Post Office Box 175, Great Meadows, NJ 07838. Applicant's representative: Bert Collins, 140 Cedar Street, New York, NY 10006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, from points in Pennsylvania on and east of U.S. Highway 219 to points in the United States in and east of Minnesota, Iowa, Missouri, Arkansas, and Louisiana, and to points in Nebraska, Colorado, Utah, Nevada, California, Oregon, and Washington. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority sought. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y., or Philadelphia, Pa.

No. MC 109397 (Sub-No. 266), filed February 28, 1972. Applicant: TRI-STATE MOTOR TRANSIT CO., a corporation, Post Office Box 113, Joplin, MO 64801. Applicant's representative: A. N. Jacobs (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Turbines, steam condensers, feed water heaters, weldments and heat exchangers;* (2) *parts of the commodities in* (1) above, and (3) *iron and steel castings and forgings*, between points in Chester Eddystone, Essington and Philadelphia, Pa.; Wilmington, Del.; Charlotte, N.C.; Sunnyvale and Marlboro, Calif.; Austin, Tex., and Tulsa, Okla., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii). NOTE: Common control may be involved. Applicant states that the requested authority can be tacked with its Sub No. 195 on size or weight commodities, but indicates that it has no present intention to tack and, therefore, does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Philadelphia, Pa., or Washington, D.C.

No. MC 110098 (Sub-No. 124) (Correction), filed February 17, 1972, published in the FEDERAL REGISTER issue of March 23, 1972, and corrected and republished as corrected, this issue. Applicant: ZERO REFRIGERATED LINES, a corporation, 1400 Ackerman Road, Post Office Box 20380, San Antonio, TX 78220. Applicant's representative: Donald L. Stern, 530 Univac Building, 7100 West Center Road, Omaha, NE 68106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Meats, meat products and meat byproducts and articles distributed by meat packinghouses* as described in sections A and C of appendix I to the report in Descriptions in Motor Carrier Certificates, 61 M.C.C. 209 and 766 (except hides); (2) *foodstuffs;* (3) *foods;* and (4) *commodities*, the transportation of which is partially exempt pursuant to the provisions of section 203(b)(6) of the Interstate Commerce Act, when moving in the same vehicle and at the same time with the commodities described in 1, 2, and 3 above, restricted against the transportation of commodities in bulk, from points in Texas, to points in Arkansas, Colorado, Oklahoma, Kansas, Missouri, Nebraska, Iowa, Illinois, Indiana, Ohio, Michigan, Wisconsin, Minnesota, South Dakota, North Dakota, Montana, Wyoming, and Texas. NOTE: Applicant states that the requested authority can be tacked with its Sub-Nos. 13 and 53, over Texas, to serve all States from California, Arizona, and New Mexico. No duplicating authority is sought. The purpose of this republication is to include the territorial description which was inadvertently omitted from the previous publication. If a hearing is deemed necessary, applicant requests it be held at San Antonio or Dallas, Tex.

No. MC 111045 (Sub-No. 92), filed March 3, 1972. Applicant: REDWING CARRIERS, INC., Post Office Box 426 also 7809 Palm River Road, Tampa, FL 33601. Applicant's representative: J. V. McCoy (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, in tank vehicles, from Montgomery, Ala., to points in Georgia, Florida, Louisiana, Mississippi, and Arkansas. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Birmingham, Ala., or Washington, D.C.

No. MC 111103 (Sub-No. 39), filed February 22, 1972. Applicant: PROTECTIVE MOTOR SERVICE COMPANY, INC., 725–27 South Broad Street, Philadelphia, PA 19147. Applicant's representatives: John M. Delany, 2 Nevada Drive, Lake Success, NY 11040, and Russell S. Bernard, 1625 K Street NW., Washington, DC 20006. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Coin*, between Coral Gables, Fla., on the one hand, and, on the other, Atlanta, Ga., Baltimore, Md., Birmingham, Ala., Boston, Mass., Buffalo and West Point, N.Y., Charlotte, N.C., Chicago, Ill., Cincinnati and Cleveland, Ohio, Culpeper and Richmond, Va., El Paso, Houston, and San Antonio, Tex., Denver, Colo., Detroit, Mich., Fort Knox and Louisville, Ky., Helena, Mont., Kansas City and St. Louis, Mo., Little Rock, Ark., Los Angeles and San Francisco, Calif., Memphis and Nashville, Tenn., Minneapolis, Minn., New Orleans, La., Oklahoma City, Okla., Omaha, Nebr., Philadelphia and Pittsburgh, Pa., Portland, Oreg., Salt Lake City, Utah, Seattle, Wash., and Washington, D.C., under contract with General Services Administration. NOTE: Applicant has common carrier authority under MC 133698 Sub 2, therefore dual operations may be involved. Common control may also be involved. If a hearing is deemed necessary, applicant requests it be held at Philadelphia, Pa.

No. MC 112822 (Sub-No. 228), filed March 10, 1972. Applicant: BRAY LINES INCORPORATED, Post Office Box 1191, 1401 North Little Street, Cushing, OK 74023. Applicant's representative: K. Charles Elliott (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Meats, meat products and meat byproducts as described in section A, B, and C of Appendix I to the report in Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from the plantsite and/or storage facilities utilized by Wilson Certified Foods, Inc., at or near Marshall, Mo., to points in Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington, and Wyoming; and (2) *fats and oils and blends and products thereof*, in bulk, from the plantsite and or storage facilities utilized by Wilson Certified Foods, Inc., at or near Marshall, Mo., to points in Illinois, Oklahoma, Texas, Louisiana, Iowa, Kansas, Missouri, Arkansas, Tennessee, Nebraska, Kentucky, and Wisconsin, restricted to traffic originating at or near Marshall, Mo., and destined to points in the named States. NOTE: If a hearing is deemed necessary, applicant requests it be held at Oklahoma City, Okla., or Kansas City, Mo.

No. MC 112989 (Sub-No. 22), filed March 1, 1972. Applicant: WEST COAST TRUCK LINES, INC., Post Office Box 688, Coos Bay, OR 97420. Applicant's representative: John G. McLaughlin, 726 Blue Cross Building, 100 SW. Market Street, Portland, OR 97201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Construction material*, from points in Santa Clara, Alameda, and Contra Costa Counties, Calif., to points in Oregon and Washington. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at San Francisco, Calif.

No. MC 113678 (Sub-No. 451), filed March 2, 1972. Applicant: CURTIS, INC., 4810 Pontiac Street, Commerce City, CO 80022. Mail: Post Office Box 16004, Stockyards Station, Denver, CO 80216. Applicant's representative: Duane W. Acklie, Post Office Box 80806, Lincoln, NE 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Aquariums and household pet cages, and aquarium accessories, supplies and equipment, materials, and supplies* used in the manufacture of aquariums and household pet cages, between Berkeley, Calif., and Brooklyn, N.Y., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii). NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at San Francisco, Calif., or Denver, Colo.

No. MC 113908 (Sub-No. 223), filed March 13, 1972. Applicant: ERICKSON TRANSPORT CORPORATION, 2105 East Dale Street, Box 3180 G.S., Springfield, MO 65804. Applicant's representative: Le Roy Smith (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fruit juice and fruit juice concentrates*, in bulk, in tank vehicles, from (1) points in Michigan, Pennsylvania, New York, Arkansas, Washington, and Texas to points in Florida; and (2) from points in Florida and Texas to points in Michigan, Pennsylvania, New York, Arkansas, and Washington. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 114019 (Sub-No. 231), filed March 3, 1972. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 South Pulaski Road, Chicago, IL 60629. Applicant's representative: Edward G. Bazelon, 39 South La Salle Street, Chicago, IL 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, from St. James, Madelia, and Butterfield, Minn., and Estherville, Iowa, to points in Colorado, Connecticut, Delaware, Illinois, Indiana, Iowa, Kansas, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, Nebraska, New Hampshire, New Jersey, New York, North Dakota, Ohio, Pennsylvania, Rhode Island, South Dakota, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia. NOTE: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 114045 (Sub-No. 358), filed March 9, 1972. Applicant: TRANS-COLD EXPRESS, INC., Post Office Box 5842, Dallas, TX 75222. Applicant's representative: Edward G. Bazelon, 39 South La Salle Street, Chicago, IL 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, from St. James, Madelia, and Butterfield, Minn., and Estherville, Iowa, to points in Arkansas, Louisiana, Mississippi, New Mexico, Oklahoma, and Texas. NOTE: Applicant states that the

V 37-67
APR 6 72
XUM

requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 114273 (Sub-No. 117), filed March 2, 1972. Applicant: CEDAR RAPIDS STEEL TRANSPORTATION, INC., Post Office Box 68, Cedar Rapids, IA 52406. Applicant's representative: Robert E. Konchar, Suite 315, Commerce Exchange Building, 2720 First Avenue NE., Cedar Rapids, IA 52402. NOTE: Common control may be involved. Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Philadelphia, Pa.

No. MC 117068 (Sub-No. 18), filed February 24, 1972. Applicant: MIDWEST HARVESTORE TRANSPORT, INC., 2118 17th Avenue NW., Rochester, MN 55901. Applicant's representative: Paul F. Sullivan, 711 Washington Building, Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Seat cabs and parts thereof*, from Rochester, Minn., to Benton Harbor, Mich. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Applicant further states that no duplicating authority is being sought. If a hearing is deemed necessary, applicant requests it be held at Minneapolis, Minn., or Chicago, Ill.

No. MC 117613 (Sub-No. 7), filed February 24, 1972. Applicant: DONALD M. BOWMAN, JR., 5 North Clifton Drive, Williamsport, MD 21795. Applicant's representative: S. Harrison Kahn, Suite 733 Investment Building, Washington, D.C. 20005. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (a) *Building materials and supplies, and materials and supplies* used in the manufacture, packaging, and distribution thereof (except commodities in bulk, and commodities which because of size or weight require the use of special equipment); and *tan bark, and marble chips*, from Gibbsboro, N.J., to points in Pennsylvania, Maryland, Delaware, West Virginia, Virginia, Ohio, and the District of Columbia, under a contract or continuing contract with G. and W. H. Corson, Inc.; (b) *tan bark* from Williamsport, Md., to points in New Jersey, Rhode Island, Maryland, West Virginia, Illinois, New York, Vermont, Delaware, Ohio, Mississippi, Pennsylvania, Virgina, Indiana, and the District of Columbia, under contracts or continuing contracts with G. and W. H. Corson, Inc., and W. D. Byron & Sons, Inc., Williamsport, Md.; and (c) *green salted cattle hides and brine cured cattle hides* from points in Ohio, Indiana, Illinois, and Pennsylvania to Williamsport, Md., under a contract or continuing contract with W. D. Byron & Sons, Inc., Williamsport, Md. NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 117686 (Sub-No. 132), filed March 2, 1972. Applicant: HIRSCHBACH MOTOR LINES, INC., 3324 U.S. Highway 75 North, Post Office Box 417, Sioux City, IA 51102. Applicant's representative: A. J. Swanson, Post Office Box 417, Sioux City, IA 51102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products and meat byproducts, dairy products, and articles* distributed by meat packinghouses, as described in sections A, B, and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from the plantsite and/or storage facilities utilized by Wilson Certified Foods, Inc., at Marshall, Mo., to points in Arkansas, Alabama, Florida, Georgia, Louisiana, Minnesota, Mississippi, North Dakota, Oklahoma, South Dakota, and Texas, restricted to traffic originating at Marshall, Mo., and destined to points in the named States. NOTE: If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo., or Denver, Colo.

No. MC 118159 (Sub-No. 121), filed March 1, 1972. Applicant: EVERETT LOWRANCE, INC., 1925 National Plaza, Post Office Box 10216, Tulsa, OK 74151. Applicant's representative: Jack R. Anderson (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Feed urea, fertilizer, and fertilizer materials* dry in bags, from Omaha, and Nebraska City, Nebr., to points in South Dakota, Minnesota, Wisconsin, Iowa, Missouri, and Kansas. NOTE: Common control and dual operations may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant does not specify a location.

No. MC 118610 (Sub-No. 15) (Clarification), filed December 20, 1971, published in the FEDERAL REGISTER issue of February 3, 1972, and republished as clarified, this issue. Applicant: L & B EXPRESS, INC., Post Office Box 281, Owensboro, KY 42301. Applicant's representative: Fred F. Bradley, Courthouse, Frankfort, Ky. 40601. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles; tubing; plastic, steel and soil pipe; tanks; plumbing goods and supplies; hand tools; power tools; and building materials*, between Bowling Green, Ky., on the one hand, and, on the other, points in Illinois, Indiana, Ohio, Wisconsin, West Virginia, Minnesota, Michigan, Tennessee, Georgia, Alabama, Mississippi, Arkansas, Florida, Missouri, Iowa, Texas, Louisiana, Pennsylvania, New Jersey, and New York. NOTE: Applicant states it will tack if feasible or possible with authority only in MC 118610. The purpose of this republication is to place the correct punctuation marks throughout the commodity description. If a hearing is deemed necessary, applicant requests it be held at Louisville, Ky., or Nashville, Tenn.

No. MC 118859 (Sub-No. 7), filed March 6, 1972. Applicant: BULLOCK TRUCKING COMPANY, INC., No. 6 Produce Market, Thomasville, Ga. 31792. Applicant's representative: Virgil H. Smith, 431 Title Building, Atlanta, Ga. 30303. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Poles, posts, pilings and cross-arms*, treated and untreated, from the plantsites of Escambia Treating Co., located at or near Brunswick and Camilla, Ga., to points in Alabama, Kentucky, North Carolina, South Carolina, Tennessee, and Virginia. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga.

No. MC 119765 (Sub-No. 28), filed March 1, 1972. Applicant: HENRY G. NELSEN, INC., 1548 Locust Street, Avoca, IA 51521. Applicant's representative: Joseph M. Scanlan, 111 West Washington Street, Chicago, IL 60602. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products and meat byproducts* as described in sections A, B, and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from the plantsite and/or storage facilities utilized by Wilson Certified Foods, Inc., at Marshall, Mo., to points in Illinois, Indiana, Kansas, Missouri, Nebraska, and Wisconsin, restricted to traffic originating at Marshall, Mo. and destined to points in the named States. NOTE: If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr., or Chicago, Ill.

No. MC 119767 (Sub-No. 282), filed March 6, 1972. Applicant: BEAVER TRANSPORT CO., a corporation, I–94 and County Highway C, Bristol, WI, Post Office Box 188, Pleasant Prairie, WI 53158. Applicant's representative: Fred H. Figge, Post Office Box 188, Pleasant Prairie, WI 53158. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, canned or prepared (except commodities in bulk), from Munster, Ind., to points in Illinois, Kentucky, and points in Ohio, on and west of a line beginning at Sandusky, Ohio, and extending south along Ohio Highway 4 to Marion, Ohio, and thence south along U.S. Highway 23 to Portsmouth, Ohio, and Davenport and Dubuque, Iowa. Restriction: Restricted to the transportation of shipments originating at Munster, Ind., and destined to the above-named destinations. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 119918 (Sub-No. 7), filed March 9, 1972. Applicant: C & H FREIGHTWAYS, 402 West Watkins Road, Post Office Box 20465, Phoenix, AZ 85036. Applicant's representative: Thomas E. James, Post Office Box 5976, Dallas, TX 75222. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Aluminum extrusions*, from Phoenix, Ariz., to points in California. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Phoenix, Ariz.

No. MC 120981 (Sub-No. 13), filed March 1, 1972. Applicant: BESTWAY EXPRESS, INC., 415 Fifth Avenue, South, Nashville, TN 37202. Applicant's representative: George M. Catlett, 703–706 McClure Building, Frankfort, Ky. 40601. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, commodities in bulk, household goods as defined by the Commission and those requiring special equipment) (1) between Cincinnati, Ohio and the plantsites of American Greetings Corp., Penn Ventilator Co., Inc., and Sellers Engineering Co., at or near Danville, Ky.; from Cincinnati, Ohio, over Interstate Highway 75 to Lexington, Ky., thence over U.S. Highway 68 to Harrodsburg, Ky., thence over U.S. Highway 127 to Danville, Ky., and return over the same route, serving no intermediate points; and (2) between Lexington, Ky., and the plantsites of American Greetings Corp., Penn Ventilator Co., Inc., and Sellers Engineering Co., at or near Danville, Ky.; from Lexington, Ky., over U.S. Highway 60 to junction Blue Grass Parkway, thence over Blue Grass Parkway to junction with U.S. Highway 127, thence over U.S. Highway 127 to Danville, Ky., and return over the same route, serving no intermediate points, for the purpose of joinder only. NOTE: If a hearing is deemed necessary, applicant requests it be held at Frankfort or Louisville, Ky.

No. MC 123260 (Sub-No. 2), filed March 6, 1972. Applicant: L. E. COX, doing business as PMC COMPANY, 227 West Depot Street, Greenville, TN 37743. Applicant's representative: Jimmy Gray Cutshaw, Post Office Box 713, Greenville, TN. Authority sought to operate as a *contract carrier*, by motor vehicle, over

V 37-67
APR 6 72
XUM

irregular routes, transporting: *Peppers and greens*, in cans, *barrels and plastic pails*, from Limestone, Tenn., to points in Alabama, Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington, Wyoming, and the District of Columbia, and (2) the return of products owned by Moody Dunbar, Inc., said products being *ingredients used in the canning of peppers and greens* that are needed to supplement the plant at Limestone, Tenn., along with *cans, barrels and plastic pails* in which the products are packed, from points in the United States (excluding Alaska and Hawaii), to Limestone, Tenn., under contract with Moody Dunbar, Inc., Limestone, Tenn. NOTE: If a hearing is deemed necessary, applicant requests it be held at Knoxville or Nashville, Tenn.

No. MC 123805 (Sub-No. 8), filed February 22, 1972. Applicant: G. H. LOMAX, Rural Route No. 1, Hannibal, MO 63401. Applicant's representative: Thomas P. Rose, Jefferson Building, Post Office Box 205, Jefferson City, MO 65101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Basic oxygen furnace dust*, from Granite City, Ill., to the plantsite and facilities of Dundee Cement, Co. at or near Clarksville, Mo. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Jefferson City or St. Louis, Mo.

No. MC 123905 (Sub-No. 13), filed March 7, 1972. Applicant: OLEN BURRAGE TRUCKING, INC., Route 9, Box 22–A, Philadelphia, MS 39350. Applicant's representative: Donald B. Morrison, 717 Deposit Guaranty National Bank Building, Post Office Box 22628, Jackson, MS 39205. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Animal and poultry feed and animal and poultry health products*, in containers and feeders and *advertising matter and premiums* when moving in the same vehicle with the previous commodities, from Decatur, Ill., to points in Mississippi, under contract with A. E. Staley Manufacturing Co. NOTE: Common control and dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Memphis, Tenn., or Jackson, Miss.

No. MC 124078 (Sub-No. 515), filed March 1, 1972. Applicant: SCHWERMAN TRUCKING CO., a corporation, 611 South 28th Street, Milwaukee, WI 53246. Applicant's representative: Richard H. Prevette (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foundry core compounds, petroleum, and petroleum products*, in bulk, from Milwaukee, Wis., to points in Illinois, Indiana, Iowa, Kentucky, Michigan, Minnesota, New York, Ohio, Pennsylvania, and Wisconsin. NOTE: Applicant states that the requested authority can be tacked via points in Kentucky to points in Tennessee; chemicals to points in Iowa, Nebraska, North Dakota, Kansas, Missouri, Wyoming, Colorado; and anhydrous ammonia to points in Missouri, Kansas, Nebraska, Pennsylvania, and West Virginia. However, no tacking is intended. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Milwaukee, Wis.

No. MC 124078 (Sub-No. 516), filed March 9, 1972. Applicant: SCHWERMAN TRUCKING CO., a corporation, 611 South 28th Street, Milwaukee, WI 53246. Applicant's representative: Richard H. Prevette (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cement*, (1) from the plantsite of Marquette Cement Manufacturing Co. at or near Catskill, N.Y., to points in Connecticut, Maine, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, and Vermont and (2) from the plantsite of Medusa Portland Cement Co. at Clinchfield, Ga., to points in Tennessee. NOTE: Applicant states that the requested authority can be tacked with its existing authority, but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 124211 (Sub-No. 209), filed March 6, 1972. Applicant: HILT TRUCK LINE, INC., Post Office Box 988 D.T.S., Omaha, NE 68101. Applicant's representative: Thomas L. Hilt (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Alcoholic beverages*, between points in the United States on and east of U.S. Highway 75, on the one hand, and, on the other, points in the United States west of U.S. Highway 75 (except Alaska and Hawaii). Restriction: The authority sought herein, to the extent applicant's present authority is duplicated, shall not be construed as conferring more than one operating right severable by sale or otherwise. NOTE: Applicant states tacking possibilities exist with Sub-Nos. 18, 26, 109, 112, 124, 133, 139, 143, and 150, at numerous points, but submits tacking would not be necessary due to scope of instant application. No duplicate authority is sought. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., Omaha, Nebr., and San Francisco, Calif.

No. MC 124489 (Sub-No. 7), filed March 6, 1972. Applicant: NIELSON BROS. CARTAGE CO., INC., 4619 West Homer Street, Chicago, IL 60639. Applicant's representative: Carl L. Steiner, 39 South La Salle Street, Chicago, IL 60603. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Building material* (except commodities in bulk), from the plantsite of the Logan-Long Co. at Chicago, Ill., to Hobart, Ind., under contract with the Logan-Long Co. NOTE: Applicant holds common carrier authority under MC 70577, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 124813 (Sub-No. 92), filed March 6, 1972. Applicant: UMTHUN TRUCKING CO., a corporation, 910 South Jackson Street, Eagle Grove, IA 50533. Applicant's representative: William L. Fairbank, 900 Hubbell Building, Des Moines, IA 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bentonite and foundry molding sand treating compound*, from the plantsites of American Colloid Co. at Belle Fourche, S. Dak., and Upton, Wyo., to points in Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, North Dakota, and Wisconsin. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Applicant holds contract carrier authority under MC 118468 and subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 125708 (Sub-No. 127), filed March 13, 1972. Applicant: THUNDERBIRD MOTOR FREIGHT LINES, INC., Highway 32 East, Crawfordsville, Ind. 47933. Applicant's representative: Donald W. Smith, 900 Circle Tower, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, from Kansas City, Kans., and Willow Springs, Mo., to Grand Rapids, Mich. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Indianapolis, Ind.

No. MC 126278 (Sub-No. 5), filed March 9, 1972. Applicant: FRIGIDWAY CARTAGE CO., a corporation, 4500 West 44th Place, Chicago, IL. Applicant's representative: William J. Boyd, 29 South La Salle Street, Chicago, IL 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bananas, coconuts, and pineapples*, from Chicago, Ill., to points in Indiana, Illinois, Wisconsin, Iowa, Minnesota, and Michigan. (Restrictions: (1) restricted to the transportation of traffic moving in chassis mounted containers and (2) restricted to the transportation of traffic having an immediately prior or subsequent movement by rail). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 126372 (Sub-No. 10), filed March 13, 1972. Applicant: SUREFINE

TRANSPORTATION COMPANY, a corporation, 1925 East Vernon Avenue, Los Angeles, CA 90058. Applicant's representative: Arthur J. Piken, One Lefrak City Plaza, Flushing, N.Y. 11368. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture and commercial, institutional, store, and kitchen equipment, and fixtures*, between points in Utah, on the one hand, and, on the other, points in California, Colorado, Idaho, Nevada, Oregon, Washington, Wyoming, Arizona, New Mexico, Texas, and Montana. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Salt Lake City, Utah, or Portland, Oreg.

No. MC 126517 (Sub-No. 2), filed March 2, 1972. Applicant: RED RIVER TRANSFER & STORAGE, INC., Box 1384, 925 First Avenue North, Grand Forks, ND 58201. Applicant's representative: Gene P. Johnson, 514 First National Bank Building, Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Used household goods*, between points in Montana, South Dakota, North Dakota, and Minnesota. Restrictions: The service authorized herein, is subject to the following conditions: Said operations are restricted to the transportation of traffic having a prior or subsequent movement in containers beyond the points authorized. Said operations are restricted to the performance of pickup and delivery service in connection with packing, crating, and containerization or unpacking, uncrating, and decontainerization of such traffic. NOTE: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Fargo, N. Dak., or St. Paul, Minn.

No. MC 126715 (Sub-No. 5), filed January 31, 1972. Applicant: TRANSPORT SERVICE, a corporation, 6395 Southeast Alberta Street, Portland, OR 97206. Applicant's representative: John G. McLaughlin, 100 Southwest Market Street, 726 Blue Cross Building, Portland, OR 97201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Road oil, and fuel oil* when used as road oil, from Coos County, Oreg., to points in Siskiyou and Del Norte Counties, Calif. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Portland, Oreg.

No. MC 126899 (Sub-No. 52), filed March 1, 1972. Applicant: USHER TRANSPORT, INC., 3925 Old Benton Road, Post Office Box 3051, Paducah, KY 42001. Applicant's representative: George M. Catlett, 703–706 McClure Building, Frankfort, Ky. 40601. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum and petroleum products*, in drums and packages, *tires, batteries, and automotive accessories*, from Chicago, Ill., to points in Kentucky and points in Benton, Crockett, Dyer, Henry, Humphries, Montgomery, Stewart, Carroll, Dickson, Gibson, Houston, Lake, Obion, and Weakley Counties, Tenn., and *empty drums and barrels*, on return. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Louisville, Ky., or Atlanta, Ga.

No. MC 127019 (Sub-No. 7), filed February 22, 1972. Applicant: LaRUE LAMB, doing business as LaRUE LAMB TRUCKING, Myton, Utah 84052. Applicant's representative: Stuart L. Poelman, Seventh Floor Continental Bank Building, Salt Lake City, Utah 84101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Gilsonite* (natural asphaltum), in bulk, from points in Duchesne and Uintah Counties, Utah, to points in Texas. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Salt Lake City, Utah.

No. MC 127777 (Sub-No. 16), filed March 10, 1972. Applicant: MOBILE HOME EXPRESS, INC., Post Office Box 547, Wausau, WI 54401. Applicant's representative: Theodore Polydoroff, 1140 Connecticut Avenue NW., Washington, DC 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Trailers*, designed to be drawn by passenger automobiles, in initial movements, from points in Shawano, Lincoln, Vilas, and Forest Counties, Wis., to all points in the United States (except Hawaii) and (2) *Kitchen display trailers*, equipped with hitchball connector and designed to be drawn by passenger automobiles, in initial movements, for display or exhibition purposes only, beginning and ending at Laona, Wis., and extending to points in the United States (except Hawaii). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Madison, Wis.

No. MC 128712 (Sub-No. 2), filed March 13, 1972. Applicant: TED OWENS, 910 Macauley Avenue, Rice Lake, WI 54868. Applicant's representative: Gary L. Bakke, 103 North Knowles Avenue, New Richmond, WI 54017. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Canned foods and wooden pallets*, between Lakeland, Minn., on the one hand, and, on the other, Frederic, Cumberland, Holman, and Columbus, Wis., under contract with Stokely-Van Camp, Inc. No. MC 136239 (Amendment), filed November 23, 1971, published in the FEDERAL REGISTER issue of December 30, 1971, and republished as amended, this issue. Applicant: COASTAL TRUCKING COMPANY, a corporation, Post Office Box 1256, Bell Point Street, Brunswick, GA 31520. Applicant's representative: Sol H. Proctor, 2501 Gulf Life Tower, Jacksonville, Fla. 32207. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods* when mixed with seafood, from the plantsite and storage facilities of Sea Pak, a division of W. R. Grace & Co., at or near Brunswick, St. Simons Island, and Savannah, Ga., to points in Florida, South Carolina, North Carolina, Virginia, New York, Maryland, Delaware, New Jersey, Pennsylvania, Connecticut, Rhode Island, Massachusetts, Maine, Vermont, New Hampshire, Ohio, Tennessee, Kentucky, West Virginia, Alabama, Indiana, and the District of Columbia, and (2) *pizza* from the plantsite and storage facilities of Sea Pak, a division of W. R. Grace & Co., at or near Fredonia, Jamestown, and Buffalo, N.Y., to points in Florida, Georgia, South Carolina, North Carolina, Virginia, Maryland, Delaware, New Jersey, Pennsylvania, Connecticut, Rhode Island, Massachusetts, Maine, Vermont, New Hampshire, Ohio, Tennessee, Kentucky, West Virginia, Alabama, Indiana, and the District of Columbia, under contract with Sea Pak, a division of W. R. Grace & Co. NOTE: The purpose of this republication is to redescribe the commodity and territorial scope of the application. If a hearing is deemed necessary, applicant requests it be held at Jacksonville, Fla., or Savannah, Ga.

No. MC 136249 (Sub-No. 2) (Amendment), filed December 10, 1971, published in the FEDERAL REGISTER issue of January 20, 1972, and republished in part, as amended, this issue. Applicant: JAMES R. GALBRAITH, JR., Rural Route 1, Box 123, Camanche, Iowa 52730. Applicant's representative: Carl E. Munson, 469 Fischer Building, Dubuque, Iowa 52001. NOTE: The sole purpose of this partial republication is to amend the commodity description under item (b) to *empty used containers* in lieu of *cooperage* (empties returned), as shown in the original notice. The rest of the application remains as previously published.

No. MC 136453 (Sub-No. 1), filed March 6, 1972. Applicant: MARTIN TRANSIT, INC., Route No. 2, Rock Falls, Ill. Applicant's representative: William J. Boyd, 29 South La Salle Street, Chicago, IL 60603. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Meat, meat products, meat by-products and articles distributed by meat packinghouses*, in appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides, skins, pelts and pieces thereof and commodities in bulk), from Sterling, Ill., to points in Ohio, Pennsylvania, New York, New Jersey, Connecticut, Maine, Massachusetts, Maryland, Virginia, West Virginia, Tennessee, Kentucky, North Carolina, South Carolina, Michigan, Wisconsin, Minnesota and the District of Columbia, under contract with Armour Food Co. NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 136463, filed March 3, 1972. Applicant: DST INDUSTRIES, INC., 34364 Goddard Road, Romulus, MI 48174. Applicant's representative: S. Harrison Kahn, Suite 733, Investment Building, Washington, D.C. 20005. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Prototype vehicles and modified production vehicles*, not intended for sale to the public, between Dearborn and Romulus, Mich., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii), under contract with Ford Motor Co. and its subsidiaries. NOTE: The instant application is accompanied by a motion to dismiss. If a hearing is deemed necessary, applicant requests it be held at Detroit, Mich.

No. MC 136474 (Sub-No. 2), filed March 6, 1972. Applicant: ALLIED DELIVERY AND INSTALLATION, INC., Old Hickory Boulevard, Nashville, Tenn. 37027. Applicant's representative: Walter Harwood, 1822 Parkway Towers, Nashville, Tenn. 37219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, sold by retail establishments, including the setting up, installation, and related accessorial and incidental services. Restriction: Restricted to merchandise sold at retail by retail establishments, destined to customers in home deliveries, from Nashville, Tenn., to points in Allen, Barren, Christian, Logan, Simpson, Todd, Trigg, and Warren Counties, Ky. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Nashville, Tenn.

No. MC 136486, filed February 24, 1972. Applicant: M. BRAXTON BARBOUR, doing business as BRACK BARBOUR WRECKER SERVICE, 3320 North Boulevard, Raleigh, NC. Applicant's representative. Allen W. Brown, 707–8 Lawyers Building, Raleigh, N.C. 27601. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Used motor vehicles*, driveaway or truck-away wrecker service, between points in Washington, D.C.; New York, N.Y.; New Jersey, Pennsylvania, Maryland, Delaware, Virginia, South Carolina, Georgia, Florida, and North Carolina. NOTE: If a hearing is deemed necessary, applicant requests it be held at Raleigh or Durham, N.C.

No. MC 136487, filed February 23, 1972. Applicant: S S T INCORPORATED, 1200 West Main Street, Griffith, IN 46319. Applicant's representative: Sylvia L. Terpstra, 1211 West Main Street, Griffith, IN 46319. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron or steel products and articles*, between points in Randolph, Henry, Hancock, Marion, John, Shelby, Morgan, Owen, and Vigo Counties, Ind., and points in Rock, Henry, Knox, Fulton, Mason, Menard, Logan, Macon, Moultrie, Coles, and Clark Counties, Ill. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Indianapolis, Ind.

No. MC 136496, filed February 23, 1972. Applicant: ALLEN F. SEESHOLTZ, Rural Delivery No. 2, Berwick, Pa. 18603. Applicant's representative: John M. Musselman, Post Office Box 1146, 400 North Third Street, Harrisburg, PA 17108. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Lamps and components, parts and accessories for lamps, and materials, supplies and equipment* used or useful in the manufacture, assembly, distribution or installation of lamps, between Berwick, Pa., and Long Beach, Calif., under contract with Fulton Manufacturing Co., Inc. NOTE: If a hearing is deemed necessary, applicant requests it be held at Harrisburg, Pa., or Washington, D.C.

No. MC 136502, filed March 13, 1972. Applicant: HARRY G. JOCKERS, doing business as CITY WIDE TOWING, 2306 Crestline Loop, North Las Vegas, NV 89030. Applicant's representative: Norman Ty Hilbrecht, 717 South Third Street, Las Vegas, NV 89101. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Disabled vehicles*, by use of towing vehicles, by means of crane, hoist, towbar, tow line, or dolley, from points in Arizona, California, Colorado, Nevada, and Utah, on the one hand, and, on the other, points in Arizona, California, Colorado, Nevada, and Utah, under contract with Garrett Freight Line, Milne and Cashman Truck Co. NOTE: If a hearing is deemed necessary, applicant requests it be held at Las Vegas, Nev.

No. MC 136505, filed March 6, 1972. Applicant: R. O. BARBER, INC., Rural Route No 1, Box 392, Franklin, Ind. 46131. Applicant's representative: Robert W. Loser, 1001 Chamber of Commerce Building, Indianapolis, Ind. 46204. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Metal parts, finished* such as are manufactured, sold, and distributed by Arvin Industries, Inc., from plants, warehouses, and storage facilities of Arvin Industries, Inc., at North Vernon, Seymour, Columbus, Greenwood, Franklin, Greenfield, and Indianapolis, Ind., to points in Cook and Du Page Counties, Ill., restricted to traffic originating at said named origin points; and (2) *supplies, materials, equipment, and machinery*, used or useful in the manufacturing, shipping and distribution of metal parts, from points in Cook, and Du Page Counties, Ill., to the plants, warehouses, and storage facilities of Arvin Industries, Inc., at North Vernon, Seymour, Columbus, Greenwood, Franklin, Greenfield, and Indianapolis, Ind., restricted to traffic destined to said destination points named herein. Restriction: Restricted to operations performed under a continuing contract or contracts with Arvin Industries, Inc. NOTE: If a hearing is deemed necessary, applicant requests it be held at Indianapolis, Ind., or Chicago, Ill.

No. MC 136509, filed March 7, 1972. Applicant: JAMES R. COLELLO, INC., 174 Plain Street, Millis, MA 02054. Applicant's representative: William P. Sullivan, 1819 H Street NW., Washington, DC 20006. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Silica products*, in bulk, from Stonington, Conn., to points in Masachusetts, under contract with Bird & Son, Inc., and GAF Corp. NOTE: If a hearing is deemed neccessary, applicant requests it be held at Washington, D.C., or Boston, Mass.

MOTOR CARRIER OF PASSENGERS

No. MC 13300 (Sub-No. 88), filed February 17, 1972. Applicant: CAROLINA COACH COMPANY, a corporation, 1201 South Blount St., Post Office Box 1591, Raleigh, NC 27602. Applicant's representative: James E. Wilson, 1032 Pennsylvania Building, Pennsylvania Avenue and 13th Street NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Passengers and their baggage, and express and newspapers* in the same vehicle with passengers, (1) Between Richmond, Va., and junction Interstate Highway 95 and U.S. Highway 301 approximately 11 miles south of Petersburg, Va., serving all intermediate points: From Richmond over Interstate Highway 95 to junction U.S. Highway 301 approximately 11 miles south of Petersburg, and return over the same route; and (2) Between junction Interstate Highway 95 and U.S. Highway 301 approximately 3 miles north of Emporia, Va., and Battleboro, N.C., serving all intermediate points: From junction Interstate Highway 95 and U.S. Highway 301 approximately 3 miles north of Emporia over Interstate Highway 95 to junction Interstate Highway 95 access route near Gold Rock, N.C., and thence over Interstate Highway 95 access route to Battleboro, and return over the same route. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant does not specify a location.

No. MC 116260 (Sub-No. 5), filed March 6, 1972. Applicant: PASHA TRUCKAWAY, 1308 Canal Boulevard, Richmond, CA 94804. Applicant's representative: Edward J. Hegarty, 100 Bush Street, 21st Floor, San Francisco, Calif. 94104. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Passenger mootr vehicles; motor vehicles used for transporting freight, including driving tractors for freight carrying vehicles; motorcycles and motorcycles sidecars; hearses; buses; passenger, house or sleep trailers; vehicles*, other than motor vehicles, designed for the transportation of freight for use with a motor vehicle; *cabs and bodies of the above described vehicles; motor vehicles chassis; mobile searchlights; mobile generators, parts, spare parts or extra parts of the above described vehicles* when accompanying the shipment of the vehicle to which it belongs or for which it is intended; *auto show paraphanalia, equipment and accompanying advertising matter*, (1) between the California-Oregon State line north of Smith River, Calif., and United States-Mexico border at San Ysidro, Calif., serving all intermediate points: From the California-Oregon State line over U.S. Highway 101 to junction Interstate Highway 5, thence over Interstate Highway 5 to the United States-Mexico border; also over U.S. Highway 101 to junction California Highway 1 near Oxnard, thence over California Highway 1 (formerly U.S. Highway 101 Alternate), to junction California Highway 2, thence over California Highway 2 (formerly U.S. Highway 101 Alternate) to junction U.S. Highway 101, thence as described above to the United States-Mexico border:

Also from the California-Oregon State line as described above to junction U.S. Highway 101 and U.S. Highway 101 By-Pass Route near Woodland Hills, thence over U.S. Highway 101 By-Pass Route to junction U.S. Highway 101, thence as described above to the U.S. Mexico border; (2) between the California-Oregon State line near Hilts, Calif., and the United States-Mexico border south of Calexico, Calif., serving all intermediate points: From the California-Oregon State line over Interstate Highway 5 to Sacramento, Calif., (also from the California-Oregon State line over Interstate Highway 5 to Red Bluff, Calif.), thence over California Highway 99 to Yuba City, Calif., thence over California Highway 20 (formerly U.S. Highway 99E to Marysville, Calif., thence over California Highway 65 (formerly U.S. Highway 99E) to junction Interstate Highway 80, thence over Interstate Highway 80 to Sacramento, Calif.), thence over U.S. Highway 50 to Stockton, Calif., thence over California Highway 99 to junction Interstate Highway 5 near Wheeler Ridge, Calif., thence over Interstate Highway 5 to junction Interstate Highway 10 (formerly U.S. Highway 99), thence over Interstate Highway 10 near Coachella, Calif., thence over California Highway 86 (formerly U.S. Highway 99), thence over California Highway 86 to junction California Highway 111, thence over California Highway 111 to the California-Mexico border and return over the same route; (3) between the California-Oregon State line north of Dorris, Calif., and Weed, Calif., serving all intermediate points:

From the California-Oregon State line over U.S. Highway 97 to Weed and return over the same route; (4) between the California-Oregon State line at New Pine Creek, Calif., and the California-Nevada State line south of Hallelujah

V 37-67 APR 6 72 XUM

Junction, Calif., serving all intermediate points: From the California-Oregon State line over U.S. Highway 395 to the California-Nevada State line and return over the same route; (5) between the California-Nevada State line north of Coleville, Calif., and the United States-Mexico border at San Diego, Calif., serving all intermediate points: From the California-Nevada State line over U.S. Highway 395 to San Diego and return over the same route; (6) between junction Interstate Highway 5 and California Highway 89 2 miles south of Mcunt Shasta City, Calif., and junction California Highway 89 and California Highway 88 near Woodfords, Calif., serving all intermediate points: From junction Interstate 5 and California Highway 89 over California Highway 89 to junction California Highways 88 and 89 and return over the same route; (7) between Sattley and Mariposa, Calif., serving all intermediate points: From Sattley over California Highway 49 to Mariposa and return over the same route; (8) between the California-Nevada State line north of Amargosa, Calif., and junction Interstate Highway 15 and California Highway 127 near Baker, Calif., serving all intermediate points: From the California-Nevada State line over California Highway 127 to junction Interstate Highway 15 and return over the same route; (9) between junction U.S. Highway 101 and California Highway 299 and Alturas, Calif., serving all intermediate points:

From junction U.S. Highway 101 and California Highway 299 over California Highway 299 to Alturas and return over the same route; (10) between the California-Nevada State line near Floriston, Calif., and San Francisco, Calif., serving all intermediate points: From the California-Nevada State line over Interstate Highway 80 and return over the same route; (11) between junction U.S. Highway 395 and California Highway 136 2 miles south of Lone Pine, Calif., and Death Valley Junction (Amargosa), Calif., serving all intermediate points: From junction U.S. Highway 395 and California Highway 136 over California Highway 126 to junction California Highway 190, thence over California Highway 190 to Death Valley Junction and return over the same route; (12) between junction California Highway 1 and California Highway 4 near Marro Bay, Calif., and the California-Nevada State line north of Wheaton Springs, Calif., serving all intermediate points: From junction California Highway 1 and California Highway 41 over California Highway 41 to junction California Highway 46, thence over California Highway 46 to junction California Highway 99, thence over California Highway 99 to junction California Highway 58, thence over California Highway 58 to junction Interstate Highway 15, thence over Interstate Highway 15 to the California-Nevada border and return over the same route; (13) between Santa Monica, Calif., and the California-Arizona State line, serving all intermediate points:

From Santa Monica over U.S. Highway 66 to the California-Arizona State line and return over the same route; (14) between Los Angeles, Calif., and the California-Arizona State line, serving all interminate points: From Los Angeles over California Highway 60 to junction Interstate Highway 10 near Beaumont, thence over Interstate Highway 10 to the California-Arizona State line and return over the same route; and (15) between San Diego, Calif., and the California-Arizona State line, serving all intermediate points: From San Diego over U.S. Highway 80 to the California-Arizona State line and return over the same route. Service is authorized at all other points in California as off-route points in connection with the above described routes. Applicant presently holds authority as set forth above under a certificate of registration. By the instant application it seeks to convert such certificate of registration to a certificate of public convenience and necessity. In addition to the above, applicant also seeks an additional route, which reads as follows: Between Sacramento, Calif., and Johnstonville, Calif., serving no intermediate points and serving the termini for purposes of joinder only: From Sacramento, Calif., over Interstate Highway 80 to Reno, Nev., thence over U.S. Highway 395 to Johnstonville and return over the same route. NOTE: If a hearing is deemed necessary, applicant requests it be held at San Francisco, Calif.

No. MC 136510, filed March 8, 1972. Applicant: OVER-LAND COACH LINES, INC., 6243 Clearview Street, Philadelphia, PA 19138. Applicant's representative: Charles J. Williams, 47 Lincoln Park, Newark, NJ 07102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, in round-trip charter operations, beginning and ending at Camden, N.J., and Philadelphia, Pa., and extending to points in Maine, Vermont, New Hampshire, Massachusetts, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, West Virginia, North Carolina, South Carolina, Georgia, Florida, and the District of Columbia. NOTE: If a hearing is deemed necessary, applicant requests it be held at Philadelphia, Pa.

APPLICATION FOR BROKERAGE LICENSE

No. MC 130125 (Sub-No. 1), filed March 8, 1972. Applicant: DOROTHY H. GOUGH, doing business as, GOUGH TOURS, Post Office Box 5827, Winston-Salem, NC 27103. Applicant's representative: Carl D. Downing, 2412 Wachovia Building, Winston-Salem, NC 27101. For a license (BMC-5) to engage in operation as a *broker* at Winston-Salem, N.C., in arranging for transportation in interstate or foreign commerce of *passengers and their baggage*, in groups, on escorted tours, beginning and ending at points in Guilford, Rockingham, Surry, and Stokes Counties, N.C., and extending to points in the United States, including Alaska, but excluding Hawaii.

No. MC 130167, filed March 9, 1972. Applicant: VAN C. DULING TRAVEL, 1223 "M" Street, Radisson-Cornhusker Hotel, Lincoln, NE 68508. For a license (BMC-5) to engage in operations as a *broker* at Lincoln, Nebr., in arranging for transportation by motor vehicle, in interstate or foreign commerce of *passengers and their baggage*, in special and charter operations, beginning and ending at points in Nebraska and extending to points in the continental United States.

APPLICATIONS IN WHICH HANDLING WITHOUT ORAL HEARING HAS BEEN REQUESTED

No. MC 31675 (Sub-No. 19), filed March 8, 1972. Applicant: NORTHERN FREIGHT LINES, INC., 324 North College Street, Post Office Box 1067, Charlotte, NC 28201. Applicant's representative: Stewart E. Fulk (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the terminal site of Central Motor Lines, Inc., located at or near the junction of South Carolina Highway 14 and Interstate Highway 85 in Greenville County, S.C., as an off-route point in connection with otherwise authorized service at Greenville, S.C. NOTE: Common control may be involved. Applicant states the basis for the instant application is operating savings rather than shipper need for new service. Applicant is controlled by Central Motor Lines, Inc., and interchange is now effected at Greenville, S.C. Purpose is to allow interchange at and use of Central's terminal located 2.6 miles outside the Greenville, S.C. commercial zone.

No. MC 136276 (Sub-No. 1) (Amendment), filed December 27, 1971, published in the FEDERAL REGISTER issue of February 3, 1972, and republished as amended, this issue. Applicant: TRIPLE T TRANSPORTATION, INC., Route No. 1, Vincennes, IN 47591. Applicant's representative: Thomas F. Quinn, 715 First Federal Building, Indianapolis, IN 46204. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Liquid anhydrous ammonia and nitrogen fertilizer solutions* in bulk, in tank vehicles; and *dry fertilizer materials in bulk*, (a) from West Henderson, Ky., to points in Illinois and Indiana, (b) from U.S. Industrial Chemical Co. plant near Tuscola, Ill., to points in Indiana and Kentucky; and (c) from the Agrico Chemical Co. plant near Mt. Vernon, Ind., to points in Illinois and Kentucky; and (2) *anhydrous ammonia*, liquid, in bulk, in tank vehicles, from the Central Nitrogen plant in Vigo County, Ind., to points in Illinois and Kentucky. All transportation furnished will be under contracts or continuing contracts with Willchemco, Inc., of Tulsa, Okla., and Cominco American, Inc., of Spokane, Wash. NOTE: The purpose of this republication is to redescribe the authority sought.

No. MC 136503, filed March 6, 1972. Applicant: COMMON MARKET DISTRIBUTING CORPORATION, 335 West

Elwood, Phoenix, AZ 85030. Applicant's representative: Donald E. Fernaays, 4114 A North 20th Street, Phoenix, AZ 85016. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Scrap iron and steel, scrap aluminum, iron and steel ingots, aluminum ingots*, from points in California, Nevada, Utah, and Arizona to the plantsite of Castings, Inc., Grand Junction, Colo.

APPLICATION FOR FILING A POSTAL CERTIFICATE

Interstate Commerce Commission, No. MC-137013 (Notice of Filing an Application for a Postal Certificate of Public Convenience and Necessity), filed February 25, 1972. Applicant: CHARLES WEST JR. TRUCKING CO., INC., 24 Catherine Avenue, Saddle Brook, NJ 07662. Applicant's representative: Ivan Frank Kardos, 948 Pennsylvania Building, 425 13th Street NW., Washington, DC 20004.

By application filed February 25, 1972, applicant seeks a Postal Certificate of Public Convenience and Necessity to transport *mail* in the following territory: (1) Between Bergenfield and Jersey City, N.J., serving the intermediate points of Englewood Annex, Teaneck, Palisades Park, Ridgefield, NY Metro Trk Fac (North Bergen) and NJTT (Pref); (2) Between Hackensack and Paramus, N.J., serving the intermediate points of Rochelle Park, Little Ferry, and Saddle Brook; (3) Between Dover (Morris County) and Newark, N.J., serving the intermediate points of Parsippany, Summit, Springfield, and Whippany; (4) Between Hackensack and Jersey City, N.J., serving the intermediate points of Rutherland, Newark, and East Rutherland; (5) Between Hackensack, N.J., and Suffern, N.Y., serving the intermmediate points of Paterson and Summit; (6) Between Paterson and West Milford, N.J., serving the intermediate points of Wayne, Pequannock, Pompton Plains, Pompton Lakes, Haskell, Wanaque, Ringwood, and Hewitt; (7) Between Hackensack and Montvale, N.J., serving the intermediate points of New Milford, River Edge, Oradell, Emerson, Westwood, Hillsdale, and Park Ridge; and (8) Between Paterson, N.J., and New York, N.Y., serving the intermediate point of Hackensack, N.J.

Applicant states that it desires to have authority to operate between all points listed in (1) through (8) above, and all points in New York and New Jersey, and that the request is based upon the asserted right of the U.S. Postal Service to extend terminii under its mail transportation contracts. Appended to the application are copies of eight postal contracts held by applicant which were in effect on July 1, 1971, the critical "grandfather" date: Route No. 07661 (formerly Route No. 33245) relating to service between Bergenfield and Jersey City, N.J.; Route No. 07630 (formerly Route No. 33142) relating to service between Hackensack and Paramus, N.J.; Route No. 07811 relating to service between Dover and Newark, N.J.; Route No. 07611 (formerly Route No. 33255) relating to service between Hackensack, Newark and Jersey City, N.J.; Route No. 07610 (formerly Route 33238) relating to service between Hackensack, Paterson, and Summit, N.J., and Suffern, N.Y.; Route No. 07431 relating to service between Paterson and West Milford, N.J.; Route No. 07631 (formerly Route No. 33143) relating to service between Hackensack and Montvale; Route No. 07410 relating to service between Paterson, N.J., and New York, N.Y.

Any interested person desiring to participate may file with the Commission an original and one copy of his written representations, views, or arguments in opposition to the application within 30 days from the date of this publication in the FEDERAL REGISTER. A copy of each such pleading should be served upon applicant's representative.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary*.

HIGHLIGHTS OF THIS ISSUE

This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.

ECONOMIC STABILIZATION—Price Comm. plans hearing to aid in review of policy and approach to curbing inflation 7039

COMMUNICABLE DISEASE CONTROL—HEW rules on grants to State and local health agencies for programs of national significance 6999

ENVIRONMENT—Alaska Power Admin. revises procedures for preparation of impact statements 7008

INCOME TAX—IRS proposed amendments on distributions to shareholders by insurance companies; comments by 5–8–72 7003

MANUFACTURING MILK STANDARDS—USDA publishes requirements recommended for adoption by State regulatory agencies 7045

POLICE-COMMUNITY RELATIONS—OEO final report on Washington, D.C. pilot project 7039

TARIFF PREFERENCES FOR LESS DEVELOPED COUNTRIES—Tariff Comm. publishes research study on probable effects on U.S. trade 7041

MOTOR VEHICLE POLLUTION CONTROL—Requests for suspension of emission standards by International Harvester, Ford, Chrysler and General Motors to be reviewed at EPA hearing 4–10–72 7039

FEDERAL REGISTER

Area Code 202 Phone 962–8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended (44 U.S.C. 1510). The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1972, and specifies how they are affected.

Title 7—AGRICULTURE

Chapter III—Animal and Plant Health Service, Department of Agriculture

PART 301—DOMESTIC QUARANTINE NOTICES

Subpart—Mexican Fruit Fly

Pursuant to sections 8 and 9 of the Plant Quarantine Act, as amended, and section 106 of the Federal Plant Pest Act (7 U.S.C. 161, 162, 150ee), Notice of Quarantine No. 64 relating to the Mexican fruit fly and regulations supplemental to said quarantine (7 CFR 301.64, 301.64–1, 301.64–2, 301.64–3 et seq.), are hereby revised to read as follows:

QUARANTINE AND REGULATIONS

Sec.
301.64 Quarantine; restriction on interstate movement of specified regulated articles.
301.64–1 Definitions.
301.64–2 Authorization to designate regulated areas and suppressive or generally infested areas; and provide exemptions from certification, permit, or other requirements.
301.64–3 Conditions governing the interstate movement of regulated articles from quarantined States.
301.64–4 Issuance and cancellation of certificates and permits.
301.64–5 Compliance agreements; and cancellation thereof.
301.64–6 Assembly and inspection of regulated articles.
301.64–7 Attachment and disposition of certificates or permits.
301.64–8 Inspection and disposal of regulated articles and pests.
301.64–9 Movement of live Mexican fruit flies.
301.64–10 Nonliability of the Department.

AUTHORITY: The provisions of this subpart issued under secs. 8, 9, 37 Stat. 318, as amended, sec. 106, 71 Stat. 33; 7 U.S.C. 161, 162, 150ee; 29 F.R. 16210, as amended; 36 F.R. 20707.

§ 301.64 Quarantine; restriction on interstate movement of specified regulated articles.

(a) *Notice of quarantine.* Pursuant to the provisions of section 8 of the Plant Quarantine Act of August 20, 1912, as amended (7 U.S.C. 161), the Secretary of Agriculture heretofore determined, after public hearing, that it was necessary to quarantine the State of Texas in order to prevent the spread of the Mexican fruit fly, a dangerous insect injurious to fruits and not theretofore widely prevalent or distributed within and throughout the United States, and accordingly quarantined said State. Under the authority of sections 8 and 9 of the Plant Quarantine Act of August 20, 1912, as amended, and section 106 of the Federal Plant Pest Act (7 U.S.C. 161, 162, 150ee), the Secretary hereby continues such quarantine in effect with respect to the interstate movement from the quarantined State of the articles described in paragraph (b) of this section, issues the regulations in this subpart governing such movement and gives notice of said quarantine and regulations.

(b) *Quarantine restrictions on interstate movement of specified regulated articles.* No common carrier or other person shall move interstate from any quarantined State, any of the following articles (defined in § 301.64–1(n) as regulated articles), except in accordance with the conditions prescribed in this subpart:

(1) Mangoes; sapotas (including sapodillas and the fruit of all members of the family Sapotaceae and of the genus Casimiroa and all other fruits commonly called sapotas or sapotes);

(2) Peaches, guavas, apples, pears, plums, quinces, apricots;

(3) Ciruelas;

(4) Mameys;

(5) Fruits of species of the genus Sargentia;

(6) Avocados;

(7) All citrus fruits except lemons and sour limes;

(8) Any other products, articles, or means of conveyance of any character whatsoever, not covered by subparagraphs (1) through (7) of this paragraph, when it is determined by an inspector that they present a hazard of spread of the Mexican fruit fly and the person in possession thereof has been so notified.

§ 301.64–1 Definitions.

Terms used in the singular form in this subpart shall be deemed to import the plural, and vice versa, as the case may demand. The following terms, when used in this subpart, shall be construed respectively to mean:

(a) *Certificate.* A document issued or authorized to be issued under this subpart by an inspector to allow the interstate movement of regulated articles to any destination.

(b) *Compliance agreement.* A written agreement between a person engaged in growing, handling, or moving regulated articles, and the Plant Protection and Quarantine Programs, wherein the former agrees to comply with the requirements of this subpart identified in the agreement by the inspector who executes the agreement on behalf of the Plant Protection and Quarantine Programs as applicable to the operations of such person.

(c) *Deputy Administrator.* The Deputy Administrator of the Plant Protection and Quarantine Programs, Animal and Plant Health Service, U.S. Department of Agriculture, or any other officer or employee of said Service to whom authority to act in his stead has been or may hereafter be delegated.

(d) *Generally infested area.* Any part of a regulated area not designated as a suppressive area in accordance with § 301.64–2.

(e) *Host fruits.* Fruits susceptible to infestation by the Mexican fruit fly as specified in § 301.64(b).

(f) *Infestation.* The presence of the Mexican fruit fly or the existence of circumstances that make it reasonable to believe that the Mexican fruit fly is present.

(g) *Inspector.* Any employee of the Plant Protection and Quarantine Programs, Animal and Plant Health Service, U.S. Department of Agriculture, or other person, authorized by the Deputy Administrator to enforce the provisions of the quarantine and regulations in this subpart.

(h) *Interstate.* From any State into or through any other State.

(i) *Limited permit.* A document issued or authorized to be issued by an inspector to allow the interstate movement of noncertifiable regulated articles to a specified destination for limited handling, utilization, or processing or for treatment.

(j) *Mexican fruit fly.* The insect known as the Mexican fruit fly (*Anastrepha ludens* (Loew)) in any stage of development.

(k) *Moved (movement, move).* Shipped, offered for shipment to a common carrier, received for transportation or transported by a common carrier, or carried, transported, moved, or allowed to be moved by any means. "Movement" and "move" shall be construed accordingly.

(l) *Person.* And individual, corporation, company, society, or association, or other organized group of any of the foregoing.

(m) *Plant Protection and Quarantine Programs.* The organizational unit within the Animal Plant and Health Service delegated responsibility for enforcing provisions of the Plant Quarantine Act and Plant Pest Act, and regulations promulgated thereunder.

(n) *Regulated area.* Any quarantined State, or any portion thereof, listed as a regulated area in § 301.64–2a or otherwise designated as a regulated area in accordance with § 301.64–2(a).

(o) *Regulated articles.* Any articles as described in § 301.64(b).

(p) *Restricted destination permit.* A document issued or authorized to be issued by an inspector to allow the interstate movement of regulated articles not certifiable under all applicable Federal domestic plant quarantines to a specified destination for other than scientific purposes.

(q) *Scientific permit.* A document issued by the Deputy Administrator to

V 37-68
APR 7 72
XUM

allow the interstate movement to a specified destination of regulated articles for scientific purposes.

(r) *State.* Any State, territory, or district of the United States, including Puerto Rico.

(s) *Suppressive area.* That portion of a regulated area where eradication of infestation is undertaken as an objective, as designated under § 301.64–2(a).

(t) *Treatment manual.* The provisions currently contained in the "Manual of Administratively Authorized Procedures to be Used Under the Mexican Fruit Fly Quarantine" and the "Fumigation Procedures Manual."[1]

§ 301.64–2 Authorization to designate regulated areas and suppressive or generally infested areas; and provide exemptions from certification, permit, or other requirements.

(a) *Regulated areas and suppressive or generally infested areas.* (1) The Deputy Administrator shall list as a regulated area in a supplemental regulation designated as § 301.64–2a, each quarantined State; or portion thereof in which the Mexican fruit fly has been found, or in which there is reason to believe that Mexican fruit fly is present, or which it is deemed necessary to regulate because of its proximity to infestation or its inseparability for quarantine enforcement purposes from infested localities. The Deputy Administrator, in the supplemental regulation, may divide any regulated area into a suppressive area or a generally infested area in accordance with the definitions thereof in §301.64–1. Less than an entire quarantined State will be designated as a regulated area only if the Deputy Administrator is of the opinion that:

(i) The State has adopted and is enforcing a quarantine or regulation which imposes restrictions on the intrastate movement of the regulated articles which are substantially the same as those which are imposed with respect to the interstate movement of such articles under this subpart; and

(ii) The designation of less than the entire State as a regulated area will otherwise be adequate to prevent the interstate spread of the Mexican fruit fly.

(2) The Deputy Administrator or an authorized inspector may temporarily designate any other premises in a quarantined State as a regulated area, and a suppressive or generally infested area, in accordance with criteria specified in subparagraph (1) of this paragraph for listing such area, by serving written notice thereof on the owner or person in possession of such premises, and thereafter the interstate movement of regulated articles from such premises by any person having notice of this designation shall be subject to the applicable provisions of this subpart. As soon as practicable, such premises shall be added to the list in § 301.64–2a if a basis then exists for their designation.

(b) *Exemption from certification, permit, or other requirements.* The Deputy Administrator may, in a supplemental regulation designated as § 301.64–2b, list regulated articles or movements of regulated articles which shall be exempt from the certification, permit, or other requirements of this subpart under such conditions as he may prescribe, if he finds that facts exist as to the pest risk involved in the movement of such regulated articles which make it safe to so relieve such requirements.

§ 301.64–3 Conditions governing the interstate movement of regulated articles from quarantined State.[2]

Any regulated articles may be moved interstate from any quarantined State under the following conditions:

(a) With certificate or permit issued and attached in accordance with §§ 301.64–4 and 301.64–7, if moved:

(1) From any generally infested area or any suppressive area into or through any point outside of the regulated areas; or

(2) From any generally infested area into or through any suppressive area; or

(3) Between any noncontiguous suppressive areas; or

(4) Between contiguous suppressive areas when it is determined by the inspector that the regulated articles present a hazard of spread of the Mexican fruit fly and the person in possession thereof has been so notified; or

(5) Through or reshipped from any regulated area when such movement is not authorized under paragraph (b)(5) of this section; or

(b) Without certificate or permit, if moved:

(1) From any generally infested area or any suppressive area, when the provisions of § 301.64–2b exempt such articles from certification and permit requirements; or

(2) From a generally infested area to a contiguous generally infested area; or

(3) From a suppressive area to a contiguous generally infested area; or

(4) Between contiguous suppressive areas unless the person in possession of the articles has been notified by an inspector that a hazard of spread of the Mexican fruit fly exists; or

(5) Through or reshipped from any generally infested area or suppressive area if the articles originated outside the regulated areas and if the point of origin of the articles is clearly indicated, their identity has been maintained, and they have been safeguarded against infestation while in the regulated area in a manner satisfactory to the inspector; or

(c) From any area outside the regulated areas, if moved:

(1) With a certificate or permit attached; or

(2) Without a certificate or permit, if:

(i) The regulated articles are exempt from certification and permit requirement under the provisions of § 301.64–2b; or

(ii) The point of origin of such movement is clearly indicated on the articles or shipping document which accompanies the articles and if the movement is not made through any regulated area.

§ 301.64–4 Issuance and cancellation of certificates and permits.

(a) Certificates may be issued for any regulated articles by an inspector if he determines that they are eligible for certification for movement to any destination under all Federal domestic plant quarantines applicable to such articles and:

(1) Have originated in noninfested premises in a regulated area and have not been exposed to infestation while within the regulated areas; or

(2) Upon examination, have been found to be free of infestation; or

(3) Have been treated to destroy infestation in accordance with the treatment manual; or

(4) Have been grown, produced, manufactured, stored, or handled in such a manner that no infestation would be transmitted thereby.

(b) Limited permits may be issued by an inspector to allow interstate movement of regulated articles not eligible for certification under this subpart, to specified destinations for limited handling, utilization, or processing, or for treatment in accordance with the treatment manual, when, upon evaluation of the circumstances involved, he determines that such movement will not result in the spread of the Mexican fruit fly and requirements of other applicable Federal domestic plant quarantines have been met.

(c) Restricted destination permits may be issued by an inspector to allow the interstate movement (for other than scientific purposes) of regulated articles to any destination permitted under all applicable Federal domestic plant quarantines if such articles are not eligible for certification under all such quarantines but would otherwise qualify for certification under this subpart.

(d) Scientific permits to allow the interstate movement of regulated articles may be issued by the Deputy Administrator under such conditions as may be prescribed in each specific case by the Deputy Administrator.

(e) Certificate, limited permit, and restricted destination permit forms may be issued by an inspector to any person for use for subsequent shipments of regulated articles provided such person is operating under a compliance agreement; and any such person may be authorized by an inspector to reproduce such forms on shipping containers or otherwise. Any such person may execute and issue the certificate forms, or reproductions of such forms, for the interstate movement of regulated articles from the premises of such person identified in the compliance agreement if such person has treated such regulated articles to destroy infestation in accordance with the treatment manual, and if such regulated articles are eligible for certification for movement to any destination under all Federal domestic plant quarantines applicable to such articles. Any such person may execute and issue the limited permit forms, or reproduction of such forms, for interstate movement of regulated articles to specified destinations when the inspector has made the determinations specified in paragraph (b) of this section. Any such person may execute and issue the restricted destination permit forms, or reproductions of such forms, for the interstate movement of regulated articles not eligible for certification under all Federal domestic plant quarantines applicable to such articles, under the conditions specified in paragraph (c) of this section.

(f) Any certificate or permit which has been issued or authorized may be withdrawn by the inspector or the Deputy Administrator if he determines that the holder thereof has not complied with any condition for the use of such document imposed by this subpart. Prior to such withdrawal, the holder of the certificate or permit shall be notified of the proposed action and the reason therefor and afforded reasonable opportunity to present his views thereon.

§ 301.64–5 Compliance agreement, and cancellation thereof.

(a) Any person engaged in the business of growing, handling, or moving regulated articles may enter into a compliance agreement to facilitate the movement of such articles under this subpart. Compliance agreement forms may be obtained from the Deputy Administrator or an inspector.

(b) Any compliance agreement may be canceled by the inspector who is supervising its enforcement whenever he finds, after notice and reasonable opportunity to present views has been accorded to the other party thereto, that such other party has failed to comply with the conditions of the agreement.

§ 301.64–6 Assembly and inspection of regulated articles.

Persons (other than those authorized to use certificates, limited permits, or restricted destination permits, or reproductions thereof, under § 301.64–4(e)) who desire to move interstate regulated articles which must be accompanied by a certificate or permit shall, as far in advance as possible, request an inspector to examine the articles prior to movement. Such articles shall be assembled at such points and in such manner as the inspector designates to facilitate inspection.

§ 301.64–7 Attachment and disposition of certificates and permits.

(a) If a certificate or permit is required for the interstate movement of regulated articles, the certificate or permit shall be securely attached to the outside of the container in which such articles are moved, except that, where the certificate or permit is attached to the waybill or other shipping document, and the regulated articles are adequately described on the certificate, permit, or shipping document, the attachment of the certificate or permit to each container of the articles is not required.

(b) In all cases, certificates or permits shall be furnished by the carrier to the consignee at the destination of the shipment.

§ 301.64–8 Inspection and disposal of regulated articles and pests.

Any properly identified inspector is authorized to stop and inspect, and to seize, destroy, or otherwise dispose of, or require disposal of regulated articles and Mexican fruit flies as provided in section 10 of the Plant Quarantine Act (7 U.S.C. 164a) and section 105 of the Plant Pest Act (7 U.S.C. 150dd), in accordance with instructions issued by the Deputy Administrator.

§ 301.64–9 Movement of live Mexican fruit flies.

Regulations requiring a permit for, and otherwise governing the movement of live Mexican fruit flies in interstate or foreign commerce are contained in the Federal Plant Pest Regulations in Part 330 of this chapter. Applications for permits for the movement of the pest may be made to the Deputy Administrator.

§ 301.64–10 Nonliability of the Department.

The U.S. Department of Agriculture disclaims liability for any costs incident to inspections or compliance with the provisions of the quarantine and regulations in this subpart, other than for the services of the inspector.

The Mexican fruit fly quarantine and regulations are revised to make appropriate changes brought about by the reorganization of the Agricultural Research Service and to make other changes that had been incorporated into other Federal domestic plant quarantines. The responsibility for enforcement of Federal domestic plant quarantines been transferred from Agricultural Research Service to Animal and Plant Health Service. The regulations have been revised to permit the Deputy Administrator or an inspector to designate generally infested and suppressive areas, and § 301.64–4 was amended to restrict the issuance of certificates by a holder of a compliance agreement to the issuance of certificates based on compliance with treatment and other requirements. Various other changes are also made.

In some respects the revision of the quarantine makes more stringent requirements than presently applied and it should be made effective promptly in order to prevent the spread of the Mexican fruit fly and to be of maximum benefit to the noninfested States.

Therefore, under the administrative procedure provisions of 5 U.S.C. 553, it is found upon good cause that the notice of rule making and other public procedures with respect to the revision are impracticable and unnecessary, and good cause is found for making the revision effective less than 30 days after publication in the FEDERAL REGISTER. This revision will become effective upon publication in the FEDERAL REGISTER (4–7–72), and shall supersede quarantine § 301.64, effective July 14, 1965 (30 F.R. 8821) (7–14–64).

Done at Washington, D.C., this 3d day of April 1972.

G. H. WISE,
Acting Administrator, Animal and Plant Health Inspection Service.

[FR Doc.72–5337 Filed 4–6–72;8:46 am]

PART 301—DOMESTIC QUARANTINE NOTICES

Subpart—Mexican Fruit Fly

REGULATED AREAS; SUPPRESSIVE AND GENERALLY INFESTED AREAS

Pursuant to the provisions of sections 8 and 9 of the Plant Quarantine Act of August 20, 1912, as amended, and section 106 of the Federal Plant Pest Act (7 U.S.C. 161, 162, 150ee), and § 301.64–2 of the Mexican Fruit Fly Quarantine regulations, 7 CFR 301.64–2, as amended, a supplemental regulation designating regulated areas, 7 CFR 301.64–2a, is hereby amended to read as follows:

§ 301.64–2a Regulated areas; suppressive and generally infested areas.

The civil divisions and parts of civil divisions described below are designated as the Mexican fruit fly regulated areas within the meaning of the provisions of this subpart; and such regulated areas are hereby divided into generally infested areas or suppressive areas as indicated below:

TEXAS

(1) *Generally infested areas.* Counties of Brooks, Cameron, Dimmit, Hidalgo, Jim Hogg, La Salle, Starr, Webb, Willacy, and Zapata, and that portion of Jim Wells County lying south of Highway 141 and a line projected due west to the Jim Wells-Duval County line from the point where Highways 141 and 281 intersect.

(2) *Suppressive areas.* None.

(Secs. 8 and 9, 37 Stat. 318, sec. 106, 71 Stat. 33; 7 U.S.C. 161, 162, 150ee; 29 F.R. 16210, as amended; 36 F.R. 20707; 7 CFR 301.64–2)

This amendment shall become effective upon publication in the FEDERAL REGISTER (4–7–72).

The Deputy Administrator of the Animal and Plant Health Service has determined that infestations of the Mexican fruit fly exist or are likely to exist in the civil divisions and parts of civil divisions listed above, or that it is necessary to regulate such localities because of their proximity to infestations or their inseparability for quarantine enforcement purposes from infested localities. The Deputy Administrator has further determined that the quarantined State, wherein only portions of the State have been designated as regulated areas, is enforcing a quarantine or regulation with restrictions on intrastate movement of the regulated articles substantially the same as the restrictions on interstate movement of such articles imposed by the quarantine and regulations in this subpart, and that designation of less than

[1] Pamphlets containing such provisions are available upon request to the Associate Deputy Administrator, Plant Protection and Quarantine Programs, Animal and Plant Health Service, U.S. Department of Agriculture, Hyattsville, Md. 20782, or from an inspector.

[2] Requirements under all other applicable Federal domestic plant quarantines must also be met.

V 37-68
APR 7 72
XUM

the entire State as a regulated area will otherwise be adequate to prevent the interstate spread of the Mexican fruit fly. Therefore, such civil divisions and parts of civil divisions listed above are designated as Mexican fruit fly regulated areas.

This amendment adds to the regulated areas all of the following previously nonregulated counties: Jim Hogg and Zapata in Texas.

This document imposes restrictions that are necessary in order to prevent the dissemination of the Mexican fruit fly and should be made effective promptly to accomplish its purpose in the public interest. Accordingly, it is found upon good cause under the administrative procedure provisions of 5 U.S.C. 553, that notice and other public procedure with respect to the foregoing regulation are impracticable and contrary to the public interest and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 3d day of April 1972.

LEO G. K. IVERSON,
Deputy Administrator, Animal and Plant Health Inspection Service.

[FR Doc.72-5338 Filed 4-6-72;8:46 am]

PART 301—DOMESTIC QUARANTINE NOTICES

Subpart—Mexican Fruit Fly

EXEMPTIONS

Pursuant to the provisions of sections 8 and 9 of the Plant Quarantine Act of August 20, 1912, as amended, and section 106 of the Federal Plant Pest Act (7 U.S.C. 161, 162, 150ee), and § 301.64–2 of the Mexican Fruit Fly Quarantine regulations (7 CFR 301.64–2, as amended), a supplemental regulation granting exemption from specified requirements of the regulations is hereby issued to appear in 7 CFR 301.64–2b as set forth below. The Deputy Administrator of Plant Protection and Quarantine Programs has found that facts exist as to the pest risk involved in the movement of such articles which make it safe to relieve the requirements as provided therein.

§ 301.64–2b Exemptions.[1]

All host fruits may be moved under limited permit without compliance with the provisions of § 301.64–4(b) requiring limited handling, utilization or processing or treatment, and without any determinations by an inspector as prescribed in § 301.64–4(b), if they are moved to any destination except the following: Arizona; California; Florida; Hawaii; Jefferson, Orleans, Plaquemines, St. Bernard, and St. Charles Parishes in Louisiana; Puerto Rico; Guam; and the Virgin Islands of the United States.

This exemption shall become effective upon publication in the FEDERAL REGISTER (4–7–72), when it shall supersede the exemption in 7 CFR 301.64a which became effective July 1, 1970.

The purpose of this revision is to exempt for the entire year host fruits shipped under limited permits from certain restrictions heretofore applicable to shipments to noncitrus producing areas of the United States. Previous requirements based on survey results and specified dates are no longer deemed necessary to prevent the interstate spread of the Mexican fruit fly. Therefore, this document relieves restrictions and should be made effective promptly in order to be of maximum benefit to persons subject to the restrictions being relieved. Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to this document are impracticable and unnecessary and this action may be made effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 3d day of April 1972.

LEO G. K. IVERSON,
Deputy Administrator, Animal and Plant Health Inspection Service.

[FR Doc.72-5339 Filed 4-6-72;8:47 am]

[1] The articles hereby exempted remain subject to applicable restrictions under other quarantines.

Chapter XIV—Commodity Credit Corporation, Department of Agriculture

SUBCHAPTER B—LOANS, PURCHASES, AND OTHER OPERATIONS

[Amdt 1]

PART 1468—MOHAIR

Subpart—Payment Program for Mohair (1971–73)

PAYMENT AND DEDUCTION RATES FOR 1971 MARKETING YEAR

The regulations issued by Commodity Credit Corporation containing the requirements with respect to the payment program for mohair (36 F.R. 5577) are amended as follows:

1. Section 1468.8 is amended by inserting the letter "(a)" immediately preceding the text of that section and adding the following new paragraph (b):

§ 1468.8 Rate of payment.

• • • • •

(b) The national average price received by producers for mohair marketed during the 1971 marketing year was 30.1 cents a pound, grease basis, which was 50.1 cents a pound below the price support level of 80.2 cents for that year. Therefore, the rate of payment for the 1971 marketing year is 166.4 percent.

2. Section 1468.17 is amended by inserting the letter "(a)" immediately preceding the text of that section and adding the following new paragraph (b):

§ 1468.17 Deductions for promotion.

• • • • •

(b) For the 1971 marketing year, a deduction will be made from each payment at the rate of 1.5 cents a pound of mohair, grease basis. Those funds will be used to finance advertising and sales promotion programs approved by the Department of Agriculture pursuant to section 708 of the National Wool Act of 1954, as amended.

(Sec. 4, 62 Stat. 1070, sec. 5, 62 Stat. 1072, secs. 702–708, 68 Stat. 910–912, as amended, secs. 401–403, 72 Stat. 994–995, sec. 151, 75 Stat. 306, sec. 201, 79 Stat. 1188, 82 Stat. 996, sec. 301, 84 Stat. 1362; 15 U.S.C. 714b, 714c, 7 U.S.C. 1781–1787, as amended)

Effective date. This amendment shall become effective on the date of publication in the FEDERAL REGISTER (4–7–72). The payment rate announced by this amendment is in accordance with the formula published March 25, 1971, in § 1468.8 (36 F.R. 5578). The deduction rate is specified in the agreement between the Mohair Council of America, Inc., and the Secretary of Agriculture approved by producers in a referendum held April 19 through 30, 1971 (36 F.R. 5146, 13168). Since there is no latitude for varying rates, a delay in the effective date of this amendment would only delay payments to producers who completed marketings of mohair during 1971. It is, therefore, found that compliance with the notice of proposed rule making and public participation procedure is unnecessary and impracticable.

Signed at Washington, D.C., on April 3, 1972.

KENNETH E. FRICK,
Executive Vice President, Commodity Credit Corporation.

[FR Doc.72-5340 Filed 4-6-72;8:47 am]

[Amdt. 2]

PART 1472—WOOL

Subpart—Payment Program for Shorn Wool and Unshorn Lambs (Pulled Wool) (1971–73)

PAYMENT AND DEDUCTION RATES FOR 1971 MARKETING YEAR

The regulations issued by Commodity Credit Credit Corp. containing the requirements with respect to the payment program for shorn wool and unshorn lambs (pulled wool) for the 1971, 1972, and 1973 marketing years, as amended (36 F.R. 3884, 6561, 8136), are further amended as follows:

1. Section 1472.1305 is amended by adding the following new paragraph (c):

§ 1472.1305 Price support payments.

• • • • •

(c) *1971 marketing year.* The national average price received by producers for shorn wool marketed during the 1971 marketing year was 19.4 cents a pound, grease basis, which was 52.6 cents a pound below the price support level of 72 cents for that year. Therefore, the rate of payment for the 1971 marketing year is 271.1 percent.

2. Section 1472.1321 is amended by adding the following new paragraph (c):

§ 1472.1321 Price support payments.

• • • • •

(c) *1971 marketing year.* The rate of payment on unshorn lambs sold during the 1971 marketing year is $2.10 per hundredweight of live lambs based on a difference of 52.6 cents a pound between the price support level of 72 cents and the national average price of 19.4 cents a pound received by producers for shorn wool during the 1971 marketing year (§ 1472.1305(c)).

3. Section 1472.1346 is amended by inserting the letter "(a)" immediately preceding the text of that section and adding the following new paragraph (b):

§ 1472.1346 Deductions for promotion.

• • • • •

(b) For the 1971 marketing year, a deduction will be made from each shorn wool payment at the rate of 1.5 cents a pound of wool, grease basis, and from each unshorn lamb payment at the rate of 7.5 cents per hundredweight of live lambs, as announced in the Department's press release issued August 16, 1971. Those funds will be used to finance the advertising and sales promotion program approved by the Department of Agriculture pursuant to section 708 of the National Wool Act of 1954, as amended.

(Sec. 4, 62 Stat. 1070, sec. 5, 62 Stat. 1072, secs. 702–708, 68 Stat. 910–912, as amended, secs. 401–403, 72 Stat. 994–995, sec. 151, 75 Stat. 306, sec. 201, 79 Stat. 1188, 82 Stat. 996, sec. 301, 84 Stat. 1362; 15 U.S.C. 714b, 714c, 7 U.S.C. 1781–1787, as amended)

Effective date. This amendment shall become effective upon the date of publication in the FEDERAL REGISTER (4–7–72). The payment rates announced by this amendment are in accordance with the formulas published March 2, 1971, in §§ 1472.1305(b) (36 F.R. 3885) and 1472.1321(b) (36 F.R. 3887). The reduction rates are specified in the agreement between the American Sheep Producers Council, Inc., and the Secretary of Agriculture approved by producers in a referendum held June 7 through 18, 1971 (36 F.R. 8337, 15764). Since there is no latitude for varying rates, a delay in the effective date of this amendment would only delay payments to producers who completed marketings of shorn wool and unshorn lambs during 1971. It is, therefore, found that compliance with the notice of proposed rule making and public participation procedure is unnecessary and impracticable.

Signed at Washington, D.C., on April 3, 1972.

KENNETH E. FRICK,
Executive Vice President, Commodity Credit Corporation.

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Airspace Docket No. 72-SW-21]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the Stillwater, Okla., transition area.

On November 12, 1970, the Oklahoma transition area was designated as follows: "That airspace extending upward from 1,200 feet above the surface within the boundary of the State of Oklahoma, excluding the portion within R–5601A," as was described in Airspace Docket No. 70–SW–43.

Simultaneously, the 1,200-foot portions of the existing Alva, Bartlesville, Guymon, Lawton, Oklahoma City, and Ponca City, Okla., transition areas were revoked. Additional amendments were also made as necessary to be compatible with corresponding changes of 1,200-foot transition areas in other States bordering Oklahoma.

It was subsequently pointed out that the 1,200-foot portion of the Stillwater, Okla., transition area was never revoked and reference to the 1,200-foot portion of the Stillwater, Okla., transition area is still contained in the airspace description.

Even though the 1,200-foot portion of the Stillwater, Okla., transition area was not indicated on aeronautical charts, since it was incorporated and included in the State of Oklahoma, 1,200-foot transition area, it is appropriate to amend the Stillwater, Okla., transition area and provide an accurate and current airspace description. This is accomplished by deletion of all reference to the Stillwater, Okla., 1,200-foot portion of the transition area.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective immediately, as hereinafter set forth.

In § 71.181 (37 F.R. 2143), the Stillwater, Okla., transition area is amended to read:

STILLWATER, OKLA.

That airspace extending upward from 700 feet above the surface within a 6-mile radius of Searcy Field, Stillwater, Okla., latitude 36°09'31" N., longitude 97°05'08" W.; and within 2 miles each side of the Stillwater VOR 005° radial extending from the 6-mile radius area to 8 miles north of the VOR.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Fort Worth, Tex., on March 30, 1972.

R. V. REYNOLDS,
Acting Director, Southwest Region.

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Helicopter Procedures

Correction

In F.R. Doc. 72–4634 appearing at page 6286 in the issue of Tuesday, March 28, 1972, the first line of the Note in § 97.35, which now refers to "§ 97.34", should refer to "§ 97.35".

Title 46—SHIPPING

Chapter II—Maritime Administration, Department of Commerce

PART 221—DOCUMENTATION, TRANSFER OR CHARTER OF VESSELS

Blanket approval for Construction of Certain Vessels for Foreign Account

Notice is hereby given that the Assistant Secretary of Commerce for Maritime Affairs, acting pursuant to section 37, Shipping Act, 1916, as amended, (46 U.S.C. 835) has granted approval for the construction of the following types of vessels for foreign account: "Vessels not primarily designed for the carriage of cargo, but for use in exploration and drilling for oil, gas and other minerals at underwater locations."

Henceforth, and until such time as this approval provision may be rescinded, it will not be necessary for a U.S. shipbuilder to seek prior approval of the Maritime Administration before entering into a contract, agreement, or understanding to construct such vessels within the United States for, or to be delivered to, a person not a citizen of the United States.

This approval is subject to the following limitations. First, the approval does not extend to existing vessels owned by citizens of the United States or the last documentation of which was under the laws of the United States. Secondly, the approval is subject to the provisions of § 221.6 in the event of a transaction involving nationals of Country Group countries X, Y, and Z, as defined therein. Third, this approval provision will be rescinded, if national security requirements so necessitate.

Therefore, notice is hereby given that effective immediately § 221.5 to Title 46, Chapter II, Code of Federal Regulations is amended to read as follows:

§ 221.5 Types of vessels approved by § 221.4.

The following types of vessels are approved by § 221.4:

(a) Undocumented vessels designated and fabricated specifically for recreational or commercial use, whether constructed or to be constructed when possessing all of the following characteristics:

(1) Having an overall length of 65 feet or less;

(2) Designed or equipped for propulsion by an engine or engines of the reciprocating type, totaling 600 horsepower (manufacturer's rated horsepower) or less;

V 37-68 APR 7 72 XUM

(3) Designed for a full load displacement of less than 45 tons. (For the purposes of this order, it will be presumed that a vessel of less than 55 feet in length will have a displacement less than 45 tons. For vessels between 55 feet and 65 feet in length, the owner must supply to the appropriate Customs officer at the port of departure (i) a certificate of the builder as to the displacement tonnage of the vessel, or (ii) a certificate of a naval architect as to the displacement tonnage of the vessel, or (iii) a certificate of the owner as to the key dimensions of the vessel (length, beam, and draft));

(4) Not of hydrofoil design;

(5) Not equipped with any navigational apparatus of the kinds or types requiring a validated license from the Bureau of International Commerce; and

(6) Not equipped with any munitions items of the kinds or types requiring a validated license from the State Department.

(b) Vessels not primarily designed for the carriage of cargo, but for use in exploration and drilling for oil, gas, and other minerals at underwater locations: *Provided*, That the provisions of this paragraph (b) shall apply only to paragraph (c) of § 221.4.

Dated: March 30, 1972.

By order of the Assistant Secretary of Commerce for Maritime Affairs.

JAMES S. DAWSON, Jr.,
Secretary,
Maritime Administration.

[FR Doc.72-5369 Filed 4-6-72;8:49 am]

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER C—DRUGS

PART 135c—NEW ANIMAL DRUGS IN ORAL DOSAGE FORMS

Metoserpate Hydrochloride

The Commissioner of Food and Drugs has evaluated a supplemental new animal drug application (32-738V) filed by E. R. Squibb & Sons, Georges Road, New Brunswick, N.J. 08902, proposing the safe and effective use of metoserpate hydrochloride as an aid in control of hysteria in chickens. The supplemental application is approved.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), § 135c.17(d) is amended by adding a new item 2 in the table as follows:

§ 135c.17 Metoserpate hydrochloride.

. . . . . .

(d) *Conditions of use.* It is used as follows:

IN DRINKING WATER

Amount	Limitations	Indications for use
. . .	. . .	. . .
2. Metoserpate hydrochloride.	2 to 4 milligrams per 2.2 pounds of body weight.	To be used as a treatment for replacement chickens up to 16 weeks of age; usual drinking water should be withheld prior to treatment to provide adequate consumption of medicated drinking water; the drug should be administered at a dosage level of 4 milligrams per 2.2 pounds of body weight followed by 2 treatments at 4 day intervals of 2 milligrams per 2.2 pounds of body weight; not for use in laying chickens; chickens slaughtered within 72 hours following treatment must not be used for food.	As an aid in control of hysteria.

Effective date. This order shall be effective upon publication in the FEDERAL REGISTER (4-7-72).

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i))

Dated: March 28, 1972.

FRED J. KINGMA,
Acting Director, Bureau of Veterinary Medicine.

Title 41—PUBLIC CONTRACTS AND PROPERTY MANAGEMENT

Chapter 5A—Federal Supply Service, General Services Administration

MISCELLANEOUS AMENDMENTS TO CHAPTER

Chapter 5A of Title 41 of the Code of Federal Regulations is amended as follows:

PART 5A-1—GENERAL

The table of contents of Part 5A-1 is amended to delete §§ 5A-1.310, 5A-1.310-6, and 5A-1.310-7 and to add new §§ 5A-1.606-52 and 5A-1.701-8, new Subpart 5A-1.12, and §§ 5A-1.1205 and 5A-1.1205-3, as follows:

Sec.
5A-1.606-52 Investigations.
5A-1.701-8 Class set-asides for small business concerns.

Subpart 5A-1.12—Responsible Prospective Contractors

Sec.
5A-1.1205 Determination of responsibility.
5A-1.1205-3 Information regarding responsibility.

Subpart 5A-1.3—General Policies

Subpart 5A-1.3 is amended to delete §§ 5A-1.310, 5A-1.310-6, and 5A-1.310-7.

Subpart 5A-1.6—Debarred, Suspended, and Ineligible Bidders

1. Section 5A-1.606-51 is revised to read as follows:

§ 5A-1.606-51 Debarment by other agencies.

Unless otherwise directed by the Assistant Commissioner for Procurement, or the Assistant Commissioner for Automated Data Management Services, or higher authority, GSA debarment action shall not be initiated solely on the basis of a debarment by another agency if the debarment by GSA would not become effective at least 90 days prior to the termination date of the debarment by the other agency. However, in such cases, the Office of Audits and Investigations, OAD, shall be requested to include the name of the firm or individual on the Review List of Bidders.

2. Section 5A-1.606-52 is added, as follows:

§ 5A-1.606-52 Investigations.

When an FSS contracting activity forwards to the Office of Audits and Investigations, OAD, a request for an investigation, pursuant to § 5-1.606-52, a copy of such request shall be transmitted to the Assistant Commissioner for Procurement or the Assistant Commissioner for Automated Data Management Services, as applicable.

Subpart 5A-1.7—Small Business Concerns

1. Section 5A-1.701-8 is added as follows:

§ 5A-1.701-8 Class set-asides for small business concerns.

(a) *Clarification of class set-aside definition.* In further explanation of § 1-1.705-3(b), a class set-aside may consist of an item, a group of related items under an FSC class, or a whole FSC class when restricted to small business on a continuing, as distinct from a one-time, basis. Under this definition, a single item or a group of items, even though constituting only a small portion of an FSC class, restricted to small business on a continuing basis is defined as a class set-aside.

(b) *Determining the set-aside status of an item.* The fact that an item, group of items, or a class is the subject of a class set-aside, and presumptively will be set aside on the next procurement, does not mean that it is automatically set aside without consideration of events which may have occurred since the last procurement. The contracting officer must determine if intervening events have changed the situation so that it is no longer in the best interest of the Government to make a particular set-aside (either individual or class set-aside). When the conclusion is reached that a set-aside should be dissolved, it must be accomplished in accordance with § 1-1.706-3(b) and considered only as a one-time dissolution if feasible.

(c) *Class set-aside determination.* Small business class set-asides will normally be made on a unilateral basis by the contracting officer and documented in accordance with § 5-1.706-50(b), using the format set forth therein. It should be noted that § 5-1.706-50 requires that such determinations must be reviewed annually.

(d) *Circulating information of newly established class set-asides.* In the interest of increasing class set-asides, each buying office establishing or dissolving a class set-aside shall circulate this information to all other buying offices.

(e) *Reporting class set-asides.* All procurement offices shall take necessary measures to insure that class set-aside data included in management reports will be in accordance with the definition provided in § 1-1.701-8 and paragraph (a) of this section.

3. Section 5A-1.703-2(c)(2) is revised as follows:

§ 5A-1.703-2 Protest regarding small business status.

. . . . . .

(c) . . .

(2) When submitting GSA Form 353, Plant Facilities Report (see § 5A-1.1205-3), enter the following in block two of the form "Being considered for preferential award as a small business concern" and request information as to (i) the firm's number of employees, and (ii) evidence of apparent affiliation relationships such as joint occupancy of premises.

. . . . . .

4. Section 5A-1.708 is revised as follows:

§ 5A-1.708 Certificate of competency program.

Procedures for submission to SBA of documentation in support of determinations of nonresponsibility of small business concerns for reasons other than lack of capacity or credit, and required subsequent actions, are prescribed in § 1-1.708-2(a)(5). The "head of the procuring activity," for actions required by the cited FPR section, normally shall be the Regional Director, FSS, in the regional offices and the cognizant Assistant Commissioner in the Central Office. However, in cases where the contracting officer disagrees with the SBA position (§ 1-1.708-2(a)(5)(v)), the "head of the procuring activity," for purposes of resolution of the differing views, shall be the cognizant Assistant Commissioner. In these instances, the case shall be submitted to the cognizant Assistant Commissioner, through channels, for final decision prior to award.

Subpart 5A-1.12 with new §§ 5A-1.1205 and 5A-1.1205-3 are added as follows:

Subpart 5A-1.12—Responsible Prospective Contractors

§ 5A-1.1205 Determination of responsibility.

(a) See Subpart 1-1.12 and § 5-1.310.

(b) Where a contractor will be required to meet estimated or stated peak monthly requirements, consideration shall be given, in making determinations of responsibility, to the bidder's ability to meet such peaks, rather than his ability to meet the average monthly requirements.

(c) While poor past performance can form the basis for a finding of nonresponsibility, it should be emphasized that poor performance usually is a symptom of some other difficulty such as lack of capacity, integrity, perseverance, etc., and the basic cause of the poor performance must be determined. It is also important to bear in mind that when poor performance is the basis for a finding of nonresponsibility, such poor performance must have been experienced in the relatively recent past. Emphasis should not be placed on poor performance which occurred during periods so remote in time as to bear little relationship to the bidders current capabilities or willingness to perform. Where there have been repeated instances of poor performance on the part of a contractor, debarment pursuant to §§ 1-1.604 and 5-1.604-1 should be recommended through appropriate channels.

(d) After determination of nonresponsibility, the letter of rejection shall be issued promptly to the bidder. A letter to the Office of Audits and Investigations, OAD, transmitting a copy of the determination shall then be prepared for the signature of the Regional Director, FSS, or the Director, Procurement Operations Division, as appropriate. Copies of the letter and determination shall be distributed to each other FSS buying activity for informational purposes. If the basis for rejection includes lack of financial responsibility, copies shall be furnished to the appropriate finance activity.

§ 5A-1.1205-3 Information regarding responsibility.

(a) A responsibility determination may be made without obtaining a plant facilities report if the contracting officer is reasonably satisfied that the prospective contractor has the facilities and capacity to perform the proposed contract, considering the dollar value thereof and any critical aspects involved in the procurement. However, if the contracting officer needs additional information in order to eliminate any doubt he may have in this regard, a plant facilities report shall be requested as provided in paragraph (b), below. In the case of procurements or relatively large dollar value, or procurements which warrant special attention for other reasons (e.g., a special or critical item not previously produced by the prospective contractor), a current plant facilities report shall be requested.

(b) Requests for a plant facilities evaluation shall be made on GSA Form 353, Plant Facilities Report. The buying activity making the request shall complete section I of GSA Form 353. Where there is a special reason for making the request, it should be stated in block six of the form. Any pertinent information on past performance or otherwise in the possession of the buying activity which would be helpful to the quality control activity in making its evaluation should be noted in block five of the form.

(1) In the case of requests initiated in the Central Office, the original and two copies of the GSA Form 353 shall be forwarded to the Central Office Quality Control Division with the following:

(i) Three copies of the invitation for bids;

(ii) Three copies of all pertinent information submitted by the bidder in his bid, including the bidder's offered delivery of shipping time and, where applicable, the bidder's indicated monthly production capacity or supply potential. (In lieu of extracting such information from the bid, copies of the bid or of pertinent pages thereof may be furnished, if the latter method is more practical);

(iii) Any pertinent correspondence between GSA and the bidder; and

(iv) Any other information the buying activity has which should be considered by the regional Quality Control Division in making the evaluation.

(2) In the case of requests initiated in a regional buying activity, the original and a copy of the GSA Form 353 together with two copies of each of the documents and information described in (i) through (iv) of paragraph (b)(1), above, shall be sent to the Quality Control Division in the GSA region in which the prospective supplier's plant is located. The second copy of the GSA Form 353 and of each of the documents and information described above shall be forwarded to the Central Office Quality Control Division.

(3) If award is made to a bidder despite an unfavorable plant facilities report, a letter notice of the action taken and the reason for it shall be sent promptly to the appropriate Quality Control Division as indicated below:

(i) In the case of an award made by the Central Office, the letter shall be sent to the Central Office Quality Control Division with a copy to the regional Quality Control Division which made the "no award" recommendation.

(ii) In the case of an award made by a regional buying activity, the letter shall be sent to the regional Quality Control Division which made the "no award" recommendation with a copy to the Central Office Quality Control Division.

Subpart 5A-1.50—Reports

Sections 5A-1.5079-4(c)(3)(i)(B) and 5A-1.5079-4(c)(3)(ii)(B) are revised as follows:

§ 5A-1.5079-4 Instructions.

. . . . . .

(c) . . .
(3) . . .
(i) . . .

(b) Enter in column (b) the total dollar value of usage during the report year of each schedule and schedule part listed in column (a). Data should agree with that reported on the buying operations report, line 6.

. . . . . .

(ii) . . .

(b) Enter in column (b) the reported or estimated value of usage during the

V 37-68 APR 7 72 XUM

report year of each type of service (or supplies) listed in column (a). This should agree with data submitted on line 9 of the buying operations report.

PART 5A–2—PROCUREMENT BY FORMAL ADVERTISING

Subpart 5A–2.2—Solicitation of Bids

Section 5A–2.202–4 is amended to provide appropriate citation, as follows:

§ 5A–2.202–4 Bid samples.

* * * * *

(g) If the bid sample has been found to conform to all of the characteristics listed in the solicitation, but found deficient with respect to one or more of the unlisted characteristics, a plant facilities report shall be requested as provided in § 5A–1.1205–3. A copy of the sample evaluation report shall be attached to the GSA Form 353 which shall include a request that special attention be given to the prospective contractor's ability (notwithstanding the deficiencies noted with respect to the characteristics not listed in the solicitation which were evaluated) to produce supplies fully conforming to applicable specifications. For example, can the noted deficiencies be corrected by fairly simple production or process control adjustments, or would expensive and time-consuming retooling be involved? The plant facilities report shall include a specific statement regarding the prospective contractor's ability or inability to correct each noted deficiency in objective characteristics as well as an overall appraisal of his capability.

PART 5A–16—PROCUREMENT FORMS

The table of contents for Part 5A–16 is amended to include the following revised entry:

Sec.
5A–16.950–457 GSA Form 457, FSS Publications Mailing List Application.

NOTE: A copy of the form listed in § 5A–16.950–457 is filed as part of the original document.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c); 41 CFR 5–1.101(c))

Effective date. These regulations are effective 30 days after the date shown below.

Dated: March 23, 1972.

M. S. MEEKER,
Commissioner,
Federal Supply Service.

[FR Doc.72–5350 Filed 4–6–72;8:47 am]

AVAILABILITY FOR INSPECTION AND TESTING AND DELIVERY AND FEDERAL SUPPLY SCHEDULES SELECTED FOR SOURCE INSPECTION

Chapter 5A of Title 41 of the Code of Federal Regulations is amended to read as follows:

PART 5A–7—CONTRACT CLAUSES

Subpart 5A–7.1—Fixed-Price Supply Contractors

Section 5A–7.101–77 is revised as follows:

§ 5A–7.101–77 Availability for inspection and testing and delivery.

The following clause may be used in definite quantity or requirements type solicitations when lengthy testing is involved and the time required for completion of such tests cannot be predetermined, at the discretion of the contracting officer. Paragraph (c) of the clause shall be included therein only when the requirements are small and the proposed award is less than the dollar limitation established for source inspection.

AVAILABILITY FOR INSPECTION AND TESTING AND DELIVERY [1]

(a) The Government requires that supplies listed herein be made available for inspection and testing within _____ days after receipt of (notice of award) (order) and be (delivered) (shipped) to destination within _____ days after notice of approval and release by the appropriate Government inspection representative.

(b) If the Contractor fails to make the supplies available for inspection and testing within the number of days after receipt of (notice of award) (order) specified above, or fails to make (delivery) (shipment) to destination within the number of days after notice of approval and release by the Government inspection representative, the Contractor shall be deemed to have failed to make delivery within the purview of Article 11(a) (1) of the General Provisions, Standard Form 32.

(c) In the event the point of inspection is changed to destination (delivery at) (shipment to) destination is required within _____ days after receipt of (notice of award) (order).

[1] Where availability for shipment is to be used, substitute "Shipment" for "Delivery."

PART 5A–73—FEDERAL SUPPLY SCHEDULE PROGRAM

Subpart 5A–73.1—Production and Maintenance

The table of contents of Part 5A–73 is amended to add the following new entry:

Sec.
5A–73.123–6 Federal Supply Schedules selected for source inspection.

Subpart 5A–73.1 is amended to add a new § 5A–73.123–6 as follows:

§ 5A–73.123–6 Federal Supply Schedules selected for source inspection.

(a) The Office of Standards and Quality Control determines which Federal Supply Schedules are to be selected for origin inspection, quality control, and assigned contract administration assistance by the Quality Control Division. The list is prepared by the Office of Standards and Quality Control and the current edition is set forth in § 5A–76.317.

(b) Contracting officers involved shall include the following clause in each Federal Supply Schedule solicitation selected for origin inspection, quality control, and assigned contract administration assistance.

ORIGIN INSPECTION

Clause number 5(a) of GSA Form 1424, GSA Supplemental Provisions, applies to this solicitation. Offerors shall furnish the following information to indicate where the supplies will be available for inspection:

Item No.	Name of manufacturing plant or other facility	Address (including county)

(c) Promptly after the award of each Federal Supply Schedule contract the contracting officer shall furnish:

(1) Each regional Chief Quality Control Division, having cognizance under the contract, with two sets of contract information, each set securely stapled together, and consisting of (i) two copies of the solicitation and (ii) two copies of the front page of GSA Form 1535, Request for Approval of Awards, and/or pertinent pages of the Federal Supply Schedule contract which are necessary for source inspection purposes, for each inspection point.

NOTE: In this regard, in performing the above function, contracting officers shall carefully review the front page of each GSA Form 1535 and each page of the contract to insure that complete information needed for quality control, source inspection, and contract administration is provided.

(2) The Quality Control Division, Central Office, with one set only of contract information as described in (1) above.

Where the inspection point(s) is different than the production point, the contracting officer shall include such information on the front page of the GSA Form 1535.

PART 5A–76—EXHIBITS

The table of contents of Part 5A–76 is amended to add the following entry:

Sec.
5A–76.317 Federal Supply Schedules selected for source inspection.

§ 5A–76.317 Federal Supply Schedules selected for source inspection.

NOTE: The new exhibit identified in § 5A–76.317 is filed as part of the original document. Copies may be obtained from the General Services Administration (FPP), Washington, D.C. 20406.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c); 41 CFR 5–1.101(c))

Effective date. This regulation is effective 30 days after the date shown below.

Dated: March 28, 1972.

M. S. MEEKER,
Commissioner,
Federal Supply Service.

Title 42—PUBLIC HEALTH

Chapter I—Public Health Service, Department of Health, Education, and Welfare

SUBCHAPTER D—GRANTS

PART 51b—GRANTS FOR COMMUNICABLE DISEASE CONTROL

Section 317 of the Public Health Service Act (42 U.S.C. 247b) authorizes the Secretary of Health, Education, and Welfare to make grants to State and local health agencies for the support of Communicable Disease Control programs of national significance.

The following are regulations applicable to grants for such purposes.

Notice of proposed rule making, public rule making procedures and postponement of effective date have been omitted in the issuance of the following Part 51b which relates solely to grants pursuant to section 317 of the Public Health Service Act because, for good cause it has been found, that such notice, public participation, and delay would be contrary to the public interest in light of the need to provide adequate lead time for the development of project proposals, the need for the orderly and efficient consideration of such proposals, the prudent utilization of available funds and the limited time period within which available funds must be obligated.

Written comments concerning the regulations are invited from interested persons. Inquiries may be addressed, and data, reviews, and arguments relating to the regulations may be presented in writing, in triplicate, to David J. Sencer, M.D., Director, Center for Disease Control, Room 214, 1600 Clifton Road NE., Atlanta, GA 30333. All comments received in response to this publication will be available for public inspection in the above-named office on weekdays between 9 a.m. and 4:30 p.m. (except on holidays). All relevant material received not later than 30 days after publication of these regulations in the FEDERAL REGISTER will be considered.

The following regulations shall become effective on the date of publication in the FEDERAL REGISTER (4–7–72).

Dated: March 23, 1972.

VERNON E. WILSON,
Administrator, Health Services and Mental Health Administration.

Approved: April 4, 1972.

ELLIOT L. RICHARDSON,
Secretary.

AUTHORITY: The provisions of this Part 51b issued under sec. 215, 58 Stat. 690; 42 U.S.C. 216. Sec. 317, 84 Stat. 988; 42 USC 247b, as amended

§ 51b.1 Applicability.

These regulations are applicable to the award of grants under section 317 of the Public Health Service Act (42 U.S.C. 247b) for the support of communicable disease control programs.

§ 51b.2 Definitions.

As used in these regulations:

(a) "Act" means the Public Health Service Act.

(b) "Secretary" means the Secretary of Health, Education, and Welfare and any other officer or employee of the Department of Health, Education, and Welfare to whom the authority involved has been delegated.

(c) "State" means one of the 50 States, the Commonwealth of Puerto Rico, Guam, American Samoa, the Trust Territory of the Pacific Islands, the Virgin Islands, and the District of Columbia.

(d) "Communicable disease control program or project" means a program or project which is designed and conducted so as to contribute to national protection against tuberculosis, venereal disease, rubella, measles, Rh disease, poliomyelitis, diphtheria, tetanus, whooping cough or other communicable diseases which are transmitted from State to State, are amenable to reduction, and which are determined by the Secretary on the recommendation of the National Advisory Health Council to be of national significance.

§ 51b.3 Eligibility.

(a) *Eligible applicant.* Any State, or with the approval of the appropriate State Health authority, any political subdivision or instrumentality of a State, is eligible for a grant award under these regulations.

(b) *Eligible projects.* Grants pursuant to section 317 of the Act and these regulations may be made to eligible applicants for the purpose of meeting the cost of communicable disease control programs, including studies to determine the communicable disease control needs of communities and the means of best meeting those needs.

§ 51b.4 Application for grant.

(a) An application for a grant under these regulations shall be submitted to the Secretary at such time and in such form as the Secretary may prescribe.[1] The application shall contain a full and adequate description of the project and of the manner in which the applicant intends to conduct the project and carry out the requirements of these regulations, including a description of the nature and extent of the problems to be met, the environment in which the project will function, and the relationship of the applicant to the community, the medical societies, and voluntary health agencies in the area to be served. The application shall also contain a budget and justification of the amount of grant funds requested, and such other pertinent information as the Secretary may require.

(b) The application shall be executed by an individual authorized to act for the applicant and to assume for the applicant the obligations imposed by these regulations and any additional conditions of the grant.

§ 51b.5 Project requirements.

An approvable project must provide:

(a) A plan to initiate and maintain surveillance of the communicable diseases with respect to which funds are granted, which will include, among other things, morbidity and mortality reporting, surveys, and case and laboratory investigation.

(b) Unless for good cause otherwise shown, coordination with other relevant federally assisted programs.

(c) Unless for good cause otherwise shown, arrangements for utilization of facilities of public and private hospital outpatient clinics.

(d) Assurance that the project will be conducted in a manner calculated to preserve human dignity and maximize acceptability and utilization of services.

(e) Assurance that services will be made available without regard to creed, age, sex, or marital status unless otherwise medically indicated (see also § 51b.9).

(f) Assurance that no person will be denied service by reason of his inability to pay therefor: *Provided, however,* That to the extent that payment for services under the project will be made by a third party (including a Government agency) which is authorized or is under a legal obligation to pay such charge, effort will be made to obtain such third party payment. If charges are to be made for services under the project, such charges must be in accordance with a schedule submitted and approved as part of the project plan.

(g) Assurance that funds granted will be used to supplement and not supplant State or local funds available for communicable disease control programs.

(h) Priority in the delivery of services to population groups having the highest incidence and prevalence of communicable diseases.

§ 51b.6 Grant evaluation and award.

(a) Within the limits of funds available for such purpose, the Secretary may award grants to cover part of the cost of communicable disease control projects to those applicants whose projects he determines will, in his judgment, best promote the purposes of the Act taking into account:

(1) The relative extent of the problems relating to one or more of the communicable diseases to which these regulations are applicable,

(2) The levels of performance in preventing and controlling such diseases,

(3) The general quality of the project's plan in accordance with the project requirements set forth in § 51b.5 and in particular the extent to which the project renders services to groups having the highest incidence and prevalence of communicable diseases,

(4) The comments and recommendations of the State comprehensive health planning agency, and

(5) The capacity of the applicant to make prompt and effective use of Federal funds.

(b) The amount of any award shall be determined by the Secretary on the basis of his estimate of the sum necessary for a designated portion of direct project costs plus an additional amount for indirect costs, if any, which will be calculated by the Secretary either (1) on the basis of his estimate of the actual indirect costs reasonably related to the project, or (2) on the basis of a percentage of all, or a portion of, the estimated direct costs of the project when there are reasonable assurances that the use of such percentage will not exceed the approximate actual indirect costs. Such award may include an estimated provisional amount for indirect costs or for designated direct costs (such as hospital per diem rates or fringe benefit rates) subject to upward (within the limits of available funds) as well as downward adjustments to actual costs when the amount properly expended by the grantee for provisional items has been determined by the Secretary: *Provided, however,* That no grant shall be made for an amount equal to the total cost as found necessary by the Secretary for the carrying out of the project. In determining the grantee's share of project costs (in accordance with Chapter 1–400 of the Department of Health, Education, and Welfare Grants Administration Manual[2]), costs for which Federal grants for other sources have been or may be claimed or received or costs used to match other Federal grants except as may be otherwise provided by law, or costs to be met from the Federal share of grant related income (except as may be permitted by Chapter 1–420 of the Department of Health, Education, and Welfare Grants Administration Manual) may not be included.

(c) Except as may otherwise be provided by these regulations, the identification of direct and indirect costs will be consistent with the generally accepted and established accounting practices that the grantee applies to its own activities and in conformance with the applicable principles set forth in Chapters 1–76, 2–65, 2–66, and 5–60 of the Department of Health, Education, and Welfare Grants Administration Manual.

(d) All grant awards shall be in writing, shall set forth the amount of funds granted and the period for which support is recommended.

(e) Neither the approval of any project nor any grant award shall commit or obligate the United States in any way to make any additional, supplemental, continuation, or other award with respect to any approved project or portion thereof. For continuation support, grantees must make separate applications periodically at such times and in such form as the Secretary may direct.

§ 51b.7 Grant payments.

(a) The Secretary shall from time to time make payments to a grantee of all or a portion of any grant award, either in advance or by way of reimbursement for expenses incurred or to be incurred in the performance of the project to the extent he determines such payments necessary to promote prompt initiation and advancement of the approved project.

(b) The Secretary, at the request of a recipient of a grant under these regulations, may reduce such grant by the fair market value of any supplies (including vaccines and other preventive agents), or equipment furnished to such recipient and by the amount of the pay, allowances, traveling expenses, and any other costs in connection with the detail of an officer or employee to the recipient when the furnishing of such supplies or equipment, or of the detail of such officer or employee (as the case may be), is for the convenience of and at the request of such recipient and for the purpose of carrying out the program with respect to which the grant under these regulations is made. The amount by which any such grant is so reduced shall be available for payment by the Secretary of the costs incurred in furnishing the supplies, equipment, or personal services on which the reduction of such grant is based, but such amount shall be deemed a part of the grant to such recipient and shall, for the purposes of these regulations, be deemed to have been paid to such agency.

§ 51b.8 Use of project funds.

(a) Any funds granted pursuant to these regulations may be expended solely for carrying out the approved project in accordance with section 317 of the Act, these regulations, and except as otherwise provided herein, the cost principles set forth in the Department of Health, Education, and Welfare Grants Administration Manual.

(b) Project funds under these regulations may be used to conduct studies to determine the communicable disease control needs of communities and the means of best meeting such needs.

(c) Project funds under these regulations may not be used for performing diagnostic tests, maintaining central registries, and for providing diagnostic and treatment facilities unless the applicant establishes to the satisfaction of the Secretary that funds for such services are necessary for the proper conduct of the project and are otherwise unavailable.

(d) Prior approval by the Secretary of revision of the budget and project plan is required whenever there is to be a significant change in the scope or nature of project activities.

§ 51b.9 Civil rights.

Attention is called to the requirements of Title VI of the Civil Rights Act of 1964 (78 Stat. 252, 42 U.S.C. 2000d et seq.) and in particular section 601 of such Act which provides that no person in the United States shall on the grounds of race, color, or national origin be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. A regulation implementing such Title VI, which applies to grants made under these regulations, has been issued by the Secretary of Health, Education, and Welfare with the approval of the President (45 CFR Part 80).

§ 51b.10 Confidentiality.

Each grant award is subject to the condition that all information obtained by the personnel of the project from participants in the project related to their examination, care, and treatment, shall be held confidential, and shall not be divulged without the individual's consent except as may be required by law or as may be necessary to provide service to the individual. Information may be disclosed in summary, statistical, or other form which does not identify particular individuals.

§ 51b.11 Inventions or discoveries.

Any grant award pursuant to § 51b.6 is subject to the regulations of the Department of Health, Education, and Welfare as set forth in 45 CFR Parts 6 and 8, as amended. Such regulations shall apply to any activity for which grant funds are in fact used whether within the scope of the project as approved or otherwise. Appropriate measures shall be taken by the grantee and by the Secretary to assure that no contracts, assignments, or other arrangements inconsistent with the grant obligation are continued or entered into and that all personnel involved in the supported activity are aware of and comply with such obligations. Laboratory notes, related technical data, and information pertaining to inventions and discoveries shall be maintained for such periods, and filed with or otherwise made available to the Secretary, or those he may designate at such times and in such manner, as he may determine necessary to carry out such Department regulations.

§ 51b.12 Publications and copyright.

Except as may otherwise be provided under the terms and conditions of the award, the grantee may copyright without prior approval any publications, films or similar materials developed or resulting from a project supported by a grant under these regulations, subject, however, to a royalty-free, nonexclusive, and irrevocable license or right in the Government to reproduce, translate, publish, use, disseminate, and dispose of such materials and to authorize others to do so.

§ 51b.13 Grantee accountability.

(a) *Accounting for grant award payments.* All payments made by the Secretary shall be recorded by the grantee in accounting records separate from the records of all other grant funds, including funds derived from other grant awards. With respect to each approved project the grantee shall account for the sum total of all amounts paid by presenting or otherwise making available evidence satisfactory to the Secretary of expenditures for direct and indirect costs meeting the requirements of these regulations: *Provided, however,* That when the amount awarded for indirect costs was based on a predetermined fixed percentage of estimated direct costs, the amount allowed for indirect costs shall be computed on the basis of such predetermined fixed-percentage rates applied to the total, or a selected element thereof, of the reimbursable direct costs incurred.

(b) *Accounting for equipment.* As used in these regulations the term "equipment" means an article of property procured or fabricated which is complete in itself, is of a durable nature, and has an expected service life of more than 1 year. Equipment on hand on the date of termination for which accounting is required in accordance with the procedures set forth in Chapter 1–40–50 of the Department of Health, Education, and Welfare Grants Administration Manual shall be identified and reported by the grantee in accordance with such procedures, and, accounted for by one or a combination of the following methods, as determined by the Secretary:

(1) *Retention of equipment for other communicable disease control programs.* Equipment may be used, without adjustment of accounts, on other grant supported projects (whether or not federally supported) within the scope of section 317 of the Act, and no other accounting for such equipment shall be required: *Provided, however,* (i) That during such period of use no charge for depreciation, amortization, or for other use of the equipment shall be made against any existing or future Federal grant or contract, and (ii) if, within the period of its useful life, the equipment is transferred by sale or otherwise for use outside the scope of the Act, the Federal portion of the fair market value at the time of transfer shall be refunded to the Federal Government.

(2) *Sale or other disposition of equipment, crediting of proceeds or value.* The equipment may be sold by the grantee and the net proceeds of the sale credited to the grant account for project use, or they may be used or disposed of in any manner by the grantee by crediting to the grant account the Federal share of the fair market value on the termination date. To the extent equipment purchased from grant funds is used for credit or trade-in on the purchase of new equipment, the accounting obligation shall

[1] Applications and instructions may be obtained from the Regional Health Director of the Health Services and Mental Health Administration at the Regional Office of the Department of Health, Education, and Welfare for the region in which the project is to be conducted.

[2] The Department Grants Administration Manual is available for inspection at the Public Information Office of the several Department Regional Offices and available for purchase at the Government Printing Office, GPO Document No. 894–523.

V 37-68 APR 7 72 XUM

apply to the same extent to such new equipment.

(3) *Return or transfer of equipment.* The equipment may be returned to the Federal Government by the grantee or, in accordance with the provisions of Chapter 1-410-50B of the Department of Health, Education, and Welfare Grants Administration Manual may be transferred to another grantee for the purpose of continuing the project for which the equipment was purchased.

(c) *Accounting for grant related income*—(1) *Interest.* Pursuant to section 203 of the Intergovernmental Cooperation Act of 1968 (42 U.S.C. 4213), a State will not be held accountable for interest earned on grant funds, pending their disbursement for grant purposes. A State, as defined in section 102 of the Intergovernmental Cooperation Act, means any one of the several States, the District of Columbia, Puerto Rico, any territory or possession of the United States, or any agency or instrumentality of a State, but does not include the governments of the political subdivisions of the State. All grantees other than a State, as defined in these regulations, must return all interest earned on grant funds to the Federal Government.

(2) *Royalties.* Royalties earned from publications or similar material produced from a grant must first be used to reduce the Federal share of the grant to cover the costs of publishing or producing the materials. Royalties in excess of the costs of publishing or producing the materials shall be distributed as in subparagraph (3) of this paragraph.

(3) *Other income.* Other income earned by the grantee shall be disposed of in accordance with one of the alternatives specified in Chapter 1-420 of the Grants Administration Manual as determined by the Secretary in the grant award.

(d) *Grant closeout*—(1) *Date of final accounting.* A grantee shall render, with respect to each approved project, a full account, as provided herein, as of date of the termination of grant support. The Secretary may require other special and periodic accounting.

(2) *Final settlement.* There shall be payable to the Federal Government as final settlement with respect to each approved project the total sum of:

(i) Any amount not accounted for pursuant to paragraph (a) of this section;

(ii) Any credits for material on hand as provided in paragraph (b) of this section;

(iii) Any credits for earned interest pursuant to paragraph (c)(1) of this section;

(iv) Any other settlements required pursuant to paragraph (c) (2) and (3) of this section.

Such total sum shall constitute a debt owed by the grantee to the Federal Government and shall be recovered from the grantee or its successors or assignees by set off or other action as provided by law.

§ 51b.14 Records, reports, inspection, and audit.

(a) *Records and reports.* Each grant awarded pursuant to these regulations shall be subject to the condition that the grantee shall maintain such operational and accounting records, identifiable by grant number, and file with the Secretary such operational and fiscal reports relating to the use of grant funds, as the Secretary may find necessary to carry out the purposes of the Act and the regulations. All records shall be retained for 3 years after the close of the budget period. Such records may be destroyed at the end of such 3-year period if the applicant has been notified of the completion of the Federal audit by such time. If the applicant has not been so notified, such records shall be retained (1) for 5 years after the close of the budget period or (2) until the grantee is notified of the completion of the Federal audit, whichever comes first. In all cases where audit questions have arisen before the expiration of such 5-year period, records shall be retained until resolution of all such questions.

(b) *Inspection and audit.* Any application for a grant under these regulations shall constitute the consent of the applicant to inspections of the facilities, equipment, and other resources of the applicant at reasonable times by persons designated by the Secretary and to interview with principal staff members to the extent that such resources and personnel are, or will be, part of the project. In addition, the acceptance of any grant under these regulations shall constitute the consent of the grantee to inspections and fiscal audits by such persons of the supported activity and of records relating to the use of grant funds.

§ 51b.15 Additional conditions.

The Secretary may with respect to any grant award impose additional conditions prior to or at the time of any award when in his judgment such conditions are necessary to assure or protect advancement of the approved project, the interests of public health, or the conservation of grant funds.

§ 51b.16 Early termination and withholding of payments.

Whenever the Secretary finds that a grantee has failed in a material respect to comply with the Act, the regulations of this part, or the terms of the grant, he may, on reasonable notice to the grantee, withhold further payments, and take such other action, including the termination of the grant, as he finds appropriate to carry out the purposes of the Act and regulations. Noncancelable obligations of the grantee properly incurred prior to the receipt of the notice of termination will be honored. The grantee shall be promptly notified of such termination in writing and given the reasons therefor.

§ 51b.17 Voluntary participation.

Nothing in these regulations shall be construed to require any State or any political subdivision or instrumentality of a State to have a communicable disease control or vaccination program which would require any person who objects to such treatment to be treated or to have any child or ward of his treated.

Title 50—WILDLIFE AND FISHERIES

Chapter I—Bureau of Sport Fisheries and Wildlife, Fish and Wildlife Service, Department of the Interior

PART 33—SPORT FISHING

Horicon National Wildlife Refuge, Wis.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER (4-7-72).

§ 33.5 Special Regulations; sport fishing, for individual wildlife refuge areas.

WISCONSIN

HORICON NATIONAL WILDLIFE REFUGE

Sport fishing on the Horicon National Wildlife Refuge, Mayville, Wis., is permitted only on the areas designated by signs as open to fishing. These open areas are delineated on maps available at refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, Federal Building, Fort Snelling, Twin Cities, Minn., 55111. Sport fishing shall be in accordance with all applicable State regulations subject to the following special conditions:

(1) The open season for sport fishing on the refuge extends from May 15, 1972 through September 15, 1972, inclusive.

(2) The use of boats is not permitted.

(3) Fishing during daylight hours only.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Part 33, and are effective through September 15, 1972.

ROBERT S. PERSONIUS,
Refuge Manager, Horicon National Wildlife Refuge, Mayville, Wis.

MARCH 28, 1972.

Proposed Rule Making

DEPARTMENT OF THE TREASURY

Bureau of Customs

[19 CFR Part 1]

CUSTOMS FIELD ORGANIZATION

Notice of Proposed Changes in Customs Region V

MARCH 31, 1972.

In order to provide better Customs service in the New Orleans, La., Customs district, it is proposed to establish a Customs port of entry at Vicksburg, Miss.

Accordingly, by virtue of the authority vested in the President by section 1 of the Act of August 1, 1914, 38 Stat. 623, as amended (19 U.S.C. 2), which was delegated to the Secretary of the Treasury by the President by Executive Order No. 10289, September 17, 1951 (3 CFR ch. 11), and pursuant to authority provided by Treasury Department Order No. 190, Rev. 7 (34 F.R. 15846), Vicksburg, Miss., is hereby proposed as a port of entry in the New Orleans, La., district (Region V).

The proposed geographical limits of the port of Vicksburg shall include all of Warren County, Miss., and Madison Parish, La.

Data, views, or arguments with respect to the foregoing proposal may be addressed to the Commissioner of Customs, Washington, D.C. 20226. To insure consideration of such communications, they must be received in the Bureau not later than 15 days from the date of publication of this notice in the FEDERAL REGISTER.

Written material or suggestions submitted will be available for public inspection in accordance with section 103.3 (b) of the Customs Regulations (19 CFR 103.3(b)), at the Bureau of Customs, Division of Regulations, Washington, D.C., during regular business hours.

[SEAL] EUGENE T. ROSSIDES,
Assistant Secretary of the Treasury.

[FR Doc.72-5388 Filed 4-6-72;8:50 am]

Internal Revenue Service

[26 CFR Part 1]

INCOME TAX

Distributions to Shareholders by Insurance Companies

Notice is hereby given that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing (preferably six copies) to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224, by May 8, 1972. Any written comments or suggestions not specifically designated as confidential in accordance with 26 CFR 601.601(b) may be inspected by any person upon written request. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Commissioner by May 8, 1972. In such case, a public hearing will be held, and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER, unless the person or persons who have requested a hearing withdraw their requests for a hearing before notice of the hearing has been filed with the Office of the Federal Register. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

[SEAL] JOHNNIE M. WALTERS,
Commissioner of Internal Revenue.

In order to conform the Income Tax Regulations (26 CFR Part 1) under section 815 of the Internal Revenue Code to reflect amendments made by sections 2 and 4, Act of September 2, 1964 (Public Law 88-571, 78 Stat. 857), section 4, Act of December 27, 1967 (Public Law 90-225, 81 Stat. 733), and section 907(b) of the Tax Reform Act of 1969 (83 Stat. 715) such regulations are amended as follows below. These amended regulations do not reflect the amendment made by section 3(a), Act of September 2, 1964 (Public Law 88-571, 78 Stat. 857).

PARAGRAPH 1. Section 1.815 is amended by revising sections 815 (a), (b), (2)(A) (ii), and (f), by adding new section 815(g), and by revising the historical note. These amended provisions read as follows:

§ 1.815 Statutory provisions; life insurance companies; distributions to shareholders.

Sec. 815. *Distribution to shareholders*—(a) *General rule.* For purposes of this section and section 802(b)(3), any distribution to shareholders after December 31, 1958, shall be treated as made—

(1) First out of the shareholders surplus account, to the extent thereof,

(2) Then out of the policyholders surplus account, to the extent thereof, and

(3) Finally out of other accounts.

(b) *Shareholders surplus account.* • • •

(2) *Additions to account.* • • •

(A) • • •

(ii) In the case of a taxable year beginning after December 31, 1958, the amount (if any) by which the net long-term capital gain exceeds the net short-term capital loss, reduced (in the case of a taxable year beginning after December 31, 1961) by the amount referred to in clause (i).

• • • • • •

(f) *Distribution defined.* For purposes of this section, the term "distribution" includes any distribution in redemption of stock or in partial or complete liquidation of the corporation, but does not include—

(1) Any distribution made by the corporation in its stock or in rights to acquire its stock;

(2) Except for purposes of subsection (a) (3) and subsection (e)(2)(B), any distribution in redemption of stock issued before 1958 which at all times on or after the date of issuance and on and before the date of redemption is limited as to dividends and is callable, at the option of the issuer, at a price not in excess of 105 percent of the sum of the issue price and the amount of any contribution to surplus made by the original purchaser at the time of his purchase;

(3) Any distribution after December 31, 1963, of the stock of a controlled corporation to which section 355 applies, if such controlled corporation is an insurance company subject to the tax imposed by section 831 and if—

(A) Control was acquired prior to January 1, 1958, or

(B) Control has been acquired after December 31, 1957—

(i) In a transaction qualifying as a reorganization under section 368(a)(1)(B), if the distributing corporation has at all times since December 31, 1957, owned stock representing not less than 50 percent of the total combined voting power of all classes of stock entitled to vote, and not less than 50 percent of the value of all classes of stock, of the controlled corporation, or

(ii) Solely in exchange for stock of the distributing corporation which stock is immediately exchanged by the controlled corporation in a transaction qualifying as a reorganization under section 368(a)(1)(A) or (C), if the controlled corporation has at all times since its organization been wholly owned by the distributing corporation and the distributing corporation has at all times since December 31, 1957, owned stock representing not less than 50 percent of the total combined voting power of all classes of stock entitled to vote, and not less than 50 percent of the value of all classes of stock, of the corporation the assets of which have been transferred to the controlled corporation in section 368(a)(1) (A) or (C) reorganization;

(4) Any distribution after December 31, 1966, of the stock of a controlled corporation to which section 355 applies, if such distribution is made to a corporation which immediately after the distribution is in control (within the meaning of section 368(c)) of both the distributing corporation and such controlled corporation and if such controlled corporation is a life insurance company of which the distributing corporation has been in control at all times since December 31, 1957; or

(5) Any distribution after December 31, 1968, of the stock of a controlled corporation to which section 355 applies, if such distribution is made to a corporation which immediately after the distribution is the owner of all of the stock of all classes of both the distributing corporation and such controlled corporation and if, immediately before the

V 37-68 APR 7 72 XUM

distribution, the distributing corporation had been the owner of all of the stock of all classes of such controlled corporation at all times since December 31, 1957.

Paragraphs (3), (4), and (5) shall not apply to that portion of the distribution of stock of the controlled corporation equal to the increase in the aggregate adjusted basis of such stock after December 31, 1957, except to the extent such increase results from an acquisition of stock in the controlled corporation in a transaction described in paragraph (3)(B). If any part of the increase in the aggregate adjusted basis of stock of the controlled corporation after December 31, 1957, results from the transfer (other than as part of a transaction described in paragraph (3)(B)) by the distributing corporation to the controlled corporation of property which has a fair market value in excess of its adjusted basis at the time of the transfer, paragraphs (3), (4), and (5) also shall not apply to that portion of the distribution equal to such excess.

(g) *Certain distributions related to former subsidiaries.* If subsection (f)(5) applied to the distribution by a life insurance company of the stock of a corporation which was a controlled corporation—

(1) Any distribution by such corporation to its shareholders (after the date of the distribution of its stock by the life insurance company), and

(2) Any disposition of the stock of such corporation by the distributee corporation, shall, for purposes of this section, be treated as a distribution to its shareholders by such life insurance company, until the amounts so treated equal the amount of the distribution of such stock which by reason of subsection (f)(5) was not included as a distribution for purposes of this section.

[Sec. 815 as added by sec. 2, Life Insurance Company Income Tax Act of 1959 (73 Stat. 129); amended by sec. 3, Act of October 10, 1962 (Public Law 87-790, 76 Stat. 808); sec. 3(b), Act of October 23, 1962 (Public Law 87-858, 76 Stat. 1136); secs. 2 and 4, Act of September 2, 1964 (Public Law 88-571, 78 Stat. 857); sec. 4, Act of December 27, 1967 (Public Law 90-225, 81 Stat. 733); sec. 907(b), Tax Reform Act, 1969 (83 Stat. 715)]

PAR. 2. Paragraph (c)(1) of § 1.815-2 is amended to read as follows:

§ 1.815-2 Distributions to shareholders.

• • • • • •

(c) *Distributions to shareholders defined.* (1) Except as otherwise provided in section 815(f) and subparagraph (2) of this paragraph, the term "distribution", as used in section 815(a) and paragraph (b) of this section, means any distribution of property made by a life insurance company to its shareholders. For purposes of the preceding sentence, the term "property" means any property (including money, securities, and indebtedness to the company) other than stock, or rights to acquire stock, in the company making the distribution. Thus, for example, the term includes a distribution which is considered a dividend under section 316, but is not limited to the extent that such distribution must be made out of the accumulated or current earnings and profits of the company making the distribution. For example, except as otherwise provided in section 815(f) and subparagraph (2) of this paragraph, there is a distribution within the meaning of this paragraph in any case in which a corporation acquires the stock of a shareholder in exchange for property in a redemption treated as a distribution in exchange for stock under section 302(a) or treated as a distribution of property under section 302(d). For special rules relating to distributions to shareholders in acquisition of stock pursuant to a plan of mutualization, see section 815(e) and paragraph (e) of § 1.815-6.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[43 CFR Part 1820]

LANDS AND MINERALS APPLICATIONS IN CALIFORNIA

Places for Execution and Filing of Forms

The purpose of this proposed amendment is to improve the efficiency of administering the public land laws and improving service to the public in regard to filing and processing public lands and minerals applications and cases in California. The proposed amendment would provide for the filing of all such applications in the Sacramento land office in furtherance of a proposal to transfer to Sacramento the responsibilities for receiving and adjudicating applications and cases now filed and processed in Riverside. Service to the public in California would be improved and expedited by having centralized filing and adjudication for the State. Uncertainty and wasted effort and time by the public as to where to file or whom to contact would be eliminated. The need for redirecting correspondence and applications to a second officer would be eliminated. All other public land States except Alaska have centralized filing and adjudication of lands and minerals applications.

The proposed amendment would also change the address of the Colorado Land Office which has been moved to a new location and would specifically identify the Fairbanks Land Office.

In accordance with the Department's policy on public participation in rule making (36 F.R. 8336) interested parties may submit written comments, suggestions, or objections with respect to the proposed rules to the Director (210), Bureau of Land Management, Washington, D.C. 20240 until 30 days.

A public meeting will be held during the period for receiving public comments and prior to publication of final rule making, in Riverside, Calif., at a time and location specified and made public by the State Director, California of the Bureau of Land Management.

Copies of comments, suggestions, or objections made pursuant to this notice will be available for public inspection in the Office of Information, Bureau of Land Management, Room 5643, Interior Building, Washington, D.C., during regular business hours (7:45 a.m.-4:15 p.m.).

Section 1821.2-1 of Subpart 1821, Title 43 of the Code of Federal Regulations is amended as follows:

1. Paragraphs (a), (b), and (c) are redesignated as (b), (c), and (d), respectively.

2. A new paragraph (a) is added to read as follows:

§ 1821.2-1 Office hours of land offices; place for filing.

(a) As used in Subchapters A, B, and C: (1) "Land offices" are the offices of the Bureau of Land Management in which applications for rights and privileges under Subchapters B and C of this title must be filed. (2) The "Washington office" of the Bureau of Land Management is headquarters for the Bureau and is located in the Interior Building, Washington, D.C. 20240. (3) "Manager" is the official in charge of a land office.

• • • • • •

3. In the list of Land offices in new paragraph (d),

(i) The name "Fairbanks District and Land Office" is changed to read "Fairbanks Land Office",

(ii) The reference to the "Riverside District and Land Office", its address, and area of jurisdiction is deleted in its entirety.

(iii) The area of jurisdiction of the Sacramento Land Office is changed from "Northern California" to "California".

(iv) The address of the Colorado Land Office is changed from "Federal Building, 1961 Stout Street" to "Colorado State Bank Building, 1600 Broadway".

(v) Footnote 2 and the diagram of California designated as "Footnote 2" is deleted.

HARRISON LOESCH,
Assistant Secretary of the Interior.

APRIL 4, 1972.

[Administrative Order 623]

INDUSTRY COMMITTEES FOR VARIOUS INDUSTRIES IN PUERTO RICO

Change in Dates of Investigation and Hearing

Administrative Order No. 622, 36 F.R. 19037, provided for the appointment of industry committees for various defined industries in Puerto Rico, including Industry Committees Nos. 110-A and 110-B, and gave notice of dates for investigations and hearings.

At the request of interested parties and pursuant to the authority given me under section 5 of the Fair Labor Standards Act of 1938 (29 U.S.C. 205), Reorganization Plan No. 6 of 1950 (3 CFR 1949-53 Comp., p. 1004) and 29 CFR Part 511, the dates of investigations and hearings of Industry Committees Nos. 110-A and 110-B set forth in section 3(c) of Administrative Order 622 are changed, as follows:

Industry Committee No. 110-A will meet in executive session to commence its investigation at 9:30 a.m. and begin its public hearing at 10:30 a.m. on Monday, May 15, 1972. Following this hearing, Industry Committee No. 110-B will immediately convene to conduct its investigation and hold its hearing.

Any interested persons wishing to participate in a hearing shall file prehearing statements by May 5, 1972, in accordance with the procedures outlined in 36 F.R. 19037.

Signed at Washington, D.C., this 30th day of March 1972.

J. D. HODGSON,
Secretary of Labor.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Public Health Service

[42 CFR Parts 71, 72]

TURTLES, TORTOISES, TERRAPINS

Prohibition of Importation; Bacteriological Testing and Certification for Interstate Shipment

The Administrator of the Health Services and Mental Health Administration with the approval of the Secretary, and the Commissioner of Food and Drugs propose to amend Parts 71 and 72 respectively of Title 42, Code of Federal Regulations, as set forth below in order to: (1) Provide a general prohibition on the importation of small pet turtles, tortoises, terrapins, and other members of the order Testudinata and (2) set bacteriological standards for such animals in interstate shipments.

Epidemiological investigations have shown that small pet turtles are a particularly significant source and reservoir of bacteria of the genus *Salmonella* and bacteria of the genus *Arizona* affecting humans. On the basis of results of these investigations, it is estimated that each year in the United States, 280,000 human cases of salmonellosis are turtle-associated. Most of these cases occur in children. While few fatalities are thought to be associated with infection acquired from turtles, the *Salmonella* and *Arizona* bacteria typically produce an acute febrile gastroenteritis (abdominal pain, nausea, fever, diarrhea) which may require hospitalization. There are also reports of associated meningitis and brain abscesses.

Each year an estimated 15,000,000 small turtles are sold as pets in the United States. Approximately 90 percent of turtles sold as pets are produced on commercial turtle farms or captured in the wild in the United States. The remaining 800,000 to 1,500,000 turtles are imported following their capture in the wild.

Turtles and their relatives are particularly well adapted hosts for *Salmonella* and *Arizona* bacteria. Characteristically, infection does not produce any apparent disease, but it may persist for long periods of time, if not for the life of the turtle. Contaminated breeding and holding environments, the practice of feeding turtles salmonella-contaminated animal offal, and transovarial transmission (infection of the egg) all serve to perpetuate the transmission cycle.

Repeated bacteriological examination of turtles collected at breeding farms, at the time of importation, and in trade consistently reveal the ubiquitous distribution of *Salmonella* and *Arizona* bacteria associated with turtles.

Considerations of public health compel: (1) Imposition of a general prohibition on the importation of small turtles and (2) provision for both the bacteriological testing and the certification of freedom from infectious diseases for small turtles shipped in interstate commerce. However, importation of small turtles and interstate shipment of uncertified small turtles for bona fide scientific purpose, or for use in educational institutions, and for exhibition, under circumstances such that the numbers of turtles are limited and the turtles are handled and maintained under conditions that minimize risks to the public health, will be permitted.

Therefore, pursuant to provisions of the Public Health Service Act (sec. 361, 58 Stat. 703; 42 U.S.C. 264) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120) and to the Administrator of the Health Services and Mental Health Administration (33 F.R. 15963), it is proposed that Parts 71 and 72 be amended as follows:

1. In Part 71, a new Subpart J-2 to be placed immediately after Subpart J-1 is proposed, as follows:

Subpart J-2—Importation of Turtles, Tortoises, Terrapins

Sec.
71.171 Definitions.
71.172 Importation; general prohibition.
71.173 Importation for scientific, educational, exhibition, or other purposes.
71.174 Application for permits.
71.175 Issuance of permits; criteria.
71.176 Penalties.

AUTHORITY: The provisions of this Subpart J issued under sec. 361, 58 Stat. 703; 42 U.S.C. 264.

§ 71.171 Definitions.

As used in this subpart:

(a) "Turtles includes all animals commonly known as turtles, tortoises, terrapins and all other animals of the Order *Testudinata*, Class *Reptilia* except marine species (Families *Dermochelidae* and *Cheloniidae*).

(b) "Director" means the Director, Center for Disease Control, Health Services, and Mental Health Administration, Department of Health, Education, and Welfare, Atlanta, Ga. 30333.

§ 71.172 Importation; general prohibition.

Except as otherwise provided in this subpart, viable turtle eggs and live turtles with a carapace length of less than 6 inches may not be imported into the United States.

§ 71.173 Importation for scientific, education, exhibition or other purposes.

Viable turtle eggs and live turtles, intended for bona fide scientific or education purposes or for exhibitions, may be imported into the United States when accompanied by a permit issued by the Director.

§ 71.174 Application for permits.

Application for permits to import viable turtle eggs and live turtles for the purposes set forth in § 71.173 shall be made by letter to the Director, and shall contain, identify, or describe the name and address of the applicant, the number of specimens and the common and scientific names of each species to be imported, the holding facilities; the intended use of the turtles following their importation, the precautions to be undertaken to prevent infection of members of the public with bacteria of the *Salmonella* and *Arizona* genera and such other information and assurances as the Director may deem necessary to protect the public health.

§ 71.175 Issuance of permits; criteria.

A permit may be issued upon a determination that the holder of the permit will isolate or otherwise confine the turtles and will take such other precautions as may be determined by the Director to be necessary to avoid infection of members of the public with salmonellosis or another communicable disease and on condition that the holder of the permit will provide such reports as may be required by the Director to protect the public health.

§ 71.176 Penalties.

Any person violating any provision of this subpart shall be subject to a fine of not more than $1,000 or imprisonment for not more than 1 year, or both, as provided in section 368 of the Public Health Service Act (42 U.S.C. 271).

2. In Part 72, the following new section is proposed:

§ 72.26 Turtles.

(a) Definitions. As used in this section, the term "turtles" includes all animals commonly known as turtles, tortoises, terrapins, and all other animals of the Order *Testudinata*, Class *Reptilia* except marine species (Families *Dermachelidae* and *Cheloniidae*).

(b) Interstate shipment; general prohibition. Except as otherwise provided in this section, viable turtle eggs and live turtles with a carapace length of less than 6 inches shall not be transported or offered for transportation in interstate traffic or sold or offered for sale after shipment in interstate commerce, unless the shipment is accompanied by a certificate issued by the State health department of the State of origin certifying

V 37-68 APR 7 72 XUM

that each shipment of turtles is free of bacteria of the *Salmonella* and *Arizona* genera.

(c) Certification; test procedures. Certification of freedom from bacteria of the *Salmonella* and *Arizona* genera may be issued by the State health department on the basis of the examination of 60 turtles or 60 turtle eggs from each shipment, regardless of the size of the shipment. The examination shall be conducted in a laboratory licensed in microbiology pursuant to section 353 of the Public Health Service Act and shall utilize the following procedure adapted from "Official Methods of Analyses of the Association of Official Analytical Chemists," 11th edition, sections 41.024–41.040, pages 845–852:

(1) Place five turtles in each of 12 sterile glass containers with a capacity of 1,000 milliliters.

(2) Add 50 milliliters of sterile distilled water to each of the containers of turtles.

(3) Cover the container with sterile aluminum foil and hold the turtles in the containers at room temperature (25° C.) for 72 hours.

(4) Do not remove the foil cover or add food, water, or other materials to the container during the holding period.

(5) After 72 hours remove the turtles from the containers using a sterile forcep.

(6) Place 1 milliliter of the residual water from each of the 12 beakers into 10 milliliters of tetrathionate broth (with iodine and brilliant green) and incubate for 24 hours at 37° C.

(7) After 24 hours incubation, subculture each of the 12 tetrathionate enrichment cultures to Brilliant Green agar and complete isolation and identification according to methods specified in "Official Methods of Analysis of the Association of Official Analytical Chemists," 11th edition, sections 41.024–41.040, pages 845–852.

(8) In the examination of turtle eggs, rinse 60 eggs with sterile distilled water to remove visible extraneous matter from the shells. Place the 60 cleansed eggs into a sterile blender cup. Replace blender lid and homogenize eggs for 2 minutes at low speed. Transfer 1 milliliter of the blended egg material into 10 milliliters of tetrathionate broth, and proceed as in subparagraphs (6) and (7) of this paragraph.

(9) Upon completion of the laboratory examination, the examining laboratory shall submit a report to the State Health Officer, or his delegated representative. The laboratory report shall specify the name and address of the producer or shipper (consignee) and of the consignor, the number and species of turtles intended for interstate shipment, and the results of the examination, and it shall be signed by the examining microbiologist or director of the examining laboratory. Certification of freedom from bacteria of the *Salmonella* and *Arizona* genera may be issued if, to the satisfaction of the State health department, the laboratory examination has been performed according to the procedure specified in this section, and all specimens examined were free of bacteria of the *Salmonella* and *Arizona* genera.

(d) Interstate shipment for scientific, education, exhibition or other purposes. Viable turtle eggs and live turtles, intended for bona fide scientific or education purposes or for exhibitions are exempted from this regulation.

Interested persons may, within 60 days after publication hereof in the FEDERAL REGISTER, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6–88, 5600 Fishers Lane, Rockville, Md. 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: March 31, 1972.

VERNON E. WILSON,
Administrator, Health Services and Mental Health Administration.

Approved: April 4, 1972.

ELLIOT L. RICHARDSON,
Secretary.

Dated: March 31, 1972.

CHARLES C. EDWARDS,
Commissioner, Food and Drug Administration.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 72–SW–19]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations to designate a 700-foot transition area at Rocksprings, Tex.

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to Chief, Airspace and Procedures Branch, Southwest Region, Federal Aviation Administration, Post Office Box 1689, Fort Worth, TX 76101. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Tex. An informal docket will also be available for examination at the Office of the Chief, Air Traffic Division.

It is proposed to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth.

In § 71.181 (37 F.R. 2143), the following transition area is added:

ROCKSPRINGS, TEX.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Edwards County Airport (latitude 29°56'30" N., longitude 100°10'30" W.) and within 1.5 miles each side of the Rocksprings VORTAC 105° radial (115° magnetic radial) extending from the 5-mile radius area to the Rocksprings VORTAC.

The proposed transition area will provide controlled airspace for aircraft executing approach/departure procedures proposed at the Edwards County Airport, Rocksprings, Tex.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Fort Worth, Tex., on March 30, 1972.

R. V. REYNOLDS,
Acting Director, Southwest Region.

[FR Doc.72–5330 Filed 4–6–72;8:46 am]

[Airspace Docket No. 72–SW–20]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations to designate a 700-foot transition area at Llano, Tex.

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to Chief, Airspace and Procedures Branch, Southwest Region, Federal Aviation Administration, Post Office Box 1689, Forth Worth, TX 76101. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Tex. An informal docket will also be available for examination at the Office of the Chief, Air Traffic Division.

It is proposed to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth.

In § 71.181 (37 F.R. 2143), the following transition area is added:

LLANO, TEX.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Llano Municipal Airport (latitude 30°46'30" N., longitude 98°39'30" W.) and within 2 miles each side of the Llano VOR TAC 100° radial (091° magnetic radial) extending from the 5-mile radius area to the Llano VORTAC.

The proposed transition area will provide controlled airspace for aircraft executing approach/departure procedures proposed at the Llano Municipal Airport, Llano, Tex.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Fort Worth, Tex., on March 30, 1972.

R. V. REYNOLDS,
Acting Director, Southwest Region.

Notices

DEPARTMENT OF THE TREASURY

Bureau of Customs

DRYCLEANING MACHINERY FROM WEST GERMANY

Withholding of Appraisement Notice

Information was received on March 12, 1971, that drycleaning machinery from West Germany was being sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.) (referred to in this notice as "the Act"). This information was the subject of an "Antidumping Proceeding Notice" which was published in the FEDERAL REGISTER of May 28, 1971, on page 9788. The "Antidumping Proceeding Notice" indicated that there was evidence on record concerning injury to or likelihood of injury to or prevention of establishment of an industry in the United States.

Pursuant to section 201(b) of the Act (19 U.S.C. 160(b)), notice is hereby given that there are reasonable grounds to believe or suspect that the exporter's sales price (section 204 of the Act; 19 U.S.C. 163) of drycleaning machinery from West Germany is less, or likely to be less, than the foreign market value (section 205 of the Act; 19 U.S.C. 164).

Statement of reasons. Information currently before the Bureau tends to indicate that the probable basis of comparison will be between exporter's sales price and home market price of such merchandise.

Preliminary analysis suggests that exporter's sales price will probably be calculated by deducting from the f.o.b. New York, N.Y., price the following; Distributor's discount, selling expenses, customs brokerage charge, ocean freight, marine insurance, freight to warehouse in United States, U.S. duty, and foreign inland shipping charge. Appropriate additions probably will also be made for taxes rebated or not collected by reason of exportation.

It appears that home market price will be based on an exfactory price with deductions made for cash discount and distributor's commission. Adjustments probably will be made for warranty cost, start-up cost, inspection cost and differences in packing, as appropriate.

Using the above criteria, there are reasonable grounds to believe or suspect that exporter's sales price will be lower than home market price.

Customs officers are being directed to withhold appraisement of drycleaning machinery from West Germany in accordance with § 153.48, Customs regulations (19 CFR 153.48).

In accordance with §§ 153.32(b) and 153.37, Customs regulations (19 CFR 153.32(b), 153.37), interested parties may present written views or arguments, or request in writing that the Secretary of the Treasury afford an opportunity to present oral views.

Any request that the Secretary of the Treasury afford an opportunity to present oral views should be addressed to the Commissioner of Customs, 2100 K Street NW., Washington, DC 20226, in time to be received by his office not later than 10 calendar days from the date of publication of this notice in the FEDERAL REGISTER.

Any written views or arguments should likewise be addressed to the Commissioner of Customs in time to be received by his office not later than 30 days from the date of publication of this notice in the FEDERAL REGISTER.

This notice, which is published pursuant to § 153.34(b), Customs regulations, shall become effective upon publication in the FEDERAL REGISTER (4–7–72). It shall cease to be effective at the expiration of 6 months from the date of this publication, unless previously revoked.

[SEAL] EDWIN F. RAINS,
Acting Commissioner of Customs.

Approved: March 29, 1972.

EUGENE T. ROSSIDES,
Assistant Secretary of the Treasury.

DEPARTMENT OF THE INTERIOR

Alaska Power Administration

ENVIRONMENTAL STATEMENTS

Issuance of Procedures for Preparation

Notice is hereby given of the publication of procedures of the Alaska Power Administration to implement the policy and directives of section 102(2)(C) of the National Environmental Policy Act of 1969 (Public Law 91–190, 83 Stat. 852, January 1, 1970); section 2(f) of Executive Order 11514 (March 5, 1970); the guidelines issued by the Council on Environmental Quality (36 F.R. 7724, April 23, 1971); the Office of Management and Budget Bulletin No. 72–6 (September 14, 1971).

The procedures are set forth below.

ROBERT W. WARD,
Administrator.

APRIL 1, 1972.

PROCEDURES FOR ENVIRONMENTAL STATEMENTS UNDER SECTION 102(2)(C) OF NATIONAL ENVIRONMENTAL POLICY ACT

Purpose. These procedures will be followed by the Alaska Power Administration in the preparation of environmental statements in compliance with section 102(2)(C) of the National Environmental Policy Act of 1969 (Public Law 91–190) and section 2(f) of Executive Order 11514. In all instances, the guidelines of the Council on Environmental Quality, dated April 23, 1971, subsequent guidelines by the Council, and the instructions of the Interior Department Manual, Part 516, will be followed. These procedures are in effect as of April 1, 1972, and they supersede the previous edition dated October 20, 1971.

Authority. The Departmental Manual, 516 DM 2.4F, provides that the Administrator shall:

(1) Identify those actions requiring environmental statements and consult with the Assistant Secretary—Program Policy for guidance and direction;

(2) Designate those officials responsible for preparing such statements;

(3) Transmit the proposed draft and final environmental statements through the Assistant Secretary for Water and Power Resources to the Assistant Secretary—Program Policy;

(4) Prepare formal procedures implementing Departmental Instructions (516 DM 2) and identifying the role of the environmental statement in the review and decision-making process of Alaska Power Administration.

The Departmental Manual, 516 DM 2.4G, provides that officials responsible for preparing environmental statements shall:

(1) Obtain the information needed for the preparation of environmental statements;

(2) Consult with appropriate bureaus and offices; other Federal agencies; and other appropriate sources of special environmental expertise not available within the Alaska Power Administration;

(3) Prepare proposed draft environmental statements and insure that they fully consider and reflect the information obtained;

(4) Transmit copies of draft environmental statements, as cleared by the Assistant Secretary—Program Policy, to Federal agencies with jurisdiction by law or special environmental expertise, to State and local agencies authorized to develop or enforce environmental standards, and to private organizations with an expressed or known interest in the proposal;

(5) Give public notice of the availability of draft environmental statements and invite comments;

(6) Consult with all bureaus and offices and other Federal agencies submitting comments, where appropriate;

(7) Prepare proposed final environmental statements and insure that all relevant comments are considered therein;

(8) Transmit copies of final environmental statements, as cleared by the Assistant Secretary—Program Policy, to all bureaus and offices; other Federal, State, and local agencies; and private organizations from whom comments were solicited and received.

Determination of major actions requiring environmental statements. The criteria in 516 DM 2.5 require no elaboration.

The Administrator will make the determination to proceed with preparation of environmental statements. The Division Officers will identify actions within their program areas which may require environmental statements and make appropriate recommendations to the Administrator. This will include a program schedule for environmental statements in order to insure adequate lead time. This will be keyed to the annual cycle of program and budget documents.

All programs and actions will be assessed for environmental impact.

(1) The following types of activities will generally require environmental statements:

(a) Reports intended as a basis for Congressional authorization of water and related projects;

(b) Major modification or extension of existing projects, such as new transmission lines or major relocation of lines.

(2) The following types of activities will rarely require environmental statements:

(a) Routine operation and maintenance activities;

(b) Minor replacements and relocations;

(c) Power marketing contracts;

(d) Reconnaissance-type investigations reports.

(3) All other programs and activities shall be individually assessed by Division Officers and recommendations for determinations made to the Administrator.

Officials responsible for preparing statements. Upon determining that an environmental statement is needed, the Administrator will assign responsibility for preparation of the statement. The assignment will include responsibility for the various steps in preparing the statement and coordination within the Alaska Power Administration.

Procedures for obtaining information for draft environmental statements. Such information requirements will be determined as a normal part of programming and scheduling project reports or other actions requiring environmental statements.

The designated official will first determine the types and availability of information needed and whether new studies are required to provide the information. Such determination will be based on consultations with appropriate Federal, State, and local agencies and will be considered in scheduling the environmental statement.

Preparation and circulation of draft statements and consultation with other agencies. The format and content of the environmental statement will be responsive to 516 DM 2.6, "Content of Environmental Statements."

During preparation of the draft statement, the designated official will solicit informal comments and viewpoints from those individuals, offices, and agencies that have special knowledge or expertise regarding environmental impact of the proposed action. Inputs and comments received at this stage are for the purpose of technical assistance in preparing the draft statement and shall be considered informal.

The determination of those to be consulted during preparation of the draft statement will be based on the input and assistance needed to prepare draft statements that are fully responsive to the law.

Draft environmental statements will be processed by Alaska Power Administration headquarters as follows:

(1) Fifteen copies of the draft statement, accompanied by a notice of availability, will be transmitted through the Assistant Secretary for Water and Power Resources to the Assistant Secretary—Program Policy. (516 DM 2.9F provides that the Assistant Secretary—Program Policy shall clear the statement, transmit the statement to Council on Environmental Quality, handle FEDERAL REGISTER notification and notify Alaska Power Administration of these actions.)

(2) After the draft statement is cleared, Alaska Power Administration will make formal distributions to reviewing entities as follows:

(a) At least one copy will be circulated to all Departmental bureaus and offices which have jurisdiction by law or special environmental expertise pertinent to the proposed action.

(b) Section 7 and Appendix II of the CEQ Guidelines will be used to determine those Federal and Federal-State agencies from which consultations and comments are to be solicited. Formal draft statements will be sent to the appropriate offices indicated in Appendix III of the CEQ Guidelines for official agency review and comment. Periods for reply are specified in 516 DM 2.7B.

(c) Alternative procedures are available for obtaining State and local agency review and comment as specified in 516 DM 2.7C.

(3) A complete and accurate log shall be kept of all commente received on draft environmental statements and all review comments on draft environmental statements shall be available to the public on request.

Preparation and processing of final statement. The final statement will take into account the views and comments received on the formal draft statement. It will detail the extent, if any, that recommendations of concerned agencies and individuals could not be accommodated.

In addition to appropriate environmental assessments, evaluations, or reports prepared by applicants or consultants, attachments to final environmental statements shall include all written responses from:

(1) Bureaus and offices with delegated jurisdiction or special environmental expertise;

(2) Other Federal agencies with jurisdiction by law or special environmental expertise;

(3) State and local agencies which are authorized to develop and enforce environmental standards;

(4) Responsible private organizations and associations which represent the opinions of wider groups concerning the proposed action of its environmental impact;

(5) Recognized experts.

Final environmental statements will be processed by Alaska Power Administration headquarters as follows:

(1) Fifteen copies of the statement, accompanied by a notice of availability, will be transmitted through the Assistant Secretary for Water and Power Resources to the Assistant Secretary—Program Policy. (516 DM 2.9F provides that the Assistant Secretary—Program Policy shall endorse the statement, transmit it to CEQ, and handle Federal Register notification.)

(2) After the final statement is endorsed, APA will distribute the statement to all bureaus, offices, agencies, and organizations from whom comments were received.

Public participation. Guidelines for providing timely information to the public and providing draft statements to the public in advance of public hearings are set out in 516 DM 2.8. Draft and final environmental statements, including comments received thereon, will be made available to the public at the following locations:

(1) The Department of the Interior Office of Communications;

(2) The Alaska Power Administration headquarters;

(3) The State of Alaska Division of Planning and Research, Office of the Governor, or such other location designated by the Governor;

(4) One or more local public meeting places in the immediate vicinity of the proposed action, if appropriate.

In addition to the FEDERAL REGISTER publication, notice of availability of statements and of hearings will be given by advertisements in newspapers having general circulation in the affected areas.

A complete record of any hearings, draft and final environmental statements, and all comments received shall be made available for public inspection at APA headquarters.

Maritime Administration

[Report No. 117]

LIST OF FREE WORLD AND POLISH FLAG VESSELS ARRIVING IN CUBA SINCE JANUARY 1, 1963

SECTION 1. The Maritime Administration is making available to the appropriate Departments the following list of vessels which have arrived in Cuba since January 1, 1963, based on information received through December 31, 1971, exclusive of those vessels that called on Cuba on U.S. Government-approved noncommercial voyages and those listed in section 2. Pursuant to established U.S. Government policy, the listed vessels are ineligible to carry U.S. Government-financed cargoes from the United States.

SEC. 2. In accordance with approved procedures, the vessels listed below which called at Cuba after January 1, 1963, have reacquired eligibility to carry U.S. Government-financed cargoes from the United States by virtue of the persons who control the vessels having given satisfactory certification and assurance:

(a) That such vessels will not, thenceforth, be employed in the Cuban trade so long as it remains the policy of the U.S. Government to discourage such trade; and

(b) That no other vessels under their control will thenceforth be employed in the Cuban trade, except as provided in paragraph (c); and

(c) That vessels under their control which are covered by contractual obligations, including charters, entered into prior to December 16, 1963, requiring their employment in the Cuban trade shall be withdrawn from such trade at the earliest opportunity consistent with such contractual obligations.*

ATOMIC ENERGY COMMISSION

[Dockets Nos. 50-254, 50-265]

COMMONWEALTH EDISON CO. AND IOWA-ILLINOIS GAS AND ELECTRIC CO.

Notice of Issuance of Amendment to Facility Operating License and Issuance of Facility Operating License

On March 16, 1971, a notice of AEC consideration of issuance of facility operating licenses for possession and operation of the Quad-Cities Nuclear Power Station Units 1 and 2 was published in the FEDERAL REGISTER (36 F.R. 5008). That notice proposed the issuance of facility operating licenses to Commonwealth Edison Co. and Iowa-Illinois Gas and Electric Co. for possession, use and operation of the Quad-Cities Nuclear Power Station Units 1 and 2 (both being single cycle, boiling water reactors located in Rock Island County, Ill.) at steady State power levels up to 2,511 megawatts (thermal) for each unit.

V 37-68 APR 7 72 XUM

Construction of Unit No. 1 having been substantially completed in accordance with Construction Permit No. CPPR–23 and the provisions of Commission regulations, facility operating license No. DPR–29 was issued October 1, 1971, for operation of Unit No. 1 at power levels up to 25 megawatts (thermal) for fuel loading and low power testing.

Further Commission action on the licensing of both Unit 1 and Unit 2 was delayed as a result of litigation brought by the Attorney General of Illinois and the Isaak Walton League, et al. (U.S. District Court for the District of Columbia Civil Actions Nos. 2207–71 and 2208–71).

The Commonwealth Edison Co. and the parties in the suit reached an agreement on March 27, 1972, and the litigation has been dismissed permitting the licensing action taken by the Commission described in this notice.

Accordingly, no request for a hearing by the applicants or petition for leave to intervene by any interested person having been filed following publication on March 16, 1971, of the notice of AEC consideration of issuance of facility operating licenses, the Commission has issued Amendment No. 2 to facility operating license No. DPR–29 for Unit No. 1 and has issued facility operating license No. DPR–30 for Unit No. 2 to Commonwealth Edison Co. and Iowa-Illinois Gas and Electric Co. The license amendment and the license, effective as of the date of issuance, authorize Commonwealth Edison Co. (acting for itself and Iowa-Illinois Gas and Electric Co.) to possess, use and operate the Quad-Cities Nuclear Power Station Units 1 and 2 each at power levels up to 502 megawatts (thermal), 20 percent of each Unit's rated power, in accordance with the Technical Specifications issued for Unit 1 dated October 1, 1971 and the licenses. Both licenses will expire June 1, 1972, unless extended for good cause shown or upon earlier issuance of a superseding licensing action.

The Commission has inspected the Quad-Cities Nuclear Power Station and has determined that Unit 1 and Unit 2 have been constructed in accordance with the application, as amended, and the provisions of Provisional Construction Permit Nos. CPPR–23 and CPPR–24. The licensees have submitted proof of financial protection in satisfaction of the requirements of 10 CFR Part 140.

The Director of Regulation has made the findings set forth in the amendment and the license and has concluded that the application for construction permits and facility licenses, as amended, complies with the requirements of the Atomic Energy Act of 1954, as amended, and the Commission's regulations in 10 CFR Chapter I, and the issuance of the license amendment and license will not be inimical to the common defense and security or to the health and safety of the public.

For further information concerning these actions, see copies of the following items which are available for public inspection at the Commission's Public Document Room at 1717 H Street NW., Washington, DC, and at the Moline Public Library at 504 17th Street, Moline, IL 61265: (1) Amendment No. 2 to Facility Operating License No. DPR–29, (2) Facility Operating License No. DPR–30, (3) the Technical Specifications for Quad-Cities Station Units 1 and 2, (4) Commonwealth Edison Co.'s letters dated October 12, 1971, October 28, 1971, and November 10, 1971, (5) the Division of Reactor Licensing's Safety Evaluation for the Quad-Cities Station Units 1 and 2 dated August 25, 1971, (6) the report of the Advisory Committee on Reactor Safeguards on the Quad-Cities Station Units 1 and 2 dated March 9, 1971, (7) the Discussion and Conclusions pursuant to Appendix D of 10 CFR Part 50, Supporting the Issuance of Licenses, for 20 percent operation of Units 1 and 2 dated January 24, 1972, and Supplement No. 1 thereto dated March 31, 1972, and (8) the Commission's Draft Detailed Statement of Environmental Considerations dated March 6, 1972 (published in F.R. March 9, 1972, 37 F.R. 5073). A copy of each of the above items, except for item (4), may be obtained upon request addressed to the Atomic Energy Commission, Washington, D.C. 20545, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Md., this 31st day of March 1972.

For the Atomic Energy Commission.

PETER A. MORRIS,
Director,
Division of Reactor Licensing.

[FR Doc.72–5355 Filed 4–6–72;8:48 am]

[Dockets Nos. 50–329, 50–330]

CONSUMERS POWER CO.

Notice of Availability of Final Statement on Environmental Considerations

Pursuant to the National Environmental Policy Act of 1969 and the Atomic Energy Commission's regulations in Appendix D to 10 CFR Part 50, notice is hereby given that a document entitled "Final Statement on Environmental Considerations by the Division of Radiological and Environmental Protection, U.S. Atomic Energy Commission, Related to Construction of the Midland Plant, Units 1 and 2," is being placed in the following locations where it will be available for inspection by members of the public: the Commission's Public Document Room at 1717 H Street NW., Washington, DC 20545, and in the Grace Dow Memorial Library, 1710 West St. Andrews Road, Midland, MI 48640. The report is also being made available at the Office of Planning Coordination, Executive Office of the Governor, Lewis Cass Building, Lansing, Mich. 48913.

The notice of availability of the Draft Detailed Statement for the Midland Plant and request for comments from interested persons was published in the FEDERAL REGISTER on January 11, 1972, 36 F.R. 410. The comments received from Federal, State, local officials and interested members of the public have been included as appendices to the Final Statement.

Single copies of the statement may be obtained by writing the Director, Division of Radiological and Environmental Protection, U.S. Atomic Energy Commission, Washington, D.C. 20545.

Dated at Bethesda, Md., this 31st day of March 1972.

For the Atomic Energy Commission.

RICHARD C. DEYOUNG,
Assistant Director for Pressurized Water Reactors, Division of Reactor Licensing.

[FR Doc.72–5321 Filed 4–6–72;8:45 am]

STATE OF NEVADA

Proposed Agreement for Assumption of Certain AEC Regulatory Authority.

Notice is hereby given that the U.S. Atomic Energy Commission is publishing for public comment, prior to action thereon, a proposed agreement received from the Governor of the State of Nevada for the assumption of certain of the Commission's regulatory authority pursuant to section 274 of the Atomic Energy Act of 1954, as amended.

A narrative, prepared by the State of Nevada and describing the State's proposed program for control over sources of radiation, is set forth below as an appendix to this notice. A copy of the program narrative, including the referenced appendices, appropriate State legislation and Nevada regulations, is available for public inspection in the Commission's Public Document Room, 1717 H Street NW., Washington, DC, or may be obtained by writing to the Director, Division of State and Licensee Relations, U.S. Atomic Energy Commission, Washington, D.C. 20545. All interested persons desiring to submit comments and suggestions for the consideration of the Commission in connection with the proposed agreement should send them, in triplicate, to the Secretary, U.S. Atomic Energy Commission, Washington, D.C. 20545. Attention: Chief, Public Proceedings Branch, within 30 days after initial publication of this notice in the FEDERAL REGISTER.

Exemptions from the Commission's regulatory authority which would implement this proposed agreement, have been published in the FEDERAL REGISTER and codified as Part 150 of the Commission's regulations in Title 10 of the Code of Federal Regulations.

Dated at Germantown, Md., this 27th day of March 1972.

For the Atomic Energy Commission.

W. B. McCOOL,
Secretary of the Commission.

PROPOSED AGREEMENT BETWEEN THE UNITED STATES ATOMIC ENERGY COMMISSION AND THE STATE OF NEVADA FOR DISCONTINUANCE OF CERTAIN COMMISSION REGULATORY AUTHORITY AND RESPONSIBILITY WITHIN THE STATE PURSUANT TO SECTION 274 OF THE ATOMIC ENERGY ACT OF 1954, AS AMENDED

Whereas, the U.S. Atomic Energy Commission (hereinafter referred to as the Commission) is authorized under Section 274 of the Atomic Energy Act of 1954, as amended (hereinafter referred to as the Act), to enter into agreements with the Governor of any State providing for discontinuance of the regulatory authority of the Commission within the State under Chapters 6, 7, and 8, and Section 161 of the Act with respect to byproduct materials, source materials, and special nuclear materials in quantities not sufficient to form a critical mass; and

Whereas, the Governor of the State of Nevada is authorized under Nevada Revised Statutes 459.060 to enter into this Agreement with the Commission; and

Whereas, the Governor of the State of Nevada certified on March 9, 1972, that the State of Nevada (hereinafter referred to as the State) has a program for the control of radiation hazards adequate to protect the public health and safety with respect to the materials within the State covered by this Agreement, and that the State desires to assume regulatory responsibility for such materials; and

Whereas, the Commission found on ---------- that the program of the State for the regulation of the materials covered by this Agreement is compatible with the Commission's program for the regulation of such materials and is adequate to protect the public health and safety; and

Whereas, the State and the Commission recognize the desirability and importance of cooperation between the Commission and the State in the formulation of standards for protection against hazards of radiation and in assuring that State and Commission programs for protection against hazards of radiation will be coordinated and compatible; and

Whereas, the Commission and the State recognize the desirability of reciprocal recognition of licenses and exemptions from licensing of those materials subject to this Agreement; and

Whereas, this Agreement is entered into pursuant to the provisions of the Atomic Energy Act of 1954, as amended;

Now, therefore, it is hereby agreed between the Commission and the Governor of the State, acting in behalf of the State, as follows:

ARTICLE I

Subject to the exceptions provided in Articles II, III, and IV, the Commission shall discontinue, as of the effective date of this Agreement, the regulatory authority of the Commission in the State under Chapters 6, 7, and 8, and Section 161 of the Act with respect to the following materials:

A. Byproduct materials;

B. Source materials; and

C. Special nuclear materials in quantities not sufficient to form a critical mass.

ARTICLE II

This Agreement does not provide for discontinuance of any authority and the Commission shall retain authority and responsibility with respect to regulation of:

A. The construction and operation of any production or utilization facility;

B. The export from or import into the United States of byproduct, source, or special nuclear material, or of any production or utilization facility;

C. The disposal into the ocean or sea of byproduct, source, or special nuclear waste materials as defined in regulations or orders of the Commission;

D. The disposal of such other byproduct, source, or special nuclear material as the Commission from time to time determines by regulation or order should, because of the hazards or potential hazards thereof, not be so disposed of without a license from the Commission.

ARTICLE III

Notwithstanding this Agreement, the Commission may from time to time by rule, regulation, or order, require that the manufacturer, processor, or producer of any equipment, device, commodity, or other product containing source, byproduct, or special nuclear material shall not transfer possession or control of such product except pursuant to a license or an exemption from licensing issued by the Commission.

ARTICLE IV

This Agreement shall not affect the authority of the Commission under subsection 161 b. or i. of the Act to issue rules, regulations, or orders to protect the common defense and security, to protect restricted data or to guard against the loss or diversion of special nuclear material.

ARTICLE V

The Commission will use its best efforts to cooperate with the State and other agreement States in the formulation of standards and regulatory programs of the State and the Commission for protection against hazards of radiation and to assure that State and Commission programs for protection against hazards of radiation will be coordinated and compatible. The State will use its best efforts to cooperate with the Commission and other agreement States in the formulation of standards and regulatory programs of the State and the Commission for protection against hazards of radiation and to assure that the State's program will continue to be compatible with the program of the Commission for the regulation of like materials. The State and the Commission will use their best efforts to keep each other informed of proposed changes in their respective rules and regulations and licensing, inspection and enforcement policies and criteria, and to obtain the comments and assistance of the other party thereon.

ARTICLE VI

The Commission and the State agree that it is desirable to provide for reciprocal recognition of licenses for the materials listed in Article I licensed by the other party or by any agreement State. Accordingly, the Commission and the State agree to use their best efforts to develop appropriate rules, regulations, and procedures by which such reciprocity will be accorded.

ARTICLE VII

The Commission, upon its own initiative after reasonable notice and opportunity for hearing to the State, or upon request of the Governor of the State, may terminate or suspend this Agreement and reassert the licensing and regulatory authority vested in it under the Act if the Commission finds that such termination or suspension is required to protect the public health and safety.

ARTICLE VIII

This Agreement shall become effective on July 1, 1972, and shall remain in effect unless and until such time as it is terminated pursuant to Article VII.

Done at ----------, State of Nevada, in triplicate, this ------ day of ----------, 1972.

For the U.S. Atomic Energy Commission.

For the State of Nevada.

MIKE O'CALLAGHAN, *Governor.*

FOREWORD

The State of Nevada, while recognizing that the scientific, medical, and industrial usages of atomic energy can be beneficial to its citizens, is also cognizant of the hazards inherent to ionizing radiation. With these hazards in mind, and considering that the State is ever committed to the protection of public health and safety, the Nevada State Legislature enacted the Nuclear Affairs Act.

This Act, and supplemental legislation, provides the legal structure for a comprehensive radiological health and regulatory program compatible with that of the U.S. Atomic Energy Commission and that of those States who have entered into agreement with the Commission.

The Act authorizes the Governor, on behalf of the State, to enter into an agreement with the Federal Government providing for discontinuance of certain responsibilities of the Federal Government relating to ionizing radiation and the assumption of such responsibilities by the State. The Act also designates the Nevada State Board of Health as the radiation control agency for the State.

The following narrative relates the history, current practices, proposed activities, capabilities, and resources of the State in the field of radiological health.

HISTORY

1931 The State Legislature passed a law prohibiting the use of X-rays for the treatment of the scalp or for the removal of surplus hair by cosmetologists (NRS 644.470).

1950–60 One State employee attended a U.S. Atomic Energy Commission sponsored Health Physics Course at Oak Ridge, Tenn.

A laboratory radiation counter was purchased for the purpose of determining background levels from selected stations within the State.

A course for Radiological Defense Instructors was given to personnel from State, county, and city organizations by State Health Division personnel.

A law was passed in 1960 preventing the operation or maintenance of any shoe-fitting device using fluoroscopic or radiation principles (NRS 202.245).

1961–62 During this period, a medical and dental X-ray survey of diagnostic X-ray machines in the State was conducted. This survey, which was voluntary and performed only in those installations requesting it, was accomplished by teams composed of U.S. Public Health Service and State Health Division personnel. The primary objectives of the survey were to check collimation and filtration of the X-ray units and make recommendations where necessary.

Regulations governing the manufacture, use, storage, handling, transportation and disposal of ionizing radiation producing devices and materials were prepared for and adopted by the Nevada State Board of Health in January 1962. The regulations provided standards to assure minimum exposure to personnel handling or working with ionizing radiation producing devices and materials and to the general public.

Acquisition of Federal land near Beatty, Nev. was authorized for lease to Nuclear Engineering Co. as a low-level, solid radioactive waste burial site.

The first phase of a program to establish a Radiological Defense Organization for the

V 37-68 APR 7 72 XUM

Nevada Civil Defense Agency was also completed during this period. This phase entailed training of Highway Department and Highway Patrol personnel as radiation monitors in the event of nuclear war. All Highway Maintenance Stations, Highway District Headquarters, Highway Patrol Stations, and approximately half of the Highway Patrol vehicles were supplied with radiation monitoring instruments.

1963–64 During this period, training and refresher courses for radiological monitors for the Civil Defense Agency were continued. Most of this training was directed at State employees. Establishment of 167 radiological fallout monitoring stations provided with 1,000 radiation detection instruments was completed. Maintenance of the radiation detection instruments was improved by the acquisition of Federal funds for a maintenance shop and technicians' salaries.

In 1963, the State Radiation Control Act was adopted for the control of ionizing radiation within the State, and enabling the State to enter into an agreement with the Federal Government to assume responsibilities relating to sources of ionizing radiation previously the responsibility of the Federal Government (NRS 459.010 to 459.160, inclusive).

Two employees attended a U.S. Atomic Energy Commission orientation class for agreement States and two employees attended a U.S. Public Health Service course on gamma spectroscopy during this period.

A voluntary resurvey of medical diagnostic X-ray units was made during June and July, 1964 by U.S. Public Health Service teams.

1965–66 State personnel surveyed all new or relocated X-ray machines. In the 2-year period, 123 new or relocated X-ray tubes in medical and dental facilities were inspected.

Participation in U.S. Public Health Service environmental programs included collecting representative portions of meals served at the State Children's Home in Carson City for analysis by the Southwest Radiological Health Laboratory at Las Vegas. Analysis for fission product residue was performed to determine the contribution of diets to radionuclide body burden for the general public. All of the milk sheds in the State were sampled monthly for a similar analysis.

1969–70 In 1969, the text of the Western Interstate Nuclear Compact was enacted into law (NRS 459.200 to 459.240, inclusive). The Compact provides for a cooperative effort in nuclear and related fields to enhance the economy of the West and contribute to the individual and community well-being of the region's people.

The State Superintendent of Public Instruction and all county supervisors were apprized of the hazards involved due to the use of cold cathode gas discharge tubes.

State personnel accompanied U.S. Atomic Energy Commission compliance inspectors on inspections of AEC-licensed facilities within the State during this biennium, as they have on many previous occasions.

1971 In 1971, legislation was passed controlling air pollution and water pollution (respectively, NRS 445.401 to 445.601, inclusive; and NRS 445.130 to 445.385, inclusive). The Commission of Environmental Protection was created by this legislation as the controlling agency for air and water pollution.

PRESENT PROGRAM

Two full-time radiation control specialists were hired by the State in September, 1971, to implement the radiation control program. Their major efforts up to this time have been the preparation of radiation control regulations, activities to enable the State to become an agreement State with the U.S. Atomic Energy Commission, participation in several lengthy training courses sponsored by the U.S. Atomic Energy Commission and the Environmental Protection Agency, and on-the-job training.

SCOPE OF ACTIVITIES

The radiation control program encompasses the regulatory program associated with licensing of radioactive materials and registration of radiation producing machines, environmental surveillance, and response to emergency situations involving sources of radiation.

Within the State of Nevada, there are an estimated 388 X-ray machines: 188 dental units; 200 medical units, fluoroscopic and diagnostic; and six reported for industrial radiography. The number of U.S. Atomic Energy Commission Licenses within the State of Nevada in effect January 1, 1972, reported using radium sources is eight: Four medical, three industrial and one institutional. There are an estimated five particle accelerators being used, with two accelerators to begin routine operation in the latter part of 1972.

There are few installations which may necessitate environmental surveillance activities. A research reactor is operable at the University of Nevada, Reno; a commercial burial site for low-level radioactive waste is located at Beatty, Nev.; and the Nevada Test Site.

STATUTORY AUTHORITY

The following Nevada Revised Statutes (NRS) provide for the Governor to enter into an agreement with the U.S. Atomic Energy Commission, administrative procedures, authority to promulgate regulations, enforcement of regulations, administration of public health, special prohibited uses of ionizing radiation, and mutual aid in the event of nuclear incident.

NRS 459.010–459.160, inclusive, "State Radiation Control." This statute provides for Federal-State agreements concerning the responsibility for control of sources of ionizing radiation, designates the State Board of Health as the State radiation control agency, and provides the basis for radiation control.

NRS 459.200. "Western Interstate Nuclear Compact." Article VI of this statute provides for mutual aid between party States in the event of a nuclear incident.

NRS 233B. "Nevada Administrative Procedures Act." This Act establishes minimum procedural requirements for regulation-making and adjudication procedures of all agencies of the executive department of the State government and for judicial review of both functions. The provisions of the law are intended to supplement statutes applicable to specific agencies.

NRS 439. "Administration of Public Health." 439.130 requires the State Health Officer to enforce all laws and regulations pertaining to public health and empowers him to enter upon and inspect any public or private property in the State in the course of his work, and authorizes subordinates to act in his place and stead.

439.150 declares that the State Board of Health be supreme in all health matters except administrative matters and that it shall have supervision over the work of the State Health Officer.

439.200 declares that the State Board of Health shall have the power to adopt, promulgate, amend and enforce reasonable rules and regulations consistent with law and that such rules and regulations shall have the force and effect of law and shall supersede all local ordinances and regulations enacted inconsistent therewith.

NRS 202.245, states that no person may operate or maintain any shoe-fitting device or shoe-fitting machine which uses fluoroscopic, X-ray, or radiation principles.

NRS 644.470, prohibits the use of any X-ray machine by cosmetologists in the treatment of the scalp or in the removal of surplus hair.

NRS 445.130 to 445.385, inclusive, provides for the control of water pollution within the State.

NRS 445.401 to 445.601, inclusive, provides for the control of air pollution within the State.

PROCEDURES AND POLICIES

LICENSING AND REGISTRATION

The Bureau of Environmental Health, Division of Health, is charged with the responsibility of operating the radiation control program for the Nevada State Board of Health. The program shall regulate and control the usage of all sources of ionizing radiation within the State including radium and accelerator produced nuclides, X-ray generating machines, and particle accelerators. Registration is required for the use of X-ray machines and particle accelerators, and licensing is required for the use of radioactive materials.

The licensing program shall be essentially the same as that presently utilized by the U.S. Atomic Energy Commission and shall use criteria established by the U.S. Atomic Energy Commission. The Chief of the Bureau of Environmental Health and key staff members will evaluate each radioactive material license application, and perform prelicensing visits if deemed necessary. The U.S. Atomic Energy Commission shall be consulted concerning the nonroutine medical uses of radioactive material, and for any circumstance which indicates that advice and guidance concerning the application of radiation or radioactive material is required. Upon approval, specific licenses shall be endorsed by the State Health Officer or his duly authorized representatives for the Nevada State Board of Health.

INSPECTION

Qualified staff personnel shall conduct inspections of licensees' and registrants' facilities to assure compliance with the regulations and to evaluate the adequacy of radiation protection programs. Inspection shall be either by pre-arrangement or on an unscheduled basis during working hours.

Licensees' and registrants' facilities shall be inspected on a priority basis determined by the classification of use, degree of hazard, previous violations, training, and experience of the user and other relevant factors. The initial planned inspection frequencies are as follows:

Category	Anticipated inspection frequency (months)
Industrial radiography	12
Operations involving waste disposal	6
Broad licenses, industrial, medical, or academic	12
Other specific licenses, industrial, medical or academic	12–24
X-ray, medical, industrial, or academic	12–24

The above inspection frequencies are subject to change due to circumstances and experience. At the start of an inspection, personal contact at management level will be made whenever possible. At the completion of each inspection, the inspector will confer with licensee management to discuss the results of his inspection, presenting oral recommendations or suggestions as required and answering questions concerning the regulatory program.

A comprehensive written report concerning each inspection shall be prepared by the inspector and reviewed by qualified Bureau of Environmental Health personnel.

COMPLIANCE AND ENFORCEMENT

The status of compliance with regulations, registration, or license conditions shall be determined through inspections and evaluations of inspection reports. Licensees and registrants shall be informed of the results of all inspections, orally at the time of inspection and by letter or notice from the Agency.

When items of minor noncompliance are found and the licensee or registrant agrees at the time of inspection to correct them promptly, no further action shall be taken by the inspection Agency, except that the licensee or registrant shall receive a letter from the Agency stating the items of noncompliance, and that these items shall be checked at the next scheduled inspection.

When items of major noncompliance are found, the licensee or registrant shall be informed orally at the time of inspection and subsequently by letter of the items of noncompliance and he shall be required to reply in writing within a stated time as to the corrective action taken and the completion date or anticipated completion date of the corrective action. Assurance that the corrective action has been taken shall be determined by a followup inspection or at the time of the next regularly scheduled inspection, as circumstances warrant.

A license, upon request of a licensee, may be amended to be consistent with the Act or regulations or to meet changing conditions in operations. The Agency may amend, suspend, or revoke a license in the event of continual refusal of the licensee to comply with the terms and conditions of the license, the Act, or regulations, or failure to take adequate action concerning items of noncompliance. Prior to such action, the Agency shall notify the licensee of its intent to amend, suspend, or revoke the license and provide the opportunity for a hearing.

Whenever the Agency finds that an emergency exists requiring immediate action to protect the public health, safety, or general welfare, it may without notice or hearing issue a regulation or order noting the existence of such emergency and require that such action be taken as is necessary to meet the emergency. The Agency, in the event of an emergency, is empowered to impound or order the impounding of sources of ionizing radiation upon finding that the possessor is unable to observe or is not willing to observe the provisions of the Act or regulations issued thereunder. After these actions, the licensee has a right to a hearing.

A court order directing a person to comply, or enjoining such practices in violation of the Act or regulations, may be sought by the Attorney General in the appropriate court upon request of the Agency, after notice to such persons and ample opportunity to comply has been offered.

The Agency shall endeavor to gain compliance by cooperative and educational methods. Only in instances of repeated noncompliance, willful violation, or where serious potential hazards exist, shall the full weight of legal procedure normally be employed.

EFFECTIVE DATE OF LICENSE TRANSFER AND RECIPROCITY

Any person who, on the effective date of the agreement with the U.S. Atomic Energy Commission, possesses a license issued by the U.S. Atomic Energy Commission shall be deemed to possess a like license issued by the Agency which shall expire either 90 days after the receipt from the Agency of a notice of expiration of such a license or on the date of expiration specified in the Federal license, whichever is earlier. The Nuclear Affairs Act enacted by the Nevada Legislature and the Rules and Regulations promulgated by the Nevada State Board of Health pursuant to the above legislation provides for recognition of licenses issued by the U.S. Atomic Energy Commission or agreement States.

RADIOLOGICAL EMERGENCY CAPABILITY

The State of Nevada Emergency Procedures Manual and Nevada Revised Statute 459.120 designates the Department of Health, Welfare, and Rehabilitation and the Nevada State Board of Health, respectively, as the responsible agencies in the event of an accident involving radioactive materials. It will be the responsibility of the Bureau of Environmental Health to respond for these agencies in such an emergency.

Notification of an emergency may be by a State licensee or by the Nevada State Highway Patrol, local enforcement agencies, or local fire departments through the Atomic Energy Commission. Nevada State Highway Patrol, local enforcement agencies, and local fire departments have, during various training courses, received cards and posters listing the telephone numbers of the Atomic Energy Commission.

Bureau of Environmental Health personnel shall respond either as the emergency response team or as the agency responsible for public health and safety. The nature of the response may vary from an office evaluation and advisement of controls to on-the-site evaluation, radiation, and radioactivity measurements, establishment of controls, and coordination of support agencies.

Upon request, the State Civil Defense and Disaster Agency shall coordinate the transportation of Bureau personnel to the site of the incident, the installation of a communication network, and the supply of any power and heavy duty equipment needed. For any transportation or communications not provided, the Bureau will depend on commercial and other State organizations.

The State of Nevada is a member of the Western Interstate Nuclear Compact. Should circumstances warrant during the course of a radiological incident, member States of the Compact shall be requested to provide assistance to the State according to the mutual aid feature of the Compact.

The Bureau of Environmental Health will make a request to the Environmental Protection Agency, Western Environmental Research Laboratory, for any radioanalysis required beyond the capability of the Bureau's laboratory instrumenation.

Future plans for emergency situations include a review and revision of existing radiological emergency procedures reflecting the enlarged staff, the acquisition of any special radiation detection instrumentation which may be required, the formation of a radiological emergency team and the preparation of radiological emergency kits which will be available for immediate use.

ORGANIZATION AND STAFF

The State Board of Health is designated as the radiation control agency for the State by the Radiation Control Act and is authorized to carry out the provisions of the Act. The State Division of Health is responsible for the radiation control program for the Board of Health, with implementation of the program performed by the Bureau of Environmental Health. The State Health Officer functions as the head of the Division of Health, and as Secretary to the Board of Health. The Radiological Control Section is under the Chief, Bureau of Environmental Health, who reports to the State Health Officer. These relationships are illustrated in Chart 1 of the Appendix.

The two radiation control specialists in the Radiological Control Section shall devote full time to the radiation control program for licensing and registration functions, inspection of licensed and registered facilities, response to emergency situations, and to all other radiation control activities within the State over which the State Board of Health has authority. This section shall maintain all records pertinent to the radiation control program including those which will permit the U.S. Atomic Energy Commission to evaluate the status of the program with regard to its compatibility with those of other agreement States, and that of the Commission. The Chief and the Assistant Chief of the Bureau shall participate in licensing and registration functions to provide greater manpower depth to the small Radiological Control Section.

The Commission of Environmental Protection is the agency responsible for the control of air and water pollution within the State. However, the regulations promulgated by the Commission will not conflict with those of the Board of Health for radiation control. The Bureau of Environmental Health is designated as the advisory and implementing agency for the Commission, and the Chief, Bureau of Environmental Health is the Control Officer for the Commission. The relationship between the Board and the Commission is illustrated in Chart 2 of the Appendix.

Position titles, education, and experience of Bureau of Environmental Health personnel directly involved in the activities of the radiological health program are listed below. Replacements for these personnel, if required, shall be recruited as soon as possible. The level of experience, education, and training shall be that required by the position descriptions contained in the Appendix.

ERNEST G. GREGORY—*Chief, Bureau of Environmental Health*

Education

University of Nevada—B.S. Civil Engineering; 1951.

Other Training

USPHS—Basic Radiological Health; 2 weeks.
USPHS—Gamma Spectroscopy; 2 weeks.

Experience

1965–Present Chief, Bureau of Environmental Health, Nevada State Health Division (see job description in the Appendix).

1956–65 Public Health Engineer, Bureau of Environmental Health, Nevada State Health Division. Principal area of responsibility was in water pollution control. From 1958 to 1963 served as the Civil Defense Radiological Office for the State, which included the training of Civil Defense radiation monitors and radiation monitor instructors. Held a byproduct material license for Civil Defense Model CDV–784–786 radioactive sources.

1952–56 Right-of-way Agent, Nevada State Highway Department.

1951–52 Hydrologist, U.S. Bureau of Reclamation.

Miscellaneous

Registered Professional Engineer:
Wendell D. McCurry—Assistant Chief, Bureau of Environmental Health.

Education

Murray State Agricultural College—A.S. Engineering; 1959–61.
Oklahoma State University—B.S. Civil Engineering; 1963.
Oklahoma State University—M.S. Public Health and Sanitary Engineering; 1965.
University of Florida—Post Graduate work in Environmental Engineering and Radiological Health; 1964–66.

V 37-68 APR 7 72 XUM

Other Training

USPHS—Occupational Health Course; 2 weeks.
AEC—Orientation Course in Regulatory Practices and Procedures; 3 weeks.
USPHS—Medical X-ray Protection; 2 weeks.

Experience

1970–Present Assistant Chief, Bureau of Environmental Health, Nevada State Health Division (see job description in the Appendix).

1966–70 Public Health Engineer II, Nevada State Health Division. Duties very similar to present position.

Miscellaneous

Registered Professional Engineer:
William C. Horton—Radiation Control Specialist III.

Education

University of New Mexico—B.S. Geology; 1953.

Other Training

AEC—Orientation Course in Regulatory Practices and Procedures; 3 weeks.
EPA—Medical X-ray Protection; 2 weeks.
USPHS—Basic Radiological Health; 2 weeks.
Picker X-ray Corp.—Isotopes and X-rays for Industrial Radiography; 1 week.
Defense Atomic Support Agency and Reynolds Electrical and Engineering Company—Emergency Radiation Team Training; 1 week each course.
AEC—Ten-week Health Physics course beginning April 3, 1972.

Experience

1971–Present Radiation Control Specialist with the Bureau of Environmental Health, Nevada State Health Division (see job description in the Appendix).

1967–71 Supervisor of Environmental Monitoring, Battelle Northwest, Richland, Washington. Primarily responsible for implementing the overall environmental surveillance program at Hanford. Supervised radiation monitors taking samples and performing radiation and contamination surveys in the environs. Assisted in program planning, analytical result evaluation, and program coordination. Provided liaison with analytical laboratories.

1959–67 Engineer, ACFI, Inc., Albuquerque, New Mexico. Had primary responsibility for all radiological protection in a manufacturing plant possessing numerous X-ray devices and sealed radioactive sources. Provided shielding design for radiographic facilities and radiological protection requirements for a U 235-loaded graphite testing facility. Prepared formal operating procedures governing non-destructive testing and radiological protection practices.

1953–57 Seismologist and Party Chief, Continental Oil Company, Ponca City, Oklahoma. Primary responsibility was for operation of geophysical field crew exploring for oil, and interpretation of geophysical and geological data.

Richard W. Reynolds—Radiation Control Specialist II.

Education

University of Nevada—B.S. Zoology; 1966.
University of Nevada—M.S. Nuclear Engineering; 1971.

Other Training

AEC—Orientation Course in Regulatory Practices and Procedures; 3 weeks.
EPA—Medical X-ray Protection; 2 weeks.
Reynolds Electrical & Engineering Co.—Basic Radiological Monitoring.

Experience

1971—Present Radiation Control Specialist with the Bureau of Environmental Health, Nevada State Health Division (see job description in the Appendix).

1968–71 Graduate Research Fellow, Department of Nuclear Engineering, University of Nevada, Reno, Nev.

1966–68 Health Physicist, Health Physics Branch, Mare Island Naval Shipyard, Vallejo, Calif. Primary responsibility was the supervision of field surveillance of storage and usage of sources of ionizing radiation in medical, nondestructive test, instrument calibration, supply, and nuclear propulsion programs.

1964 Radiochemistry Laboratory Technician, Reynolds Electric & Engineering Co., Nevada Test Site, Mercury, Nev. Primary duty assignment was gamma spectral analysis of filter systems used for aerosol surveillance during nuclear device testing.

1962–63 Nuclear Powerman, U.S. Army, Walter Reed Army Medical Center, Washington, D.C. Primary duty assignment was radiochemical analysis of coolant, effluent and environmental samples from research reactor areas at this installation.

1960–61 Radiochemistry Laboratory Technician, Reynolds Electric & Engineering Co., Nevada Test Site, Mercury, Nev. Primary assignment was the radiochemical analysis of environmental and bioassay samples, collected as part of the surveillance program for GNOME, PLUTO, NERVA, and other projects.

BUDGET FOR THE RADIOLOGICAL HEALTH SECTION

Fiscal year 1971–72	
Personnel	$26,295.71
Travel (In-State)	3,332.00
Travel (out-of-State)	----------
Operating expenses	2,386.00
Capital equipment	3,000.00
Total	34,943.71
Fiscal year 1972–73	
Personnel	27,381.74
Travel (In-State)	3,500.00
Travel (out-of-State)	----------
Operating expenses	2,464.00
Capital equipment	----------
Total	33,345.74

NOTE: For the capital equipment budget for fiscal year 1971–72, it is anticipated that matching funds for procurement of radiation detection and measurement equipment will be obtained from the Federal Office of Civil Defense, Department of the Army.

INSTRUMENTATION

Listed below is the field and laboratory instrumentation and radioactive sources which the Bureau of Environmental Health will utilize for the detection and measurement of radiation during routine inspections and emergencies for the identification and measurement of radioactive materials during periodic environmental surveillance and for the standardization of instrumentation, respectively.

Field Instrumentation—Survey

Alpha	*Range*
1 Eberline Alpha Counter, scintillation type, Model Pac-4[B].	0–2 x 10^5 c.p.m.
Neutron	
1 Nuclear Chicago Portable Survey Meter, Model 2671.	0–2.5 x 10^4 n/cm.^{2}/sec.
Beta, X-rays, and Gamma	
1 Eberline Beta-Gamma Counter, GM Type, Model E-250.	0–2 R/hr. 0–2000 K e.p.m.
2 Victoreen Survey Meters, ion chamber type, Model 470.	0–300 mR/hr. and R/hr.

Calibration and Standard Measurements

2 Victoreen Condensor R-meters, Model 570.
2 Victoreen R-meter chambers, Model 130, 0–250 mR, 30–500 keV.
2 Victoreen R-meter chambers, Model 227, 0–1R, 30–500 keV.
1 Victoreen R-meter chamber, Model 552, 0–2.5R, 400–1300 keV.
2 Victoreen R-meter chambers, Model 70–5, 0–25R, 30–250 keV.
1 Victoreen R-meter chamber, Model 326, 0–10R, 30–350 keV.

Sources

1 set of Tracerlab Gamma Spectrometer Sources, Model R–35.
1 set of Eberline Pu^{239} Calibration Sources, Model S94–1
1 Tracerlab C^{13} source, Model R210.

LABORATORY INSTRUMENTATION

Gamma Spectroscopy

1 Tracerlab Model SC–766 single channel analyzer interconnected with a Tracerlab Model SC–71 scaler, Model SC–87B Auto-Printer, and SC–57A well scintillation detector, which houses a 2-inch x 1¾-inch NaI well crystal.

Alpha, Beta, and Gamma Measurements

1 Tracerlab Model SC–71 scaler connected with a Model SC–87B Auto-Primer and FD–2 Flow Detector, used both as a geiger and proportional counter, and a SC–57A well scintillation detector.

[FR Doc.72–4877 Filed 3–30–72;8:45 am]

FEDERAL RESERVE SYSTEM

FIRST CITY BANCORPORATION OF TEXAS, INC.

Acquisition of Bank

First City Bancorporation of Texas, Inc., Houston, Tex., has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent (less directors' qualifying shares) of the voting shares of the successor to La Porte State Bank, La Porte, Tex. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Dallas. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than April 26, 1972.

Board of Governors of the Federal Reserve System, April 3, 1972.

[SEAL] MICHAEL A. GREENSPAN,
Assistant Secretary.

[FR Doc.72–5346 Filed 4–6–72;8:47 am]

DOMESTIC PUBLIC LAND MOBILE RADIO SERVICE—continued

6618–C2–P–72—Mobile Communications Service, Inc. (KOA264), replace the transmitter operating on 152.06 MHz, change the antenna system for same and relocate facilities from location No. 2 to location No. 1: 431 Greenleaf Road, Portland, OR.
6697–C2–P–(2)–72—The Diamond State Telephone Co. (KOH885), replace transmitter operating on 153.78 MHz, change the antenna system and auxiliary test facilities to operate on 158.04 MHz all located at 9 Depot Street, Georgetown, DE.
6698–C2–P–72—Radio Contact Corp. (KRH646), relocate facilities operating on 454.200 MHz to the end of Mine Road, top of Lee Hill Mountain, 5.5 miles northwest of Boulder, Colo.
6699–C2–P–(2)–72—Answerite Professional Telephone Service (KIY681), relocate facilities operating on 152.120 and 152.210 MHz at location No. 1 to: Route No. 526, 6 miles west of Orlando, Fla.
6700–C2–ML–72—Airsignal International, Inc. (KAP246), change frequency to 35.58 MHz at the Commerce Tower Building, Ninth and Main Streets, Kansas City, MO.
6701–C2–P–72—National Communications System, Inc. (KRM981), replace the transmitter operating on 158.70 MHz located at Fourth and J Streets, Sacramento, Calif.
6702–C2–P–72—National Communications System, Inc. (KRM982), replace the transmitter operating on 158.70 MHz located at 1805 Harbor Road, Stockton, CA.
3557–C2–R–72—New England Telephone & Telegraph Co. (KAB446), renewal of license expiring April 26, 1972. Term: April 26, 1972 to April 26, 1973 (Developmental).

Correction

3081–C2–P–(4)–71—RAM Broadcasting of Texas, Inc. (KKG412), should read: (New), for a new two-way station to operate on 454.100 and 454.200 MHz at location No. 1: 0.5 mile south of Corsicana on U.S. Route No. 75, Corsicana, Tex. and 454.050 and 454.325 MHz at location No. 2: 3820 Moulton Street, Greenville, TX. See Public Notice dated December 14, 1970.
2081–C2–P–(6)–72—Empire Communications Company (KOF306) Correct to read: At location No. 1 change repeater frequency to 459.15 MHz. All other particulars remain as reported in Public Notice No. 589, dated March 27, 1972.

POINT-TO-POINT MICROWAVE RADIO SERVICE (TELEPHONE CARRIERS)

(INFORMATIVE: Applicant, MCI Texas-East Microwave, Inc., is modifying its original proposal for Specialized Common Carrier Radio Service between Dallas, Tex., and New Orleans, La., by filing 23 new applications(s) below.)

6520–C1–P–72—MCI Texas-East Microwave, Inc. (New), Site 2, Irving, Tex. C.P. for a new station at the intersection of Highway 183 and Dart Street at latitude 32°50'02", longitude 96°56'11". Frequencies 11,625.0V MHz, 11,225.0V MHz on azimuth 114°59' toward Dallas, Tex., and 11,865.0V MHz, 11,265.0V MHz on azimuth 233°22' toward Arlington, Tex.
6521–C1–P–72—MCI Texas-East Microwave, Inc. (New), Site 3, Arlington, Tex. C.P. for a new station at 1932 East Abram Street, Arlington, TX at latitude 32°44'04", longitude 97°04'40". Frequencies 10,735.0H MHz, 11,135.0H MHz on azimuth 53°17' toward Irving, Tex., and 6226.9V MHz on azimuth 233°50' toward Burleson, Tex.
6522–C1–P–72—MCI Texas-East Microwave, Inc. (New), Site 6, Covington, Tex. C.P. for a new station 4.3 miles north of Covington, Tex., at latitude 32°14'37", longitude 97°14'59". Frequencies 6226.9V MHz on azimuth 346°42' toward Burleson, Tex., and 6226.9H MHz on azimuth 125°33' toward Milford, Tex.
6523–C1–P–72—MCI Texas-East Microwave, Inc. (New), Site 23, Westfield, Tex., C.P. for a new station 3.5 miles west-southwest of Westfield, Tex., at latitude 30°59'56", longitude 95°27'20". Frequencies 6197.3V MHz on azimuth 317°49' toward Mostyn, Tex., and 6226.9V MHz on azimuth 119°02' toward Kinwood, Tex.
6524–C1–P–72—MCI Texas-East Microwave, Inc. (New), Site 27, Beach, Tex., C.P. for a new station 4.4 miles east-northeast of Beach, Tex., at latitude 30°20'52", longitude 95°21'06". Frequencies 6197.2H MHz on azimuth 244°40' toward Mostyn, Tex., and 6226.9H MHz on azimuth 71°02' toward Shepherd, Tex.
6525–C1–P–72—MCI Texas-East Microwave, Inc. (New), Site 29, Shepherd, Tex. C.P. for a new station 2.8 miles south of Shepherd, Tex., at latitude 30°27'12", longitude 94°59'44". Frequencies 5974.8H MHz on azimuth 261°13' toward Beach, Tex., and 5945.2V MHz on azimuth 48°07' toward Schwab City, Tex.

viously filed application; or (b) within 60 days after the date of the public notice listing the first prior filed application (with which subsequent applications are in conflict) as having been accepted for filing. An application which is subsequently amended by a major change will be considered to be a newly filed application. It is to be noted that the cutoff dates are set forth in the alternative—applications will be entitled to consideration with those listed below if filed by the end of the 60 day period, only if the Commission has not acted upon the application by that time pursuant to the first alternative earlier date. The mutual exclusivity rights of a new application are governed by the earliest action with respect to any one of the earlier filed conflicting applications.

The attention of any party in interest desiring to file pleadings pursuant to section 309 of the Communications Act of 1934, as amended, concerning any domestic public radio services application accepted for filing, is directed to § 21.27 of the Commission's rules for provisions governing the time for filing and other requirements relating to such pleadings.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

FEDERAL COMMUNICATIONS COMMISSION

[Report 590]

COMMON CARRIER SERVICES INFORMATION[1]

Domestic Public Radio Services Applications Accepted for Filing[2]

APRIL 3, 1972.

Pursuant to §§ 1.227(b)(3) and 21.30 (b) of the Commission's rules, an application, in order to be considered with any domestic public radio services application appearing on the list set forth below, must be substantially complete and tendered for filing by whichever date is earlier: (a) The close of business one business day preceding the day on which the Commission takes action on the pre-

[1] All applications listed below are subject to further consideration and review and may be returned and/or dismissed if not found to be in accordance with the Commission's rules, regulations and other requirements.
[2] The above alternative cutoff rules apply to those applications listed below as having been accepted in Domestic Public Land Mobile Radio, Rural Radio, Point-to-Point Microwave Radio and Local Television Transmission Services (Part 21 of the rules).

APPLICATIONS ACCEPTED FOR FILING

DOMESTIC PUBLIC LAND MOBILE RADIO SERVICE

7787–C2–P–(4)—71RAM Broadcasting of Texas, Inc. (KKG412), replace tranamitters operating 454.100 and 454.200 MHz and relocate facilities operating on 454.050 and 454.325 MHz from location No. 3 to location No. 1: Southland Life Building, Live Oak, Olive, Bryant and Pearl Streets, Dallas, Tex.
6568–C2–P–72—Amerfone of St. Lucie County, Inc. (New), for a new one-way station to be located at 454 North Ninth Street, Fort Pierce, FL, to operate on 158.70 MHz.
6570–C2–MP–72—Airsignal International, Inc. (KSV991), replace transmitter operating on 152.24 MHz, located at 965 Eustis Street, St. Paul, MN.
6571–C2–P–72—Airsignal International, Inc. (KAH861), for additional facilities to operate on 35.22 MHz located at Second Avenue South between Fifth and Sixth Streets, Minneapolis, MN.
6580–C2–P–72—Mobile Radio Telephone Service, Inc. (KAQ806), for additional facilities to operate on 35.58 MHz, located at 631 17th Street, Denver, CO.
6612–C2–P–72—Radio Telephone Co. of Gainesville (KJU814), for additional facilities to operate on 159.24 MHz, located at 1609 South Main Street, Gainesville, FL.
6613–C2–P–(2)–72—Radio Paging Service (KKB970), for additional facilities to operate on 454.050 and 454.125 MHz at a new site described as location No. 2: Intersection of 85th Street and Avenue L, Lubbock, Tex.
6614–C2–P–72—Central Telephone Co. of Illinois (KSD883), change the antenna system operating on 152.75 MHz located at 2.5 miles northwest of Dixon, Ill.
6615–C2–P–72—Airphone Co. (KCC266), change the antenna system located at the north end of Birch Street, West Springfield, Mass. operating on 35.58 MHz.

APR 7 72
XUM

6526–C1–P–72—MCI Texas-East Microwave, Inc. (New), Site 29, Schwab City, Tex. C.P. for a new station 8.5 miles northeast of Schwab City, Tex., at latitude 30°40'00", longitude 94°48'12". Frequencies 6197.2V MHz on azimuth 228°15' toward Shepherd, Tex., and 6226.9H MHz on azimuth 154°26' toward Thicket, Tex., and 6226.9V MHz on azimuth 68°09' toward Woodville, Tex.

6527–C1–P–72—MCI Texas-East Microwave, Inc. (New), Site 30, Thicket, Tex. C.P. for a new station 4.6 miles southeast of Thicket, Tex., at latitude 30°22'14", longitude 94°33'24". Frequencies 5974.8H MHz on azimuth 334°31' toward Schwab City, Tex., and 6004.5H MHz on azimuth 118°54' toward Silsbee, Tex.

6528–C1–P–72—MCI Texas-East Microwave, Inc. (New), Site 33, Woodville, Tex. C.P. for a new station 5.5 miles east-northeast of Woodville, Tex., at latitude 30°48'07", longitude 94°19'39". Frequencies 5974.8V MHz on azimuth 248°21' toward Schwab City, Tex., and 5945.2H MHz on azimuth 82°09' toward Roganville, Tex.

6529–C1–P–72—MCI Texas-East Microwave, Inc. (New), Site 34, Roganville, Tex. C.P. for a new station 3.3 miles north of Roganville, Tex., at latitude 30°51'09", longitude 93°53'48". Frequencies 6197.2H MHz on azimuth 262°22' toward Woodville, Tex., and 6226.9H MHz on azimuth 92°52' toward Knight, La.

6530–C1–P–72—MCI Texas-East Microwave, Inc. (New), Site 35, Knight, La. C.P. for a new station 5.7 miles south of Knight, La., at latitude 30°49'56", longitude 93°36'48". Frequencies 5974.8H MHz on azimuth 273°06' toward Roganville, Tex., and 5945.2V MHz on azimuth 74°39' toward Cravens, La.

6531–C1–P–72—MCI Texas-East Microwave, Inc. (New), Site 36, Cravens, La. C.P. for a new station 3.0 miles south-southwest of Cravens, La., at latitude 30°55'29", longitude 93°08'11". Frequencies 6197.2V MHz on azimuth 254°52' toward Knight, La., and 6197.2V MHz on azimuth 100°35' toward Oakdale, La.

6532–C1–P–72—MCI Texas-East Microwave, Inc. (New), Site 37, Oakdale, La. C.P. for a new station 2.4 miles north of Oakdale, La., at latitude 30°51'39", longitude 92°39'38". Frequencies 5945.2H MHz on azimuth 280°47' toward Cravens, La., and 5945.2H MHz on azimuth 119°09' toward Ville Platte, La.

6533–C1–P–72—MCI Texas-East Microwave, Inc. (New), Site 38, Ville Platte, La. C.P. for a new station 1.7 miles west of Ville Platte, La., at latitude 30°41'35", longitude 92°18'48". Frequencies 6226.5V MHz on azimuth 299°19' toward Oakdale, La., and 6226.9H MHz on azimuth 116°31' toward Washington, La.

6534–C1–P–72—MCI Texas-East Microwave, Inc. (New), Site 39, Washington, La. C.P. for a new station 1.7 miles south of Washington, La., at latitude 30°35'09", longitude 92°03'56". Frequencies 5974.8V MHz on azimuth 296°39' toward Ville Platte, La. and 5945.2V MHz on azimuth 61°14' toward Melville, La.

6535–C1–P–72—MCI Texas-East Microwave, Inc. (New), Site 40, Melville, La. C.P. for a new station 2.6 miles north of Melville, La., at latitude 30°43'56", longitude 91°45'22". Frequencies 6197.2V MHz on azimuth 241°23' toward Washington, La. and 6226.9V MHz on azimuth 112°37' toward Dupont, La.

6536–C1–P–72—MCI Texas-East Microwave, Inc. (New), Site 41, Dupont, La. C.P. for a new station 0.9 mile south of Dupont, La., at latitude 30°37'55", longitude 91°28'37". Frequencies 5974.8V MHz on azimuth 292°45' toward Melville, La., and 5945.2H MHz on azimuth 105°57' toward Scotlandville, La.

6537–C1–P–72—MCI Texas-East Microwave, Inc. (New), Site 42, Scotlandville, La. C.P. for a new station 1.9 miles north of Scotlandville, La., at latitude 30°33'32", longitude 91°11'06". Frequencies 6197.2H MHz on azimuth 286°05' toward Dupont, La., and 10,735.0V MHz, 11,155.0V MHz on azimuth 187°13' toward Baton Rouge, La.

6538–C1–P–72—MCI Texas-East Microwave, Inc. (New), Site 44, Denham Springs, La. C.P. for a new station 1.0 mile south of Denham Springs, La., at latitude 30°27'27", longitude 90°57'42". Frequencies 5974.8V MHz on azimuth 267°21' toward Baton Rouge, La. and 5960.0H MHz on azimuth 183°27' toward Marchandville, La.

6539–C1–P–72—MCI Texas-East Microwave, Inc. (New), Site 45, Marchandville, La. C.P. for a new station 2.5 miles north-northwest of Marchandville, La., at latitude 30°09'54", longitude 90°58'55". Frequencies 6241.7H MHz on azimuth 03°26' toward Denham Springs, La., and 6212.0H MHz on azimuth 113°81' toward Gramercy, La.

6540–C1–P–72—MCI Texas-East Microwave, Inc. (New), Site 46, Gramercy, La. C.P. for a new station 1.0 miles southeast of Gramercy, La., at latitude 30°03'36", longitude 90°42'19". Frequencies 5989.7H MHz on azimuth 293°39' toward Marchandville, La., and 5960.0V MHz on azimuth 87°18' toward LaPlace, La.

6541–C1–P–72—MCI Texas-East Microwave, Inc. (New), Site 47, LaPlace, La. C.P. for a new station 1.0 miles west-southwest of LaPlace, La., at latitude 30°04'12", longitude 90°27'19". Frequencies 6241.7V MHz on azimuth 267°26' toward Gramercy, La., and 6212.0V MHz on azimuth 142°19' toward Luling, La.

6542–C1–P–72—MCI Texas-East Microwave, Inc. (New), Site 48, Luling, La. C.P. for a new station 1.8 miles northeast of Luling, La., at latitude 29°58'34", longitude 90°20'33". Frequencies 5989.7V MHz on azimuth 322°23' toward LaPlace, La., and 5960.0H MHz on azimuth 111°22' toward Marrero, La.

6543–C1–P–72—American Telephone & Telegraph Co. (KAC64), 3.6 miles south of Hudson, Colo. C.P. to change polarization from V to H on frequencies 3710H, 3790H, 3870H, 3950H, 4030H, 4110H, 5925.5H, 6034.2H, 6093.5H, 6152.8H MHz toward Denver, Colo., and change polarization from H to V on frequencies 3730V, 3810V, 3890V, 3970V, 4050V, 4130V, 6172.5V MHz toward Denver, Colo., and reorient antenna.

6544–C1–P–72—American Telephone & Telegraph Co., 931 14th Street, Denver, Colo., C.P. to add passive reflector in path to Broomfield, Colo., and change polarization from V to H on frequencies 3750H, 3830H, 3990H, 4070H, 4150H, 6424.5H, and change polarization from H to V on frequencies 3770V, 3850V, 3930V, 4010V, 4090V, 4170V, 6177.5V, 6286.2V, 6345.5V, 6404.8V toward Hudson, Colo.

6545–C1–P–72—American Telephone & Telegraph Co. (KAC62), 1.0 mile west of Broomfield, Colo. Latitude 39°54'50" north, longitude 105°05'57" west. C.P. to change point of communication from Denver Main to Brooks Tower Building and add passive reflector.

6546–C1–P–72—Southern Bell Telephone & Telegraph Co. (KIB28), 51 Ivy Street NE., Atlanta, Ga. Latitude 33°45'21" north, longitude 84°23'10" west. C.P. to add 6123.1H MHz toward Palmetto, Ga.

6547–C1–P–72—Southern Bell Telephone & Telegraph Co. (KIB87), 4.5 miles northeast of Roscoe, Ga. Latitude 33°31'38" north, longitude 84°45'13" west. C.P. to add 6375.2V MHz toward Atlanta, Ga., and 6375.2H MHz toward Oak Mountain, Ga., a new station.

6548–C1–P–72—Southern Bell Telephone & Telegraph Co. (New), 2.6 miles southwest of Oak Mountain, Ga. Latitude 33°33'27" north, longitude 85°01'23" west. C.P. to add 6123.1V MHz toward Palmetto, Ga., and 10715.0H, 11035.0H MHz toward Carrollton, Ga.

6549–C1–P–72—Southern Bell Telephone & Telegraph Co. (New), 408 Rome Street, Carrollton, Ga. Latitude 33°34'58" north, longitude 85°04'31" west. C.P. to add 11325.0H MHz toward Oak Mountain, Ga., and 11645.0H MHz toward Oak Mountain, Ga., a new station.

6550–C1–P–72—American Telephone & Telegraph Co. (KPV21), 7.5 miles northwest of Apache, Ariz. Latitude 33°29'39" north, longitude 111°38'26" west. C.P. to add 5974.8V, 6034.2V, 6093.5V, 6152.8V MHz toward Cave Creek, Ariz.

6551–C1–P–72—American Telephone & Telegraph Co. (KPW98), 6.2 miles east of Cave Creek, Ariz. Latitude 33°50'54" north, longitude 111°49'56" west. C.P. to add 6226.9H, 6286.2H, 6345.5H, 6404.8H MHz toward Apache Junction, Ariz., and 6226.9V, 6286.2V, 6345.5V, 6404.8V MHz toward Morristown, Ariz.

6552–C1–P–72—American Telephone & Telegraph Co. (KPW97), 11.0 miles northeast of Morristown, Ariz. Latitude 33°57'21" north, longitude 112°28'34" west. C.P. to add 5974.8H, 6034.2H, 6093.5H, 6152.8H MHz toward Cave Creek, Ariz., and 5974.8V, 6034.2V, 6093.5V, 6152.8V MHz toward Aguila, Ariz.

6553–C1–P–72—American Telephone & Telegraph Co. (KPW96), 18 miles south-southeast of Aguila, Ariz. Latitude 33°41'26" north, longitude 113°05'35" west. C.P. to add 6226.9H, 6286.2H, 6345.5H, 6404.8H MHz toward Morristown, Ariz., and 6226.9V, 6286.2V, 6345.5V, 6404.8V MHz toward Salome, Ariz.

6554–C1–P–72—American Telephone & Telegraph Co. (KPW95), 17.0 miles south-southeast of Salome, Ariz. Latitude 33°32'38" north, longitude 113°33'41" west. C.P. to add 5974.8H, 6034.2H, 6093.5H, 6152.8H MHz toward Aguila, Ariz., and 5974.8V, 6034.2V, 6093.5V, 6152.8V MHz toward Quartzsite, Ariz.

6555–C1–P–72—American Telephone & Telegraph Co. (KPN94), 15.2 miles southeast of Quartzsite, Ariz. Latitude 33°28'32" north, 114°05'16" west. C.P. to add 6226.9H, 6286.2H, 6345.5H, 6404.8H MHz toward Salome, Ariz., and 6226.9V, 6286.2V, 6345.5V, 6404.8V MHz toward Castle Dome Mountain, Ariz.

6556–C1–P–72—American Telephone & Telegraph Co. (KPW93), 29 miles south of Quartzsite, Ariz. Latitude 33°14'23" north, longitude 114°15'32" west. C.P. to add 5974.8H, 6034.2H, 6093.5H, 6152.8H MHz toward Quartzsite, Ariz., and 5974.8V, 6034.2V, 6093.5V, 6152.8V MHz toward Glamis, Calif.

6557–C1–P–72—American Telephone & Telegraph Co. (KNL30), 14.8 miles east-northeast of Glamis, Calif. Latitude 33°03'07" north, longitude 114°49'36" west. C.P. to add 6226.9H, 6286.2H, 6345.5H, 6404.8H MHz toward Castle Dome Mountain, Ariz., and 6226.9V, 6286.2V, 6345.5V, 6404.8V MHz toward Brawley, Calif.

6558–C1–P–72—American Telephone & Telegraph Co. (KNL29), 1.4 miles west-southwest of Brawley, Calif. Latitude 32°58'41" north, longitude 115°33'19" west. C.P. to add 5974.8H 6034.2H, 6093.5H, 6152.8H MHz toward Glamis, Calif., and 5974.8V, 6034.2V, 6093.5V, 6152.8V MHz toward Salton, Calif.

6559–C1–P–72—American Telephone & Telegraph Co. (KNL28), Salton, 9.5 miles north-northeast of Ocotillo, Calif. Latitude 33°16'48" north, longitude 116°05'04" west. C.P. to add 6226.9H, 6286.2H, 6345.5H, 6404.8H MHz toward Brawley, Calif., and 6226.9V, 6286.2V, 6345.5V, 6404.8V MHz toward Julian RS, Calif.

6560–C1–P–72—American Telephone & Telegraph Co. (KTQ86), 5.6 miles north of Julian, Calif. Latitude 33°09'33" north, longitude 116°36'53" west. C.P. to add 5974.8H, 6034.2H, 6093.5H, 6152.8H MHz toward Salton, Calif., and 5974.8V, 6034.2V, 6093.5V, 6152.8V MHz, 4198H MHz toward Warner Springs, Calif.

6561–C1–P–72—American Telephone & Telegraph Co. (New), 8.1 miles north-northwest of Warner Springs, Calif. Latitude 33°23'01" north, longitude 116°42'18" west. C.P. to add 6226.9H, 6286.2H, 6345.5H, 6404.8H, 4190H MHz toward Julian RS, Calif., and 6226.9V, 6286.2V, 6345.5V, 6404.8V, 4190V MHz toward Wildomar, Calif.

6562–C1–P–72—American Telephone & Telegraph Co. (New), 2.9 miles north-northeast of Wildomar, Calif. Latitude 33°38'20" N., longitude 117°14'42" W. C.P. for 5974.8H, 6034.2H, 6093.5H, 6152.8H, 4198V MHz toward Warner Springs, Calif., and 5974.8V, 6034.2V, 6093.5V, 6152.8V, 4198V MHz toward Corona, Calif.

6563–C1–P–72—American Telephone & Telegraph Co. (New), Corona City Boundary, Calif. Latitude 33°49'43" N., longitude 117°34'27" W. C.P. for 6226.9H, 6286.2H, 6345.5H, 6404.8H, 4190V MHz toward Wildomar, Calif.

6564–C1–P–72—Southern Bell Telephone & Telegraph Co. (KTF60), 125 Reese Street, Athens, GA. Latitude 33°57'27" N., longitude 83°22'53" W. C.P. to add 6256.5H MHz toward Alcovy Mountain, Ga.

6565–C1–P–72—Southern Bell Telephone & Telegraph Co. (KIB39), 3.3 miles east-northeast of Jersey, Alcovy Mountain, Ga. Latitude 33°43'57" N., longitude 83°44'43" W. C.P. to add 6093.5H MHz toward Rockdale, Ga., and 6004.5H MHz toward Athens, Ga.

6566–C1–P–72—Southern Bell Telephone & Telegraph Co. (KJG94), approximately 3 miles southeast of Conyers, Ga. Latitude 33°37'42" N., longitude 83°58'47" W. C.P. to add 6375.2H MHz toward Atlanta, Ga., and 6345.5H MHz toward Alcovy Mountain, Ga.

6567–C1–P–72—Southern Bell Telephone & Telegraph Co. (KIB25), 51 Ivy Street NE., Atlanta, GA. Latitude 33°45'21" N., longitude 84°23'10" W. C.P. to add 6123.1V MHz toward Rockdale, Ga.

6572–C1–P–72—American Telephone & Telegraph Co. (KEB47), Plainview, 1.7 miles southwest of Melville, N.Y. Latitude 40°46'34" N., longitude 73°26'28" W. C.P. to add 10915H MHz toward Garden City (WLIW–TV), N.Y.

6573–C1–P–72—American Telephone & Telegraph Co. (KAP26), 528 Main Street, Davenport, IA. Latitude 41°31'31" N., longitude 90°34'33" W. C.P. to add 4070V MHz toward Blue Grass, Iowa.

6574–C1–P–72—American Telephone & Telegraph Co. (KAX39), 4 miles east of Blue Grass, Iowa. Latitude 41°30'22" N., longitude 90°40'11" W. C.P. to add 4030H MHz toward Princeton, Iowa.

6575–C1–P–72—American Telephone & Telegraph Co. (KSB67), 3.5 miles north-northwest of Danville, Ind. Latitude 39°47'56" N., longitude 86°34'06" W. C.P. to add 3770H, 3850H, 4190V, toward Wilber, Ind.

6576–C1–P–72—American Telephone & Telegraph Co. (New), 0.5 mile north-northwest of Wilber, Ind. Latitude 39°31'20" N., longitude 86°29'25" W. C.P. to add 3730V, 3810V, 4198H MHz toward Montclair, Ind., and 3730H, 3810H, 4198V MHz toward Morgantown, Ind.

6577–C1–P–72—American Telephone & Telegraph Co. (KSP23), 2.3 miles north-northeast of Morgantown, Ind. Latitude 39°24'15" N., longitude 86°15'03" W. C.P. to add 3770H, 3850H, 4190V MHz toward Wilber, Ind.

6585–C1–P–72—General Telephone Co. of the Southeast (New), 615 South Thornton Avenue, Dalton, GA. Latitude 34°45'50" N., longitude 84°58'16" W. C.P. for 11075H MHz toward Dalton, Ga., and 10755.0H MHz toward Dalton, Ga.

6606–C1–MP–72—American Telephone & Telegraph Co. (KGP40), New Britain, 2.1 miles northwest of Doylestown, Pa. Latitude 40°19'33" N., longitude 75°10'20" W. Modification of C.P. to change point of communication from Pennington, N.J. to Hamilton Square, N.J. on frequencies 6226.9V, 6286.2V, 6345.5V, 6404.8V MHz.

6607–C1–MP–72—American Telephone & Telegraph Co. (WBP73), modification of C.P. to change location of station from 4.2 miles west of Pennington, N.J. to Hamilton Square, 1.9 miles south of Mercerville, N.J. Latitude 40°12'32" N., longitude 74°41'12" W. Frequencies 5974.8V, 6034.2V, 6093.5V, 6152.8V MHz toward Columbus, N.J. and 5974.8V, 6034.2V, 6093.5V, 6152.8V MHz toward New Britain, Pa.

6608–C1–MP–72—American Telephone & Telegraph Co. (WBP72), 2.7 miles northeast of Columbus, N.J. Latitude 40°05'11" N., longitude 74°40'13" W. Modification of C.P. to change point of communication from Pennington, N.J. to Hamilton Square, N.J. on frequencies 6226.9H, 6286.2H, 6345.5H, 6404.8H MHz.

6610–C1–MP–72—American Telephone & Telegraph Co. (WDE75), Palo Escrito, 5.8 miles east-northeast of Jamesburg, Calif. Latitude 36°24'32" N., longitude 121°29'42" W. Modification of C.P. to change polarization from H to V on frequencies 10975V, 11135V MHz toward Jamesburg, Calif., via passive reflector.

6611–C1–MP–72—American Telephone & Telegraph Co. (WDE76), Thompson Valley, 7.1 miles east-northeast of Camp McCullum, Calif. Latitude 36°40'10" N., longitude 121°24'12" W. Modification of C.P. to change polarization from V to H on frequencies 11665V, 11345V MHz toward Palo Escrito, Calif.

INFORMATIVE: Applicant, MCI Mid-South, Inc., is proposing forty-eight (48) new point-to-point microwave sites for specialized common carrier service between New Orleans, La., Memphis, Tenn., Atlanta, Ga., and Columbus, Ga. These applications are in compliance with the new engineering standards set forth in the Commission's First Report and Order in Docket No. 18920, effective July 15, 1971, and Informative Guidelines published regarding frequency coordination report No. 562 FCC Common Carrier Services Information released September 20, 1971.

6623–C1–P–72—MCI Mid-South, Inc. (New), a new station 1 mile south-southeast of Booker, Ark., at latitude 35°16'04" N., longitude 90°16'55" W. Frequency 6315.9H MHz on azimuth 97°03'. Frequency 6226.9H MHz on azimuth 276°53'.

6624–C1–P–72—MCI Mid-South, Inc. (New), a new station 4 miles southwest of Coldwater, Ark., at latitude 35°20'05" N., longitude 90°37'35" W. Frequency 6004.5H MHz on azimuth 96°41'. Frequency 6034.2V MHz on azimuth 207°54'.

6625–C1–P–72—MCI Mid-South, Inc. (New), a new station 3 miles southeast of Colt, Ark., at latitude 35°06'41" N., longitude 90°46'13" W. Frequency 6315.9V MHz on azimuth 27°49'. Frequency 6286.2V MHz on azimuth 228°14'.

6626–C1–P–72—MCI Mid-South, Inc. (New), a new station 3.2 miles southeast of Wheatley, Ark., at latitude 34°54'04" N., longitude 91°03'20" W. Frequency 6063.8V MHz on azimuth 48°04'. Frequency 6063.8V MHz on azimuth 209°04'.

6627–C1–P–72—MCI Mid-South, Inc. (New), a new station 1.5 miles south of Arlington, Tenn., at latitude 35°16'20" N., longitude 89°40'14" W. Frequency 6286.2V MHz on azimuth 133°34'. Frequency 6286.2H MHz on azimuth 270°39'.

6628–C1–P–72—MCI Mid-South, Inc. (New), a new station 6.2 miles southwest of Williston, Miss., at latitude 35°07'10" N., longitude 89°28'31" W. Frequency 6004.5V MHz on azimuth 179°55'. Frequency 6004.5V MHz on azimuth 313°41'.

6629–C1–P–72—MCI Mid-South, Inc. (New), a new station 2.8 miles north-northwest of Holly Springs, Miss., at latitude 34°48'20" N., longitude 89°28'29" W. Frequency 6256.5H MHz on azimuth 219°48'. Frequency 6226.9V MHz on azimuth 359°55'.

6630–C1–P–72—MCI Mid-South, Inc. (New), a new station 1 mile northeast of Tyro, Miss., at latitude 34°35'27" N., longitude 89°41'27" W. Frequency 6063.8V MHz on azimuth 132°53'. Frequency 5974.8H MHz on azimuth 39°40'.

6631–C1–P–72—MCI Mid-South, Inc. (New), a new station 4 miles northeast of Oxford, Miss., at latitude 34°24'52" N., longitude 89°27'43" W. Frequency 6315.9H MHz on azimuth 200°45'. Frequency 6286.2V MHz on azimuth 313°01'.

6632–C1–P–72—MCI Mid-South, Inc. (New), a new station 3.8 miles northeast of Water Valley, Miss., at latitude 34°11'42" N., longitude 89°33'43" W. Frequency 6063.8H MHz on azimuth 135°38'. Frequency 6034.2H MHz on azimuth 20°41'.

POINT-TO-POINT MICROWAVE RADIO SERVICE (TELEPHONE CARRIERS)—continued

6633–C1–P–72—MCI Mid-South, Inc. (New), a new station 3.6 miles west of Pittsboro, Miss., at latitude 33°56'29'' N., longitude 89°15'53'' W. Frequency 6271.4V MHz on azimuth 186°03'. Frequency 6404.8H MHz on azimuth 67°30'. Frequency 6286.2H MHz on azimuth 315°48'.

6634–C1–P–72—MCI Mid-South, Inc. (New). A new station 7 miles southwest of Troy, Miss., at latitude 34°02'31'' N., longitude 88°58'20'' W. Frequency 6004.5H MHz on azimuth 247°39'. Frequency 6152.8V MHz on azimuth 86°37'.

6635–C1–P–72—MCI Mid-South, Inc. (New). A new station 9 miles east-southeast of Nettleton, Miss., at latitude 34°03'55'' N., longitude 88°28'43'' W. Frequency 6256.5V MHz on azimuth 266°53'. Frequency 6404.8V on azimuth 62°38'.

6636–C1–P–72—MCI Mid-South, Inc. (New). A new station 2 miles west-northwest of Bexar, Ala., at latitude 34°11'31'' N., longitude 88°11'00'' W. Frequency 6004.5V MHz on azimuth 242°48'. Frequency 6152.8V MHz on azimuth 78°09'.

6637–C1–P–72—MCI Mid-South, Inc. (New). A new station 2 miles southeast of Hackleburg, Ala., at latitude 34°15'26'' N., longitude 87°48'19'' W. Frequency 6256.5V MHz on azimuth 258°22'. Frequency 6256.5H MHz on azimuth 44°06'.

6638–C1–P–72—MCI Mid-South, Inc. (New). A new station 0.5 mile southwest of Fairfield, Ala., at latitude 34°28'13'' N., longitude 87°11'42'' W. Frequency 6271.4V MHz on azimuth 266°00'. Frequency 6256.5V MHz on azimuth 79°25'.

6639–C1–P–72—MCI Mid-South, Inc. (New). A new station 2 miles southeast of Centre, Ala., at latitude 34°08'35'' N., longitude 85°38'54'' W. Frequency 6004.5H MHz on azimuth 258°53'. Frequency 6004.5V MHz on azimuth 101°02'.

6640–C1–P–72—MCI Mid-South, Inc. (New). A new station 1 mile south of Cave Springs, Ala., at latitude 34°05'29'' N., longitude 85°19'57'' W. Frequency 6404.8V MHz on azimuth 281°13'. Frequency 6404.8V MHz on azimuth 58°17'.

6641–C1–P–72—MCI Mid-South, Inc. (New). A new station 4.4 miles north of Wax, Ga., at latitude 34°12'20'' N., longitude 85°06'35'' W. Frequency 6004.5V MHz on azimuth 238°25'. Frequency 6152.8H MHz on azimuth 137°01'.

6642–C1–P–72—MCI Mid-South, Inc. (New). A new station 3 miles east of Dallas, Ga., at latitude 33°55'10'' N., longitude 84°47'25'' W. Frequency 6256.5H MHz on azimuth 317°11'. Frequency 6375.2H MHz on azimuth 136°07'.

6643–C1–P–72—MCI Mid-South, Inc. (New). A new station 10 miles east-northeast of Sylacauga, Ala., at latitude 33°12'55'' N., longitude 86°04'19'' W. Frequency 6404.8V MHz on azimuth 305°26'. Frequency 6375.2V MHz on azimuth 215°00'.

6644–C1–P–72—MCI Mid-South, Inc. (New). A new station 1.8 miles north of Willow Springs, Ala., at latitude 32°29'45'' N., longitude 86°11'10'' W. Frequency 6315.9H MHz on azimuth 354°47'. Frequency 10735.0V MHz and 11135.0V MHz on azimuth 221°46'. Frequency 6375.2V MHz on azimuth 143°19'.

6645–C1–P–72—MCI Mid-South, Inc. (New). A new station 2 miles south-southwest of Embry, Miss., at latitude 33°35'08'' N., longitude 89°18'35'' W. Frequency 6004.5V MHz on azimuth 161°24'. Frequency 6108.3V MHz on azimuth 06°01'.

6646–C1–P–72—MCI Mid-South, Inc. (New). A new station 2 miles south-southwest of Ackerman, Miss., at latitude 33°16'55'' N., longitude 89°11'17'' W. Frequency 6256.5H MHz on azimuth 147°46'. Frequency 6404.8V MHz on azimuth 341°28'.

6647–C1–P–72—MCI Mid-South, Inc. (New). A new station 7 miles south-southeast of Louisville, Miss., at latitude 33°01'57'' N., longitude 89°00'05'' W. Frequency 6004.5H MHz on azimuth 184°05'. Frequency 6152.8H MHz on azimuth 327°52'.

6648–C1–P–72—MCI Mid-South, Inc. (New). A new station 5 miles east-southeast of Philadelphia, Miss., at latitude 32°44'24'' N., longitude 89°01'34'' W. Frequency 6256.5V MHz on azimuth 223°45'. Frequency 6404.8H MHz on azimuth 04°04'.

6649–C1–P–72—MCI Mid-South, Inc. (New). A new station 4 miles south of Prospect, Miss. at latitude 32°30'54'' N., longitude 89°16'48'' W. Frequency 6004.5H MHz on azimuth 246°36'. Frequency 6152.8V MHz on azimuth 43°37'.

6650–C1–P–72—MCI Mid-South, Inc. (New). A new station 1 mile north of Morton, Miss., at latitude 32°22'36'' N., longitude 89°39'19'' W. Frequency 6256.5H MHz on azimuth 253°41'. Frequency 6404.8H MHz on azimuth 66°24'.

6651–C1–P–72—MCI Mid-South, Inc. (New). A new station 2 miles north-northeast of Mendenhall, Miss., at latitude 31°58'40'' N., longitude 89°51'30'' W. Frequency 6256.5H MHz on azimuth 208°36'. Frequency 6404.8V MHz on azimuth 342°22'.

POINT-TO-POINT MICROWAVE RADIO SERVICE (TELEPHONE CARRIERS)—continued

6652–C1–P–72—MCI Mid-South, Inc. (New). A new station 2 miles west-southwest of Hebron, Miss., at latitude 31°43'27'' N., longitude 90°01'12'' W. Frequency 6004.5H MHz on azimuth 187°51'. Frequency 6152.8H MHz on azimuth 28°31'.

6653–C1–P–72—MCI Mid-South, Inc. (New). A new station 2 miles southwest of Sartinsville, Miss., at latitude 31°20'11'' N., longitude 90°04'56'' W. Frequency 6256.5H MHz on azimuth 206°05'. Frequency 6404.8H MHz on azimuth 07°49'.

6654–C1–P–72—MCI Mid-South, Inc. (New), a new station 3 miles west of Tylertown, Miss., at latitude 31°07'21'' N., longitude 80°12'14'' W. Frequency 6004.5V MHz on azimuth 253°25'. Frequency 6152.8H MHz on azimuth 26°01'. Frequency 6063.8H MHz on azimuth 105°54'.

6655–C1–P–72—MCI Mid-South, Inc. (New), a new station 2 miles southeast of Gillsburg, Miss., at latitude 31°00'57'' N., longitude 90°37'02'' W. Frequency 6256.5V MHz on azimuth 192°31'. Frequency 6404.8V MHz on azimuth 73°12'.

6656–C1–P–72—MCI Mid-South, Inc. (New), a new station 2 miles south of Greensburg, La., at latitude 30°47'51'' N., longitude 90°40'24'' W. Frequency 6004.5H MHz on azimuth 227°16'. Frequency 6152.8V MHz on azimuth 12°29'.

6657–C1–P–72—MCI Mid-South, Inc. (New), a new station 2 miles east-northeast of Watson, La., at latitude 30°35'46'' N., longitude 90°55'30'' W. Frequency 6256.5V MHz on azimuth 192°54'. Frequency 6404.8H MHz on azimuth 47°08'.

6658–C1–P–72—MCI Mid-South, Inc. (New), a new station 1 mile south of Denham Springs, La., at latitude 30°27'27'' N., longitude 90°57'42'' W. Frequency 5989.7V MHz on azimuth 183°27'. Frequency 6152.8V MHz on azimuth 12°53'. Frequency 5945.2H MHz on azimuth 267°26'.

6659–C1–P–72—MCI Mid-South, Inc. (New), a new station 1 mile south of Baton Rouge, La., at latitude 30°27'02'' N., longitude 91°07'57'' W. Frequency 6226.9H MHz on azimuth 87°16'.

6660–C1–P–72—MCI Mid-South, Inc. (New), a new station 2.5 miles north-northwest of Marchandville, La., at latitude 30°09'54'' N., longitude 90°58'55'' W. Frequency 6241.7V MHz on azimuth 113°31'. Frequency 6212.0V MHz on azimuth 03°26'.

6661–C1–P–72—MCI Mid-South, Inc. (New), a new station 1 mile southeast of Gramercy, La., at latitude 30°03'36'' N., longitude 90°42'19'' W. Frequency 5989.7H MHz on azimuth 87°18'. Frequency 5960.0V MHz on azimuth 293°39'.

6662–C1–P–72—MCI Mid-South, Inc. (New), a new station 1 mile west-southwest of Laplace, La., at latitude 30°04'12'' N., longitude 90°27'19'' W. Frequency 6241.7H MHz on azimuth 142°19'. Frequency 6212.0H MHz on azimuth 267°26'.

6663–C1–P–72—MCI Mid-South, Inc. (New), a new station 1.5 miles northeast of Luling, La., at latitude 29°56'34'' N., longitude 90°20'33'' W. Frequency 5989.7V MHz on azimuth 111°22'. Frequency 5960.0H MHz on azimuth 322°23.

6664–C1–P–72—MCI Mid-South, Inc. (New), a new station 4.8 miles west of Sandy Hook, Miss., at latitude 31°02'45'' N., longitude 89°53'08'' W. Frequency 6286.2H MHz on azimuth 285°43'. Frequency 6315.9H MHz on azimuth 92°55'.

6665–C1–P–72—MCI Mid-South, Inc. (New), a new station 3 miles northwest of Lumberton, Miss., at latitude 31°01'45'' N., longitude 89°31'00'' W. Frequency 6063.8H MHz on azimuth 273°06'. Frequency 6063.8V MHz on azimuth 162°35'.

6666–C1–P–72—MCI Mid-South, Inc. (New), a new station 4.5 miles east of Savannah, Miss., at latitude 30°44'24'' N., longitude 89°24'42'' W. Frequency 6286.2V MHz on azimuth 342°38'. Frequency 6315.9V MHz on azimuth 143°16'.

6667–C1–P–72—MCI Mid-South, Inc. (New), a new station 2.5 miles southeast of Lizana, Miss., at latitude 30°31'11'' N., longitude 89°13'19'' W. Frequency 6004.5V MHz on azimuth 323°22'. Frequency 6123.1H MHz on azimuth 87°47'.

6668–C1–P–72—MCI Mid-South, Inc. (New), a new station 5 miles southeast of Vancleave, Miss., at latitude 30°30'00'' N., longitude 88°37'01'' W. Frequency 5974.8V MHz on azimuth 275°36'. Frequency 6034.2V MHz on azimuth 143°16'. Frequency 6093.5H MHz on azimuth 37°22'.

6669–C1–P–72—MCI Mid-South, Inc. (New), a new station 1 mile south-southeast of Hurley, Miss., at latitude 30°38'36'' N., longitude 88°29'25'' W. Frequency 6375.2H MHz on azimuth 217°26. Frequency 6375.2H MHz on azimuth 101°17'.

6670–C1–P–72—MCI Mid-South, Inc. (New), a new station 3 miles west of Dawes, Ala., at latitude 30°37'03'' N., longitude 88°20'28'' W. Frequency 6093.5H MHz on azimuth 80°49'.

POINT-TO-POINT MICROWAVE RADIO SERVICE (TELEPHONE CARRIERS)—continued

6672–C1–P–72—Telecommunications, Inc. (WHA90), C.P. to change location of receive site at KIRO–TV to latitude 47°37'05'' N., longitude 122°21'00'' W. Change azimuth to 180°46' for frequencies 11225H and 11585H MHz. Location: 301 Galer Street, Seattle, WA at latitude 47°37'55'' N., longitude 122°20'29''W.

4192–C1–ML–71—Western Tele-Communications, Inc. (KPJ35), modification of license for authority to provide the audio subchannel service of the Intermountain, Inc., to an affiliated station (KDBM) in Dillon, Mont.

6703–C1–P–72—South Central Bell Telephone Co. (KJA25), approximately 1 mile northeast of Troy, Ala. Latitude 31°49'06'' N., longitude 85°57'30'' W. Modification of C.P. to change frequency 6263.9H MHz to 6204.7H MHz toward Brundidge, Ala., and change polarization from V to H on frequency 6293.6H MHz toward Brundidge, Ala.

6705–C1–P/L–72—General Telephone Co. of Florida (New), a temporary fixed station operating on bands 3700–4200, 5925–6425 and 10700–11700; within the territory serviced by General Telephone Co. of Florida.

6706–C1–P–72—Cincinnati Bell, Inc. (KQN89), 209 West Seventh Street, Cincinnati, OH. Latitude 39°06'10'' N., longitude 84°31'02'' W. C.P. to add 6049.0H MHz toward White Oak, Ohio.

6707–C1–P–72—Cincinnati Bell, Inc. (KQO29), Cheviot and Jessup Roads, White Oak, Ohio. Latitude 39°11'52'' N., longitude 84°36'02'' W. C.P. to add 6301.0V MHz toward North Hamilton, Ohio.

6708–C1–P–72—Cincinnati Bell, Inc. (KQO30), 1559 Boyle Road, Hamilton, OH. Latitude 39°25'46'' N., longitude 84°37'46'' W. C.P. to add 6049.0H MHz toward Oxford, Ohio.

6709–C1–P–72—The Ohio Bell Telephone Co. (KQH44), 121 Huron Street, Toledo, OH. Latitude 41°39'01'' N., longitude 83°32'20'' W. C.P. to add 6301.0 MHz toward Near Gibsonburg, Ohio, a new point of communication.

6710–C1–P–72—Cincinnati Bell, Inc. (New), 3 miles north of Gibsonburg, Ohio. Latitude 41°25'42'' N., longitude 83°19'05'' W. C.P. for 6049.0H MHz toward Toledo, Ohio; 6049.0V MHz toward Near Castalia, Ohio, a new point of communication; 107915V, 10755V MHz toward Fremont, Ohio, a new station.

6711–C1–P–72—Cincinnati Bell, Inc. (New), 903 Crogham Street, Fremont, OH. Latitude 41°20'46'' N., longitude 83°07'18'' W. C.P. for 11685V, 11365V MHz toward Near Gibsonburg, Ohio.

6712–C1–P–72—Cincinnati Bell, Inc. (New), 4 miles south of Castalia, Ohio. Latitude 41°20'32'' N., longitude 82°56'33'' W. C.P. for 6301.0V MHz toward Near Gibsonburg, Ohio and 11,225H, 11,545H MHz toward Sandusky, Ohio a new station.

6713–C1–P–72—Cincinnati Bell, Inc. (New), 429 Wayne Street, Sandusky, OH. Latitude 41°27'11'' N., longitude 82°42'30'' W. C.P. for 10,775H, 11,175H MHz toward near Castalia, Ohio.

6714–C1–P–72—United Telephone Co. of the Carolinas, Inc. (KJO36), W. Butler and North Carolina Streets, Saluda, S.C. C.P. to change frequencies 6026.8H, 6145.4H MHz to 5974.85H, 6093.46H MHz toward Greenwood, S.C.

6715–C1–P–72—United Telephone Co. of the Carolinas, Inc. (KIC29), Saveali Street at Highway 22, Greenwood, S.C. Latitude 34°10'19'' N., longitude 82°08'32'' W. C.P. to delete frequencies 6278.8, 6397.4 and add 6286.19H, 6404.80H MHz toward Clinton, S.C.; delete 6189.8, 6219.5, 6338.1 and add 6226.89V, 6345.50V, 6404.80V MHz toward Saluda, S.C.; delete 6204.6, 6293.6, 6415.0 and add 6404.80H MHz toward Troy, S.C., and delete 6204.6, 6234.3, 6352.9 and add 6404.80V MHz toward Ware Shoals, S.C.

6716–C1–P–72—The Mountain States Telephone & Telegraph Co. (KPQ57), 103 North Durbin Street, Casper, Wyo. Latitude 42°51'01'' N., longitude 106°19'17'' W. C.P. to add 11,075V MHz toward Casper Mountain, Wyoming.

6717–C1–P–72—The Mountain States Telephone & Telegraph Co. (KPQ58), Casper Mountain, 8 miles south-southwest of Casper, Wyo. Latitude 42°44'25'' N., longitude 106°21'44'' W. C.P. to add 11,525V MHz toward Casper, Wyo., and 5974.8H MHz toward Midwest, Wyo., a new station.

6718–C1–P–72—The Mountain States Telephone & Telegraph Co. (New), 7.1 miles northeast of Edgerton, Wyo. Latitude 43°29'42'' N., longitude 106°09'07'' W. C.P. for 6226.9V MHz toward Casper Mountain, Wyo., and 6226.9H MHz toward Mayoworth, Wyo.

6719–C1–P–72—The Mountain States Telephone & Telegraph Co. (New), 12.8 miles north of Kaycee, Wyo. Latitude 43°53'42'' N., longitude 106°40'48'' W. C.P. for 5974.8V MHz toward Midwest, Wyo., and 5974.8H MHz toward Fort McKinney, Wyo., a new station.

POINT-TO-POINT MICROWAVE RADIO SERVICE (TELEPHONE CARRIERS)—continued

6720–C1–P–72—The Mountain States Telephone & Telegraph Co. (New), 7.3 miles south of Buffalo, Wyo. Latitude 44°14'06'' N., longitude 106°41'57'' W. C.P. for a new station on frequencies 6226.9V MHz toward Mayoworth, Wyo., a new station and 6226.9H MHz toward Sheridan Junction, Wyo., a new station.

6721–C1–P–72—The Mountain States Telephone & Telegraph Co. (New), 12.3 miles south of Sheridan, Wyo. Latitude 44°36'29'' N., longitude 106°55'23'' W. C.P. for a new station on frequencies 5974.8V MHz toward Fort McKinney, Wyo., and 6019.3H MHz toward Sheridan, Wyo., via passive reflector.

6722–C1–P–72—The Mountain States Telephone & Telegraph Co. (KTQ79), 4 North Brooks Street, Sheridan, Wyo. Latitude 44°47'51'' N., longitude 106°57'25'' W. C.P. to add 6271.4V MHz toward Sheridan, Wyo., on latitude 44°47'45'' N., longitude 106°56'25'' W. via passive reflector.

INFORMATIVE: Applicant, MCI Pacific Coast, Inc., is proposing 36 new point-to-point microwave sites for specialized common carrier service in the States of California and Oregon. These applications are in compliance with the new engineering standards set forth in the Commission's First Report and Order in Docket No. 18920, effective July 15, 1971, and informative guidelines published regarding frequency coordination report No. 562 FCC Common Carrier Service Information released September 20, 1971.

6731–C1–P–72—MCI Pacific Coast, Inc. (New). A new station 4 miles south-southwest of Summit, Calif., at latitude 34°23'13'' N. and longitude 118°19'09'' W. Frequency 6093.5V MHz on azimuth 149°47'. Frequency 6063.8V MHz on azimuth 60°18'.

6732–C1–P–72—MCI Pacific Coast, Inc. (New). A new station 1.5 miles east of Vincent, Calif., at latitude 34°29'54'' N. and longitude 118°04'58'' W. Frequency 6345.5V MHz on azimuth 240°23'. Frequency 3750.0V MHz on azimuth 318°28'.

6733–C1–P–72—MCI Pacific Coast, Inc. (New). A new station 1 mile southwest of Quartz Hill, Calif., at latitude 34°38'39'' N. and longitude 118°14'21'' W. Frequency 3710.0V MHz on azimuth 138°23'. Frequency 3710.0V MHz on azimuth 309°4'.

6734–C1–P–72—MCI Pacific Coast, Inc. (New). A new station 18 miles southwest of Tehachapi, Calif., at latitude 34°55'14'' N. and longitude 118°39'13'' W. Frequency 3750.0V MHz on azimuth 128°50'. Frequency 3750.0V MHz on azimuth 265°48'. Frequency 3850.0H MHz on azimuth 305°18'.

6735–C1–P–72—MCI Pacific Coast, Inc. (New). A new station 0.5 mile southwest of Lakeview, Calif., at latitude 35°11'06'' N. and longitude 119°06'36'' W. Frequency 3810.0H MHz on azimuth 125°2'. Frequency 11625.0V MHz and 11225.0V MHz on azimuth 20°58'.

6736–C1–P–72—MCI Pacific Coast, Inc. (New). A new station 15.5 miles south-southeast of Maricopa, Calif., at latitude 34°53'05'' N. and longitude 119°13'26'' W. Frequency 3710.0V MHz on azimuth 85°29'. Frequency 3710.0V MHz on azimuth 264°59'.

6737–C1–P–72—MCI Pacific Coast, Inc. (New). A new station 5.5 miles south-southeast of Cuyama, Calif., at latitude 34°51'22'' N. and longitude 119°36'39'' W. Frequency 3750.0V MHz on azimuth 84°46'. Frequency 3850.0H MHz on azimuth 299°8'.

6738–C1–P–72—MCI Pacific Coast, Inc. (New). A new station 21 miles east-northeast of Santa Maria, Calif., at latitude 35°03'10'' N. and longitude 120°02'30'' W. Frequency 3810.0H MHz on azimuth 118°53'. Frequency 3810.0H MHz on azimuth 2°41'.

6739–C1–P–72—MCI Pacific Coast, Inc. (New). A new station 12.2 miles southwest of Blackwells Corner, Calif., at latitude 35°29'16'' N. and longitude 120°01'00'' W. Frequency 3850.0H MHz on azimuth 182°42'. Frequency 3750.0V MHz on azimuth 326°30'.

6740–C1–P–72—MCI Pacific Coast, Inc. (New). A new station 6.8 miles north-northeast of Parkfield, Calif., at latitude 35°55'34'' N. and longitude 120°22'26'' W. Frequency 3710.0V MHz on azimuth 146°17'. Frequency 3850.0V MHz on azimuth 334°10'.

6741–C1–P–72—MCI Pacific Coast, Inc. (New). A new station 4.4 miles southeast of Idria, Calif., at latitude 36°22'10'' N. and longitude 120°38'22'' W. Frequency 3810.0V MHz on azimuth 154°1'. Frequency 3850.0V MHz on azimuth 305°15'. Frequency 3710.0H MHz on azimuth 29°53'.

6742–C1–P–72—MCI Pacific Coast, Inc. (New). A new station 8.5 miles south-southwest of Mendota, Calif., at latitude 36°38'51'' N. and longitude 120°26'28'' W. Frequency 3750.0H MHz on azimuth 210°0'. Frequency 3850.0H MHz on azimuth 86°41'.

6743–C1–P–72—MCI Pacific Coast, Inc. (New). A new station 4.8 miles south-southwest of Kerman, Calif., at latitude 36°39'45'' N. and longitude 120°06'35'' W. Frequency 3810.0H MHz on azimuth 266°53'. Frequency 3810.0V MHz on azimuth 48°48'.

POINT-TO-POINT MICROWAVE RADIO SERVICE (TELEPHONE CARRIERS)—continued

6744–C1–P–72—MCI Pacific Coast, Inc. (New). A new station 2 miles northwest of Pinedale, Calif., at latitude 36°51'58" N. and longitude 119°49'11" W. Frequency 3650.0V MHz on azimuth 228°59'. Frequency 10,775.0V MHz and 11,175.0V MHz on azimuth 169°37'.

6745–C1–P–72—MCI Pacific Coast, Inc. (New). A new station 8 miles west of Llamada, Calif., at latitude 36°36'46" N. and longitude 121°04'04" W. Frequency 3810.0V MHz on azimuth 125°0'. Frequency 3710.0H MHz on azimuth 337°25'.

6746–C1–P–72—MCI Pacific Coast, Inc. (New). A new station 9.7 miles northeast of Hollister, Calif., at latitude 36°54'33" N. and longitude 121°13'17" W. Frequency 3750.0H MHz on azimuth 157°19'. Frequency 3750.0V MHz on azimuth 350°39'.

6747–C1–P–72—MCI Pacific Coast, Inc. (New). A new station 13.2 miles southwest of Patterson, Calif., at latitude 37°21'37" N. and longitude 121°18'52" W. Frequency 3710.0V MHz on azimuth 170°36'. Frequency 3710.0H MHz on azimuth 18°27'.

6748–C1–P–72—MCI Pacific Coast, Inc. (New). A new station 1.5 miles northwest of Ripon, Calif., at latitude 37°45'03" N. and longitude 121°09'01" W. Frequency 3750.0H MHz on azimuth 198°33'. Frequency 3750.0H MHz on azimuth 356°27'. Frequency 6063.8V MHz on azimuth 253°8'.

6749–C1–P–72—MCI Pacific Coast, Inc. (New). A new station 6.2 miles southwest of Midway, Calif., at latitude 37°38'11" N. and longitude 121°37'16" W. Frequency 6256.5V MHz on azimuth 72°51'. Frequency 6345.5H MHz on azimuth 295°3'.

6750–C1–P–72—MCI Pacific Coast, Inc. (New). A new station 4.5 miles southwest of Danville, Calif., at latitude 37°47'06" N. and longitude 122°01'25" W. Frequency 6004.5H MHz on azimuth 114°48'. Frequency 11665.0V MHz and 11265.0V MHz on azimuth 282°7'.

6751–C1–P–72—MCI Pacific Coast, Inc. (New). A new station 0.5 mile northeast of Oakland, Calif. (city limits), at latitude 37°48'37" N. and longitude 122°10'21" W. Frequency 10735.0V MHz and 11135.0V MHz on azimuth 102°2'. Frequency 6256.5V MHz on azimuth 280°20'.

6752–C1–P–72—MCI Pacific Coast, Inc. (New). A new station 2.5 miles east of Stockton, Calif., at latitude 37°57'36" N. and longitude 121°10'00" W. Frequency 3710.0H MHz on azimuth 176°26'. Frequency 3710.0V MHz on azimuth 46°9'.

6753–C1–P–72—MCI Pacific Coast, Inc. (New). A new station 5.5 miles southwest of Burson, Calif., at latitude 38°07'19" N. and longitude 120°57'11" W. Frequency 3750.0V MHz on azimuth 226°17'. Frequency 3750.0V MHz on azimuth 41°30'. Frequency 3850.0V MHz on azimuth 328°44'.

6754–C1–P–72—MCI Pacific Coast, Inc. (New). A new station 3 miles north of Clay, Calif., at latitude 38°19'15" N. and longitude 121°06'23" W. Frequency 3810.0V MHz on azimuth 148°39'. Frequency 3810.0V MHz on azimuth 296°21'.

6755–C1–P–72—MCI Pacific Coast, Inc. (New). A new station 3.5 miles south of Florin, Calif., at latitude 38°26'15" N. and longitude 121°24'25" W. Frequency 3850.0V MHz on azimuth 116°9'. Frequency 10775.0H MHz and 11175.0H MHz on azimuth 333°4'.

6756–C1–P–72—MCI Pacific Coast, Inc. (New). A new station 3.2 miles southeast of Nevada City, Calif., at latitude 39°14'45" N. and longitude 120°57'52" W. Frequency 6301.0H MHz on azimuth 149°11'. Frequency 6256.5V MHz on azimuth 305°27'.

6757–C1–P–72—MCI Pacific Coast, Inc. (New). A new station 3.3 miles southeast of Rackerby, Calif., at latitude 39°25'06" N. and longitude 121°16'39" W. Frequency 6152.8V MHz on azimuth 125°15'. Frequency 6019.3H MHz on azimuth 310°51'.

6758–C1–P–72—MCI Pacific Coast, Inc. (New). A new station 5.1 miles north of Oroville, Calif., at latitude 39°35'34" N. and longitude 121°32'19" W. Frequency 6301.0H MHz on azimuth 130°42'. Frequency 6271.4H MHz on azimuth 348°29'.

6759–C1–P–72—MCI Pacific Coast, Inc. (New). A new station 2.5 miles northwest of Lomo, Calif., at latitude 40°03'29" N. and longitude 121°39'43" W. Frequency 6049.0H MHz on azimuth 168°25'. Frequency 6019.3H MHz on azimuth 328°11'.

6760–C1–P–72—MCI Pacific Coast, Inc. (New). A new station 2.3 miles west of Paynes Creek, Calif., at latitude 40°20'32" N. and longitude 121°56'25" W. Frequency 6301.0H MHz on azimuth 143°0'. Frequency 6271.4V MHz on azimuth 358°24'.

6761–C1–P–72—MCI Pacific Coast, Inc. (New). A new station 0.8 mile north-northwest of Round Mountain, Calif., at latitude 40°48'19" N. and longitude 121°57'26" W. Frequency 6049.0V MHz on azimuth 178°24'. Frequency 6019.3V MHz on azimuth 63°45'.

6762–C1–P–72—MCI Pacific Coast, Inc. (New). A new station 5.5 miles west-southwest of Burney, Calif., at latitude 40°52'30" N. and longitude 121°46'14" W. Frequency 6301.0V MHz on azimuth 243°52'. Frequency 6271.4V MHz on azimuth 38°20'.

POINT-TO-POINT MICROWAVE RADIO SERVICE (TELEPHONE CARRIERS)—continued

6763–C1–P–72—MCI Pacific Coast, Inc. (New). A new station 2 miles south of Dana, Calif., at latitude 41°04'28" N. and longitude 121°33'43" W. Frequency 6019.3V MHz on azimuth 218°28'. Frequency 6034.2H MHz on azimuth 351°57'.

6764–C1–P–72—MCI Pacific Coast, Inc. (New). A new station 13.3 miles east of Tenant, Calif., at latitude 41°34'44" N. and longitude 121°39'25" W. Frequency 6286.2H MHz on azimuth 171°53'. Frequency 6271.4H MHz on azimuth 318°1'.

6765–C1–P–72—MCI Pacific Coast, Inc. (New). A new station 3 miles east of Beswick, Calif., at latitude 41°58'26" N. and longitude 122°08'04" W. Frequency 5989.7H MHz on azimuth 137°42'. Frequency 6019.3V MHz on azimuth 284°44'.

6766–C1–P–72—MCI Pacific Coast, Inc. (New). A new station 3.2 miles northeast of Medford, Oreg., at latitude 42°21'14" N. and longitude 122°47'34" W. Frequency 6049.0V MHz on azimuth 165°40'. Frequency 10775.0V MHz and 11175.0V MHz on azimuth 245°23'.

(INFORMATIVE. Applicant proposes to add two new stations to its pending proposal to provide video programming to television stations in the States of Minnesota and Wisconsin. See also file nos. 3654 through 3667–C1–P–71, this Public Notice.)

6768–C1–P–72—Midwestern Relay Co. (New). Application for construction permit to construct a new station at University of Wisconsin (WHA–TV), Madison, Wis. (latitude 43°04'30" N., longitude 89°26'37" W.), on frequency 11385V MHz toward Madison (5727 Tokay Boulevard), Wis., on azimuth 228°20'.

6769–C1–P–72—Midwestern Relay Co. (New). Application for construction permit to construct a new station at studio of WMVS–TV, 1015 North Sixth Street, Milwaukee, Wis. (latitude 43°02'36" N., longitude 87°55'18" W.), on frequency 10735V MHz toward Milwaukee (WTMJ–TV), Wis., on azimuth 15°56'.

The following Applicants propose to establish omnidirectional facilities for the provision of common carrier "Subscriber-Programmed" television service.

6578–C1–P–72—Golden Peso (New), 302 East Carson Street, Las Vegas, NV. Latitude 36°10'03" N., longitude 115°08'33" W. C.P. to add 2152.325 (Visual), 2150.20 (Aural), toward various receiving points of system and 2158.50 (Visual), 2154.00 (Aural), toward various receiving points of system.

6579–C1–P–72—Fresno Mobile Radio, Inc. (New), 1060 Fulton Street, Fresno, CA. Latitude 36°44'06" N., longitude 119°47'24" W. C.P. to add 2150.20 (Aural), 2152.325 (Visual), toward various receiving points of system and 2154.00 (Aural), 2158.500 (Visual), toward various receiving points of system.

6581–C1–P–72—Microwave Relay Services, Inc. (New), 1520 Senate Street, Columbia, SC. Latitude 34°0'3" N., longitude 81°1'38" W. C.P. to add 2152.325 (Visual), 2150.20 (Aural), toward various receiving points of system and 2158.50 (Visual), 2154.00 (Aural), toward various receiving points of system.

6582–C1–P–72—Microwave Relay Services, Inc. (New), 200 S. Tryon Street, Charlotte, NC. Latitude 35°13'35" N., longitude 80°50'41" W. C.P. to add 2152.325 (Visual), 2150.20 (Aural), toward various receiving points of system and 2158.50 (Visual) 2154.00 (Aural), toward various receiving points of system.

6583–C1–P–72—Microwave Relay Services, Inc. (New), northwest corner of King and Calhoun Streets, Charleston, S.C. Latitude 32°47'9" N., longitude 79°56'11" W. C.P. to add 2152.325 (Visual), 2150.20 (Aural), toward various receiving points of system and 2158.50 (Visual), 2154.00 (Aural), toward various receiving points of system.

6584–C1–P–72—Microwave Relay Services, Inc. (New), Montgomery, Ala. Latitude 32°22'43" N., longitude 86°18'37" W. C.P. to add 2152.325 (Visual), 2150.20 (Aural), toward various receiving points of system and 2158.50 (Visual), 2154.00 (Aural) toward various receiving points of system.

INFORMATIVE: It appears that the following applications may be mutually exclusive subject to the Commission's Rules regarding ex parte presentations, reasons of potential electrical interference.

Nevada—Las Vegas: Golden Peso (New), File No. 6578–C1–P–72; Tekkom, Inc. (New), File No. 4975–C1–P–72.

California—Fresno: Fresno Mobile Radio, Inc. (New), File No. 6579–C1–P–72; Century Cable Communications, Inc. (New), File No. 4973–C1–P–72.

POINT-TO-POINT MICROWAVE RADIO SERVICE (TELEPHONE CARRIERS)—continued

North Carolina—Charlotte: Microwave Relay Services, Inc. (New), File No. 6582–C1–P–72; Two-Way Radio of Carolina, Inc. (New), File No. 4639–C1–P–72; Midwest Corporation (New), File No. 5047–C1–P–72.

INFORMATIVE: It appears that the following applications may be mutually exclusive and subject to the Commission's Rules regarding ex parte presentations, by reasons of economic competition:

Oklahoma: Microrelay of New Mexico, Inc., File Nos. 5859/5860–C1–P–72; United Videlo, Inc., File No. 3516–C1–P–72.

Applicant, MCI Texas-East Microwave, Inc., is amending 34 of its previously filed applications for authority to construct new specialized common carrier systems in a two State area from Dallas, Tex., to New Orleans, and Shreveport, La. The applications now being amended were originally filed on April 10, 1970, and June 26, 1970. They appeared on Public Notice, April 20, 1970, and July 6, 1970. Each application now amended is referenced to the date originally filed. In addition 23 new sites are now proposed. The amendments and new applications are necessitated to insure compliance with the new engineering standards set forth in the Commission's First Report and Order in Docket No. 18920, effective July 15, 1971, and informative guidelines published regarding Frequency Coordination Report No. 562, Common Carrier Services Information released September 20, 1971.

6066–C1–P–70 and 8902–C1–P–71—MCI Texas-East Microwave, Inc. (New), Site 1, Dallas, Tex. Change proposed station location to 2001 Bryan Street, Dallas, TX at latitude 32°47'07" N., longitude 96°47'47" W. Correct frequencies and azimuths to 10775.0H, 11175.0H MHz on azimuth 295°03' toward Irving, Tex., and 10715.0V, 11115.0V MHz on azimuth 78°38' toward Forney, Tex. Delete Cedar Hill, Tex., as a point of communication. Delete frequencies 6004.5, 6123.1 MHz on azimuth 213°06' and 10875.0, 11115.0 MHz on azimuth 78°29'.

6067–C1–P–70—MCI Texas-East Microwave, Inc. (New), Site 4, Burleson, Tex. Change proposed station location to 1.5 miles south of Burleson, Tex. at latitude 32°30'56" N., longitude 97°19'32" W. Correct frequencies and azimuths to 6034.2V MHz on azimuth 43°42' toward Arlington, Tex., 5945.2V MHz on azimuth 358°55' toward Fort Worth, Tex., and 5945.2V MHz on azimuth 166°40' toward Covington, Tex. Delete Dallas, Tex., and Italy, Tex., as points of communication. Delete frequencies 6256.5, 6375.2 MHz on azimuth 33°01', 6226.9, 6345.5 on azimuth 298°39' and 6226.9, 6345.5 MHz on azimuth 183°00'.

6068–C1–P–70—MCI Texas-East Microwave, Inc. (New), Site 5, Fort Worth, Tex. C.P. for a new station at Seventh and Throckmorton Streets, Fort Worth, Tex., at latitude 32°45'08" N., longitude 97°19'51" W. Correct frequencies and azimuths to 6197.2V MHz on azimuth 178°55' toward Burleson, Tex. Delete Cedar Hill, Tex., as a point of communication. Delete frequencies 5974.8, 6093.5 MHz on azimuth 118°27'.

6069–C1–P–70—MCI Texas-East Microwave, Inc. (New), Site 7, Milford, Tex. Change proposed station location to 3.6 miles southwest of Milford, Tex., at latitude 32°05'42" N., longitude 97°00'21" W. Correct frequencies and azimuth to 5974.8H MHz on azimuth 305°41' toward Covington, Tex., and 5945.2V MHz on azimuth 162°57' toward Mount Calm, Tex. Delete Cedar Hill, Tex., as a point of communication. Delete frequencies 6004.5, 6123.1 MHz on azimuth 03°00' and 5974.8, 6093.5 MHz on azimuth 169°21'.

6070–C1–P–70—MCI Texas-East Microwave, Inc. (New), Site 8, Mount Calm, Tex. C.P. for a new station located at 1.5 miles north-northwest of Mount Calm, Tex., at latitude 31°44'14" N., longitude 96°52'39" W. Correct frequencies and azimuths to 6197.2V MHz on azimuth 343°01' toward Milford, Tex., 11685.0V, 11285.0V MHz on azimuth 230°23' toward Waco, Tex., and 6226.9V MHz on azimuth 160°04' toward Koose, Tex. Delete Italy, Tex., as a point of communication. Delete frequencies 6197.2, 6315.9 MHz on azimuth 349°24', 6226.9, 6345.5 MHz on azimuth 162°27' and 11445, 11685 MHz on azimuth 230°23'.

6071–C1–P–70—MCI Texas-East Microwave, Inc. (New), Site 9, Waco, Tex. C.P. for a new station at the Amicable Life Insurance Building, 425 Austin Avenue, Waco, TX, at latitude 31°33'23" N., longitude 97°07'56" W. Correct frequencies and azimuths to 10755.0V, 11155.0V MHz on azimuth 50°15' toward Mount Calm, Tex., and 6286.2H MHz on azimuth 244°39' toward Oglesby, Tex. Delete frequencies 10995.0 MHz on azimuth 50°15' and 6404.8 MHz on azimuth 244°39'.

POINT-TO-POINT MICROWAVE RADIO SERVICE (TELEPHONE CARRIERS)—continued

6072–C1–P–70—MCI Texas-East Microwave, Inc. (New), Site 10, Oglesby, Tex. C.P. for a new station at 1.2 miles south-southwest of Oglesby, Tex., at latitude 31°24'09" N., longitude 97°30'34" W. Correct frequencies and azimuths to 5974.8H MHz on azimuth 64°27' toward Waco, Tex., and 5974.8V MHz on azimuth 230°49' toward Kempner, Tex. Delete frequencies 6093.5 MHz on azimuth 64°27' and 6152.8 MHz on azimuth 230°49'.

6073–C1–P–70—MCI Texas-East Microwave, Inc. (New), Site 11, Kempner, Tex. C.P. for a new station at 2 miles east-northeast of Kempner, Tex., at latitude 31°04'56" N., longitude 97°57'53" W. Correct frequencies and azimuths to 6226.9V MHz on azimuth 50°34' toward Oglesby, Tex., and 6197.2V MHz on azimuth 186°20' toward Liberty Hill, Tex. Delete frequencies 6345.5 MHz on azimuth 50°34' and 6315.9 MHz on azimuth 186°20'.

6074–C1–P–70—MCI Texas-East Microwave, Inc. (New), Site 12, Liberty Hill, Tex. C.P. for a new station at 6.8 miles west-southwest of Liberty Hill, Tex., at latitude 30°37'00" N., longitude 98°01'28" W. Correct frequencies and azimuths to 5945.2V MHz on azimuth 06°18' toward Kempner, Tex., and 6034.2H MHz on azimuth 146°10' toward Austin West, Tex. Delete frequencies 6063.8 MHz on azimuth 06°18' and 6152.8 MHz on azimuth 146°10'.

6075–C1–P–70—MCI Texas-Microwave, Inc. (New), Site 13, Austin West, Tex. C.P. for a new station at 2.5 miles west-northwest of Austin, Tex., at latitude 30°19'31" N., longitude 97°47'58" W. Correct frequencies and azimuths to 6226.9H MHz on azimuth 326°17' toward Liberty Hill, Tex., 10775.0V, 11175.0V on azimuth 138°54' toward Austin, Tex., and 6226.9V MHz on azimuth 238°35' toward Spring Branch, Tex. Delete frequencies 6256.5, 6375.2 MHz on azimuth 325°39', 10755, 10995 on azimuth 138°54' and 6345.5 MHz on azimuth 238°35'.

6076–C1–P–70—MCI Texas-Microwave, Inc. (New), Site 14, Austin, Tex. C.P. for a new station at Capital National Bank, 114 West Seventh Street, Austin, TX at latitude 30°16'09" N., longitude 97°44'35" W. Correct frequencies and azimuths to 11665.0V, 11345.0V MHz on azimuth 318°55' toward Austin West, Tex. Delete frequencies 11685.0, 11445.0 MHz on azimuth 318°55'.

6077–C1–P–70—MCI Texas-Microwave, Inc. (New), Site 15, Spring Branch, Tex. C.P. for a new station at 6.4 miles northwest of Spring Branch, Tex., at latitude 29°58'55" N., longitude 98°26'32" W. Correct frequencies and azimuths to 5974.8V MHz on azimuth 58°16' toward Austin West, Tex., and 6004.5V MHz on azimuth 151°07' toward Marion, Tex. Delete frequencies 6093.5 MHz on azimuth 58°16' and 6123.1 MHz on azimuth 151°07'.

6078–C1–P–70—MCI Texas-East Microwave, Inc. (New), Site 16, Marion, Tex. C.P. for a new station at 4.4 miles northwest of Marion, Tex., at latitude 29°36'34" N., longitude 98°12'26" W. Correct frequencies and azimuths to 6256.5V MHz on azimuth 331°14' toward Spring Branch, Tex., and 6197.2H MHz on azimuth 234°06' toward San Antonio, Tex. Delete frequencies 6375.2 MHz on azimuth 331°14' and 6315.9 MHz on azimuth 234°06'.

6079–C1–P–70—MCI Texas-East Microwave, Inc. (New), Site 17, San Antonio, Tex. C.P. for a new station at National Bank of Commerce, 430 Soledad Street, San Antonio, TX, at latitude 29°25'40" N., longitude 98°29'36" W. Correct frequencies and azimuths to 5945.2H MHz on azimuth 53°57' toward Marion, Tex. Delete frequencies 6063.8 MHz on azimuth 53°57'.

6080–C1–P–70—MCI Texas-East Microwave, Inc. (New), Site 18, Kosse, Tex. Change proposed station location to 5.5 miles northwest of Kosse, Tex., at latitude 31°21'09" N., longitude 96°42'54" W. Correct frequencies and azimuths to 5974.8V MHz on azimuth 340°09' toward Mount Calm, Tex., and 5974.8H MHz on azimuth 150°46' toward Franklin, Tex. Delete frequencies 6034.2, 6152.8 MHz on azimuth 342°32' and 5945.2, 6063.8 MHz on azimuth 146°59'.

6081–C1–P–70—MCI Texas-East Microwave, Inc. (New), Site 19, Franklin, Tex. Change proposed station location to 3 miles south of Franklin, Tex., at latitude 30°59'34" N., longitude 96°28'53" W. Correct frequencies and azimuth to 6226.9H MHz on azimuth 330°53' toward Kosse, Tex., and 6197.2H MHz on azimuth 147°52' toward Bryan, Tex. Delete College Station, Tex., as a point of communication. Delete frequencies 6197.2, 6315.9 MHz on azimuth 327°06' and 6226.9, 6345.5 MHz on azimuth 148°59'.

6082–C1–P–70—MCI Texas-East Microwave, Inc. (New), Site 20, Bryan, Tex. Change proposed station location to 6.8 miles east of Bryan, Tex., at latitude 30°40'13" N., longitude 96°14'50" W. Correct frequencies and azimuths to 5945.2H MHz on azimuth 327°59' toward Franklin, Tex., and 5945.2V MHz on azimuth 136°22' toward Plantersville, Tex. Delete frequencies 6034.2, 6152.8 MHz on azimuth 392°08' and 5974.8, 6093.5 MHz on azimuth 132°56'.

POINT-TO-POINT MICROWAVE RADIO SERVICE (TELEPHONE CARRIERS)—continued

6083–C1–P–70—MCI Texas-East Microwave, Inc. (New), Site 21, Plantersville, Tex. Change proposed station location to 5.9 miles northwest of Plantersville, Tex., at latitude 30°23'25" N., longitude 95°56'23". Correct frequencies and azimuths to 6197.2V MHz on azimuth 316°32' toward Bryan, Tex., and 6226.9V MHz on azimuth 128°02' toward Mostyn, Tex. Delete College Station, Tex., and Pinehurst, Tex., as points of communication. Delete frequencies 6286.2, 6404.8 MHz on azimuth 313°05' and 6256.5, 6375.2 MHz on azimuth 122°27'.

6084–C1–P–70—MCI Texas-East Microwave, Inc. (New), Site 22, Mostyn, Tex. Change proposed station location to 1.2 miles south-southeast of Mostyn, Tex., at latitude 30°12'46" N., longitude 95°40'44" W. Correct frequencies and azimuths to 5945.2V MHz on azimuth 308°10' toward Plantersville, Tex., to 5945.2H MHz on azimuth 64°30' toward Beach, Tex., and 5945.2V MHz on azimuth 137°43' toward Westfield, Tex. Delete Houston, Tex., as a point of communication. Delete frequencies 6004.5, 6123.1 MHz on azimuth 302°36' and 5945.2, 6063.8 MHz on azimuth 153°42'.

6087–C1–P–70—MCI Texas-East Microwave, Inc. (New), Site 24, Kinwood, Tex. Change proposed station location to 3 miles east-southeast of Kinwood, Tex., at latitude 29°54'00" N., longitude 95°15'05" W. Correct frequencies and azimuths to 5974.8V MHz on azimuth 299°08' toward Westfield, Tex., 5974.8H MHz on azimuth 128°14' toward Baytown, Tex., and 5945.2V MHz on azimuth 215°42' toward Houston, Tex. Delete Fannett, Tex., as a point of communication. Delete frequencies 6197.2, 6375.2 MHz on azimuth 248°26' and 6226.9, 6404.8 MHz on azimuth 77°27'.

6085–C1–P–70—MCI Texas-East Microwave, Inc. (New), Site 25, Houston, Tex. C.P. for a new station at 1 Shell Plaza, Houston, Tex., at latitude 29°45'31" N., longitude 95°22'04" W. Correct frequencies and azimuths to 6197.2V MHz on azimuth 35°38' toward Kinwood, Tex. Delete Baytown, Tex., and Pinehurst, Tex., as points of communications. Delete frequencies 6197.2, 6315.9 MHz on azimuth 333°49' and 6226.9, 6404.8 MHz on azimuth 94°59'.

6086–C1–P–70—MCI Texas-East Microwave, Inc. (New), Site 26, Baytown, Tex. C.P. for a new station at the corner of Havor and Market Streets, Baytown, Tex., at latitude 29°43'50" N., longitude 95°00'19" W. Correct frequencies and azimuths to 6226.9H MHz on azimuth 308°21' toward Kinwood, Tex. Delete Houston, Tex., and Hankamer, Tex., as points of communication. Delete frequencies 5974.8, 6152.8 MHz on azimuth 275°09' and 5945.2, 6123.1 MHz on azimuth 68°15'.

6088–C1–P–70—MCI Texas-East Microwave, Inc. (New), Site 31, Silsbee, Tex. Change proposed station location to 9.1 miles south-southwest of Silsbee, Tex., at latitude 30°13'12" N., longitude 94°14'36" W. Correct frequencies and azimuths to 6286.2H MHz on azimuth 299°03' toward Thicket, Tex., and 6197.2H MHz on azimuth 137°28' toward Beaumont, Tex. Delete Hankamer, Tex., as a point of communication. Delete frequencies 5974.8, 6152.8 MHz on azimuth 257°38' and 5945.2, 6123.1 MHz on azimuth 43°01'.

6089–C1–P–70—MCI Texas-East Microwave, Inc. (New), Site 32, Beaumont, Tex. C.P. for a new station at the San Jacinto Building, Beaumont, Tex., at latitude 30°04'56" N., longitude 94°05'53" W. Correct frequencies and azimuths to 5945.2H MHz on azimuth 317°32' toward Silsbee, Tex. Delete Fannett, Tex., and Deweyville, Tex., as points of communication. Delete frequencies 6197.2, 6375.2 MHz on azimuth 233°06' and 6226.9, 6404.8 MHz on azimuth 56°46'.

6096–C1–P–70—MCI Texas-East Microwave, Inc. (New), Site 43, Baton Rouge, La. Change proposed station location to 5700 Florida Boulevard, Baton Rouge, La., at latitude 30°27'02" N., longitude 91°07'57" W. Correct frequencies and azimuths to 11,665.0H, 11,265.0H MHz on azimuth 337°15' toward Scotlandville, La., and 6197.2V MHz on azimuth 87°16' toward Denham Springs, La. Delete Maringouin, La., and Frost, La., as points of communication. Delete frequencies 5945.2, 6063.8 MHz on azimuth 271°07' and 5974.8, 6093.5 MHz on azimuth 100°18'.

6098–C1–P–70—MCI Texas-East Microwave, Inc. (New), Site 49, Marrero, La. Change proposed station location to 2.5 miles south of Marrero, La., at latitude 29°51'38" N., longitude 90°06'07" W. Correct frequencies and azimuths to 6241.7H MHz on azimuth 291°29' toward Luling, La., and 6212.0H MHz on azimuth 14°47' toward New Orleans, La. Delete Frost, La., as a point of communication. Delete frequencies 6004.5, 6123.1 MHz on azimuth 350°41' and 5974.8, 6093.5 MHz on azimuth 80°11'.

POINT-TO-POINT MICROWAVE RADIO SERVICE (TELEPHONE CARRIERS)—continued

6099–C1–P–70—MCI Texas-East Microwave, Inc. (New), Site 50, New Orleans, La. Change proposed station location to 1010 Howard at Loyola, New Orleans, La., at latitude 29°56'45" N., longitude 90°04'34" W. Correct frequencies and azimuths to 5989.7H MHz on azimuth 194°48' toward Marrero, La. Delete Kraemer, La., as a point of communication. Delete frequencies 6226.9, 6345.5 MHz on azimuth 260°27'.

8903–C1–P–70—MCI Texas-East Microwave, Inc. (New), Site 51, Forney, Tex. C.P. for a new station location at 6.0 miles north of Forney, Tex., at latitude 32°50'29" N., longitude 96°27'47" W. Correct frequencies and azimuths to 11645.0V, 11245.0V MHz on azimuth 258°49' toward Dallas, Tex., and 6256.5H MHz on azimuth 124°51' toward Cedarvale, Tex. Delete frequencies 11325 MHz on azimuth 258°49' and 6375.2 MHz on azimuth 124°51'.

8904–C1–P–70—MCI Texas-East Microwave, Inc. (New), Site 52, Cedarvale, Tex. C.P. for a new station at 5.4 miles east of Cedarvale, Tex., at latitude 32°34'04" N., longitude 96°00'02" W. Correct frequencies and azimuths to 6004.5H MHz on azimuth 305°06' toward Forney, Tex., and 6034.2V MHz on azimuth 96°22' toward Lindale, Tex. Delete frequencies 6123.1 MHz on azimuth 305°06' and 6152.8 MHz on azimuth 96°22'.

8905–C1–P–70—MCI Texas-East Microwave, Inc. (New), Site 53, Lindale, Tex. C.P. for a new station at 3.6 miles west of Lindale, Tex., at latitude 32°31'02" N., longitude 95°26'36" W. Correct frequencies and azimuths to 6286.2V MHz on azimuth 276°38' toward Cedarvale, Tex., 6197.2H on azimuth 104°16' toward Kilgore, Tex., and 6256.5V MHz on azimuth 138°07' toward Tyler, Tex. Delete frequencies 6404.8 MHz on azimuth 276°38', 6375.2 on azimuth 138°07', and 6226.9, 6345.5 MHz on azimuth 104°16'.

8906–C1–P–70—MCI Texas-East Microwave, Inc. (New), Site 54, Tyler, Tex. C.P. for a new station at intersection of College and Erwin Streets, Tyler, Tex., at latitude 32°21'09" N., longitude 95°18'10" W. Correct frequencies and azimuths to 6004.5H MHz on azimuth 318°13' toward Lindale, Tex. Delete frequencies 6123.1 MHz on azimuth 318°13'.

8907–C1–P–70—MCI Texas-East Microwave, Inc. (New), Site 55, Kilgore, Tex. C.P. for a new station at 6.1 miles west of Kilgore, Tex., at latitude 32°24'39" N., longitude 94°59'16" W. Correct frequencies and azimuths to 5945.2H MHz on azimuth 284°32' toward Lindale, Tex., and 5945.2V MHz on azimuth 92°34' toward Gill, Tex. Delete frequencies 5974.8, 6093.5 MHz on azimuth 284°32' and 6063.8 MHz on azimuth 92°34'.

8908–C1–P–70—MCI Texas-East Microwave, Inc. (New), Site 56, Gill, Tex. C.P. for a new station at 4.9 miles east of Gill, Tex., at latitude 32°22'56" N., longitude 94°17'10" W. Correct frequencies and azimuths to 6197.2H MHz on azimuth 272°56' toward Kilgore, Tex., and 6226.9V MHz on azimuth 73°41' toward Shreveport, La. Delete frequencies 6197.2, 6315.9 MHz on azimuth 73°41' and 6286.2, 6404.8 MHz on azimuth 272°56'.

8909–C1–P–70—MCI Texas-East Microwave, Inc. (New), Site 57, Shreveport, La. C.P. for a new station at 400 Travis Street, Shreveport, La., at latitude 32°30'51" N., longitude 93°44'58" W. Correct frequencies and azimuths to 5974.8H MHz on azimuth 253°58' toward Gill, Tex. Delete frequencies 6034.2, 6152.8 MHz on azimuth 253°58'.

3654–C1–P–71—Midwestern Relay Co. (New), studio of WLS–TV, 190 North State Street, Chicago, IL: Application amended to change frequencies to 11265V MHz and 11345V MHz toward Chicago (Merchandise Mart), Ill., on azimuth 301°05'.

3655–C1–P–71—Midwestern Relay Co. (New), studio of WBBM–TV, 630 North McLurg Court, Chicago, IL: Application amended (a) to change station coordinates to latitude 41°53'39" N., longitude 87°37'02" W.; and (b) to change frequencies to 11505V MHz and 11585V MHz toward passive reflector at Chicago (Furniture Mart), Ill., on azimuth 65°45' and thence to Chicago (Merchandise Mart) on azimuth 245°45'.

3656–C1–P–71—Midwestern Relay Co. (New), Chicago (Merchandise Mart), Ill.: Application amended (a) to change frequency to 11135V MHz toward studio of WLS–TV, Chicago, Ill., on azimuth 121°05'; (b) to change frequency to 10895V MHz toward passive reflector at Chicago (Furniture Mart), Ill., on azimuth 65°45' and thence to studio of WBBM–TV, Chicago, Ill., on azimuth 245°45'; (c) to delete Cloverdale, Ill., as point of communications; and (d) to propose new point of communication at Glendale Heights, Ill., on frequencies 10735H, 10855V, 10975H, 11095V and 11175V MHz, and azimuth of 273°15'.

3657–C1–P–71—Midwestern Relay Co. (New), Glendale Heights, Ill.: Application amended (a) to change station location to Glendale Heights, Ill., at latitude 41°54'25" N., longitude 88°05'48" W.; (b) to change frequencies to 11265V, 11305H, 11345V, 11505V and 11545V MHz toward Crystal Lake, Ill., on azimuth 338°14'; and (c) to change frequencies to 11425H and 11665H MHz toward Chicago (Merchandise Mart), Ill., on azimuth 92°57'.

POINT-TO-POINT MICROWAVE RADIO SERVICE (TELEPHONE CARRIERS)—continued

3658–C1–P–71—Midwestern Relay Co. (New), Crystal Lake, 1.90 miles east of Crystal Lake, Ill.: Application amended (a) to change frequencies to 5945.2V, 5974.8H, 6004.5V, 6034.2H and 6063.8V MHz toward Lake Geneva, Wis., on azimuth 351°15'; and (b) to change frequencies to 10815V and 11135V MHz toward Glendale Heights, Ill., on azimuth 158°07'.

3659–C1–P–71—Midwestern Relay Co. (New), 3.0 miles east of Lake Geneva, Wis.: Application amended (a) to change frequencies to 6197.2H, 6226.9V, 6256.5H, 6286.2V and 6315.6H MHz toward North Prairie, Wis., on azimuth 00°31'; (b) to change frequencies to 6197.2V and 6256.5V MHz toward Crystal Lake, Ill., on azimuth 171°15'; and (c) to change station coordinates to latitude 42°36'49" N., longitude 88°21'30" W.

3660–C1–P–71—Midwestern Relay Co. (New), 2.60 miles east of North Prairie, Wis.: Application amended (a) to change frequencies to 5945.2H, 5974.8V, 6004.5H, 6034.2V, 6063.8H, 6093.8H, and 6123.1H MHz toward Rubicon, Wis. on azimuth 348°13'; (b) to change frequencies to 5945.2V, 5974.8H, 6004.5V, 6034.2H, 6063.8V, and 6093.5H MHz toward Milwaukee (WTMJ–TV), Wis., on azimuth 63°51'; and (c) to change frequencies to 5945.2H and 6004.5H MHz toward Lake Geneva, Wis., on azimuth 180°31'.

3661–C1–P–71—Midwestern Relay Co. (New), 720 East Capitol Drive, Milwaukee (WTMJ–TV), Wis.: Application amended (a) to change frequencies to 11265H and 11345H MHz and azimuth to 206°32' toward Milwaukee (WISN–TV), Wis.; (b) to change azimuth toward Milwaukee (WITI–TV), Wis., to 307°22'; (c) to propose a second frequency (6226.9H) toward North Prairie, Wis., on revised azimuth of 243°51'; (d) to propose new point of communication at Milwaukee (WVTV–TV), Wis., on azimuth of 268°27' and frequencies 11265V and 11585V MHz; (e) to propose new point of communication at Milwaukee (WMVS–TV), Wis., on frequency 11425V MHz and azimuth of 195°56'.

3662–C1–P–71—Midwestern Relay Co. (New), 1 mile northwest of Rubicon, Wis.: Application amended (a) to change station location to Rubicon, Wis., at latitude 43°20'53" N., longitude 88°28'15" W.; (b) to change frequency 6197.2H to frequencies 6345.5V and 6404.8V MHz toward North Prairie, Wis., on azimuth 168°13'; (c) to change frequencies to 6197.2V, 6256.5V, 6286.2H, 6315.9V and 6375.2V MHz toward Graham Corner, Wis., on azimuth 30°02'; and (d) to propose frequencies 6197.2V, 6226.9H, 6315.9V and 6286.2H MHz toward new point of communication at Jefferson, Wis., on azimuth 221°07'.

3663–C1–P–71—Midwestern Relay Co. (New), 1 mile northeast of Graham Corner, Wis.: Application amended (a) to change frequencies to 5945.2H, 5974.8V, 6034.2V, 6063.8H, and 6004.5H MHz toward Stockbridge, Wis., on azimuth 348°03'; and (b) to change point of communication from Slinger to Rubicon, Wis., on azimuth 210°02'.

3664–C1–P–71—Midwestern Relay Co. (New), 2 miles east of Stockbridge, Wis.: Application amended (a) to change frequencies to 6197.2H, 6226.9V, 6375.2H, 6404.8V, and 6286.2V MHz toward DePere, Wis., on azimuth 28°10'; and (b) to change frequency 6315.9H to 6315.9V MHz toward Graham Corner, Wis., on azimuth 168°03'.

3665–C1–P–71—Midwestern Relay Co. (New), 3 miles southeast of DePere, Wis.: Application amended (a) to change azimuth toward Green Bay (WFRV–TV), Wis., to 358°11'; (b) to change azimuth toward Green Bay (WLUK–TV), Wis., to 337°02'; (c) to change azimuth toward Green Bay (WBAY–TV), Wis., to 355°00'; (d) to change frequency 6093.5V to 6093.5H MHz toward Stockbridge, Wis., on azimuth 208°10'; and (e) to propose frequency 11,015V MHz toward new point of communication at Green Bay (WPNE–TV), Wis., on azimuth 21°28'.

3666–C1–P–71—Midwestern Relay Co. (New), Jefferson, Wis.: Application amended (a) to change station location to Jefferson, Wis., at latitude 42°59' 38" N., longitude 88°53'49" W.; (b) to change frequencies to 5945.2V, 6004.5V, 6063.8V, and 6123.1V MHz toward Madison, Wis., on azimuth 277°39'; and (c) to propose frequencies 6152.8H and 6152.8V MHz toward new points of communication at Rubicon and North Prairie, Wis., on azimuths of 41°07' and 96°45', respectively.

3667–C1–P–71—Midwestern Relay Co. (New), 5727 Tokay Boulevard, Madison, Wis. Application amended (a) to change station location to Madison, Wis., at latitude 43°03'09" N., longitude 89°28'42" W.; (b) to change frequencies to 10775H and 10935H MHz toward Madison (WISC–TV), Wis., on azimuth 135°11'; (c) to change frequencies to 10775V and 11015V MHz toward Madison (WMTV–TV), Wis., on azimuth 251°51'; (d) to propose frequency 6375.2V MHz toward new point of communication at Jefferson, Wis., on azimuth 97°39'; and (e) to propose frequency 10775V MHz toward new point of communication at Madison (WHA–TV), Wis., on azimuth 48°20'.

POINT-TO-POINT MICROWAVE RADIO SERVICE (TELEPHONE CARRIERS)—continued

3665–C1–P–71—Midwestern Relay Co. (New), 3 miles southeast of DePere, Wis. Application amended to change station coordinates to latitude 44°24'30" N., longitude 87°59'57" W. (See same file number above.)

3357–C1–P–72—CPI Microwave, Inc. (New), San Antonio, Tex. Change frequency 6271.4H MHz toward Beeville, Tex., to 6301.0V MHz.

3359–C1–P–72—CPI Microwave, Inc. (New), 6.4 miles north of Pawnee, Tex. Change frequency 6271.4H MHz toward Beeville, Tex., to 6301.0V MHz.

3360–C1–P–72—CPI Microwave, Inc. (New), change station location to 9 miles west of Beeville, Tex. Latitude 28°26'54" N., longitude 97°55'40" W.

All other particulars same as reported on Public Notice dated 12–13–71.

INFORMATIVE: Applicant, MCI Mid-South, Inc., is amending 32 point-to-point microwave sites for specialized common carrier service between New Orleans, La., Memphis, Tenn., Atlanta, Ga., and Columbus, Ga. The amendments are necessitated to insure compliance with the new engineering standards set forth in the Commission's First Report and Order in Docket No. 18920, effective July 15, 1971, and Informative Guidelines published regarding frequency coordination report No. 562 FCC Common Carrier Services Information released September 20, 1971.

2462–C1–P–70—MCI Pacific Coast, Inc. (New). Station location: 1813 H Street, Bakersfield, CA. Delete frequencies 3970.0 MHz and 4130.0 MHz on azimuth 27°59'. Add frequency 10735.0V MHz and 11135.0V MHz on azimuth 201°1'.

2465–C1–P–70—MCI Pacific Coast, Inc. (New). Station location: 1058 Fulton Mall, Fresno, CA. Delete frequencies 5960.0 MHz and 6078.6 MHz on azimuth 42°23'. Add frequency 11665.0V MHz and 11265.0V MHz on azimuth 349°38'.

2468–C1–P–70—MCI Pacific Coast, Inc. (New). Station location: 1.6 miles south-southeast of Pine Grove, Calif. Delete frequencies 6271.4 MHz and 6390.0 MHz on azimuth 143°33' and 6241.7 MHz and 6360.3 MHz on azimuth 294°31'. Delete frequencies 6212.0 MHz and 6330.7 MHz on azimuth 229°4'. Add frequency 3710.0V MHz on azimuth 221°41'. Add frequency 3710.0H MHz on azimuth 355°26'. Relocate site to latitude 38°23'24" N. and longitude 120°39'5" W.

2471–C1–P–70—MCI Pacific Coast, Inc. (New). Station location: Fourth and J Street, Sacramento, Calif. Delete frequencies 11385.0 MHz and 11625.0 MHz on azimuth 96°13', and 6212.0 MHz and 6330.7 MHz on azimuth 248°1'. Add frequency 11665.0H MHz and 11265.0H MHz on azimuth 153°0'.

6727–C1–P–70—MCI Mid-South, Inc. (New). Station location: 3 miles northeast of Brandon, Miss. Delete frequencies 5945.2H MHz and 6063.8H MHz on azimuth 42°48', and 6004.5V MHz and 6123.1V MHz on azimuth 139°46'. Add frequency 6004.5V MHz on azimuth 162°18', and 6152.8H MHz on azimuth 73°30' and 11015.0V MHz and 11095.0V MHz on azimuth 271°18'. Relocate site to latitude 32°17'46" N. and longitude 89°58'39" W.

8726–C1–P–70—MCI Mid-South, Inc. (New). Station location: 127 South Roach, Jackson, Miss. Delete frequencies 6226.9V MHz and 6345.5V MHz on azimuth 61°0', and 6286.2H MHz and 6404.8H MHz on azimuth 222°53'. Add frequency 11425.0V MHz and 11345.0V MHz on azimuth 91°11'.

8702–C1–P–70—MCI Mid-South, Inc. (New). Station location: 2.5 miles south of Newburg, Ala. Delete frequencies 6049.0H MHz and 6167.6H MHz on azimuth 253°35', and 6019.3V MHz and 6137.9V MHz on azimuth 347°12'. Add frequency 6004.5H MHz on azimuth 224°14', and 6049.0V MHz on azimuth 85°47' and 6123.1V MHz on azimuth 351°20'. Relocate site to latitude 34°26'50" N. and longitude 87°34'58" W.

8719–C1–P–70—MCI Mid-South, Inc. (New), station location: 8 miles south-southeast of Opelika, Ala. Delete frequencies 6241.7H MHz and 6360.3H MHz on azimuth 233°06', and 6212.0V MHz and 6330.7V MHz on azimuth 102°42'. Add frequency 6226.9H MHz on azimuth 218°06' and 6226.9V MHz on azimuth 102°42'.

8720–C1–P–70—MCI Mid-South, Inc. (New), station location: 1 mile east-southeast of Ladonia, Ala. Delete frequencies 5989.7V MHz and 6108.3V MHz on azimuth 282°50', and 5960.0V MHz and 6078.6V MHz on azimuth 87°16'. Add frequency 5945.2V MHz on azimuth 282°50' and 11625.0V MHz and 11225.0V MHz on azimuth 87°16'.

8721–C1–P–70—MCI Mid-South, Inc. (New), station location: No. 19 12th Street, Columbus, GA. Delete frequencies 6241.7V MHz and 6360.3V MHz on azimuth 267°18'. Add frequency 10735.0V MHz and 11135.0V MHz on azimuth 267°18'.

XUM

POINT-TO-POINT MICROWAVE RADIO SERVICE (TELEPHONE CARRIERS)—continued

8714–C1–P–70—MCI Mid-South, Inc. (New), station location: 1.8 miles south-southwest of Leeds, Ala. Delete frequencies 6241.7V MHz and 6360.3V MHz on azimuth 78°42', and 6212.0V MHz and 6330.7V MHz on azimuth 161°17', and 6301.0V MHz and 6419.6V MHz on azimuth 272°38'. Add frequency 6004.5V MHz on azimuth 12°21', and 6152.8V MHz on azimuth 272°38'. Add frequency 6004.5V MHz and 11,135.0V MHz on azimuth 272°38'. Delete frequencies 6049.0V MHz and 6167.6V MHz on azimuth 125°10' and 10,735.0V MHz and 11,135.0V MHz on azimuth 272°12'. Relocate site to latitude 35°16'30'' N. and longitude 90°01'38'' W.

8715–C1–P–70—MCI Mid-South, Inc. (New), station location: 1900 Fifth Avenue, Birmingham, AL. Delete frequencies 6049.0V MHz and 6167.6V MHz on azimuth 92°30'. Add frequency 11625.0V MHz and 11225.0V MHz on azimuth 92°30'.

8716–C1–P–70—MCI Mid-South, Inc. (New), station location: 2.4 miles west of Hanover, Ala. Delete frequencies 5989.7H MHz and 6108.3H MHz on azimuth 331°28', and 6019.3H MHz and 6137.9H MHz on azimuth 183°49'. Add frequency 6123.1V MHz on azimuth 34°54'.

8717–C1–P–70—MCI Mid-South, Inc. (New), station location: 60 Commerce Street, Montgomery, AL. Delete frequencies 6212.0H MHz and 6330.7H MHz on azimuth 03°47', and 6301.0H MHz and 6419.6H MHz on azimuth 119°08'. Add frequency 11625.0V MHz and 11225.0V MHz on azimuth 41°42'.

8718–C1–P–70—MCI Mid-South, Inc. (New), station location: 11 miles southeast of Thompson, Ala. Delete frequencies 6049.0H MHz and 6167.6H MHz on azimuth 299°22', and 5960.0H MHz and 6078.6H MHz on azimuth 52°48'. Add frequency 6093.5V MHz on azimuth 323°32' and 5974.8H MHz on azimuth 37°52'. Relocate site to latitude 32°01'30'' N. and longitude 85°46'30'' W.

8734–C1–P–70—MCI Mid-South, Inc. (New), Station location: 2.8 miles north of Cedar Lake, Miss. Delete frequencies 5945.2V MHz and 6063.8V MHz on azimuth 253°49', and 6604.5H MHz and 6123.1H MHz on azimuth 190°52', and 5974.8H MHz and 6093.5H MHz on azimuth 87°26'. Add frequency 6286.2H MHz on azimuth 267°55', and 6404.8V MHz on azimuth 216°32' and 6315.9V MHz on azimuth 95°25'. Relocate site to latitude 30°31'42'' N. and longitude 88°57'22'' W.

8735–C1–P–70—MCI Mid-South, Inc. (New), Station location: 2506 14th Street, Gulfport, MS. Delete frequencies 6226.9H MHz and 6345.5H MHz on azimuth 10°49'. Add frequency 6152.8V MHz on azimuth 36°26'.

8737–C1–P–70—MCI Mid-South, Inc. (New), Station location: Jefferson and Second Street, Pascagoula, Miss. Delete frequencies 5945.2V MHz and 6063.8V MHz on azimuth 04°27'. Add frequency 6256.5V MHz on azimuth 323°19'.

8736–C1–P–70—MCI Mid-South, Inc. (New), Station location: 1 mile west of Cottage Hill, Ala. Delete frequencies 6256.5H MHz and 6375.2H MHz on azimuth 267°42', and 6286.2V MHz and 6404.8V MHz on azimuth 184°28', and 6256.5V MHz and 6375.2V MHz on azimuth 94°37'. Add frequency 6375.2V MHz on azimuth 260°54' and 6375.2V MHz on azimuth 67°10'. Relocate site to latitude 30°38'19'' N. and longitude 88°11'22'' W.

8738–C1–P–70—MCI Mid-South, Inc. (New). Station location: 31 North Royal Street, Mobile, AL. Delete frequencies 5945.2V MHz and 6063.8V MHz on azimuth 274°51'. Add frequency 6123.1V MHz on azimuth 247°14'.

8703–C1–P–70—MCI Mid-South, Inc. (New), Station location: 0.1 mile north of Florence, Ala. Delete frequencies 6212.0V MHz and 6330.7V MHz on azimuth 167°08'. Add frequency 6404.8V MHz on azimuth 171°18'.

INFORMATIVE: Applicant, MCI Pacific Coast, Inc., is amending 11 point-to-point microwave sites for specialized common carrier service from Los Angeles, Calif., to Medford, Oreg., and intermediate points. The amendments are necessitated to insure compliance with the new engineering standards set forth in the Commission's First Report and Order in Docket No. 18920, effective July 15, 1971, and Informative Guidelines published regarding frequency coordination report No. 562 FCC Common Carrier Services Information released September 20, 1971.

2455–C1–P–70—MCI Pacific Coast, Inc. (New). Station location: 515 South Flower Street, Los Angeles, CA. Delete frequencies 11505.0 MHz and 11265.0 MHz on azimuth 226°43', and 11345.0 MHz and 11,505.0 MHz on azimuth 4°22'. Add frequency 6093.5V MHz on azimuth 4°22'.

POINT-TO-POINT MICROWAVE RADIO SERVICE (TELEPHONE CARRIERS)—continued

8697–C1–P–70—MCI Mid-South, Inc. (New), station location: 2 miles southeast of Ramsey, Tenn. Delete frequencies 6197.2V MHz and 6315.9V MHz on azimuth 328°18', and 6241.7H MHz and 6360.3H MHz on azimuth 166°48'. Add frequency 6063.8H MHz on azimuth 90°26', and 11625.0V MHz and 11225.0V MHz on azimuth 168°16' and 6034.2H MHz on azimuth 277°12'. Relocate site to latitude 35°16'30'' N. and longitude 90°01'38'' W.

8694–C1–P–70—MCI Mid-South, Inc. (New), station location: 1.9 miles south of Casscoe, Ark. Delete frequencies 6226.9V MHz and 6345.5V MHz on azimuth 67°20', and 6256.5V MHz and 6375.2V MHz on azimuth 303°37'. Add frequency 6256.5V MHz on azimuth 28°55' and 6256.5H MHz on azimuth 303°33'.

8695–C1–P–70—MCI Mid-South, Inc. (New), station location: 2 miles east of Lonoke, Ark. Delete frequencies 6034.2V MHz and 6152.8V MHz on azimuth 123°19', and 5974.8H MHz and 6093.5H MHz on azimuth 263°28'. Add frequency 6004.5V MHz on azimuth 123°15' and 6123.1H MHz on azimuth 263°28' Relocate site to latitude 34°47'07'' N. and longitude 91°51'08'' W.

8696–C1–P–70—MCI Mid-South, Inc. (New), station location: 200 West Capital, Little Rock, AR. Delete frequencies 6226.9H MHz and 6345.5H MHz on azimuth 83°13'. Add frequency 6375.2V MHz on azimuth 83°13'.

8704–C1–P–70—MCI Mid-South, Inc. (New), station location: 1.2 miles south of Brooksville, Ala. Delete frequencies 6301.0H MHz and 6419.6H MHz on azimuth 247°04', and 6212.0H MHz and 6330.7H MHz on azimuth 75°10', and 6271.4V MHz and 6390.0V MHz on azimuth 126°09'. Add frequency 6152.8V MHz on azimuth 269°37', and 6152.8V MHz on azimuth 148°18' and 5974.8V MHz on azimuth 54°26'. Relocate site to latitude 34°31'20'' N., and longitude 86°51'21'' W.

8705–C1–P–70—MCI Mid-South, Inc. (New), station location: 1.2 miles southeast of Huntsville, Ala. Delete frequencies 6049.0H MHz and 6167.6H MHz on azimuth 255°25'. Add frequency 6375.2V MHz on azimuth 234°37'.

8706–C1–P–70—MCI Mid-South, Inc. (New), station location: .5 mile northwest of Baileyton, Ala. Delete frequencies 5989.7V MHz and 6108.3V MHz on azimuth 139°29', and 5960.0H MHz and 6078.6H MHz on azimuth 306°20'. Add frequency 6256.5V MHz on azimuth 328°23' and 6404.8V MHz on azimuth 126°43'. Relocate site to latitude 34°18'50'' N., and longitude 86°42'03'' W.

8707–C1–P–70—MCI Mid-South, Inc. (New), station location: 1 mile northwest of Walnut Grove, Ala. Delete frequencies 6271.4H MHz and 6390.0H MHz on azimuth 100°20', and 6301.0V MHz and 6419.6V MHz on azimuth 319°41'. Add frequency 6004.5V MHz on azimuth 306°56', and 6152.8H MHz on azimuth 86°38' and 5945.2V MHz on azimuth 207°09'.

8708–C1–P–70—MCI Mid-South, Inc. (New), station location: 7 miles northeast of Gadsden, Ala. Delete frequencies 5989.7V MHz and 6167.6V MHz on azimuth 163°58', and 6019.3V MHz and 6137.9V MHz on azimuth 280°30'. Add frequency 6256.5H MHz on azimuth 266°52' and 6256.5H MHz on azimuth 78°44'. Relocate site to latitude 34°05'52'' N., and longitude 85°55'25'' W.

8712–C1–P–70—MCI Mid-South, Inc. (New), station location: 4 miles southwest of Mableton, Ga. Delete frequencies 11685.0H MHz and 11365.0H MHz on azimuth 120°55', and 6049.0H MHz and 6167.6H MHz on azimuth 198°15'. Add frequency 6004.5H MHz on azimuth 316°13' and 6152.8V MHz on azimuth 90°44'. Relocate site to latitude 33°45'33'' N., and longitude 84°36'21'' W.

8713–C1–P–70—MCI Mid-South, Inc. (New), station location: 100 Peachtree Street, Atlanta, GA. Delete frequencies 11,155.0H MHz and 10,915.0H MHz on azimuth 301°03'. Add frequency 6404.8V MHz on azimuth 270°51'. Relocate site to latitude 33°45'24'' N., and longitude 84°23'19'' W.

8709–C1–P–70—MCI Mid-South, Inc. (New), station location: 2.8 miles southeast of Springville, Ala. Delete frequencies 5960.0V MHz and 6078.6V MHz on azimuth 269°05', and 6301.0H MHz and 6419.6H MHz on azimuth 88°27', and 6271.4V MHz and 6390.0V MHz on azimuth 344°02'. Add frequency 6226.9V MHz on azimuth 27°03' and 6256.5V MHz on azimuth 192°23'. Relocate site to latitude 33°48'56'' N., and longitude 86°29'05'' W.

POINT-TO-POINT MICROWAVE RADIO SERVICE (TELEPHONE CARRIERS)—continued

2458–C1–P–70—MCI Pacific Coast, Inc. (New). Station location: 5.3 miles north of La Crescenta, Calif. Delete frequencies 11075.0 MHz and 10835.0 MHz on azimuth 184°23', and 5960.0 MHz and 6078.6 MHz on azimuth 254°19'. Delete frequencies 3910.0 MHz and 4070.0 MHz on 310°5'. Add frequency 6345.5V MHz on azimuth 184°23'. Add frequency 6345.5V MHz on azimuth 329°50'.

8691–C1–P–70—MCI Mid-South, Inc. (New). Station location: 100 North Main Street, Memphis, TN. Delete frequencies 6004.5H MHz and 6123.1H MHz on azimuth 244°44'. Add frequency 10,735.0V MHz and 11,135.0V MHz on azimuth 8°15'. Relocate site to latitude 35°08'46' N. and longitude 90°03'00'' W.

8732–C1–P–72—MCI Mid-South, Inc. (New). Station location: 1010 Howard Street, New Orleans, LA. Delete frequencies 6226.9V MHz and 6345.5V MHz on azimuth 5°17'. Add frequency 5960.0V MHz on azimuth 194°48'. Relocate site to latitude 29°56'45'' N. and longitude 90°04'34'' W.

8731–C1–P–70—MCI Mid-South, Inc. (New). Station location: 2.5 miles south of Marrero, La. Delete frequencies 5974.8H MHz and 6093.5H MHz on azimuth 4°45', and 6004.5H MHz and 6123.1H MHz on azimuth 66°43', and 5945.2V MHz and 6063.8V MHz on azimuth 185°19'. Add frequency 6241.7V MHz on azimuth 14°47' and 6212.0V MHz on azimuth 291°29'. Relocate site to latitude 29°51'38'' N. and longitude 90°06'07'' W.

2474–C1–P–70—MCI Pacific Coast, Inc. (New). Station location: 44 Montgomery Street, San Francisco, CA. Delete frequencies 11175.0 MHz and 10935.0 MHz on azimuth 331°56' and 10815.0 MHz and 11055.0 MHz on azimuth 83°11'. Delete frequencies 6049.0 MHz and 6167.6 MHz on azimuth 150°21'. Add frequency 6256.5V MHz and 10895.0H MHz on azimuth 73°58'. Relocate site to latitude 37°47'26'' N. and longitude 122°24'03'' W.

2475–C1–P–70—MCI Pacific Coast, Inc. (New). Station location: 3505 Broadway, Oakland, CA. Delete frequencies 11505.0 MHz and 11265.0 MHz on azimuth 263°16'. Add frequency 6034.2V MHz on azimuth 100°17'. Add frequency 6034.2V MHz and 11345.0H on azimuth 254°3'. Relocate site to latitude 37°49'22'' N. and longitude 122°15'33'' W.

2478–C1–P–70—MCI Pacific Coast, Inc. (New). Station location: 7.1 miles east of Georgetown, Calif. Delete frequencies 6212.0 MHz and 6330.7 MHz on azimuth 326°0' and 6271.4 MHz and 6360.0 MHz on azimuth 217°53'. Add frequency 3750.0H MHz on azimuth 175°24'. Add frequency 6019.3H MHz on azimuth 329°21'.

2483–C1–P–70—MCI Pacific Coast, Inc. (New). Station location: 4 miles northwest of Colestin, Oreg. Delete frequencies 5960.0 MHz and 6078.6 MHz on azimuth 160°58', and 5974.8 MHz and 6093.5 MHz on azimuth 327°25'. Delete frequencies 5989.7 MHz and 6108.3 MHz on azimuth 332°33'. Add frequency 6301.0V MHz on azimuth 104°22'. Add frequency 6271.4V MHz on azimuth 345°44'. Relocate site to latitude 42°05'00'' N. and longitude 122°42'00'' W.

2484–C1–P–70—MCI Pacific Coast, Inc. (New). Station location: 33 North Central Avenue, Medford, OR. Delete frequencies 6197.2 MHz and 6315.9 MHz on azimuth 104°22'. Add frequency 11625.0V MHz and 11225.0V MHz on azimuth 65°20'. Relocate site to latitude 42°19'37'' N. and longitude 122°52'19'' W.

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

Modification and/or Supersedeas Decisions to Area Wage Determination Decisions for Specified Localities

Modification and/or supersedeas decisions to area wage determination decisions for specified localities in Arizona, Colorado, Connecticut, Georgia, Kansas, Kentucky, Minnesota, Mississippi, Missouri, New Jersey, New York, Tennessee, West Virginia.

Area wage determination decisions published in the FEDERAL REGISTER on the following dates:

Decision No.	Date
AM–1594	Aug. 6, 1971
AM–1708, AM–1713, AM–1724, AM–1732	Aug. 11, 1971
AM–2377, AM–2378	Aug. 13, 1971
AM–469, AM–478, AM–489, AM–490, AM–501, AM–502, AM–503	Aug. 20, 1971
AM–3616, AM–3624 (AM–6708)	Aug. 25, 1971
AM–3630, AM–3631, AM–3632	Aug. 27, 1971
AM–2529, AM–2530	Sept. 3, 1971
AM–8583	Feb. 11, 1972
AM–9690	Mar. 24, 1972

are hereby modified and/or superseded as set forth below. Supersedeas decision numbers are in parentheses following the number of the decision being superseded.

These modification and/or supersedeas decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since these determinations were issued.

The determinations of prevailing rates and fringe benefits made in these modifications and/or supersedeas decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 F.R. 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, and of Secretary of Labor's Orders 13–71 and 15–71 (36 F.R. 8755, 8756). The prevailing rates and fringe benefits determined in the foregoing area wage determination decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and Federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

The modification and/or supersedeas decisions are effective from their date of publication in the FEDERAL REGISTER until the end of the period for which the determinations being modified and/or superseded were issued and are to be used in accordance with the provisions of 29 CFR Part 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rule-making procedures prescribed in 5 U.S.C. section 553 is set forth in the document being modified.

The modification and/or supersedeas decisions to the area wage determination decisions listed above are set forth below.

Signed at Washington, D.C., this 31st day of March 1972.

HORACE E. MENASCO,
Administrator, Employment Standards Administration.

FEDERAL MARITIME COMMISSION

[Docket No. 72-13; Independent Ocean Freight Forwarder License 850]

R. G. HOBELMANN & CO., INC.

Order of Investigation and Hearing

R. G. Hobelmann & Co., Inc. is a licensed independent ocean freight forwarder, License FMC 850.

One hundred percent of the capital stock of R. G. Hobelmann & Co., Inc. is owned by Vico Corp. of St. Louis, Mo. (VICO). Forty-eight percent of the stock of Vico is owned by Volkswagen of America, which in turn is wholly owned by Volkswagen of Germany. Both of these latter corporations are engaged as shippers or consignees in the exportation of cargoes in the foreign commerce of the United States by oceangoing common carriers. It therefore appears that the relationship now existing between R. G. Hobelmann & Co., Inc., Vico, Volkswagen of America, and Volkswagen of Germany, creates a control and affiliation between a forwarder and shipper interests which is barred by sections 1 and 44 of the Shipping Act, 1916, and § 510.8(b) of Commission General Order 4.

R. G. Hobelmann & Co., Inc. has made proposals to divest itself of its freight forwarder business which have retained many elements of continuing affiliation and control between the freight forwarder and shipper interests. It therefore does not appear that the proposed divestiture plans would satisfy the requirements of the Shipping Act and the Commission's General Order 4.

Therefore, it is ordered, Pursuant to sections 22 and 44 of the Shipping Act, 1916 (46 U.S.C. 831, 841b) that a proceeding is hereby instituted to determine whether R. G. Hobelmann & Co., Inc. continues to qualify for a license as an independent ocean freight forwarder, and whether its license should be continued in effect or be revoked pursuant to sections 1 and 44 of the Shipping Act, 1916 (46 U.S.C. 801, 841b).

It is further ordered, That R. G. Hobelmann & Co., Inc. be made respondent in this proceeding and that the matter be assigned for hearing before an examiner of the Commission's Office of Hearing Examiners at a date and place to be announced by the presiding examiner.

It is further ordered, That notice of this order be published in the FEDERAL REGISTER and a copy thereof and notice of hearing be served upon respondent, R. G. Hobelmann & Co., Inc.

It is further ordered, That any persons, other than respondent, who desire to become a party to this proceeding and to participate therein shall file a petition to intervene with the Secretary, Federal Maritime Commission, Washington, D.C., 20573, with a copy to respondent.

It is further ordered, That all future notices issued by or on behalf of the

V 37-68 APR 7 72 XUM

Commission in this proceeding, including notice of time and place of hearing, or prehearing conference, shall be mailed directly to all parties of record.

By the Commission.

[SEAL] FRANCIS C. HURNEY, *Secretary.*

FEDERAL POWER COMMISSION

[Docket No. RP72-110]

ALGONQUIN GAS TRANSMISSION CO.

Order Accepting for Filing and Suspending Revised Tariff Containing Purchased Gas Adjustment Provision, Providing for Hearing Procedures, and Permitting Interventions

MARCH 31, 1972.

On March 1, 1972, Algonquin Gas Transmission Co. (Algonquin) tendered for filing two sets of revised sheets to its FPC Gas Tariff, Original Volumes Nos. 1 and 2[1] to become effective on April 1, 1972. The Company proposes an increase in rates which would add $10,619,713 annually to its jurisdictional revenues based on sales for the 12 months ended December 31, 1971, as adjusted. One set of tariff sheets includes a purchased gas adjustment provision; the second, or alternative set excludes such a provision. Algonquin requests waiver of § 154.38(d)(3) of the Commission's regulations to permit the submitted tariff sheets containing the purchased gas adjustment provision to be filed. In the event the waiver is not granted, Algonquin requests that the alternative set be considered to have been filed.

Algonquin states that the principal reason for its proposed rate increase is to track the increased purchase gas costs associated with the increased rates filed by Texas Eastern Transmission Corp. (Texas Eastern) in Docket No. RP72-98. The total purchased gas cost component, as adjusted, represents approximately 75 percent of the test period cost of service. Other adjustments to base period costs are attributed to increased labor costs, increased regulatory expense, Federal, State and local taxes and an 8.75 percent rate of return. Algonquin also proposes several changes in the provisions of its presently effective tariff including (1) elimination of its interruptible Rate Schedule ERS-1, (2) expansion of the force majeure provisions of its tariff and (3) inclusion of a purchase gas adjustment clause in the tariff.

The reasonableness of including a purchased gas adjustment provision in a pipeline's tariff is before us in rulemaking Docket No. R-406. Under these circumstances, we deem it appropriate and proper at this time to waive § 154.38(d)(3) of our regulations to permit the filing of tariff sheets containing such a provision subject to such future modification as may be required to conform such provision with § 154.38(d)(4)(vi) of the Commission's proposed regulations, or any substitution or modification thereof adopted by the Commission in Docket No. R-406.

The following parties filed timely petitions to intervene or notices of intervention:

Boston Gas Co.
Bristol and Warren Gas Co.
Brockton Taunton Gas Co.
Buzzards Bay Gas Co.
Commonwealth Gas Co.
The Connecticut Gas Co.
Connecticut Natural Gas Corp.
Fall River Gas Co.
The Hartford Electric Light Co.
Town of Middleborough, Municipal Gas' and Electric Department.
Providence Gas Co.
New Bedford Gas and Edison Light Co.
The Newport Gas Light Co.
North Attleboro Gas Co.
City of Norwich, Department of Public Utilities.
Pequot Gas Co.
South County Gas Co.
The Southern Connecticut Gas Co.
Tiverton Gas Co.
Orange and Rockland Utilities, Inc.
Rhode Island Consumers' Council.
Central Hudson Gas and Electric Corp.
New Jersey Natural Gas Co.

Review of Algonquin's rate filing indicates that the issues which it raises require development in an evidentiary hearing. The proposed increased rates and charges have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory or preferential or otherwise unlawful.

Algonquin requests that the suspension period, if any, of the revised tariff sheets tendered for filing, be made coterminous with the suspension period involved in Texas Eastern's Docket No. RP72-98, which has been suspended by Commission order issued February 11, 1972, until July 14, 1972. Accordingly, in order to allow the proposed rates to become effective July 14, 1972, we would have to suspend Algonquin's proposed rate increase for 3½ months. Since a substantial portion of Algonquin's rate increase is a result of a claimed increase in costs other than purchase gas costs, we find that good cause does not exist to warrant waiver of the 5-month statutory suspension period with respect to the total requested rate increase. Therefore, we will suspend Algonquin's proposed rate until September 1, 1972. However, this action is not intended to preclude Algonquin from filing for increased rates to track Texas Eastern's increase for the 1½ months during which Texas Eastern's increase can be made effective while Algonquin's rate increase is under suspension.

The Commission finds:

(1) The proposed increased rates and charges have not been shown to be justified and may be unjust, unreasonable, unduly discriminatory or preferential, or otherwise unlawful.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the rates and charges contained in Algonquin's FPC Gas Tariff, as proposed to be amended in this docket, and that the tendered tariff sheets be suspended as hereinafter provided.

(3) The disposition of this proceeding should be expedited in accordance with the procedure set forth below.

(4) Participation of the above-named persons in this proceeding may be in the public interest.

(5) In the event this proceeding is not concluded prior to the termination of the suspension period herein ordered, the placing of the tariff changes applied for in this proceeding into effect, subject to refund with interest while pending Commission determination as to their justness and reasonableness, is consistent with the purposes of the Economic Stabilization Act of 1970, as amended.

The Commission orders:

(A) Section 154.38(d)(3) of the Commission's regulations under the Natural Gas Act is waived to permit the filing of Algonquin's tariff sheets containing the proposed purchase gas adjustment clause as conditioned herein.

(B) Algonquin's tariff sheets, as filed March 1, 1972, containing the proposed purchased gas adjustment clause, are accepted for filing, subject to such modification as may be required to conform with § 154.38(d)(4) of the Commission's proposed regulations or any substitution or modification thereof, should such be adopted by the Commission in Docket No. R-406.

(C) The proposed tariff sheets which exclude the purchase gas adjustment provision are hereby rejected.

(D) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 5 thereof, the Commission's rules of practice and procedure and the regulations under the Natural Gas Act (18 CFR, Ch. I), a public hearing shall be held commencing with a prehearing conference on Judy 18, 1972, at 10 a.m., e.d.t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, DC 20426, concerning the lawfulness of the rates, charges, classification, and services contained in Algonquin's FPC Gas Tariff, as proposed to be amended.

(E) At the prehearing conference on July 18, 1972, Algonquin's prepared testimony (Statement P) together with its entire rate filing shall be admitted to the record as its complete case-in-chief subject to appropriate motions, if any, by parties to the proceeding. All parties will be expected to come to the conference fully prepared to effectuate the provisions of §§ 1.18 and 2.59 of the Commission's rules of practice and procedure, including a useful discussion of all problems and involved in the proceeding, both procedural and substantive, and fully authorized to make commitments with respect thereto.

(F) On or before July 11, 1972, the Commission staff shall serve its prepared testimony and exhibits. The prepared testimony and exhibits of any or all intervenors shall be served on or before July 25, 1972. Any rebuttal evidence by Algonquin shall be served on or before August 8, 1972. Cross-examination on the evidence filed will commence on August 22, 1972.

(G) A Presiding Examiner to be designated by the Chief Examiner for the purpose (See Delegation of Authority, 18 CFR 3.5(d)) shall preside at the hearing in this proceeding, shall prescribe relevant procedural matters not herein provided, and shall control this proceeding in accordance with the policies expressed in § 2.59 of the Commission's rules of practice and procedure.

(H) Pending such hearing and decision thereon, Algonquins's proposed revised tariff sheets listed above are hereby suspended and the use thereof is deferred until September 1, 1972. Algonquin shall refund at such times and in such manner as may be required by final order of the Commission, the portion of the increased rates and charges found by the Commission in this proceeding not justified, together with interest at the rate of 7 percent per annum, from the date of payment of Algonquin until refunded; shall bear all costs of all refunding; shall keep accurate accounts in detail of all amounts received by reason of the increased rates and charges effective as of September 1, 1972, for each billing period, and shall report (original and one copy) in writing and under oath, to the Commission monthly, for each billing period, by customer, the billing determinants of natural gas sold and transported, under the above-described substitute tariff sheets, and the revenue immediately prior to September 1, 1972, and under the rates and charges declared by this order to have become effective, together with the differences in the revenues so computed.

(I) As a condition of this order, Algonquin shall execute and file in triplicate with the Secretary of this Commission within 20 days of the date of this order, its written agreement and undertaking to comply with the terms of paragraph (H) hereof, signed by a responsible officer of the corporation evidenced by proper authority from its Board of Directors, and accompanied by a certificate showing service of copies thereof upon all purchasers under the FPC Gas Tariff, Original Volume Nos. 1 and 2 and upon all parties of record in this proceeding as follows:

AGREEMENT AND UNDERTAKING OF ALGONQUIN GAS TRANSMISSION COMPANY TO COMPLY WITH THE TERMS AND CONDITIONS OF PARAGRAPH (H) OF THE FEDERAL POWER COMMISSION'S ORDER ISSUED _____, 1972 AT DOCKET NO. RP72-110

In conformity with the requirements of the order issued _____, 1972, at Docket No. RP72-110 Algonquin Gas Transmission Co. hereby agrees and undertakes to comply with the terms and conditions of paragraph (H) of said order and has caused this agreement and undertaking to be executed and sealed in its name by its officers, thereupon duly authorized in accordance with the terms of the resolution of its Board of Directors, a certified copy of which is appended hereto this _____ day of _____, 1972.

ALGONQUIN GAS TRANSMISSION COMPANY

[Docket No. CP72-231]

EL PASO NATURAL GAS CO.

Notice of Application

APRIL 3, 1972.

Take notice that on March 23, 1972, El Paso Natural Gas Co. (applicant), Post Office Box 1492, El Paso, Tex. 79978, filed in Docket No. CP72-231 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon certain natural gas facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to abandon by removal its Ramsey Compressor Station located in Reeves County, Tex., and its Winkler Purchase Meter Station located in Winkler County, Tex. The Ramsey Compressor Station consists of a 125 horsepower skid mounted electric motor-driven reciprocating compressor unit and appurtenances. Lower operating pressures on applicant's "A" line, extending from applicant's Jal No. 1 Plant near Jal, N. Mex., to the city of El Paso, Tex., have made the abandonment of this unit possible. The Winkler Purchase Meter Station is comprised of a 6⅝-inch o.d. standard orifice meter station with appurtenances. Applicant states that, due to the decline in gas reserves available to the suppliers of this station, an agreement has been reached whereby the deliveries of surplus residue gas now available and previously delivered to applicant at the Winkler Purchase Meter Station will now be made at an alternate delivery point. Applicant proposes to abandon in place approximately 17.1 miles of 4½-inch o.d. pipeline in Pinal County, Ariz., known as the Magma Line. Applicant states that since 1967 this line has been used only as a standby facility for emergency use. Applicant further states that pipeline is presently in poor physical condition and that the cost of removal would exceed the salvage value.

Applicant states that the total cost of the abandonments herein proposed is $2,250.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 24, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB, *Secretary.*

[Docket No. CP72-125]

MICHIGAN-WISCONSIN PIPE LINE CO.

Notice of Availability of Environmental Statement for Inspection

APRIL 4, 1972.

Notice is hereby given that on April 7, 1972, as required by § 2.82(b) of Commission regulations under Order 415-B (36 F.R. 22738, November 30, 1971), a draft environmental statement containing information comparable to an agency draft statement pursuant to section 7 of the Guidelines of the Council on Environmental Quality (36 F.R. 7724, April 23, 1971), was placed in the public files of the Federal Power Commission. This

[1] *Original Volume No. 1.* Original Sheets Nos. 3-A, 26-A, 30-C, 30-D, and 30-E, Fourth Revised Sheets Nos. 1, 15-M, and 15-O; First Revised Sheet No. 15-Q.1; Second Revised Sheets Nos. 8-A, 15-K.1 and 27; Fifth Revised Sheet No. 15-Q; Seventh Revised Sheet No. 6; Eighth Revised Sheet No. 7; 24th Revised Sheet No. 15-J; 28th Revised Sheets Nos. 5, 10, and 14; 29th Revised Sheets Nos. 11-A and 12.

APR 7 1972 XUM

statement deals with the proceeding of the Michigan-Wisconsin Pipe Line Co. for a certificate of public convenience and necessity under section 7(c) of the Natural Gas Act. This statement is available for public inspection in the Commission's Office of Public Information, Room 2523, General Accounting Office, 441 G Street NW., Washington, DC. Copies will be available from the National Technical Information Service, Department of Commerce, Springfield, Va. 22151.

The Lacassine Project involves construction of 22.1 miles of 30-inch natural gas pipeline through a marshland area in Louisiana near Lake Arthur, Cameron Parish. Approximately 3.4 miles of the route passes through the Lacassine National Wildlife Refuge. Use of selected pipeline construction techniques and schedules, and routing within existing pipeline corridor will minimize any impact on the environment. The net result of this project, making additional supplies of natural gas available for domestic consumption, will be environmental enhancement through improved air quality in the areas of end use.

Any person desiring to present evidence regarding environmental matters in this proceeding must file with the Federal Power Commission a petition to intervene, and also file an explanation of their environmental position, specifying any differences with the environmental statement upon which the intervenor wishes to be heard, including therein a discussion of the factors enumerated in § 2.80 of Order 415–B. Written statements by persons not wishing to intervene may be filed for the Commission's consideration. The petitions to intervene or comments should be filed with the Commission on or before May 19, 1972. The Commission will consider all responses to the statement.

KENNETH F. PLUMB,
Secretary.

[Project 77]

PACIFIC GAS & ELECTRIC CO.

Notice of Issuance of Annual License

APRIL 3, 1972.

On May 1, 1970, Pacific Gas & Electric Co., Licensee for Potter Valley Project No. 77 located in the vicinity of Lake and Mendocino Counties, Calif., on the Eel and Russian Rivers filed an application for a new license under section 15 of the Federal Power Act and Commission regulations thereunder (§§ 16.1–16.6).

The license for Project No. 77 was issued effective April 15, 1922, for a period ending April 14, 1972. In order to authorize the continued operation of the project pursuant to section 15 of the Act pending completion of Licensee's application and Commission action thereon it is appropriate and in the public interest to issue an animal license to Pacific Gas & Electric Co. for continued operation and maintenance of Project No. 77.

Take notice that an annual license is issued to Pacific Gas & Electric Co. (Licensee) under section 15 of the Federal Power Act for the period April 15, 1972 to April 14, 1973, or until Federal takeover, or the issuance of a new license for the project, whichever comes first, for the continued operation and maintenance of the Potter Valley Project No. 77 subject to the terms and conditions of its license.

KENNETH F. PLUMB,
Secretary.

[Docket No. E–7718]

PENNSYLVANIA ELECTRIC CO.

Notice of Proposed Rate Schedule Changes

APRIL 5, 1972.

Take notice that on March 20, 1972, the Pennsylvania Electric Co. (applicant) filed rate schedule changes for wholesale service to municipal utilities and investor-owned utilities. The changes are proposed to become effective on June 1, 1972.

The new schedule designated FPC Electric Tariff, Original Volume No. 1, Rate RP, will supersede FPC Schedules Nos. 50, 51, 34, 52, 12, 53, 36, 54, and 55. Concurrently with the new rate schedules, applicant also requests investigation of its contract rate for supplemental service to Allegheny Electric Cooperative, Inc., and filed cost of service materials to provide information as to whether the present rate for supplemental power service to Allegheny should be terminated. Copies of a proposed rate schedule for service to Allegheny and supporting testimony were also filed. Applicant further requests that the Commission permit the proposed tariff to become effective without suspension, or, in the event of suspension, that the Commission select a suspension period of, at most, 30 days.

Applicant states that the proposed FPC Electric Tariff, Original Volume No. 1 and Rate RP will increase revenues by $383,838 on a 1970 test year basis. The proposed tariff changes add a fuel cost adjustment clause and standardize the proposed general terms and conditions of service. Applicant further states that its proposed rates produce a rate of return of 7.77 percent on sales to the municipal customers and 7.46 percent on sales to the investor-owned companies.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 17, 1972, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protest in accordance with the requirements of the Commission's rules of practice and procedure. (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP71–41, etc.]

UNITED GAS PIPE LINE CO.

Notice of Motion Filed With Respect to Pending Stipulation and Agreement

APRIL 3, 1972.

Take notice that on March 28, 1972, United Gas Pipe Line Co. (United) filed with the Commission a motion with respect to the stipulation and agreement filed November 22, 1971, pending at Docket No. RP71–41, et al.

The March 28, 1972, motion provides for millage rate adjustments to permit recovery of increases in gas cost experienced by United. The subject motion further provides for a demand charge adjustment of $3,279,201. United states that if however, the demand charge adjustment issue is set for trial then United would retain the $3,279,201 subject to trial of the issue.

Copies of United's motion were served upon all parties to the captioned proceeding.

Answer or comments relating to United's motion may be filed with the Federal Power Commission, Washington, D.C. 20426, on or before April 14, 1972.

KENNETH F. PLUMB,
Secretary.

[FR Doc.72–5359 Filed 4–6–72;8:48 am]

[Project No. 733]

WESTERN COLORADO POWER CO.

Notice of Issuance of Annual License

APRIL 3, 1972.

On February 27, 1969, Western Colorado Power Co., Licensee for Ouray Project No. 733 located in the vicinity of Ouray County, Colo., on the Uncompahgre River filed an application for a new license under section 15 of the Federal Power Act and Commission regulations thereunder (§§ 16.1–16.6). Licensee also made a supplemental filing pursuant to Commission Order No. 384 on November 13, 1969.

The license for Project No. 733 was issued effective April 13, 1960 for a period ending April 12, 1970. Since that time, the project has been operated under annual license. In order to authorize the continued operation of the project pursuant to section 15 of the Act pending completion of Licensee's application and Commission action thereon it is appropriate and in the public interest to issue an annual license to Western Colorado Power Co. for continued operation and maintenance of Project No. 733.

Take notice that an annual license is issued to Western Colorado Power Co. (Licensee) under section 15 of the Federal Power Act for the period April 13, 1972 to April 12, 1973 or until Federal takeover, or the issuance of a new license for the project, whichever comes first, for the continued operation and maintenance of the Ouray Project No. 733, subject to the terms and conditions of its license.

KENNETH F. PLUMB,
Secretary.

[FR Doc.72–5360 Filed 4–6–72;8:48 am]

[Docket No. E–7705]

OHIO EDISON CO.

Order Providing for Hearing, Suspending Revised Rate Schedules and Granting Intervention

MARCH 31, 1972.

Ohio Edison Co. (Ohio Edison), on January 27, 1972, tendered for filing revised rate schedules applicable to sales to 21 municipal wholesale customers,[1] which would increase its revenues by approximately $2,218,025 (29.3 percent) annually based upon estimated sales for the 12 months ending March 31, 1973. The increase, which is applicable to both primary and transmission voltage, is proposed to become effective April 1, 1972.

The revised rate schedules include the following proposed changes: (i) The increase in rates and charges described above; (ii) the addition of a new fuel adjustment clause which would increase charges by approximately $1.1 million of the $2.2 million increase described above; (iii) the addition of a provision for load shedding during underfrequency system conditions; and (iv) delete provisions relating to rendering service in certain areas by either Ohio Edison or the municipality.

In support of the proposed rate changes, in summary, Ohio Edison states: That the return on plant and property devoted to the service of its municipal wholesale customers has been declining and is no longer just and reasonable; that the addition of a fuel adjustment clause is to reflect the increases and decreases in the cost of coal and to smooth out the significant effects of such changes upon earned return; that the load shedding provision is intended to share with municipal customers the burden Ohio Edison has undertaken with other interconnected electric systems to enhance the reliability of coordinated systems in meeting operating problems; that the reason for the elimination of the service area provisions is that they are not justified in view of the small number of customers involved in extensions of service by the municipal customers or the Company.

[1] The revised rate schedules are listed in Appendix A below.

Notice of the filing was issued on February 23, 1972, and published in the FEDERAL REGISTER on March 1, 1972 (37 F.R. 4309). On March 9, 1972, 20 of the municipal customers filed a joint petition for leave to intervene in these proceedings.[2] These petitioners also requested that the Commission provide for hearing and suspend the proposed rate changes for the full statutory period of 5 months, pending such hearing and decision thereon.

In their joint petition, the municipal customers contend, inter alia, that the magnitude of the rate increase raises a presumption of unreasonableness, that it would work a severe hardship upon them, and that the full 5 months' suspension is required to enable petitioners to adjust their operating budgets and rates and to investigate the basis for the rate filing. They also assert that the impact upon Ohio Edison would be insignificant due to the small ratio of wholesale revenues to Ohio Edison's total revenues from all sales.

Ohio Edison, on March 21, 1972, filed a motion and an answer to its customers' petition, complaint and request for suspension of the rate changes, denying specific allegations of the petitioners. Ohio Edison avers that the burden of a 5-month suspension is real and that there is no basis in law for suspending any increase merely because the amount is small when compared to overall revenues of the company or that the size of municipal customers is revelant to the suspension issue.

A review of the subject rate filing indictates that the issues therein raised require development in evidentiary hearing. The proposed increased rates and charges have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory or preferential or otherwise unlawful.

We note that the company's filing is based upon a 1970 test period. In view of the fact that data for the year 1971 should now be available the Presiding Examiner should consider the use of a more current test period. In this connection our regulations under the Federal Power Act do not require the use of a calendar year test period and we prefer the use of the latest actual data available.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Federal Power Act that the Commission enter upon a hearing concerning the lawfulness of the rates and charges contained in Ohio Edison's FPC electric rate schedules, as proposed to be amended by the revised rate schedules tendered for filing on January 27, 1972.

[2] Cities of Amherst, Beach City, Brewster, Columbiana, Cuyahoga Falls, Galion, Grafton, Hubbard, Hudson, Lodi, Lucas, Milan, Monroeville, Niles, Oberlin, Prospect, Seville, South Vienna, Wadsworth, and Wellington, all of Ohio.

(2) The participation of the petitioners named above may be in the public interest.

The Commission orders:

(A) Pursuant to the authority of the Federal Power Act, particularly sections 205 and 206 thereof, the Commission's rules of practice and procedure, and the regulations under the Federal Power Act (18 CFR Ch. I), a public hearing shall be held in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, DC, concerning the lawfulness of the rates, charges, classifications, and services contained in Ohio Edison's FPC electric rate schedules, as proposed to be revised herein, commencing with a prehearing conference to be held on April 20, 1972.

(B) Pending hearing and decision thereon, Ohio Edison's revised rate schedules, filed on January 27, 1972, are hereby suspended and the use thereof deferred until September 1, 1972.

(C) The Commission Staff will serve its direct case no later than September 1, 1972. Intervenors will serve their direct cases no later than September 15, 1972. Ohio Edison may serve rebuttal evidence no later than October 6, 1972. The public hearing shall convene on October 17, 1972, at 10 a.m., e.d.s.t. Thereupon, all testimony and exhibits, including Ohio Edison's entire rate filing, as supplemented, shall be admitted to the record, subject to appropriate motions by parties to the proceedings. Cross-examination shall commence immediately thereafter.

(D) Unless otherwise ordered by the Commission, Ohio Edison shall not change the terms or provisions of the subject rate schedules or of its presently effective rate schedules until this proceeding has been terminated or until the period of suspension has expired.

(E) A Presiding Examiner to be designated by the Chief Examiner for that purpose shall preside at the hearing initiated by this order, and shall conduct such hearing in accordance with the terms of this order, the Commission's rules of practice and procedure, and the Federal Power Act.

(F) The afore-mentioned joint petitioners for intervention are hereby permitted to intervene in this proceeding subject to the rules and regulations of the Commission: *Provided however*, That participation of such intervenors shall be limited to the matters affecting asserted rights and interests specifically set forth in the petition to intervene: *And provided further*, That the admission of such joint intervenors shall not be construed as recognition by the Commission that they or any of them might be aggrieved by any orders entered in this proceeding.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[Docket No. E-7706]

SIERRA PACIFIC POWER CO.

Order Providing for Hearing, Suspending Revised Tariff Sheets and Granting Intervention

MARCH 31, 1972.

Sierra Pacific Power Co. (Sierra Pacific), on January 27, 1972, tendered for filing revised tariff sheets[1] in its FPC electric tariff, Original Volume No. 1. The revised tariff sheets, which are proposed to become effective on April 1, 1972, contain increased rates and charges which would increase Sierra Pacific's annual revenues by approximately $324,208 (40.7 percent) based upon service for the 12-month period ending March 31, 1972, rendered to four wholesale customers[2] under Rate Schedules R-1 and R-2. The revised tariff sheets also contain a proposed new fuel adjustment clause.

Sierra Pacific states that the increase in rates is necessitated by increases in operating expenses, particularly in fuel costs; increases in cost of plant additions, and higher capital costs, particularly claiming a need for a rate of return allowance of 8.35 percent on overall investment.

The Commission issued public notice of the rate filing on February 24, 1972, which was published in the FEDERAL REGISTER on March 4, 1972 (37 F.R. 4748). Petitions for leave to intervene asserting their interests in these proceedings were timely filed by the four wholesale customers which are affected by the filing. (supra, footnote 2) The Public Service Commission of Nevada untimely filed notice of intervention.

Truckee-Donner Public Utilities District (Truckee-Donner), in its petition, also requests the Commission to deny Sierra Pacific's increase on the grounds that: (1) Its contractual agreement with Sierra Pacific provides for a fixed rate which may not be terminated without its consent prior to May 18, 1977; (2) the portion of the agreement providing "all rates are subject to such changes and modifications as may be required and/or approved by the Federal Power Commission from time to time", only recognizes the rule that parties may not deprive the Commission of its jurisdiction by agreement; and (3) the proposed fuel adjustment clause would deprive purchasers of the opportunity for full consideration of all cost factors at the time of proposed increases. Truckee-Donner also requests that the Commission enter upon a hearing and suspend the operation of such rates for the maximum 5-month period.

The paragraph which includes the phrase quoted by Truckee-Donner, reads:

> It is understood and agreed by Company and Customer that the rates herein shall go into effect subject to all necessary filings with, and approval by, the Federal Power Commission, and shall be subject to such changes and modifications as may be required and/or approved by the Federal Power Commission from time to time. If said rates are increased, Customer shall have option to discontinue purchasing by giving one (1) year's notice of such intention.

The language in the above provision that the rates "* * * shall be subject to such changes and modifications as may be required and/or approved by the Federal Power Commission from time to time" clearly indicates that changes in the rates contained in the subject contract were contemplated by or with the approval of the Federal Power Commission.

The language in these contracts is, in substance, to the same effect as that in the Memphis case[3] which permits a public utility unilaterally to modify its rate by filing a tariff increase under section 4 of the Natural Gas Act (and thus under the companion section 205 of the Federal Power Act) if the utility's contract with its customers provides for such change. The provision in Truckee-Donner's agreement, moreover, is substantially similar to that in certain of Carolina Power & Light Co.'s contracts with municipalities which we found to authorize unilateral rate filings by the Company.[4] See Opinion No. 608, Carolina Power & Light Company, Docket No. E-7564, issued January 3, 1972, ------ FPC ------.

We conclude that this rate agreement provides for, in effect, a "going rate" rather than a fixed rate, and accordingly that the request for denial of Sierra Pacific's rate increase should be denied.

Review of the rate filing indicates that the issues therein raised require development in evidentiary hearing. The proposed increased rates and charges have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory or preferential or otherwise unlawful.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Federal Power Act that the Commission enter upon a hearing concerning the lawfulness of the rates, classifications, services, and provisions of Sierra Pacific's FPC Electric Tariff, as proposed to be modified by the subject rate filing on January 27, 1972, and that the subject rate filing be suspended as herein provided.

(2) The participation of the above-named petitioners for leave to intervene in these proceedings may be in the public interest.

(3) Although the Public Service Commission of Nevada's notice of intervention was not timely filed, good cause exists for permitting such intervention.

The Commission orders:

(A) Pursuant to the authority of the Federal Power Act, particularly sections 205 and 206 thereof, the Commission's rules of practice and procedure, and the regulations under the Federal Power Act (18 CFR Ch. I), a public hearing shall be held in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, DC, concerning the lawfulness of the rates, charges, classifications, services, and provisions of Sierra Pacific's FPC Electric Tariff, as proposed to be modified herein.

(B) Pending such hearing and decision thereon Sierra Pacific's tariff sheets filed on January 27, 1972, are hereby suspended and the use thereof deferred until September 1, 1972.

(C) On or before July 14, 1972, the Commission Staff shall serve its prepared testimony and exhibits. The prepared testimony and exhibits of all interveners shall be served on or before July 28, 1972. Any rebuttal evidence by Sierra Pacific shall be served on or before August 18, 1972. The public hearing herein ordered shall convene on September 6, 1972, at 10 a.m., e.d.t. Thereupon, all testimony and exhibits, including Sierra Pacific's entire rate filing as submitted on January 27, 1972, as supplemented, shall be admitted to the record subject to appropriate motions of the parties to the proceedings. Cross-examination shall commence immediately thereafter.

(D) Unless otherwise ordered by the Commission, Sierra Pacific shall not change the terms or provisions of the subject rate schedules or of its presently effective rate schedules until this proceeding has terminated or until the suspension period has expired.

(E) Truckee-Donner's request for denial of the proposed rate increase is denied.

(F) A Presiding Examiner to be designated by the Chief Examiner for that purpose (see Delegation of Authority, 18 CFR 3.5(d)), shall preside at the hearing in this proceeding; shall describe relevant procedural matters not herein provided; and shall control this proceeding in accordance with the provisions of this order, the Commission's rules of practice and procedure, and of the Federal Power Act.

(G) The above-named petitioners are hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission: *Provided however*, That the participation of such intervenors shall be limited to matters affecting rights and interests specifically set forth in the respective petitions to intervene: *And provided further*, That the admission of such intervenors shall not be construed as recognition by the Commission that they, or any of them might be aggrieved because of any order or orders issued by the Commission in this proceeding.

(H) The Public Service Commission of the State of Nevada is hereby permitted to intervene in this proceeding.

By the Commission.

OFFICE OF ECONOMIC OPPORTUNITY

PILOT POLICE PROJECT, WASHINGTON, D.C.

Notice of Availability of Reported Findings

Pursuant to section 606 of the Economic Opportunity Act of 1964, as amended, it is announced that as a result of OEO Contract No. B00-5133, American Institutes for Research, Kensington, Md., has furnished to the Agency a final report entitled "The Pilot Police Project: A Description and Assessment of a Police-Community Relations Experiment in Washington, D.C."

The major finding is that positions of various factions previously considered polarized can be reconciled and that objective criteria for choosing among alternative ways of improving police-community relations can be established. The evaluators conclude that the likelihood of improving police-community relations will be greater if policymakers will do the following: (1) Recognize that inservice police training is not necessarily the best program to emphasize in efforts to improve police-community relations; (2) Involve the community in police-community relations programs. Involve the community intensively in services currently connected with the police, but not being performed at all or well by them; (3) View police-community relations from a long term point of view; short term training and other experimental programs are likely to be trampled in the political controversy over who will control and operate them; (4) Examine what the community people are saying. Emphasize changing the power relationship through influencing policies connected with police recruitment, residence, and promotions, with particular stress on recruitment; (5) Concentrate on citizens as well as the police. Educate citizens to assume responsibility in law enforcement. Specific recommendations in this area include the establishment of a police science scholarship program within each police subdivision of a city and the institutionalization of community based police-community relations units comparable to, but more encompassing than, existing police-community relations units within police departments. The core of the latter program would be civilian-selected and civilian-staffed liaisons between local civic associations and the police.

A Summary Abstract, a Summary of Findings, and the technical evaluation final report is available from OEO directly, or from the National Technical Information Service, U.S. Department of Commerce, Springfield, Va. 22151.

PRICE COMMISSION

ECONOMIC STABILIZATION PROGRAM

Notice of Public Hearing

Notice is hereby given that the Price Commission will hold a public hearing on April 21, 1972, in Boston, Mass.

The purpose of the hearing is to receive input from various sectors of the Nation, including industry, commerce, labor, consumers, and others. The Commission is seeking a general review of policy; an evaluation of its approach to curbing inflation; comments upon recommended policy changes; identification of specific problem areas; and discussion of the causes of inflation and the application of policies to control it.

The hearing will be held from 9 a.m. to 2:30 p.m. in Faneuil Hall, Merchants Row, Dock Square, Boston, Mass.

The public hearing hereby scheduled reflects the Commission's intention to comport with the stated desire to Congress (section 207 of the Economic Stabilization Act of 1970, as amended), for public hearings on matters which have a significantly large impact on the national economy.

Any person who has a substantial interest in the subject of the hearing, or who is a representative of a group or class of persons which has a substantial interest in the subject of the hearing, may submit, before April 14, 1972, a written request to make an oral presentation. Any such written request should include a description of the substantial interest concerned; if appropriate, a statement of why the requesting person is a proper representative of a group or class of persons which has such an interest; and a concise summary of the proposed oral presentation. Oral presentations may be supplemented by written submissions filed with the Commission before the oral presentation or before April 19, 1972. The Commission reserves the right to select the persons to be heard at the hearing, to schedule and determine the length of their respective presentations, and to establish the procedures governing the conduct of the hearing. In addition, the Commission requests all other interested persons to submit written suggestions and comments on the subject for Commission consideration before April 19, 1972.

All written submissions and requests to make an oral presentation should be sent to Mr. Robert C. Cassidy, Price Commission, 2000 M Street NW., Washington, DC 20508.

Issued in Washington, D.C., on April 3, 1972.

C. JACKSON GRAYSON JR., *Chairman, Price Commission.*

ENVIRONMENTAL PROTECTION AGENCY

MOTOR VEHICLE POLLUTION CONTROL

Suspension Request; Notice of Public Hearing

Notice of public hearing on the suspension request of Volvo, Inc., pursuant to section 202(b)(5)(D) of the Clean Air

APR 7 1972 XUM

Act, as amended, was published on March 30, 1972, at 37 F.R. 6516. That notice advised that requests received from any other motor vehicle manufacturers on or before April 5, 1972, would also be considered at that hearing which will commence at 10 a.m. on April 10, 1972, at the Department of Commerce Auditorium, 14th and E Streets NW., Washington, D.C.

Suspension requests were received from International Harvester Co. on March 31, 1972, and Ford Motor Co., Chrysler Corp., and General Motors Corp. on April 5, 1972. Those applications will be considered at the above described hearing.

Dated: April 6, 1972.

SECURITIES AND EXCHANGE COMMISSION

[70-5179]

POTOMAC EDISON CO.

Notice of Proposed Amendment of Charter and Issue and Sale of Cumulative Preferred Stock at Competitive Bidding

MARCH 31, 1972.

Notice is hereby given that The Potomac Edison Co. (Potomac), Downsville Pike, Hagerstown, Md. 21740, a registered holding company and an electric utility subsidiary company of Allegheny Power System, Inc., also a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 (Act), designating sections 6 and 7 of the Act and Rule 50 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transactions.

Potomac proposes to amend its charter to increase the authorized shares of its Cumulative Preferred Stock by 100,000 shares and to issue and sell, subject to the competitive bidding requirements of Rule 50 under the Act, 100,000 shares of its authorized but unissued $_____ Cumulative Preferred Stock, Series G, par value $100 per share. The dividend rate (which shall be a multiple of 4 cents) and the price (exclusive of accrued dividends) to be paid to Potomac (which shall be not less than $100 or more than $102.75 per share) will be determined by the competitive bidding. The terms of the preferred stock include a 5-year prohibition against refunding the preferred stock, directly or indirectly, with funds derived from the issuance of debt securities at a lower effective interest cost or other preferred stock at a lower effective dividend cost.

The net proceeds from the issue and sale of the stock will be used for the construction program of Potomac and its subsidiary companies (including payment of $10 million of short-term borrowings incurred therefor). Construction expenditures for the years 1972 and 1973 are currently estimated at $42 million and $48 million, respectively.

It is stated that the Maryland Public Service Commission has jurisdiction over the proposed issue and sale of the preferred stock by Potomac and that no other State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions. The fees and expenses to be incurred in connection with the transactions are estimated at $41,000, including legal fees of $9,000. The fees of counsel for the successful bidders, which are to be paid by such bidders, will be filed by amendment.

Notice is further given that any interested person may, not later than April 24, 1972, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

[70-5180]

UTAH POWER & LIGHT CO.

Notice of Proposed Issue and Sale of First Mortgage Bonds and Common Stock at Competitive Bidding

MARCH 31, 1972.

Notice is hereby given that Utah Power & Light Co. (Utah), 1407 West North Temple Street, Post Office Box 899, Salt Lake City, UT 84110, an electric utility company and a registered holding company, has filed a declaration with this Commission, pursuant to the Public Utility Holding Company Act of 1935 (Act), designating sections 6(a) and 7 of the Act and Rule 50 thereunder as applicable to the proposed transactions. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transactions.

Utah proposes to issue and sell, subject to the competitive bidding requirements of Rule 50 under the Act, $25 million principal amount of First Mortgage Bonds, _____ percent Series due 2002. The interest rate of the bonds (which shall be a multiple of ⅛ of 1 percent) and the price, exclusive of accrued interest, to be paid to Utah (which shall be not less than 99 percent nor more than 102 percent of the principal amount of the bonds) will be determined by the competitive bidding. The bonds are to be dated as of May 1, 1972, will mature on May 1, 2002, and will be issued under a mortgage and deed of trust dated as of December 1, 1943, between Utah and Morgan Guaranty Trust Company of New York (formerly Guaranty Trust Company of New York) and H. H. Gould (successor co-trustee), as trustees, and indentures supplemental thereto including a 20th Supplemental indenture to be dated as of May 1, 1972, and which includes a prohibition until May 1, 1977, against refunding the issue with the proceeds of funds borrowed at a lower interest cost.

Utah also proposes to issue and sell, subject to the competitive bidding requirements of Rule 50 under the Act, 715,000 shares of its common stock, par value $12.80 per share. The sale of the bonds and the sale of the common stock are separate transactions, not contingent one upon the other.

The proceeds from the sale of the bonds and common stock will be applied to the payment of outstanding short-term notes (estimated at $40 million) evidencing borrowings made for construction purposes and the remaining proceeds will be used to finance its construction program. The construction program for Utah and its subsidiary company, The Western Colorado Power Co., for the years 1972–1974, inclusive, is estimated at $191 million of which $63 million is expected to be used in 1972.

Utah has applied to the Public Service Commission of Wyoming and the Idaho Public Utilities Commission for requisite authority to effectuate the proposed transactions. It is represented that no other State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions. The fees and expenses to be incurred in connection with the proposed transactions are to be filed by amendment.

Notice is further given that any interested person may, not later than April 28, 1972, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

TENNESSEE VALLEY AUTHORITY

CONTROL OF EURASIAN WATERMILFOIL IN TVA RESERVOIRS

Notice of Availability of Draft Environmental Statement

Notice is hereby given that a document entitled "Environmental Statement, Control of Eurasian Watermilfoil (Myriophyllum Spicatum L.) in TVA Reservoirs" has been prepared in draft pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969 and became available to the public on February 16, 1972. Copies of the document are accessible for public examination in the office of the Director of Information, Tennessee Valley Authority, 508 Union Avenue, Knoxville, TN 37902, and at TVA's Washington office, 435 Woodward Building, 15th and H Streets, Washington, D.C. 20444. This statement covers the environmental impact of the control of Eurasian Watermilfoil in the TVA reservoir system through water level management and the application of herbicides.

Single copies of the draft statement will be furnished upon request addressed to the Director of Information, Tennessee Valley Authority, at the above address.

Dated at Knoxville, Tenn., this the 30th day of March 1972, for the Tennessee Valley Authority.

LYNN SEEBER,
General Manager.

[Rev. S.O. 994; Supplemental ICC Order 67[1]]

CENTRAL RAILROAD COMPANY OF NEW JERSEY

Rerouting or Diversion of Traffic

In the opinion of R. D. Pfahler, agent, The Central Railroad Company of New Jersey, Robert D. Timpany, Trustee, is unable to transport traffic over its lines in Pennsylvania because of a cessation of operations ordered by the Federal District Court in Newark, N.J.

It is ordered, That:

(a) Rerouting traffic: The Central Railroad Company of New Jersey, Robert D. Timpany, Trustee, being unable to transport traffic over its lines in Pennsylvania because of a cessation of operations ordered by the Federal District Court in Newark, N.J., this railroad and its connections are hereby authorized to reroute or divert such traffic by substituting the Lehigh Valley Railroad Co., John F. Nash and Robert C. Haldeman, Trustees, for the Central Railroad of New Jersey for movement over that line in the State of Pennsylvania, thence over such other necessary lines of the Lehigh Valley Railroad Co., John F. Nash and Robert C. Haldeman, Trustees, for interchange to connections at any junction, wherever located, as will best facilitate the flow of traffic, and/or to and from those stations of The Central Railroad Company of New Jersey, Robert D. Timpany, Trustee, located in the State of Pennsylvania. No other changes in routing shall be made unless authorized by the shipper; or, if the shipment was originally unrouted, unless authorized by the origin carrier. The billing covering all such cars rerouted shall carry a reference to this order as authority for the rerouting.

(b) Notification to shippers. Each carrier rerouting cars in accordance with this order shall notify each shipper at the time each car is rerouted or diverted and shall furnish to such shipper the new routing provided under this order.

[1] This supplement is issued for purpose of clarifying the intent to permit interchange to connections at any junction, wherever located, as will best facilitate the flow of traffic.

V 37 I 68 APR 7 72 XUM

(c) Inasmuch as the diversion or rerouting of traffic is deemed to be due to carrier disability, the rates applicable to traffic diverted or rerouted by said agent shall be the rates which were applicable at the time of shipment on the shipments as originally routed.

(d) In executing the directions of the Commission and of such agent provided for in this order, the common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the divisions of the rates of transportation applicable to said traffic. Divisions shall be, during the time this order remains in force, those voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, said divisions shall be those hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(e) Effective date: This order shall become effective at 12:01 a.m., April 1, 1972.

(f) Expiration date: This order shall expire at 11:59 p.m., May 30, 1972, unless otherwise modified, changed, or suspended.

It is further ordered, That this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that it be filed with the Director, Office of the Federal Register.

Issued at Washington, D.C., April 4, 1972.

INTERSTATE COMMERCE COMMISSION,
[SEAL] R. D. PFAHLER,
Agent.

[Notice 41]

MOTOR CARRIER TRANSFER PROCEEDINGS

APRIL 4, 1972.

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-73317. By order of March 27, 1972, the Motor Carrier Board approved the transfer to Tyler Consolidators, Inc., Richmond, Calif., of the operating rights in Certificate No. MC-64719 issued September 14, 1940, to Pierce-Rodolph Storage Co., Ltd., San Francisco, Calif., authorizing the transportation of household goods, between points within 100 miles of San Francisco, Calif., including San Francisco. Marshall G. Berol, 100 Bush Street, San Francisco, CA 94104, attorney for applicants.

No. MC-FC-73345. By order of March 22, 1972, the Motor Carrier Board, on reconsideration, approved the transfer to Tyler Consolidators, Inc., Richmond, Calif., of Certificate No. MC-109989 issued to Harry W. Hamilton, Jr., doing business as Pioneer Truck & Storage Co., and Ventura Transfer & Storage, Oxnard, Calif., authorizing the transportation of: Household goods as defined by the Commission and various specified commodities, between named points and areas in California. Marshall G. Berol, attorney, 100 Bush Street, San Francisco, CA 94104.

No. MC-FC-73436. By order of March 27, 1972, the Motor Carrier Board approved the transfer to Madison River Terminal, Inc., Madison, Ind., of the operating rights in Certificate No. MC-133139 issued May 15, 1969, to Madison Coal and Oil, Inc., Madison, Ind., authorizing the transportation of dry bulk commodities, with exceptions, in dump vehicles, from river terminals at Madison, Ind., to specified areas in Indiana, Ohio, and Kentucky, and pig iron and ferro alloys, from river terminals at Madison, Ind., to specified areas in Indiana, Ohio, and Kentucky. Robert W. Loser II, 1001 Chamber of Commerce Building, Indianapolis, Ind. 46204, attorney for applicants.

No. MC-FC-73481. By order of March 27, 1972, the Motor Carrier Board approved the transfer to Gary Lee Meyer, doing business as Meyer Truck Line, 2 North Dakota Street, Aberdeen, SD 57401, of the operating rights in Certificate No. MC-108189, issued July 2, 1970, to Mills Truck Line, Inc., 2 North Dakota Street, Aberdeen, SD 57401, authorizing the transportation of mail and general commodities, with exceptions, over regular routes, between specified points in South Dakota.

[SEAL] ROBERT L. OSWALD,
Secretary.

Milk for Manufacturing Purposes and its Production and Processing

Recommended Requirements

No. 68—Pt. II——1

V 37-68 APR 7 72 XUM

DEPARTMENT OF AGRICULTURE

Consumer and Marketing Service

MILK FOR MANUFACTURING PURPOSES AND ITS PRODUCTION AND PROCESSING

Requirements Recommended for Adoption by State Regulatory Agencies

Statement of consideration leading to the recommended requirements. Proposed requirements for milk for manufacturing purposes and its production and processing recommended for adoption by States were published by USDA under notices in the FEDERAL REGISTER on October 25, 1969. The purpose of publishing the proposed requirements was to invite comment from State regulatory officials, the dairy industry and all other interested parties. Written data, views, or arguments in connection with the aforesaid recommendations were requested to be sent to the Hearing Clerk, U.S. Department of Agriculture, by no later than March 31, 1970.

Ninety-two letters of comment were received. The letters were reviewed and the views and opinions considered by both the Department of Health, Education, and Welfare and the U.S. Department of Agriculture. Of the 13 States commenting, a majority agreed on the following items:

(a) Use of a farm permit system rather than the proposed farm certification system.

(b) Delete the provisions for an automatic drop in the maximum bacterial level for No. 2 (acceptable) milk from individual farms from 3 million to 1 million per milliliter in 3 years after adoption by a State.

(c) Permit the continued use of the Methylene Blue test to estimate bacteria.

(d) Eliminate requirement that producers check strength of sanitizing solutions.

(e) Make requirements for farm water supplies less stringent.

(f) Require that laboratory test records on milk quality only be maintained for review by inspectors.

(g) Eliminate the recommendation that commingled milk in plant storage tanks have a bacteria count no greater than 3 million per milliliter.

The remaining 79 letters of comment were from producers, processors, and trade organizations. In general, their views supported those of the States who commented.

Careful consideration has been given to the sum and substance of each letter of comment received. The views and opinions expressed were then weighed in light of what is known of industry capability, and in light of the proportion of the industry now meeting the recommended requirements. The fact that certain States and areas are unable presently to adopt and apply these recommended requirements should not alter the significance nor the need for uniformity in the sanitary quality of manufacturing milk and its products. Instead, such areas should assess their situation and use all means necessary to systematically improve conditions step by step, to the point where the recommended requirements can be met.

Actions taken on the views and comments received are as follows: The use of either term, whether it be farm certification or farm permit, would not alter the basic concept in the recommended requirements that an established criteria must be complied with as a basis for issuance and continuance of either a permit or certification. For these reasons, the term certification was retained in the text.

Considerable apprehension was expressed in the provision to automatically reduce the maximum level of bacteria in acceptable milk from 3 million to 1 million in 3 years after adoption of the requirements. Certain areas may not have a sufficient basis by which to judge whether they could meet this drop in the specified time. Therefore, this recommended requirement is being footnoted to indicate that it will be reviewed in 3 years and, if warranted, a further extension may be granted.

The Methylene Blue test for estimating the bacterial content of milk has been demonstrated to be the least conclusive test when compared with the standard plate count, the direct microscopic count, and the resazurin reduction test. Because of its poor correlation with the other three test procedures, the Methylene Blue test will not be included as a recommended test. This is not to say that some benefit could not be derived from its use in upgrading the quality of milk. Those who are using it now will receive the full benefits of the test, to the maximum capability of the test itself. From that point on, a more definitive test procedure will be needed.

The recommendation to have producers check the strength of their sanitizing solutions has been dropped, as it is felt that proper use of sanitizing solutions can be achieved by following the directions of the manufacturer.

Dairy farm water supply requirements were changed slightly. For reasons of public health significance and for safety of the farm family and the public in general it was felt that (1) farm water supplies should at least for the present meet the State requirements, (2) that in cases where they did not meet the State requirements, such sources of farm water supplies should be upgraded to meet the requirements any time that unsatisfactory test samples were obtained, when repairs or reconstruction was necessary or when any new source was constructed. States should be able to upgrade farm water supplies so that they could comply with the construction requirements.

The only test records which are recommended to be kept for routine review by inspectors are those which pertain to sediment and bacterial tests on milk from producers, pasteurization recorder charts, and water supply and health certificates. This recognizes privacy of in-plant quality control tests and other test results, from routine surveillance.

The recommended requirement that when milk from individual farms is commingled in dairy plant storage tanks, the commingled milk shall not have a bacterial count higher than 3 million per milliliter, is being retained. The reason is that some means is necessary to determine if the milk after being received from the farm is properly refrigerated and promptly handled in a sanitary manner until processed.

In addition, editorial changes have been made in the text for the purpose of greater clarity of intent.

The purpose and intent of the recommended requirements now being published is to promote, through State adoption and enforcement, uniformity in State dairy laws and regulations as well as national uniformity in the sanitary manner in which milk for manufacturing purposes is produced and processed.

The U.S. Department of Agriculture has no legal responsibility for the enforcement of these recommended requirements within a State. This is the responsibility of each State when the requirements are adopted by a State. However, under authority granted it by the Agricultural Marketing Act of 1946, USDA will continue to assist the States in an advisory and interpretive capacity in order to promote the purpose and intent for which these requirements have been published. In addition, USDA will continue to review the progress being made toward adoption of these recommendations and if necessary will amend the recommendations to include additional time limitations for implementation.

A sample State Enabling Act to facilitate the enactment of the proposed requirements for those States not having the present authority, together with the recommended requirements, is included.

Subpart A—Sample State Enabling Act

Subpart B—Definitions

Sec.
B 1. Meaning of words.
B 2. Terms defined.

Subpart C—Quality Requirements for Milk for Manufacturing

C 1. Basis.
C 2. Sight and odor.
C 3. Sediment content classification.
C 4. Bacterial estimate classification.
C 5. Rejected milk.
C 6. Identification of reject milk.
C 7. Excluded milk.
C 8. Quality testing of milk from producers.
C 9. Record of tests.
C 10. Field service.
C 11. Abnormal milk.

Subpart D—Requirements for Farms Producing Milk for Manufacturing

D 1. Health of herd.
D 2. Milking facility and housing.
D 3. Milking procedure.
D 4. Cooling.
D 5. Milkhouse or milkroom.
D 6. Utensils and equipment.
D 7. Water supply.
D 8. Sewage disposal.
D 9. Qualifications for farm certification.

Subpart E—Requirements for Licensed Dairy Plants

Sec.
E 1. General requirements.
E 1.1 Premises.
E 1.2 Buildings.
E 1.3 Facilities.
E 1.4 Equipment and utensils.
E 1.5 Personnel cleanliness.
E 1.6 Personnel health.
E 1.7 Protection and transportation of raw milk and cream.
E 1.8 Raw product storage.
E 1.9 Pasteurization or sterilization.
E 1.10 Composition and wholesomeness.
E 1.11 Cleaning and sanitizing treatment.
E 1.12 Insect and rodent control program.
E 1.13 Plant records.
E 1.14 Packaging and general identification.
E 1.15 Storage of finished product.
E 1.16 Qualifications for plant licensing.
E 2. Supplemental requirements for plants manufacturing, processing, and packaging instant nonfat dry milk, nonfat dry milk, dry whole milk, dry buttermilk, dry whey, and other dry milk products.
E 2.1 Rooms and compartments.
E 2.1.1 Dry storage of product.
E 2.1.2 Packaging room for bulk products.
E 2.1.3 Hopper or dump room.
E 2.1.4 Repackaging room.
E 2.2 Equipment and utensils.
E 2.2.1 General construction, repair and installation.
E 2.2.2 Preheaters.
E 2.2.3 Hotwells.
E 2.2.4 Evaporators and/or vacuum pans.
E 2.2.5 Surge tanks.
E 2.2.6 High pressure pumps and lines.
E 2.2.7 Dryers.
E 2.2.8 Collectors and conveyors.
E 2.2.9 Dry dairy product cooling equipment.
E 2.2.10 Special treatment equipment.
E 2.2.11 Sifters.
E 2.2.12 Portable and atationary bulk bins.
E 2.2.13 Automatic sampling device.
E 2.2.14 Dump hoppers, screens, mixers and conveyors.
E 2.2.15 Filler and packaging equipment.
E 2.2.16 Heavy duty vacuum cleaners.
E 2.3 Clothing and shoe covers.
E 2.4 Operations and operating procedures.
E 2.4.1 Pasteurization.
E 2.4.2 Condensed surge supply.
E 2.4.3 Condensed storage tanks.
E 2.4.4 Drying.
E 2.4.5 Cooling dry products.
E 2.4.6 Packaging, repackaging, and storage.
E 2.4.7 Product adulteration.
E 2.4.8 Checking quality.
E 2.4.9 Requirements for instant nonfat dry milk.
E 2.4.10 Cleaning of dryers, conveyors, sifters, and storage bins.
E 2.4.11 Insect and rodent control program.
E 3. Supplemental requirements for plants manufacturing, processing, and packaging butter and related products.
E 3.1 Rooms and compartments.
E 3.1.1 Coolers and freezers.
E 3.1.2 Churn rooms.
E 3.1.3 Print and bulk packaging rooms.
E 3.2 Equipment and utensils.
E 3.2.1 General construction, repair, and installation.
E 3.2.2 Continuous churn.
E 3.2.3 Conventional churn.
E 3.2.4 Bulk butter trucks, boats, and packers.
E 3.2.5 Butter, frozen or plastic cream melting machines.
E 3.2.6 Printing equipment.
E 3.2.7 Brine tanks.
E 3.2.8 Starter vats.
E 3.3 Operations and operating procedures.
E 3.3.1 Pasteurization.
E 3.3.2 Composition and wholesomeness.
E 3.3.3 Containers.
E 3.3.4 Printing and packaging.
E 3.3.5 General identification.
E 3.3.6 Storage of finished product in coolers.
E 3.3.7 Storage of finished product in freezer.
E 4. Supplemental requirements for plants manufacturing and packaging cheese.
E 4.1 Rooms and compartments.
E 4.1.1 Starter room.
E 4.1.2 Make room.
E 4.1.3 Drying room.
E 4.1.4 Paraffining room.
E 4.1.5 Rindless block wrapping area.
E 4.1.6 Coolers or curing rooms.
E 4.1.7 Cutting and packaging rooms.
E 4.2 Equipment and utensils.
E 4.2.1 General construction, repair, and installation.
E 4.2.2 Starter vats.
E 4.2.3 Cheese vats.
E 4.2.4 Mechanical agitators.
E 4.2.5 Curd mill and miscellaneous equipment.
E 4.2.6 Hoops and followers.
E 4.2.7 Press.
E 4.2.8 Rindless cheese press.
E 4.2.9 Paraffin tanks.
E 4.3 Operations and operating procedures.
E 4.3.1 Cheese from pasteurized milk.
E 4.3.2 Cheese from unpasteurized milk.
E 4.3.3 Whey disposal.
E 4.3.4 Packaging and repackaging.
E 4.3.5 General identification.
E 5. Supplemental requirements for plants manufacturing and packaging cottage cheese.
E 5.1 Rooms and compartments.
E 5.1.1 Processing rooms.
E 5.1.2 Starter room.
E 5.1.3 Coolers.
E 5.2 Equipment and utensils.
E 5.2.1 General construction, repair, and installation.
E 5.2.2 Cheese vats.
E 5.2.3 Agitators.
E 5.2.4 Container fillers.
E 5.2.5 Mixers.
E 5.2.6 Starter vats.
E 5.3 Operations and operating procedures.
E 5.3.1 Pasteurization.
E 5.3.2 Reconstituting nonfat dry milk.
E 5.3.3 Packaging and general identification.
E 5.3.4 Storage of finished product.
E 6. Supplemental requirements for plants manufacturing, processing, and packaging pasteurized process cheese and related products.
E 6.1 Equipment and utensils.
E 6.1.1 General construction, repair, and installation.
E 6.1.2 Conveyors.
E 6.1.3 Grinders or shredders.
E 6.1.4 Cookers.
E 6.1.5 Fillers.
E 6.2 Operations and operating procedures.
E 6.2.1 Trimming and cleaning.
E 6.2.2 Cooking the batch.
E 6.2.3 Forming containers.
E 6.2.4 Filling containers.
E 6.2.5 Closing and sealing containers.
E 7. Supplemental requirements for plants manufacturing, processing, and packaging evaporated, condensed or sterilized milk products.
E 7.1 Equipment and utensils.
E 7.1.1 General construction, repair, and installation.
E 7.1.2 Evaporators and vacuum pans.
E 7.1.3 Fillers.
E 7.1.4 Batch or continuous in-container sterilizers.
E 7.1.5 Homogenizer.
E 7.2 Operations and operating procedures.
E 7.2.1 Pre-heat, pasteurization.
E 7.2.2 Sterilization.
E 7.2.3 Filling containers.
E 7.2.4 Aseptic filling.
E 7.2.5 Storage.

Subpart F—Administrative Procedures

F 1. Farm certification.
F 1.1 Necessity for certification.
F 1.2 Inspection.
F 1.3 Certification.
F 1.4 Expiration and revocation of certification.
F 1.5 Reinstatement.
F 2. Licensing plants, milk graders, and bulk milk collectors.
F 2.1 Necessity for plant license.
F 2.2 Application for license.
F 2.3 Plant inspection.
F 2.4 Issuance of license.
F 2.5 Expiration, suspension and revocation of license.
F 2.6 Reinstatement.
F 3. Supervision.
F 4. Farm certification report form.
F 5. Plant inspection report form.

Subpart A—Sample State Enabling Act

An act to provide for the establishment of requirements for milk for manufacturing purposes and its production and processing.

SECTION 1. It is the intent of the Act to encourage the sanitary production of good quality milk, to promote the sanitary processing of milk for manufacturing purposes, and to assure wholesome, stable, and high-quality dairy products.

SEC. 2. The [regulatory agency of the State] [1] shall administer the provisions of this Act and is hereby authorized: to establish and promulgate rules and regulations for milk for manufacturing purposes, its production, transportation, grading, use, processing, and the packaging, labeling, and storage of dairy products made therefrom; to inspect dairy farms and dairy plants; to certify dairy farms for the production and sale of milk for manufacturing purposes and to license dairy plants to handle and process milk for manufacturing purposes, in conformity with basic requirements and specifications prescribed by such rules and regulations as may be issued hereunder in effectuation of the intent hereof; to require the keeping of appropriate books and records by plants licensed hereunder; and to license qualified milk graders and bulk milk collectors.

SEC. 3. The [regulatory agency of the State] [1] may for good cause, after notice and opportunity for hearing, suspend or revoke certifications and licenses issued hereunder. Provided, that nothing in this Act shall be construed to prevent the suspension of the operation of any plant

[1] Insert name of appropriate regulatory agency, official, or department.

V 37-68 APR 7 72 XUM

prior to a hearing, when such action is authorized by any applicable and valid law or regulation.

SEC. 4. Twenty-four months from and after the effective date of the rules and regulations issued pursuant to this Act, no person, firm, or corporation shall produce, sell, offer for sale, or process milk for the manufacture of human food except in accordance with the provisions of this Act and the rules and regulations issued pursuant hereto.

SEC. 5. Any person, firm, or corporation that willfully violates any provision of this Act or the rules and regulations issued pursuant hereto shall be fined not more than $_____, and each and every violation shall constitute a separate offense.

SEC. 6. This Act shall become effective _____.

Subpart B—Definitions

SECTION B 1. *Meaning of words.* Words used in the singular form shall be deemed to import the plural, and vice versa, as the case may demand.

SEC. B 2. *Terms defined.* Unless the context otherwise requires, the following terms shall be construed, respectively, to mean:

(a) *Act.* (The State Act to provide for the establishment of Requirements for Milk for Manufacturing Purposes and Its Production and Processing.)[1]

(b) *Regulatory agency.* (Insert the name of the State agency, official, or department) is authorized by law to administer the Act.

(c) *Rules and regulations.* The provisions of Subpart B to F herein.

(d) *License.* A license issued under the Act by (the regulatory agency).

(e) *Fieldman.* A person qualified and trained in the sanitary methods of production and handling of milk as set forth herein, and generally employed by a processing or manufacturing plant for the purpose of making dairy farm surveys and doing quality control work.

(f) *Fieldman, approved.* A fieldman qualified, trained, and approved by the (regulatory agency) to perform farm inspections and raw milk grading.

(g) *Inspector.* A qualified, trained person employed by (the regulatory agency) to perform dairy farm or plant inspections and raw milk grading.

(h) *Milk grader or bulk milk collector.* A person licensed by [the regulatory agency] as described in F 2.4(b) who is qualified and trained for the grading of raw milk in accordance with the quality standards and procedures of Subparts C and F.

(i) *Producer.* The person or persons who exercise control over the production of the milk delivered to a processing plant or receiving station and those who receive payment for this product. A "new producer" is one who has only recently entered the production of milk for the market. A "transfer producer" is one who has been shipping milk to one plant and transfers his shipments to another plant.

(j) *Dairy farm or farm.* A place or premise where one or more milking cows are kept, a part or all of the milk produced thereon being delivered, sold, or offered for sale to a plant for manufacturing purposes.

(k) *Dairy plant or plant.* Any place, premise, or establishment where milk or dairy products are received or handled for processing or manufacturing and/or prepared for distribution. When "plant" is used in connection with the production, transportation, grading, or use of milk, it means any plant that handles or purchases milk for manufacturing purposes; when used in connection with requirements for plants or licensing of plants, it means only those plants that manufacture dairy products.

(l) *Milk.* The normal lacteal secretion, practically free from colostrum, obtained by the complete milking of one or more healthy cows. The word "milk" used herein includes only milk for manufacturing purposes.

(m) *Milk for manufacturing purposes.* Milk produced for processing and manufacturing into products for human consumption but not subject to Grade A or comparable requirements.

(n) *Acceptable milk.* Milk that qualifies under sec. C 2 as to sight and odor and that is classified No. 1 or No. 2 for sediment content (sec. C 3) and No. 1 or No. 2 for bacterial estimate (sec. C 4).

(o) *Probational milk.* Milk classified No. 3 for sediment content (sec. C 3) or milk classified "Undergrade" for bacterial estimate (sec. C 4) that may be accepted by plants for specific time periods.

(p) *Reject milk.* Milk that does not qualify under sec. C 2 as to sight and odor, or that is classified No. 4 for sediment content (sec. C 3), which is rejected by the plant by the provisions of sec. C 5.

(q) *Excluded milk.* All of a producer's milk excluded from the market by the provisions of sec. C 7.

(r) *Dairy products.* Butter, cheese (natural or processed), dry whole milk, nonfat dry milk, dry buttermilk, dry whey, evaporated milk (whole or skim), condensed whole milk and condensed skim milk (plain or sweetened), and such other products, for human consumption, as may be otherwise designated.

(s) *Farm certification.* Certification by an inspector or approved fieldman that a producer's herd, milking facility and housing, milking procedure, cooling, milkhouse or milkroom, utensils and equipment and water supply have been found to meet the applicable requirements of subpart D for the production of milk to be used for manufacturing purposes.

(t) *Official methods.* Official Methods of Analysis of the Association of Official Agricultural Chemists, a publication of the Association of Official Analytical Chemists, Box 540, Benjamin Franklin Station, Washington, DC.

(u) *Standard methods.* Standard Methods for the Examination of Dairy Products, a publication of the American Public Health Association, 1790 Broadway, New York, N.Y.

(v) *3–A Sanitary Standards.* The standards for dairy equipment formulated by the 3–A Sanitary Standards Committees representing the International Association of Milk, Food and Environmental Sanitarians, the U.S. Public Health Service, and the Dairy Industry Committee. Published by the International Association of Milk, Food and Environmental Sanitarians, Box 437, Shelbyville, IN 46176.

(w) *C–I–P or cleaned-in-place.* The procedure by which sanitary pipelines or pieces of dairy equipment are mechanically cleaned in place by circulation.

(x) *Atmospheric relatively free from mold.* No more than 10 mold colonies per cubic foot of air as determined in Standard Methods.

(y) *Sanitizing treatment.* Application of any effective method or sanitizing agent to a clean surface for the destruction of pathogens and other organisms as far as is practicable. The sanitizing agents used shall comply with the Federal Food, Drug, and Cosmetic Act.

Subpart C—Quality Requirements for Milk for Manufacturing Purposes

SEC. C 1. *Basis.* The classification of raw milk for manufacturing purposes shall be based on organoleptic examination (sight and odor) and quality control tests for sediment content and bacterial estimate.

SEC. C 2. *Sight and odor.* The flavor and odor of acceptable raw milk shall be fresh and sweet. The milk shall be free from objectionable feed and other off-flavors and off-odors that would adversely affect the finished product, and it shall not show any abnormal condition (including, but not limited to, curdled, ropy, bloody, or mastitic condition), as indicated by sight or odor.

SEC. C 3. *Sediment content classification.* Milk in cans and in farm bulk tanks shall be classified for sediment content as follows: (See Table 1).

TABLE 1

SEDIMENT CONTENT[1]

Sediment-content classification	Milk in cans (off-the-bottom method, 1¼-inch diameter disc)	Milk in farm bulk tanks (mixed sample, 0.40-inch diameter disc)
No. 1 (acceptable)	Not to exceed 0.50 mg.	Not to exceed 0.50 mg. equivalent.
No. 2 (acceptable)	Not to exceed 1.50 mg.	Not to exceed 1.50 mg. equivalent.
No. 3 (probational)	Not to exceed 2.50 mg.	Not to exceed 2.50 mg. equivalent.
No. 4 (reject)	Over 2.50 mg.	Over 2.50 mg. equivalent.

[1] Sediment content based on comparison with applicable charts of Sediment Standards prepared by the U.S Department of Agriculture. (7 CFR 58.2728 through 58.2731)

[1] Insert title and code sections of State Enabling Act.

(a) *Method of testing.* Methods for determining sediment content of milk shall be those described in the latest edition of Standard Methods. For the testing of milk in cans, the off-the-bottom method shall be used. For testing bulk milk, a mixed 1-pint sample shall be tested. Sediment content shall be based on comparison with official USDA Sediment Standards. (7 CFR 58.2728 through 58.2731)

(b) *Frequency of tests.* At least once each month, at irregular intervals, the milk from each producer shall be tested as follows:

(1) *Milk in cans.* One or more cans of milk selected at random from each producer.

(2) *Milk in farm bulk tanks.* A sample shall be taken from each farm bulk tank.

(c) *Acceptance or rejection of milk.* If the sediment disc is classified as No. 1, No. 2, or No. 3, the producer's milk may be accepted. If the sediment disc is classified No. 4 the milk shall be rejected: *Provided,* That if the shipment of milk is commingled with other milk in a transport tank the next shipment shall not be accepted until its quality has been determined at the farm before being picked up; however, if the person making the test is unable to get to the farm before the next shipment it may be accepted but no further shipments shall be accepted unless the milk meets the requirements of No. 3 or better. In the case of milk classified as No. 3 or No. 4, if in cans, all cans shall be tested. Producers of No. 3 or No. 4 milk (cans or bulk) shall be notified immediately and shall be furnished applicable sediment discs and the next shipment shall be tested.

(d) *Retests.* (1) On test of the next shipment (if in cans, all cans shall be tested) milk classified as No. 1, No. 2, or No. 3, may be accepted, but No. 4 milk shall be rejected. Retests of bulk milk classified as No. 4 shall be made at the farm before pickup. The producers of No. 3 or No. 4 milk shall be notified immediately, furnished applicable sediment discs and the next shipment tested.

This procedure of retesting successive shipments and accepting probational (No. 3) milk and rejecting No. 4 milk may be continued for not to exceed 10 calendar days. If at the end of this time all of the producer's milk does not meet the acceptable sediment content classification (No. 1 or No. 2) it shall be excluded from market.

SEC. C 4. *Bacterial estimate classification.* Milk shall be classified for bacterial estimate as follows by one of the listed methods: (See Table 2).

TABLE 2

Bacterial estimate classification	Direct microscopic clump count or standard plate count	Resazurin reduction time to Munsell color standard 5 P 7/4[2]
No. 1 can (acceptable) bulk	Not over 500,000 per ml.	Not less than 2¼ hours.
No. 2 can (acceptable) bulk	do.	Not less than 3½ hours.
	Not over 3,000,000 per ml.	Not less than 1½ hours.
	do.	Not less than 2½ hours.
No. 2[1] can (acceptable) bulk	Not over 1,000,000 per ml.	Not less than 2 hours.
	do.	Not less than 3 hours.
Undergrade can (probation—bulk al 4 weeks).	Over 3,000,000 per ml.	Less than 1½ hours.
	do.	Less than 2½ hours.
Undergrade[1] can (probation—bulk al 4 weeks).	Over 1,000,000 per ml.	Less than 2 hours.
	do.	Less than 3 hours.

[1] Effective 3 years after adoption: *Provided,* That this standard will be reviewed at that time and, if warranted a further extension may be granted.
[2] For enforcement purposes this test must be read at the times shown in the table.

(a) *Method of testing.* Methods for determining the bacterial estimate of milk shall be those described in the latest edition of Standard Methods for the Examination of Dairy Products. However, in reporting the results, the test shall be read at the times indicated in the table.

(b) *Frequency of tests.* At least once a month at irregular intervals, a mixed sample of each producer's milk shall be tested.

(c) *Acceptance of milk.* If the sample of milk is classified as No. 1 or No. 2, the producer's milk may be accepted without qualification. If the sample is classified as "Undergrade" (probational) the producer's milk may be accepted for a temporary period of 4 weeks. The producer of "Undergrade" milk shall be notified immediately.

(d) *Retests.* Additional samples shall be tested and classified at least weekly and the producer notified immediately of the results. This procedure of testing at least weekly and accepting "Undergrade" milk may be continued for a time period not exceeding 4 weeks. If at the end of this time the producer's milk does not meet the acceptable bacterial estimate requirements (No. 1 or No. 2), it shall be excluded from market.

SEC. C 5. *Rejected milk.* A plant shall reject specific milk from a producer if it fails to meet the requirements for sight and odor (sec. C 2.), or if it is classified No. 4 for sediment content, or if it fails to meet the provisions of (sec. C 11.).

SEC. C 6. All reject milk shall be identified with a reject tag and colored with harmless food coloring.

SEC. C 7. *Excluded milk.* A plant shall not accept milk from a producer for use in products:

(a) If a new producer's milk does not meet the requirements for acceptable milk (sec. C 3. and C 4.) or;

(b) If the milk has been in a probational (No. 3) sediment content classification for more than 10 calendar days (sec. C 3.); or

(c) If the milk has been classified "Undergrade" for bacterial estimate for more than 4 successive weeks (sec. C 4.).

SEC. C 8. *Quality testing of milk from producers*—(a) *New producers.* An examination shall be made on the first shipment of milk from producers shipping milk to a plant for the first time or after a period of nonshipment. The milk shall meet the requirements for "acceptable milk" (sec. C 3. and C 4.). Thereafter, the milk shall be tested in accordance with the procedure established for regular shippers.

(b) *Transfer producers.* (1) When a producer discontinues milk delivery at one plant and begins delivery to a different plant for any reason, the new buyer shall not accept the first delivery until he has requested from the previous buyer and received a copy of the record of the producer's milk quality covering the preceding 90 days and a statement of the farm certification status and date of certification, if any. The previous buyer shall furnish the new buyer with such information within 24 hours after receipt of a written request unless the records have been destroyed by means over which he has no control: *Provided,* That the new buyer may accept a producer's milk after making the request for the record by telephone and obtaining assurance from the previous buyer that the producer's milk may be accepted; the new buyer shall then make a written request to the old buyer for the producer's record.

(2) If the new buyer requests and fails to receive the quality record from the previous buyer, he shall report such fact to [the regulatory agency] and shall cause a farm inspection to be made promptly to confirm or establish certification of the transfer producer's farm.

(3) In lieu of the quality record from the previous buyer the producer may furnish the new buyer with a copy of the milk quality tests received with each remittance, monthly or semimonthly, for the preceding 90-day period.

(4) The new buyer shall examine and classify each transfer producer's first shipment of milk and shall subsequently examine shipments in accordance with the provisions of sections C 3. and C 4.

SEC. C 9. *Record of tests.* Accurate records, listing the results of quality tests of each producer, shall be kept on file at the receiving plant where performed and shall be available for examination by the regulatory agency.

SEC. C 10. *Field service.* A representative of the plant should arrange to promptly visit each producer shipping milk which does not meet the requirements for acceptable milk, for the purpose of inspecting the equipment, utensils, and facilities at the farm and to offer constructive assistance for improvement in the quality of the milk. A representative of the plant should visit each producer as often as practicable to assist in and encourage the production of high quality milk.

SEC. C 11. *Abnormal milk*—(a) *Mastitic milk.* (1) After (*date*) required laboratory examination for the presence of unwholesome mammary secretions—whether of an inflammatory, infectious, physiological, or environmental origin—shall be made on all raw milk samples at least four times in each 6 months' period. Samples shall be analyzed at an

V 37-68 APR 7 72 XUM

official State laboratory or at a laboratory approved by the State regulatory agency.

(2) After (*date*) when a herd milk sample exceeds any of the following screening test results:

(i) California Mastitis Test—Weak Positive (CMT1+).
(ii) Catalase Test—30% oxygen.
(iii) Modified Whiteside Test—Positive (1+).
(iv) Wisconsin Mastitis Test—WMT value of 21 mm.

a somatic cell count using the Direct Microscopic Clump Count Method or equivalent, or the Electronic Method shall be made on that sample and the results of the somatic cell direct count shall be the official result.

(3) Whenever the somatic cell count indicates the presence of 1,500,000 or more somatic cells per ml., the following procedures shall be applied:

(i) A notice shall be sent to the producer warning him of the excessive somatic cell count.

(ii) Whenever two of the last four consecutive somatic cell counts exceed 1,500,000 cells per ml. the regulatory authority shall send a written notice thereof to the producer. This notice shall be in effect so long as two of the last four consecutive samples exceed 1,500,000 cells per ml. In addition to the written notice an inspection shall be made of the farm facility by the regulatory authority.

(4) A third milk sample shall be taken after a lapse of 3 days and within 14 days of the inspection required under (2) above. If this sample also indicates a high somatic cell count, the regulatory authority shall proceed with its responsibility to suspend the producers' certification for repeated noncompliance with the provisions of section C 11(a).

(b) *Antibiotics.* At least four times in 6 months, at irregular intervals, a separate or commingled sample of each producer's milk shall be tested for antibiotic residues. When a producer's milk shows a positive test he shall be immediately cut off from all markets. He shall not be reinstated until a subsequent test of the producer's milk is negative.

(c) *Radionuclides.* Composite milk samples should be tested for biologically significant radionuclides from selected areas in each State at a frequency which the regulatory agency determines to be adequate to protect the consumer.

(d) *Pesticides.* Composite milk samples should be tested for pesticides from selected areas in each State at a frequency which the regulatory agency determines to be adequate to protect the consumer.

Subpart D—Farm Requirements for Milk for Manufacturing

SEC. D 1. *Health of herd*—(a) *General health.* All animals in the herd shall be maintained in a healthy condition, and shall be properly fed and kept.

(b) *Tuberculin test.* The herd shall be located in an area within the State which meets the requirements of a modified accredited area in which not more than one-half of 1 percent of the cattle have been found to be infected with tuberculosis as determined by the provisions of the "Uniform Methods and Rules" for establishing and maintaining Tuberculosis-Free Herds of Cattle, and Modified Accredited Areas which are approved by the Animal Disease Eradication Division, Agricultural Research Service, U.S. Department of Agriculture. If the herd is not located in such an area, it shall be tested annually under the jurisdiction of the aforesaid program. All additions to the herd shall be from an area or from herds meeting these same requirements.

(c) *Brucellosis test.* The herd shall be located in an area within the State in which the percentage of cattle affected with brucellosis does not exceed 1 percent and the percentage of herds in which brucellosis is present does not exceed 5 percent, in accordance with provisions of the "Uniform Methods and Rules" for establishing and maintaining Certified Brucellosis-Free Herds of Cattle, Modified Certified Brucellosis Areas and Certified Brucellosis-Free Areas which are approved by the Animal Disease Eradication Division, Agricultural Research Service, U.S. Department of Agriculture. If the area in which the herd is located does not meet these requirements, the herd shall be blood-tested annually or milk-ring-tested semiannually. All additions to the herd shall be from an area or from herds meeting these same requirements. Within 3 years after the effective date of these rules and regulations all milk offered for sale for manufacturing purposes shall be from herds meeting the requirements for the eradication of brucellosis in accordance with the above Uniform Methods and Rules.

(d) *Abnormal milk.* Milk from cows known to be infected with mastitis or milk containing residues of antibiotics or other drugs, or milk containing pesticides or other chemical residues in excess of the established limits shall not be sold or offered for sale for human food. The milk shall be disposed of as the regulatory agency may direct.

SEC. D 2. *Milking facility and housing.* (a) A milking barn or milking parlor of adequate size and arrangement shall be provided to permit normal sanitary milking operations. It shall be well lighted and ventilated, and the floors and gutters in the milking area shall be constructed of concrete or other impervious material. The facility shall be kept clean, the manure removed daily and stored to prevent access of cows to accumulation thereof; and no swine or fowl shall be permitted in any part of the milking area.

(b) If milk is exposed during straining or transferring in the milking areas it shall be protected from falling particles from areas above milk facility.

(c) The yard or loafing area shall be of ample size to prevent overcrowding, shall be drained to prevent forming of standing water pools, insofar as practicable, and shall be kept clean.

SEC. D 3. *Milking procedure.* (a) The udders and flanks of all milking cows shall be kept clean. The udders and teats shall be washed or wiped immediately before milking with a clean, damp cloth or paper towel moistened with a sanitizing solution and wiped dry, or by any other sanitary method.

(b) The milker's outer clothing shall be clean and his hands clean and dry. No person with an infected cut or open sores on their hands or arms shall milk cows, or handle milk or milk containers, utensils or equipment.

(c) Cows which secrete abnormal milk shall be milked last or with separate equipment. This milk shall be excluded from the supply as required in section D 1. (d).

(d) Milk stools, surcingles and anti-kickers shall be kept clean and properly stored. Dusty operations should not be conducted immediately before or during milking. Strong flavored feeds should only be fed after milking.

SEC. D 4. *Cooling.* (a) Milk in cans shall be cooled immediately after milking (to 50° F. or lower)[1] unless delivered to the plant within 2 hours after milking. The cooler, tank, or refrigerated unit shall be kept clean.

(b) Milk in farm bulk tanks shall be cooled to 40° F. or lower within 2 hours after milking and maintained at 50° F. or lower until transferred to the transport tank.

SEC. D 5. *Milkhouse or milkroom.* (a) A milkhouse or milkroom conveniently located and properly constructed, lighted, and ventilated shall be provided for handling and cooling milk and for washing, handling, and storing the utensils and equipment. Other products shall not be handled in the milkroom which would be likely to contaminate milk, or otherwise create a public health hazard.

(b) It shall be equipped with wash and rinse vat, utensil rack, milk cooling facilities and have an adequate supply of hot water available for cleaning milking equipment. If a part of the barn or other building, it shall be partitioned, screened, and sealed to prevent the entrance of dust, flies, or other contamination. A milking parlor used strictly as a milking facility in combination with a milkhouse or milkroom, when properly equipped, arranged and maintained, need not be partitioned. Concentrates and feed, if stored in the building, shall be kept in a tightly covered box or bin. The floor of the building shall be of concrete or other impervious material and graded to provide proper drainage. The walls and ceilings shall be constructed of smooth easily cleaned material. All outside doors shall open outward and be self-closing, unless they are provided with tight-fitting screen doors that open outward or unless other effective means are provided to prevent the entrance of flies.

(c) If a farm bulk tank is used, it shall be properly located in the milkhouse or milkroom for access to all areas for cleaning and servicing. It shall not be located over a floor drain or under a ventilator.

[1] Until 3 years after adoption, the temperature requirement for milk placed in cans will be 60° F.

(d) A small platform or slab constructed of concrete or other impervious material shall be provided outside the milkhouse, properly centered under a suitable port opening in the wall for milkhouse connections. The opening shall be fitted with a tight, self-closing door. The truck approach to the milkhouse or milkroom shall be properly graded and surfaced to prevent mud or pooling of water at point of loading.

(e) The milkhouse or milkroom and appurtenances shall be kept clean and free of trash, animals, and fowl. Pesticides shall not be stored in this room and when used shall be used in accordance with label instructions so as to prevent contamination of the milk.

SEC. D 6. *Utensils and equipment.* (a) Utensils, milk cans, milking machines (including pipeline systems), and other equipment used in the handling of milk shall be maintained in good condition, shall be free from rust, open seams, milkstone, or any unsantiary condition, and shall be washed, rinsed, and drained after each milking, stored in suitable facilities, and sanitized immediately before use with at least 50 p.p.m. chlorine solution or its equivalent. New or replacement can lids shall be umbrella type. All new utensils and equipment shall comply with applicable 3–A Sanitary Standards.

(b) Farm bulk tanks shall meet 3–A Sanitary Standards for construction at the time of installation and shall be installed in accordance with regulations of the regulatory agency.

(c) Single service articles shall be properly stored and shall not be reused.

SEC. D 7. *Water supply.* The dairy farm water supply shall be properly located, protected, and operated, and shall be easily accessible, ample, and of safe, sanitary quality for the cleaning of dairy utensils and equipment. The water supply shall come from a source which is approved by the State regulatory authority; or from a spring, dug well, driven well, bored well, or drilled well, the water from which complies with the standards of the State regulatory authority. A source that does not conform with the construction requirements of the State regulatory authority, but is tested annually by an approved laboratory and found to be safe and of sanitary quality shall be satisfactory: *Provided,* That after adoption of this regulation any new sources of water supply or any farm water supply requiring repairs or reconstruction or any source from which tested samples have been found unsatisfactory shall meet the construction requirements of the State regulatory authority.

SEC. D 8. *Sewage disposal.* House, milkhouse or milkroom and toilet wastes shall be disposed of in a manner that will not pollute the soil surface, contaminate any water supply, or be exposed to insects.

SEC. D 9. *Qualifications for farm certification.* Farm certification requires satisfactory compliance with the requirements in Subpart D.

Subpart E—Requirements for Licensed Dairy Plants

SEC. E 1. *General requirements*—E 1.1 *Premises.* (a) The premises shall be kept in a clean and orderly condition, and shall be free from strong or foul odors, smoke, or excessive air pollution. Construction and maintenance of driveways and adjacent plant traffic areas shall be of concrete, asphalt, or similar material to keep dust and mud to a minimum.

(b) Surroundings: The adjacent surroundings shall be free from refuse, rubbish, and waste materials to prevent harborage of rodents, insects, and other vermin.

(c) Drainage: A suitable drainage system shall be provided which will allow rapid drainage of all water from plant buildings and driveways, including surface water around the plant and on the premises, and all such water shall be disposed of in such a manner as to prevent a nuisance or health hazard.

E 1.2 *Buildings.* The building or buildings shall be of sound construction and shall be kept in good repair to prevent the entrance or harboring of rodents, birds, insects, vermin, dogs, and cats. All service pipe openings through outside walls shall be effectively sealed around the opening or provided with tight metal collars.

(a) *Outside doors, windows, openings, etc.* All openings to the outer air including doors, windows, skylights, and transoms shall be effectively protected or screened against the entrance of flies and other insects, rodents, birds, dust, and dirt. All outside doors opening into processing rooms shall be in good condition and fit properly. All hinged, outside screen doors shall open outward. All doors and windows shall be kept clean and in good repair. Outside conveyor openings and other special-type outside openings shall be effectively protected to prevent the entrance of flies and rodents, by the use of doors, screens, flaps, fans, or tunnels. Outside openings for sanitary pipelines shall be covered when not in use. On new construction, window sills should be slanted downward at a 45° angle.

(b) *Walls, ceilings, partitions, and posts.* The walls, ceilings, partitions, and posts of rooms in which milk or dairy products are processed, manufactured, handled, packaged, or stored (except dry storage of packaged finished products and supplies) or in which utensils are washed and stored, shall be smoothly finished with a suitable material of light color, which is substantially impervious to moisture and kept clean. They shall b refinished as often as necessary to maintain a neat, clean surface.

(c) *Floors.* (1) The floors of all rooms in which milk or dairy products are processed, manufactured, packaged, or stored or in which utensils are washed shall be constructed of tile properly laid with impervious joint material, concrete, or other equally impervious material. The floors shall be smooth, kept in good repair, graded so that there will be no pools of standing water or milk products after flushing, and all openings to the drains shall be equipped with traps properly constructed and kept in good repair. On new construction bell-type traps shall not be used. The plumbing shall be so installed as to prevent the backup of sewage into the drain lines and to the floor of the plant.

(2) Sound, smooth wood floors which can be kept clean, may be used in rooms where new containers and supplies and certain packaged finished products are stored.

(d) *Lighting and ventilation.* (1) Light shall be ample, natural or artificial, or both, of good quality and well distributed. All rooms in which dairy products are manufactured or packaged or where utensils are washed shall have at least 30 foot-candles of light intensity on all working surfaces and at least 50 foot-candles of light intensity in areas where dairy products are graded or examined for condition and quality. In all other rooms there shall be provided at least 5 foot-candles of light intensity when measured at a distance of 30 inches from the floor. Where contamination of product by broken glass is possible, light bulbs, fluorescent tubes, fixtures, skylight, or other glass suspended over the product shall be protected against breakage.

(2) There shall be adequate heating, ventilation, or air conditioning for all rooms and compartments to permit maintenance of sanitary conditions. Exhaust or inlet fans, vents, hoods, or temperature and humidity control facilities shall be provided where and when needed, to minimize or eliminate undesirable room temperatuers, objectionable odors, moisture condensation, or mold. Inlet fans should be provided with an adequate air filtering device to eliminate dirt and dust from the incoming air. Ventilation systems shall be cleaned periodically as needed and maintained in good repair. Exhaust outlets shall be screened or provided with self-closing louvers to prevent the entrance of insects when not in use.

(e) *Rooms and compartments.* Rooms and compartments in which any raw material, packaging, ingredient supplies, or dairy products are handled, manufactured, packaged, or stored shall be so designed, constructed, and maintained as to assure desirable room temperatures and clean and orderly operating conditions free from objectionable odors and vapors. Enclosed bulk milk receiving rooms when present shall be separated from the processing rooms by a partition. Rooms for receiving can milk shall be separated from the processing rooms by a partition (partial or complete) by suitable arrangement of equipment or by allowing enough distance between receiving and processing operations to avoid possible contamination of milk or dairy products during manufacturing and handling. Processing

V 37-168
APR 7 72
XUM

rooms shall be kept free from equipment and materials not regularly used.

(1) *Coolers and freezers.* Coolers and freezers where dairy products are stored shall be clean, reasonably dry and maintained at the proper uniform temperature and humidty to adequately protect the product, and minimize the growth of mold. Adequate circulation of air shall be maintained at all times. They shall be free from rodents, insects, and pests. Shelves shall be kept clean and dry. Refrigeration units shall have provisions for collecting and disposing of condensate.

(2) *Supply room.* The supply rooms used for the storing of packaging materials, containers, and miscellaneous ingredients shall be kept clean, dry, orderly, free from insects, rodents, and mold and maintained in good repair. Such items stored therein shall be adequately protected from dust, dirt, or other extraneous matter and so arranged on racks, shelves, or pallets to permit access to the supplies and cleaning and inspection of the room. Insecticides, rodenticides, cleaning compounds, and other nonfood products shall be properly labeled and segregated, and stored in a separate room or cabinet away from milk, dairy products, ingredients, or packaging supplies.

(3) *Boiler and tool rooms.* The boiler and tool rooms shall be separated from other rooms where milk and dairy products are processed, manufactured, packaged, handled, or stored. Such rooms shall be kept orderly and reasonably free from dust and dirt.

(4) *Toilet and dressing rooms.* Adequate toilet and dressing room facilities shall be conveniently located.

(i) Toilet rooms shall not open directly into any room in which milk or dairy products are processed, manufactured, packaged, or stored; doors shall be self-closing; ventilation shall be provided by mechanical means or screened openings to the outer air; fixtures shall be kept clean and in good repair.

(ii) All employees shall be furnished with a locker or other suitable facility and the lockers and dressing rooms shall be kept clean and orderly. Adequate hand-washing facilities shall be provided and curable, legible signs shall be posted conspicuously in each toilet or dressing room directing employees to wash their hands before returning to work.

(5) *Laboratory.* Consistent with the size and type of plant and the volume of dairy products manufactured, an adequately equipped laboratory shall be maintained and properly staffed with qualified and trained personnel for quality control and analytical testing. A central laboratory serving more than one plant may be acceptable if conveniently located to the dairy plants and if samples and results can be transmitted without undue delay.

(6) *Starter facilities.* Adequate sanitary facilities shall be provided for the handling of starter cultures.

E 1.3 *Facilities*—(a) *Water supply.* (1) There shall be an ample supply of both hot and cold water of safe and sanitary quality, with adequate facilities for its proper distribution throughout the plant, and protection against contamination and pollution. Water from other facilities, when officially approved, may be used for boiler feed water and condenser water provided that such waterlines are completely separated from the waterlines carrying the sanitary water supply, and the equipment is so constructed and controlled as to preclude contamination of product contact surfaces. There is no cross connection between the safe water supply and any unsafe or questionable water supply, or any other source of pollution through which contamination of the safe water supply is possible. Bacteriological examination shall be made of the sanitary water supply at least twice a year, or as often as necessary to determine purity and suitability for use in manufacturing dairy products. Such tests shall be made by the State regulatory agency except for supplies that are regularly tested for purity and bacteriological quality, and approved by the appropriate regulatory officer. The results of all water tests shall be kept on file at the plant for which the test was performed.

(2) The location, construction and operation of any well shall comply with regulations of the appropriate agency.

(b) *Drinking water facilities.* Drinking water facilities of a sanitary type shall be provided in the plant and shall be conveniently located.

(c) *Hand-washing facilities.* Convenient hand-washing facilities shall be provided, including hot and cold running water, soap or other detergents, and sanitary single-service towels or air dryers. Such accommodations shall be located in or adjacent to toilet and dressing rooms and also at such other places in the plant as may be essential to the cleanliness of all personnel handling products. Vats for washing equipment or utensils shall not be used as hand-washing facilities. Self-closing metal or plastic containers shall be provided for used towels and other wastes.

(d) *Steam.* Steam shall be supplied in sufficient volume and pressure for satisfactory operation of each applicable piece of equipment. Culinary steam used in direct contact with milk or dairy products shall be free from harmful substances or extraneous material and only nontoxic boiler compounds shall be used, or a secondary steam generator shall be used in which soft water is converted to steam and no boiler compounds are used. Steam traps, strainers, and condensate traps shall be used wherever applicable to insure a satisfactory and safe steam supply. Culinary steam shall comply with the recommended practices for "Producing Culinary Steam for Processing Milk and Milk Products" as published by the National Association of Dairy Equipment Manufacturers, Washington, D.C., April 1963 or latest revision thereof.

(e) *Air under pressure.* The method for supplying air under pressure which comes in contact with milk or dairy products or any product contact surface shall comply with the 3–A Accepted Practices for Supplying Air Under Pressure. The air used at the point of application shall be free from volatile substances, volatiles which may impart any flavor or odor to the products, and extraneous or harmful substances.

(f) *Disposal of wastes.* Dairy wastes shall be properly disposed of from the plant and premises. The sewer system shall have sufficient slope and capacity to readily remove all waste from the various processing operations. Where a public sewer is not available, all wastes shall be properly disposed of so as not to contaminate milk equipment or to create a nuisance or public health hazard. Containers used for the collection and holding of wastes shall be constructed of metal, plastic, or other equally impervious material and kept covered with tight-fitting lids and placed outside the plant on a concrete slab or on a rack raised at least 12 inches. Alternatively waste containers may be kept inside a suitably enclosed, clean and flyproof room. Solid wastes shall be disposed of regularly and the containers cleaned before reuse. Accumulation of dry wastepaper and cardboard shall be kept to a minimum. The paper shall be burned at the plant in a properly constructed incinerator, or compressed or bagged and hauled away.

E 1.4 *Equipment and utensils*—(a) *General construction, repair, and installation.* (1) The equipment and utensils used for the processing of milk and manufacture of dairy products shall be constructed to be readily demountable where necessary for cleaning and sanitizing. The product contact surfaces of all utensils and equipment such as holding tanks, pasteurizers, coolers, vats, agitators, pumps, sanitary piping, and fittings or any specialized equipment shall be constructed of stainless steel, or other equally corrosion-resistant material. Nonmetallic parts other than glass having product contact surfaces shall meet 3–A Sanitary Standards for Plastic or Rubber and Rubberlike Materials.

(2) All equipment and piping shall be designed and installed so as to be easily accessible for cleaning, and shall be kept in good repair, free from cracks and corroded surfaces. New or rearranged equipment shall be set away from any wall or spaced in such a manner as to facilitate proper cleaning and to maintain good housekeeping. All parts or interior surfaces of equipment, pipes (except certain piping cleaned in place) or fittings, including valves and connections, shall be accessible for inspection. Milk and dairy product pumps shall be of a sanitary type and easily dismantled for cleaning or shall be of specially approved construction to allow effective cleaning in place.

(3) All CIP systems shall comply with the 3–A Sanitary Practices for Permanently Installed Sanitary Product, Pipelines, and Cleaning Systems.

(b) *Weigh cans and receiving tanks.* Weigh cans and receiving tanks shall meet the 3–A Sanitary Standards and shall be easily accessible for cleaning both inside and outside and shall be elevated above the floor and protected sufficiently with the necessary

covers or baffles to prevent contamination from splash, condensate, and drippage. Where necessary to provide easy access for cleaning of floors and adjacent wall areas, the receiving tank shall be equipped with wheels or casters to allow easy removal.

(c) *Can washers.* Can washers shall have sufficient capacity and ability to discharge a clean, dry can and cover and shall be kept properly timed in accordance with the instructions of the manufacturer. The water and steam lines supplying the washer shall maintain a reasonably uniform pressure and if necessary be equipped with pressure regulating valves.

(d) *Product storage tanks or vats.* Storage tanks or vats shall be fully enclosed or tightly covered and well insulated. The entire interior surface, agitator and all appurtenances shall be accessible for thorough cleaning and inspection. Any opening at the top of the tank or vat including the entrance of the shaft shall be suitably protected against the entrance of dust, moisture, insects, oil, or grease. The sight glasses, if used, shall be sound, clear, and in good repair. Vats which have hinged covers shall be so designed that moisture or dust on the surface cannot enter the vat when the covers are raised. If the storage tanks or vats are equipped with air agitation, the system shall be of an approved type and properly installed in accordance with the 3–A Accepted Practices for Supplying Air Under Pressure. Storage tanks or vats intended to hold product for longer than approximately 8 hours shall be equipped with adequate refrigeration and/or have adequate insulation. All new storage tanks or vats shall meet the appropriate 3–A Sanitary Standards and shall be equipped with thermometers in good operating order.

(e) *Separators.* All product contact surfaces of separators shall be free from rust and pits and insofar as practicable shall be of stainless steel or other equally noncorrosive metals.

(f) *Coil or dome-type batch pasteurizers.* Coil or dome-type batch pasteurizers shall be stainless steel lined and if the coil is not stainless steel or other equally noncorrosive metal it shall be properly tinned over the entire surface. Sanitary seal assemblies at the shaft ends of coil vats shall be of the removable type, except that existing equipment not provided with this type gland will be acceptable if the packing glands are maintained and operated without adverse effects. New or replacement units shall be provided with removable packing glands. Dome-type pasteurizer agitators shall be stainless steel except that any nonmetallic parts shall meet 3–A Sanitary Standards for Plastic or Rubber and Rubberlike Materials, as applicable. Each pasteurizer used for heating product at 165° F. or lower for 30 minutes or less shall be equipped with space heating equipment and the necessary thermometers to insure a temperature at least 5° F. above that required for pasteurization of the product. There shall be adequate means of controlling the temperature of the heating medium. Batch pasteurizers shall have temperature indicating and recording devices.

(g) *High-temperature, short-time pasteurizers.* When pasteurization is intended or required, an approved timing pump or device recorder-controller, automatic flow diversion valve and holding tube or its equivalent, if not a part of the existing equipment, shall be installed on all HTST equipment used for pasteurization, to assure complete pasteurization. The entire facility shall meet the 3–A Accepted Practices for the Sanitary Construction, Installation, Testing, and Operation of High-Temperature, Short-Time Pasteurizers. After the HTST unit has been tested according to the 3–A Accepted Practices, the timing pump or device and the recorder controller shall be sealed at the correct setting to assure pasteurization. Sealing of the HTST unit shall be performed by the control authority having jurisdiction. The HTST pasteurizer shall be tested initially upon installation, and whenever any alteration or replacement is made which affects the proper operation of the instrument or device. When direct steam pasteurizers are used, the steam, prior to entering the product, shall be conducted through a steam strainer and a steam purifier equipped with a steam trap and only steam meeting the requirements for culinary steam shall be used.

(h) *Thermometers and recorders*—(1) *Indicating thermometers.* (i) Long-stem indicating thermometers which are accurate within 0.5° F., plus or minus, for the applicable temperature range, shall be provided for checking the temperature of pasteurization and cooling of products in vats and checking the accuracy of recording thermometers.

(ii) Short-stem indicating thermometers, which are accurate within 0.5° F., plus or minus, for the applicable temperature range, shall be installed in the proper stationary position in all HTST, and dome-type pasteurizers. Storage tanks where temperature readings are required shall have thermometers which are accurate within 2.0° F., plus or minus.

(iii) Air-space indicating thermometers, where applicable, which are accurate within 1.0° F., plus or minus, for the proper temperature range shall also be installed above the surface of the products pasteurized in vats, to make certain that the temperature of the foam and/or air above the products pasteurized also received the required minimum temperature treatment.

(2) *Recording thermometers.* (i) HTST recording thermometers that are accurate within 1° F., plus or minus, for the applicable temperature range, shall be used on each heat treating, pasteurizing, or sterilizing unit to record the heating process.

(ii) Additional use of recording thermometers accurate within 2° F., plus or minus, may be required where a record of temperature or time of cooling and holding is of significant importance.

(i) *Surface coolers.* Surface coolers shall be equipped with hinged or removable covers for the protection of the product. The edges of the fins shall be so designed as to divert condensate on nonproduct contact surfaces away from product contact surfaces. All gaskets or swivel connections shall be leak proof.

(j) *Plate-type heat exchangers.* Plate-type heat exchangers shall meet the 3–A Sanitary Standards for Construction and Installation. All gaskets shall be tight and kept in good operating order. Plates shall be opened for inspection by the operator at sufficiently frequent intervals to determine if the equipment is clean and in satisfactory condition. A cleaning regimen shall be posted to insure proper cleaning procedures between inspection periods.

(k) *Internal return tubular heat exchangers.* Internal return tubular heat exchangers shall meet the 3–A Sanitary Standards for Construction and Installation.

(l) *Pumps.* Pumps used for milk and dairy products shall be of the sanitary type and constructed to meet 3–A Sanitary Standards. Unless pumps are specifically designed for effective cleaning in place they shall be disassembled and thoroughly cleaned after use.

(m) *Homogenizers.* Homogenizers and high pressure pumps of the plunger type shall meet the 3–A Sanitary Standards.

(n) *New equipment and replacements.* New equipment and replacements, including all plastic parts and rubber and rubberlike materials for parts and gaskets having product contact surfaces, shall meet the then current 3–A Sanitary Standards. If 3–A Sanitary Standards are not available, such equipment and replacements shall meet the general requirements of this section.

(o) *Vacuum chamber.* The vacuum chamber, as used for flavor control, shall be made of stainless steel or other equally noncorrosive metal. The unit shall be constructed to facilitate cleaning and all product contact surfaces shall be accessible for inspection. It shall be equipped with a vacuum breaker and a check valve at the product discharge line. Only steam which meets the requirements for culinary steam shall be used. The incoming steam supply shall be regulated by an automatic solenoid valve which will cut off the steam supply in the event the flow diversion valve of the HTST pasteurizer is not in the forward flow position. Condensers when used shall be equipped with a water level control and an automatic safety shutoff valve.

E 1.5 *Personnel cleanliness.* All employees shall wash their hands before beginning work and upon returning to work after using toilet facilities, eating, smoking, or otherwise soiling their hands. They shall keep their hands clean and follow good hygienic practices while on duty. Expectorating or use of tobacco in any form shall be prohibited in each room and compartment where any milk, dairy product, or supplies are prepared, stored, or otherwise handled. Clean white or light-colored washable outer garments and caps (paper caps or hair nets acceptable) shall be worn by all persons engaged in receiving, testing,

V 73-168 APR 7 72 XUM

processing milk, manufacturing, packaging, or handling dairy products.

E 1.6 *Personnel health.* No person afflicted with a communicable disease shall be permitted in any room or compartment where milk and dairy products are prepared, manufactured, or otherwise handled. No person who has a discharging or infected wound, sore or lesion on hands, arms, or other exposed portion of the body shall work in any dairy processing rooms or in any capacity resulting in contact with milk or dairy products. Each employee whose work brings him in contact with the processing or handling of dairy products, containers, or equipment shall have a medical and physical examination by a registered physician or by the local department of health at the time of employment. In addition an empioyee returning to work following illness from a communicable disease shall have a certificate from the attending physician to establish proof of complete recovery. Medical certificates attesting the fact that the employee when last examined was free from communicable disease shall be kept on file at the plant office.

E 1.7 *Protection and transport of raw milk and cream*—(a) *Equipment and facilities*—(1) *Milk cans.* Cans used in transporting milk from dairy farm to plant shall be of such construction (preferably seamless with umbrella lids) as to be easily cleaned, and shall be inspected, repaired, and replaced as necessary to exclude substantially the use of cans and lids with open seams, cracks, rust milkstone, or any unsanitary condition.

(2) *Farm bulk tanks.* New farm bulk tanks shall meet 3–A Sanitary Standards for construction and shall be installed in accordance with the requirements of the regulatory agency in jurisdiction.

(b) *Transporting milk or cream*—(1) *Vehicles.* Vehicles used for the transportation of can milk or cream shall be of the enclosed type, constructed and operated to protect the product from extreme temperature, dust, or other adverse conditions and they shall be kept clean. Decking boards or racks shall be provided where more than one tier of cans is carried. Cans, or bulk tanks on vehicles, used for the transportation of milk from the farm to the plant shall not be used for any other purpose.

(2) *Transport tanks.* The exterior shell shall be clean and free from open seams or cracks which would permit liquid to enter the jacket. The interior shell shall be stainless steel and so constructed that it will not buckle, sag, or prevent complete drainage. All product contact surfaces shall be smooth, easily cleaned, and maintained in good repair. The pump and hose cabinet shall be fully enclosed with tight fitting doors and the inlet and outlet shall be provided with dust covers to give adequate protection from road dust. New and replacement transport tanks shall meet 3–A Sanitary Standards for Milk Transport Tanks.

(c) *Facilities for cleaning and sanitizing.* Enclosed or covered facilities shall be available for washing and sanitizing of transport tanks, piping and accessories, at central locations or at all plants that receive or ship milk or milk products in transport tanks.

(d) *Transfer of milk to transport tank.* Milk shall be transferred under sanitary conditions from farm bulk tanks through stainless steel piping or approved tubing. The sanitary piping and tubing shall be capped when not in use.

E 1.8 *Raw product storage.* (a) All milk shall be held and processed under conditions and at temperatures that will avoid contamination and rapid deterioration. Drip milk from can washers or any other source shall not be used for the manufacture of dairy products. Bulk milk in storage tanks within the dairy plant shall be handled in such a manner as to minimize bacterial increase and shall be maintained at 45° F. or lower until processing begins. This does not preclude holding milk at higher temperatures for a period of time, where applicable to particular manufacturing or processing practices.

(b) The bacteriological quality of commingled milk in storage tanks shall be 3 million or lower.

E 1.9 *Pasteurization or sterilization.* When pasteurization or sterilization is intended or required, or when a product is designated "pasteurized" or "sterilized" every particle of the product shall be subjected to auch temperatures and holding periods as will assure proper pasteurization or sterilization of the product. The heat treatment by either process shall be sufficient to insure public health safety and to assure adequate keeping quality, yet retaining the most desirable flavor and body characteristics of the finished product. The phenol value of test samples of pasteurized finished product shall be no greater than the maximum specified for the particular product as determined and specified by the phosphatase test method prescribed in the latest edition of "Official Methods of Analysis of the Association of Official Agricultural Chemists."

E 1.10 *Composition and wholesomeness.* All necessary precautions shall be taken to prevent contamination or adulteration of the milk or dairy products during manufacturing. All substances and ingredients used in the processing or manufacturing of any dairy product shall be subject to inspection and shall be wholesome and practically free from impurities. The finished product shall comply with the requirements of the Federal Food, Drug, and Cosmetic Act as to their composition and wholesomeness.

E 1.11 *Cleaning and sanitizing treatment*—(a) *Equipment and utensils.* (1) The equipment, sanitary piping and utensils used in receiving and processing of the milk, and manufacturing and handling of the product shall be maintained in a sanitary condition. Sanitary seal assemblies shall be removable on all agitators, pumps and vats, and shall be inspected at regular intervals and kept clean. Unless other provisions are recommended in the following supplemental sections, all equipment not designed for C.I.P. cleaning shall be disassembled after each day's use for thorough cleaning. Dairy cleaners, detergents, wetting agents, sanitizing agents or other similar materials which will not contaminate or adversely affect the products may be used. Steel wool or metal sponges shall not be used in the cleaning of any dairy equipment or utensils. All product contact surfaces shall be subjected to an effective sanitizing treatment immediately prior to use, except where dry cleaning is permitted. Utensils and portable equipment used in processing and manufacturing operations shall be stored above the floor in clean, dry locations and in a self draining position on racks constructed of impervious corrosion-resistant material.

(2) C.I.P. cleaning, including sprayball systems, shall be used only on equipment and pipeline systems which have been designed and engineered for that purpose. When such cleaning is used, careful attention shall be given to the proper procedures to assure satisfactory cleaning. All C.I.P. installations and cleaning procedures shall be in accordance with 3–A Suggested Methods for the Installation and Cleaning of Cleaned-In-Place Sanitary Milk Pipelines for Milk and Milk Products Plants. The established cleaning procedure shall be posted and followed. Following the circulation of the cleaning solution the equipment and lines shall be thoroughly rinsed with lukewarm water and checked for effectiveness of cleaning. All caps, plugs, special fittings, valve seats, cross ends, pumps, plates, and tee ends shall be opened or removed and brushed clean. Immediately prior to starting the product flow, the product contact surfaces shall be given bactericidal treatment.

(b) *Milk cans and can washers.* (1) Milk cans and lids shall be cleaned, sanitized, and dried before returning to producers. Inspection, repair, or replacement of cans and lids shall be adequate to substantially exclude from use cans and lids showing open seams, cracks, rust condition, milkstone or any unsanitary condition.

(2) Washers shall be maintained in a clean and satisfactory operating condition and kept free from accumulation of scale or debris which will adversely affect the efficiency of the washer.

(c) *Milk transport tanks.* A covered or enclosed wash dock and cleaning and sanitizing facilities shall be available to all plants that receive or ship milk in tanks. Milk transport tanks, sanitary piping, fittings, and pumps shall be cleaned and sanitized at least once each day, after use: *Provided*, That if they are not to be used immediately after emptying a load of milk, they shall be washed promptly after use and given bactericidal treatment immediately before use. After being washed and sanitized, each tank shall be identified by a tag attached to the outlet valve, bearing the following information: Plant and specific location where cleaned, date and time of day of washing and sanitizing, and name of person who washed and name of person who sanitized the tank. The tag shall not be removed until the tank is again washed and sanitized.

(d) *Building.* All windows, glass, partitions, and skylights shall be washed as often as necessary to keep them clean. Cracked or broken glass shall be replaced promptly. The walls, ceilings, and doors shall be washed periodically and kept free from soil and unsightly conditions. The shelves and ledges shall be wiped or vacuumed as often as necessary to keep them free from dust and debris. The material picked up by the vacuum cleaners shall be disposed of by burning or other proper methods to destroy any insects that might be present.

E 1.12 *Insect and rodent control program.* In addition to any commercial pest control service, if one is utilized, a specially designated employee shall be made responsible for the performance of a regularly scheduled insect and rodent control program. Poisonous substances, insecticides, and rodenticides shall be properly labeled, and shall be handled, stored, and used in such a manner as not to create a public health hazard.

E 1.13 *Plant records.* Adequate plant records shall be maintained of all required tests on all raw milk receipts. Such records shall be available for examination at all reasonable times by the inspector. The following are the records which shall be maintained for examination at the plant or receiving station where performed.

(a) Sediment and bacterial test results on raw milk from each producer: Retain for 12 months.

(1) Routine tests and monthly summary of all producers showing number and percent of total in each class.

(2) Retests, if initial test places milk in probationary status.

(3) Rejections of raw milk over No. 3 in quality.

(b) Pasteurization recorder charts: Retain for 6 months.

(c) Water supply test certificate: Retain current copy for 6 months.

(d) Employee health certificate: Retain most recent copy until employee is no longer employed by plant.

E 1.14 *Packaging and general identification*—(a) *Containers.* (1) The size, style, and type of packaging used for dairy products shall be commercially acceptable containers and packaging materials which will satisfactorily cover and protect the quality of the contents during storage and regular channels of trade and under normal conditions of handling. The weights and shape within each size or style shall be as nearly uniform as is practical.

(2) Packaging materials for dairy products shall be selected which will provide sufficiently low permeability to air and vapor to prevent the formation of mold growth and surface oxidation. In addition, the wrapper should be resistant to puncturing, tearing, cracking, or breaking under normal conditions of handling, shipping, and storage. When special-type packaging is used, the instructions of the manufacturers shall be followed closely as to its application and methods of closure.

(b) *Packaging and repackaging.* Packaging dairy products or cutting and repackaging all styles of dairy products shall be conducted under rigid sanitary conditions. The atmosphere of the packaging rooms, the equipment and packaging material shall be practically free from mold and bacterial contamination. Methods for checking the level of contamination shall be as prescribed by the latest edition of Standard Methods.

(c) *General identification.* All commercial bulk packages containing dairy products manufactured under the provisions of this subpart shall be adequately and legibly marked with the name of the product, net weight, name and address of processor or manufacturer or other assigned plant identification, lot number, and any other identification as may be required. Consumer packaged product shall be legibly marked with the name of the product, net weight, name and address of packer, manufacturer, or distributor and such other identification as may be required by the regulatory agency in jurisdiction.

E 1.15 *Storage of finished product*—(a) *Dry storage.* The product shall be stored at least 18 inches from the wall in aisles, rows, or sections and lots, in such a manner as to be orderly and easily accessible for inspection. Rooms should be cleaned regularly. Care shall be taken in the storage of any other product foreign to dairy products in the same room, in order to prevent impairment or damage to the dairy product from mold, absorbed odors, or vermin or insect infestation. Control of humidity and temperature shall be maintained at all times, consistent with good commercial practices, to prevent conditions detrimental to the product and container.

(b) *Refrigerated storage.* The finished product shall be placed on shelves, dunnage, or pallets and properly identified. It shall be stored under temperatures that will best maintain the initial quality. The product shall not be exposed to anything from which it might absorb any foreign odors or be contaminated by drippage or condensation.

E 1.16 *Qualifications for plant licensing.* Plant licensing requires satisfactory compliance with the applicable requirements in Subpart E.

SEC. E 2. *Supplemental requirements for plants manufacturing, processing and packaging instant nonfat dry milk, nonfat dry milk, dry whole milk, dry buttermilk, dry whey, and other dry milk products—E 2.1 Rooms and compartments*—E 2.1.1 *Dry storage of product.* Storage rooms for the dry storage of product shall be adequate in size, kept clean, orderly, free from rodents, insects, and mold, and maintained in good repair. They shall be adequately lighted and ventilated. The ceilings, walls, beams, and floors shall be free from structural defects and inaccessible false areas which may harbor insects.

E 2.1.2 *Packaging room for bulk products.* A separate room or area shall be provided for filling bulk bins, drums, bags, or other bulk containers and shall be constructed in accordance with section 1.2 of Subpart E. The number of control panels and switchboxes in this area shall be kept to a minimum. Control panels shall be mounted a sufficient distance from the walls to facilitate cleaning or shall be mounted in the wall and provided with tight-fitting removable doors to facilitate cleaning. An adequate exhaust system shall be provided to minimize the accumulation of product dust within the packaging room and, where needed, a dust collector shall be provided and properly maintained to keep roofs and outside areas free of dry product. Only packaging materials that are used within a day's operation may be kept in the packaging area. These materials shall be kept on metal racks or tables at least 6 inches off the floor. Unnecessary fixtures, equipment, or false areas which may collect dust and harbor insects, shall not be allowed in the packaging room.

E 2.1.3 *Hopper or dump room.* A separate room shall be provided for the transfer of bulk dry dairy products from bags or drums to the hoppers and conveyors which lead to the fillers. This room shall meet the same requirements for construction and facilities as the bulk packaging operation. Areas and facilities provided for the transfer of dry dairy products from portable bulk bins will be acceptable if gasketed surfaces or direct connections are used that appreciably eliminate the escape of product into the area.

E 2.1.4 *Repackaging room.* A separate room shall be provided for the filling of small packages and shall meet the same requirements for construction and facilities as the bulk packaging operation.

E 2.2 *Equipment and utensils*—E 2.2.1 *General construction, repair, and installation.* All equipment and utensils necessary to the manufacture of dry milk products, including pasteurizer, timing pump or device, flow diversion valve and recorder controller, shall meet the same general requirements as outlined in section 1.4 of Subpart E. In addition, for certain other equipment the following requirements shall be met.

E 2.2.2 *Preheaters.* The preheaters shall be of stainless steel or other equally corrosion-resistant material, cleanable, accessible for inspection and shall be equipped with suitable automatic temperature controls.

E 2.2.3 *Hotwells.* The hotwells shall be enclosed or covered and equipped with indicating thermometers either in the hotwell or in the hot milk inlet line to the hotwell and if used for holding high heat products they should also have recorders.

E 2.2.4 *Evaporators and/or vacuum pans.* Open-type evaporators and/or vacuum pans shall be equipped with an automatic condenser water level control, barometric leg, or so constructed so as to prevent water from entering the product, and should meet the applicable 3–A Sanitary Standards. When enclosed-type condensers are used, no special controls are needed to prevent water from entering the product.

E 2.2.5 *Surge tanks.* If surge tanks are used for hot milk and temperatures of

APR 7 1972 XUM

product including foam being held in the surge tank during processing is not maintained at a minimum of 150° F., then two or more surge tanks shall be installed with cross connections to permit flushing and cleaning during operation. Covers easily removable for cleaning shall be provided and used at all times.

E 2.2.6 *High pressure pumps and lines.* High pressure lines may be cleaned in place and shall be of such construction that deadends, valves and the high pressure pumps can be disassembled for hand cleaning. New high pressure pumps shall meet the 3–A Sanitary Standard Covering Homogenizers and High Pressure Pumps of the Plunger Type.

E 2.2.7 *Dryers*—(a) *Spray dryers.* Spray dryers shall be of a continuous discharge type and all product contact surfaces shall be of stainless steel or other equally corrosion-resistant material. All joints and seams in the product contact surfaces shall be welded and ground smooth. All dryers shall be constructed so as to facilitate ease in cleaning and inspection. Sight glasses or ports of sufficient size shall be located at strategic positions. Dryers shall be equipped with suitable air intake filters and with air intake and exhaust recording thermometers. The filter system shall consist of filtering media or devices that will effectively, and in accordance with good commercial practices, prevent the entrance of foreign substances into the drying chamber. The filtering system shall be cleaned or component parts replaced as often as necessary to maintain a clean and adequate air supply. In gas-fired dryers, precautions shall be taken to assure complete combustion. Air shall be drawn into the dryer from sources free from objectionable odors and smoke, dust, or dirt.

(b) *Roller dryers.* (1) The drums of a roller dryer shall be smooth, readily cleanable and free of pits and rusts. The knives shall be maintained in such condition so as not to cause scoring of the drums.

(2) The end boards shall have an impervious surface and be readily cleanable. They shall be provided with a means of adjustment to prevent leakage and accumulation of milk solids. The stack, hood, the drip pan inside of the hood and related shields shall be constructed of stainless steel and be readily cleanable. The lower edge of the hood shall be constructed so as to prevent condensate from entering the product zone. The hood shall be properly located and the stack of adequate capacity to remove the vapors. The stack shall be closed when the dryer is not in operation. The augers shall be of stainless steel or properly plated, and readily cleanable. The auger troughs and related shields shall be of stainless steel and be readily cleanable. All air entering the dryer room shall be filtered to eliminate dust and dirt. The filter system shall consist of filtering media or device that will effectively, and in accordance with good commercial practices, prevent the entrance of foreign substances into the drying room. The filtering system shall be cleaned or component parts replaced as often as necessary to maintain a clean and adequate air supply. All dryer adjustments shall be made and the dryer operating normally before food grade powder can be collected from the dryer.

E 2.2.8 *Collectors and conveyors.* Collectors shall be made of stainless steel or equally noncorrosive material and should be constructed to facilitate cleaning and inspection. Filter sack collectors, if used, shall be in good condition and the system shall be of such construction that all parts are accessible for cleaning and inspection. Conveyors shall be of stainless steel or equally corrosion-resistant material and shall be constructed to facilitate thorough cleaning and inspection.

E 2.2.9 *Dry dairy product cooling equipment.* Cooling equipment shall be provided with sufficient capacity to cool the product to 110° F. or lower immediately after removal from dryer and prior to packaging. If bulk bins are used, the product should be cooled to approximately 90° F. but shall be not more than 110° F. A suitable dry air supply with effective filtering shall be provided where air cooling and conveying is used.

E 2.2.10 *Special treatment equipment.* All special equipment such as instantizing systems, flakers, pulverizers or hammer mills used to further process dry milk products shall be of sanitary construction and all parts shall be accessible for cleaning and inspection.

E 2.2.11 *Sifters.* All newly installed sifters used for dry milk and dry milk products shall meet the 3–A Sanitary Standards for Sifters for Dry Milk and Dry Milk Products. All other sifters shall be constructed of stainless steel or other equally noncorrosive material and shall be of sanitary construction and accessible for cleaning and inspection. The mesh size of sifter screen used for various dry dairy products shall be those recommended in the appendix of the 3–A Standard for sifters.

E 2.2.12 *Portable and stationary bulk bins.* Bulk bins shall be constructed of stainless steel, aluminum or other equally corrision resistant materials, free from cracks and seams and must have an interior surface that is relatively smooth and easily cleanable. All product contact surfaces shall be easily accessible for cleaning.

E 2.2.13 *Automatic sampling device.* If automatic sampling devices are used, they shall be constructed in such a manner as to prevent contamination of the product, and all parts must be readily accessible for cleaning.

E 2.2.14 *Dump hoppers, screens, mixers, and conveyors.* The product contact surfaces of dump hoppers, screens, mixers, and conveyors which are used in the process of transferring dry products from bulk containers to fillers for small packages or containers, shall be of stainless steel or equally corrosion resistant material and designed to prevent contamination. All parts should be accessible for cleaning. The dump hoppers shall be of such height above floor level as to prevent foreign material or spilled product from entering the hopper.

E 2.2.15 *Filler and packaging equipment.* All filling and packaging equipment shall be of sanitary construction and all parts, including valves and filler heads, accessible for cleaning.

E 2.2.16 *Heavy duty vacuum cleaners.* Each plant handling dry milk products shall be equipped with a heavy duty industrial vacuum cleaner. Regular scheduling shall be established for its use in vacuuming applicable areas.

E 2.3 *Clothing and shoe covers.* Clean clothing and shoe covers shall be provided exclusively for the purpose of cleaning the interior of the drier when it is necessary to enter the drier to perform the cleaning operation.

E 2.4 *Operations and operating procedures*—E 2.4.1 *Pasteurization* (1) All milk, buttermilk and whey used in the manufacture of dry dairy products shall be pasteurized at the plant where dried, except that condensed whey and acidified buttermilk containing 40 percent or more solids may be transported to another plant for drying without repasteurization. Milk or skim milk to be used in the manufacture of nonfat dry milk shall be heated prior to condensing to at least the minimum pasteurization temperature of 161° F. for at least 15 seconds or its equivalent in bacterial destruction. Condensed skim made from pasteurized skim milk may be transported to a drying plant, provided that it shall be effectively repasteurized at the drying plant, prior to drying, at not less than 175° F. for 25 seconds or its equivalent in bacterial destruction.

(2) All buttermilk or cream from which it is derived shall be pasteurized prior to condensing at a temperature of 185° F. for 15 seconds or its equivalent in bacterial destruction.

(3) All cheese whey or milk from which it is derived shall be pasteurized prior to condensing at a temperature of 161° F. for 15 seconds or its equivalent in bacterial destruction.

E 2.4.2 *Condensed surge supply.* Surge tanks or balance tanks if used between the evaporators and dryer shall be used to hold only the minimum amount of condensed product necessary for a uniform flow to the dryers. Such tanks holding product at temperatures below 150° F. shall be completely emptied and washed after each 4 hours of operation or less. Alternate tanks shall be provided to permit continuous operation during washing of tanks.

E 2.4.3 *Condensed storage tanks.* (1) Excess production of condensed product over that which the dryer will take continuously from the pans should be bypassed through a cooler into a storage tank at 50° F. or lower and held at this temperature until used.

(2) Product cut-off points shall be made at least every 24 hours and the tank completely emptied, washed, and sanitized before reuse.

E 2.4.4 *Drying.* Each dryer should be operated at not more than the manufacturer's rated capacity for the highest quality dry product consistent with the most efficient operation. This does not preclude the remodeling or redesigning

of dryers after installation when properly engineered and designed. The dry products shall be removed from the drying chamber continuously during the drying process.

E 2.4.5 *Cooling dry products.* Prior to packaging and immediately following removal from the drying chamber the dry product shall be cooled to a temperature not exceeding 110° F.

E 2.4.6 *Packaging, repackaging and storage*—(a) *Containers.* Packages or containers used for the packaging of nonfat dry milk or other dry milk products shall be any clean, sound commercially accepted container or packaging material which will satisfactorily protect the contents through the regular channels of trade, without significant impairment of quality with respect to flavor, wholesomeness or moisture content under the normal conditions of handling. In no instance will containers which have previously been used for nonfood items or food which would be deleterious to the dairy product be allowed to be used for the bulk handling of dairy products.

(b) *Filling.* Empty containers shall be protected at all times from possible contamination and containers which are to be lined shall not be prepared more than 1 hour in advance of filling. Every precaution shall be taken during the filling operation to minimize product dust and spillage. When necessary a mechanical shaker shall be provided; the tapping or pounding of containers shall be prohibited. The containers shall be closed immediately after filling and the exteriors shall be vacuumed or brushed when necessary to render them practically free of product remnants before being transferred from the filling room to the palleting or dry storage areas.

(c) *Repackaging.* The entire repackaging operation shall be conducted in a sanitary manner with all precautions taken to prevent contamination and to minimize dust. All exterior surfaces of individual containers shall be practically free of product before overwrapping or packing in shipping containers. The flow shall be kept free of dust accumulation, waste, cartons, liners, or other refuse. Conveyors, packaging and cartonmaking equipment shall be vacuumed frequently during the operating day to prevent the accumulation of dust. No bottles or glass materials of any kind shall be permitted in the repackaging or hopper room. The inlet openings of all hoppers and bins shall be of minimum size, screened and placed well above the floor level. The room and all packaging equipment shall be cleaned as often as necessary to maintain a sanitary operation. Close attention shall be given to cleaning points of equipment where residues of the dry product may accumulate. A thorough cleanup including windows, doors, walls, light fixtures, and ledges, shall be performed as frequently as is necessary to maintain a high standard of cleanliness and sanitation. All waste dry dairy products including dribble product at the fillers shall be properly identified and disposed of as animal feed.

(d) *Storage*—(1) *Product.* The packaged dry milk product shall be stored or so arranged in aisles, rows, or sections and lots at least 18 inches from any wall and in such a manner as to be orderly, easily accessible for inspection or for cleaning of the room. All bags and small containers of product shall be placed on pallets elevated approximately 6 inches from the floor. The storage room shall be kept clean and dry and all openings protected against entrance of insects and rodents.

(2) *Supplies.* All supplies shall be placed on dunnage or pallets and arranged in an orderly manner for accessibility and cleaning of the room. Supplies shall be kept enclosed in their original wrapping material until used. After removal of supplies from their original containers they shall be kept in an enclosed metal cabinet, bins, or on shelving and if not enclosed shall be protected from powder and dust or other contamination. The room shall be vacuumed as often as necessary and kept clean and orderly.

E 2.4.7 *Product adulteration.* All necessary precautions shall be taken throughout the entire operation to prevent the adulteration of one product with another. The commingling of one type of liquid or dry product with another shall be considered as an adulteration of that product. This does not prohibit the normal standardization of like products in accordance with good commercial practices or the production of specific products for special uses, provided applicable labeling requirements are met.

E 2.4.8 *Checking quality.* All milk, milk products, and dry milk products shall be subject to inspection and analysis by the dairy plant for quality and condition throughout each processing operation. Line samples shall be taken periodically as an aid to quality control in addition to the regular routine analysis made on the finished products.

E 2.4.9 *Requirements for instant nonfat dry milk*—(a) *Sampling and testing.* All instant nonfat dry milk offered for sale shall be sampled and tested by the regulatory authority at least once each month for the purpose of assuring that the product meets the requirements of section E 2.4.9(b). In addition the dry milk plant shall have each sublot of approximately 4,000 pounds tested and analyzed prior to being packaged or offered for sale. Product not meeting the requirements of section E 2.4.9(b) shall not be offered as Extra Grade.

(b) *Requirements for Extra Grade instant nonfat dry milk*—(1) *Flavor and odor.* The flavor and odor shall be sweet, pleasing and desirable but may possess the following flavors to a slight degree: Chalky, cooked, feed, flat.

(2) *Physical appearance.* The physical appearance shall possess a uniform white to light cream natural color; shall be reasonably free-flowing and free from lumps except those that readily break up with very slight pressure.

(3) *Bacterial estimate.* The standard plate count shall not be more than 30,000 per gram.

(4) *Coliform count.* The coliform count shall not be more than 10 per gram.

(5) *Milkfat content.* The milkfat shall not be more than 1.25 percent.

(6) *Moisture count.* The moisture shall not be more than 4.5 percent.

(7) *Scorched particle content.* Scorched particles shall not be more than 15 mg.

(8) *Solubility index.* The solubility index shall not be more than 1 ml.

(9) *Titratable acidity.* The titratable acidity shall not be more than 0.15 percent.

(10) *Dispersibility.* The dispersibility shall not be less than 85 percent by the Modified Moats-Dabbah Method.

(11) *Direct microscopic clump count.* The direct miscroscopic clump count shall not be more than 75 million per gram.

E 2.4.10 *Cleaning of dryers, conveyors, sifters, and storage bins.* This equipment shall be cleaned as often as is necessary to maintain such equipment in a clean and sanitary condition. The kind of cleaning procedure either wet or dry and the frequency of cleaning shall be based upon observation of actual operating results and conditions.

E 2.4.11 *Insect and rodent control program.* In addition to any commercial pest control service, if one is utilized, a specially designated employee shall be made responsible for the performance of a regularly scheduled insect and rodent control program.

SEC. E 3. *Supplemental requirements for plants manufacturing, processing and packaging butter and related products*—E 3.1 *Rooms and compartments*—E 3.1.1 *Coolers and freezers.* The coolers and freezers shall be equipped with facilities for maintaining proper temperature and humidity conditions, consistent with good commercial practices for the applicable product, to protect the quality and condition of the products during storage or during tempering prior to further processing. Coolers and freezers shall be kept clean, orderly, free from insects, rodents, and mold, and maintained in good repair. They shall be adequately lighted and proper circulation of air shall be maintained at all times. The floors, walls, and ceilings shall be of such construction as to permit thorough cleaning.

E 3.1.2 *Churn rooms.* Churn rooms in addition to proper construction and sanitation shall be so equipped that the air is kept free from objectionable odors and vapors and extreme temperatures by means of adequate ventilation and exhaust systems or air conditioning and heating facilities.

E 3.1.3 *Print and bulk packaging rooms.* Rooms used for packaging print or bulk butter and related products shall, in addition to proper construction and sanitation, provide an atmosphere relatively free from mold (no more than 10 mold colonies per cubic foot of air), dust, or other airborne contamination and be maintained at a reasonable room temperature.

APR 7 1972 XUM

E 3.2 *Equipment and utensils*—E 3.2.1 *General construction, repair, and installation.* All equipment and utensils necessary to the manufacture of butter and related products shall meet the same general requirements as outlined in section 1.4 of subpart E 1. In addition for certain other equipment, the following requirements shall be met.

E 3.2.2 *Continuous churn.* All product contact surfaces shall be of noncorrosive material. All nonmetallic product contact surfaces shall comply with 3–A Standards for Plastic, Rubber, and Rubber-Like Materials. All product contact surfaces shall be readily accessible for cleaning and inspection.

E 3.2.3 *Conventional churn.* Churns shall be constructed of aluminum, stainless steel or equally corrosion resistant metal, free from cracks, and in good repair. All gasket material shall be fat resistant, nontoxic and reasonably durable. Seals around the doors shall be tight.

E 3.2.4 *Bulk butter trucks, boats and packers.* Bulk butter trucks, boats and packers shall be constructed of aluminum, stainless steel or equally corrosion resistant metal free from cracks, seams and must have a surface that is relatively smooth and easily cleanable.

E 3.2.5 *Butter, frozen or plastic cream melting machine.* Shavers, shredders or melting machines used for rapid melting of butter, frozen or plastic cream shall be of stainless steel or equally corrosion resistant metal, sanitary construction, and readily cleanable.

E 3.2.6 *Printing equipment.* All printing equipment shall be designed to be readily demountable for cleaning of product contact surfaces. All product contact surfaces shall be aluminum, stainless steel or equally corrosion resistant metal, or plastic, rubber and rubber like material which meet 3–A standards, except that conveyors may be constructed of material which can be properly cleaned and maintained in a satisfactory manner.

E 3.2.7 *Brine tanks.* Brine tanks used for the treating of parchment liners shall be constructed of noncorrosive material and have an adequate and safe means of heating the salt solution for the treatment of the liners. The tank shall also be provided with a satisfactory drainage outlet.

E 3.2.8 *Starter vats.* Bulk starter vats shall be of stainless steel or equally corrosion-resistant metal and constructed according to applicable 3–A Sanitary Standards. The vats shall be in good repair, equipped with tight-fitting lids, and have effective temperature controls.

E 3.3 *Operations and operating procedures*—E 3.3.1 *Pasteurization.* The milk or cream shall be pasteurized at the plant where the milk or cream is processed into the finished product.

(a) *Cream for buttermaking.* (1) The cream for buttermaking shall be pasteurized at a temperature of not less than 165° F. and held continuously in a vat at such temperature for not less than 30 minutes; or pasteurized by HTST method at a minimum temperature of not less than 185° F. for not less than 15 seconds; or by any other equivalent time and temperature combination. Additional heat treatment above the minimum pasteurization requirement is advisable to insure improved keeping-quality characteristics.

(2) Adequate pasteurization control shall be used and the diversion valve shall be set to divert at no less than 185° F. with a 15-second holding time or its equivalent in time and temperature to assure pasteurization. If the vat or holding method of pasteurization is used, vat covers shall be closed prior to holding period to assure temperature of air space reaching the minimum temperature before holding time starts. Covers shall also be kept closed during the holding and cooling period.

(b) *Cream for plastic or frozen cream.* The pasteurization of cream for plastic or frozen cream shall be accomplished in the same manner as in (a) above, except, that the temperature for the vat method shall be not less than 170° F. for not less than 30 minutes, or not less than 190° F. for not less than 15 seconds or by any other temperature and holding time which will assure adequate pasteurization and comparable keeping-quality characteristics.

E 3.3.2 *Composition and wholesomeness.* All ingredients used in the manufacture of butter and related products shall be subject to inspection and shall be wholesome and practically free from impurities. Chlorinating facilities shall be provided for butter wash water if needed and all other necessary precautions shall be taken to prevent contamination of products. All finished products shall comply with the requirements of the Federal Food, Drug, and Cosmetic Act, as to composition and wholesomeness.

E 3.3.3 *Containers.* (a) Containers used for the packaging of butter and related products shall be commercially acceptable containers or packaging material that will satisfactorily protect the quality of the contents in regular channels of trade. Caps or covers which extend over the lip of the container shall be used on all cups or tubs containing 2 pounds or less, to protect the product from contamination during subsequent handling.

(b) *Liners and wrappers.* (1) Supplies of parchment liners, wrappers, and other packaging material shall be protected against dust, mold, and other possible contamination.

(2) Prior to use, parchment liners for bulk butter packages shall be completely immersed in a boiling salt solution in a suitable container constructed of stainless steel or other equally noncorrosive material. The liners shall be maintained in the solution for not less than 30 minutes. The solution should consist of at least 15 pounds of salt for every 85 pounds of water and shall be strengthened or changed as frequently as necessary to keep the solution full strength and in good condition.

(3) Other liners such as polyethylene shall be treated or handled in such a manner as to prevent contamination of the liner prior to filling.

(c) *Filling bulk butter containers.* The lined butter containers shall be protected from possible contamination prior to filling.

E 3.3.4. *Printing and packaging.* Printing and packaging of consumer size containers of butter shall be conducted under sanitary conditions.

E 3.3.5. *General identification.* Commercial bulk shipping containers shall be legibly marked with the name of the product, net weight, name and address of manufacturer, processor or distributor or other assigned plant identification (manufacturer's lot number, churn number, etc.) and any other identification that may be required. Packages of plastic or frozen cream shall be marked with the percent of milkfat.

E 3.3.6 *Storage of finished product in coolers.* All products shall be kept under refrigeration at temperatures of 40° F. or lower after packaging and until ready for distribution or shipment. The products shall not be placed directly on floors or exposed to foreign odors or conditions such as drippage due to condensation which might cause package or product damage.

E 3.3.7 *Storage of finished product in freezer*—(a) *Sharp freezers.* Plastic cream or frozen cream intended for storage shall be placed in quick freezer rooms immediately after packaging, for rapid and complete freezing within 24 hours. The packages shall be piled or spaced in such a manner that air can freely circulate between and around the packages. The rooms shall be maintained at −10° F. or lower and shall be equipped to provide sufficient high-velocity air circulation for rapid freezing. After the products have been completely frozen, they may be transferred to a freezer storage room for continued storage.

(b) *Freezer storage.* (1) The room shall be maintained at a temperature of 0° F. or lower. Adequate air circulation is desirable.

(2) Butter intended to be held more than 30 days shall be placed in a freezer room as soon as possible after packaging. If not frozen before being placed in the freezer, the packages shall be spaced in such a manner as to permit rapid freezing and repiled, if necessary, at a later time.

SEC. E 4. *Supplemental requirements for plants manufacturing and packaging cheese*—E 4.1 *Rooms and compartments*—E 4.1.1 *Starter room.* Starter rooms or areas shall be properly equipped and maintained for the propagation and handling of starter cultures. All necessary precautions shall be taken to prevent contamination of starter, of the room, equipment, and the air therein.

E 4.1.2 *Make room.* The room in which the cheese is manufactured shall be of adequate size, and the vats adequately spaced to permit movement around the vats and presses for proper cleaning and satisfactory working conditions. Adequate ventilation shall be provided.

E 4.1.3 *Drying room.* If cheese is to be paraffined, a drying room of adequate size shall be provided to accommodate the maximum production of cheese during the flush period. Adequate shelving and air circulation shall be provided for proper drying. Suitable temperature and humidity control facilities shall be provided.

E 4.1.4 *Paraffining room.* For rind cheese, a separate room or compartment shall be provided for paraffining and boxing the cheese. The room or compartment shall be of adequate size and the temperature maintained near the temperature of the drying room to avoid sweating of the cheese prior to paraffining.

E 4.1.5 *Rindless block wrapping area.* For rindless blocks a suitable space shall be provided for proper wrapping and boxing of the cheese. The area shall be free from dust, condensation, mold or other conditions which may contaminate the surface of the cheese or contribute to an unsatisfactory packaging of the cheese.

E 4.1.6 *Coolers or curing rooms.* Coolers or curing rooms where cheese is held for curing or storage shall be clean and maintained at the proper uniform temperature and humidity to adequately protect the cheese. Proper circulation of air shall be maintained at all times. The rooms shall be free from rodents, insects, and pests. The shelves shall be kept clean and dry.

E 4.1.7 *Cutting and packaging rooms.* When small packages of cheese are cut and wrapped, separate rooms shall be provided for the cleaning and preparation of the bulk cheese and a separate room shall be provided for the cutting and wrapping operation. The rooms shall be well lighted, ventilated, and provided with filtered air. Air movement shall be outward to minimize the entrance of unfiltered air into the cutting and packaging room.

E 4.2 *Equipment and utensils*—E 4.2.1 *General construction, repair, and installation.* All equipment and utensils necessary to the manufacture of cheese and related products shall meet the same general requirements as outlined in section 1.4 of Subpart E. In addition, for certain other equipment the following requirements shall be met.

E 4.2.2 *Starter vats.* Bulk starter vats shall be of stainless steel or equally corrosion-resistant metal and shall be in good repair, equipped with tight-fitting lids and have adequate temperature controls such as valves, indicating and/or recording thermometers. New vats shall be constructed according to the applicable 3–A Sanitary Standards.

E 4.2.3 *Cheese vats.* (1) The vats used for making cheese shall be of metal construction with adequate jacket capacity for uniform heating. The inner liner shall be minimum 16-gage stainless steel or other equally corrosion-resistant metal, properly pitched from side to center and from rear to front for adequate drainage. The liner shall be smooth, free from excessive dents or creases and shall extend over the edge of the outer jacket. The outer jacket, when metal, shall be constructed of strainless steel or other metal which can be kept clean and sanitary. The junction of the liner and outer jackets shall be constructed so as to prevent milk or cheese from entering the inner jacket.

(2) The vat shall be equipped with a suitable sanitary outlet valve. Effective valves shall be provided and properly maintained to control the application of heat to the vat.

E 4.2.4 *Mechanical agitators.* The mechanical agitators shall be of sanitary construction. The carriage and track shall be so constructed as to prevent the dropping of dirt or grease into the vat. Metal blades, forks, or stirrers shall be constructed of stainless steel and of material approved in the 3–A Sanitary Standards for Plastic and Rubber or Rubberlike Materials and shall be free from rough or sharp edges which might scratch the equipment or remove metal particles.

E 4.2.5 *Curd mill and miscellaneous equipment.* Knives, hand rakes, shovels, paddles, strainers, and miscellaneous equipment shall be stainless steel or of material approved in the 3–A Sanitary Standards for Plastic and Rubberlike Material. The product contact surfaces of the curd mill shall be of stainless steel. All pieces of equipment shall be so constructed that they can be kept clean. The wires in the curd knives shall be stainless steel, kept tight and replaced when necessary.

E 4.2.6 *Hoops and followers.* The hoops, forms, and followers shall be constructed of stainless steel or heavy tinned steel. If tinned, they shall be kept tinned and free from rust. All hoops, forms, and followers shall be kept in good repair. Drums or other special forms used to press and store cheese shall be clean and sanitary.

E 4.2.7 *Press.* The cheese press shall be constructed of stainless steel and all joints welded and all surfaces, seams, and openings readily cleanable. The pressure device shall be the continuous type. Press cloths shall be maintained in good repair and in a sanitary condition. Single-service press cloths shall be used only once.

E 4.2.8 *Rindless cheese press.* The press used to heat seal the wrapper applied to rindless cheese shall have square interior corners, reasonably smooth interior surface and have controls that shall provide uniform pressure and heat equally to all surfaces.

E 4.2.9 *Paraffin tanks.* The metal tank shall be adequate in size, have wood rather than metal racks to support the cheese, have heat controls and an indicating thermometer. The cheese wax shall be kept clean.

E 4.3 *Operations and operating procedures*—E 4.3.1 *Cheese from pasteurized milk.* (a) If the cheese is labeled as pasteurized, the milk shall be pasteurized by subjecting every particle of milk to a minimum temperature of 161° F. for not less than 15 seconds.

(b) HTST pasteurization units shall be equipped with the proper controls and equipment to assure pasteurization. If the milk is held more than 2 hours between time of receipt or heat treatment and setting, it shall be cooled to 45° F. or lower until time of setting.

E 4.3.2 *Cheese from unpasteurized milk.* If the cheese is labeled as "heat treated," "unpasteurized," "raw milk," or "for manufacturing," the milk may be raw or heated at temperatures below pasteurization. If the milk is held more than 2 hours between time of receipt or heat treatment and setting, it shall be cooled to 45° F. or lower until time of setting.

E 4.3.3 *Whey disposal.* (a) Adequate sanitary facilities shall be provided for the disposal of whey. If outside, necessary precautions shall be taken to minimize flies, insects, and development of objectionable odors.

(b) Whey or whey products intended for human food shall at all times be handled in a sanitary manner in accordance with the procedures of this subpart as specified for handling milk and dairy products.

E 4.3.4 *Packaging and repackaging.* Packaging rindless cheese or cutting and repackaging all styles of bulk cheese shall be conducted under rigid sanitary conditions. The atmosphere of the packaging rooms, the equipment and the packaging material shall be practically free from mold and bacterial contamination.

E 4.3.5 *General identification.* Each bulk cheese shall be legibly marked with the name of the product, code or date of manufacture, vat number, officially designated code number or name and address of manufacturer. Each consumer sized container shall be plainly marked with the name and address of the manufacturer, packer, or distributor, net weight of the contents, name of product and such other information as may be required.

SEC. E 5. *Supplemental requirements for plants manufacturing and packaging cottage cheese*—E 5.1 *Rooms and compartments*—E 5.1.1 *Processing rooms.* (a) Processing operations with open cheese vats shall be separated from other rooms or areas. Excessive personnel traffic or other possible contaminating conditions shall be avoided. Rooms, compartments, cookers, and dry storage space in which any raw material, packaging or ingredient supplies or finished products are handled, processed, packaged, or stored shall be designed and constructed to assure clean and orderly operations.

(b) *Ventilation.* Processing and packaging rooms or compartments shall be ventilated to maintain sanitary conditions, preclude the growth of mold and airborne bacterial contaminants, prevent undue condensation of water vapor and minimize or eliminate objectionable odors. To minimize airborne contamination in processing and packaging rooms, it is preferable to filter all incoming air. The incoming air shall exert an outward pressure so that the movement of air will be outward and prevent the movement of unfiltered air inward.

E 5.1.2 *Starter room.* Starter rooms or areas shall be properly equipped and maintained for the propagation and

APR 7 1972 XUM

handling of starter cultures. All necessary precautions shall be taken to prevent contamination of the starter room, the equipment and the air therein.

E 5.1.3 *Coolers.* Coolers shall be equipped with facilities for maintaining proper temperature and humidity conditions, consistent with good commercial practices for the applicable product, to protect the quality and condition of the products. Coolers shall be kept clean, orderly, free from insects, rodents, and mold, and maintained in good repair. They shall be adequately lighted and proper circulation of air shall be maintained at all times. The floors, walls, and ceilings shall be of such construction as to permit thorough cleaning.

E 5.2 *Equipment and utensils*—E 5.2.1 *General construction, repair and installation.* The equipment and utensils used for the manufacture and handling of cottage cheese shall be as specified in section 1.4 of subpart E. In addition for certain other equipment the following requirements shall be met.

E 5.2.2 *Cheese vats.* (1) The vats used for making the cottage cheese shall be of stainless steel construction with adequate jacket capacity for uniform heating and cooling. The inner liner shall be minimum 16 gage stainless steel, or equally corrosion-resistant metal properly pitched from side to center and from rear to front for adequate drainage. The liner shall be smooth, free from excessive dents or creases and shall extend over the edge of the outer jacket. The outer jacket shall be constructed of stainless steel or other metal which can be kept clean and sanitary. The junction of the liner and outer jacket shall be constructed as to prevent milk or cheese from entering the inner jacket.

(a) Vats shall be equipped with valves to control the heating and cooling medium and a suitable sanitary outlet valve. Also, the vats shall be equipped with removable stainless steel or other suitable metal covers, cloth covers which can be regularly and suitably laundered, or with single service paper covers. Vats used for creaming curd shall be equipped with a refrigerated cooling medium.

E 5.2.3 *Agitators.* Mechanical agitators shall be installed on all cheese vats for stirring the milk or cheese. The carriage shall be completely enclosed or provided with a trough or drip pan to prevent condensation, oil, or dirt from dropping into the vat.

E 5.2.4 *Container fillers.* New fillers shall conform to the 3–A Sanitary Standards for Equipment for Packaging Frozen Desserts and Cottage Cheese.

E 5.2.5 *Mixers.* They shall be constructed in such a manner as to be readily cleanable. If shafts extend through the wall of the tank below the level of product, they shall be equipped with proper seals which are readily removable for cleaning and sanitizing. The mixer shall be enclosed or equipped with tight fitting covers.

E 5.2.6 *Starter vats.* Bulk starter vats shall be made of stainless steel or equally corrosion resistant metal, shall be in good repair, equipped with tight fitting lids and accurate temperature controls such as valves, indicating and/or recording thermometers. New vats shall be constructed according to applicable 3–A Sanitary Standards.

E 5.3 *Operations and operating procedures*—E 5.3.1 *Pasteurization.* (a) The skim milk used for the manufacture of cottage cheese shall be pasteurized not more than 24 hours prior to the time of setting by heating every particle of skim milk to a temperature of 161° F. for not less than 15 seconds or by any other combination of temperature and time giving equivalent results. All skim milk must be cooled promptly to setting temperature. If held more than 2 hours between pasteurization and time of setting, the skim milk shall be cooled and held at 45° F. or colder until set.

(b) Cream or cheese dressing shall be pasteurized at not less than 150° F. for not less than 30 minutes or at not less than 166° F. for not less than 15 seconds or by any other combination of temperature and time treatment giving equivalent results. Cream and cheese dressing shall be cooled promptly to 40° F. or lower after pasteurization to aid in further cooling of cottage cheese curd for improved keeping quality.

(c) Reconstituted nonfat dry milk for cottage cheese manufacture need not be repasteurized provided it is reconstituted within 2 hours prior to the time of setting. Skim milk separated from pasteurized whole milk need not be repasteurized provided it is separated in equipment from which all traces of raw milk from previous operations have been removed by proper cleaning and sanitizing.

E 5.3.2 *Reconstituting nonfat dry milk.* Nonfat dry milk shall be reconstituted in a sanitary manner, preferably by the use of a centrifugal pump and funnel arrangement. It shall be reconstituted within 2 hours of the time of setting, using water which is free from viable pathogenic or otherwise harmful microorganisms.

E 5.3.3 *Packaging and general identification*—(a) *Containers.* Containers used for packaging cottage cheese shall be any commercially acceptable multiple use or single service container or packaging material which will satisfactorily protect the contents through the regular channels of trade without significant impairment of quality with respect to flavor or contamination under normal conditions of handling. Caps or covers which extend over the lip of the container shall be used on all cups or tubs containing 2 pounds or less to protect the product from contamination during subsequent handling.

(b) *Packaging.* The cheese shall be packaged in a sanitary manner. The containers shall be check weighed during the filling operation to assure they are filled uniformly to not less than the stated net weight on the container.

(c) *General identification.* Bulk packages containing cottage cheese shall be adequately and legibly marked with the name of the product, net weight, name and address of the manufacturer, lot number, code or date of packaging and any other identification as may be required. Consumer size packaged products shall be legibly marked with the name of the product, net weight, name and address of the manufacturer or distributor, code or date of packaging and any other identification as may be required.

E 5.3.4 *Storage of finished product.* Cottage cheese after packaging shall be promptly stored at a temperature of 45° F. or lower to maintain quality and condition until loaded for distribution. During distribution and storage prior to sale the product should be maintained at a temperature of 45° F. or lower. The product shall not be exposed to foreign odors or conditions such as drippage or condensation that might cause package or product damage. Packaged cottage cheese shall not be placed directly on floors.

SEC. E 6. *Supplemental requirements for plants manufacturing, processing and packaging pasteurized process cheese and related products*—E 6.1 *Equipment and utensils*—E 6.1.1 *General construction, repair, and installation.* The equipment and utensils used for the handling and processing of cheese products shall be as specified in section 1.4 of subpart E. In addition, for certain other equipment the following requirements shall be met.

E 6.1.2 *Conveyors.* Conveyors shall be constructed of material which can be properly cleaned, will not rust, or otherwise contaminate the cheese, and shall be maintained in good repair.

E 6.1.3 *Grinders or shredders.* The grinders or shredders used in the preparation of the trimmed and cleaned natural cheese for the cookers shall be adequate in size. Product contact surfaces shall be of corrosion resistant material, and of such construction as to prevent contamination of the cheese and to allow thorough cleaning of all parts and product contact surfaces.

E 6.1.4 *Cookers.* The cookers shall be the steam jacketed or direct steam type. They shall be constructed of stainless steel or other equally corrosion-resistant material. All product contact surfaces shall be readily accessible for cleaning. Each cooker shall be equipped with an indicating thermometer, and should be equipped with a temperature recording device. The recording thermometer stem may be placed in the cooker if satisfactory time charts are used; if not, the stem shall be placed in the hotwell or filler hopper. Steam check valves on direct steam type cookers shall be mounted flush with cooker wall, be constructed of stainless steel and designed to prevent the backup of product into the steam line, or the steam line shall be constructed of stainless steel pipes and fittings which can be readily cleaned. If direct steam is applied to the product only culinary steam shall be used.

E 6.1.5 *Fillers.* The hoppers of all fillers shall be covered but the cover may have sight ports. If necesary, the hopper may have an agitator to prevent buildup on side wall. The filler valves and head shall be kept in good repair, capable of accurate measurements.

E 6.2 *Operations and operating procedures*—E 6.2.1 *Trimming and cleaning.* The natural cheese shall be cleaned free of all nonedible portions. Paraffin and bandages as well as rind surface, mold, or unclean areas or any other part which is unwholesome or unappetizing shall be removed.

E 6.2.2 *Cooking the batch.* Each batch of cheese within the cooker, including the optional ingredients shall be thoroughly commingled and the contents pasteurized at a temperature of at least 158° F. and held at that temperature for not less than 30 seconds. Care shall be taken to prevent the entrance of cheese particles or ingredients after the cooker batch of cheese has reached the final heating temperature. After holding for the required period of time, the hot cheese shall be emptied from the cooker as quickly as possible.

E 6.2.3 *Forming containers.* Containers either lined or unlined shall be assembled and stored in a sanitary manner to prevent contamination. The handling of containers by filler crews shall be done with extreme care and observance of personal cleanliness. Preforming and assembling of pouch liners and containers shall be kept to a minimum and the supply rotated to limit the length of time exposed to possible contamination prior to filling.

E 6.2.4 *Filling containers.* Hot fluid cheese from the cookers may be held in hot wells or hoppers to assure a constant and even supply of processed cheese to the filler or slice former. Filler valves shall effectively measure the desired amount of product into the pouch or containers in a sanitary manner and shall cut off sharply without drip or drag of cheese across the opening. An effective system shall be used to maintain accurate and precise weight control. Damaged or unsatisfactory packages shall be removed from production, and the cheese may be salvaged into sanitary containers, and added back to cookers.

E 6.2.5 *Closing and sealing containers.* Pouches, liners, or containers having product contact surfaces after filling shall be folded or closed and sealed in a sanitary manner, preferably by mechanical means, so as to assure against contamination. Each container in addition to other required labeling shall be coded in such a manner as to be easily identified as to date of manufacture by lot or sublot number.

SEC. E 7. *Supplemental requirements for plants manufacturing, processing, and packaging evaporated, condensed, or sterilized milk products*—E 7.1 *Equipment and utensils*—E 7.1.1 *General construction, repair, and installation.* The equipment and utensils used for processing and packaging evaporated, condensed, or sterilized milk products shall be as specified in section 1.4 of Subpart E. In addition, for certain other equipment, the following requirements shall be met.

E 7.1.2 *Evaporators and vacuum pans.* All equipment used in the removal of moisture from milk or milk products for the purpose of concentrating the solids should meet the requirements of the 3–A Sanitary Standards for Milk and Milk Products Evaporators and Vacuum Pans. All new or used replacements for this type of equipment shall meet the appropriate 3–A Sanitary Standards.

E 7.1.3 *Fillers.* Both gravity- and vacuum-type fillers shall be of sanitary design and all product contact surfaces, if metal, shall be made of stainless steel or equally corrosion-resistant material; except that certain evaporated milk fillers having brass parts may be approved if free from corroded surfaces and kept in good repair. Nonmetallic product contact surfaces shall meet the requirements for 3–A Sanitary Standards for Rubber and Rubberlike Materials or for Multiple-Use Plastic Materials. Fillers shall be designed so that they in no way will contaminate or detract from the quality of the product being packaged.

E 7.1.4 *Batch or continuous in-container sterilizers.* Shall be equipped with accurate temperature controls and effective valves for regulating the sterilization process. The equipment shall be maintained in such a manner as to assure control of the length of time of processing, and to minimize the number of damaged containers.

E 7.1.5 *Homogenizers.* Homogenizers where applicable shall be used to reduce the size of the fat particles and to evenly disperse them in the product. New homogenizers shall meet the applicable 3–A Sanitary Standards.

E 7.2 *Operations and operating procedures*—E 7.2.1 *Preheat, pasteurization.* When pasteurization is intended or required by either the vat method, HTST method, or by the UHT method it shall be accomplished by systems and equipment meeting the requirements outlined in section 1.4 of Subpart E.

E 7.2.2 *Sterilization.* The complete destruction of all living organisms shall be performed in one of the following methods: (a) The complete in-container method, by heating the container and contents to a range of 212° F. to 280° F. for a sufficient time; (b) by a continuous flow UHTST process at high temperatures of 280° F. and above for a sufficient time, then packaged aseptically; (c) the product is first sterilized according to UHTST methods as in paragraph (b) of this section, then packaged and given further heat treatment to complete the sterilization process.

E 7.2.3 *Filling containers.* (a) The filling of small containers with product shall be done in a sanitary manner. The containers shall not contaminate or detract from the quality of the product in any way. After filling, the container shall be hermetically sealed.

(b) Bulk containers for unsterilized product shall be suitable and adequate to protect the product in storage or transit. The bulk container (including bulk tankers) shall be cleaned and sanitized before filling, and filled and closed in a sanitary manner.

E 7.2.4 *Aseptic filling.* A previously sterilized product shall be filled under conditions which prevent contamination of the product by living organisms or spores. The containers prior to being filled shall be sterilized and maintained in a sterile condition. The containers shall be sealed in a manner that prevents contamination of the product.

E 7.2.5 *Storage.* Proper facilities shall be provided for the storage and handling of finished product.

Subpart F—Administrative Procedures

SEC. F 1. *Farm certification*—F 1.1 *Necessity for certification.* (a) Within 24 months from the effective date of these rules and regulations, every farm producing and selling milk for manufacturing purposes shall be inspected and certified as provided in section F 1.2, 1.3, and 1.5. On and after the effective date of these rules and regulations, a new producer's farm shall be inspected and certified as provided in sections F 1.2, 1.3, and 1.5 before his first sale of milk for manufacturing purposes. Twenty-four months from and after the effective date of these rules and regulations, no milk for manufacturing purposes produced on an uncertified farm shall be bought or sold.

(b) Certified farms shall be inspected annually after initial certification to determine eligibility for recertification. The inspection procedure for recertification shall be the same as that for initial certification.

F 1.2 *Inspection.* Each farm shall be inspected by an inspector or approved fieldman. When evidence indicates that it is advisable to do so [the regulatory agency] may require an examination of the herd by a licensed veterinarian. If the farm meets the applicable requirements for certification described in section D 1 to D 9 of subpart D, as indicated by the Farm Certification Report Form (section F 4) the farm shall be certified as described in section F 1.3. If the farm does not meet the requirements for certification, it shall be reinspected

APR 7 1972 XUM

within 30 days after the initial inspection. If the farm then meets the requirements for certification, it shall be certified. If the farm does not meet the requirements for certification, it shall not be certified, and the producer's authorization to sell milk for human food from that farm shall be withheld by [the regulatory agency] until such time as the farm qualifies for certification. Provided that, if the inspector determines during any of these inspections that corrections on the farm will require some capital investment, a reasonable extension of the prescribed time limits may be granted by [the regulatory agency]. Each completed Farm Certification Report Form (section F 4) shall be kept by the regulatory agency and a copy shall be given to the producer.

F 1.3 *Certification.* An inspector or approved fieldman shall certify farms that meet the requirements of sections D 1 to D 9 of subpart D as applicable, based upon the inspection procedure described in section F 1.2. Farm certification shall authorize the sale from that farm of milk for manufacturing purposes that meets the quality standards of section C 2 to C 4 of subpart C as determined by the procedures described in sections C 2 to C 11 of subpart C.

F 1.4 *Expiration and revocation of certification.* (a) Farm certification shall expire and become renewable 1 year from the date of certification unless revoked earlier by [the regulatory agency] and no certification shall be transferrable.

(b) If at any time an inspector or approved fieldman determines that a certified farm does not meet the requirements for certification [the regulatory agency] may allow a reasonable probationary period for the producer to bring his farm within the requirements for certification. If at the end of this time the farm does not meet the requirements for certification [the regulatory agency] may revoke the farm certification.

F 1.5 *Reinstatement.* If, after a period of withholding, probation, or revocation of farm certification, a producer makes the necessary corrections at the farm, he may apply for reinspection. When conditions have been corrected, the farm shall be reinspected by an inspector or approved fieldman. When the inspector or approved fieldman determines that requirements for certification have been met, he shall certify the farm.

SEC. F 2. *Licensing plants, milk graders, and bulk milk collectors*—F 2.1 *Necessity for plant license.* (a) Within 12 months from the effective date of these rules and regulations, every plant receiving or processing milk for the manufacture of dairy products shall be inspected and licensed as provided in sections F 2.2, 2.3, 2.4(a), and 2.6. On and after the effective date of these rules and regulations, a new plant shall be inspected and licensed as provided in sections F 2.2, 2.3, 2.4(a), and 2.6 before buying or processing any milk for the manufacture of dairy products. Twelve months from and after the effective date of these rules and regulations, no unlicensed plant shall handle, purchase, or receive milk or manufacture dairy products therefrom.

(b) All licensed plants shall be inspected annually after issuance of the initial license to determine eligibility for license renewal. The inspection procedure for license renewal shall be the same as that for initial licensing.

F 2.2 *Application for license.* Applications to [the regulatory agency] for a new or renewal license for dairy plants, milk graders, and bulk milk collectors shall contain the name and address of the applicant and such other pertinent information as may be required.

F 2.3 *Plant inspection.* (a) Each plant shall be inspected by an inspector. If, upon initial inspection, the inspector finds that the plant meets the requirements for licensing described in subpart E, as indicated by the Plant Inspection Report Form (section F 5), a license shall be issued to the plant as described in section F 2.4(a). If the plant does not meet the requirements for licensing, the plant shall be reinspected by an inspector within 30 days of the initial inspection. A longer time may be allowed if major changes or new equipment is required. If at this time the plant meets the requirements for licensing, a license shall be issued. If the plant does not meet the requirements for licensing, it shall not be licensed, and its authorization to handle, purchase, or receive milk or to manufacture dairy products therefrom shall be withheld until such time as the plant qualifies for a license.

(b) Each completed Plant Inspection Report Form (section F 5) shall be kept by [the regulatory agency], and a copy shall be given to the plant operator.

F 2.4 *Issuance of license*—(a) *Dairy plants.* [The regulatory agency] shall license dairy plants that meet the specifications of subpart E based upon the inspection procedure described in section F 2.3. The license certificate shall be posted conspicuously at the plant. The license shall authorize the plant to test, purchase, and receive milk for manufacturing purposes and to manufacture dairy products therefrom, in compliance with the applicable provisions of the Act and the rules and regulations issued pursuant thereto.

(b) *Milk graders and bulk milk collectors.* [The regulatory agency] shall license milk graders and bulk milk collectors who meet the qualifications prescribed by [the regulatory agency]. The licenses of milk graders and bulk milk collectors shall authorize them to grade, accept, and reject raw milk in accordance with the provisions of subpart C.

F 2.5 *Expiration, suspension and revocation of license.* (a) Licenses shall expire and become renewable 1 year from the date of issuance unless revoked earlier and no license shall be transferable.

(b) If at any time an inspector determines that a licensed plant does not meet the requirements for licensing, he may allow a reasonable probationary period for the operator to bring his plant within the requirements for licensing. If at the end of this time the plant does not meet the licensing requirements [the regulatory agency] may revoke the plant license.

(c) [The regulatory agency] may suspend or revoke licenses of milk graders and bulk milk collectors for any violation of these regulations on the Act. An opportunity for a hearing shall be provided any licensee before suspension or revocation of his license.

F 2.6 *Reinstatement.* (a) If, after a period of withholding, probation or revocation of a plant license, the operator makes the necessary corrections at the plant, he may apply to [the regulatory agency] for reinspection and reinstatement. When the inspector determines that requirements for licensing have been met [the regulatory agency] shall issue a license to the plant.

(b) The reinstatement of licenses for milk graders and bulk milk collectors which have been suspended or revoked shall be made only after satisfying [the regulatory agency] of their qualifications.

Sec. F 3. *Supervision*—F 3.1 *Regulatory agency.* [The regulatory agency] to insure compliance with the provisions of the Act and the rules and regulations shall:

(a) Make periodic examinations of milk from a representative number of producers at each plant to determine whether the milk is being graded and tested in accordance with the applicable provisions of subpart C.

(b) Examine the quality records of transfer producers at each plant periodically and when necessary determine the acceptability of such producers' milk.

(c) Make periodic farm inspections and compare the results of such inspections with previously completed Farm Certification Report Forms filed by the inspector or approved fieldman.

(d) Periodically examine the milk quality tests records of individual producers at each plant.

(e) Periodically inspect plant premises, buildings, equipment, facilities, operations, sanitary practices and compare the results with previously completed plant inspection forms filed by the inspector.

(f) Assist plant management and laboratory and field staffs with educational programs among producers relating to quality improvement of milk.

(g) Perform such other services and institute such other supervisory procedures as may be necessary to insure compliance with the provisions of the Act and the rules and regulations.

F 4. *Farm certification report form.* The following form shall be used by inspectors or approved fieldman in determining eligibility for farm certification:

FARM INSPECTION FORM

	Check ons		Remarks (State unsatisfactory conditions by Item No. Include comments, as necessary, for other items)
	S	U	
A—FACILITIES			
1. Health of herd:			
(a) Herd appears healthy			
(b) Tuberculin tested, date			
(c) Brucellosis test:			
Ring tested, date			
Blood tested, date			
2. Barn or milking area:			
(a) Adequate size, construction			
(b) Floors and gutters good repair			
(c) Bulk tank, installation			
3. Milkhouse or milkroom:			
(a) Adequate size, location, and construction			
(b) Equipped with adequate facilities			
(c) Bulk tank, installation			
4. Combination milking parlor and milkroom, if used:			
(a) Adequate size, construction			
(b) Equipment and arrangement			
5. Utensils and equipment:			
(a) Design, construction			
(b) Cleaning (brushes and cleansers) and storage facilities and supplies available			
6. Water supply:			
(a) Safe, clean			
(b) Supply ample			
B—METHODS			
7. Premises:			
(a) Clean, well kept			
(b) Fowl, swine properly confined			
(c) Manure properly handled and disposed of			
8. Barn or milking area:			
(a) Floors and gutters clean, good repair			
(b) Walls and ceilings clean, painted or whitewashed			
(c) Pens and alleyways clean			
(d) Yard or loafing area clean			
9. Milking procedure:			
(a) Mastitis program practiced			
(b) Cows clean, udders and flanks clipped			
(c) Udders and teats washed or wiped before milking			
(d) Milk stools and stirrings clean, properly stored			
(e) Milker's clothing clean, hands clean and dry			
(f) Feed bin kept clean and free from foul odors			
10. Milkhouse or milkroom:			
(a) Used for handling milk and utensils			
(b) Clean, free of flies and insects controlled to minimum			
11. Cooling:			
(a) Facility clean, good operating order			
(b) Milk cooled promptly, properly held. (Temperature of milk —°F.)

HIGHLIGHTS OF THIS ISSUE

This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.

TRANSPORTATION—Presidential proclamation of National Defense Transportation Day and National Transportation Week 7073

RAILWAY SAFETY—
DoT proposes tank cars transporting flammable liquid compressed gases be marked with name of cargo material; comments by 7–25–72 7104
Federal Railroad Administration issues new reporting requirements for failure of signal systems and for annual signal report; effective 5–15–72 7096

DRUG EFFICACY—FDA rules two ophthalmic antibiotics are ineffective and denies certification and marketing 7080

MOTOR VEHICLE SAFETY—
DoT seeks to reduce accidents caused by runaway engines in new accelerator control standard; effective 9–1–73 7097
DoT proposed amendment to accelerator control standard allowing one-half second for return of throttle to idle position; comments by 5–8–72 7108
DoT proposes identical performance requirements for turn signals and stop lamps on vehicles less than 80 inches in width; comments by 6–8–72 7107

CODE OF FEDERAL REGULATIONS

(Revised as of January 1, 1972)

Title 7—Agriculture (Parts 1000–1059) $1.75
Title 47—Telecommunication (Parts 20–69) 2.50
Title 49—Transportation (Parts 100–199) 3.75

[A Cumulative checklist of CFR issuances for 1972 appears in the first issue of the Federal Register each month under Title 1]

Order from Superintendent of Documents,
United States Government Printing Office,
Washington, D.C. 20402

FEDERAL REGISTER
Area Code 202 Phone 962-8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended (44 U.S.C. 1510). The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

HIGHLIGHTS—Continued

INCOME TAX—IRS regulations concerning religious, charitable, educational, and other exempt organizations 7088

AIRCRAFT OPERATION REGULATIONS—FAA requests comments and suggestions from the aviation community by 7–7–72 concerning proposed reorganization and clarification 7104

AIR FARES—CAB approves United proposal allowing servicemen to travel in civilian clothes at military fares 7112

EDUCATION IN RURAL AMERICA—Applications due within 15 days under grant program for small rural schools 7096

THE PRESIDENT

PROCLAMATION

National Defense Transportation Day and National Transportation Week, 1972 7073

EXECUTIVE AGENCIES

AGRICULTURAL MARKETING SERVICE

Rules and Regulations

Handling limitations:
Lemons grown in California and and Arizona 7076
Navel oranges grown in Arizona and California 7075
Oranges grown in interior district in Florida 7076

Proposed Rule Making

Tomatoes grown in Florida; determination of basis of results of referendum on marketing agreement and order 7100

AGRICULTURE DEPARTMENT

See Agricultural Marketing Service; Farmers Home Administration.

ARMY DEPARTMENT

Rules and Regulations

Procurement; miscellaneous amendments 7084

CIVIL AERONAUTICS BOARD

Notices

Hearings, etc.:
Capitol International Airways, Inc 7111
International Air Transport Association 7111
MacKenzie Air Ltd 7113
United Air Lines, Inc 7112
Voyager 1000 et al 7113

CIVIL SERVICE COMMISSION

Rules and Regulations

Reduction in force; employees' retention standing 7075

COAST GUARD

Proposed Rule Making

Apra Harbor, Guam; anchorage grounds, navigation areas, and security zones 7103

Notices

Portion of Elizabeth River, Norfolk Harbor, Va.; security zone 7111

DEFENSE DEPARTMENT

See Army Department.

EDUCATION OFFICE

Rules and Regulations

Experimental schools; grants for small schools in rural areas and closing date for receipt of applications 7096

ENVIRONMENTAL QUALITY COUNCIL

Notices

Environmental impact statements; notice of availability 7113

FARMERS HOME ADMINISTRATION

Proposed Rule Making

Community facilities, development, conservation, and utilization; processing loans to associations 7101

FEDERAL AVIATION ADMINISTRATION

Rules and Regulations

Airworthiness directives; AiResearch engines 7077

Proposed Rule Making

Area high route; designation 7103
General operating and flight rules 7104

FEDERAL COMMUNICATIONS COMMISSION

Rules and Regulations

Cable television service; nondiscrimination in employment practices; correction 7083

Proposed Rule Making

Cable television systems; importation of radio signals; extension of time 7108

Notices

Lake Erie Broadcasting Co. and Lorain Community Broadcasting Co.; applications for construction permits 7116

FEDERAL INSURANCE ADMINISTRATION

Rules and Regulations

Flood insurance program:
Areas eligible for sale of insurance 7081
Identification of special hazard areas 7082

FEDERAL POWER COMMISSION

Notices

Hearings, etc.:
Burke, J. D., et al 7117
Odessa Natural Corp., et al 7119
Portland General Electric Co 7121
Skelly Oil Co 7120

FEDERAL RAILROAD ADMINISTRATION

Rules and Regulations

Signal systems reporting requirements 7096

FEDERAL RESERVE SYSTEM

Notices

Valley Bancorporation; acquisition of bank 7121

FOOD AND DRUG ADMINISTRATION

Rules and Regulations

Neomycin sulfate; certain preparations for ophthalmic use containing antibiotics and corticosteroids; revocation 7080
New animal drugs:
Iron dextran complex injection 7080
Repository corticotropin injection 7079
Sulfadimethoxine 7080

Filing of petitions for food additives:
- Betz Laboratories, Inc. 7110
- Shell Chemical Co. 7110
- Velsicol Chemical Corp. 7110

Parlam Division, Ormont Drug and Chemical Co., Inc.; Mikedimide 3% and Sebumsol 25%; notice of opportunity for hearing 7110

Pitman-Moore, Inc.; shampoo containing cadmium sulfide; withdrawal of approval of new animal drug application 7111

Streptomycin sulfate for parenteral use; drugs for human use; efficacy study implementation 7111

GENERAL SERVICES ADMINISTRATION

Notices

Retro-flective beads and reflectorized traffic paint for airfield runway marking; Industry Specification Development Conference 7121

Secretary of Defense; delegation of authority 7122

HAZARDOUS MATERIALS REGULATIONS BOARD

Proposed Rule Making

Transportation of hazardous materials; markings on tank cars 7104

HEALTH, EDUCATION, AND WELFARE DEPARTMENT

See Education Office; Food and Drug Administration; Public Health Service.

HEARINGS AND APPEALS OFFICE

Notices

Burgess Mining and Construction Corp.; petition for modification of mandatory safety standard 7109

HOUSING AND URBAN DEVELOPMENT DEPARTMENT

See Federal Insurance Administration.

IMMIGRATION AND NATURALIZATION SERVICE

Proposed Rule Making

Administrative proceedings before Service officers; service of notices, decisions, and other papers 7099

INDIAN AFFAIRS BUREAU

Rules and Regulations

Estates of Indians of the Five Civilized Tribes 7082

INTERIOR DEPARTMENT

See also Hearings and Appeals Office; Indian Affairs Bureau; Land Management Bureau.

Rules and Regulations

Public contracts and property management; miscellaneous amendments 7092

Notices

Newlands Reclamation Project, Nev.; operating criteria and procedures 7109

INTERNAL REVENUE SERVICE

Rules and Regulations

Income tax:
- Taxation of exempt organizations on rents from property, and interest, rents, etc., from controlled organizations 7088
- Trusts; election regarding amounts distributed in first 65 days of taxable year 7091

INTERSTATE COMMERCE COMMISSION

Notices

Assignment of hearings 7131

Motor carriers:
- Temporary authority applications 7131
- Transfer proceedings (2 documents) 7133

JUSTICE DEPARTMENT

VETERANS ADMINISTRATION

Rules and Regulations

Adjudication; income exclusions for pension purposes 7092

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1972, and specifies how they are affected.

Title 3—The President

PROCLAMATION 4121

National Defense Transportation Day and National Transportation Week, 1972

By the President of the United States of America

A Proclamation

"How is it that we can send men to the moon, yet we cannot manage our problems of transportation here on earth?" That is a question we often hear as each year it seems that less time is needed to fly around the world, and more time to drive to work.

If we have the will, we can subdue these transportation problems. The same American technology that opened wide the door to space travel, can be harnessed both to relieve the inadequacies of our domestic transportation system and to provide for future transport needs. With careful planning and conscientious direction, our technology can develop new ways to move people and goods. Thirty years ago, the idea of sending men to the moon seemed impossibly visionary. Thirty years from now, I predict, new forms of transport will be operating which seem today as unrealizable as lunar space travel once was.

From May 27 through June 4, 1972, an exposition of advanced transportation technology, called TRANSPO '72, will be staged at Dulles Airport near Washington, D.C. I encourage all Americans to attend this display, and to experience an exciting forward look at transportation concepts, designs and systems for meeting the challenges of the twenty-first century.

In recognition of the importance of our transportation system, the Congress, by joint resolutions approved May 16, 1957, and May 14, 1962, requested the President to proclaim annually the third Friday of May each year as National Defense Transportation Day, and the week of May in which that Friday falls as National Transportation Week.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, do hereby designate Friday, May 19, 1972, as

V 37 ■ 69
APR 8 72
XUM

National Defense Transportation Day, and the week beginning May 14, 1972, as National Transportation Week. I urge the people of the United States to observe this period with appropriate ceremonies in recognition of the importance of our transportation system to our lives and national defense, and as a tribute to the men and women who make possible the movement of people and goods throughout our land and abroad.

IN WITNESS WHEREOF, I have hereunto set my hand this seventh day of April, in the year of our Lord nineteen hundred seventy-two, and of the Independence of the United States of America the one hundred ninety-sixth.

[FR Doc.72-5544 Filed 4-7-72; 12:08 pm]

Rules and Regulations

Title 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 351—REDUCTION IN FORCE

Employees' Retention Standing

Part 351 is amended to provide that in reduction in force (1) employees' retention standing be determined on the basis of performance ratings of record on the date reduction-in-force notices are issued; (2) employees' bumping and retreat rights are determined on the basis of pay scales in effect on the date reduction-in-force notices are issued; (3) agencies may extend the maximum length of reduction-in-force notices up to 180 days without prior Commission approval; and (4) employees' names are removed from agency reemployment lists when they accept a nontemporary, full-time, competitive position with another agency.

Effective on publication in the FEDERAL REGISTER (4-8-72), §§ 351.504, 351.506, 351.703, 351.801, and 351.1001 (a) are revised as set out below.

§ 351.504 Performance rating.

(a) Each employee's performance rating of record on the date of issuance of specific reduction-in-force notices shall determine his entitlement to additional service credit as provided in this section.

(b) Each agency shall credit each employee who has an outstanding performance rating with 4 years of service added to his creditable service.

(c) Each agency shall credit each employee who has a performance rating between satisfactory and outstanding, which has been authorized under a performance rating plan approved by the Commission, with 2 years of service added to his creditable service.

§ 351.506 Effective date of retention standing.

Except for determining additional service credit for performance ratings as provided in § 351.504:

(a) The retention standing of each employee released from his competitive level in the order prescribed in § 351.602 is determined as of the date he is so released.

(b) The retention standing of each employee temporarily retained in his competitive level under § 351.608 is determined as of the date he would have been released from his competitive level had temporary retention action under § 351.608 not been taken. The retention standing of each employee so retained remains fixed until the completion of the reduction-in-force action which resulted in the temporary retention.

(c) When an agency discovers an error in the determination of an employee's retention standing, it shall correct the error and adjust any erroneous reduction-in-force action to accord with the employee's true retention standing as of the effective date established by this section.

§ 351.703 Assignment involving displacement.

(a) An agency shall assign under § 351.603 a group I or II employee in a position in the competitive service, rather than furlough or separate him, to a position in the competitive service in another competitive level in his competitive area which requires no reduction, or the least possible reduction, in representative rate when a position in the other competitive level is held by an employee:

(1) In a lower subgroup; or

(2) With lower retention standing in a position from which the group I or II employee was promoted or an essentially identical position.

(b) Each employee's assignment rights shall be determined on the basis of the pay rates in effect on the date of issuance of specific notices of reduction in force, except that when it is officially known on the date of issuance of notices that new pay rates have been approved and will become effective by the effective date of the reduction in force, assignment rights shall be determined on the basis of the new pay rates.

§ 351.801 Notice period.

(a) Each competing employee selected for release from his competitive level under this part is entitled to a written notice at least 30 full days before the effective date of his release.

(b) The notice shall not be issued more than 90 days before release except when the agency determines that additional time will protect employee rights or avoid administrative hardship.

(c) Except as required by this part or as permitted by paragraph (d) of this section, the notice period may not exceed 180 days without the prior approval of the Commission.

(d) When an agency retains an employee under section 351.606 or § 351.608 it may give him a longer notice period than that provided in paragraph (c) of this section, but it may not continue the notice period beyond the employee's retention period. The notice to the employee shall cite the date on which the retention period ends as the effective date of the employee's release from his competitive level.

§ 351.1001 Establishment of list.

(a) Each agency shall establish and maintain a reemployment priority list for each commuting area in which it separates group I or II employees from competitive positions under this part. The agency shall enter the name of each of these employees on the list for all competitive positions in the commuting area for which he qualifies and is available, except as provided in paragraph (b) of this section. A group I employee's name remains on the list for 2 years, and a group II employee's name for 1 year, from the date he was separated. The agency shall delete an employee's name from the list when he accepts a nontemporary, full-time, competitive position. The agency may delete an employee's name from the list on his written request or when he declines a nontemporary, full-time, competitive position with a representative rate the same as or higher than that of the position he was separated from under this part.

Title 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service [1] (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Navel Orange Reg. 262, Amdt. 1]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

[1] Formerly Consumer and Marketing Service. Name changed to Agricultural Marketing Service effective April 2, 1972, 37 F.R. 6327.

V 37-69 APR 8 72 XUM

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restrictions on the handling of Navel oranges grown in Arizona and designated part of California.

(b) *Order, as amended.* These provisions in paragraph (b)(1)(i) and (ii) of § 907.562 (Navel Orange Regulation 262; 37 F.R. 6477) during the period March 31, 1972, through April 6, 1972, are hereby fixed as follows:

§ 907.562 Navel Orange Regulation 262.

* * * * *

(b) *Order.* (1) * * *

(i) District 1: 996,000 cartons;

(ii) District 2: 204,000 cartons.

* * * * *

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: April 5, 1972.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.72-5430 Filed 4-7-72;8:48 am]

[Lemon Reg. 528]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

§ 910.828 Lemon Regulation 528.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910; 36 F.R. 9061), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement, and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on April 4, 1972.

(b) *Order.* (1) The quantity of lemons grown in California and Arizona which may be handled during the period April 9, 1972, through April 15, 1972, is hereby fixed at 225,000 cartons.

(2) As used in this section, "handled," and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: April 6, 1972.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.72-5478 Filed 4-7-72; 8:50 am]

[Orange Reg. 3]

PART 914—ORANGES GROWN IN THE INTERIOR DISTRICT IN FLORIDA

Limitation of Handling

§ 914.303 Orange Regulation 3.

(a) *Findings.* (1) Pursuant to the marketing agreement and Order No. 914 (7 CFR Part 914), regulating the handling of oranges grown in the Interior District in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendation and information submitted by the Interior Orange Marketing Committee, established under the said marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for the regulation stems from the current market situation which reflects a continued weakness in prices for Florida Interior oranges, and a strong threat that shipments during next week, in the absence of regulations, would be in excess of the market demand. Such excess shipments would most likely further depress prices for Florida Interior oranges, which at the end of March 1972, were only 74 percent of parity. The need for the regulation is also based on the prospective marketing conditions. The present market is slow and there are no indications of an improvement in the demand. Thus, a regulation is needed to prevent excessive shipments during the week of April 10 through April 16, 1972.

(3) There is not sufficient time to give preliminary notice and engage in public rule-making procedure because: (i) Volume shipments of Florida Interior District oranges are currently regulated pursuant to Orange Regulation 2 (37 F.R. 6661) and determinations as to the need for, and extent of, continued regulation of volume shipments of such oranges must await the availability of information on the demand for such fruit, (ii) information on the current and prospective market conditions during the period April 10 through April 16, 1972, could not be fully evaluated before April 4, 1972, and (iii) shipments likely to be made in the absence of regulations, and the amount of oranges needed to satisfy the market demand for the period April 10 through April 16, 1972, could not be anticipated at an earlier date.

(4) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this regulation until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Interior oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Interior oranges; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on April 4, 1972.

(b) *Order.* (1) The quantity of oranges grown in the Interior District which may be handled during the period April 10 through April 16, 1972, is hereby fixed at 200,000 standard packed boxes.

(2) As used in this section, "handled," "Interior District," "oranges," and "standard packed box" have the same meaning as when used in said marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: April 5, 1972.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.72-5479 Filed 4-7-72;8:50 am]

Title 13—BUSINESS CREDIT AND ASSISTANCE

Chapter I—Small Business Administration

[Rev. 11, Amdt. 3]

PART 121—SMALL BUSINESS SIZE STANDARDS

Definition of Small Business for Purpose of Surety Bond Guarantee Assistance

On December 9, 1971, there was published in the FEDERAL REGISTER (36 F.R. 23401) a notice that the Small Business Administration proposed to revise Part 121 of Chapter I of Title 13 of the Code of Federal Regulations by adding a definition of small business for the purpose of surety bond guarantee assistance. The public was given 30 days to comment on the proposal. Having carefully considered all aspects of the proposal and comment thereon, it has been decided to adopt the proposal.

Accordingly Part 121 of Chapter I of Title 13 of the Code of Federal Regulations is hereby amended by:

1. Revising the index to Part 121 by retitling § 121.3–14 as *Definition of small business for the purpose of surety bond guarantee*, and adding § 121.3–15, *Interpretations*.

§ 121.3–15 [Renumbered]

2. Renumbering § 121.3–14 as § 121.3–15, and

3. Inserting new § 121.3–14 to read as follows:

§ 121.3–14 Definition of small business for the purpose of surety bond guarantee assistance.

A small business concern for the purpose of surety bond guarantee assistance is a concern that qualifies as a small business under § 121.3–10, with the following exception:

(a) *Construction.* Any construction concern is small if its annual receipts for its preceding fiscal year or its average annual receipts for its preceding 3 fiscal years, do not exceed $750,000.

Effective date. This amendment shall become effective as of February 8, 1972.

Dated: March 29, 1972.

THOMAS S. KLEPPE,
Administrator.

[FR Doc.72-5377 Filed 4-7-72;8:46 am]

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Airworthiness Docket No. 71-WE-5-AD, Amdt. 39-1430]

PART 39—AIRWORTHINESS DIRECTIVES

AiResearch Engines

Amendment 39–1166 (36 F.R. 4478), AD 71–5–7, requires a repetitive visual 50-hour oil filter inspection for excessive oil contamination. Amendment 39–1166 further provides for the use of a magnetic chip detector as a means of extending the intervals for the accomplishment of the oil filter inspections. In addition, a revision to the Airplane Flight Manuals is required to advise that pilot to shut down the engine if torque fluctuation or loss of torque pressure occurs on AiResearch Model TPE331–1, –2, –25, –29, –43, –45, –47, –49, –51, –55, –57, –61, and –71 series engines.

After issuing Amendment 39–1166, due to additional service experience, the agency determined that the use of the engine chip detector was applicable only to the TPE331–1 and –2. Therefore, amendment 39–1180 (36 F.R. 5673) was issued to restrict the use of the chip detector inspection to the TPE331–1 and –2 only.

The manufacturer subsequently developed an improved high speed pinion bearing and thrust washer and the agency determined that incorporation of this design was equivalent to the required inspection and procedures. Therefore, Amendment 39–1277 (36 F.R. 17031) was issued to provide termination of the required inspections and procedures upon accomplishment of the modification.

After issuing Amendment 39–1277, due to additional service experience, the agency has determined that the visual inspections of the engine oil filter of Amendment 39–1166 must be supplemented by a laboratory examination of the oil filter element and an engine oil sample. Further, the use of the engine chip detector authorized in Amendment 39–1180 is not a suitable means of increasing the intervals between engine oil filter inspections from 50 to 100 hours for the TPE331–1 and –2 engines. Therefore, the AD is being further amended to: (1) Eliminate the use of a magnetic chip detector as a means of extending the interval between oil filter inspections for the TPE331–1 and –2 engines; (2) require a supplementary laboratory examination of the engine oil filter element and an oil sample at 50-hour intervals; and (3) require incorporation of an improved high speed pinion bearing and thrust washer assembly at the next engine overhaul.

Accomplishment of (3), or an equivalent FAA-approved modification, will constitute terminating action for this AD.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 F.R. 13697), § 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 39–1166 (36 F.R. 4478), AD 71–5–7, as amended, is further amended as follows:

1. Amend paragraph (a) to read:

(a) Within 50 hours time in service after the effective date of this amendment to AD 71–5–7, as amended, unless already accomplished, and at intervals not to exceed 50 hours' time in service thereafter, perform a visual inspection of the engine oil filter per AiResearch Service Bulletin 628, Revision 2, dated March 23, 1972, or later FAA-approved revision, or an equivalent inspection approved by the Chief, Aircraft Engineering Division, FAA Western Region. Return a sample of engine oil and the used engine oil filter element after each inspection to AiResearch for laboratory examination in accordance with AiResearch Service Bulletin 628, Revision 2, dated March 23, 1972, or later FAA-approved revision. Use of other laboratory facilities requires the approval of the Chief, Aircraft Engineering Division, FAA Western Region. Operators must submit substantiating data to obtain this approval.

(1) If excessive oil contamination in the filter is found during the visual inspection required in (a) above, the cause must be determined and corrected before further flight.

(2) Prior to operation of the engine in excess of 50 hours' time in service since the inspection prescribed in (a) above, the owner or operator must receive written confirmation of the results from AiResearch, or another approved facility.

2. Revise paragraph (c) to read:

(c) After the effective date of this amendment to AD 71–5–7, as amended, unless previously accomplished, incorporate, at the next engine overhaul, the improved high speed pinion and thrust washer assembly per AiResearch Service Bulletin 632, Revision 1, dated March 23, 1972, or Service Bulletin 659, Revision 1, dated March 23, 1972, or later FAA-approved revision(s), or an equivalent modification approved by the Chief, Aircraft Engineering Division, FAA Western Region. Upon completion of this modification the inspections of (a) above may be discontinued, and the AFM revision required by (b), above, may be deleted.

This amendment becomes effective April 8, 1972.

Title 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

[Release No. IC-7090]

PART 270—RULES AND REGULATIONS, INVESTMENT COMPANY ACT OF 1940

PART 274—FORMS PRESCRIBED UNDER THE INVESTMENT COMPANY ACT OF 1940

Quarterly Report of Issuers of Periodic Payment Plan Certificates

On December 10, 1971, the Securities and Exchange Commission published notice (Investment Company Act Release No. 6878 (37 F.R. 289)) that it had under consideration the adoption of Rule 27d-3 and Form N-27D-2 (17 CFR 270.27d-3, 274.127d-2) under the Investment Company Act of 1940 (Act) (15 U.S.C. 80a-1 et seq.), as amended by the Investment Company Amendments Act of 1970 (1970 Act) (Public Law 91-547, 84 Stat. 1413). All interested persons were invited to comment on the proposals.

The Commission has considered all of the comments and suggestions received and has determined to adopt Rule 27d-3 and Form N-27D-2 in the form set forth below. Adoption of the Rules and Forms is made pursuant to the authority granted the Commission in sections 27(d), 27(f), 30(b), and 38(a) of the Act (15 U.S.C. 80a-27(d), 80a-27(f), 80a-29(b), 80a-37(a)).

Section 30(b) of the Act provides that the Commission may require registered investment companies to file information and documents, on a semiannual or quarterly basis, to keep reasonably current the information and documents contained in the registration statements of such companies. Section 38(a) of the Act authorizes the Commission to issue such rules as are necessary or appropriate to the exercise of the powers conferred upon the Commission in the Act, including prescribing the forms upon which information required in reports to the Commission shall be set forth.

Under section 27(d) (of the Act), periodic payment plan certificates, typically issued with a 50 percent "front-end load," must provide that the certificate holder may surrender his certificate at any time prior to the expiration of 18 months after issuance of the certificate and receive in payment thereof, in cash, the value of his account plus an amount from the underwriter for, or depositor of, the issuer equal to that part of the excess paid for sales loading which exceeds 15 percent of the gross payments made by the certificate holder.

Under section 27(f) (of the Act), a certificate holder, within 60 days after the issuance to him of his periodic payment plan certificate, must be given a written notice of his right to withdraw from the plan within 45 days of the date of mailing the notice. Any certificate holder who exercises his right of withdrawal is entitled to receive a refund of the amount equal to the value of his account plus an amount, from the underwriter or depositor, equal to the difference between the gross payments made and the net amount invested, i.e., a complete refund of all charges.

Section 27(d) and 27(f) of the Act also provide that the Commission may make rules and regulations applicable to underwriters for or depositors of registered investment companies issuing periodic payment plan certificates specifying such reserve requirements as it deems necessary or appropriate in order for such underwriters and depositors to carry out the obligations to refund charges as required by those sections. On July 2, 1971 (Investment Company Act Release No. 6600 (36 F.R. 13134)), the Securities and Exchange Commission adopted Rules 27d-1, 27d-2, and 27f-1 under the Act (17 CFR 270.27d-1, 270.27d-2, 270.27f-1) which, among other things, relate to reserve and refund requirements in connection with sales of periodic payment plan certificates.

Reserve requirements. Rule 27d-1 provides that every depositor of, or principal underwriter for, the issuer of a periodic payment plan certificate issued subject to section 27(d) or section 27(f) of the Act, or both, shall deposit and maintain funds in a segregated trust account as a reserve and as security for the purpose of assuring the refund of charges required by sections 27(d) and 27(f) (of the Act). Under the Rule, depositors or principal underwriters are required to deposit at least 45 percent of the excess sales load on each monthly payment made on periodic payment plan certificates sold subject to section 27(d) (of the Act). For all certificates for which they are liable for the refund of any sales load they are required to maintain in the segregated trust account an amount equal to not less than 35 percent of the refundable sales load. On certificates sold subject to only the 45-day refund right, an amount equal to 20 percent of the charges subject to refund must be deposited and maintained in the segregated trust account, except that on plans requiring monthly payments in excess of $100 the applicable rate is 30 percent.

When it adopted Rule 27d-1, the Commission stated that it

> • • • intends to review the reserve requirements in light of actual experience as soon as sufficient data becomes available. Such data would include numbers and frequency of payments and refunds, sales volume, aggregate indebtedness, net capital and excess net capital of principal underwriters and depositors. In order to facilitate such review the Commission may propose the filing of appropriate forms and also require the maintenance of certain records not now required to be kept.

Form N-27D-2. Form N-27D-2 is a quarterly report to be filed by registered unit investment trusts and management investment companies issuing periodic payment plan certificates. The form, as adopted, differs from the form as originally proposed principally as follows:

1. Form N-27D-2 is required to be filed only by issuers that are subject to the 18-month surrender right of section 27(d) (of the Act), rather than by all issuers of periodic payment plan certificates;

2. The first report on Form N-27D-2, for the calendar quarter ending December 31, 1971, will be due May 30, 1972, rather than March 15, 1972. The second report, for the calendar quarter ending March 31, 1972, will be due June 30, 1972, rather than April 30, 1972;

3. As originally proposed, Form N-27D-2 required certificate activity to be reported by denomination; certificates that provided for monthly payments of $100 or less were to be reported separately from certificates that provided for monthly payments of more than $100. The form now permits certificate activity data to be reported without regard to denomination if the total agreed payments on certificates that provide for monthly payments of $200 or less amount to 90 percent or more of the total agreed payments on all certificates issued during a calendar quarter. If such agreed payments amount to less than 90 percent of total agreed payments, certificate activity data must be reported by denomination, but based upon a $200 breakpoint. In order to determine whether certificate activity data can be reported without regard to denomination, information on total agreed payments according to denomination is required to be reported for certificates issued during the reporting quarter.

4. The requirement that issuers report data on certificates outstanding at the end of the reporting quarter which were subject to the 45-day withdrawal right at that time has been deleted.

Form N-27D-2 is required to be filed for each calendar quarter ending on or after December 31, 1971 by issuers of periodic payment plan certificates subject to the 18-month surrender right of section 27(d) (of the Act), if the certificates were issued during the calendar quarter or were outstanding at the beginning of the calendar quarter and were issued less than 18 months prior to the beginning of the calendar quarter.

Issuers of periodic payment plan certificates are not required to file the form if the depositor or principal underwriter has obtained an insurance company undertaking, pursuant to Rule 27d-2, to guarantee the performance of all of its obligations to refund charges pursuant to sections 27(d) and 27(f) (of the Act). However, such issuers are required to file the form if some of the certificates outstanding at the beginning of, or sold during, the calendar quarter were not covered by the guarantee.

Issuers of periodic payment plan certificates that are subject to only the 45-day withdrawal right of section 27(f) (of the Act) are not required to file Form N-27D-2; the Commission intends to propose a different form for the collection of data on the refund experience of such issuers.

General Format. Form N-27D-2 contains eight items. Item 1 provides a capsule description of the issuer and of the certificates. Items 2 through 8 provide the basic information with respect to the current status and activity of certificates issued during the reporting quarter and each of the six preceding quarters. The certificates issued during any quarter are traced for the next six quarters and would thus appear in a total of seven quarterly reports. However, the item number of certificates issued in any quarter changes from one quarterly report to another. Thus, information concerning certificates issued during the fourth calendar quarter of 1971 would be reported first in Item 2 of the December 31, 1971 report. It would appear next in Item 3 of the March 31, 1972 report and would appear in Items 4 through 8 in successive reports. Appendix A to the Instructions for Form N-27D-2 contains a schedule of the contents of Items 2 through 8 for the quarterly reports from December 31, 1971 through June 30, 1973.

Basic principles of Form N-27D-2. The form employs the following basic principles:

1. All certificates issued in a particular calendar quarter are reported separately and not combined with the certificates issued in any other quarter. Thus, in any given quarterly report, the status of certificates sold in the reporting quarter and in each preceding calendar quarter may be determined separately.

2. Certificate activity data is reported in two categories on an aggregate basis according to the denomination of the regular monthly payments required on each certificate. Certificates that provide for monthly payments, or their equivalent, of $200 or less are to be reported in one category and higher denomination certificates in another category. However, if total agreed payments on certificates that provide for monthly payments, or their equivalent, of $200 or less amount to 90 percent or more of total agreed payments on all certificates issued during a quarter, then reporting by denomination is not required for certificates issued in that quarter.

3. Certificates outstanding at the end of the reporting quarter or which were surrendered or withdrawn during the reporting quarter are reported according to the total number of monthly payments, or their equivalent, which were actually made on the certificates from the date of issue until the end of the reporting quarter, rather than according to the payments made during the reporting quarter.

4. With one exception, all information reported in Items 2 through 8 of the form is expressed in terms of the number of certificates rather than the actual dollar amounts of sales and other charges paid and refunded. Items 2 and 3a also require information on total agreed payments for certificates issued during the reporting quarter and during the third quarter of 1971.

5. Only certificates issued on or after July 1, 1971, are required to be included in the form.

Reporting dates. The first report on Form N-27D-2, for the calendar quarter ending December 31, 1971, will be due May 30, 1972. This report will contain a special report, Item 3a, providing information on certificates which were issued during the third calendar quarter of 1971 and which were surrendered or withdrawn during that quarter. Item 3a will not be included in any other quarterly report. The report for the calendar quarter ending March 31, 1971, will be due on June 30, 1972; subsequent reports for calendar quarters ending on or after June 30, 1972, are required to be filed within 30 days after the end of each calendar quarter.

After issuers and the Commission have obtained sufficient experience with the use of Form N-27D-2, the Commission intends to explore the possibility of permitting Form N-27D-2 to be filed by means of punched cards, magnetic tapes or other media suitable for direct processing by electronic data processing equipment.

NOTES The text of Form N-27D-3 is contained in Release No. IC-7090, copies of which have been filed with the Office of the Federal Register and copies of the release may be obtained from the Securities and Exchange Commission, 500 North Capitol St., Washington, D.C. 20549. However, issuers should note that the Commission expects to make available a preprinted Form N-27D-2, suitable for electronic data processing, prior to May 30, 1972. The processing of Form N-27D-2 would be greatly facilitated by use of such preprinted form. Accordingly, issuers required to file Form N-27D-2 should use the preprinted EDP version of the form and not the form attached to the release.

The Commission action is as follows:

Commission action. Parts 270 and 274 of Chapter II of Title 17 of the Code of Federal Regulations is amended by adding thereunder new §§ 270.27d-3 and 274.127d-2 respectively, to read as follows:

§ 270.27d-3 Quarterly report of issuers of periodic payment plan certificates subject to the surrender right of section 27(d) of the Act.

Form N-27D-2 (§ 274.127d-2 of this chapter) is hereby prescribed pursuant to sections 27(d), 27(f), 30(b), and 38 of the Act as the form for quarterly reports which shall be filed for each calendar quarter by registered investment companies.

§ 274.127d-2 (Form N-27D-2) For issuers of periodic payment plan certificates subject to the surrender right of section 27(d) of the Act.

(a) This form shall be filed for each calendar quarter ending on or after December 31, 1971 by issuers of periodic payment plan certificates subject to the surrender right of section 27(d) of the Act if: (1) The certificates were issued during such calendar quarter, or (2) were outstanding at the beginning of such calendar quarter and were issued on or after July 1, 1971 and less than 18 months prior to the beginning of such calendar quarter.

(b) Notwithstanding paragraph (a) of this section, issuers of periodic payment plan certificates for which an undertaking has been obtained from an insurance company pursuant to § 270.27d-2 of this chapter to guarantee the performance of all obligations to refund charges under section 27(d) and 27(f) of the Act for all certificates outstanding at the beginning of, and sold during, the calendar quarter are not required to file Form N-27D-2.

(Secs. 27(d), 27(f), 30(b), 38(a); 54 Stat. 829, 836, 841; 15 U.S.C. 80a-27(d), 80a-27(f), 80a-29(b), 80a-37(a); Public Law 91-547, 84 Stat. 1424, 1425)

The foregoing action shall become effective May 15, 1972.

By the Commission.

[SEAL] RONALD F. HUNT,
Secretary.

APRIL 10, 1972.

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER C—DRUGS

PART 135—NEW ANIMAL DRUGS

PART 135b—NEW ANIMAL DRUGS FOR IMPLANTATION OR INJECTION

Repository Corticotropin Injection

The Commissioner of Food and Drugs has evaluated a supplemental new animal drug application (8-760V) filed by Armour Pharmaceutical Co., Post Office Box 3113, Omaha, Nebr. 68103, providing for the safe and effective use of repository corticotropin injection for the treatment of ACTH deficiencies in cattle and small animals and as a therapeutic agent for primary bovine ketosis. The supplemental application is approved.

To facilitate referencing, Armour Pharmaceutical Co. is being assigned a code number and placed in the list of firms in § 135.501 (21 CFR 135.501).

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), Parts 135 and 135b are amended as follows:

1. Section 135.501 is amended in paragraph (c) by adding a new code number 075 as follows:

§ 135.501 Names, addresses, and code numbers of sponsors of approved applications.

• • • • • •

(c) • • •

V 37-69
APR 8 72
XUM

Code No.	Firm name and address
• • •	• • •
075 ----------	Armour Pharmaceutical Co., Post Office Box 3113, Omaha, Nebr. 68103.

2. Part 135b is amended by adding the following new section:

§ 135b.30 Repository corticotropin injection.

(a) *Specifications.* The drug conforms to repository corticotropin injection U.S.P. It contains 40 or 80 U.S.P. (I.U.) units per cubic centimeter.

(b) *Sponsor.* See code No. 075 in § 135.501(c) of this chapter.

(c) *Special considerations.* The drug should be refrigerated. With prolonged use supplement daily diet with potassium chloride at one gram for small animals and from 5 to 10 grams for large animals.

(d) *Conditions of use.* (1) It is used as an intramuscular or subcutaneous injection in cattle and small animals for stimulation of the adrenal cortex where there is a general deficiency of ACTH. It is also a therapeutic agent for primary bovine ketosis.

(2) It is administered to cattle initially at 200 to 600 units followed by a dose daily or every other day of 200 to 300 units and to small animals at one unit per pound of body weight to be repeated as indicated.

(3) For use only by or on the order of a licensed veterinarian.

Effective date. This order shall be effective upon publication in the FEDERAL REGISTER (4–8–72).

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i))

Dated: March 30, 1972.

C. D. VAN HOUWELING,
Director,
Bureau of Veterinary Medicine.

[FR Doc.72–5400 Filed 4–7–72;8:47 am]

PART 135b—NEW ANIMAL DRUGS FOR IMPLANTATION OR INJECTION

Sulfadimethoxine

The Commissioner of Food and Drugs has evaluated a supplemental new animal drug application (13–527V) filed by Affiliated Laboratories Division, Whitmoyer Laboratories, Inc., Myerstown, Pa. 17067 proposing the safe and effective use of sulfadimethoxine injection for the treatment of dogs and cats. The supplemental application is approved. In addition, the applicable regulations are revised to incorporate editorial changes.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), Part 135b is amended:

In § 135b.15 by revising paragraph (a) and by redesignating it as paragraph (a)(1), by redesignating paragraph (b) as paragraph (a)(2), by revising paragraph (c) and by redesignating it as paragraph (a)(3), by revising paragraph (c)(1) and (2) and redesignating it as paragraph (a)(3)(i) and (ii), by redesignating paragraph (c)(3) as paragraph (a)(3)(iii), and by adding a new paragraph (b) as follows:

§ 135b.15 Sulfadimethoxine injection.

(a)(1) *Specifications.* Sulfadimethoxine injection containing 400 milligrams per milliliter.

• • • • • • •

(3) *Conditions of use.* (i) It is intended for use in dogs and cats for the treatment of respiratory, genitourinary tract, enteric, and soft tissue infections when caused by Streptococci, Staphylococci, Escherichia, Salmonella, Klebsiella, Proteus, or Shigella organisms sensitive to sulfadimethoxine, and in the treatment of canine bacterial enteritis associated with coccidiosis and canine Salmonellosis.

(ii) It is administered by intravenous or subcutaneous injection at an initial dose of 55 milligrams per kilogram of body weight followed by 27.5 milligrams per kilogram of body weight every 24 hours.

• • • • • •

(b)(1) *Specifications.* Sulfadimethoxine injection containing 100 milligrams per milliliter.

(2) *Sponsor.* See code No. 069 in § 135.501(c) of this chapter.

(3) *Conditions of use.* (i) It is used or intended for use in the treatment of sulfadimethoxine-susceptible bacterial infections in cats and dogs.

(ii) It is administered by intravenous or intramuscular injection at an initial dose of 25 milligrams per pound of body weight followed by 12.5 milligrams per pound of body weight daily thereafter for 3 to 5 days.

(iii) For use by or on the order of a licensed veterinarian.

Effective date. This order shall be effective upon publication in the FEDERAL REGISTER (4–8–72).

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i))

Dated: March 30, 1972.

C. D. VAN HOUWELING,
Director,
Bureau of Veterinary Medicine.

[FR Doc.72–5401 Filed 4–7–72;8:47 am]

PART 135b—NEW ANIMAL DRUGS FOR IMPLANTATION OR INJECTION

Iron Dextran Complex Injection

The Commissioner of Food and Drugs has evaluated a supplemental new animal drug application (10–865V) filed by Fort Dodge Laboratories, Fort Dodge, Iowa 50501, proposing revised labeling regarding the safe and effective uses of iron dextran complex injection in baby pigs. The supplemental application is approved.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), § 135b.38 is amended by revising paragraph (b) and by adding two new subparagraphs to paragraph (c) as follows:

§ 135b.38 Iron dextran complex injection.

• • • • • •

(b) *Sponsor.* (1) See code No. 054 in § 135.501(c) of this chapter for the sponsor of the usages provided by paragraph (c) (1) and (2) of this section.

(2) See code No. 017 in § 135.501(c) of this chapter for the sponsor of usages provided by paragraph (c) (3) and (4) of this section.

(c) • • •

(3) For the prevention of anemia due to iron deficiency, administer an initial intramuscular injection of 100 milligrams of elemental iron to each animal at 2 to 4 days of age. Dosage may be repeated in 14 to 21 days.

(4) For the treatment of anemia due to iron deficiency, administer an intramuscular injection of 200 milligrams of elemental iron.

Effective date. This order shall be effective upon publication in the FEDERAL REGISTER (4–8–72).

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i))

Dated: March 30, 1972.

C. D. VAN HOUWELING,
Director,
Bureau of Veterinary Medicine.

[FR Doc.72–5399 Filed 4–7–72;8:46 am]

[DESI 50359]

PART 148i—NEOMYCIN SULFATE

Certain Preparations for Ophthalmic Use Containing Antibiotics and Corticosteroids; Revocation

In a notice [DESI 50359] published in the FEDERAL REGISTER of March 9, 1971 (36 F.R. 4559), the Commissioner of Food and Drugs announced his conclusions following evaluation of reports received from the National Academy of Sciences—National Research Council, Drug Efficacy Study Group, on the following drugs:

1. Predmycin Ophthalmic Solution, containing neomycin sulfate, prednisolone, and phenylephrine hydrochloride; Allergan Pharmaceuticals, 1000 South Grand Avenue, Santa Ana, Calif. 92705 (NDA 50–359).

2. Prednicidin Ophthalmic Suspension, containing neomycin sulfate, gramicidin, prednisolone acetate, and phenylephrine hydrochloride; Tilden-Yates Laboratories, Inc., Fairfield Road, Wayne, N.J. 07470 (NDA 60–637).

The notice stated that these drugs were regarded as possibly effective for their labeled indications. The indication have been reclassified as lacking substantial evidence of effectiveness in that such evidence has not been submitted pursuant to the notice of March 9, 1971.

Accordingly, the Commissioner concludes that the antibiotic drug regulations should be amended to delete provisions for certification or release of such drugs.

Therefore, pursuant to provisions of the Federal Food, Drug and Cosmetic Act (secs. 502, 507, 52 Stat. 1050–51, as amended, 59 Stat. 463, as amended; 21 U.S.C. 352, 357) and under authority delegated to the Commissioner (21 CFR 2.120), § 148i.9 is amended in paragraph (a)(1) by deleting subdivision (iii) and redesignating subdivision (iv) as (iii) and subdivision (v) as (iv), to read as follows:

§ 148i.9 Neomycin sulfate ---------- ophthalmic suspension; neomycin sulfate ---------- opthalmic solution (the blanks being filled in with the established name(s) of the other active ingredient(s) present in accordance with paragraph (a)(1) of this section).

(a) *Requirements for certification—*(1) *Standards for identity, strength, quality, and purity.* The drug is a suspension or a solution containing, in each milliliter, 3.5 milligrams of neomycin and the following other active ingredients in a suitable and harmless vehicle:

(i) 15 milligrams of cortisone acetate; or

(ii) 5 milligrams or 25 milligrams of hydrocortisone acetate; or

(iii) 1 milligram or 2 milligrams of prednisolone; or

(iv) 1 milligram of sodium dexamethasone phosphate.

It may also contain one or more suitable and harmless buffers, dispersants, and preservatives. It is sterile. Its pH is not less than 6.0 and not more than 8.0. The neomycin sulfate used conforms to the standards prescribed by § 148i.1(a)(1)(i), (iv), (vi), and (vii). Each other substance used, if its name is recognized in the U.S.P. or N.F., conforms to the standards prescribed therefor by such official compendium.

• • • • • •

Any person who will be adversely affected by the removal of any such drug from the market may file objections to this order and request a hearing, showing reasonable grounds for the hearing. The statement of reasonable grounds and request for a hearing shall be submitted in writing within 30 days after publication hereof in the FEDERAL REGISTER, shall state the reasons why the antibiotic drug regulations should not be so amended and shall include a well organized and full factual analysis of the clinical and other investigational data the objector is prepared to prove in support of his objections.

A request for a hearing may not rest upon mere allegations or denials, but must set forth specific facts showing that a genuine and substantial issue of fact requires a hearing. When it clearly appears from the data incorporated into or referred to by the objections and from the factual analysis in the request for a hearing that no genuine issue of fact precludes the action taken by this order, the Commissioner will enter an order stating his findings and conclusions on such data.

If a hearing is requested and justified by the objections, the issues will be defined and a hearing examiner named to conduct the hearing. The provisions of Subpart F of 21 CFR Part 2 shall apply to such hearing, except as modified by 21 CFR 146.1(f), and to judicial review in accord with section 701(f) and (g) of the Federal Food, Drug, and Cosmetic Act (35 F.R. 7250, May 8, 1970).

Objections and requests for a hearing should be filed (preferably in quintuplicate) with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6–88, 5600 Fishers Lane, Rockville, Md. 20852. Received objections and requests for a hearing may be seen in the above office during regular business hours, Monday through Friday.

Effective date. This order shall become effective 40 days after its date of publication in the FEDERAL REGISTER. If objections are filed, the effective date will be extended for ruling thereon. In so ruling, the Commissioner will specify another effective date.

(Secs. 502, 507, 52 Stat. 1050–51 as amended, 59 Stat. 463 as amended; 21 U.S.C. 352, 357)

Dated: March 28, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

Title 25—INDIANS

Chapter I—Bureau of Indian Affairs, Department of the Interior

SUBCHAPTER C—PROBATE

PART 16—ESTATES OF INDIANS OF THE FIVE CIVILIZED TRIBES

The authority to issue regulations is vested in the Secretary of the Interior by sections 463 and 465 of the Revised Statutes (5 U.S.C. 301; 25 U.S.C. 2 and 9).

Beginning on page 536 of the FEDERAL REGISTER of January 13, 1972 (37 F.R. 536), there was published a notice of proposed rule making to revise Part 16 of Title 25 of the Code of Federal Regulations relating to the performance by State courts of functions affecting estates of Indians of the Five Civilized Tribes. The regulations were proposed pursuant to the Act of August 4, 1947 (61 Stat. 731) and 5 U.S.C. 301.

Interested persons were given 30 days in which to submit written comments, suggestions, or objections regarding the proposed regulations.

No objections have been received and the proposed regulations are hereby adopted without change and are set forth below.

The revised Part 16 shall become effective 30 days after the date of publication in the FEDERAL REGISTER.

HARRISON LOESCH,
Assistant Secretary of the Interior.

MARCH 27, 1972.

Sec.
16.1 Definitions.
16.2 Scope of regulations.
16.3 Legal representation in State courts.
16.4 Exchange of information within the Department.
16.5 Acceptance and acknowledgement of service of process.
16.6 Authority of attorneys in State court litigation.
16.7 Performance of Federal functions by successor State courts.
16.8 Summary distribution of small liquid estates.
16.9 Escheat of estates of decedents.

AUTHORITY: The provisions of this Part 16 issued under 5 U.S.C. 301. (Interprets or applies Act of Apr. 26, 1906, ch. 1876, 34 Stat. 137, see 25 U.S.C. 355nt (1970); Act of May 27, 1908, ch. 199, 35 Stat. 312, see 25 U.S.C. 355nt (1970); Act of June 14, 1918, ch. 101, 40 Stat. 606, 25 U.S.C. 355, 375 (1970); Act of Apr. 12, 1926, ch. 115, 44 Stat. 239, see 25 U.S.C. 355nt (1970); Act of June 26, 1936, ch. 831, 49 Stat. 1967, 25 U.S.C. 501–509 (1970); Act of Aug. 4, 1947, ch. 458, 61 Stat. 731, 25 U.S.C. 502 (1970) and see 25 U.S.C. 355nt (1970); Act of Aug. 12, 1953, ch. 409, 67 Stat. 558, 25 U.S.C. 375c (1970) and see 25 U.S.C. 355nt (1970); Act of Aug. 11, 1955, ch. 786, 69 Stat. 666, see 25 U.S.C. 355nt (1970); Act of Aug. 29, 1967, Public Law No. 90–76, 81 Stat. 177, 25 U.S.C. 786–788 (1970); and Act of May 7, 1970, Public Law No. 91–240, 84 Stat. 203, 25 U.S.C. 375d (1970)).

§ 16.1 Definitions.

(a) The term "Secretary" means the Secretary of the Interior and his authorized representatives.

(b) The term "Bureau" means the Bureau of Indian Affairs, acting through the Commissioner of Indian Affairs and his authorized representatives, including field officials who are responsible for matters affecting properties in which a restricted interest is owned by an Indian of the Five Civilized Tribes.

(c) The term "Field Solicitor" means the supervising attorney in charge of the field office of the Solicitor in Muskogee, Okla.

(d) The term "Indian of the Five Civilized Tribes" means an individual who is either an enrolled member of the Cherokee, Chickasaw, Choctaw, Creek, or Seminole Tribes of Oklahoma, or a descendant of an enrolled member thereof.

(e) The term "restricted interest" means an interest owned in real or personal property subject to restraints upon alienation imposed either by Federal statute or by administrative action authorized by Federal statute. Although this term includes property subject to restraints which may be removed by administrative action, its use in this part refers primarily to property subject to restraints which State courts have jurisdiction to remove in proceedings such as those specified in § 16.2.

§ 16.2 Scope of regulations.

The regulations in this part set forth procedures for discharging the responsibilities of the Secretary in connection with the performance by State courts, as authorized by Federal statutes, of certain functions which affect properties in which a restricted interest is owned by an Indian of the Five Civilized Tribes. These State court functions pertain to such proceedings as guardianship, heirship determination, will probate, estate administration, conveyance approval, partition of real property, confirmation of title to real property, and appeal from action removing or failing to remove restrictions against alienation. In addition, the regulations in this part set forth procedures for discharging certain other responsibilities of the Secretary not necessarily involving State court functions, such as escheat of estates of deceased Indians of the Five Civilized Tribes.

§ 16.3 Legal representation in State courts.

The statutory duties of the Secretary to furnish legal advice to any Indian of the Five Civilized Tribes, and to represent such Indian in State courts, in matters affecting a restricted interest owned by such Indian, shall be performed by attorneys on the staff of the Solicitor, under the supervision of the Field Solicitor. Such advice and representation shall be undertaken to the extent that the Field Solicitor in his discretion shall consider necessary to discharge said duties, with due regard to the complexity of the legal action contemplated, the availability of staff attorneys for such purposes, the value and extent of the restricted interests involved, possible conflicts between Indians claiming to be owners of such interests, the preference of such owners concerning legal representation, the financial resources available to such owners, the extent to which such owners require similar legal services in connection with their unrestricted properties, and any other factor appropriate for consideration.

§ 16.4 Exchange of information within the Department.

To the extent that information may be useful in discharging the duties covered by the regulations in this part, the Bureau shall furnish to the Field Solicitor, either on a current basis or at periodic intervals, processess and notices received concerning court cases and information, as current and complete as may reasonably be obtainable, concerning the estate and status of an Indian of the Five Civilized Tribes for whom legal assistance should be rendered pursuant to the regulations in this part. Similarly, to the extent that such information may be useful for Bureau action or records, the Field Solicitor shall advise the Bureau of court proceedings, information received, and action taken in furnishing legal services pursuant to the regulations in this part.

§ 16.5 Acceptance and acknowledgment of service of process.

Service by the Field Solicitor or any other person of any process or notice, pursuant to any Federal statute which by its express terms is applicable to Indians of the Five Civilized Tribes, may be accepted and acknowledged by the Field Solicitor, or by any attorney authorized to perform the duties specified in § 16.3, on behalf of the Secretary and the Bureau, notwithstanding any specific designation in such statute of the official to be served (such as the Secretary, superintendent for the Five Civilized Tribes, Probate Attorney, etc.).

§ 16.6 Authority of attorneys in State court litigation.

Attorneys authorized to perform the duties specified in § 16.3 appearing in State court litigation in their official capacities are authorized to take such action as the Secretary could take if he were personally appearing in his official capacity as counsel therein, including but not limited to the filing or decision against filing of initial, responsive, or supplemental pleadings and appeals from adverse judgments, the exercise or decision against exercise of a preferential right to purchase property subject to sale, the removal or decision against removal of actions to Federal courts, and the waiver or decision against waiver of the failure to make timely service of process or notice.

§ 16.7 Performance of Federal functions by successor State courts.

All authority to perform functions relating to Indians of the Five Civilized Tribes which by express provisions of Federal statute had been conferred upon probate or county courts of Oklahoma before such county courts were abolished on January 12, 1969, has since that date been vested in the successor district courts of that State, and all rights of litigants continue undiminished in the successor forum, including the right to appeal from adverse decisions rendered therein to the successor appellate court.

(Interprets or applies Okla. Op. Atty. Gen. No. 68-381 (Dec. 20, 1968))

§ 16.8 Summary distribution of small liquid estates.

Where information, furnished by the Bureau pursuant to § 16.4 or otherwise obtained, reveals that the estate of a deceased Indian of the Five Civilized Tribes contains no restricted land but consists of a restricted interest in funds not exceeding $500 on deposit to the credit of the decedent, the Field Solicitor shall, in the absence of any final decree determining the heirs or legatees of the decedent, prepare and furnish to the Bureau a finding and order of distribution, based on affidavit or other proof of death and heirship or bequest, setting forth the facts of death and heirship or bequest and the amount payable from the estate to each person determined to be an heir or legatee of the decedent. The Field Solicitor shall mail to each person considered a possible claimant to any portion of the estate, as an heir or legatee or otherwise, a copy of the order with a notice that the order shall become final 30 days after the date of mailing thereof unless within that period the officer by whom the order was signed shall have received a written request for reconsideration of the order. After final action on any order has been taken by the Field Solicitor, the Bureau shall distribute the funds in the estate of the decedent in accordance with such final action, unless a timely appeal therefrom has been filed in accordance with Part 2 of this title.

§ 16.9 Escheat of estates of decedents.

Where information, furnished by the Bureau pursuant to § 16.4 or otherwise obtained, reveals that the estate of a deceased Indian of the Five Civilized Tribes, who has been dead 5 or more years after having died intestate without heirs, consists of restricted interests in lands or rents or profits therefrom, the Field Solicitor shall, in the absence of any final decree determining that the decedent died without heirs or devisees, prepare and furnish to the Bureau a finding and order of escheat, based on affidavit or other proof of intestate death without heirs, setting forth the restricted interests in lands or rents or profits therefrom which have by escheat vested in the tribe which allotted the lands. The Field Solicitor shall mail to each person considered a possible claimant to any portion of the estate, as an heir or devisee or otherwise, a copy of the order with a notice that the order shall become final 30 days after the date of mailing thereof unless within that period the officer by whom the order was signed shall have received a written request for reconsideration of the order. After final action on any order has been taken by the Field Solicitor, the Bureau shall cause a certified copy thereof to be filed in the land records of each county within which are located any escheated lands described therein and shall cause the tribe to be credited with any funds in said estate which arose from rents or profits from such lands, unless a timely appeal therefrom has been filed in accordance with Part 2 of this title.

Title 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 19246]

PART 76—CABLE TELEVISION SERVICE

Nondiscrimination in Employment Practices; Correction

In the matter of amendment of the Commission's rules to require operators of community antenna television systems and community antenna relay station licensees to show nondiscrimination in their employment practices.

The report and order in the above-entitled matter, FCC 72-275, released March 29, 1972, is corrected in the following respects:

(a) The second sentence of paragraph 16 of the report and order is corrected to read as follows: "Also, proposed § 74.1105 (e) has been amended (and is renumbered § 76.13(a)(8)) to permit omission of an EEO program statement from a new-system application for certificate of compliance, if the proposed operator (1) believes that there will not be 5 full-time employees at any time during the first 3 months of the year following commencement of operation of the cable system, and (2) submits a statement justifying that conclusion."

(b) In Appendix A of the report and order—

(1) Section 76.311(c)(1)(i)(c)(*1*) is corrected to read as follows: "Where, pursuant to paragraph (b)(3), a program is jointly established by two or more cable systems with an aggregate total of 5 or more full-time employees, a multiple cable operator shall file a combined statement."

(2) The first sentence of new § 76.311 (d)(1) is corrected to read as follows: "All operators of cable television systems shall submit an annual report to the Commission no later than May 31 of each year indicating whether any complaints regarding violations by the operator of equal employment provisions of Federal, State, Territorial, or local law have been filed during the preceding calendar year before any body having competent jurisdiction."

Released: April 4, 1972.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

Title 32—NATIONAL DEFENSE

Chapter V—Department of the Army

SUBCHAPTER G—PROCUREMENT

MISCELLANEOUS AMENDMENTS TO SUBCHAPTER

Title 32, Chapter V, Subchapter G, is amended as follows:

PART 591—GENERAL PROVISIONS

1. In § 591.150 (a), (b)(2), (4), (5), (6), and (7) are amended, in paragraph (c) of this section the subparagraphs are revised, and paragraphs (e) and (f) are amended; §§ 591.307(b) and 591.350–5 (c) are amended; § 591.350–7(k) is added; §§ 591.401–50(a)(1), 591.401–51, 591.403–52(e)(1), 591.405(a)(3) and (e) are amended; § 591.452–1(b)(3) is revised; §§ 591.452–4(b), 591.1050–1 (b) and (c), 591.1050–2(a), 591.5003, 591.5005, and 591.5006 (b) and (c) are amended; in the appendix to § 591.5102 the Delegations of Authority, Ref. No. SAOSA–71–1 dated May 28, 1971 and SAOSA–71–7 dated May 8, 1971, are superseded without prejudice to any actions taken pursuant thereto, and new Delegations of Authority are inserted in lieu thereof, as follows:

§ 591.150 Procurement channels and mailing addresses.

(a) Unless otherwise specifically prescribed in ASPR or APP, submittals to higher authority of recommendations, reports, findings, data, information, and other documents relating to procurement matters shall be through procurement channels as indicated in paragraph (f) of this section.

(b) • • •

(2) Assistant Secretary of the Army (Installations and Logistics) (Assistant Judge Advocate General for Civil Law) Attn: DAJA–ZC, Department of the Army, Washington, D.C. 20310.

• • • • • •

(4) Chief Trial Attorney, Office of The Judge Advocate General. Address: HQDA (DAJA–CA).

(5) Comptroller of the Army, Attention: Chief, Contract Financing Office. Address: HQDA (DACA–FIS–C).

(6) Deputy for Materiel Acquisition, Office of the Assistant Secretary of the Army (Installations and Logistics), Department of the Army, Washington, D.C. 20310.

(7) Chief of Engineers, Forrestal Building. Address: HQDA (DAEN).

• • • • • •

(c) • • •

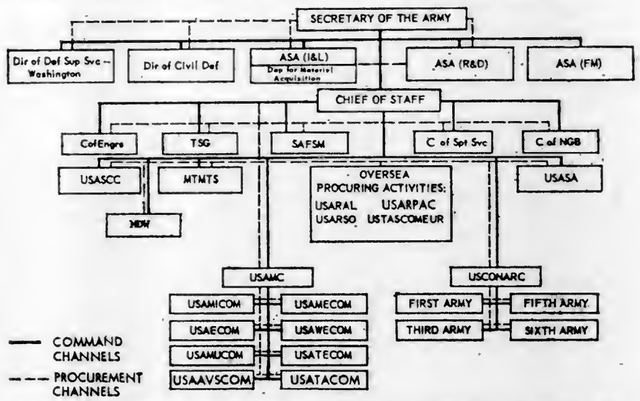
(1) Requests for deviation from provisions of ASPR or APP,

(2) Requests for approval of awards or determinations and findings,

(3) Requests for changes to provisions of ASPR or APP,

(4) Mistakes in bids and protest cases,

(5) GAO and other type investigative reports,



(6) Actions under Public Law 85–804, and

(7) Other significant actions and matters relating to procurement policy.

• • • • • •

(e) When regulations require submission of documents listed in paragraph (c) of this section to a Head of Procuring Activity or higher authority, the commander, his deputy, or the staff officer responsible for procurement shall sign the correspondence at each echelon through which processed.

(f) Flow of procurement authority:

§ 591.307 Priorities, allocations, and allotments.

• • • • • •

(b) Since the use of priorities and allocations is limited to procurements placed with U.S. suppliers, the Deputy Chief of Staff for Logistics has not redelegated his authorities to oversea commanders. Should an oversea commander be authorized to place a procurement directly with a U.S. supplier and a priority rating be required to obtain timely delivery, a request for a priority rating shall be submitted to HQDA (DALO–MAE–I) containing the following information—

• • • • • •

§ 591.350–5 Extensions beyond fourth.

• • • • • •

(c) The Deputy for Materiel Acquisition, Office of the Assistant Secretary of the Army (Installations and Logistics) for all other procuring activities.

§ 591.350–7 Exceptions.

• • • • • •

(k) Contracts providing for the Civilian Health and Medical Program of the Uniformed Services (CHAMPUS).

§ 591.401–50 Exercise of functions of Head of Procuring Activity.

(a) • • •

(3) The Deputy or Assistant Deputy for Materiel Acquisition, Office of the Assistant Secretary of the Army (Installations and Logistics);

• • • • • •

(e) Organizational charts of each Army purchasing office are maintained on file in the office of the Deputy for Materiel Acquisition, Office of the Assistant Secretary of the Army (Installations and Logistics). Accordingly, whenever the organization of an Army purchasing office is changed, one copy of the revised organizational chart shall be forwarded the addressee in § 591.150(b)(6) (see § 591.150(d)).

§ 591.452–1 Policy.

• • • • • •

(b) • • •

(3) The functions of an ordering officer are an added duty of the individual

selected for appointment, not the primary or major portion of his duties; and the individual has the time available to perform the ordering officer functions without assistance from others and without redelegating his authority to others; and

• • • • • •

§ 591.452–4 Surveillance.

• • • • • •

(b) At least twice each year activities of ordering officers shall be physically inspected or reviewed through examination of his purchase documents and records by the appointing authority or his designee, an individual well qualified in procurement procedures used by ordering officers.

• • • • • •

§ 591.1050–1 Proposed contract awards of $1 million or more.

• • • • • •

(b) Contracting officers shall telephone the information in the sequence in § 591.1050–3 to the Chief Procurement Statistics Office, Data Processing Center, Office of the Deputy Chief of Staff for Logistics, HQDA (DALO–DCP), at OXford 5–3032, OXford 7–2016, or OXford 5–3058, at least twenty (20) working hours before award (based on an 8-hour day, exclusive of Saturdays, Sundays, and Federal legal holidays), except that—

• • • • • •

(c) No award shall be made before 1500 hours Washington, D.C. time without prior approval obtained through the ODCSLOG Procurement Statistics Office (see paragraph (b) of this section).

• • • • • •

§ 591.1050–2 Contracts under $1 million.

(a) Contracting officers shall furnish the information called for in § 591.1050–3 for all contracts under $1 million which are of significant local community or congressional interest or which have public relations aspect by mail or message directed to Department of the Army, Attention: SACLL, Washington, D.C. 20310, or by telephone to the Special Operations Division, SACLL, at OXford 7–4417.

• • • • • •

§ 591.5003 Determination and referral for hearing.

(a) The Deputy for Materiel Acquisition, Office of the Assistant Secretary of the Army (Installations and Logistics), shall determine whether the matter shall be referred for a hearing. When he determines that the matter shall be so referred, he shall advise the Chairman of the Armed Services Board of Contract Appeals [ASBCA] in writing of his determination and request that the case be heard by a division of the Board. The request for hearing shall contain sufficient information to permit the Board Recorder to provide due notice to the contractor.

(b) The Deputy for Materiel Acquisition shall furnish the files in the case to The Judge Advocate General, Attention: Chief, Contract Appeals Division, for use of Government counsel.

• • • • • •

§ 591.5005 Withholding of funds.

Pending determination of the Deputy for Materiel Acquisition as to referral of a case to the Board and a decision of the Board if a hearing is recommended, the contracting officer administering the contract or contracts involved shall withhold from payments otherwise due the contractor a sum equivalent to ten times the estimated costs of the gratuities alleged to have been offered or given by the contractor, his agents, or other representatives, in violation of the Gratuities clause.

§ 591.5006 Post-hearing actions.

• • • • • •

(b) The Deputy for Materiel Acquisition shall promptly furnish the contractor with a copy of the Secretarial decision. He shall also advise the cognizant Head of Procuring Activity of the Secretarial decision, who is turn shall furnish notification and instructions to the contracting officer without delay.

(c) At the conclusion of the case, the Board Recorder shall forward all files in the matter to the Office of The Judge Advocate General which shall serve as the Office of Record for cases brought for hearing under 10 U.S.C. 2207. With the approval of the Deputy for Materiel Acquisition, the Office of Record may make available to persons properly and directly concerned matters of official record pertaining to the case.

§ 591.5102 Delegations of authority.

• • • • • •

APPENDIX TO § 591.5102 DELEGATIONS OF AUTHORITY

DEPARTMENT OF THE ARMY
OFFICE OF THE ASSISTANT SECRETARY
WASHINGTON, D.C. 20310

OCTOBER 29, 1971.

Ref No.: SAOSA–71–1

DELEGATION OF AUTHORITY TO APPROVE THE PUBLICATION OF ADVERTISEMENTS, NOTICES OR PROPOSALS

1. Pursuant to title 5, United States Code, section 302(b)(2), and section IV part 8 of the Armed Services Procurement Regulation, I hereby delegate, without authority to redelegate further except as stated below, the authority to approve the publication of advertisements, notices or proposals in newspapers, subject to the limitations in 44 United States Code 3701, 3702, and 3703, to:

Heads of Procuring Activities with authority to redelgate to their Deputies, Principal Assistants Responsible for Procurement, or installation/activity commanders

The Adjutant General.
Director of Civilian Personnel, U.S. Army.
Civilian Personnel Officer, Staff Civilian Personnel Division, Office, Chief of Staff, Department of the Army.
Director of Personnel and Training, U.S. Army Materiel Command.
Chief, U.S. Army Audit Agency.
Chief, Personnel Administration, Office of the Chief of Engineers.
Commanding General, U.S. Army Recruiting Command.
Division Engineers, Corps of Engineers.
Commander, U.S. Army Safeguard System Evaluation Agency.

2. Procedures prescribed in section IV Part 8 of the Armed Services Procurement Regulation shall be used in actions taken pursuant to this delegation of authority.

3. The foregoing delegation of authority becomes effective on November 1, 1971 and, as of that date, Delegation of Authority SAOSA–71–1, May 28, 1971, subject: Delegation of Authority to Approve the Publication of Advertisements, Notices or Proposals, is superseded without prejudice to any action taken pursuant thereto.

DUDLEY C. MECUM,
Assistant Secretary of the Army,
(Installations and Logistics).

DEPARTMENT OF THE ARMY
OFFICE OF THE ASSISTANT SECRETARY
WASHINGTON, D.C. 20310

AUGUST 3, 1971.

Ref No. SAOSA–71–7

DELEGATION OF AUTHORITY TO CONTRACT FOR PUBLIC UTILITY SERVICES (POWER, GAS, WATER, AND COMMUNICATIONS) FOR PERIODS NOT EXCEEDING 10 YEARS

1. Under Department of Defense Directive 5100.32, June 23, 1971, subject: Delegation of Authority with Respect to Contracts for the Procurement of Public Utility Services, I hereby delegate (i) to the Chief of Engineers as the Department of the Army Power Procurement Officer, the authority to enter into contracts for public utility services (power, gas, and water), and (ii) to the Commanding Generals, U.S. Army Strategic Communications Command and U.S. Continental Army Command, the authority to enter into contracts for communications services, for periods extending beyond a current fiscal year but not exceeding 10 years under one or more of the following circumstances:

a. Where there are obtained lower rates, larger discounts, or more favorable conditions of service than those available under contracts the firm term of which would not extend beyond a current fiscal year.

b. Where connection or special facility charges payable under contracts the firm term of which would not extend beyond a current fiscal year are eliminated or reduced.

c. Where the utility company refuses to render the desired service except under a contract the firm term of which extends beyond a current fiscal year.

2. The authority delegated in paragraph 1 above may be redelegated (i) with respect to contracts for power, gas, and water, to the Deputy Department of the Army Power Procurement Officer, and (ii) with respect to contracts for communications services to a level no lower than chiefs of purchasing offices.

3. This authority shall be exercised strictly in accordance with the applicable provisions of the "Statement of Areas of Understanding Between the Department of Defense and General Services Administration" entitled "Procurement of Utility Services (Power, Gas, Water)," 15 Federal Register 8227 (1950), and "Procurement of Communication Services," 15 Federal Register 8226 (1950).

4. Unless distribution thereof is inadvisable for reasons of security, copies of contracts executed under the authority of this delegation and other pertinent data and information with respect thereto shall be furnished to the General Services Administration.

5. The foregoing delegation of authority supersedes, without prejudice to any action

V 37-69 APR 8 72 XUM

taken pursuant thereto, REF NO: SAOSA-71-7, 8 May 1971, subject: Delegation of Authority to Contract for Public Utility Services (Power, Gas, Water, and Communications) For Periods Not Exceeding 10 Years.

EUGENE M. BECKER,
Assistant Secretary of the Army,
(Financial Management).

PART 592—PROCUREMENT BY FORMAL ADVERTISING

2. Sections 592.406–3(b) and 592.407–8 (d)(2), (h) and (i) are amended, as follows:

§ 592.406–3 Other mistakes.

(b) Authority is delegated to the individuals named in § 2.406–3(b)(1) of this title to make determinations described in § 2.406–3(a) (2), (3), and (4) of this title. Contracting officers shall submit cases for determination by the Deputy or Assistant Deputy for Materiel Acquisition, OASA (I&L), directly the addresses in § 591.150(b)(6) of this chapter, concurrently furnishing the cognizant Head of Procuring Activity an information copy.

§ 592.407–8 Protests against award.

(d) • • •

(2) Those cases emanating in purchasing offices under the jurisdiction of the Chief of Engineers shall be forwarded to the Chief of Engineers, address: HQDA (DAEN–GCZ–M). The Chief of Engineers shall in turn forward protests directly to the Comptroller General;

(h) When a protest is filed directly with the Comptroller General, the cognizant Head of Procuring Activity shall be notified by the Deputy for Materiel Acquisition, Office of the Assistant Secretary of the Army (Installations and Logistics). The Head of Procuring Activity shall in turn notify the contracting officer concerned and the contracting officer shall promptly forward the information prescribed in paragraph (b) of this section together with any other documentation specifically requested by the Comptroller General. Cases shall be forwarded in accordance with paragraphs (d) (1), (2), or (4) of this section.

(i) Because of the sensitivity of many protests filed with the Comptroller General, no award will be made under the provisions of § 2.407–8(b)(2) of this title without prior approval of the Deputy for Materiel Acquisition, Office of the Assistant Secretary of the Army (Installations and Logistics). Furthermore, unless otherwise authorized by the Deputy for Materiel Acquisition, all informal contacts with the Comptroller General shall be made by the Office of the Assistant Secretary of the Army (Installations and Logistics). Such contacts include advising the Comptroller General in appropriate cases of the intent of the Department of the Army to make an award prior to the resolution of the protest.

PART 593—PROCUREMENT BY NEGOTIATION

3. Sections 593.207–3, 593.607–4 (b) and (c), 593.608–50 (c) and (e) and 593.1100–2 (b) and (c) are amended; as follows:

§ 593.207–3 Limitation.

Procurement shall not be made under this authority unless consistent with Subpart L, Part 5 of this title and AR 40–61.

§ 593.607–4 Procedures.

(b) COD orders shall be placed only when the price of an item has been obtained by verbal or written quotation or has been taken from the supplier's current catalog or pricelist. COD orders shall not be placed based upon "ceiling" prices.

(c) Contracting or ordering officers shall authorize imprest fund purchases made by use of Standard Forms 1165 by signing the form in the block entitled "Purpose."

§ 593.608–50 Use of DD Form 1155 for shipments to Army attaches.

(c) Shipments shall be addressed to—

U.S. Army Attaché [City—Country], HQDA (DAMI–DOC), Washington, D.C. 20310.

(e) Two copies of DD Form 1155, clearly indicating thereon the addressee to whom they are to be returned, shall be mailed by the contracting officer at the time the order is placed to—

HQDA (DAMI–DOC), Washington, D.C. 20310.

§ 593.1100–2 Review of decision to lease.

(b) Requests for approval of ADPE to be leased on a noncompetitive basis shall be forwarded to the Assistant Secretary of Defense (Comptroller) through the Office, Assistant Vice Chief of Staff, Department of the Army, address: HQDA (DACS–CM), and shall include the justification specified in § 15.205–48(d) of this title.

(c) Requests for technical ADP assistance pursuant to § 3.1100–2(c) of this title shall be directed to the Office, Assistant Vice Chief of Staff, Department of the Army, address: HQDA (DACS–CM).

PART 594—SPECIAL TYPES AND METHODS OF PROCUREMENT

4. The table of contents of this part is amended by adding a new Subpart EEE; § 594.108–50 is revised; §§ 594.5503(h)(1) and (3) and 594.5505(b) are amended; and Subpart EEE is added, as follows:

§ 594.108–50 Annual reports.

An annual report on Grants for Basic Scientific Research and Transfer of Title to Government Equipment (Public Law 85–934), Reports Control Symbol DD–I&L(A) 598, shall be prepared and submitted by Army agencies listed in AR 70–5 on DA Forms 2697–R in accordance with instructions therein.

§ 594.5503 Order forms under educational service agreements.

(h) • • •

(1) The Surgeon General, address: HQDA (DASG–PTC), for Army Medical Department personnel;

(3) The Chief of Personnel Operations, address: HQDA (DAPO–EPO–RS), for other Army personnel.

§ 594.5505 Contracts with commercial and industrial firms.

(b) Questions of policy with respect to training of Army Medical Department personnel in commercial and industrial firms shall be referred to The Surgeon General, HQDA (DASG–PTC). Questions of policy with respect to training other Army personnel in commercial and industrial firms shall be referred to the Chief of Personnel Operations, HQDA (DAPO–EPO–RS).

Subpart EEE—Procurement of Bell System Practices

Sec.

594.5701	Scope of subpart.
594.5702	Definition.
594.5703	Responsibilities.
594.5704	Procedures.
594.5704–1	Ordering BSP for existing communications equipment and facilities.
594.5704–2	Ordering new communications equipment and facilities from WECO.

AUTHORITY: The provisions of this Subpart EEE issued under secs. 2301–2314, 3012, 70 Stat. 127–133, 157; 10 U.S.C. 2301–2314, 3012.

Subpart EEE—Procurement of Bell System Practices

§ 594.5701 Scope of subpart.

This subpart prescribes procedures for the procurement of Bell System Practices [BSP] and as applicable to all Department of the Army installations, commands, and agencies concerned with the installation, operation, or maintenance of commercial type communications equipment and facilities where BSP are a requirement.

§ 594.5702 Definition.

Bell System Practices are a series of publications of the American Telephone and Telegraph Co. [A.T. & T.] containing detailed information and standard practices relating to engineering, installation, maintenance, operation, and administration of Western Electric Co. [WECO] equipment and facilities.

§ 594.5703 Responsibilities.

(a) In connection with existing communications equipment, the Commanding General, U.S. Army Strategic Communications Command, has delegated to the Commanding General, U.S. Army Communications-Electronics Engineering Installation Agency, the responsibility for—

(1) Reviewing and processing all requests for BSP;

(2) Performing direct procurement of BSP in accordance with procedures established by the Department of Defense; and

(3) Programing and budgeting for procurement of BSP.

(b) Heads of Procuring Activities are responsible for insuring that applicable BSP are included in contracts for new communications equipment and facilities procured from WECO as items to be purchased from the contractor.

§ 594.5704 Procedures.

§ 594.5704–1 Ordering BSP for existing communications equipment and facilities.

(a) All orders for BSP shall be submitted by letter request to the Commanding General, U.S. Army Communications-Electronics Engineering Installation Agency [USA CEEIA], Attention: SCCC–LOG–RC, Fort Huachuca, Ariz. 85613, with information copy to the Commanding General, U.S. Army Strategic Communications Command, Attention: SCC–LOG–S, Fort Huachuca, Ariz. 85613.

(b) Letter requests shall include—

(1) A listing of the BSP required;

(2) Quantities required;

(3) Shipping and mailing address; and

(4) Justification for the need for the BSP and identification of the types of equipment or facilities or other information which support the need.

(c) Individual BSP or complete divisions may be ordered. A division is a broad grouping of individual BSP by types of systems, equipments, or major categories of information. For individual BSP, the complete number shall be listed. When ordering complete divisions, the applicable division number shall be listed followed by the notation "Complete Division."

(d) When processing orders for BSP from the Army, A.T. & T. follows a back order procedure in that if a particular BSP is not available at the time of the order, it will be back ordered for later shipment. Any BSP requested but not received need not be reordered by the requesting agency.

(e) The requesting agency shall acknowledge to the addressee in paragraph (a) of this section receipt of all BSP ordered.

§ 594.5704–2 Ordering new communications equipment and facilities from WECO.

(a) Applicable BSP shall be individually identified in the equipment procurement contract as items to be purchased from the contractor.

(b) In addition to any other clause pertaining to data prescribed in Subchapter A of this title, the following clause shall be included in all contracts for the purchase of BSP—

BELL SYSTEM PRACTICES (BSP) (DEC. 1971)

(a) Notwithstanding any other provisions of this contract relating to technical data, the Government's rights with respect to any BSP specified to be delivered under this contract, which BSP bears the following legend, shall be limited to those rights stated in the legend:

"This Bell System Practice is furnished for use only for Department of Defense or Coast Guard purposes in the interest of national defense. It will not be sold or disposed of to other Government agencies or to anyone outside the Government. The contents thereof will not be reproducible in whole or in part except for such purposes and upon such terms and conditions as may be agreed to in writing by the American Telephone and Telegraph Co. Nothing contained herein shall imply or grant a license to the Government under any patent or be construed as affecting the scope of any license or other right otherwise granted to the Government under any patent."

(b) No limitation on rights of use shall be asserted as to any data which the Contractor has previously delivered to the Government without restriction. The limited rights provided for by this clause shall not impair the right of the Government to use similar or identical data not originated by the Bell System.

(c) The BSP called for herein are primarily issued, replaced, or revised, as circumstances warrant, for the use of Bell System personnel. No guarantee can be made that all of such BSP will be available, either as such or as a reissue or replacement, at the time delivery is required hereunder and the Contractor assumes no liability in the event of failure to deliver, except as to an equipment adjustment in price if warranted. The immediately preceding sentence of this clause shall not be applicable to BSP called for herein which cover equipment, if any, also called for herein.

PART 596—FOREIGN PURCHASES

5. Section 596.1106–3(b) is amended, as follows:

§ 596.1106–3 Awards requiring approval by higher authority.

(b) The Deputy for Materiel Acquisition, Office of the Assistant Secretary of the Army (Installations and Logistics) has been delegated the authority to determine whether a proposed procurement described in § 6.1106–3 of this title shall be made payable in United States-owned foreign currency or in U.S. dollars.

PART 598—TERMINATION OF CONTRACTS

6. Section 598.602–3 (a) and (b) are amended, as follows:

§ 598.602–3 Procedure for default.

(a) Contracts which involve outstanding guaranteed loans, progress payments, or advance payments, except where the contractor is in bankruptcy, shall be terminated for default only after the procuring activity has coordinated the action with the U.S. Army Materiel Command, the U.S. Continental Army Command, or the Deputy for Materiel Acquisition, Office of the Assistant Secretary of the Army (Installations and Logistics), as applicable. In addition, prior to termination, all such cases except those involving bankruptcy shall be coordinated with the Director of Contract Financing, Office of the Comptroller of the Army [the addressee in § 591.150(b)(5) of this chapter] who shall coordinate when necessary with the contract financing offices of other Military Departments. Cases forwarded shall include the following data—

(b) Copies of notices of intent to terminate any small business contractor for default shall be furnished the nearest Regional Office of the Small Business Administration [SBA] after coordination with the Small Business and Labor Surplus Advisor serving the purchasing office. The SBA Regional Office will determine whether the contractor has any outstanding loans which were made with SBA's participation or any Certificates of Competency which were issued by SBA. Contracts involving a small business contractor to whom a Certificate of Competency was issued or to whom loans were made with SBA's participation shall not be terminated for default without prior written approval of the Head of Procuring Activity.

PART 599—PATENTS, DATA, AND COPYRIGHTS

7. Section 599.304–2 is amended, as follows:

§ 599.304–2 Review of agreements.

Proposed foreign license and technical assistance agreements between domestic concerns and foreign governments or concerns forwarded to the Department of the Army pursuant to § 9.304–1 of this title shall be forwarded through the cognizant Head of Procuring Activity for review by appropriate patent and technical personnel in accordance with § 9.304–2 of this title (see § 591.150(d) of this chapter). Comments and recommendations of the Head of Procuring Activity reviewing such agreements shall be forwarded to the Deputy Chief of Staff for Logistics, PEMA Executive Division, Industrial Defense Branch, address: HQDA (DALO–MAE–F).

PART 600—BONDS, INSURANCE, AND INDEMNIFICATION

8. Sections 600.110 and 600.112(d)(3) are amended; § 600.352 is revised, as follows:

§ 600.110 Substitution of surety bonds.

Requests for approval of acceptance of a new surety bond for a bond previously approved shall be forwarded to The Judge Advocate General, address: HQDA (DAJA–PLB).

§ 600.112 Execution and administration of bonds and consents of surety.

(d) • • •

(3) Bid bonds (except annual bid bonds):

§ 600.352 Coordination with Departments of the Navy and Air Force.

(a) Where the Departments of the Navy or Air Force have an interest in a

V 37 ■ 69
APR 8 72
XUM

contractor's insurance program, coordination shall be effected—

(1) For the Navy with the Headquarters Naval Material Command, Contract Insurance Branch, MAT–0242, Department of the Navy, Washington, D.C. 20360; and

(2) For the Air Force with the Headquarters Air Force Contract Management Division, AFSC, AF Unit Post Office, Los Angeles, Calif. 90045, attention: CMKOI.

(b) Prior approval of a contractor's insurance program by another Military Department shall be considered by a Head of Procuring Activity in determining the adequacy of the contractor's program and shall be accepted, subject to whatever modification may be appropriate.

PART 601—TAXES

9. Section 601.000(a) is amended, as follows:

§ 601.000 Resolution of tax problems.

(a) Actual or anticipated tax problems which cannot readily be solved by reference to Part 11 of this title shall be forwarded to The Judge Advocate General, address: HQDA (DAJA–PL), through procurement channels (see § 591.150(d)). Direct communication with The Judge Advocate General is authorized if the time by which a solution to a tax problem is required is so short that communication through channels would be inadequate.

. . . . . .

PART 602—LABOR

10. Section 602.102–4(f) is amended, as follows:

§ 602.102–4 Approval of overtime premiums in certain cost-reimbursement type contracts.

. . . . . .

(f) Such others as may be specifically designated from time to time by the Deputy for Materiel Acquisition, Office of the Assistant Secretary of the Army (Installations and Logistics).

PART 603—GOVERNMENT PROPERTY

11. Section 603.301(d) is amended; §§ 603.801 and 603.803 are revised, as follows:

§ 603.301 Providing facilities.

. . . . . .

(d) Requests for approval for acquisition of ADPE to be acquired on a noncompetitive basis shall be forwarded to the Assistant Secretary of Defense (Comptroller) through the Office, Assistant Vice Chief of Staff, Department of the Army, address: HQDA (DACS–CM), and shall include the justification specified in § 15.205–48(d) of this title.

§ 603.801 Appointment of property administrator.

Individuals authorized to appoint property administrators shall follow the same procedures as are prescribed in § 591.406–50 of this chapter for the designation of contracting officers' representatives.

§ 603.803 Records of Government property.

(a) The Head of Procuring Activity may name the head of one or more Department of the Army purchasing offices as his designee to approve exceptions to the policy of using a contractor's records of Government property as the official records.

(b) Policies and procedures governing the transfer of military property to contractors and accounting for such property in instances where the exception in paragraph (a) of this section is applied are contained in AR 735–71 and AR 735–72. AR 735–71 provides that, where Government property is lost or damaged and the property administrator is unable to exhibit conclusive proof of receipt of the items by a contractor, the property shall be accounted for on a Report of Survey (DD Form 200, Standard Form 361, or DD Form 1599) in accordance with AR 735–11.

PART 606—PROCUREMENT FORMS

12. Section 606.5003(c) is amended and a new paragraph (f) is added, as follows:

§ 606.5003 Reproducible masters.

. . . . . .

(c) If the cognizant Head of Procuring Activity approves the use of the reproducible masters requested, he shall forward the approval to HQDA (DAAG–PAM) for authority to purchase reproducible masters locally in accordance with AR 310–1.

. . . . . .

(f) Contracting officers are not required to obtain authority for the use of reproducible masters stocked in publications depots. Such reproducible masters may be obtained by requisition upon the publications depots.

[Rev. 7, Jan. 10, 1972] (Secs. 2301–2314, 3012, 70A Stat. 127–133, 157; 10 U.S.C. 2301–2314, 3012).

For the Adjutant General.

R. B. BELNAP,
Special Advisor to TAG.

Title 26—INTERNAL REVENUE

Chapter I—Internal Revenue Service, Department of the Treasury

SUBCHAPTER A—INCOME TAX

[T.D. 7177]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Taxation of Exempt Organizations on Rents from Property, and Interest, Rents, etc., from Controlled Organizations

On June 9, 1971, notice of proposed rule making with respect to the amendments of the Income Tax Regulations (26 CFR Part 1) under section 512(b) of the Internal Revenue Code of 1954 to conform the regulations to changes made by section 121(b)(2)(A) and (C) of the Tax Reform Act of 1969 (83 Stat. 538) was published in the FEDERAL REGISTER (36 F.R. 11100). After consideration of all such relevant matters as was presented by interested persons regarding the rules proposed, the amendment of the regulations as proposed is hereby adopted, subject to the changes set forth below:

Paragraphs (c) and (l) of § 1.512(b)–1, as set forth in paragraph 2 of the notice of proposed rule making, are revised as set forth below.

(Sec. 7805, Internal Revenue Code of 1954, 68A Stat. 917; 26 U.S.C. 7805)

[SEAL] JOHNNIE M. WALTERS,
Commissioner of Internal Revenue.

Approved: April 3, 1972.

FREDERIC W. HICKMAN,
Acting Assistant Secretary of the Treasury.

In order to conform the Income Tax Regulations (26 CFR Part 1) under section 512(b) of the Internal Revenue Code of 1954 to section 121(b)(2)(A) and (C) of the Tax Reform Act of 1969 (83 Stat. 538), such regulations are amended as follows:

PARAGRAPH 1. Section 1.512(b) is amended by revising paragraph (3) of section 512(b) and by adding at the end thereof a new paragraph (15) and by revising the historical note. These amended and added provisions read as follows:

§ 1.512(b) Statutory provisions; unrelated business taxable income; modifications.

SEC. 512. *Unrelated business taxable income.* • • •

(b) *Modifications.* • • •

(3) In the case of rents—

(A) Except as provided in subparagraph (B), there shall be excluded—

(i) All rents from real property (including property described in section 1245(a)(3)(C)), and

(ii) All rents from personal property (including for purposes of this paragraph as personal property any property described in section 1245(a)(3)(B)) leased with such real property, if the rents attributable to such personal property are an incidental amount of the total rents received or accrued under the lease, determined at the time the personal property is placed in service.

(B) Subparagraph (A) shall not apply—

(i) If more than 50 percent of the total rent received or accrued under the lease is attributable to personal property described in subparagraph (A)(ii), or

(ii) If the determination of the amount of such rent depends in whole or in part on the income or profits derived by any person from the property leased (other than an amount based on a fixed percentage or percentages of receipts or sales).

(C) There shall be excluded all deductions directly connected with rents excluded under subparagraph (A).

. . . . . .

(15) Notwithstanding paragraphs (1), (2), or (3), amounts of interest, annuities, royalties, and rents derived from any organization (in this paragraph called the "controlled organization") of which the organization deriving such amounts (in this paragraph called "controlling organization") has control (as defined in section 368(c)) shall be included as an item of gross income (whether or not the activity from which such amounts are derived represents a trade or business or is regularly carried on) in an amount which bears the same ratio as—

(A) (i) In the case of a controlled organization which is not exempt from taxation under section 501(a), the excess of the amount of taxable income of the controlled organization over the amount of such organization's taxable income which if derived directly by the controlling organization would not be unrelated business taxable income, or

(ii) In the case of a controlled organization which is exempt from taxation under section 501(a), the amount of unrelated business taxable income of the controlled organization, bears to,

(B) The taxable income of the controlled organization (determined in the case of a controlled organization to which subparagraph (a)(ii) applies as if it were not an organization exempt from taxation under section 501(a)), but not less than the amount determined in clause (i) or (ii), as the case may be, of subparagraph (A),

both amounts computed without regard to amounts paid directly or indirectly to the controlling organization. There shall be allowed all deductions directly connected with amounts included in gross income under the preceding sentence.

. . . . . .

[Sec. 512(b) as amended by Act of Apr. 7, 1958 (Public Law 85–367, 72 Stat. 80); Act of July 17, 1964 (Public Law 88–380, 78 Stat. 333); sec. 121(b)(2)(A) and (C) of the Tax Reform Act 1969 (83 Stat. 538)]

PAR. 2. Section 1.512(b)–1 is amended by revising paragraph (c) and adding at the end thereof a new paragraph (l). These amended and added provisions read as follows:

§ 1.512(b)–1 Modifications.

. . . . . .

(c) *Rents*—(1) *Taxable years beginning before January 1, 1970.* For taxable years beginning before January 1, 1970, rents from real property (including personal property leased with the real property) and the deductions directly connected therewith shall be excluded in computing unrelated business taxable income, except that certain rents from, and certain deductions in connection with, a business lease (as defined in section 514(f) shall be included in computing unrelated business taxable income. See subparagraph (5) of this paragraph for rules governing amounts received for the rendering of services.

(2) *Taxable years beginning after December 31, 1969*—(i) *In general.* For taxable years beginning after December 31, 1969, except as provided in subdivision (iii) of this subparagraph, rents from property described in subdivision (ii) of this subparagraph, and the deductions directly connected therewith, shall be excluded in computing unrelated business taxable income. However, notwithstanding subdivision (ii) of this subparagraph, certain rents from and certain deductions in connection with either debt-financed property (as defined in section 514(b)) or property rented to controlled organizations (as defined in paragraph (l) of this section) shall be included in computing unrelated business taxable income.

(ii) *Excluded rents.* The rents which are excluded from unrelated business income under section 512(b)(3)(A) and this paragraph are—

(a) *Real property.* All rents from real property; and

(b) *Personal property.* All rents from personal property leased with real property if the rents attributable to such personal property are an incidental amount of the total rents received or accrued under the lease, determined at the time the personal property is first placed in service by the lessee.

For purposes of the preceding sentence, rents attributable to personal property generally are not an incidental amount of the total rents if such rents exceed 10 percent of the total rents from all the property leased. For example, if the rents attributable to the personal property leased are determined to be $3,000 per year, and the total rents from all property leased are $10,000 per year, then such $3,000 amount is not to be excluded from the computation of unrelated business taxable income by operation of section 512(b)(3)(A)(ii) and this paragraph, since such amount is not an incidental portion of the total rents.

(iii) *Exception.* Subdivision (ii) of this subparagraph shall not apply, if either—

(a) *Excess personal property rents.* More than 50 percent of the total rents are attributable to personal property, determined at the time such personal property is first placed in service by the lessee; or

(b) *Net profits.* The determination of the amount of such rents depends in whole or in part on the income or profits derived by any person from the property leased, other than an amount based on a fixed percentage or percentages of the gross receipts or sales. For purposes of the preceding sentence, the rules contained in paragraph (b)(1) of § 1.856–4 shall apply.

(iv) *Illustration.* This subparagraph may be illustrated by the following example:

Example. A, an exempt organization, owns a printing factory which consists of a building housing two printing presses and other equipment necessary for printing. On January 1, 1971, A rents the building and the printing equipment to B for $10,000 a year. The lease states that $9,000 of such rent is for the building and $1,000 for the printing equipment. However, it is determined that notwithstanding the terms of the lease $4,000, or 40 percent ($4,000/$10,000), of the rent is actually attributable to the printing equipment. During 1971, A has $3,000 of deductions, all of which are properly allocable to the land and building. Under these circumstances, A shall not take into account in computing its unrelated business taxable income the $6,000 of rent attributable to the building and the $3,000 of deductions directly connected with such rent. However, the $4,000 of rent attributable to the printing equipment is not excluded from the computation of A's unrelated business taxable income by operation of section 512(b)(3)(A)(ii) or this paragraph since such rent represents more than an incidental portion of the total rents.

(3) *Definitions and special rules.* For purposes of subparagraph (2) of this paragraph—

(i) *Real property defined.* The term "real property" means all real property, including any property described in sections 1245(a)(3)(C) and 1250(c) and the regulations thereunder.

(ii) *Personal property defined.* The term "personal property" means all personal property, including any property described in section 1245(a)(3)(B) and the regulations thereunder.

(iii) *Multiple leases.* If separate leases are entered into with respect to real and personal property, and such properties have an integrated use (e.g., one or more leases for real property and another lease or leases for personal property to be used upon such real property), all such leases shall be considered as one lease.

(iv) *Placed in service.* Property is "placed in service" by the lessee when it is first subject to his use in accordance with the terms of the lease. For example, property subject to a lease entered into on November 1, 1971, for a term commencing on January 1, 1972, shall be considered as placed in service on January 1, 1972, regardless of when the property is first actually used by the lessee.

(v) *Changes in rent charged or personal property rented.* If—

(a) By reason of the placing of additional or substitute personal property in service, there is an increase of 100 percent or more in the rent attributable to all the personal property leased, or

(b) There is a modification of the lease by which there is a change in the rent charged (whether or not there is a change in the amount of personal property rented),

the rent attributable to personal property shall be recomputed to determine whether the exclusion under subparagraph (2)(ii)(b) of this paragraph or the exception under subparagraph (2)(iii)(a) of this paragraph applies. Any change in the treatment of rents, attributable to a recomputation under this subdivision, shall be effective only with respect to rents for the period beginning with the event which occasioned the recomputation.

(4) *Examples.* Subparagraphs (2) and (3) of this paragraph may be illustrated by the following examples:

Example (1). On January 1, 1971, A, an exempt organization, executes two leases with B. One is for the rental of a computer, with a stated annual rental of $750. The other is for the rental of office space in which to use the computer, at a stated annual rental of $7,250. The total annual rent under both leases for 1971 is $8,000. At the time the computer is first placed in service, however, taking both leases into consideration, it is determined that notwithstanding the terms of the leases, $3,000, or 37.5 percent ($3,000/$8,000), of the rent is actually attributable to the computer. Therefore, for 1971, only the $5,000 ($8,000—$3,000) attributable to the rental of the office space is excluded from the computation of A's unrelated business taxable income by operation of section 512(b)(3).

V 37 • 69 APR 8 72 XUM

Example (2). Assume the facts as stated in example (1). Assume further that the leases to which the computer and office space are subject in example (1) provide that the rent may be increased or decreased, depending upon the prevailing rental value for similar computers and office space. On January 1, 1972, the total annual rent is increased in the computer lease to $2,000, and in the office space lease to $9,000. For 1972, it is determined that notwithstanding the terms of the leases $6,000, or 54.5 percent ($6,000/$11,000), of the total rent is actually attributable to the computer as of that time. Even though the rent attributable to personal property now exceeds 50 percent of the total rent, the rent attributable to real property will continue to be excluded, since there was no modification of the terms of the leases and since the increase in the rent was not attributable to the placing of new personal property in service. See subparagraph (3)(v) of this paragraph. Thus, for 1972 the $5,000 of rent attributable to the office space continues to be excluded from the computation of A's unrelated business taxable income by operation of section 512(b)(3).

Example (3). Assume the facts as stated in example (1), except that on January 1, 1973, B rents a second computer from A, which is placed in service on that date. The total rent is increased to $2,000 for the computer lease and to $10,000 for the office space lease. It is determined at the time the second computer is first placed in service that notwithstanding the terms of the leases $7,000 of the rent is actually attributable to the computers. Since the rent attributable to personal property has increased by more than 100 percent ($4,000/$3,000=133 percent), a redetermination must be made pursuant to subparagraph (3)(v)(*a*) of this paragraph. As a result, 58.3 percent ($7,000/$12,000) of the total rent is determined to be attributable to personal property. Accordingly, since more than 50 percent of the total rent A receives is attributable to the personal property leased, none of the rents are excluded from the computation of A's unrelated business taxable income by operation of section 512(b)(3).

Example (4). Assume the facts as stated in example (3), except that on June 30, 1975, the lease between B and A is modified. The total rent for the computer lease is reduced to $1,500 and the total rent for the office space lease is reduced to $7,500. Pursuant to subdivision (3)(v)(*b*) of this paragraph, a redetermination is made as of June 30, 1975. As of the modification date, it is determined that notwithstanding the terms of the leases, the rent actually attributable to the computers is $4,000, or 44.4 percent ($4,000/$9,000), of the total rent. Since less than 50 percent of the total rent is now attributable to personal property, the rent attributable to real property ($5,000), for periods after June 30, 1975, is excluded from the computation of A's unrelated business taxable income by operation of section 512(b)(3). However, the rent attributable to personal property ($4,000) are not excluded from unrelated business taxable income for such periods by operation of section 512(b)(3), since it represents more than an incidental portion of the total rents.

(5) *Rendering of services.* For purposes of this paragraph, payments for the use or occupancy of rooms and other space where services are also rendered to the occupant, such as for the use or occupancy of rooms or other quarters in hotels, boarding houses, or apartment houses furnishing hotel services, or in tourist camps or tourist homes, motor courts, or motels, or for the use or occupancy of space in parking lots, warehouses, or storage garages, does not constitute rent from real property. Generally, services are considered rendered to the occupant if they are primarily for his convenience and are other than those usually or customarily rendered in connection with the rental of rooms or other space for occupancy only. The supplying of maid service, for example, constitutes such service; whereas the furnishing of heat and light, the cleaning of public entrances, exists, stairways, and lobbies, the collection of trash, etc., are not considered as services rendered to the occupant. Payments for the use or occupancy of entire private residences or living quarters in duplex or multiple housing units, of offices in any office building, etc., are generally treated as rent from real property.

* * * * *

(l) *Interest, annuities, royalties, and rents from controlled organizations*—(1) *In general.* For taxable years beginning after December 31, 1969, if an exempt organization (hereinafter referred to as the "controlling organization") has control (as defined in subparagraph (4) of this paragraph) of another organization (hereinafter referred to as the "controlled organization"), the controlling organization shall include as an item of gross income in computing its unrelated business taxable income, the amount of interest, annuities, royalties, and rents derived from the controlled organization determined under subparagraph (2) or (3) of this paragraph. The preceding sentence shall apply whether or not the activity conducted by the controlling organization to derive such amounts represents a trade or business or is regularly carried on. Thus, amounts received by a controlling organization from the rental of its real property to a controlled organization may be included in the unrelated business taxable income of the controlling organization, even though the rental of such property is not an activity regularly carried on by the controlling organization.

(2) *Exempt controlled organization*—(i) *In general.* If the controlled organization is exempt from taxation under section 501(a), the amount referred to in subparagraph (1) of this paragraph is an amount which bears the same ratio to the interest, annuities, royalties, and rents received by the controlling organization from the controlled organization as the unrelated business taxable income of the controlled organization bears to whichever of the following amounts is the greater—

(*a*) The taxable income of the controlled organization, computed as though the controlled organization were not exempt from taxation under section 501(a), or

(*b*) The unrelated business taxable income of the controlled organization,

both determined without regard to any amounts paid directly or indirectly to the controlling organization. The controlling organization shall be allowed all deductions directly connected with amounts included in gross income under the preceding sentence.

(ii) *Examples.* This subparagraph may be illustrated by the following examples:

Example (1). A, an exempt scientific organization described in section 501(c)(3), owns all the stock of B, another exempt scientific organization described in section 501(c)(3). During 1971, A rents space for a laboratory to B for $15,000 a year. A's total deductions for 1971 with respect to the leased property are $3,000: $1,000 for maintenance and $2,000 for depreciation. If B were not an exempt organization, its total taxable income would be $300,000, disregarding rent paid to A. B's unrelated business taxable income, disregarding rent paid to A, is $100,000. Under these circumstances, $4,000 of the rent paid by B will be included by A as net rental income in determining its unrelated business taxable income, computed as follows:

B's unrelated business taxable income (disregarding rent paid to A)	$100,000
B's taxable income (computed as though B were net exempt and disregarding rent paid to A)	$300,000
Ratio ($100,000/$300,000)	1:3
Total rent	$15,000
Total deductions	$3,000
Rental income treated as gross income from an unrelated trade or business (⅓ of $15,000)	$5,000
Less deductions directly connected with such income (⅓ of $3,000)	$1,000
Net rental income included by A in computing its unrelated business taxable income	$4,000

Example (2). Assume the facts as stated in example (1), except that B's taxable income is $90,000 (computed as though B were not an exempt organization, and disregarding rents paid to A). B's unrelated business taxable income ($100,000) is therefore greater than its taxable income ($90,000). Thus, the ratio used to determine the portion of rent received by A which is to be taken into account is one since both the numerator and denominator of such ratio is B's unrelated business taxable income. Consequently, all the rent received by A from B ($15,000), and all the deductions directly connected therewith ($3,000), are included by A in computing its unrelated business taxable income.

(3) *Nonexempt controlled organization*—(i) *In general.* If the controlled organization is not exempt from taxation under section 501(a), the amount referred to in subparagraph (1) of this paragraph is an amount which bears the same ratio to the interest, annuities, royalties, and rents received by the controlling organization from the controlled organization as the "excess taxable income" (as defined in subdivision (ii) of this subparagraph) of the controlled organization bears to whichever of the following amounts is the greater—

(*a*) The taxable income of the controlled organization, or

(*b*) The excess taxable income of the controlled organization,

both determined without regard to any amount paid directly or indirectly to the controlling organization. The controlling organization shall be allowed all deductions which are directly connected with amounts included in gross income under the preceding sentence.

(ii) *Excess taxable income.* For purposes of this paragraph, the term "excess taxable income" means the excess of the controlled organization's taxable income over the amount of such taxable income which, if derived directly by the controlling organization, would not be unrelated business taxable income.

(iii) *Examples.* This subparagraph may be illustrated by the following examples:

Example (1). A, an exempt university described in section 501(c)(3), owns all the stock of M, a nonexempt organization. During 1971, M leases a factory and a dormitory from A for a total annual rental of $100,000. During the taxable year, M has $500,000 of taxable income, disregarding the rent paid to A: $150,000 from a dormitory for students of A university, and $350,000 from the operation of a factory which is a business unrelated to A's exempt purpose. A's deductions for 1971 with respect to the leased property are $4,000 for the dormitory and $16,000 for the factory. Under these circumstances, $56,000 of the rent paid by M will be included by A as net rental income in determining its unrelated business taxable income, computed as follows:

M's taxable income (disregarding rent paid to A)	$500,000
Less taxable income from dormitory	150,000
Excess taxable income	$350,000
Ratio ($350,000/$500,000)	7/10
Total rent paid to A	$100,000
Total deductions ($4,000+$16,000)	20,000
Rental income treated as gross income from an unrelated trade or business (7/10 of $100,000)	$70,000
Less deductions directly connected with such income (7/10 of $20,000)	$14,000
Net rental income included by A in computing its unrelated business taxable income	$56,000

Example (2). Assume the facts as stated in example (1), except that M's taxable income (disregarding rent paid to A) is $300,000, consisting of $350,000 from the operation of the factory and a $50,000 loss from the operation of the dormitory. Thus, M's "excess taxable income" is also $300,000, since none of M's taxable income would be excluded from the computation of A's unrelated business taxable income if received directly by A. The ratio of M's "excess taxable income" to its taxable income is therefore one ($300,000/$300,000). Thus, all the rent received by A from M ($100,000), and all the deductions directly connected therewith ($20,000), are included in the computation of A's unrelated business taxable income.

(4) *Control*—(i) *In general.* For purposes of this paragraph—

(*a*) *Stock corporation.* In the case of an organization which is a stock corporation, the term "control" means ownership by an exempt organization of stock possessing at least 80 percent of the total combined voting power of all classes of stock entitled to vote and at least 80 percent of the total number of shares of all other classes of stock of such corporation.

(*b*) *Nonstock organization.* In the case of a nonstock organization, the term "control" means that at least 80 percent of the directors or trustees of such organization are either representatives of or directly or indirectly controlled by an exempt organization. A trustee or director is a representative of an exempt organization if he is a trustee, director, agent, or employee of such exempt organization. A trustee or director is controlled by an exempt organization if such organization has the power to remove such trustee or director and designate a new trustee or director.

(ii) *Gain or loss of control.* If control of an organization (as defined in subdivision (i) of this subparagraph) is acquired or relinquished during the taxable year, only the interest, annuities, royalties, and rents paid or accrued to the controlling organization in accordance with its method of accounting for that portion of the taxable year it has control shall be subject to the tax on unrelated business income.

(5) *Amounts taxable under other provisions of the Code*—(i) *In general.* Section 512(b)(15) and this paragraph do not apply to amounts which are included in the computation of unrelated business taxable income by operation of any other section of the Code. However, amounts which are not included in unrelated business taxable income by operation of section 512(a)(1), or which are excluded by operation of section 512(b)(1), (2), or (3), may be included in unrelated business taxable income by operation of section 512(b)(15) and this paragraph.

(ii) *Debt-financed property.* Rents derived from the lease of debt-financed property by a controlling organization to a controlled organization are subject to the rules contained in section 512(b)(15) and this paragraph. Thus, if a controlling organization leases debt-financed property to a controlled organization, the amount of rents includible in the controlling organization's unrelated business taxable income shall first be determined under section 512(b)(15) and this paragraph, and only the portion of such rents not taken into account by operation of section 512(b)(15) are taken into account by operation of section 514. See example (3) of § 1.514(b)-1(b)(3).

[FR Doc.72-5371 Filed 4-7-72;8:45 am]

[T.D. 7179]

PART 13—TEMPORARY INCOME TAX REGULATIONS UNDER THE TAX REFORM ACT OF 1969

Trusts—Election Regarding Amounts Distributed in First 65 Days of Taxable Year

In order to clarify the rules relating to the election by the fiduciary of a trust to treat certain amounts distributed by the trust during the first 65 days following the close of a taxable year as distributed on the last day of such taxable year, subparagraph (1) of paragraph (a) of § 13.6 of the Temporary Income Tax Regulations under the Tax Reform Act of 1969 (26 CFR Part 13) is amended to read as follows:

§ 13.6 Accumulation trusts; 65 day election; "first taxable year in which income is accumulated."

(a) *Election regarding distributions in first 65 days of taxable year*—(1) *In general.* With respect to taxable years beginning after December 31, 1968, the fiduciary of a trust may elect under section 663(b) to treat any amount or portion thereof that is properly paid or credited to a beneficiary within the first 65 days following the close of the taxable year as an amount that was properly paid or credited on the last day of such taxable year. An election is effective only with respect to the taxable year for which the election is made. In the case of distributions made after May 8, 1972, the amount to which the election applies shall not exceed—

(i) The amount of income of the trust (as defined in § 1.643(b)-1) of this chapter for the taxable year for which the election is made, or

(ii) The amount of distributable net income of the trust (as defined in §§ 1.643(a)-1 through 1.643(a)-7 of this chapter) for such taxable year, if greater,

reduced by any amounts paid, credited, or required to be distributed in such taxable year other than those amounts considered paid or credited in a preceding taxable year by reason of section 663(b) and this section. An election shall be made for each taxable year for which the treatment is desired. The application of this paragraph may be illustrated by the following example:

Example. X Trust, a calendar year trust, has $1,000 of income (as defined in § 1.643(b)-1) and $800 of distributable net income (as defined in §§ 1.643(a)-1 through 1.643(a)-7) in 1972. The trust properly pays $550 to A, a beneficiary, on January 15, 1972, which the trustee elects to treat under section 663(b) as paid on December 31, 1971. The trust also properly pays to A $600 on July 19, 1972, and $450 on January 17, 1973. For 1972, the maximum amount to which the election made under this paragraph may apply is $400 ($1,000−$600). The $550 paid on January 15, 1972, does not reduce the maximum amount to which the election may apply because that amount is treated as properly paid on December 31, 1971.

* * * * *

Because of the need for immediate guidance with respect to the provisions contained in this Treasury decision, it is found impracticable to issue it with notice and public procedure thereon under subsection (b) of section 553 of Title 5 of the United States Code or subject to the effective date limitation of subsection (d) of that section.

(Sec. 7805, Internal Revenue Code of 1954, 68A Stat. 917; 26 U.S.C. 7805)

[SEAL] JOHNNIE M. WALTERS,
Commissioner of Internal Revenue.

Approved: April 4, 1972.

FREDERIC W. HICKMAN,
Acting Assistant Secretary of the Treasury.

Title 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans Administration

PART 3—ADJUDICATION

Subpart A—Pension, Compensation, and Dependency and Indemnity Compensation

INCOME EXCLUSIONS FOR PENSION PURPOSES

This amendment provides for the exclusion from consideration as income for purposes of the pension program amounts paid to a retired employee by his former employer as reimbursement for premiums he has paid for medicare.

In § 3.261(a), subparagraph (22) is amended to read as follows:

§ 3.261 Character of income; exclusions and estates.

The following factors will be considered in determining whether a claimant meets the requirements of §§ 3.250, 3.251, and 3.252 with reference to dependency, income limitations and corpus of estate:

	Dependency (parents)	Dependency and indemnity compensation (parents)	Pension; protected (veterans, widows and children)	Pension; Public Law 86-211 (veterans, widows and children	See—
(a) *Income.*

Title 41—PUBLIC CONTRACTS AND PROPERTY MANAGEMENT

Chapter 114—Department of the Interior

MISCELLANEOUS AMENDMENTS TO CHAPTER

Pursuant to the authority of the Secretary of the Interior contained in 5 U.S.C. 301, Parts 114-1, 114-25, and 114-26 of Chapter 114, Title 41 of the Code of Federal Regulations, are hereby amended as set forth below.

These changes will become effective on the date of their publication in the FEDERAL REGISTER (4-8-72).

WARREN F. BRECHT,
Deputy Assistant Secretary of the Interior.

APRIL 4, 1972.

PART 114-1—INTRODUCTION

Subpart 114-1.1—Regulation System

§ 114-1.109-50 [Amended]

In § 114-1.109-50 the reference to "114L—Office of Territories" is amended to read "114L—Reserved".

PART 114-25—GENERAL

Subpart 114-25.3—Use Standards

The table of contents for Subpart 114-25.3 is amended by the addition of the following:

Sec.
114-25.300-50 Standard lettering for bench marks and corner markers.

Subpart 114-25.3 is amended by the addition of the following section:

§ 114-25.300-50 Standard lettering for bench marks and corner markers.

The minimum standard lettering to be used to identify all bench mark tables is as follows:

U.S. DEPARTMENT OF THE INTERIOR

Height of lettering: ¼ inch.
Width of letters at surface: .040 inch.

UNLAWFUL TO DISTURB

Height of lettering: 5/32 inch.
Width of letters at surface: .032 inch.

Exceptions to the use of the foregoing lettering will be granted only where special circumstances warrant exemption. Requests for such exemption shall be transmitted through Bureau Channels to the Director, Office of Management Operations, Office of the Assistant Secretary—Management and Budget.

PART 114-26—PROCUREMENT SOURCES AND PROGRAMS

Subpart 114-26.4—Purchase of Items From Federal Supply Schedule Contractors

§ 114-26.406-d [Amended]

Section 114-26.406-2(d) is amended by deleting "Office of Territories—040 through 059 inclusive" and inserting in lieu thereof the following:

Reserved—040 through 059 inclusive.

Subpart 114-26.6—Procurement Sources Other Than GSA

The table of contents is amended by deleting the reference to § 114-26.600-51 *Procurement of bench marks and corner markers* and inserting in lieu thereof the following:

Sec.
114-26.600-51 Other procurement from the Defense Supply Agency.

Section 114-26.600-51, *Procurement of bench marks and corner markers*, is deleted in its entirety and the following substituted therefor:

§ 114-26.600-51 Other procurement from the Defense Supply Agency.

(a) The Defense Supply Agency has been assigned the supply responsibility for certain items as provided in FPMR 101-26.6. As to the procurement of other items, it is the policy of the Defense Supply Agency that its Defense Supply Centers will honor such supply requests from civilian agencies only when a formal interagency agreement is in effect covering supply support for the materiel requested. As a rule, there are no exceptions to this policy except in an emergency (e.g., hurricane, flood, epidemic, etc.).

(b) Pursuant to a DOD/GSA agreement governing supply management relationships, the Defense Supply Agency will furnish supply management services to all Federal agencies in those instances where:

(1) The General Services Administration determines that Governmentwide economies and improved effectiveness can be gained through DSA support, and

(2) The Defense Supply Agency determines that support of civilian agencies will not impair DSA's capability to support military units in war and peace, and will not significantly increase DSA's operating costs or inventory investment.

(c) DSA supply support arrangements with civilian agencies will be consistent with DSA procurement and supply management practices, and supply support will normally be limited to items or services which DSA provides to DOD activities.

(d) The Defense Supply Agency looks to the General Services Administration as the coordinator for all civilian agency procurement and supply support requests to assure consistency of policy and procedures governing civilian agency use of DSA support and to assure civilian agency knowledge and use of DOD/DSA systems and procedures.

(e) When there is a requirement for DSA supply support, the General Services Administration will provide assistance in making appropriate arrangements for the implementing actions required to develop, coordinate, and exercise an interagency agreement for such support.

(f) Requests for DSA supply support should be prepared for the signature of the Director of Management Operations and addressed to:

Assistant Commissioner, Office of National Supply Policies and Programs, Federal Supply Service, General Services Administration, Washington, D.C. 20405.

Each request must include full particulars regarding the support required, location, duration of need, etc.

[FR Doc.72-5404 Filed 4-7-72;8:46 am]

Title 42—PUBLIC HEALTH

Chapter I—Public Health Service, Department of Health, Education, and Welfare

SUBCHAPTER D—GRANTS

PART 59—GRANTS FOR FAMILY PLANNING

Family Planning Services Training

Notice of proposed rule making, public rule making procedures and postponement of effective date have been omitted in the issuance of the following Subpart C of Part 59, which relates solely to grants for family planning services training pursuant to section 1003 of the Public Health Service Act (42 U.S.C. 300a-1) because for good cause it has been found that such notice, public participation, and delay would be contrary to the public interest in light of the need to provide adequate lead time for the development of project proposals, the need for the orderly and efficient consideration of such proposals, and the limited time for which funds are available for these purposes. Written comments concerning the regulations are invited from interested persons. Inquiries may be addressed, and data, views, and arguments relating to the proposed regulations may be presented in writing, in triplicate, to the Director, National Center for Family Planning Services, Health Services and Mental Health Administration, 5600 Fishers Lane, Rockville, MD 20852. All comments received in response to this publication will be available for public inspection in the Office of the Grants and Contracts Officer, National Center for Family Planning Services, Room 12A-54, Parklawn Building, 5600 Fishers Lane, Rockville, MD, weekdays between 9 a.m. and 5 p.m. All relevant material received not later than 30 days after publication of these regulations in the FEDERAL REGISTER will be considered.

The following regulations shall become effective on the date of publication in the FEDERAL REGISTER (4-8-72).

Dated: March 21, 1972.

VERNON E. WILSON,
Administrator, Health Services and Mental Health Administration.

Approved: April 3, 1972.

ELLIOT L. RICHARDSON,
Secretary.

Subpart B—[Reserved]

Subpart C—Grants for Family Planning Services Training

Sec.
59.201 Applicability.
59.202 Definitions.
59.203 Eligibility.
59.204 Application for a grant.
59.205 Project requirements.
59.206 Evaluation and grant award.

59.210 Inventions or discoveries.
59.211 Publications and copyright.
59.212 Grantee accountability.
59.213 Records, reports, inspection, and audit.
59.214 Additional conditions.
59.215 Early termination and withholding of payments.

AUTHORITY: The provisions of this Subpart C issued under sec. 6(c), 84 Stat. 1507, 42 U.S.C. 300a-4; sec. 6(c), 84 Stat. 1507, 42 U.S.C. 300a-1.

Subpart B—[Reserved]

Subpart C—Grants for Family Planning Service Training

§ 59.201 Applicability.

The regulations in this subpart are applicable to the award of grants pursuant to section 1003 of the Public Health Service Act (42 U.S.C. 300a-1) to provide the training for personnel to carry out family planning service programs described in sections 1001 and 1002 of the Public Health Service Act (42 U.S.C. 300, 300a).

§ 59.202 Definitions.

As used in this subpart:

(a) "Act" means the Public Health Service Act.

(b) "State" means one of the 50 States, the District of Columbia, Puerto Rico, Guam, the Virgin Islands, American Samoa, or the Trust Territory of the Pacific Islands.

(c) "Nonprofit" private entity means a private entity no part of the net earnings of which inures, or may lawfully inure, to the benefit of any private shareholder or individual.

(d) "Secretary" means the Secretary of Health, Education, and Welfare and any other officer or employee of the Department of Health, Education, and Welfare to whom the authority involved has been delegated.

(e) "Training" means job-specific skill development, the purpose of which is to promote and improve the delivery of family planning services.

§ 59.203 Eligibility.

(a) *Eligible applicants.* Any public or nonprofit private entity located in a State is eligible to apply for a grant under this subpart.

(b) *Eligible projects.* Grants pursuant to section 1003 of the Act and this subpart may be made to eligible applicants for the purpose of providing programs, not to exceed 3 months in duration, for training family planning or other health services delivery personnel in the skills, knowledge, and attitudes necessary for the effective delivery of family planning services.

§ 59.204 Application for a grant.

(a) An application for a grant under this subpart shall be submitted to the Secretary at such time and in such form and manner as the Secretary may prescribe.[1] The application shall contain a full and adequate description of the project and of the manner in which the applicant intends to conduct the project and carry out the requirements of this subpart, and a budget and justification of the amount of grant funds requested, and such other pertinent information as the Secretary may require.

(b) The application shall be executed by an individual authorized to act for the applicant and to assume for the applicant the obligations imposed by the regulations of this subpart and any additional conditions of the grant.

§ 59.205 Project requirements.

An approvable application must contain each of the following unless the Secretary determines that the applicant has established good cause for its omission:

(a) Assurances that:

(1) No portion of the Federal funds will be used to train personnel for programs where abortion is a method of family planning.

(2) No portion of the Federal funds will be used to provide professional training to any student as part of his education in pursuit of an academic degree.

(3) No project personnel or trainees shall on the grounds of sex, religion, or creed be excluded from participation in, be denied the benefits of, or be subjected to discrimination under the project.

(b) Provision of a methodology to assess the particular training (e.g., skills, attitudes, or knowledge) that prospective trainees in the area to be served need to improve their delivery of family planning services.

(c) Provision of a methodology to define the objectives of the training program in light of the particular needs of trainees defined pursuant to paragraph (b) of this section.

[1] Applications and instructions may be obtained from the Program Director, Family Planning Services, at the Regional Office of the Department of Health, Education, and Welfare for the region in which the project is to be conducted, or the Office of the Director, National Center for Family Planning Services, Health Services and Mental Health Administration, Rockville, MD 20852 for national programs.

FEDERAL REGISTER, VOL. 37, NO. 69—SATURDAY, APRIL 8, 1972

V 37-69 APR 8 72 XUM

(d) Provision of a method for development of the training curriculum and any attendant training materials and resources.

(e) Provision of a method for implementation of the needed training.

(f) Provision of an evaluation methodology, including the manner in which such methodology will be employed, to measure the achievement of the objectives of the training program.

(g) Provision of a method and criteria by which trainees will be selected.

§ 59.206 Evaluation and grant award.

(a) Within the limits of funds available for such purpose, the Secretary may award grants to assist in the establishment and operation of those projects which will in his judgment best promote the purposes of section 1003 of the Act, taking into account:

(1) The extent to which a training program will increase the delivery of services to people, particularly low-income groups, with a high percentage of unmet need for family planning services;

(2) The extent to which the training program promises to fulfill the family planning services delivery needs of the area to be served, which may include, among other things:

(i) Development of a capability within family planning service projects to provide pre- and in-service training to their own staffs;

(ii) Improvement of the family planning services delivery skills of family planning and health services personnel;

(iii) Improvement in the utilization and career development of paraprofessional and paramedical manpower in family planning services;

(iv) Expansion of family planning services, particularly in rural areas, through new or improved approaches to program planning and deployment of resources;

(3) The capacity of the applicant to make rapid and effective use of such assistance;

(4) The administrative and management capability and competence of the applicant;

(5) The competence of the project staff in relation to the services to be provided; and

(6) The degree to which the project plan adequately provides for the requirements set forth in § 59.205.

(b) The amount of any award shall be determined by the Secretary on the basis of his estimate of the sum necessary for all or a designated portion of direct project costs plus an additional amount for indirect costs, if any, which will be calculated by the Secretary either: (1) On the basis of his estimate of the actual indirect costs reasonably related to the project, or (2) on the basis of a percentage of all, or a portion of, the estimated direct costs of the project when there are reasonable assurances that the use of such percentage will not exceed the approximate actual indirect costs. Such award may include an estimated provisional amount for indirect costs or for designated direct costs (such as travel or supply costs) subject to upward (within the limits of available funds) as well as downward adjustments to actual costs when the amount properly expended by the grantee for provisional items has been determined by the Secretary.

(c) Except as may otherwise be provided by the regulations of this subpart, the identification of direct and indirect costs will be consistent with the generally accepted and established accounting practices that the grantee applies to its own activities and in conformance with the applicable principles set forth in chapters 1-76, 2-65, 2-66, 3-60, 3-80, and 5-60 of the Department of Health, Education, and Welfare Grants Administration Manual.[2]

(d) All grant awards shall be in writing, shall set forth the amount of funds granted and the period for which support is recommended.

(e) Neither the approval of any project nor any grant award shall commit or obligate the United States in any way to make any additional, supplemental, continuation, or other award with respect to any approved project or portthereof. For continuation support, grantees must make separate application annually at such times and in such form as the Secretary may direct.

§ 59.207 Payments.

The Secretary shall from time to time make payments to a grantee of all or a portion of any grant award, either in advance or by way of reimbursement for expenses incurred or to be incurred in the performance of the project to the extent he determines such payments necessary to promote prompt initiation and advancement of the approved project.

§ 59.208 Use of project funds.

(a) Any funds granted pursuant to this subpart as well as other funds to be used in performance of the approved project shall be expended solely for carrying out the approved project in accordance with the statute, the regulations of this subpart, the terms and conditions of the award, and, except as may otherwise be provided in this subpart, the cost principles set forth in the Department of Health, Education, and Welfare Grants Administration Manual.

(b) Prior approval by the Secretary of revision of the budget and project plan is required whenever there is to be a significant change in the scope or nature of project activities.

(c) The Secretary may approve the payment of grant funds to trainees for:

(1) Return travel to the trainee's point of origin.

(2) Per diem during the training program, and during travel to and from the program, at the prevailing institutional or governmental rate, whichever is lower.

[2] The Department Grants Administration Manual is available for inspection at the Public Information Office of the several Department Regional Offices and available for purchase at the Government Printing Office, GPO Document No. 894-523.

§ 59.209 Civil rights.

Attention is called to the requirements of Title VI of the Civil Rights Act of 1964 (78 Stat. 252, 42 U.S.C. 2000d et seq.) and in particular section 601 of such Act which provides that no person in the United States shall, on the grounds of race, color, or national origin be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. A regulation implementing such Title VI, which applies to grants made under this part, has been issued by the Secretary of Health, Education, and Welfare with the approval of the President (45 CFR Part 80).

§ 59.210 Inventions or discoveries.

Any grant award pursuant to § 59.206 is subject to the regulations of the Department of Health, Education, and Welfare as set forth in 45 CFR Parts 6 and 8, as amended. Such regulations shall apply to any activity for which grant funds are in fact used whether within the scope of the project as approved or otherwise. Appropriate measures shall be taken by the grantee and by the Secretary to assure that no contracts, assignments or other arrangements inconsistent with the grant obligation are continued or entered into and that all personnel involved in the supported activity are aware of and comply with such obligations. Laboratory notes, related technical data, and information pertaining to inventions and discoveries shall be maintained for such periods, and filed with or otherwise made available to the Secretary, or those he may designate at such times and in such manner, as he may determine necessary to carry out such Department regulations.

§ 59.211 Publications and copyright.

Except as may otherwise be provided under the terms and conditions of the award, the grantee may copyright without prior approval any publications, films or similar materials developed or resulting from a project supported by a grant under this part, subject, however, to a royalty-free, nonexclusive, and irrevocable license or right in the Government to reproduce, translate, publish, use, disseminate, and dispose of such materials and to authorize others to do so.

§ 59.212 Grantee accountability.

(a) *Accounting for grant award payments.* All payments made by the Secretary shall be recorded by the grantee in accounting records separate from the records of all other grant funds, including funds derived from other grant awards. With respect to each approved project the grantee shall account for the sum total of all amounts paid by presenting or otherwise making available evidence satisfactory to the Secretary of expenditures for direct and indirect costs meeting the requirements of this part: *Provided, however,* That when the amount awarded for indirect costs was based on a predetermined fixed-percentage of estimated direct costs, the amount allowed for indirect costs shall be computed on the basis of such predetermined fixed-percentage rates applied to the total, or a selected element thereof, of the reimbursable direct costs incurred.

(b) *Accounting for equipment.* As used in this section the term "equipment" means an article of property procured or fabricated which is complete in itself, is of a durable nature, and has an expected service life of more than 1 year. Equipment on hand on the date of termination for which accounting is required in accordance with the procedures set forth in chapter 1-410-50 of the Department of Health, Education, and Welfare Grants Administration Manual shall be identified and reported by the grantee in accordance with such procedures, and, accounted for by one or a combination of the following methods, as determined by the Secretary:

(1) *Retention of equipment for other family planning training projects.* Equipment may be used, without adjustment of accounts, on other grant-supported projects (whether or not federally supported) within the scope of section 1003 of the Act, and no other accounting for such equipment shall be required: *Provided, however,* (i) That during such period of use no charge for depreciation, amortization or for other use of the equipment shall be made against any existing or future Federal grant or contract, and (ii) if, within the period of its useful life, the equipment is transferred by sale or otherwise for use outside the scope of § 1003 of the Act, the Federal portion of the fair market value at the time of transfer shall be refunded to the Federal Government.

(2) *Sale or other disposition of equipment, crediting of proceeds or value.* The equipment may be sold by the grantee and the net proceeds of the sale credited to the grant account for project use, or they may be used or disposed of in any manner by the grantee by crediting to the grant account the Federal share of the fair market value on the termination date. To the extent equipment purchased from grant funds is used for credit or trade-in on the purchase of new equipment, the accounting obligation shall apply to the same extent to such new equipment.

(3) *Return or transfer of equipment.* The equipment may be returned to the Federal Government by the grantee or, in accordance with the provisions of chapter 1-410-50B of the Department of Health, Education, and Welfare Grants Administration Manual, may be transferred to another grantee for the purpose of continuing the project for which the equipment was purchased.

(c) *Accounting for grant-related income*—(1) *Interest.* Pursuant to section 203 of the Intergovernmental Cooperation Act of 1968 (42 U.S.C. 4213), a State will not be held accountable for interest earned on grant funds, pending their disbursement for grant purposes. A State, as defined in section 102 of the Intergovernmental Cooperation Act, means any one of the several States, the District of Columbia, Puerto Rico, any territory or possession of the United States, or any agency or instrumentality of a State, but does not include the governments of the political subdivisions of the State. All grantees other than a State, as defined in this subsection, must return all interest earned on grant funds to the Federal Government.

(2) *Royalties.* Royalties earned from publications or similar material produced from a grant must first be used to reduce the Federal share of the grant to cover the costs of publishing or producing the materials. Royalties in excess of the costs of publishing or producing the materials shall be distributed as in subparagraph (3) of this paragraph.

(3) *Other income.* Other income earned by the grantee shall be disposed of in accordance with one of the alternatives specified in chapter 1-420 of the Grants Administration Manual as determined by the Secretary in the grant award.

(d) *Grant closeout*—(1) *Date of final accounting.* A grantee shall render, with respect to each approved project, a full account, as provided herein, as of the date of the termination of grant support. The Secretary may require other special and periodic accounting.

(2) *Final settlement.* There shall be payable to the Federal Government as final settlement with respect to each approved project the total sum of:

(i) Any amount not accounted for pursuant to paragraph (a) of this section;

(ii) Any credits for equipment on hand as provided in paragraph (b) of this section;

(iii) Any credits for earned interest pursuant to paragraph (c)(1) of this section;

(iv) Any other settlements required pursuant to paragraph (c) (2) and (3) of this section.

Such total sum shall constitute a debt owed by the grantee to the Federal Government and shall be recovered from the grantee or its successors or assignees by set off or other action as provided by law.

§ 59.213 Records, reports, inspection, and audit.

(a) *Records and reports.* Each grant awarded pursuant to this subpart shall be subject to the condition that the grantee shall maintain such operational and accounting records, identifiable by grant number, and file with the Secretary such operational and fiscal reports relating to the use of grant funds, as the Secretary may find necessary to carry out the purposes of the Act and the regulations. All records shall be retained for 3 years after the close of the budget period. Such records may be destroyed at the end of such 3-year period if the applicant has been notified of the completion of the Federal audit by such time. If the applicant has not been so notified, such records shall be retained (1) for 5 years after the close of the budget period or (2) until the grantee is notified of the completion of the Federal audit, whichever comes first. In all cases where audit questions have arisen before the expiration of such 5-year period, records shall be retained until resolution of all such questions.

(b) *Inspection and audit.* Any application for grant under this subpart shall constitute the consent of the applicant to inspections of the facilities, equipment, and other resources of the applicant at reasonable times by persons designated by the Secretary and to interview with principal staff members to the extent that such resources and personnel are, or will be, part of the project. In addition, the acceptance of any grant under this subpart shall constitute the consent of the grantee to inspections and fiscal audits by such persons of the supported activity and of records relating to the use of grant funds.

§ 59.214 Additional conditions.

The Secretary may with respect to any grant award impose additional conditions prior to or at the time of any award when in his judgment such conditions are necessary to assure or protect advancement of the approved project, the interests of public health, or the conservation of grant funds.

§ 59.215 Early termination and withholding of payments.

Whenever the Secretary finds that a grantee has failed in a material respect to comply with the Act, the regulations of this subpart, or the terms of the grant, he may, on reasonable notice to the grantee, withhold further payments, and take such other action, including the termination of the grant, as he finds appropriate to carry out the purposes of the Act and regulations. Noncancelable obligations of the grantee properly incurred prior to the receipt of the notice of termination will be honored. The grantee shall be promptly notified of such termination in writing and given the reasons therefor.

Title 43—PUBLIC LANDS: INTERIOR

Chapter II—Bureau of Land Management, Department of the Interior

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 5196]

[Riverside 2818]

CALIFORNIA

Withdrawal for Protection of National Forest Watershed Area

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is ordered as follows:

1. Subject to valid existing rights, the following described national forest lands are hereby withdrawn from appropriation under the mining laws (30 U.S.C., ch. 2), but not from leasing under the mineral leasing laws, in aid of program of the Department of Agriculture:

V 37 • 69 APR 8 72 XUM

SAN BERNARDINO NATIONAL FOREST
SAN BERNARDINO MERIDIAN
Devil Canyon-Cloudland Watershed Area

T. 1 N., R. 4 W.,
Sec. 4, lots 2 to 4, inclusive, SW¼NE¼, S½NW¼, NW¼SE¼;
Sec. 5, lots 1 to 4, inclusive, lots 6 to 10, inclusive.
T. 2 N., R. 4 W.,
Sec. 19, lots 3 to 10, inclusive, NE¼, E½NW¼;
Sec. 20, lots 2 and 3;
Sec. 28, lots 2 to 4, inclusive, SW¼NW¼, N½SW¼, NW¼SE¼;
Sec. 29, lots 1 to 16, inclusive;
Sec. 30, lots 1 to 4, inclusive, NE¼, E½W½, E½SE¼;
Sec. 31, lot 4, SW¼NE¼, E½SW¼, W½SE¼;
Sec. 32, E½, SE¼NW¼, NE¼SW¼, N½SE¼SW¼;
Sec. 33, W½E½, W½.
T. 2 N., R. 5 W.,
Sec. 24, E½SE¼, E½W½SE¼.

The areas described aggregate 3,962.71 acres in San Bernardino County.

2. All of the lands described in paragraph 1 are national forest lands except those described as lots 3, 4, 9, and 10, sec. 19, and lot 4, and SE¼SW¼, sec. 30, T. 2 N., R. 4 W., which are privately owned lands, title to which is being transferred to the United States pursuant to a Forest Service exchange. These lands will become part of the San Bernardino National Forest and subject to all laws and regulations applicable thereto upon acquisition of title to said lands or interest therein by the United States under applicable law.

3. The withdrawal made by this order does not alter the applicability of those public land laws governing the use of national forest lands under lease, license, or permit, or governing the disposal of their mineral or vegetative resources other than under the mining laws.

HARRISON LOESCH,
Assistant Secretary of the Interior.

APRIL 4, 1972.

Title 45—PUBLIC WELFARE

Chapter I—Office of Education, Department of Health, Education, and Welfare

PART 151—FEDERAL FINANCIAL ASSISTANCE FOR RESEARCH AND RESEARCH RELATED ACTIVITIES IN THE FIELD OF EDUCATION AND FOR CONSTRUCTION OF NATIONAL AND REGIONAL RESEARCH FACILITIES

Experimental Schools; Grants for Small Schools in Rural Areas and Closing Date for Receipt of Applications

On page 5392 of the FEDERAL REGISTER of March 15, 1972 (Vol. 37, No. 51), there was published a notice of proposed rule making and closing date for receipt of applications to establish criteria, in addition to those already established under section 2 of the Cooperative Research Act (Public Law 83-531, as amended; 20 U.S.C. 331a) and regulations issued pursuant thereto (45 CFR Part 151 and 36 F.R. 13993 (July 29, 1971)), for the awarding of grants to small schools serving rural areas and to establish the closing date for receipt of applications. Such criteria supersede the requirements contained in 45 CFR 151.3 and 151.54(a)(1), to the extent inconsistent with such provisions, solely for the purposes of the competition provided for in this document. The notice of proposed rule making, published in the FEDERAL REGISTER on March 9, 1972 (Vol. 37, No. 47), does not apply to this competition.

Interested persons were given 15 days in which to submit written comments, suggestions, or objections regarding the proposed regulations.

No objections have been received and the proposed regulations are hereby adopted without change and are set forth below.

Effective date. These criteria and closing date for receipt of applications shall be effective 15 days after publication of this notice in the FEDERAL REGISTER.

Dated: March 31, 1972.

S. P. MARLAND, JR.,
Commissioner of Education.

Approved: April 4, 1972.

ELLIOT L. RICHARDSON,
Secretary.

1. Notice of establishment of closing date for receipt of letters of interest for the experimental schools program, small rural schools competition, to be conducted during fiscal year 1972 under section 2 of the Cooperative Research Act (Public Law 83-531, as amended; 20 U.S.C. 331a) and regulations issued pursuant thereto (45 CFR Part 151). Potential applicants are hereby notified that the small rural schools competition represents the first of a series of new announcements of experimental schools competitions. Notifications of closing dates for forthcoming competitions will also appear in the FEDERAL REGISTER.

Notice is hereby given that in order to be assured of consideration for grants in the experimental schools small rural schools competition, letters of interest, which constitute formal submissions of applications (and therefore must comply with 45 CFR 151.4), from eligible parties must be received in the U.S. Office of Education no later than 15 days after republication of this notice in the FEDERAL REGISTER following the period for public comment.

2. In addition to such other applicable requirements as may be contained in the Act and in 45 CFR Part 151, the following criteria shall apply to grants made under the small rural schools competition:

(1) An eligible applicant for the purposes of this competition is a local educational agency (or a combination of such agencies) which has no more than 2,500 children enrolled in its elementary and secondary schools, kindergarten (or, where kindergarten is not supported with public funds in the area to be served, grade 1) through grade 12, inclusive, and which serves a rural area.

(2) The project must serve all children enrolled in the applicant's schools.

(3) The schools served by the project must constitute a coherent feeder system, all schools of which are served by the project.

(20 U.S.C. 331a, 45 CFR Part 151)

[FR Doc.72-5497 Filed 4-7-72;8:50 am]

Title 49—TRANSPORTATION

Chapter II—Federal Railroad Administration, Department of Transportation

[Docket No. FRA Signal-4 Notice 3]

PART 233—SIGNAL SYSTEMS REPORTING REQUIREMENTS

PART 234—SIGNAL FAILURE REPORTS

The purpose of this amendment is to consolidate Parts 233 and 234 into Part 233 and revoke and delete Part 234; simplify the annual reports by replacing the three separate forms now required with a single form; require signal failures to be reported within 5 days of occurrence except where it resulted in an accident; add a new requirement that a negative report be filed within 10 days after the end of each calendar month in which no signal failure occurred; and add the statutory penalties for violations of the signal regulations to Part 233.

On November 18, 1971 the Federal Railroad Administrator (FRA) issued a notice of proposed rule making proposing a new Part 233 and revoking Part 234 for the purposes of a better and more effective administration of the Signal Inspection Act, 49 U.S.C. 26. The public was given an opportunity to comment upon the proposal. The period for submitting written comments was extended by publication of notice No. 2 for 30 days to January 14, 1972 upon request of the Association of American Railroads (AAR). Comments have been received from the Brotherhood of Railroad Signalmen (BRS), the River Terminal Railway Co. (RTR), and the Association of American Railroads.

After considering all the comments submitted in writing FRA has decided that some changes should be made in the proposed regulations. These changes are discussed under individual sections. Some of these changes reflect FRA's conclusions after carefully reviewing the comments. In addition, a number of editorial changes and minor clarifying modifications of language have been made. The changes made and the reasons for those changes follows:

Section 233.1. No comments were received concerning this section and it has not been changed.

Section 233.3. No comments were received concerning this section but the reference to the Interstate Commerce Act was deleted and the Signal Inspection Act substituted as more appropriate to the administration of this Act by FRA. The section number has been changed to section 26 of title 49 of the United States Code, the correct citation at this time.

Section 233.5. This section was amended to allow use of telephone as suggested by the AAR. The suggestion by the AAR that the report should be "at the earliest practicable moment" was considered too vague and the word "immediately" was retained. The carriers have had no serious problems complying with the word "immediately" under §§ 225.1 and 230.335 and it is used in the same sense as in § 233.5.

Section 233.7(a) has been changed to provide that duplicate reports would not be needed except where the report after an accident is by telephone. Since such reports are likely to be incomplete a completed Form FRA F6180-14 should be filed. The BRS indicated by its comments that the present reporting system for signal failures should be continued in use without any particular justification. FRA has decided to use the revised form since data on false restrictive failures has not proven very helpful in the past. If the form fails to produce the proper information in due course this can then be corrected. The 5-day period has been retained although the AAR and the RTR indicated that the period is too short. The new report form has been shortened and false restrictive failures deleted so that the average carrier will make only four or five reports at most during a year. The carriers should be able to comply with the 5-day rule without any undue hardship.

Section 233.7(b) has been retained although opposed by the AAR. For Administrative purposes this negative report is needed. Without the report FRA cannot determine whether there were no failures or whether a carrier just failed to file.

Since no comments have been received concerning §§ 233.9, 233.11, and 233.13 no changes have been made, except to change the citation in § 233.11 to the Signal Inspection Act, 49 U.S.C. 26.

In consideration of the foregoing, Chapter II of Subtitle B of Title 49 of the Code of Federal Regulations is amended, effective May 15, 1972, by adding a new Part 233 and revoking Part 234.

Issued in Washington, D.C., on April 4, 1972.

JOHN W. INGRAM,
Federal Railroad Administrator.

Sec.
233.1 Scope.
233.3 Application.
233.5 Accidents resulting from signal failure.
233.7 Signal failure reports.
223.9 Annual reports.
233.11 Civil penalty.
233.13 Criminal penalty.

AUTHORITY: The provisions of this Part 233 issued under secs. 12, 20, 24 Stat. 383, 386, as amended, sec. 441, 41 Stat. 498, as amended, secs. 6 (e), (f), 80 Stat. 939, 49 U.S.C. 12, 20, 26, 1655.

§ 233.1 Scope.

This part prescribes reporting requirements with respect to methods of train operation, interlocking and controlled points, automatic train stop, train control and cab signal systems or other similar appliances, devices, methods, and systems.

§ 233.3 Application.

This part applies to each common carrier by railroad subject to the Signal Inspection Act, 49 U.S.C. 26.

§ 233.5 Accidents resulting from signal failure.

Each carrier shall immediately report by telegram or telephone to the Associate Administrator for Safety, Office of Safety, Federal Railroad Administration, Washington, D.C. 20591, each accident described in § 225.14 of this chapter which involves failure of an appliance, device, method, or system subject to this part to indicate or function as intended. This notification should describe the failure and the role it played in the accident.

§ 233.7 Signal failure reports.

(a) Each carrier shall report, within 5 days, each failure not previously reported by telegram under § 233.5 of an appliance, device, method, or system subject to this part, to indicate or function as intended. Form FRA F6180-14, Signal Failure Report, shall be used for this report and completed in accordance with instructions printed on the Form.

(b) Whenever there have been no failures of the nature described in paragraph (a) of this section, on the line of a carrier in a calendar month, the carrier shall report this fact on Form FRA 6180-14 within 10 days after the end of that calendar month.

§ 233.9 Annual reports.

Not later than January 15 of each year, each carrier shall file a report for the preceding calendar year on Form FRA F6180-47, Signal Systems Annual Report, in accordance with instructions and definitions on the reverse side thereof.

§ 233.11 Civil penalty.

A carrier that fails or refuses to file reports as required by this part is liable to a civil penalty of $100 for each offense as prescribed by the Signal Inspection Act, 49 U.S.C. 26. Each day a failure or refusal continues is a separate offense.

§ 233.13 Criminal penalty.

Whoever knowingly and willfully—

(a) Makes, causes to be made, or participates in the making of a false entry in reports required to be filed by this part; or

(b) Files a false report or other document required to be filed by this part;

is subject to a $5,000 fine and 2 years imprisonment as prescribed by sec. 20 of the Interstate Commerce Act, 49 U.S.C. 20.

[FR Doc.72-5424 Filed 4-7-72;8:49 am]

Chapter V—National Highway Traffic Safety Administration, Department of Transportation

[Docket No. 69-20; Notice 3]

PART 571—FEDERAL MOTOR VEHICLE SAFETY STANDARDS

Accelerator Control Systems

The purpose of this notice is to establish a new motor vehicle safety standard that specifies requirements for accelerator control systems of passenger cars, multipurpose passenger vehicles, trucks, and buses.

A notice of proposed rule making on this subject was published September 30, 1970 (35 F.R. 15241). The majority of comments received supported the proposal. There were some objections and questions, which have been considered in formulating the final rule.

In the previous notice, the Administrator indicated the importance of this standard in reducing the number of accidents caused by runaway engines. Since 1966, 60 recall campaigns totaling over 2.9 million vehicles have involved this problem. Three percent of all complaints in the Administration's files have reported malfunctioning accelerator or carburetor systems. Because the ability of a driver to control his vehicle is directly related to the proper functioning of the accelerator control system, it is essential that this system perform as expected, especially when the driver removes the actuating force. Therefore, the standard sets requirements to insure the reliability of accelerator control systems over a wide range of driving conditions. Each system must include two independent sources of energy (such as springs) which shall return the throttle to idle upon the removal of the actuating force. In the case of breakage or disconnection in the accelerator system, the throttle shall return to idle either at the time of breakage or at the removal of the actuating force.

The latter requirement differs from the NPRM, which mandated a return to idle only when the actuating force was removed. Industry comments raised valid objections to this requirement. In some cases, if a breakage occurred and the system had to keep operating until the driver took his foot off the pedal, a complicated system of sensors would have to be built into the throttle which would activate the redundant energy sources precisely at the time of actual removal. Such a device would be too expensive for its possible safety benefit, since the incidence of accidents from engine loss of power are minimal when compared with runaway overspeed statistics. Manufacturers, therefore, have been given the option to use either return-to-idle mode.

Although many comments suggested modification of the temperature range, the ambient temperature levels in the NPRM are retained. A review of meteorological data indicates that these figures conform to possible driving conditions in various areas of the United States.

V 37-69
APR 8 72
XUM

There are four other proposed requirements in the NPRM that are not included in the final rule. These are the 300-pound force requirement, the coverage of automatic speed control systems, the freedom-of-movement requirement, and the coverage of motorcycles.

Several commenters raised objections to the 300-pound overforce, and some asked for a lesser force than 300 pounds. It was found on review that the safety benefits of an overforce test has not been demonstrated sufficiently and the requirement has been dropped from the rule.

The rule does not contain requirements for automatic speed control devices. It was found that although nine recall campaigns involving 61,176 vehicles have concerned these devices, no relationship to accelerator overspeed accidents could be established from automatic speed controls. Of the 540 multidisciplinary accident reports that were studied in formulating the final rule, none mentioned the automatic system. The requirements of the NPRM reiterated SAE recommendations that are already used by manufacturers.

The "freedom-of-movement" paragraph raised objections of subjectivity and difficulty of implementation. Enforcement through compliance testing would lead to controversy over the imprecise meaning of "necessary chafing." It appears that to comply with the final rule, the accelerator system will have to be free of excessive and unsafe rubbing and friction.

The decision to eliminate motorcycles from the applicability of this standard is based on the fact that motorcycles are so different in design from the other vehicles covered that definitions and failure modes are dissimilar. Also, a safety standard specifically tailored for motorcycle controls (Docket 70–26) will be issued this year.

This issue of the FEDERAL REGISTER contains a notice of proposed rule making to amend Standard No. 124 (37 F.R. 7108). The proposal is that the two independent sources of energy would return the throttle idle within one-half second after the removal of the actuating force or a breakage or disconnection in the accelerator control system.

This standard is directed at the hazard caused by a failure in the accelerator control system. Those engine overspeed incidents caused by other failure modes such as broken or worn engine mounts are not addressed by this rule making action. The NHTSA is presently developing performance requirements for safety under other failure modes.

In consideration of the foregoing, Part 571 of Title 49, Code of Federal Regulations, is amended by adding a new § 571.124, Motor Vehicle Safety Standard No. 124, as set forth below.

Effective date: September 1, 1973.

Because of the development work and preparation for production that this standard will require, it is found that an effective date later than 1 year from the date of issuance is in the public interest. Accordingly, the standard is effective September 1, 1973.

This rule is issued under the authority of sections 103 and 119 of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1392. 1407) and the delegation of authority at 49 CFR 1.51.

Issued on March 31, 1972.

DOUGLAS W. TOMS,
Administrator.

§ 571.124 Accelerator control systems (Motor Vehicle Safety Standard No. 124) effective September 1, 1973.

S1. *Scope.* This standard establishes requirements for the return of a vehicle's throttle to the idle position when the driver removes the actuating force from the accelerator control, or in the event of a breakage or disconnection in the accelerator control system.

S2. *Purpose.* The purpose of this standard is to eliminate deaths and injuries resulting from engine overspeed caused by malfunctions in the accelerator control system.

S3. *Application.* This standard applies to passenger cars, multipurpose passenger vehicles, trucks, and buses.

S4. *Definitions.*

S4.1 "Driver-operated accelerator control system" means all vehicle components, except the fuel metering device, that regulate engine speed in direct response to movement of the driver-operated control and that return the throttle to the idle position upon release of the actuating force.

"Fuel metering device" means the carburetor, or in the case of certain engines, the fuel injector, fuel distributor, or fuel injection pump.

"Throttle" means the component of the fuel metering device that connects to the driver-operated accelerator control system and that by input from the driver-operated accelerator control system controls the engine speed.

"Idle position" means the position of the throttle that will provide the lowest engine speed for existing conditions according to the manufacturers' recommendations. These conditions include, but are not limited to, engine speed adjustments for cold engine, air conditioning equipment, and emission control equipment.

S4.2 In the case of vehicles powered by electric motors, the word "throttle" and "idle" refer to the motor speed controller and motor shutdown, respectively.

S5. *Requirements.* The vehicle shall be equipped with a driver-operated accelerator control system that meets the following requirements when the engine in running under any load condition, and at any ambient temperature between −40° F. and +125° F. after 12 hours of conditioning at any temperatures within that range.

S5.1 The system shall include at least two sources of energy, each of which is independently capable of returning the throttle to the idle position from any accelerator position or speed whenever the driver removes the opposing actuating force.

S5.2 The throttle shall return to the idle position from any accelerator position or any speed of which the engine is capable whenever any element of the accelerator control system becomes disconnected or broken. The return to idle shall occur at the time of breakage or disconnection or at the time of the first removal of the opposing actuating force by the driver.

Proposed Rule Making

DEPARTMENT OF JUSTICE

Immigration and Naturalization Service

[8 CFR Parts 103, 205, 235, 242, 246, 247, 280, 292]

ADMINISTRATIVE PROCEEDINGS BEFORE SERVICE OFFICERS

Service of Notices, Decisions, and Other Papers

Pursuant to section 553 of Title 5 of the United States Code (80 Stat. 383), notice is hereby given of the proposed issuance of the following rules pertaining to the service of notices, decisions, and other papers (except warrants and subpoenas) in administrative proceedings before Service officers.

In accordance with section 553, interested persons may submit to the Commissioner of Immigration and Naturalization, Room 757, 119 D Street NE., Washington, DC 20536, written data, views, or arguments, in duplicate, relative to the proposed rules. Such representations may not be presented orally in any manner. All relevant material received within 20 days following the date of publication of this notice will be considered.

PART 103—POWERS AND DUTIES OF SERVICE OFFICERS; AVAILABILITY OF SERVICE RECORDS

1. In § 103.3, the third sentence of paragraph (a) is revised. As amended, § 103.3(a) reads, in part, as follows:

§ 103.3 Denials, appeals, and precedent decisions.

(a) *Denials and appeals.* Whenever a formal application or petition filed under § 103.2 is denied, the applicant shall be given written notice setting forth the specific reasons for such denial. If the notification is made on Form I–292, the signed duplicate thereof constitutes the order of denial. When the applicant is entitled to appeal to another Service officer, the notice shall advise him that he may appeal from the decision, and that such appeal may be taken within 15 days after the service of the notification of decision, accompanied by a supporting brief if desired and a fee of $25, by filing Notice of Appeal, Form I–290B, which shall be furnished with the written notice. • • •

• • • • • •

2. A new § 103.5a is added to read as follows:

§ 103.5a Service of notification, decisions, and other papers by the Service.

This section states authorized means of service by the Service on parties and on attorneys and other interested persons of notices, decisions, and other papers (except warrants and subpoenas) in administrative proceedings before Service officers as provided in this chapter.

(a) *Definitions*—(1) *Routine service.* Routine service consists of mailing of a copy by ordinary mail addressed to a person at his last-known address.

(2) *Personal service.* Personal service, which shall be performed by a Government employee, consists of any of the following, without priority or preference:

(i) Delivery of a copy personally;

(ii) Delivery of a copy at a person's dwelling house or usual place of abode by leaving it with some person of suitable age and discretion;

(iii) Delivery of a copy at the office of an attorney or other person, including a corporation, by leaving it with a person in charge;

(iv) Mailing a copy by certified or registered mail, return receipt requested, addressed to a person at his last-known address.

(b) *Effect of service by mail.* Whenever a person has the right or is required to do some act within a prescribed period after the service of a notice upon him and the notice is served by mail, 3 days shall be added to the prescribed period. Service by mail is complete upon mailing.

(c) *When personal service required.* Except where delivery in person is otherwise specifically prescribed, in any proceeding which is initiated by the Service, with proposed adverse effect, service of the initiating notice and of notice of any decision by a Service officer shall be accomplished by personal service.

(d) *When personal service not required.* Service of other types of papers in proceedings described in paragraph (c) of this section, and service of any type of papers in any other proceedings, may be accomplished either by routine service or by personal service.

(e) *Persons confined in institutions; minors and incompetents.* Persons confined, also minors and incompetents, shall be served directly unless incapable of understanding the nature of the proceeding. In addition, they shall be served by substituted service, as follows:

(1) *Persons confined.* Service shall be made upon the person in charge of the penal or mental institution or hospital where the person concerned is confined.

(2) *Minors and incompetents.* Service shall be made upon the person with whom a minor under the age of 14 years or an incompetent resides; whenever possible, service shall also be made upon his near relative, guardian, committee, or friend.

PART 205—REVOCATION OF APPROVAL OF PETITIONS

In § 205.3, the last sentence is amended. As amended, § 205.3 reads as follows:

§ 205.3 Procedure.

Revocation of approval of a petition under § 205.2 shall be made only upon notice to the petitioner who shall be given an opportunity to offer evidence in support of the petition and in opposition to the grounds alleged for revocation of the approval. If upon reconsideration the approval previously granted is revoked, the petitioner shall be informed of the decision with the reasons therefor and shall have 15 days after the service of the notification of decision within which to appeal as provided in Part 3 of this chapter, if the petition was filed for a preference under paragraph (1), (2), (4), or (5) of section 203(a) of the Act, or for an immediate relative as defined in section 201(b) of the Act other than a child as defined in section 101(b)(1)(F) of the Act, or as provided in Part 103 of this chapter, if the petition was filed for a preference under paragraph (3) or (6) of section 203(a) of the Act, or for a child as defined in section 101(b)(1)(F) of the Act, and the consular office having jurisdiction over the visa application shall be notified of the revocation.

PART 235—INSPECTION OF PERSONS APPLYING FOR ADMISSION

In § 235.8, the second sentence of paragraph (a) is amended. As amended, § 235.8(a) reads, in part, as follows:

§ 235.8 Temporary exclusion.

(a) *Report.* Any immigration officer who temporarily excludes an alien under the provisions of section 235(c) of the Act shall report such action promptly to the district director having administrative jurisdiction over the port at which such alien arrived. The immigration officer shall, if possible, take a brief sworn question and answer statement from the alien, and the alien shall be notified by personal service of Form I–147 of the action taken and the right to make written representations. • • •

• • • • • •

PART 242—PROCEEDINGS TO DETERMINE DEPORTABILITY OF ALIENS IN THE UNITED STATES: APPREHENSION, CUSTODY, HEARING, AND APPEAL

1. Paragraph (c) of § 242.1 is amended to read as follows:

§ 242.1 Order to show cause and notice of hearing.

• • • • • •

(c) *Service.* Service of the order to show cause shall be accomplished by personal service. When personal delivery of an order to show cause is made by an immigration officer, the contents of the order to show cause shall be explained and the respondent shall be advised that

V 37 • 69 APR 8 72 XUM

any statement he makes may be used against him. He shall also be advised of his right to representation by counsel of his own choice at no expense to the Government.

§ 242.2 [Amended]

2. The 10th sentence of paragraph (b) *Authority of special inquiry officers; appeals* of § 242.2 *Apprehension, custody, and detention* is amended to read as follows: "An appeal to the Board shall be taken from a determination by a special inquiry officer or from an appealable determination by a district director, acting district director, or deputy district director by filing a notice of appeal with the district director within 5 days after the date when written notification of the determination is served upon the respondent and the Service."

3. In § 242.3, the last sentence of paragraph (a) is revised. As amended, § 242.3(a) reads as follows:

§ 242.3 Aliens confined to institutions; incompetents, minors.

(a) *Service.* If the respondent is confined in a penal or mental institution or hospital and is competent to understand the nature of the proceedings, a copy of the order to show cause, and the warrant of arrest, if issued, shall be served upon him and upon the person in charge of the institution or hospital. If the respondent is not competent to understand the nature of the proceedings, a copy of the order to show cause, and the warrant of arrest, if issued, shall be served only upon the person in charge of the institution or hospital in which the respondent is confined, such service being deemed service upon the respondent. In case of mental incompetency, whether or not confined in an institution, and in the case of a minor under 14 years of age, a copy of the order and of the warrent of arrest, if issued, shall be served upon such respondent's guardian, near relative, or friend, whenever possible.

* * * * *

PART 246—RESCISSION OF ADJUSTMENT OF STATUS

In § 246.1, the first sentence is amended. As amended, § 246.1 reads, in part, as follows:

§ 246.1 Notice.

If it appears to a district director that a person residing in his district was not in fact eligible for the adjustment of status made in his case, a proceeding shall be commenced by the personal service upon such person of a notice of intention to rescind which shall inform him of the allegations upon which it is intended to rescind the adjustment of his status. * * *

PART 247—ADJUSTMENT OF STATUS OF CERTAIN RESIDENT ALIENS

In § 247.11, the first sentence is amended. As amended, § 247.11 reads, in part, as follows:

§ 247.11 Notice.

If it appears to a district director that an alien residing in his district, who was lawfully admitted for permanent residence, has an occupational status described in section 247 of the Act, he shall cause a notice on Form I–509 to be served on such alien by personal service informing him that it is proposed to adjust his status, unless the alien requests that he be permitted to retain his status as a resident alien and executes and files with such district director a Form I–508 (Waiver of Rights, Privileges, Exemptions and Immunities) and, if a French national receiving salary from the French Republic, Form I–508F (election as to tax exemption under the Convention between the United States and the French Republic), within 10 days after service of the notice, or the alien, within such 10-day period, files with the district director a written answer under oath setting forth reasons why his status should not be adjusted. * * *

PART 280—IMPOSITION AND COLLECTION OF FINES

In § 280.11, the third and fourth sentences are amended. As amended, § 280.11 reads, in part, as follows:

§ 280.11 Notice of intention to fine; procedure.

Notice of Intention to Fine, Form I–79, shall be prepared in triplicate, with one additional copy for each additional person on whom the service of such notice is contemplated. The notice shall be addressed to any or all of the available persons subject to fine. A copy of the notice shall be served by personal service on each such person. If the notice is delivered personally, the person upon whom it is served shall be requested to acknowledge such service by signing his name to the duplicate and triplicate copies. * * *

PART 292—REPRESENTATION AND APPEARANCES

In § 292.5, paragraph (a) is revised by deleting the last sentence thereof. As amended, § 292.5(a) reads as follows:

§ 292.5 Service upon and action by attorney or representative of record.

(a) *Representative capacity.* Whenever a person is required by any of the provisions of this chapter to give or be given notice; to serve or be served with any paper other than a warrant of arrest or a subpena; to make a motion; to file or submit an application or other document; or to perform or waive the performance of any act, such notice, service, motion, filing, submission, performance, or waiver shall be given by or to, served by or upon, made by, or requested of, the attorney or representative of record, or the person himself if unrepresented.

* * * * *

(Sec. 103, 66 Stat. 173; 8 U.S.C. 1103)

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 966]

[Docket No. AO–265–A4]

TOMATOES GROWN IN FLORIDA

Determination on Basis of Results of Referendum on Proposed Amendment of Marketing Agreement and Order

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U.S.C. 601–674), and the applicable rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held in Orlando, Fla., October 7, 1971. It was held pursuant to a notice thereof which was published in the September 10, 1971, issue of the FEDERAL REGISTER (36 F.R. 18212) upon a proposed amendment to add authority for paid advertising and promotion to Marketing Agreement No. 125 and order No. 986, both as amended, regulating the handling of tomatoes grown in Florida.

The recommended decision of the Deputy Administrator, Consumer and Marketing Service, was published in the December 21, 1971, issue of the FEDERAL REGISTER (36 F.R. 24120). The decision of the Assistant Secretary was published in the February 8, 1972, issue (37 F.R. 2845), accompanied by an order directing that a referendum be conducted among producers of tomatoes in the aforesaid production area to determine whether the requisite majority of such producers favored or approved issuance of the proposed amendment.

It is hereby determined, on the basis of the results of the referendum conducted March 13 through 24, 1972, pursuant to the aforesaid referendum order, that the issuance of the said proposed amendment is not approved or favored (1) by at least two-thirds of the producers participating in such referendum and who, during the determined representative period (August 1, 1970, through July 31, 1971), were engaged in the production for market of tomatoes grown in the production area, or (2) by producers of at least two-thirds of the volume of production of such tomatoes represented in the aforesaid referendum.

It is hereby further determined that the proposed amendment to the marketing order should not be made effective, and in view of the circumstances, the proposed amended agreement should not be entered into.

Dated: April 4, 1972.

RICHARD E. LYNG,
Assistant Secretary.

[FR Doc.72–5392 Filed 4–7–72;8:46 am]

Farmers Home Administration

[7 CFR Part 1823]

[FHA Instruction 442.9]

COMMUNITY FACILITIES, DEVELOPMENT, CONSERVATION, AND UTILIZATION

Processing Loans to Associations (Except for Domestic Water and Waste Disposal)

Notice is hereby given that the Farmers Home Administration has under consideration a proposed amendment to Subpart I of Part 1823, "Processing Loans to Associations (Except for Domestic Water and Waste Disposal)," Title 7, Code of Federal Regulations (35 F.R. 15091) by the addition of §§ 1823.280 through 1823.289. This amendment provides guidelines pertaining to accounting systems, management reports, and audits for FHA borrowers.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposed amendment to the Assistant Administrator for Management, Farmers Home Administration, U.S. Department of Agriculture, Room 5013, South Building, Washington, D.C. 20250, within 20 days after date of publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Assistant Administrator for Management during regular business hours. (8:15 a.m.–4:45 p.m.)

As proposed, the new §§ 1823.280 through 1823.289 read as follows:

§ 1823.280 Loan servicing.

Loans will be serviced in accordance with Subpart C of Part 1861 of this chapter.

§ 1823.281 Management assistance.

Management assistance will be based on such key factors as observation of borrower operations and facility maintenance and review of the periodic management and audit reports. The amount and type of assistance provided will be that needed to assure borrower success and compliance with its agreements with FHA.

(a) *Borrower management reports, audits, and accounting systems.* Requirements pertaining to borrower accounting systems and management reports are detailed in §§ 1823.282 through 1823.289. Requirements pertaining to audit reports are contained in a booklet entitled, "FHA Instructions to Independent Certified Public Accountants and Licensed Public Accountants." Copies of the audit booklet will be given to each applicant not later than delivery of the letter of conditions.

(1) *Management reports.* (i) County Supervisors will obtain from the borrowers and forward to the State Director two copies of periodic management reports within 20 days after the end of the period shown below:

Type of borrower	Form FHA 442-2 "Statement of income and expense for fiscal year to date"	Form FHA 442-3 "Balance sheet"
Recreation	Quarter	Fiscal year.
Grazing	Semiannual	Do.
Drainage, irrigation, or other soil and water conservation.	Fiscal year	Do.
Watershed	do	Do.
Timber development	do	Do.
Incorporated Economic opportunity cooperative.	Quarter	Do.
RC&D	(In accordance with purpose of loan.)	

(ii) County Supervisors will also obtain from the borrowers shown in subdivision (i) of this subparagraph, Form FHA 442–1, "Forecast of Cash Receipts and Disbursements (Operating Budget)," for the new fiscal year and forward it to the State Director no later than 20 days after the beginning of the borrower's new fiscal year.

(iii) Unincorporated Economic Opportunity Cooperatives having an annual gross income of $10,000 or less will not be required to submit periodic management reports nor minutes of meetings unless the State Director desires otherwise.

(iv) The State Director will designate a member of the Community Programs staff to be responsible for the review of borrower management reports. Ordinarily, review findings and instructions regarding further assistance will be forwarded to FHA field personnel within 20 days of submission for delinquent and problem borrowers, and within 40 days for other borrowers. Form FHA 430–4, "Five Year Progress Report," will be updated during each State Office review.

(v) Copies of review findings, instructions for further assistance, and management reports pertaining to delinquent and problem borrowers will be forwarded to the National Office. The State Director may:

(*a*) After the end of the borrower's third full fiscal year of operation, exempt it from submitting management reports other than annually, provided it is current on its loans; is meeting the conditions of its agreements with FHA; is properly maintaining its facility; and has demonstrated its ability to successfully operate its facility and manage its affairs. Borrowers qualifying for this exemption will only be required to submit copies of Forms FHA 442–1, FHA 442–2, FHA 442–3, and for those borrowers required to submit an audit, a copy of the audit report.

(*b*) Reinstate the requirement for submission of periodic management reports for those borrowers who become delinquent or otherwise are not carrying out their agreements with FHA.

(c) Require more frequent submission of management reports.

(2) *Audit reports and accounting systems.* (i) The County Supervisor will obtain audit reports from those borrowers required to submit such reports, and send them to the State Director for forwarding to the National Office. All audit reports will receive National Office review. Review results and recommendations or instructions for further assistance and audit preparation will be provided the State Director.

(ii) Borrowers accounting systems must be approved by the State Director before loan funds are advanced.

(iii) The State Director may:

(*a*) Waive FHA accounting and auditing requirements for a public entity borrow if State statutes or regulations require adequate accounting and auditing procedures, and if he has reasonable assurance that he will obtain the necessary financial information for borrower assistance from the accounting system and audit reports prepared in accordance with such statutes or regulations.

(*b*) Require an audit report from any borrower in addition to those described in §§ 1823.282 through 1823.289, when he determines that FHA or the borrower's interests would be better protected if such an audit were made.

(*b*) *Application to borrowers indebted to FHA on receipt of this subpart*—(1) *Management reports.* The requirements of this subpart will apply.

(2) *Accounting systems.* The requirements of this subpart apply to all such borrowers who the State Director determines are not now maintaining adequate accounting systems.

(c) *District Supervisor reports.* The District Supervisor will complete and forward to the State Director form FHA 422–4, "District Supervisor Report Association—Organization Borrowers," for all borrowers between the fourth and ninth month of operation in the first year, and prior to March 31 of each year for borrowers delinquent in making their annual payments by January 21. Unincorporated Economic Opportunity Cooperatives and borrowers transferred to collection only are excluded.

(d) *Security inspections.* A representative of the borrower will ordinarily accompany the FHA County Supervisor during each inspection.

(1) *Initial inspection.* The County Supervisor will inspect each borrower's security property and facility at the end of the first year of operation. The results of this inspection will be reported to the State Director on Form FHA 424–12, "Inspection Report."

(2) *Subsequent inspections.* The County Supervisor will make subsequent inspections of borrower security property and facilities during each third year after the initial inspection. The results of this inspection will be reported to the State Director on Form FHA 424–12.

(3) *Special inspections.* The County Supervisor may request or the State Director may determine the need for a member of his State staff to make certain security inspections. In such cases the

V 37-69 APR 8 72 XUM

State Director will detail a member of his staff to make such inspections.

(4) *Followup inspections.* If any inspection discloses deficiences or exceptions or otherwise indicates a need for subsequent inspections prior to the third year, the State Director will prescribe the type and frequency of followup inspections. These inspections will be made until all deficiencies and exceptions have been corrected.

§ 1823.282 Introduction.

This section and §§ 1823.283 through 1823.289 set forth guidelines pertaining to accounting systems, management reports, and audits for FHA borrowers. Accounting systems which utilize the suggested chart of accounts and which are maintained in accordance with generally accepted accounting principles, will supply the necessary accounting data for borrower operations.

§ 1823.283 Borrower responsibilities.

All FHA borrowers are required to maintain adequate records and accounts and submit financial and statistical reports to FHA. Borrower agreements provide that FHA representatives may have access to and the right to inspect any or all books, records, and accounts pertaining to the facility of the borrower. Those elected and/or appointed officials (hereinafter referred to as governing bodies) of the borrower, are by virtue of their position charged with:

(a) Accepting their responsibilities as defined in the articles of incorporation and bylaws, the statutes under which they operate, and the terms of their agreements with FHA.

(b) Conducting borrower affairs so that the terms of its agreements with FHA will be fulfilled.

(c) Maintaining accounting records adequate for successful operation.

(d) Preparation of reports necessary for successful management and operation and submitting copies of such reports to FHA as required.

(e) Planning for sufficient income and control costs to the extent necessary to assure that all financial obligations can be paid when due.

(f) Establishing and maintaining rules, regulations, rate schedules, fees, assessments, and policies necessary for orderly and economic operation.

(g) Providing proper control and management of operations, and informing membership, users, or patrons of organization goals, activities, and current financial situation.

§ 1823.284 Accounts and records.

Each borrower shall keep and safely preserve, its books of account, and all other books, records, and memoranda which support the entries in such books of account so as to be able to furnish full information as to any items included in any account. Each entry shall be supported by such detailed information as will permit ready identification, analysis, and verification of all facts relevant thereto.

(a) *Accounting systems.* Each FHA borrower is responsible for establishing and maintaining its accounting system, which must be operational and approved by FHA before any loan funds are received. Systems shall be maintained on an accrual basis.

(1) Borrowers with small operations may use Form FHA 430–5, "Soil and Water Association Record Book."

(2) Accounting systems required by a State or regulatory agency for public entities may be acceptable to FHA.

(3) A recommended minimum chart of accounts is shown in § 1823.289.

(4) Accounting systems may be maintained by borrower personnel, a bookkeeping service, a computer service or through other arrangements satisfactory to the borrower and FHA.

(b) *Closing of books.* Each borrower shall close its accounting records at the end of its fiscal year unless State statutes or regulations prescribe otherwise.

(c) *Bank accounts.* (1) Borrowers shall maintain a bank account or bank accounts in a bank whose deposits are insured by the Federal Deposit Insurance Corporation.

(2) The private bank account of the borrower shall be known as the Revenue Fund Account and all revenue shall be deposited therein and expended and used only in the manner prescribed by the bond ordinance, loan agreement, or loan resolution.

(3) The reserve cash account may be invested in an interest bearing savings account, certificates of deposit, treasury bills, a savings and loan association account or may be used to make a prepayment on the FHA loan.

§ 1823.285 Management reports.

Effective decisions by governing bodies are critical to successful operation. In order to make effective decisions the governing body must receive timely information by means of financial and other appropriate reports which will assist it in the fulfillment of its basic tasks, the formulation of plans to achieve goals, and the control of operations to accomplish planned results. The following minimum required reports will furnish the governing body with a means of evaluating prior decisions and serve as a basis for planning the future operations and financial conditions of the borrower.

(a) *Forecast of cash receipts and disbursements (operating budget).* (1) Form FHA 442–1 will be prepared and adopted by the governing body prior to the beginning of each fiscal year. It should be based on realistic and informed estimates of expected receipts and disbursements for the coming fiscal year. Planning should generally be done on the basis of control of expenses as much as possible, and making sure that rates, fees, and so forth, are set to provide the necessary revenue. Throughout the year, other financial reports which compare the forecast with actual receipts and disbursements will provide valuable information in the preparation of future budgets.

(2) Two copies of Form FHA 442–1, and copies of the minutes of the meeting at which it was approved will be submitted to the FHA County Supervisor no later than 20 days after the beginning of the borrower's new fiscal year.

(b) *Statement of income and expense for the fiscal year to date.* Form FHA 442–2 will be used to detail the income and expenses during a given accounting period. Two copies of Form FHA 442–2 will be forwarded to the FHA County Supervisor each time it is prepared.

(c) *Balance sheet.* Form FHA 442–3 is a statement of financial conditions and discloses the assets, liabilities, reserves, and net worth of the borrower as of the end of an accounting period such as quarterly, semiannually or annually. The balance sheet shall be prepared as often as needed by the governing body. Two copies of Form FHA 442–3, prepared as of the end of the fiscal year, will be forwarded to the FHA County Supervisor no later than 20 days after the end of the fiscal year.

(d) *Report submission.* Those borrowers using a machine accounting system may submit print-out type reports providing these reports are in the format of the required FHA forms. Also, borrowers desiring to submit more detailed information than required by FHA forms may attach such detail to the related FHA form.

§ 1823.286 Additional reports.

Each borrower is required to provide the FHA County Supervisor within 20 days following the end of the fiscal year the following:

(a) A letter showing:

(1) The name, address, and term of office for each member of the governing body, and

(2) The number of members benefiting from the facility.

(b) Evidence that required property and liability insurance, workman's compensation, and fidelity bond premiums have been paid.

§ 1823.287 Audits.

FHA borrowers required to have an annual audit performed by an independent public accountant are: Those whose projected gross income for a full year of operations (column 3 of Form FHA 442–1), exceeds $25,000, and others as required by the FHA State Director. Borrowers whose annual gross income is less than $25,000 may have an annual audit made by an independent public accountant.

(a) An independent public accountant is an independent certified public accountant or an independent licensed public accountant licensed on or before December 31, 1970, who is certified or licensed by a regulatory authority of a State or other political subdivision of the United States.

(b) Audits will be prepared in accordance with the requirements of the handbook, "Instructions to Independent Certified Public Accountants and Licensed Public Accountants Performing Audits of Farmers Home Administration Borrowers and Grantees."

(c) Audit reports prepared for a borrower in accordance with the requirements of a State or other regulatory agency, may be accepted by FHA in lieu of those required in paragraph (b) of this section.

(d) A copy of the audit report will be forwarded to the FHA County Supervisor by the borrower as soon as it is received.

§ 1823.288 Financial reports for organizations not required to submit an audit report.

Borrowers whose annual gross incomes for a full year of operation are less than $25,000 and not having an annual audit made by an independent public accountant, will within 60 days following the end of each fiscal year, furnish the FHA County Supervisor with an annual report, consisting of a verification of the organization's balance sheet and statement of income and expense by a committee of the membership not including any officer, director, or employee. Such committees will be appointed by the borrower's governing body and will certify to its examination of the accounts and records. The final statement of income and expense (Form FHA 442–2), for the year and the balance sheet (Form FHA 442–3) will be used.

§ 1823.289 Minimum chart of accounts for FHA borrowers.

Each FHA borrower shall keep its books of account and all other books, records, and memoranda which support the entries in such books of account so as to be able to furnish readily full information as to any item included in any account. Each entry shall be supported by such detailed information as will permit a ready identification, analysis, and verification of all facts relevant thereto. This is a minimum suggested chart of accounts for FHA borrowers. Each borrower should establish a general ledger using only those accounts that are necessary to adequately furnish the information needed to prepare balance sheets and other financial reports. Other needed accounts may be added. Some accounts with credit balances are included among the assets because this is the order in which these accounts are usually shown on the balance sheet. (Example: Allowance for Uncollectible Receivables.)

(a) The numbers preceding each account are for reference purposes only and are not intended to represent a comprehenesive method of coding.

[CGD 72-51 CP]

APRA HARBOR, GUAM

Proposed Anchorage Grounds, Navigation Areas and Security Zones; Correction

The document proposing to add Part 128 to Title 33 of the Code of Federal Regulations, published in the FEDERAL REGISTER on Wednesday, March 15, 1972 (37 F.R. 5392), erroneously described the Apra Harbor Regulated Navigation Area. This document corrects the errors. Therefore, it is proposed to add § 128.-1401(a) to read as follows:

§ 128.1401 Apra Outer Harbor, Guam.

(a) The following is a Regulated Navigation Area—The waters of the Pacific Ocean and Apra Outer Harbor enclosed by a line beginning at latitude 13°26'47" N., longitude 144°35'07" E.; thence to Spanish Rocks at latitude 13°27'09.5" N., longitude 144°37'20.6" E.; thence along the shoreline of Apra Outer Harbor to latitude 13°26'28.1" N., longitude 144° 39'52.5" E. (the northwest corner of Polaris Point); thence to latitude 13°26' 40.2" N., longitude 144°39'28.1" E.; thence to latitude 13°26'32.1" N., longitude 144°39'02.8" E.; thence along the shoreline of Apra Outer Harbor to Orote Point at latitude 13°26'42" N., longitude 144°36'58.5" E.; thence to the beginning.

Federal Aviation Administration

[14 CFR Part 75]

[Airspace Docket No. 72-WA-14]

AREA HIGH ROUTE

Proposed Designation

The Federal Aviation Administration (FAA) is considering an amendment to Part 75 of the Federal Aviation Regulations that would designate area high route J992R from Refinery, Tex., to Tulsa, Okla.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southwest Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Post Office Box 1689, Fort Worth, TX 76101. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, DC 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

This route would serve as a bypass route to the Dallas terminal complex for flights northbound from the Houston area to Kansas City, Chicago, or Washington, D.C. areas. It would additionally provide an alternate route to the Houston area from these points.

The FAA proposes to amend Part 75 of the Federal Aviation Regulations by designating an area high route as follows:

V 37-69 APR 8 72 XUM

J992R Refinery, Tex., to Tulsa, Okla.		
Humble, Tex...	354.0°M/20.0NM...	Lat. 30°17'26" N., long. 95°19'55" W.
Greater Southwest, Tex.	076.5°M/76.7NM...	Lat. 32°54'39" N., long. 95°31'36" W.
Oklahoma City, Okla.	055.4°M/106.9NM...	Lat. 36°11'46" N., long. 98°47'16" W.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348 (a)) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655 (c)).

Issued in Washington, D.C., on April 3, 1972.

H. B. Helstrom,
Chief, Airspace and Air Traffic Rules Division.

[FR Doc.72-5384 Filed 4-7-72;8:46 am]

[14 CFR Part 91]

[Docket No. 11844; Notice 72-10]

GENERAL OPERATING AND FLIGHT RULES

Advance Notice of Proposed Rule Making

The Federal Aviation Administration is considering rule making with respect to Part 91 of the Federal Aviation Regulations concerning the reorganization and clarification of that part.

This advance notice of proposed rule making is being issued in accordance with the FAA's policy for the early institution of public proceedings in actions related to rule making. An "advance" notice is issued to invite early public participation in the identification and selection of a course or alternate courses of action with respect to a particular rule making problem.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should identify the regulatory docket or notice number and be submitted in duplicate to: Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, GC-24, 800 Independence Avenue SW., Washington, DC 20591. All communications received on or before July 7, 1972, will be considered by the Administrator before taking action on the proposed rule. The proposal contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, in the Rules Docket for examination by interested persons.

Part 91 of the Federal Aviation Regulations was recodified in 1963 in accordance with the agency recodification program. The adoption of Part 91 (published in the Federal Register June 29, 1963, 28 F.R. 6702) added to the new Subchapter F "Air Traffic and General Operating Rules," a part that combined some sections of at least two major parts of the Civil Air Regulations—Part 43, "General Operation Rules," and Part 60, "Air Traffic Rules," without making substantive changes. Since its adoption in 1963, Part 91 has been amended 96 times. Each amendment has contained a preamble explaining its purpose. Currently, a notice of proposed rule making is outstanding that, if adopted, would add general operating rules and an inspection program for large and turbine-powered multiengine airplanes.

Before preparing any specific rule making proposals for reorganizing and clarifying Part 91, the FAA believes that comments and suggestions from the general aviation community, as well as from other interested persons, will make any rearrangement and rewriting of the material in Part 91 more productive and acceptable. To this end, the FAA welcomes the participation of members of the general aviation community as well as other interested persons. In particular, comments are requested on the following questions:

(1) Would Part 91 be more functional if the material were divided into two or more parts?

(2) If it is believed that division into parts would assist in making the material more functional, what would be the most logical criteria for division? For example, should operating rules be separated from air traffic rules? Should rules affecting large or complex aircraft be separated from those that apply to small aircraft?

(3) What sections of Part 91 need clarification? What sections are subject to more than one interpretation?

(4) Should the sections within Part 91 be rearranged?

(5) What sections in other parts should be included in Part 91?

(6) What other recommendations can be made to improve the clarity of Part 91 by changes to format, wording, and organization?

It is to be noted that, while the FAA welcomes recommendations for substantive changes to the regulations, such recommendations should not be submitted in answer to this advance notice, since this advance notice is concerned solely with the organization and clarification of the present substantive material in Part 91. Recommendations for substantive changes should be submitted pursuant to § 11.25 of the Federal Aviation Regulations.

This advance notice of proposed rule making is issued under the authority of sections 307, 313(a), and 601 of the Federal Aviation Act of 1958 (49 U.S.C. 1348, 1354(a), and 1421), and section 6 (c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on March 31, 1972.

William G. Shreve, Jr.,
Acting Director, Flight Standards Service.

Hazardous Materials Regulations Board

[49 CFR Parts 173, 179]

[Docket No. HM-101; Notice 72-5]

TRANSPORTATION OF HAZARDOUS MATERIALS

Markings on Tank Cars

The Hazardous Materials Regulations Board is considering amendment of several sections in Parts 173 and 179 of the Department's Hazardous Materials Regulations. These amendments would require the name of certain hazardous materials being transported to be marked on the sides of tank cars in compliance with specific detailed marking requirements.

Based on the Department's observations during accident situations, and on recommendations from fire, safety and police personnel, the Board believes that existing regulations covering special commodity markings on tank cars are not adequate. Identification by name of certain materials in tank cars by improved markings designed for greater visibility is an area of the regulations which needs upgrading. Improvements in marking would contribute to overall safety in transportation of these hazardous materials by tank car.

Several flammable liquefied compressed gases have been frequently involved in accidents. The present regulations do not require the names of these materials to be identified on tank cars. This proposal is to require the name of any flammable liquefied compressed gas being transported to appear on the tank car. In addition, the proposal is to change the marking requirements for other hazardous materials that are now required to be identified by marking on a tank car. These same changes would be made to cars covered under Docket No. HM-91; Notice No. 71-25 (36 F.R. 20166).

The proposal states that the commodity marking on a tank car must be in compliance with certain detailed requirements. These requirements are found in proposed § 173.31(a)(6) and specify the height of the letters, the size of the marking stroke, the spacing of the letters, and the use of contrasting colors.

Editorial changes are proposed in § 173.31(a)(4) for clarification purposes.

In consideration of the foregoing, it is proposed to amend 49 CFR Parts 173 and 179 as follows:

PART 173—SHIPPERS

(A) In § 173.31, paragraph (a)(4) would be amended; paragraph (a)(5) and (6) would be added to read as follows:

§ 173.31 Qualification, maintenance, and use of tank cars.

(a) • • •

(4) Tank cars and appurtenances may be used for the transportation of a commodity only when this transportation is authorized under Part 170 or 173 of this chapter and when the hazardous material is indicated on the certificate of construction filed with the Association of American Railroads' Committee on Tank Cars. Tank cars, proposed for a service other than indicated on the certificate of construction, are required to be first approved for such service by the Association of American Railroads' Committee on Tank Cars. Transfer of a tank car from one authorized service to another authorized service may be made only by the owner or with the owner's authorization.

(Note 1 remains the same.)

• • • • •

(5) When a tank car is marked with the name of a specific hazardous material (see listing in § 172.5 of this chapter unless otherwise specified in this Part 173), it may not be used for any other service until the marking is changed.

(6) Each name of a hazardous material required to be shown on the tank car must appear on a background of sharply contrasting color and must be readily visible when viewed from each side of the tank car. Each letter may not be less than 6 inches high, using a minimum of ¾-inch stroke. Separation between each letter may not be less than 1 inch.

• • • • •

(B) In § 173.122, paragraph (a)(3) would be amended to read as follows:

§ 173.122 Acrolein, inhibited.

(a) • • •

(3) Specification 105A300W (§§ 179.100, 179.101 of this chapter) tank cars.

(i) Each tank car must be stenciled DOT-105A200W, and must be equipped with the 150 p.s.i.g. safety relief valve required by that specification.

(ii) Each tank car must be marked "ACROLEIN" in accordance with the requirements of § 173.31(a)(6).

• • • • •

(C) In § 173.289, paragraph (a)(2) would be amended to read as follows:

§ 173.289 Formic acid and formic acid solutions.

(a) • • •

(2) Specification 103CW or 103EW (§§ 179.200, 179.201 of this chapter) tank cars. Specification 103EW tank cars must be fabricated from Type 316 stainless steel. Each tank car must be marked "FORMIC ACID" in accordance with the requirements of § 173.31(a)(6).

• • • • •

(D) In § 173.314 paragraph (c), the table would be amended; Note 23 would be added to read as follows:

§ 173.314 Requirements for compressed gases in tank cars.

(a) • • •

1 Use of existing tank cars authorized, but new construction not authorized.

• • • • •

Note 23: Each tank car tank, except series 106A• • • or 110A• • •, must be marked with the name of the gas (see § 172.5(a) of this chapter) contained in the tank car in accordance with the requirements of section 173.31(a)(6).

V 37 • 69 APR 8 72 XUM

(E) In § 173.332, paragraph (a)(3) would be added to read as follows; paragraph (d) would be canceled.

§ 173.332 Hydrocyanic acid, liquid (prussic acid) and hydrocyanic acid liquefied.

(a) • • •

(3) Specification 105A500W or 105A-600W (§§ 179.100, 179.101 of this chapter) tank cars.

(i) Each tank car must be stenciled DOT–105A300W, and must be equipped with the 225 p.s.i.g. safety relief valve required by that specification.

(ii) The maximum permitted filling density is 63 percent of the water capacity of the tank .

(iii) Each tank car must be insulated with not less than 4 inches of corkboard, and must be marked "HYDROCYANIC ACID" in accordance with the requirements of § 173.31(a)(6).

(iv) Written procedure covering details of tank car appurtenances, dome fittings, and safety devices, and covering marking, loading, handling, inspection, and testing practices must be filed with and approved by the Federal Railroad Administration before any tank is offered for transportation of hydrocyanic acid.

• • • • • •

(d) [Canceled]

(F) In § 173.336, paragraph (a)(4) would be amended to read as follows:

§ 173.336 Nitrogen dioxide, liquid; nitrogen peroxide, liquid; and nitrogen tetroxide, liquid.

(a) • • •

(4) Specification 105A500W (§§ 179.-100, 179.101 of this chapter) tank cars. Authorized for nitrogen tetroxide only.

(i) Each tank car must be insulated with not less than 4 inches of corkboard. All valves and fittings must be protected by a securely attached metal cover not subject to deterioration by the lading. All valve openings except the safety valve, must be fitted with gas-tight screw plugs or caps. Each safety valve must be equipped with a stainless steel or platinum frangible disc.

(ii) Each tank car must be marked "NITROGEN TETROXIDE" in accordance with the requirements of § 173.31(a)(6).

(iii) Written procedure covering details of tank car appurtenances, dome fittings, and safety devices, and covering marking, loading, handling, inspection, and testing practices must be filed with and approved by the Federal Railroad Administration before any tank car is offered for transportation of nitrogen tetroxide.

(G) In § 173.338, paragraph (a)(4) would be amended to read as follows:

§ 173.338 Nitrogen tetroxide-nitric oxide mixtures containing up to 33.2 percent weight nitric oxide.

(a) • • •

(4) Specification 105A500W (§§ 179.-100, 179.101 of this chapter) tank cars.

(i) Each tank car must be insulated with not less than 4 inches of corkboard. All valves and fittings must be protected by a securely attached metal cover not subject to deterioration by the lading. All valve openings, except the safety valve, must be fitted with gas-tight screw plugs or caps. Each safety valve must be equipped with a stainless steel or platinum frangible disc.

(ii) Each tank car must be marked "NITROGEN TETROXIDE-NITRIC OXIDE MIXTURE" in accordance with the requirements of § 173.31(a)(6).

(iii) Written procedure covering details of tank car appurtenances, dome fittings, and safety devices, and covering marking, loading, handling, inspection, and testing practices must be filed with and approved by the Federal Railroad Administration before any car is offered for transportation of nitrogen tetroxide-nitric oxide mixtures.

(H) In § 173.354, paragraph (a)(4) would be amended to read as follows:

§ 173.354 Motor fuel antiknock compound or tetraethyl lead.

(a) • • •

(4) Specification 105A300W (§§ 179.-100, 179.101 of this chapter) tank car. Use of this tank car not authorized for tetraethyl lead. Each tank car must be marked "MOTOR FUEL ANTIKNOCK COMPOUND" in accordance with the requirements of § 173.31(a)(6).

• • • • • •

PART 179—SPECIFICATIONS FOR TANK CARS

(A) Section 179.15 would be added to read as follows:

§ 179.15 Marking.

When a tank car is required to be marked with the name of a hazardous material, this marking must appear on a background of sharply contrasting color and must be readily visible when viewed from each side of the tank car. Each letter may not be less than 6 inches high, using a minimum of ¾-inch stroke. Separation between each letter may not be less than 1 inch.

(B) In § 179.102–2 paragraph (a)(5) would be amended; in § 179.102–3 paragraph (a)(4) would be added; in § 179.-102–6 paragraph (a)(6) would be added; in § 179.102–8 paragraph (a)(1) would be amended and (a)(2) would be added; in § 179.102–9 paragraph (a)(1) would be amended, (a)(2) and (a)(3) would be added; in § 179.102–10 paragraph (a)(1) would be amended, (a)(2), (a)(3), and (a)(4) would be added; § 179.102–14 would be amended to read as follows:

§ 179.102 Special commodity requirements for pressure tank car tanks.

§ 179.102–2 Chlorine.

(a) • • •

(5) Each tank car must be marked "CHLORINE" in accordance with the requirements of § 179.15.

§ 179.102–3 Liquefied flammable gases.

(a) • • •

(4) Each tank car must be marked with the proper shipping name of liquefied flammable gas being transported in accordance with the requirements of § 179.15.

§ 179.102–6 Vinyl chloride or vinyl methyl ether, inhibited.

(a) • • •

(6) Each tank car must be marked "VINYL CHLORIDE" or "VINYL METHYL ETHER, INHIBITED", as appropriate, in accordance with the requirements of § 179.15.

§ 179.102–8 Motor fuel antiknock compound.

(a) • • •

(1) Openings in tank heads to facilitate application of nickel lining are authorized if closed in an approved manner.

(2) Each tank car must be marked "MOTOR FUEL ANTIKNOCK COMPOUND" in accordance with the requirements of § 179.15.

§ 179.102–9 Nitrogen tetroxide or Nitrogen tetroxide-nitric oxide mixtures.

(a) • • •

(1) Each tank car must be insulated with not less than 4 inches of corkboard. All valves and fittings must be protected by a securely attached metal cover not subject to deterioration by the lading. All valve openings, except the safety relief valves, must be fitted with gas-tight screw plugs or caps. Each safety relief valve must be equipped with a stainless steel or platinum frangible disc.

(2) Each tank car must be marked "NITROGEN TETROXIDE" or "NITROGEN TETROXIDE-NITRIC OXIDE MIXTURE", as appropriate, in accordance with the requirements of § 179.15.

(3) Written procedure covering details of tank car appurtenances, manway fittings, and safety relief devices, and covering marking, loading, handling, inspection, and testing practices must be filed with and approved by the Federal Railroad Administration before any car is offered for transportation of these commodities.

§ 179.102–10 Hydrocyanic acid.

(a) • • •

(1) Each tank car must be a DOT–105A500W or higher rated tank so registered.

(2) Each tank car must be stenciled DOT–105A300W and must be equipped with the 225 p.s.i.g. safety relief valve required by that specification.

(3) Each tank car must be insulated with not less than 4 inches of corkboard and must be marked "HYDROCYANIC ACID" in accordance with the requirements of § 179.15.

(4) Written procedure covering details of tank car appurtenances, manway fittings, and safety relief devices, and covering marking, loading, handling, inspection, and testing practices must be filed with and approved by the Federal Railroad Administration before any tank car is offered for transportation of hydrocyanic acid.

§ 179.102–14 Acrolein inhibited.

(a) Tank cars used to transport acrolein inhibited must be in compliance with the following special requirements:

(1) Each tank car must be a DOT–105A300W or higher rated tank so registered.

(2) Each tank car must be stenciled DOT–105A200W and must be equipped with the 150 p.s.i.g. safety relief valve required by such specification.

(3) Each tank car must be marked "ACROLEIN" in accordance with the requirements of § 179.15.

(C) Section 179.202–15 would be amended to read as follows:

§ 179.202 Special commodity requirements for nonpressure tank car tanks.

§ 179.202–15 Formic acid and formic acid solutions.

(a) Tank cars used to transport formic acid and formic acid solutions must be in compliance with the following special requirements:

(1) Specification DOT–103EW tank car tanks must be fabricated from Type 316 stainless steel and must be marked "FORMIC ACID" in accordance with the requirements of § 179.15.

Interested persons are invited to give their views on this proposal. Communications should identify the docket number and be submitted in duplicate to the Secretary, Hazardous Materials Regulations Board, Department of Transportation, 400 Sixth Street SW., Washington, DC 20590. Communications received on or before July 25, 1972 will be considered before final action is taken on the proposal. All comments received will be available for examination by interested persons at the Office of the Secretary, Hazardous Materials Regulations Board, both before and after the closing date for comments.

This proposal is made under the authority of sections 831–835 of title 18, United States Code, section 9 of the Department of Transportation Act (49 U.S.C. 1657).

Issued in Washington, D.C., on April 3, 1972.

G. H. READ,
Captain, Alternate Board Member for the U.S. Coast Guard.

MAC E. ROGERS,
Board Member for the Federal Railroad Administration.

National Highway Traffic Safety Administration

[49 CFR Part 571]

[Docket No. 72–4; Notice 1]

LAMPS, REFLECTIVE DEVICES, AND ASSOCIATED EQUIPMENT

Notice of Proposed Rule Making

The purpose of this notice is to propose an amendment to 49 CFR 571.108 and 571.108a, Motor Vehicle Safety Standards Nos. 108 and 108a, *Lamps, Reflective Devices, and Associated Equipment*, that would amend the test method for reflex reflectors.

The Federal lighting standards incorporate by reference SAE Standard J594d, "Reflex Reflectors," March 1967. Referring to specular reflection, J594d requires that "the uncolored reflection from the front surface (of the reflector) shall be such that, at any of the test stations, the color of the signal shall not be obliterated." In the revision to this standard, J594e, March 1970, the requirement is modified to permit photometric testing at a range around a test point if specular reflection is encountered at the test point itself. In the words of J594e, "if uncolored reflections from the front surface interfere with photometric readings at any test point, the operator shall check 1 degree above, below, right, and left of the test point, and report the lowest reading and location. The latter must meet the minimum requirements for the tests point."

The test method of J594d rejected the product because it interfered with test procedures, whereas the test method of J594e has modified the test procedure to permit valid photometry despite specular reflection that might occur at a test point. The Stimsonite Division of Amerace-Esna Corp. has asked the NHTSA to consider allowing the test procedure of J594e. The NHTSA has decided that Stimsonite's request merits initiation of rule making.

In consideration of the foregoing it is proposed that the applicable SAE standard for reflex reflectors incorporated by reference in table I and table III of 49 CFR 571.108, Motor Vehicle Safety Standard No. 108, and § 571.108a, Motor Vehicle Safety Standard No. 108a, be SAE Standard J594e, "Reflex Reflectors," March 1970.

Interested persons are invited to submit written data, views, or arguments on this proposal. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5219, 400 Seventh Street SW., Washington, DC 20590. It is requested, but not required, that 10 copies be submitted. All comments received before the close of business on May 8, 1972 will be considered, and will be available in the docket at the above address for examination both before and after the closing date. To the extent possible, comments filed after the above date will also be considered by the Administration. However, the rule making action may proceed at any time after that date, and comments received after the closing date and too late for consideration in regard to the action will be treated as suggestions for future rule making. The Administration will continue to file relevant material, as it becomes available, in the docket after the closing date, and it is recommended that interested persons continue to examine the docket for new materials.

Proposed effective date: Thirty days after publication of the final rule in the FEDERAL REGISTER (Standard No. 108); January 1, 1973 (Standard No. 108a).

This notice is issued under the authority of sections 103 and 119 of the National Traffic and Motor Vehicle Safety Act of 1966 (15 U.S.C. 1392, 1407) and the delegation of authority at 49 CFR 1.51 and 49 CFR 501.8.

Issued on April 3, 1972.

ROBERT L. CARTER,
Associate Administrator, Motor Vehicle Programs.

[FR Doc.72–5417 Filed 4–7–72;8:49 am]

[49 CFR Part 571]

[Docket No. 72–5; Notice 1]

LAMPS, REFLECTIVE DEVICES, AND ASSOCIATED EQUIPMENT

Notice of Proposed Rule Making

The purpose of this Notice is to propose an amendment to 49 CFR 571.108 and 571.108a, Motor Vehicle Safety Standards No. 108 and 108a, *Lamps, Reflective Devices, and Associated Equipment*, that would specify identical turn signal and stop lamp performance requirements for all motor vehicles less than 80 inches in overall width.

These Standards require (Table III) passenger cars, multipurpose passenger vehicles, trucks, and buses to be equipped with "Class A" turn signal lamps. Class A lamps, prior to Standard No. 108, were generally found only on vehicles whose overall width is 80 inches or more. Class A lamps differ from Class B lamps in having a minimum effective projected illuminated area of 12 square inches, rather than 3½ square inches. Paragraph S4.1.1.7 of those standards, however, permits passenger cars to meet Class A photometrics through an effective projected illuminated area not less than that of a Class B lamp. Jeep Corp. has asked that this same exception be provided for all vehicles less than 80 inches in overall width, commenting that there is no safety need for a larger sized lamp on a vehicle less than 80 inches wide, and that an amendment of this nature will allow it to standardize vehicle equipment. The National Highway Traffic Safety Administration has determined that Jeep's petition merits rule making and is publishing this notice in order to obtain comments from interested persons.

Paragraph S4.1.1.7 also applies the same provisions to passenger car stop lamps, and it is appropriate to allow stop lamps on other vehicles less than 80 inches in overall width to meet these requirements.

In consideration of the foregoing, it is proposed that the first sentence of paragraph S4.1.1.7 of 49 CFR 571.108, Motor Vehicle Safety Standard No. 108, and 571.108a, Motor Vehicle Safety Standard No. 108a be revised to read: "Stop lamps on each passenger car, and on each multipurpose passenger vehicle, truck, trailer, and bus less than 80 inches in overall width manufactured on or after January 1, 1973, and turn signal lamps on each passenger car, and on each multipurpose passenger vehicle, truck, trailer, and bus less than 80 inches in overall width shall meet the photometric minimum candlepower requirements for Class A turn signal lamps,

V 37 69 APR 8 72 XUM

and shall have effective projected illuminated areas not less than those of Class B lamps as specified in SAE Standard J588d, 'Turn Signal Lamps,' June 1966."

Comments should refer to the docket number and be submitted to Docket Section, National Highway Traffic Safety Administration, Room 5219, 400 Seventh Street SW., Washington, DC 20590. It is requested, but not required, that 10 copies be submitted. All comments received before the close of business on June 8, 1972 will be considered, and will be available in the docket at the above address for examination before and after the closing date. To the extent possible, comments filed after the above date will also be considered. However, the rule making action may proceed at any time after that date, and comments received after the closing date and too late for consideration in regard to the action will be treated as suggestions for future rule making. Relevant material will continue to be filed, as it becomes available, in the docket after the closing date, and it is recommended that interested persons continue to examine the docket for new materials.

Proposed effective dates: Thirty days after publication of the final rule in the FEDERAL REGISTER (Standard No. 108); January 1, 1973 (Standard No. 108a).

This notice of proposed rule making is issued under the authority of sections 103 and 119 of the National Traffic and Motor Vehicle Safety Act of 1966 (15 U.S.C. 1392, 1407), and the delegations of authority at 49 CFR 1.51 and 49 CFR 501.8.

ROBERT L. CARTER,
Acting Associate Administrator,
Motor Vehicle Programs.

APRIL 3, 1972.

[FR Doc.72-5418 Filed 4-7-72;8:50 am]

[49 CFR Part 571]

[Dockets Nos. 69-20; Notice 4]

ACCELERATOR CONTROL SYSTEMS

Time of Throttle Return to Idle

The purpose of this notice is to propose an amendment of Motor Vehicle Safety Standard No. 124, 49 CFR 571.124, that would add a one-half-second time limit in which the throttle would be required to return to the idle position.

Standard No. 124 published today (37 F.R. 7097) establishes requirements for the return of a vehicle's throttle to the idle position, when the driver removes the actuating force from the accelerator control or in the event of a breakage or disconnection in the accelerator control system. The NHTSA has tentatively determined that a minimum time interval of one-half second should be included in the requirement to clarify the return-to-idle requirement and aid in its enforcement. It should be noted that the time relates to the throttle position and not to the engine speed.

It is therefore proposed that the following changes be made in Standard No. 124, 49 CFR 571.124:

1. In S5.1, the phrase "within one-half second" would be added after the words "idle position."

2. In S5.2, the last sentence would be changed to read: "The return to idle shall occur within one-half second, measured either from the time of the breakage or disconnection or from the first removal of the opposing actuating force by the driver."

Proposed effective date: September 1, 1973.

Interested persons are invited to submit written data, views, and arguments concerning the proposed amendment. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5221, 400 Seventh Street SW., Washington, DC 20590. It is requested, but not required, that 10 copies be submitted.

All comments received before the close of business on May 8, 1972, will be considered, and will be available for examination in the docket at the above address both before and after the closing date. To the extent possible, comments filed after the above date will also be considered by the Administration. However, the rule making action may proceed at any time after that date, and comments filed after the above date and too late for consideration in regard to the action will be treated as suggestions for future rulemaking. The Administration will continue to file relevant material, as it becomes available, in the docket after the closing date, and it is recommended that interested persons continue to examine the docket for new material.

This notice of proposed rule making is issued under the authority of sections 103 and 119 of the National Traffic and Motor Vehicle Safety Act, 15 U.S.C. 1392, 1407, and the delegation of authority at 49 CFR 1.51 and 49 CFR 501.8.

Issued on April 3, 1972.

ROBERT L. CARTER,
Acting Associate Administrator,
Motor Vehicle Programs.

[FR Doc.72-5416 Filed 4-7-72;8:49 am]

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 76]

[Docket No. 19418]

CABLE TELEVISION SYSTEMS

Proposed Importation of Radio Signals; Extension of Time

Order. In the matter of amendment of Part 76 of the Commission's rules and regulations to Govern Importation of Radio Signals by Cable Television Systems, Docket No. 19418, RM-1782.

1. The National Association of Broadcasters, by petition dated March 29, 1972, requests a 2-week extension of time for filing comments in Docket No. 19418. Originally, comments were scheduled to be filed on or before March 16, 1972; at the request of the Rocky Mountain Broadcasters' Association, this date was extended to April 3, 1972.

2. In support of the requested extension, NAB alleges that it would enable its staff to prepare meaningful comments, which they have been unable to do thus far because of the "accumulation of pressing communications matters now confronting" them. Various proceedings are listed by NAB in support of their contention: The Commission's current hearings on the Fairness Doctrine, efforts toward industry agreement on draft CATV copyright legislation, membership implementation of the new political rate law, drafting of cable pleadings in Docket No. 18397, and preparation for the NAB convention.

3. It appears that the public interest would be served by granting the requested extension of time so that NAB will have a reasonable opportunity to devote its attention to consideration of the present rule making proceeding.

Accordingly, it is ordered, Pursuant to § 0.289(c)(4) of the Commission's rules, that the "Petition for Further Extension of Time" filed March 29, 1972, is granted, and that the times for filing comments and reply comments in the above-captioned proceeding are extended until April 17 and May 8, 1972, respectively.

Adopted and released: March 30, 1972.

[SEAL] SOL SCHILDHAUSE,
Chief, Cable Television Bureau.

DEPARTMENT OF THE INTERIOR

Office of Hearings and Appeals

BURGESS MINING AND CONSTRUCTION CORP.

Petition for Modification of Safety Standard

MARCH 31, 1972.

In regard petition of Burgess Mining and Construction Corp., Docket No. M 72-31, for modification of a mandatory safety standard, Boothton Strip Operations (section 101(i) of the Act as implemented by § 77.201-1 of the regulations prescribed by the Secretary).

Notice is hereby given that Burgess Mining and Construction Corp. (petitioner) has filed a petition to modify the application of section 101(i) of the Act as implemented by § 77.201-1 of the regulations prescribed by the Secretary, with respect to its Boothton Strip Operations. Section 77.201-1 of the regulations provides as follows:

Section 77.201-1 *Tests for methane; qualified person; use of approved device.* Tests for methane in structures, enclosures, or other facilities, in which coal is handled or stored shall be conducted by a qualified person with a device approved by the Secretary at least once during each operating shift, and immediately prior to any repair work in which welding or an open flame is used, or a spark may be produced.

Petitioner requests that the application of § 77.201-1 be modified to permit Burgess to operate a preparation plant where coal is crushed and store without the testing therein for methane. Petitioner's position is as follows:

The Company maintains a preparation plant where coal is crushed and stored until ready for loading on a unit train. In loading the train large doors are opened beneath the coal storage area permitting the coal to be distributed on a conveyor for transporting to the train. The tunnel where the conveyor is located is approximately 130 feet in length, 8 feet wide and 9 feet high. An escape opening is provided and the tunnel is well ventilated. The crusher building is an above ground structure which is open and well ventilated.

. . . . . .

A test for methane has now been made at the crusher and inside the tunnel on every working day since November 24, 1971. No trace of methane has been recorded during any of these tests.

Parties interested in this petition shall file their answer or comments and, if they wish a hearing, their request for one, within 30 days from the date of publication of this notice in the FEDERAL REGISTER, with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, Ballston Tower No. 3, 4015 Wilson Boulevard, Arlington, VA 22203. Copies of the petition are available for inspection at that address.

JAMES M. DAY,
Director,
Office of Hearings and Appeals.

MARCH 31, 1972.

Office of the Secretary

NEWLANDS RECLAMATION PROJECT, NEVADA

Operating Criteria and Procedures; Truckee and Carson Rivers

Pursuant to the requirements of 43 CFR § 418.3(a) notice is hereby given that the following operating criteria, approved by the Secretary of the Interior on April 4, 1972, for coordinated operation and control of the Truckee and Carson Rivers for service to the Newlands Reclamation Project, Nevada, will be in effect for the calendar year beginning January 1, 1972.

W. T. PECORA,
Acting Secretary of the Interior.

OPERATING CRITERIA AND PROCEDURES FOR COORDINATED OPERATION AND CONTROL OF THE TRUCKEE AND CARSON RIVERS FOR SERVICE TO NEWLANDS PROJECT DURING THE YEAR BEGINNING JANUARY 1, 1972

The Secretary desires to keep viable both the Newlands Reclamation Project and Pyramid Lake. To this end the Truckee-Carson Irrigation District, in satisfying its needs for irrigation diversions, will maximize the use of Carson River water and minimize the use of Truckee River water. The total water supplied to the district in calendar year 1972 from both the Carson and Truckee Rivers will be limited to the amount required for irrigation of the lands actually under irrigation production in 1972 in the exercise of water rights consistent with the Truckee River Decree and the Carson River Decree. Said total water supply, measured at the gaging station below Lahontan Dam and at diversion points along the Truckee Canal, shall be minimized to the maximum extent that the District, with the active assistance of the Bureau of Reclamation, can improve operating efficiencies.

There shall be no water for single-purpose power generation, except that power may be generated with water from Lahontan Reservoir which is either uncontrollable spill or a precautionary drawdown.

The operation of Derby Diversion Dam, Truckee Canal, and Lahontan Reservoir will be coordinated. Diversions of water from the Truckee River into and through the Truckee Canal will be controlled in accordance with the following operating criteria:

(1) If available, sufficient water will be diverted into Truckee Canal to meet direct irrigation requirements along the Truckee Canal.

(2) During the months November 1971 through March 1972, diversions through the Truckee Canal into Lahontan Reservoir will be made in accordance with the tabulation shown on the next page.

Operating month	If accumulated precipitation from October 1 to date at Tahoe City, Calif.		Continue Truckee Canal diversion to Lahontan Reservoir if water surface elevation is less than upper limit. (Feet m.s.l.)[1]	
			Lower limit [2]	Upper limit
		Inches		
November	Equals or less than	6	4151.8	4152.2
	Greater than	6	4145.4	4145.8
December	Less than	6	4154.8	4155.2
	Is or between	6 and 8	4148.8	4149.2
	Greater than	8	4132.9	4133.3
January	Less than	8	4157.5	4157.9
	Is or between	8 and 14	4152.5	4152.9
	Greater than	14	4139.5	4139.9
February	Less than	14	4160.0	4160.4
	Is or between	14 and 18	4155.7	4156.1
	Between	18 and 24	4145.4	4145.8
	Is or greater than	24	4135.2	4135.6
March	Less than	18	4161.6	4162.0
	Is or between	18 and 24	4156.1	4156.5
	Between	24 and 30	4151.8	4152.2
	Is or greater than	30	4135.2	4135.6

[1] USBR 1917 datum.

[2] Truckee Canal Diversion to Lahontan Reservoir should be started only when water surface elevation falls below lower limit.

These operating criteria will permit diversion through the Truckee Canal for Lahontan Reservoir storage on the basis of water-surface elevation of Lahontan Reservoir and accumulated precipitation recorded at the National Weather Service station, Tahoe City, Calif. The water-surface elevation will be measured at the existing measuring device in the outlet control house on the upstream side of Lahontan Dam. Corrections will be made for effects of surges on water-level elevations. During the months November through March, the accumulated precipitation subsequent to the previous October 1 as recorded at Tahoe City, Calif., in conjunction with current water-surface elevation of Lahontan Reservoir, will be the basis for allowing or not allowing Truckee Canal diversion.

(3) During the months of April and May, Truckee Canal operation will be based on forecasts of April through July runoff made

APR 8 72 XUM

by the Soil Conservation Service for Carson River at Fort Churchill (Lahontan Reservoir inflow) based on snow surveys by the Soil Conservation Service, in cooperation with other agencies, as follows:

(a) If the forecast of April through July runoff for Carson River at Fort Churchill exceeds 250,000 acre-feet, Truckee Canal diversions from Truckee River will be restricted only to irrigation diversions from the Truckee Canal plus minimum operational spills.

(b) If the April through July forecast of runoff is less than 200,000 acre-feet, available Truckee River water may be diverted to Lahontan Reservoir, with the objective of filling the reservoir but without causing spill to occur from the reservoir.

(c) For forecasts between these extremes, Truckee Canal diversion to Lahontan Reservoir will be permitted if, and only if, Lahontan Reservoir storage during April or May is less than the index storage levels defined as follows: The index storage levels in Lahontan Reservoir, for the April through May period, will be adjusted daily on a straight line interpolation, beginning with an index water-surface elevation in Lahontan Reservoir of 4,152.2 feet m.s.l. on April 1 and allowing a constant daily increase of index water-surface elevation to a May 1 elevation of 4,157.3 feet m.s.l. During May, the index elevation will increase at a constant daily rate to a June 1 amount of 4,161.1 feet m.s.l. To avoid undue fluctuations in Truckee Canal Diversions, the diversion to Lahontan Reservoir may continue until the reservoir water-surface elevation is 0.1 foot above the index storage level. The diversion to Lahontan Reservoir through the Truckee Canal may be restarted if the reservoir water-surface elevation falls 0.2 foot below the index storage level.

(4) During the month of June, diversion of Truckee Canal water into Lahontan Reservoir and Carson River will be made to fill Lahontan Reservoir insofar as possible without spilling.

(5) During July through October, the Truckee Canal diversions to Lahontan Reservoir or Carson River will be restricted on the basis of water-surface elevation of Lahontan Reservoir as shown on the following tabulation:

Operating month	Continue Truckee Canal diversion to Lahontan Reservoir if water-surface elevation is less than upper limit. (Feet m.s.l.)[1]	
	Lower limit [2]	Upper limit
July	4159.1	4159.5
August	4154.4	4154.8
September	4148.8	4149.2
October	4149.6	4150.0

[1] USBR 1917 datum.
[2] Truckee Canal Diversion to Lahontan Reservoir should be started only when water-surface elevation falls below lower limit.

Previous Secretarial restrictions on the use of conservation storage capacity in the Stampede Reservoir are hereby rescinded.

Stampede Reservoir will be operated by the Bureau of Reclamation, in coordination with Lake Tahoe, Prosser Creek, Boca, and Lahontan Reservoirs, to help minimize diversions from Truckee River through the Truckee Canal, to assist in evaluation studies and actual reestablishment of fishery runs from Pyramid Lake into the Truckee River, and for flood control, recreation, and fish and wildlife benefits.

In the event of serious drought conditions, the water stored at Stampede Reservoir may be used at the option of the Secretary to help alleviate drought conditions on the Newlands Project.

Prior to October 1, 1972, revised operating criteria for operating project facilities beginning November 1, 1972, will be published in the FEDERAL REGISTER, and these shall include the use of Stampede Reservoir to the extent necessary to assist in the aim of minimizing Truckee River diversions to and through the Truckee Canal. These and subsequent revisions of the operating criteria shall take full advantage of all implementation of the water-saving recommendations of the Pyramid Lake Task Force with a view toward progressive reductions of the irrigation requirements of the Newlands Project.

SHELL CHEMICAL CO.

Notice of Filing of Petition for Food Additive

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409 (b)(5), 72 Stat. 1786; 21 U.S.C. 348(b)(5)), notice is given that a petition (FAP 2B2778) has been filed by Shell Chemical Co., Division of Shell Oil Co., 1700 K Street NW., Washington, DC 20006 proposing that § 121.2531 *Surface lubricants used in the manufacture of metallic articles* (21 CFR 121.2531) be amended in paragraph (b)(2) to provide for the safe use of primary alcohols in surface lubricants employed in the manufacture of metallic articles that contact food. Such alcohols, consisting of not less than 70 percent normal alcohol containing 12–15 carbon atoms, are manufactured by a modified Oxo process from linear olefins, carbon monoxide, and hydrogen, using an organometallic catalyst.

Dated: March 29, 1972.

VIRGIL O. WODICKA,
Director, Bureau of Foods.

[Docket No. FDC-D-274; NADA No. 10-458V and NADA No. 12-232V]

PARLAM DIVISION, ORMONT DRUG & CHEMICAL CO., INC.

Mikedimide 3 Percent and Sebumsol 25 Percent; Notice of Opportunity for Hearing

A notice of opportunity for a hearing was published in the FEDERAL REGISTER of April 29, 1971 (36 F.R. 8065). Said notice gave the named holders of various NADA's (new animal drug applications) 30 days in which to request an opportunity for a hearing.

Parlam Division, Ormont Drug & Chemical Co., Inc., 520 South Dean Street, Englewood, NJ 07631, the holder of NADA No. 12-232V for Sebumsol 25 percent (a product which contains 25 percent hexamethyltetracosane) and NADA No. 10-458V for Mikedimide 3 percent (a product which contains 3 percent methetharimide) requested that data submitted in response to said notice of opportunity for a hearing be evaluated prior to withdrawal of these products. After having evaluated these data, the Commissioner of Food and Drugs concludes: (1) That Sebumsol 25 percent is evaluated as an effective cerumenolytic agent for removal of ear wax for dogs and cats as labeled, and (2) that Mikedimide 3 percent is probably effective. Mikedimide 3 percent can be rated as effective if the labeling is revised to give full disclosure on this product indicating that it is an analeptic and not a specific antagonist to barbiturates and by deleting directions for routine post-operative use.

The holder of said NADA's is provided 6 months from the date of publication hereof in the FEDERAL REGISTER to submit adequate final printed labeling and documentation which will support a regulation (21 CFR Part 135).

Notice is given to all interested persons that similar articles may be marketed provided they are the subject of approved new animal drug applications and otherwise comply with all of the requirements of the Federal Food, Drug, and Cosmetic Act.

Each holder of a new animal drug application which became effective prior to October 10, 1962 is requested to submit adequate information as necessary to make the application current with regard to manufacturer of the drug, including information on the drugs components and composition, and also including information regarding manufacturing methods, facilities and controls in accordance with requirements of section 512 of the act.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act. (sec. 512, 82 Stat. 343–51; 21 U.S.C. 360b) and under authority delegated to the Commissioner 21 CFR 2.120).

Dated: March 31, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

PITMAN-MOORE, INC.

Shampoo Containing Cadmium Sulfide; Notice of Withdrawal of Approval of New Animal Drug Application

In the FEDERAL REGISTER of August 12, 1970 (35 F.R. 12793, DESI 9911V) the Commissioner of Food and Drugs announced the conclusions of the Food and Drug Administration following evaluation of a report received from the National Academy of Sciences—National Research Council, Drug Efficacy Study Group, on Derisol NADA (new animal drug application) No. 9-911V, marketed by Pitman-Moore, Inc., Post Office Box 344, Washington Crossing, NJ 08560.

Pitman-Moore, Inc. responded to the announcement by requesting that approval of NADA No. 9-911V be withdrawn.

Based on the grounds set forth in said announcement and the firm's response, the Commissioner concludes that said new animal drug application should be withdrawn. Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (Sec. 512, 82 Stat. 343–51; 21 U.S.C. 360b) and under authority delegated to the Commissioner (21 CFR 2.120), approval of NADA No. 9-911V, including all amendments and supplements thereto, is hereby withdrawn effective on the date of publication of this document.

Dated: March 31, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[CGD 72-73N]

PORTION OF ELIZABETH RIVER, NORFOLK HARBOR, VA.

Security Zone

By virtue of the authority vested in the Commandant, U.S. Coast Guard, by Executive Order 10173, as amended (33 CFR Part 6), sec. 6(b)(1), 80 Stat. 937, 49 U.S.C. 1655(b)(1), 49 CFR 1.46(b) and the redelegation of authority to the Chief, Office of Marine Environment and Systems, U.S. Coast Guard Headquarters as contained in the FEDERAL REGISTER of September 30, 1971 (36 F.R. 19160), I hereby affirm for publication in the FEDERAL REGISTER the order of H. E. Steel, Captain, U.S. Coast Guard, Captain of the Port, Hampton Roads Area, who has exercised authority as Captain of the Port, such order reading as follows:

PORTION OF THE ELIZABETH RIVER, NORFOLK HARBOR, VA., CLOSED TO NAVIGATION DURING TRANSIT OF THE U.S.S. "FORRESTAL"

SECURITY ZONE

Under the present authority of section 1 of title II of the Espionage Act of June 15, 1917, 40 Stat. 220, as amended, 50 U.S.C. 191, and Executive Order 10173, as amended, I declare that from 1100R April 10, 1972, until 1330R April 10, 1972, and from 1230R April 14, 1972 until 1500R April 14, 1972, the following area is a Security Zone and I order it be closed to any person or vessel due to transit of the U.S.S. *Forrestal*.

The waters of the Elizabeth River, Norfolk Harbor, Va., within the area between Elizabeth River Channel lighted horn buoy 1 LL 2939 at latitude 36°59'06" north and the Norfolk and Portsmouth Beltline Railroad Bridge which crosses the Southern Branch of the Elizabeth River at latitude 36°48'41" north.

No person or vessel shall remain in or enter this security zone without permission of the Captain of the Port, 393-9611, Ext. 220.

The Captain of the Port, Hampton Roads Area, shall enforce this order. In the enforcement of this order, the Captain of the Port may utilize, by appropriate agreement, personnel and facilities of any other Federal agency, or of any State or political subdivision thereof.

For violation of this order, section 2 of title II of the Espionage Act of June 15, 1917 (40 Stat. 220, as amended, 50 U.S.C. 192), provides:

If any owner, agent, master, officer, or person in charge, or any member of the crew of any such vessel fails to comply with any regulation or rule issued or order given under the provisions of this chapter, or obstructs or interferes with the exercise of any power conferred by this chapter, the vessel, together with her tackle, apparel, furniture, and equipment, shall be subject to seizure and forfeiture to the United States in the same manner as merchandise is forfeited for violation of the customs revenue laws; and the person guilty of such failure, obstruction, or interference shall be punished by imprisonment for not more than 10 years and may, in the discretion of the court, be fined not more than $10,000.

(a) If any other person knowingly fails to comply with any regulation or rule issued or order given under the provisions of this chapter, or knowingly obstructs or interferes with the exercise of any power conferred by this chapter, he shall be punished by imprisonment for not more than 10 years and may, at the discretion of the court, be fined not more than $10,000.

Dated: April 6, 1972.

J. M. AUSTIN,
Captain, U.S. Coast Guard, Acting Chief, Office of Marine Environment and Systems.

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Fare Matters

Issued under delegated authority March 9, 1972.

APR 8 1972 XUM

By Order 72–2–59, dated February 16, 1972, action was deferred, with a view toward eventual approval, on certain resolutions incorporated in an agreement adopted by the Traffic Conferences of the International Air Transport Association (IATA). The resolutions, which emanated from various IATA meetings including the Composite Passenger Traffic Conference held at Miami in September and October of 1971, involve administrative, procedural, and technical provisions not affecting basic fare levels.

In deferring action on the subject agreement, 10 days were granted in which interested persons might file petitions in support of or in opposition to the proposed action. No petitions have been received within the filing period, and the tentative conclusions in Order 72–2–59 will herein be made final.

Accordingly, it is ordered, That:

The subject portions of Agreement CAB 22663 [2] be and hereby are approved.

This order will be published in the FEDERAL REGISTER.

[SEAL] HARRY J. ZINK,
Secretary.

[Docket No. 24376; Order 72–4–11]

UNITED AIR LINES, INC.

Order Dismissing Complaints and Authorizing Carrier Discussions Regarding Proposed Military Fare Changes

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 4th day of April 1972.

By tariff revision [1] marked to become effective April 17, 1972, United Air Lines, Inc. (United) proposes to relax the current requirement for reduced-fare military transportation,[3] so as to allow members of the armed services to travel at the fares in civilian clothes. Currently, military personnel generally must be in uniform when traveling at military fares.

The carrier alleges that removal of this "red tape" requirement will provide easier and more pleasant travel for servicemen and could generate new traffic and increase revenues. Additionally, United contends that it and 19 other carriers do not presently require the wearing of a uniform when servicemen from Vietnam are traveling on 14-day leave, and that the remaining provisions of the rule provide adequate safeguards against abuse. While the carrier expects an increase in revenue from the experiment, it alleges that it is unable to quantify the gain at this time, and has therefore established a 1-year expiration on the provision so as to permit an evaluation of its effect. Northwest Airlines, Inc. (Northwest) has filed matching revisions for effect April 21, 1972.

Braniff Airways, Inc. (Braniff), Continental Air Lines, Inc. (Continental), Frontier Airlines, Inc. (Frontier), and Western Air Lines, Inc. (Western) have filed complaints against the proposal,[4] requesting suspension and investigation. Additionally, these carriers and several other carriers [5] have requested authorization to hold industry meetings to discuss the rules, practices, and procedures involved in the transportation of military personnel on leave, with the purpose of arriving at an equitable and consistent application among all carriers.

The complaints essentially contend that implementation of the proposed rule will increase existing disparities among the carriers in the application of these fares; that the rule would increase the likelihood that military and youth passengers might be confused during boarding procedures, to the detriment of the military; that the filing is totally inconsistent with the Board's mandate for uniformity at the time it previously authorized discussions; [6] and that as the Board stated the "confusion resulting from a lack of uniformity in tariff and carrier practices should be eliminated."

In answer to the complaints, United alleges that any connection between its proposed elimination of the uniform requirement and the prohibition against discrimination contained in section 404(b) is difficult to discern, particularly in view of the positive identification and eligibility requirements which would remain in force; and that this revision will bring more uniformity to the rules governing military fares, as many servicemen are now legitimately traveling at these fares in civilian clothes when on leave from Vietnam or Thailand or on convalescent leave, and that there can be no logical distinction made between those travelers and other military-leave travelers. United further contends that the boarding confusion alluded to by the complainants is nonexistent since all passengers are segregated at the gate by ticket type to facilitate rapid enplanement, and that no changes in this procedure are foreseen, United states its belief that the relaxed uniform requirement will be beneficial to service personnel and expects to increase the numbers of military personnel it carries, although it allegedly is unable to quantify its expectations at this time. Finally, the carrier states its willingness to participate in industry discussions with a view toward achieving uniformity of application of the military fare rules and practices.

The Department of Defense (DOD) has filed an answer in support of United's proposal, agreeing that the wearing of a uniform should not be a prerequisite to the availability of the reduced military fares, and seeking authorization to participate in carrier discussions of the rules and practices should the Board authorize such meetings.

Upon consideration of the tariff revisions, the complaints and answers thereto, and all other relevant matters, the Board concludes that the complaints do not set forth sufficient facts to warrant investigation or suspension. The requests therefor, and consequently the requests for suspension, will be denied and the complaints dismissed.

Since eligibility for the fares will continue to be determined by positive identification of service personnel and their active duty status, the possibility of abuse should not be significantly greater than at present, and we are not persuaded that the wearing of a uniform serves a significant purpose. Nor are we persuaded that the possibility of public confusion during boarding is sufficient to warrant suspension.

Nevertheless, we continue to believe that uniformity among carriers in the application of these military fares is desirable and note that, aside from United's instant proposal, other dissimilar tariff provisions are presently in effect. As indicated, a number of carriers have expressed a similar view, which indicates that industry discussions on this matter may be useful. For these reasons, we will herein grant the requests to hold such discussions.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 404, 412, and 414 thereof:

It is ordered, That:

1. The complaints in Dockets Nos. 24312, 24313, 24317, and 24318 are hereby dismissed;

2. Air West, Inc., Allegheny Airlines, Inc., American Airlines, Inc., Braniff Airways, Inc., Continental Air Lines, Inc., Delta Air Lines, Inc., Eastern Air Lines, Inc., Frontier Airlines, Inc., Mohawk Airlines, Inc., National Airlines, Inc., North Central Airlines, Inc., Northeast Airlines, Inc., Northwest Airlines, Inc., Ozark Air Lines, Inc., Piedmont Aviation, Inc., Southern Airways, Inc., Texas International Airlines, Inc., Trans World Airlines, Inc., United Air Lines, Inc., Western Air Lines, Inc., and the Department of Defense, may engage in meetings at which the Board's representatives may be present, for a 90-day period extending from the date of this order, to discuss the matter of rules, practices, and procedures involved in the transportation of military personnel on leave; [7]

3. The Director of the Bureau of Economics shall be given at least 48 hours' notice of the time and place of meetings;

4. The carriers shall keep complete and accurate minutes of such discussions and a true copy of such minutes shall be filed with the Board's Docket Section not later than 2 weeks after the close of the discussions;

5. Any agreement or agreements reached as a result of such discussions shall be filed with the Board in accordance with section 412 of the Federal Aviation Act of 1958 and approved by the Board prior to being incorporated in a tariff filing or placed in effect; and

6. This order shall be served upon Air West, Inc., Allegheny Airlines, Inc., American Airlines, Inc., Braniff Airways, Inc., Continental Air Lines, Inc., Delta Air Lines, Inc., Eastern Air Lines, Inc., Frontier Airlines, Inc., Mohawk Airlines, Inc., National Airlines, Inc., North Central Airlines, Inc., Northeast Airlines, Inc., Northwest Airlines, Inc., Ozark Air Lines, Inc., Piedmont Aviation Inc., Southern Airways, Inc., Texas International Airlines, Inc., Trans World Airlines, Inc., United Air Lines, Inc., Western Air Lines, Inc., and the Department of Defense.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

COUNCIL ON ENVIRONMENTAL QUALITY

ENVIRONMENTAL IMPACT STATEMENTS

Notice of Availability

Environmental impact statements received by the Council on Environmental Quality, March 27 to March 31, 1972.

NOTE: At the head of the listing of statements received from each agency is the name of an individual who can answer questions regarding those statements.

DEPARTMENT OF AGRICULTURE

Contact: Dr. T. C. Byerly, Office of the Secretary, Washington, D.C. 20250, (202) 388–7803.

FOREST SERVICE

Draft, March 27

Coronado National Forest, Ariz. Proposed spraying of 2,175 acres with 2,4,5-T herbicide, in order to destroy mesquite trees. Mesquite trees will be dying and defoliating for a minimum of 3 years; there will be a reduced area for honey bees. (ELR Order No. 4036, 20 pages) (NTIS Order No. PB–207 746–D).

OFFICE OF BUDGET AND FINANCE

Final, March 1

H.R. 8714 and S. 1943. Bills which would make provisions of the Poultry Products Inspection Act (21 U.S.C. 451–470) applicable to rabbits slaughtered for human food. (ELR Order No. 3049, 4 pages) (NTIS Order No. PB–207 670–E).

SOIL CONSERVATION SERVICE

Final, March 31

Cameron, Willacy, Hidalgo, and Stan Counties, Tex. The proposed action would allow a new Continental Cane Sugar Producing Area, of 25,700 acres, in the Lower Rio Grande Valley of Texas. It is intended that the acreage be committed to sugar early in 1972. Sugar production involves considerable burning of the cane to remove trash. A sugar processing plant would be part of the action. Its effluent would be discharged to an existing floodway. Total capital investment of the action is estimated at $28,800,000, including the factory, farms, and farm and transportation equipment. Comments made by EPA. (ELR Order No. 4117, 73 pages) (NTIS Order No. PB–206 263–F).

ATOMIC ENERGY COMMISSION

Contact: Joseph J. DiNunno, Director, Office of Environmental Affairs, Washington, D.C. 29545.

Final, March 27

Oconee County, S.C. Proposed issuance of an operating license to the Duke Power Co. for Oconee Nuclear Station, Unit No. 1. (The statement will also serve for future consideration of permits for Units 2 and 3.) Each unit of the Nuclear Station has a pressurized water reactor with an electrical output of 922 mw. and a waste heat generation of 1650 mw. The nuclear station is integrated into the applicant's Keowee-Toxaway Project in an arrangement that provides water for condenser cooling as well as hydroelectric power. Environmental impact of the 3-unit nuclear station includes the following: loss of 2,000 acres for the plant and exclusion area; flooding of 27,000 acres to form 2 lakes; displacement of 900 residents; conversion of 7,800 acres of farm and forest land to transmission line right-of-way; discharge of chemicals into Hartwell Reservoir; discharge of small amounts of radioactive gaseous and liquid wastes to the environment. Comments made by USDA, Army COE, DOC, EPA, HEW, HUD, DOI, DOT, State, regional and local agencies. (ELR Order No. 4045, 363 pages) (NTIS Order No. PB–204 910–F)

Final, March 29

Plant Units 1 and 2, Midland, Mich. Proposed issuance of construction and operating permits to the Consumers Power Co. The plant will have two pressurized water reactors that will generate 1,300 mw. for distribution. In addition 4,050,000 lbs./hr. of steam will be delivered to the Dow Chemical Co. for industrial use. An 880 acre cooling pond will be constructed for use by the plant; 1,100 acres will be taken, and 25 residences displaced; nonradioactive chemical wastes will be discharged to the Tittabawasse River; small quantities of radioactive gaseous and liquid wastes will be discharged to the environment; 958 acres will be taken for transmission lines. Comments made by USDA, Army COE, DOC, EPA, FPC, HEW, HUD, DOI, state and local agencies. (ELR Order No. 4072, 163 pages) (NTIS Order No. PB–205 573–F).

DEPARTMENT OF AIR FORCE

Contact: Col. Cliff M. Whitehead, Room 5E 425, The Pentagon, Washington, D.C. 20330, (202) OX 5-2889.

Draft, March 15

Advanced Ballistic Reentry System (ARBES) Radioactive Sensors. The ARBES program would conduct test flights, on the Western Test Range and on the White Sands Missile Range, of reentry vehicles having radioactive sensors imbedded in the nosetip and heatshield. Flights would be launched from Vandenburg AFB, Calif., with impact on the Marshall Islands, and from Green River, Utah, with impact on the White Sands Missile Range in New Mexico. An adverse environmental effect would be the dispersion of a small amount (less than 3 Curies) of Cobalt 57 or Tantalum 182 into the upper atmosphere from material ablation. (ELR Order No. 4010, 61 pages) (NTIS Order No. PB-207 577-D).

Draft, March 22

Tyndall Air Force Base, Fla. The proposed outleasing of 150 acres of land on Tyndall AFB to Bay County. The land would be used for the construction and operation of secondary wastewater treatment plant for four municipalities and two industries. Thirty-five MGD of wastewater with an estimated BOD of 23 mg./l. will be discharged to St. Andrew Bay. The Military Pt. area will be changed from its natural state to that of a sewage lagoon; the use and production of the natural resources-forest, fish, wildlife, and recreation, will be lost. (ELR Order No. 4060, 122 pages) (NTIS Order No. PB-207 733-D).

DEPARTMENT OF ARMY

Corps of Engineers

Contact: Colonel Barnes, Executive Director, Attention: DAEN-CWZ-C, Office of Chief of Engineers, 1000 Independence Avenue SW., Washington, DC 20314 (202) 693-6346.

Draft, March 24

Red River Emergency Bank Protection, Louisiana and Arkansas. Proposed construction of emergency flood control structures at 11 sites along the Red River between the Mississippi River and Index, Arkansas. Approximately 920 acres of land will be lost to the project. (ELR Order No. 4035, 29 pages) (NTIS Order No. PB-207 725-D).

Draft, March 28

Military Ocean Terminal, Sunny Point, N.C. Proposed dredging of 3.2 million yards of material every 2 years, with occasional intermittent dredging, from basins and navigation channels. The spoil would be deposited in dike areas. Sixty-four acres of cypress swamp and 27 acres of ponds would be lost due to the action. The area provides habitat for ospreys, American alligators, and other wildlife. Marine life would also be destroyed by the dredging. (ELR Order No. 4038, 197 pages) (NTIS Order No. PB-207 726-D).

Final, March 27

San Gabriel River, Laneport, North and South Fork Lakes, Texas. Proposed construction of the above three lakes for purposes of flood control, water conservation, fish, wildlife, and recreational uses. Approximately 25,350 acres of land and 28 miles of stream will be lost to the project; habitat for white-tailed deer, small game, and birds, and the entire wild turkey population will be inundated; archeological sites, old homesteads, and numerous farms and residences will be permanently lost. Comments made by USDA, EPA, DOI, DOT, state, regional and local agencies, and concerned citizens. (ELR Order No. 4069, 349 pages) (NTIS Order No. PB-207 736-F).

DEPARTMENT OF THE NAVY

Contact: Joseph A. Grimes, Jr., Special Civilian Assistant to the Secretary of Navy, Washington, D.C. 20350 (202) 697-0892.

Final, March 21

Cross Cay Island, Caribbean Sea. Proposed relocation of Navy target facilities from Culebra, Commonwealth of Puerto Rico, to Cross Cay, an uninhabited island 2800' x 1400', 2.5 nautical miles away. Clearing of a shallow boat channel, preparation of an access runway, helicopter landing pad, and target area will be necessary. Some destruction of marine life will result. Comments made by USDA, DOC, EPA, and the Mayor of Culebra. (ELR Order No. 4051, 57 pages) (NTIS Order No. PB-206 051-F).

ENVIRONMENTAL PROTECTION AGENCY

Contact: Sheldon Meyers, Director, Office of Federal Activities, Room 3630, Waterside Mall, Washington, D.C. 20460 (202) 755-0940.

Final, March 15

Lead—Deadwood Sanitary District No. 1, South Dakota. The proposed project would combine all municipal and industrial wastes from the cities of Lead and Deadwood, and Homestake Mining Co., in one interceptor pipeline, and convey the waste along the route of Whitewood Creek to a tailings-stabilization pond for treatment by detention and bacterial action. Approximately 600 acres of land will be taken by the project; the potential would exist for groundwater contamination. Comments made by USDA, Army COE, Food and Drug, HEW, HUD, DOI, State and local agencies, and concerned citizens. (ELR Order No. 4049, 121 pages) (NTIS Order No. PB-204 669-F).

FEDERAL POWER COMMISSION

Contact: Frederick H. Warren, Advisor on Environmental Quality, 441 G Street NW., Washington, DC 20426 (202) 386-6084.

Draft, March 23

Project 2336, Lloyd Shoals Project, Ga. Proposed approval of an application for development of 4 recreation use areas at project No. 2336, a hydroelectric station of the Georgia Power Co. Total acreage involved is 458.5, with proposed picnicking, camping, boating, fishing, and swimming facilities. (ELR Order No. 4033, 18 pages) (NTIS Order No. PB-207 678-D).

Draft, March 27

South Plainfield, N.J., and Staten Island, N.Y. Proposed construction of a gasification plant at South Plainfield and a 15-mile, 20" pipe to terminal and storage facilities which will be constructed on Staten Island. The Tecon Gasification Co. is the applicant for the certificate of public convenience and other permits involved. Approximately 400 acres of land will be committed to the project; emission of carbon dioxide, methane, and sulfur oxide will result. (ELR Order No. 4050, 125 pages) (NTIS Order No. PB-207 720-D).

Draft, March 26

Project 120, Fresno, Madera, Tulare, Kern, and Los Angeles counties, Calif. Proposed approval of a renewal license for the Southern California Edison Co.'s Big Creek No. 3 Project 120. The project consists of a dam and spillway, a reservoir and diversion tunnel, 4 penstocks and a powerhouse with a total installed capacity of 107,100 kw. (ELR Order No. 4068, 71 pages) (NTIS Order No. PB-207 732-D).

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Contact: Richard H. Broun, Director, Environmental and Land Use Planning Division, Washington, D.C. 20410, (202) 755-6186.

Draft, March 23

Welfare Island New Community, New York, N.Y. Proposed HUD certification of Welfare Island as an eligible new community according to section 712 of the Urban Growth and New Community Development Act of 1970. (ELR Order No. 4044, 32 pages) (NTIS Order No. PB-207 740-D).

Harbison New Community, Richland and Lexington Counties, S.C. Proposed HUD guarantee of a $12 million loan for development of a new community over a 20-year period. (ELR Order No. 4066, 26 pages) (NTIS Order No. PB-207 745-D).

Final, March 28

Low Rent Public Housing Project No. 5-108, New York, N.Y. Proposed construction of three 24-story residential buildings of 840 (total) units. Increase in use of public facilities and utilities will result. Comments made by USDA, Army COE, AEC, DOC, EPA, FPC, GSA, DOT, local agencies, and concerned citizens. (ELR Order No. 4062, 114 pages) (NTIS Order No. PB-205 670-F).

INTERSTATE COMMERCE COMMISSION

Contact: James Tao, Room 5107, Interstate Commerce Commission, 12th and Constitution Avenue NW., Washington, D.C. 20423, (202) 783-2097.

Draft, March 10

Increased freight rates and charges, 1972. Proposed approval or disapproval of selected increase proposals for commodity groupings to replace the 2.5 percent surcharge recently allowed to become effective on a temporary basis, to be applied by the railroads in rendering service throughout the United States. The surcharge may have an adverse effect on the movement of recyclable materials. (ELR Order No. 4061, 13 pages) (NTIS Order No. PB-207 730-D).

DEPARTMENT OF INTERIOR

Contact: Office of Communications, Room 7214, Washington, D.C. 20240, (202) 343-6416.

BUREAU OF RECLAMATION

Draft, March 27

Cibolo Creek, Wilson County, Tex. Proposed construction of an earthfill dam on Cibolo Creek. The reservoir would inundate 10,000 to 16,260 acres of land, displace 75 families, eliminate 24 miles of fish habitat, and necessitate the relocation of one highway, utility systems, and archeological resources. (ELR Order No. 4067, 39 pages) (NTIS Order No. PB-207 729-D).

Final, March 27

Mountain Park Project, Kiowa County, Okla. Proposed construction of a thin-arch concrete dam on Otter Creek, a diversion dam on Elk Creek, and a 10.8 mile diversion canal, with pipelines to deliver municipal and industrial water. Approximately 5 miles of stream and 9,280 acres will be inundated by the project; 35 homes, 7.5 miles of railway, 5 miles of highway and 11 miles of transmission line will have to be relocated. Comments made by USDA, DOI, State agencies and concerned citizens. (ELR Order No. 4064, 45 pages) (NTIS Order No. PB-207 728-F).

BUREAU OF SPORT FISHERIES AND WILDLIFE

Draft, March 21

Endangered Species Conservation. Proposed legislation to provide for the conservation, protection, and propagation of species and subspecies of fish and wildlife, domestic and foreign, that are threatened with extinction or likely within the foreseeable future to become threatened with extinction. (ELR Order No. 4041, 26 pages) (NTIS Order No. PB-207 731-D).

DEPARTMENT OF TRANSPORTATION

Contact: Martin Convisser, Director, Office of Program Co-ordination, 400 Seventh Street SW., Washington, DC 20590 (202) 462-4357.

FEDERAL AVIATION AGENCY

Draft, March 15

Monroe and St. Clair Counties, Ill. The proposed project involves acquisition of 18,650 acres and construction of a new airport to serve the St. Louis metropolitan area. The project will result in noise pollution, air emission, short term impact related to construction, and the displacement of families, farms, businesses, and other properties. (ELR Order No. 3072, 792 pages) (NTIS Order No. PB-207 589-D-1 and PB-207 589-D-2 [2 volumes]).

Draft, March 17

Napa County Airport, Calif. Proposed land acquisition and construction of a lighted taxiway and apron. Four families will be displaced by the action. (ELR Order No. 3092, 35 pages) (NTIS Order No. PB-207 584-D).

Draft, March 22

Waseca County, Minn. Request for Federal financial assistance to lengthen, pave, light, etc. the Waseca City Airport. (ELR Order (No. 4024, 13 pages) (NTIS Order No. PB-207 674-D).

Draft, March 23

General Lyman Field, Hilo, Hawaii. Proposed Federal financial assistance to construct a new terminal and related facilities. Air quality and water tables will be affected by the action (ELR Order No. 4025, 59 pages) (NTIS Order No. PB-207 673-D).

Kokomo Airport, Howard County, Ind. Proposed land acquisition, relocation of utilities, extensive runways, lighting, etc. Noise pollution will increase accordingly. (ELR Order No. 4026, 40 pages) NTIS Order No. PB-207 672-D).

Draft, March 22

Hoven Municipal Airport, Hoven, S. Dak. Proposed land acquisition, runway extension, etc. Noise level will increase. (ELR Order No. 4028, 26 pages) (NTIS Order No. PB-207 671-D).

Grant, Perkins County, Nebr. Proposed land acquisition, construction of runway, taxiway, etc., to replace present turf field which serves seven aircraft. (ELR Order No. 4029, 31 pages) (NTIS Order No. PB-207 675-D).

Gulf Central Airport, Hancock County, Miss. Proposed request for Federal financial aid to strengthen and extend existing runway, taxiways, apron, etc. The purpose of the project is to enable the airport to handle large transport aircraft. Noise and other pollution levels will increase accordingly. (ELR Order No. 4030, 16 pages) (NTIS Order No. PB-207 676-D).

Draft, March 24

Grand Rapids, Kent County, Mich. Proposed construction of a new 3500' x 75' runway and taxi system; installation of VASI, fencing, addition to terminal, etc. (ELR Order No. 4039, 29 pages) (NTIS Order No. PB-207 723-D).

Final, March 17

Adirondack Airport, Saranac Lake, N.Y. A proposed request for Federal financial assistance to acquire land and reconstruct existing airport facilities. Eighteen acres of land will be required by the project; noise and other pollutant levels will rise accordingly. Comments made by USDA, Army COE, EPA, HUD, DOI, State and local agencies. (ELR Order No. 4006, 30 pages) (NTIS Order No. PB-207 581-F).

Final, March 28

Rockingham County Airport, Reidsville, N.C. A proposed request for Federal financial assistance to construct a general purpose airport capable of accommodating all propeller aircraft of less than 12,500 pounds (ELR Order No. 4063, 16 pages) (NTIS Order No. PB-204 259-F).

FEDERAL HIGHWAY ADMINISTRATION

Draft, March 15

Lapeer and St. Clair Counties, Mich. Proposed construction of M-21, a 40-mile long freeway. An unspecified amount of land will be lost to the project; water, air, and noise pollution will increase. (ELR Order No. 3054, 33 pages) (NTIS Order No. PB-207 559-D).

Draft, March 17

Johnson County, Kans. Proposed reconstruction of 6.5 miles of I-35. An unspecified amount of land will be lost to the project. (ELR Order No. 3055, 92 pages) (NTIS Order No. PB-207 548-D).

Duwamish River, Seattle, Wash. Proposed construction of a 5-lane bascule bridge across the 200' channel. The navigable width of the channel will be lessened by the action. (ELR Order No. 3065, 49 pages) (NTIS Order No. PB-207 546-D).

Project F-263 ( ), La Salle County, Ill. Proposed reconstruction of 12 miles of Interstate Route 23. One family will be displaced and the highway will be moved closer to existing homes. (ELR Order No. 3068, 46 pages) (NTIS Order No. PB-207 552-D).

Draft, March 16

Project S-709(1), Brevard County, Fla. Proposed reconstruction of 1.7 miles of State Route 516. A substantial amount of Indian River bottom will be filled due to the project. (ELR Order No. 3069, 115 pages) (NTIS Order No. PB-207 571-D)

Draft, March 13

Project F-120-1, Fulton County, Ga. Proposed construction of 7 miles of highway. There are several lakes in the area; an unspecified amount of land will be lost to the project. (ELR Order No. 3073, 55 pages) (NTIS Order No. PB-207 547-D).

Draft, March 15

Johnson County, Kans. Reconstruction of 12 miles of K-7, including bridge construction. A 4(f) statement will be required as some land involved in parkland. (ELR Order No. 3060, 29 pages) (NTIS Order No. PB-207 568-D).

Draft, March 16

I.S. 70N, Baltimore, Md. Proposed construction of 1 mile of 6-lane I-70N, a controlled access freeway, with one major interchange. Twelve businesses will be displaced. A 4(f) statement is required as 25 acres of parkland would be taken by the project. (ELR Order No. 4008, 52 pages) (NTIS Order No. PB-207 579-D).

Draft, March 22

Faribault County, Minn. Proposed construction of 6.3 miles of 4-lane highway, in 2 sections, involving I-90 and T.H. 169. An unspecified number of residences, businesses, and land will be lost, dependent upon which of several routes are used. (ELR Order No. 4031, 57 pages) (NTIS Order No. PB-207 679-D).

Draft, March 21

State Road 20, Washington County, Fla. Proposed construction of 11 miles of 2 lane State Route 20. An unspecified amount of timberland will be lost to the project. (ELR Order No. 4032, 64 pages) (NTIS Order No. PB-207 677-D).

Draft, March 24

Project S-1127(1) Miami County, Ind. Proposed construction of a new bridge across the Wabash River on Wayne Street in Peru, Ind. (ELR Order No. 4040, 17 pages) (NTIS Order No. PB-207 737-D).

Draft, March 22

Projects S 0642( ) and S 0455( ), Dane County, Wis. Proposed reconstruction of 2.37 miles of roadway. Siltation of Pheasant Branch Creek will result, (ELR Order No. 4042, 14 pages) (NTIS Order No. PB-207 738-D).

Draft, March 24

Project S-1152(5), Wood County, Ohio. Proposed reconstruction of 3 miles of Township Road No. 107 from 2 to 4 lanes. Four residences and 50 acres of land will be lost to the project. (ELR Order No. 4043, 15 pages) (NTIS Order No. PB-207 739-D).

Draft, March 27

Shawnee County, Kans. Proposed reconstruction of 0.208-mile of roadway. A 4(f) statement is required as a section of the right-of-way is public park land. (ELR Order No. 4046, 16 pages) (NTIS Order No. PB-207 743-D).

Draft, March 24

Jackson County, Fla. Proposed reconstruction of 1 mile of SR-71. (ELR Order No. 4047, 21 pages) (NTIS Order No. PB-207 742-D).

Richardson County, Nebr. Proposed reconstruction of 15.9 miles of U.S. 73. Six residences will be displaced by the project. (ELR Order No. 4048, 11 pages) (NTIS Order No. PB-207 744-D).

Taylor County, Fla. Proposed reconstruction of 6.1 miles of State Route 20 (U.S. 27). The number of persons displaced depends upon which of several alternate routes is used. (ELR Order No. 4052, 26 pages) (NTIS Order No. PB-207 721-D).

Final, March 9

Project I-35-4, Bell County, Tex. Reconstruction of I-35 from 4 to 6 lanes, for a total length of 3.5 miles. Two families and four businesses will be displaced by the action. Comments made by USDA, Army COE, HEW, DOT, State and local agencies. (ELR Order No. 3017, 28 pages) (NTIS Order No. PB-202 127-F).

Project I-59, Jefferson County, Ala. Proposed construction of 10.5 miles of 4-lane I-59. Approximately 173 people will be displaced by the project. Comments made by USDA, Army COE, DOC, EPA, DOI, Navy, DOT, and State agencies. (ELR Order No. 3018, 51 pages) (NTIS Order No. PB-201 (233-F).

Project APD-200(24), Mercer County, W. Va. Proposed construction of 2.79 miles of 4-lane divided highway. Thirty-three residences and one business will be displaced by the highway; there is expressed concern that water runoff will effect groundwater quality. Comments made by USDA, Army COE, DOC, EPA, DOI, State and local agencies, and concerned citizens. (ELR Order No. 3019, 159 pages) (NTIS Order No. PB-201 705-F).

Bryan Drive, Harry County, S.C. Proposed reconstruction of Bryan Drive for a total length of 7.9 miles. Noise, air, and dust pollution will occur, with erosion and siltation possible. Comments made by Army COE, and HUD. (ELR Order No. 3020, 18 pages) (NTIS Order No. PB-207 462-F).

APR 8 1972 XUM

Final, March 13

Project F-057-1(3), Cherokee County, Ga. Proposed construction of 3 miles of the Canton By-Pass. The highway passes through an area with numerous minor streams and tributaries. Comments made by Army COE, DOC, DOI, and DOT. (ELR Order No. 3043, 51 pages) (NTIS Order No. PB-202 918-F).

Project F-031-1(13), Polk County, Fla. Proposed reconstruction of State Route 700 (U.S. 98) for a total project length of 5.6 miles. An unspecified number of displacements will occur, depending upon which of several alternate routes are taken. Comments made by USDA, Army COE, EPA, DOI, and State and local agencies. (ELR Order No. 3044, 53 pages) (NTIS Order No. PB-202 304-F).

S.H. 99, Osage County, Okla. Proposed relocation of S.H. 99, for a total length of 9.6 miles. Approximately 200 acres of land will be lost to the project. Comments made by EPA and DOI. (ELR Order No. 3045, 20 pages) (NTIS Order No. PB-199 619-F).

Route 6, Wallingford, Conn. Proposed reconstruction of Route 68, for a total length approximately 1.4 miles. Fourteen families will be displaced by the action. Comments made by USDA, Army COE, DOC, EPA, FPC, HUD, DOI, State and local agencies. (ELR Order No. 3046, 50 pages) (NTIS Order No. PB-200 026-F).

Final, March 17

Kenai River Crossing, Kenai, Alaska. Proposed construction of 3 miles of 4 lane highway on the Kenai Peninsula. The road will cross a tideland area which is used as a nesting area by migratory waterfowl. Measures have been proposed to protect the nesting of the snow goose. Comments made by USDA, HUD, DOI, DOT, State and local agencies. (ELR Order No. 3076, 132 pages) (NTIS Order No. PB-207 556-F).

Final, March 22

Project S-1086(1), Grant County, Ind. Proposed construction of a bridge and two 600' approaches. A 4(f) statement is necessary as a local park would be infringed upon. Comments made by USDA, EPA, HUD, and DOI. (ELR Order No. 4057, 36 pages) (NTIS Order No. PB-201 235-F).

Final, March 21

Project I-75-7(42)446, Pinellas County, Fla. Proposed construction of 24.3 miles of I-75. Approximately 84 families will be displaced by the action; 2204 acres will be lost to the project. A 4(f) statement is required as public use land will be taken by the project. Comments made by USDA, Army COE, EPA, HUD, DOT, State, and local agencies, and concerned citizens. (ELR Order No. 4059, 521 pages) (NTIS Order No. PB-204 462-F).

URBAN MASS TRANSPORTATION ADMINISTRATION

Draft, March 17

Manhattan, N.Y. An application by the city of New York for Federal financial assistance in constructing the Second Avenue Subway. The grant would cover two-thirds of the $381 million project. (ELR Order No. 3079, 55 pages) (NTIS Order No. PB-207 569-D).

BRIAN P. JENNY,
Acting General Counsel.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 19213, 19214; FCC 72R-91]

LAKE ERIE BROADCASTING CO., AND LORAIN COMMUNITY BROADCASTING CO.

Memorandum Opinion and Order Enlarging Issues

In regard applications of Lake Erie Broadcasting Co., Lorain, Ohio, Docket No. 19213, File No. BPH-6969; Lorain Community Broadcasting Co., Lorain, Ohio, Docket No. 19214, File No. BPH-7044; for construction permits.

1. This proceeding involves the mutually exclusive applications of Lake Erie Broadcasting Co. (Lake Erie) and Lorain Community Broadcasting Co. (Lorain) for a new FM broadcast station in Lorain, Ohio. By Order, FCC 71-408, 36 F.R. 7994, published April 28, 1971, the Commission designated the two applications for hearing on various issues.[1] Before the Review Board is a motion to enlarge issues, filed February 3, 1972, by Lorain,[2] requesting the addition of § 1.65, misrepresentation, duopoly, and abuse of process issues against Lake Erie.

2. In its petition, Lorain alleges that Lake Erie failed to timely report its principals' interest in certain franchised and operating CATV systems and a newspaper, all located in substantially the same area as contemplated by Lake Erie's application for the FM broadcast station.[3] Specifically, Lorain charges that Lake Erie has failed to timely report the following information: (1) That Robert E. Stroupe, a Lake Erie principal, is a vice-president, shareholder, and former General Manager of North Central Television, Inc., a company which is presently operating CATV systems in seven Ohio towns located within 25 miles of Lorain, Ohio; (2) that Stroupe is President and shareholder in "Northern Ohio Weekly Scene," a weekly newspaper distributed throughout the area; and (3) that a partnership was formed among eight Lake Erie principals and this partnership was granted a CATV franchise for the township of Sheffield, Ohio, which is within the Greater Lorain area. Lorain states that the information concerning Stroupe's CATV and newspaper interests were obtained by independent investigation. Petitioner argues that all this information should have been timely reported to the Commission and the failure to do so requires addition of the requested issues. In support thereof, Lorain relies on "the Commission's longstanding policy in comparative broadcast hearings which requires consideration of diversification of control of the media of mass communications," and cites the "Policy Statement on Comparative Broadcast Hearings," 1 FCC 2d 393, 5 RR 2d 1901 (1965). Furthermore, argues petitioner, the Board has previously held that it is appropriate to consider cross-ownership of CATV and the other communications media. "Lorain Community Broadcasting Company," 13 FCC 2d 106, 13 RR 2d 382 (1968); reconsideration denied 14 FCC 2d 604, 14 RR 2d 155 (1968); review denied 18 FCC 2d 686, 16 RR 2d 946 (1969), affirmed "sub nom. Allied Broadcasting, Inc. v. FCC," 140 U.S. App. D.C. 264, 435 F2d 68 (1970). Lorain then notes the Commission's prohibition of cross-ownership of television broadcast stations and CATV systems (Commission § 74.1131), and argues that the present situation created by the newspaper and CATV interests of Lake Erie's principals present the same potential dangers to the necessary diversification criteria.

3. Lake Erie, in its opposition, explains that on January 28, 1972, it submitted supplemental hearing exhibits which indicated that eight of its nine principals had formed a limited partnership and obtained a CATV franchise for the township of Sheffield, Ohio. Then, on February 18, 1972, Lake Erie points out, it filed a motion to amend which more fully stated the facts surrounding the partnership, disclosed that no effort was made to actually construct the CATV system, and, upon realizing the cost involved, the partnership relinquished its franchise. Lake Erie thus urges that there was no need to amend earlier because, first, there was full, voluntary disclosure, and, second, there was no intent or attempt to begin actual construction. Lake Erie therefore contends that "possession of a bare franchise was not of decisional significance" and need not be reported. As for the interests of Robert E. Stroupe in North Central Television, Inc., Lake Erie notes that, while Stroupe is currently Vice-President and on the Board of Directors for North Central, he is only a 6 percent shareholder and only a 1.7 percent shareholder in Lake Erie. Lake Erie also notes that its original application made reference to the fact that Stroupe had an interest in a CATV operation known as "Central Television." Furthermore, argues Lake Erie, all of the communities served by the CATC system are outside the service area for the proposed FM station in Lorain. As for Stroupe's interest in the "Northern Ohio Weekly Scene," Lake Erie contends that the format is that of a magazine and is primarily a television and cable TV guide; further, while the magazine carries news items and advertising, it has no editorials. Also, notes Lake Erie, Exhibit No. 11 of its Hearing Exhibits, exchanged October 13, 1971, indicates that Robert E. Stroupe is "publisher of Weekly Television Guide." Therefore, argues Lake Erie, no purpose would be served by adding any of the requested issues because all pertinent information is before the Commission and parties, no prejudice or disruption has resulted from not filing earlier, and the relevant cross-ownership is insufficient to raise an issue.

4. The Broadcast Bureau, in its comments, expresses the opinion that the facts show a substantial amount of information required by FCC Form 301, Table II, section II, "Business and Financial Interests," which has not been disclosed by Lake Erie following the filing of its application and in conformity with § 1.65 of the Commission's rules. The Bureau notes that the Commission must be able to rely on complete and up-to-date information, and urges that a § 1.65 issue should be added. Further, the Bureau contends that if an adequate response is not made by Lake Erie, a concealment and misrepresentation issue would also appear warranted. Lorain, in its reply, argues that Lake Erie's effort to minimize the significance of Robert E. Stroupe is rebutted by Lake Erie's statement that Stroupe, in addition to being a minor shareholder, will also devote 50 percent of his time to the proposed station. Petitioner also contends that the relinquishment of the CATV franchise by the Lake Erie principals on the eve of the hearing in the present proceeding indicates an effort to improve its comparative position. Overall, Lorain contends that Lake Erie has failed to explain why it did not promptly and fully disclose the pertinent information and that such information is of sufficient significance to require addition of the requested issues.

5. The Review Board is of the view that Lake Erie's failure to timely report its principals' interests in franchised and operating CATV systems and a newspaper requires the addition of a § 1.65 issue. § 1.65 requires disclosure when the information furnished in an application is no longer substantially accurate and complete in all significant respects or when changes which may be of decisional significance have occurred. Here, eight of Lake Erie's principals were granted a CATV franchise for Sheffield Township, Ohio, on November 10, 1970. Yet, Lake Erie made no mention of this to the Commission or the other applicants until it submitted supplemental exhibit materials on January 28, 1972. Then, on February 18, 1972, Lake Erie submitted a motion for leave to amend which more fully explained its principals' interests therein and also contained a copy of a letter, dated February 17, 1972, which notified the granting authority that the CATV franchise was relinquished. Lake Erie contends that it was justified in waiting over 14 months to disclose its principals' 98.4 percent stockholdings in a CATV franchise because a "bare franchise is not of decisional significance." The Board finds this contention totally without merit. In "Lorain," supra, the Board held that a cable franchise is analogous to a construction permit from the Commission, rather than a broadcast application, and it is established that construction permits are considered under the diversification policy. 13 FCC 2d at 113, 13 RR 2d at 392. The CATV franchise held by the Lake Erie principals clearly represented an interest in an existing media of mass communication and should have been reported. See "Media, Inc.", 22 FCC 2d 875, 18 RR 2d 1175 (1970). As for Stroupe's interest in the operating CATV system, Lake Erie's argument that his interests are too small to be of importance is incorrect. As stated in the "Policy Statement on Comparative Broadcast Hearings, supra," 1 FCC 2d at 394, 5 RR 2d at 1908, "we will consider both common control and less than controlling interests in other broadcast stations and other media of mass communications." This statement applies equally to Stroupe's interest in the newspaper. The failure of Lake Erie to report such interests in the present case requires addition of the requested § 1.65 issue.[4] The Board does not, however, believe that the requested misrepresentation issues are warranted. The full circumstances surrounding the failure to amend, including the question of intent, may be explored under the § 1.65 issue. Nor does the Board believe that sufficient allegations have been made to warrant the addition of an abuse of processes issue or any disqualifying cross-interest or duopoly issue. The extent of ownership of Lake Erie's principals in other media of mass communications may be considered under the diversification criterion of the standard comparative issue. The § 1.65 issue is sufficient to thoroughly explore all the matters raised by petitioner's allegations.

6. *Accordingly, it is ordered*, That the petition for enlargement of issues, filed February 3, 1972, by Lorain Community Broadcasting Company, is granted to the extent indicated below, and is denied in all other respects; and

7. *It is further ordered*, That the issues in this proceeding are enlarged to include the following issue:

To determine whether Lake Erie Broadcasting Co. has failed to comply with the provisions of §§ 1.514 and/or 1.65 of the Commission's rules; and, if so, to determine the effect of such noncompliance on the applicant's basic or comparative qualifications to be a Commission licensee; and

8. *It is further ordered*, That the burden of proceeding with the introduction of evidence under the issue added herein shall be on Lorain Community Broadcasting Co. and the burden of proof under the issue shall be on Lake Erie Broadcasting Co.

Adopted: March 31, 1972.

Released: April 4, 1972.

FEDERAL COMMUNICATIONS COMMISSION,[5]
[SEAL] BEN F. WAPLE,
Secretary.

[FR Doc.72-5412 Filed 4-7-72;8:47 am]

[1] The application of Vocom Industries, Inc., which was consolidated for hearing with the above applications, was dismissed by Order of the Hearing Examiner, FCC 71M-1771, released November 9, 1971.

[2] Other pleadings before the Board are: (a) Opposition, filed March 1, 1972, by Lake Erie; (b) Broadcast Bureau's comments, filed March 1, 1972; and (c) reply, filed March 8, 1972, by Lorain.

[3] As to the timeliness of Lorain's petition, because of the substantive public interest questions raised therein, the Board will consider the merits of the petition. The Edgefield-Saluda Radio Co. (WJES), 5 FCC 2d 148, 8 RR 2d 611 (1966).

[4] Since Stroupe's interests appear to have existed prior to the filing of Lake Erie's application the issues specified will encompass possible violation of § 1.514, as well as § 1.65.

[5] Board member Pincock absent.

[1] This notice does not provide for consolidation for hearing of the several matters covered herein.

FEDERAL POWER COMMISSION

[Docket No. G-4954, etc.]

J. D. BURKE, ET AL.

Notice of Applications for Certificates, Abandonment of Service and Petitions to Amend Certificates [1]

MARCH 29, 1972.

Take notice that each of the applicants listed herein has filed an application or petition pursuant to section 7 of the Natural Gas Act for authorization to sell natural gas in interstate commerce or to abandon service as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before April 24, 1972, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates or the authorization for the proposed abandonment is required by the public convenience

[Docket No. RI72-198 etc.]

ODESSA NATURAL CORP. ET AL.

Order Providing for Hearing on and Suspension of Proposed Changes in Rates, and Allowing Rate Changes To Become Effective Subject to Refund [1]

MARCH 31, 1972.

Respondents have filed proposed changes in rates and charges for jurisdictional sales of natural gas, as set forth in Appendix A hereof.

[1] Does not consolidate for hearing or dispose of the several matters herein.

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon hearings regarding the lawfulness of the proposed changes, and that the supplements herein be suspended and their use be deferred as ordered below.

The Commission orders:

(A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto (18 CFR, Ch. I), and the Commission's rules of practice and procedure, public hearings shall be held concerning the lawfulness of the proposed changes.

(B) Pending hearings and decisions thereon, the rate supplements herein are suspended and their use deferred until date shown in the "Date Suspended Until" column. Each of these supplements shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the Respondent or by the Commission. Each Respondent shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplements, nor the rate schedules sought to be altered, shall be changed until disposition of these proceedings or expiration of the suspension period, whichever is earlier.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

VOL 37 NO 69 APR 8 72 XUM

The proposed increases of Chevron Oil Co. for sales to El Paso in San Juan Basin are based on favored-nation clauses which were allegedly atcivated by Aztec Oil & Gas Co.'s unilateral rate increase to 29.23 cents which became effective subject to refund in Docket No. RI71–744 on August 1, 1971. El Paso Natural Gas Co. is expected to protest these favored nation increases, as they have previous filings, on the basis that they are not contractually authorized. In view of the contractual problem presented, the hearing herein shall concern itself with the contractual basis for these favored-nation filings as well as the justness and reasonableness of the proposed increased rates. The proposed increases to 21.33 cents per Mcf do not exceed the corresponding rate filing limitation imposed in southern Louisiana and are suspended for 1 day since Chevron Oil Co. has waived its right to file for additional increases for a period of 1 year from the date such increases were filed except in the event that the Commission determines a higher area rate level for these sales or the buyer and seller agree by negotiation to higher rates.

The proposed increase of Gulf Oil Corp. includes a double amount of the contractually due reimbursement for taxes applicable to future production as well as reimbursement for taxes applicable to past production, back to January 1, 1968. After tax reimbursement applicable to past production has been recovered, Gulf shall file a rate decrease reducing the proposed rate so as to provide for tax reimbursement for future production only. Consistent with prior Commission action on increases reflecting reimbursement of the Wyoming severance tax, Gulf's proposed increase is suspended for 1 day from the proposed effective date.

CRA, Inc. requests effective dates earlier than those permitted herein. Good cause has not been shown for granting such request, and it is denied.

All of the producers' proposed rates and charges exceed the applicable area price levels for increased rates as set forth in the Commission's Statement of General Policy No. 61–1, as amended (18 CFR 2.56).

CERTIFICATION OF ABBREVIATED SUSPENSION

Pursuant to § 300.16(1)(3) of the Price Commission rules and regulations, 6 CFR Part 300 (1972), the Federal Power Commission certifies as to the abbreviated suspension period in this order as follows:

(1) This proceeding involves producer rates which are established on an area rather than company basis. This practice was established by Area Rate Proceeding, Docket No. AR61–1, et al., Opinion No. 468, 34 FPC 159 (1965), and affirmed by the Supreme Court in Permian Basin Area Rate Case, 390 U.S. 747 (1968). In such cases as this, producer rates are approved by this Commission if such rates are contractually authorized and are at or below the area ceiling.

(2) In the instant case, the requested increases do not exceed the ceiling rate for a 1-day suspension.

(3) By Order No. 423 (36 F.R. 3464) issued February 18, 1971, this Commission determined as a matter of general policy that it would suspend for only 1 day a change in rate filed by an independent producer under section 4(d) of the Natural Gas Act [15 U.S.C. 717c(d)] in a situation where the proposed rate exceeds the increased rate ceiling but does not exceed the ceiling for a 1-day suspension.

(4) In the discharge of our responsibilities under the Natural Gas Act, this Commission has been confronted with conclusive evidence demonstrating a natural gas shortage. (See Opinion Nos. 595, 598, and 607, and Order No. 435.) In these circumstances and for the reasons set forth in Order No. 423 the Commission is of the opinion in this case that the abbreviated suspension authorized herein will be consistent with the letter and intent of the Economic Stabilization Act of 1970, as amended, as well as the rules and regulations of the Price Commission, 6 CFR Part 300 (1972). Specifically, this Commission is of the opinion that the authorized suspension is required to assure continued, adequate and safe service and will assist in providing for necessary expansion to meet present and future requirements of natural gas.

[FR Doc.72–5336 Filed 4–7–72;8:45 am]

[Docket No. RI72–197]

SKELLY OIL CO.

Order Providing for Hearing on and Suspension of Proposed Change in Rate, and Allowing Rate Change To Become Effective Subject to Refund

MARCH 31, 1972.

Respondent has filed a proposed change in rate and charge for the jurisdictional sale of natural gas, as set forth in Appendix A hereof.

The proposed changed rate and charge may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon a hearing regarding the lawfulness of the proposed change, and that the supplement herein be suspended and its use be deferred as ordered below.

The Commission orders:

(A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto (18 CFR, Ch. I), and the Commission's rules of practice and procedure, a public hearing shall be held concerning the lawfulness of the proposed change.

(B) Pending hearing and decision thereon, the rate supplement herein is suspended and its use deferred until date shown in the "Date Suspended Until" column. This supplement shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the Respondent or by the Commission. Respondent shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplement, nor the rate schedule sought to be altered, shall be changed until disposition of this proceeding or expiration of the suspension period, whichever is earlier.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

APPENDIX A

Docket No.	Respondent	Rate schedule No.	Supplement No.	Purchaser and producing area	Amount of annual increase	Date filing tendered	Effective date unless suspended	Date suspended until—	Cents per Mcf* Rate in effect	Cents per Mcf* Proposed increased rate	Rate in effect subject to refund in docket No.
RI72–197	Skelly Oil Co.	49	5	Kansas-Nebraska Natural Gas Co., Inc. (Big Springs Field, Deuel County, Nebr.).	$6,146	3–2–72		5–3–72	13.5	[1] 21.956	

*The pressure base is 16.4 p.s.i.a.

[1] Unilateral increase-contract expired 11–1–71.

The proposed unilateral increase from 13.5 cents to 21.956 cents per Mcf filed by Skelly Oil Co. is for a sale of gas to Kansas-Nebraska Natural Gas Co., Inc., in Deuel County, Nebr. The Commission has not prescribed increased rate ceiling for sales from Nebraska but has applied the 13.0 cents per Mcf at 15.025 p.s.i.a. (14.19 cents at 16.4 p.s.i.a.) increased rate ceiling of adjacent Colorado as a guide in determining whether to suspend proposed increase in Nebraska. Skelly's increase exceeds the Colorado increased rate ceiling but does not exceed the corresponding rate filing limitation imposed in southern Louisiana and therefore it is suspended herein for 1 day.

CERTIFICATE OF ABBREVIATED SUSPENSION

Pursuant to § 300.16(1)(3) of the Price Commission rules and regulations, 6 CFR Part 300 (1972), the Federal Power Commission certifies as to the abbreviated suspension period in this order as follows:

(1) This proceeding involves producer rates which are established on an area rather than company basis. This practice was established by Area Rate Proceeding, Docket No. AR61–1, et al., Opinion No. 468, 34 FPC 159 (1965), and affirmed by the Supreme Court in Permian Basin Area Rate Case, 390 U.S. 747 (1968). In such cases as this, producer rates are approved by this Commission if such rates are contractually authorized and are at or below the area ceiling.

(2) In the instant case, the requested increases do not exceed the ceiling rate for a 1-day suspension.

(3) By Order No. 423 (36 F.R. 3464) issued February 18, 1971, this Commission determined as a matter of general policy that it would suspend for only 1 day a change in rate filed by an independent producer under section 4(d) of the Natural Gas Act [15 U.S.C. 717c(d)] in a situation where the proposed rate exceeds the increased rate ceiling but does not exceed the ceiling for a 1-day suspension.

(4) In the discharge of our responsibilities under the Natural Gas Act, this Commission has been confronted with conclusive evidence demonstrating a natural gas shortage. (See Opinion Nos. 595, 598, and 607, and Order No. 435.) In these circumstances and for the reasons set forth in Order No. 423 the Commission is of the opinion in this case that the abbreviated suspension authorized herein will be consistent with the letter and intent of the Economic Stabilization Act of 1970, as amended, as well as the rules and regulations of the Price Commission, 6 CFR Part 300 (1972). Specifically, this Commission is of the opinion that the authorized suspension is required to assure continued, adequate and safe service and will assist in providing for necessary expansion to meet present and future requirements of natural gas.

[Project 2030]

PORTLAND GENERAL ELECTRIC CO.

Notice of Availability of Environment Statement for Inspection

APRIL 6, 1972.

Notice is hereby given that on April 7, 1972, as required by § 2.81(b) of Commission Regulations under Order 415–B (36 F.R. 22738, November 30, 1971) a final environmental statement pursuant to section 7 of the Guidelines of the Council on Environmental Quality (36 F.R. 7724, April 23, 1971) was placed in the public files of the Federal Power Commission.

The Final Environmental Impact Statement is enclosed as an attachment to the Federal Power Commission's Order Amending License and Approving Exhibit S Filing for Project No. 2030, the Pelton Project, Oreg., dated April 4, 1972. The Exhibit S filing includes construction, maintenance and operation of fish hatchery facilities at the Round Butte Development of the Pelton Project. Facilities will be used to maintain runs of steelhead trout and chinook salmon in the Deschutes River.

This statement is available for public inspection in the Commission's Office of Public Information, Room 2523, General Accounting Office, 441 G Street NW., Washington, DC. Copies will be available from the National Technical Information Service, Department of Commerce, Springfield, Va. 22151.

[FR Doc.72–5529 Filed 4–7–72;9:40 am]

FEDERAL RESERVE SYSTEM

VALLEY BANCORPORATION

Order Approving Acquisition of Bank

Valley Bancorporation, Appleton, Wis., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)), to acquire 80 percent or more of the voting shares of Bank of Casco, Casco, Wis. (Bank).

Notice of receipt of the application has been given in accordance with section 3(b) of the Act, and the time for filing comments and views has expired. The Board has considered the application and all comments received in the light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)) and finds that:

Applicant, the eighth largest banking organization in Wisconsin, controls 11 banks with aggregate deposits of approximately $148 million, representing 1.4 percent of the total commercial bank deposits in the State.[1] Upon acquisition of Bank ($7.1 million in deposits), applicant's position in relation to the other banking organizations in the State would remain unchanged and applicant's share of deposits in the State would be increased by only 0.1 percentage point.

Bank's sole office is located in the village of Casco, in Kewaunee County, where it competes with six other banks in a market approximated by the northern three-fourths of Kewaunee County and the southern 6 miles of Door County. Bank ranks fourth in deposit size among the banks competing in this market, holding 14.4 percent of total deposits in that market. Applicant's closest subsidiary, Badger State Bank, located in Denmark, Brown County, is approximately 27 road miles southwest of Bank. There is no existing competition between Bank and this subsidiary or any of applicant's other subsidiaries. Moreover, in view of the low population density of the area and Wisconsin's restrictive branch banking statutes, the possibility of such competition arising in the future appears remote. On the basis of the record before it, the Board concludes that consummation of the proposed acquisition would not have a significantly adverse effect on competition in any relevant area. Nor is consummation likely to have any significant adverse effects on Bank's competitors.

There is no evidence that significant banking needs of the community are going unserved; however, consummation of this acquisition would allow Bank to improve the quality and expand the number of services Bank currently offers to the community. Affiliation with applicant would increase the lending capability of Bank through participation arrangements with applicant's present subsidiary banks, and enable Bank to initiate trust services as well as to improve and expand its consumer lending capabilities. Considerations relating to the convenience and needs of the communities to be served lend some weight toward approval.

Considerations relating to financial and managerial resources and prospects as they relate to applicant, its subsidiaries and Bank, are regarded as satisfactory, except that Bank has not provided for adequate successor management. Applicant's capabilities for finding competent and experienced officers for Bank as needed lend some weight in favor of approval. It is the Board's judgment that consummation of the proposed acquisition would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the 30th calendar day following the date of this order or (b) later than 3 months after the date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Chicago pursuant to delegated authority.

By order of the Board of Governors,[2] April 3, 1972.

[SEAL] TYNAN SMITH, *Secretary of the Board.*

[FR Doc.72–5425 Filed 4–7–72;8:47 am]

[1] All banking data are as of June 30, 1971, and reflect holding company formations and acquisitions approved through February 29, 1972.

GENERAL SERVICES ADMINISTRATION

RETRO-REFLECTIVE BEADS AND REFLECTORIZED TRAFFIC PAINT FOR AIRFIELD RUNWAY MARKING

Industry Specification Development Conference

Notice is hereby given that the Federal Supply Service, General Services Administration, will hold an Industry Specification Development Conference in connection with the following Federal specifications:

TT–B–1325A—Beads (Glass Spheres); Retro-Reflective.

TT–P–85D—Paint, Traffic: Reflectorized for Airfield Runway Marking (Drop-on-Type).

The purpose of the conference is to provide a forum for consideration of suggestions, ideas, or ways and means to improve the specifications to the end that: (1) Mutual understanding by both the Government and industry of the Government's technical requirements for the items, and (2) the quality of the products shipped to the Government will be enhanced. It will be open to all those in the private sector who have an interest or concern for these matters, and all other Government departments or agencies having an interest therein are also being invited to send their representatives.

The conference will be held on April 26, 1972, at 10 a.m., Room 1022, Building 4, Crystal Mall, 1941 Jefferson Davis Highway, Arlington, VA. Anyone who wants to attend or desires further information should contact Mr. W. S. van Byken, General Services Administration, Federal Supply Service, Office of Standards and Quality Control, Washington, D.C. 20406, telephone No. (Area Code 703) 557–7879.

APR 8 1972 XUM

Issued in Washington, D.C., on March 30, 1972.

M. S. MEEKER,
Commissioner.

[FR Doc.72-5395 Filed 4-7-72;8:46 am]

[Federal Property Management Regs.; Temporary Reg. F-144]

SECRETARY OF DEFENSE

Delegation of Authority

1. *Purpose.* This regulation delegates authority to the Secretary of Defense to represent the consumer interests of the executive agencies of the Federal Government in a telecommunications rate proceeding.

2. *Effective date.* This regulation is effective immediately.

3. *Delegation.* a. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, particularly sections 201(a)(4) and 205(d) (40 U.S.C. 481(a)(4) and 486(d)), authority is delegated to the Secretary of Defense to represent the consumer interests of the executive agencies of the Federal Government before the New Jersey Board of Public Utility Commissioners in a proceeding involving telecommunications rates of the New Jersey Bell Telephone Co.

b. The Secretary of Defense may redelegate this authority to any officer, official, or employee of the Department of Defense.

c. This authority shall be exercised in accordance with the policies, procedures, and controls prescribed by the General Services Administration, and, further, shall be exercised in cooperation with the responsible officers, officials, and employees thereof.

Dated: April 3, 1972.

HAROLD S. TRIMMER, JR.,
Acting Administrator of General Services.

NATIONAL CAPITAL PLANNING COMMISSION

[NCPC File No. 0933]

URBAN RENEWAL

Requirements for Proposals

At its meeting on April 6, 1972, the National Capital Planning Commission adopted the following requirements for urban renewal proposals pursuant to the District of Columbia Redevelopment Act of 1945, as amended.

SECTION 1. *Introduction.* Section 6(b) of the District of Columbia Redevelopment Act of 1945, as amended (hereinafter referred to as the "Act"), provides for adoption by the Commission and approval by the District of Columbia Council of boundaries and urban renewal plans for urban renewal areas in the District of Columbia. Section 12 of the Act provides that modifications of such plans may be effected only through adoption by the Commission and approval by the District of Columbia Council.

The following material, form and procedural requirements are prerequisites to Commission consideration of:

1. Urban renewal area boundaries and modifications thereof, and

2. Urban renewal plans and modifications thereof.

They are intended to insure an adequate and complete review and evaluation of all urban renewal proposals pursuant to the Act, the National Environmental Policy Act of 1969, and other applicable laws and regulations.

The requirements regarding the scheduling of Commission consideration are intended to insure an adequate opportunity for interagency coordination and for review and comment by interested and affected organizations and individuals.

The requirements are also intended to guide the staff of the Commission, the District of Columbia Government, the District of Columbia Redevelopment Land Agency (hereinafter referred to as the "Agency"), and other groups and organizations, including redevelopers, making urban renewal proposals to the Commission. Such agencies and organizations are urged to contact the Commission staff at the earliest possible time for consultation prior to making such proposals.

Boundaries and urban renewal plans for urban renewal areas and modifications thereof shall be scheduled for Commission consideration only if all of the following requirements are met in accordance with the established monthly deadlines for the submission of plans. Adherence to such deadlines is essential to permit necessary referrals, interagency coordination, and staff review.

Except with respect to an urban renewal proposal made by a governmental agency, a group or organization receiving financial assistance from a governmental agency, or a redeveloper or other commercial enterprise, the Executive Director of the Commission may modify or waive any requirement where the application of such requirement would preclude the consideration of an urban renewal proposal which the Executive Director determines, by virtue of its compatibility with the objectives of an approved urban renewal plan or with the Comprehensive Plan for the National Capital, to be of sufficient merit for Commission consideration. In such cases, the Executive Director may request the Agency to prepare and submit such materials as are required and not otherwise submitted.

SEC. 2. *Materials required*—A. *Action items.* The following materials are required for Commission consideration of urban renewal proposals for adoption pursuant to the Act:

(1) *Boundaries and modifications thereof.* A map showing the proposed boundaries of the urban renewal area or proposed modifications to the boundaries of an approved urban renewal area.

(2) *Urban renewal plans and modifications thereof.* Proposed text and/or map(s) of urban renewal plans or modifications to an approved urban renewal plan. The proposed text of an urban renewal plan, or of a modification to an approved urban renewal plan which includes a change in urban renewal area boundaries, shall include a metes and bounds description of the boundaries or change in boundaries.

B. *Supporting documentation.* The following materials in support of the action items described above shall be presented to the Commission and placed in the record:

(1) *Eligibility report—urban renewal area.* A statement of the eligibility of the proposed urban renewal area, or of the proposed modified urban renewal area, under the Act.

(2) *Eligibility report—action areas.* A statement of the eligibility of each action area in the proposed annual neighborhood development program for a proposed urban renewal plan or modification(s) to an approved urban renewal plan, pursuant to title I of the Housing Act of 1949, as amended.

(3) *Relocation report.* A description of the estimated residential and nonresidential displacement that will be caused by an urban renewal proposal and a statement of available relocation resources to accommodate project displacement.

(4) *Rehabilitation report.* A statement of the feasibility of each rehabilitation area in the proposed annual neighborhood development program for a proposed urban renewal plan or modification(s) to an approved urban renewal plan, pursuant to title I of the Housing Act of 1949, as amended.

(5) *Environmental impact.* A Description of Environmental Impact of the urban renewal proposal prepared pursuant to the Commission's Policies and Procedures for the Protection and Enhancement of Environmental Quality in the National Capital Region.

(6) *Citizen participation report.* A statement of the steps taken to insure citizen participation and community review of the urban renewal proposal and statements from affected community groups indicating their position relative to the proposal.

C. *Background data and information.* The following materials are required to enable a complete review and evaluation of an urban renewal proposal by the Commission:

(1) *Narrative description.* A narrative description and justification of the urban renewal proposal.

(2) *Data sheet.* A data sheet indicating, where applicable, each of the following:

(a) The lot and square numbers of all properties proposed for acquisition, disposition, or rehabilitation.

(b) The area in square feet or acres of each disposition lot or rehabilitation area.

(c) The number, size, density, and type of housing units to be developed on each disposition lot and the number, size, density, and type of housing units to be rehabilitated in each rehabilitation area.

(d) The floor area and type of new commercial space or other nonresidential uses to be developed on each disposition lot.

(3) *Status report on project execution activities.* In connection with each proposed annual neighborhood development program, a narrative description of:

(a) *The current status of acquisition,* disposition, and rehabilitation activities in previously approved action areas, and

(b) The current status of project improvement activities in each urban renewal area.

SEC. 3. *Form of submissions*—A. *Map scales.* Except for presentation maps, all maps shall be presented at a scale of at least 1 inch equals 200 feet, for maps showing urban renewal area boundaries and modifications thereof and maps constituting parts of urban renewal plans and modifications thereof, and at a scale of at least 1 inch equals 50 feet for site and building plan submitted in support or explanation of proposed modifications to approved urban renewal plans.

B. *Sheet sizes.* All drawings submitted shall not exceed a sheet size of 33 x 44 inches in order to be compatible with the Commission's microfilm process. For projects involving larger plans, multiple sheets, covering portions of the plan, may be submitted so that the maximum sheet size may be maintained. No minimum sheet size has been established. However, drawings should be large enough to be readable by the Commission in a large meeting room at a distance of 20 to 25 feet.

C. *Number of copies.* At least three complete sets of all materials, including action items, supporting documentation, and background data and information shall be submitted.

D. *Presentation materials.* One set of all presentation materials shall be submitted for use in the various presentations. Maps used in presentations to the Commission shall be in color—using zip-a-tone, magic marker, or other suitable materials.

SEC. 4. *Steps in Commission consideration.* 1. Staff review and evaluation of and, if determined by the Executive Director to be necessary, revisions to the urban renewal proposal and the Description of Environmental Impact submitted in accordance with section 2.B.(5).

2. Referral of the proposal or revised proposal to the Commission's Coordinating Committee for coordination with interested and affected Federal and District of Columbia agencies.

3. Referral of the proposal or revised proposal to the Agency and to interested and affected community organizations.

4. Referral of the proposal or revised proposal to the Joint Committee on Landmarks of the National Capital if the proposal or modified proposal is determined by the Executive Director to significantly affect a designated landmark.

5. Presentation of the proposal or revised proposal to the Commission's Urban Renewal and Housing Committee, together with the Executive Director's recommendation thereon.

6. Presentation of the proposal or revised proposal to the Commission, together with the report of the Urban Renewal and Housing Committee.

7. Action on the proposal or revised proposal by the Commission.

I, Daniel H. Shear, Secretary to the Commission, hereby certify that the foregoing is a true copy of the urban renewal proposals requirements as adopted by the Commission.

DANIEL H. SHEAR,
Secretary.

NATIONAL SELECTIVE SERVICE APPEAL BOARD

ESTABLISHMENT, FUNCTIONS, AND DUTIES

Room 1002, 1730 K Street NW., Washington DC 20006, phone (202) 343-6136.

Chairman, Levi A. Jackson.
Member, E. G. Banks.
Member, C. N. Collatos.
Administrative Executive, G. J. Wendel.

Création and authority. The National Selective Service Appeal Board was established by Executive Order 9988 of August 20, 1948, as amended by Executive Order 10116 of March 9, 1950. The Board consists of three civilian members appointed by the President. The National Board is authorized and directed to perform all functions and duties vested in the President by that sentence of section 10(b)(3) of the Military Selective Service Act as amended which reads: "The President, upon appeal, or upon his own motion, shall have power to determine all claims or questions with respect to inclusion for, or exemption or deferment from training and service under this title, and the determination of the President shall me final." The National Board makes its classification determinations within the law, the regulations, and the established policies of the Director of Selective Service.

Approved.

LEVI A. JACKSON,
Chairman.

SECURITIES AND EXCHANGE COMMISSION

[812-1836]

CHASE CAPITAL FUND OF BOSTON, INC.

Notice of Filing of Application Declaring That Company Has Ceased To Be an Investment Company

APRIL 4, 1972.

Notice is hereby given that Chase Capital Fund of Boston, Inc., 535 Boylston St., Boston, MA 02216 (Applicant), a Massachusetts corporation registered as an open-end management investment company under the Investment Company Act of 1940 (Act), has filed an application pursuant to section 8(f) of the Act for an order of the Commission declaring that the Applicant has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations set forth therein which are summarized below.

Applicant filed its Notification of Registration on Form N-8A under the Act on March 25, 1969.

Applicant states that on November 24, 1971, its shareholders approved a plan of reorganization (Plan) under which Applicant sold substantially all of its assets to Chase Frontier Fund of Boston, Inc. (subsequently called Chase Frontier Capital Fund of Boston, Inc., hereinafter "Frontier"), a Massachusetts corporation, registered under the Act as an open-end management investment company, in exchange for the common stock of Frontier.

Applicant further states that pursuant to said Plan, Frontier's common stock was distributed to Applicant's shareholders. Applicant represents that as a result of said Plan it has neither assets, nor unclaimed dividends or other distributions. Applicant contends that it does not presently engage in any business activity and has no plans to do so in the future. In addition, Applicant states that it is filing for dissolution with the Commonwealth of Massachusetts.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may not later than April 25, 1972, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the matter herein may be issued by the Commission upon the basis of the information stated in the application, unless an order for

V 37 69 APR 8 72 XUM

hearing upon said proposal shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

[70-5182]

CONSOLIDATED NATURAL GAS CO.

Notice of Proposed Issue and Sale

APRIL 3, 1972.

Notice is hereby given that Consolidated Natural Gas Co. (Consolidated), 30 Rockefeller Plaza, New York, NY 10020, a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 (Act), designating sections 6(a) and 7 of the Act and Rule 50 promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transaction.

Consolidated proposes to issue and sell, subject to the competitive bidding requirements of Rule 50, $50 million principal amount of __ percent Debentures due May 1, 1997. The interest rate (which will be a multiple of one-eighth of 1 percent) and the price, exclusive of accrued interest (which will be not less than 99 percent or more than 102 percent of the principal amount thereof) will be determined by the competitive bidding. The debentures will be issued as a new series under a Second Supplemental Indenture dated as of May 1, 1972, to the Indenture between Consolidated and Manufacturers Hanover Trust Co., New York, N.Y., as Trustee. The Indenture includes a prohibition until May 1, 1977, against refunding the issue with or in anticipation of the proceeds from borrowings at a lower cost. The proceeds of the sale of the debentures will be used to finance, in part, the 1972 capital expenditures of Consolidated's subsidiary companies, presently estimated at $127 million.

It is stated that the fees and expenses to be incurred in connection with the proposed transaction are estimated at $101,000, including service charges of Consolidated Natural Gas Service Co., Inc., an associate company, at cost, of $26,000, and accountants' fees and expenses of $5,500. The fees and expenses of counsel for the underwriters, to be paid by the successful bidders, will be supplied by amendment.

It is further stated that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than April 28, 1972, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by the declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above stated address, and proof of service (by affidavit or, in case of an attorney-at-law, by certificate), should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

[FR Doc. 72-5408 Filed 4-7-72;8:47 am]

SELECTIVE SERVICE SYSTEM

ORGANIZATION AND ACTIVITIES

National Headquarters, 1724 F Street NW., Washington, DC 20435. Phone 202-343-1100.

Director, Dr. Curtis W. Tarr.
Deputy Director, Byron V. Pepitone.
Assistant Deputy Director, Operations, Daniel J. Cronin.
Assistant Deputy Director, Administration, John D. Dewhurst.
Office of Public Information, Kenneth J. Coffey.
Office of General Counsel, Walter H. Morse.
Office of Legislation and Liaison, Samuel R. Shaw.
Office of Management Evaluation, Edward W. Locke (Acting).

Creation and authority. The Selective Service System was established by the Military Selective Service Act (62 Stat. 604 as amended; 50 U.S.C. App. 451-471).

The Military Selective Service Act requires the registration of male citizens of the United States and all other male persons except certain alien nonimmigrants and alien medical, dental, or allied specialists who are in the United States who are between the ages of 18 and 26 years. (Alien medical, dental, or allied specialists are liable to register until age 35 years.) The act imposes liability for training and service in the Armed Forces upon registrants who are between the ages of 18 years and 6 months and 26 years, except that aliens are not liable for training and service until they have remained in the United States for more than 1 year. Some persons who have been deferred remain liable for training and service until age 35. Persons in a medical, dental, or allied specialist category who enter the United States after age 26 are liable for training and service until age 35. Conscientious objectors who are found to be opposed to any service in the Armed Forces are required to perform civilian work in lieu of induction into the Armed Forces.

The President is authorized prior to July 1, 1973, to select and induct into the Armed Forces not more than 140,000 persons as may be required to maintain the strengths of the forces in the fiscal year ending June 30, 1973, and also to provide for the selection and induction into the Armed Forces of persons qualified in needed medical, dental, or allied specialist categories pursuant to special requisitions submitted by the Secretary of Defense.

The act exempts members of the active Armed Forces and foreign diplomatic and consular personnel from registration and liability for training and service. Likewise exempted are categories of aliens, as specified by the President, who are not admitted to the United States for permanent residence. Other exemptions or deferments from training and service are provided by the act, and the President is authorized to provide, by rules and regulations, for deferments involving occupations, some kinds of study, dependency, and fitness.

The President by Executive Order 11623 has delegated to the Director of Selective Service authority, subject to certain restrictions, to issue regulations to carry out the Military Selective Service Act.

Pursuant to the provisions of section 672(a) of title 10 of the United States Code (72 Stat. 1440), the Director of Selective Service determines the availability of members of the Standby Reserve of the Armed Forces for order to active duty in time of war or national emergency declared by Congress.

Purpose. The purpose of the Selective Service System is to supply the Armed Forces manpower adequate to insure the security of the United States, with concomitant regard for the maintenance of an effective national economy.

ORGANIZATION AND ACTIVITIES [1]

Director of Selective Service. The Selective Service System is headed by the Director of Selective Service, who is appointed by the President with the consent of the Senate. The Director is responsible directly to the President for carrying out the functions of the System. The Director decides appeals from the determinations of appeal boards as to the availability of members of the Standby Reserve for order to active duty.

[1] Organization chart held as part of the original document.

National headquarters. The National Headquarters functions under the supervision of the Director and assists him. The operations of the Selective Service System are largely decentralized.

State headquarters. Each State headquarters is headed by a State Director of Selective Service, who is appointed by the Director in the name of the President upon recommendation of the Governor. The State Director is responsible for carrying out the functions of the Selective Service System within his area of jurisdiction. He is responsible to the Director of Selective Service for the coordination and supervision of the activities of the local boards, appeal boards, and other selective service agencies under its jurisdiction.

Local boards. At least one local board has been established in each county or political subdivision corresponding thereto except where, upon recommendation of the respective Governors, intercounty local boards have been established for areas not exceeding five counties. A local board consists of three or more civilian members, residents of a county in the local board area, who are appointed by the President upon recommendation of the Governor and serve without compensation. A special local board, with jurisdiction over all persons registered who do not have a place of residence within the United States has been established in the District of Columbia.

Each local board has the power to determine all questions or claims with respect to inclusion for, or exemption or deferment from, training and service of all men registered in, or subject to registration in, the local board area. The decisions of a local board are final, except where an appeal to an appeal board is authorized and is taken. Each local board is responsible for the registration, examination, classification, selection, delivery to the Armed Forces for induction, ordering to perform civilian work in lieu of induction, and maintenance of the records of men who are required to register and who are within its area of jurisdiction.

Appeal boards. Appeal boards have been established for each Federal judicial district in each of the States and in Puerto Rico, the Virgin Islands, Guam, the Canal Zone, and the District of Columbia. Members of appeal boards are civilians resident in the appeal board area and are appointed by the President upon recommendation of the Governor and serve without compensation. The functions of an appeal board are to decide anew the cases of registrants and members of the Standby Reserve appealed to it.

National Advisory Committee on the Selection of Physicians, Dentists, and Allied Specialists.—The National Advisory Committee on the Selection of Physicians, Dentists, and Allied Specialists is located at National Headquarters. The members of this committee are appointed by the President. The functions of the National Committee are to advise the Director of Selective Service and to coordinate the work of State and local volunteer advisory committees established to cooperate with the National Committee, with respect to the availability of needed medical, dental, and allied specialist categories of persons for service in the Armed Forces. The National Committee is independent of the Selective Service System.

SOURCES OF INFORMATION

Publications. The following are examples of Selective Service publications available from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402: Registrants Processing Manual, and Curriculum Guide to the Draft. Selective Service Regulations appear in Chapter XVI of Title 32, Code of Federal Regulations.

The following are available from the Public Information Office, Selective Service System: Perspective on the Draft; Hardship Deferment; Conscientious Objector; It's Your Choice; Lottery and Class 1-H; The Draft: Past, Present, and Future; Doctors' Draft; and Aliens.

Employment. Inquiries and applications should be directed to the Director, Selective Service System, Attn: AP, 1724 F Street NW., Washington, DC 20435.

Procurement. Inquiries should be directed to Director, Selective Service System, Attn: AAPB, 1724 F Street NW., Washington, DC 20435.

For further information including names of State Directors and addresses of State Headquarters, contact the Office of Public Information, Selective Service System, 1724 F Street NW., Washington, DC 20435.

Approved.

CURTIS W. TARR, *Director of Selective Service.*

[FR Doc.72-5442 Filed 4-7-72;8:49 am]

PERSONAL APPEARANCE BEFORE LOCAL BOARD; APPEAL TO APPEAL BOARD AND PRESIDENT

The Registrants Processing Manual is an internal manual of the Selective Service System. The material contained in Chapters 624, 626, and 627 is considered to be of sufficient interest to warrant publication in the FEDERAL REGISTER. Therefore, Chapters 624, 626, and 627 are set forth in full as follows:

CHAPTER 624—PERSONAL APPEARANCE BEFORE THE LOCAL BOARD

This chapter deals only with the personal appearance before the local board in accord with section 22 of the Military Selective Service Act and Part 1624 of Selective Service Regulations. The "courtesy interview" which is used occasionally as an interview with the registrant is not a statutory "personal appearance" as used in this chapter.

The local board will conduct "courtesy interviews" only for registrants who are registered with it or who have been transferred to it for classification.

SECTION 624.1. *Opportunity for personal appearance.* 1. Every registrant shall have the opportunity, in accord with the provisions of this chapter, to appear in person before the local board which classified him. After the classification action by the local board and the mailing of a Notice of Classification (SSS Form 110), the registrant shall have the right to request a personal appearance unless he was classified as a result of a personal appearance where the same claim was considered. Any registrant who has the procedural right to a personal appearance and who requests a personal appearance will have his request acknowledged within 10 working days after receipt of his request by the local board.

2. A registrant who files a claim for classification in Class 1-O, 1-A-O, or 3-A, shall upon his request, be granted an opportunity to appear in person before the local board, prior to his classification being determined by the local board (preclassification personal appearance). A registrant who requests and is granted a preclassification personal appearance will not be given another personal appearance, regarding the same claim, after the local board has made a determination and a Notice of Classification (SSS Form 110) has been mailed to him.

SEC. 624.2. *Request for personal appearance.* 1. In order for a registrant who is claiming 1-O, 1-A-O, or 3-A to qualify for a preclassification personal appearance, the local board must receive a request for the preclassification personal appearance from the registrant prior to the time the local board considers his claim.

2. A registrant, who is eligible for a post-classification personal appearance, must file a written request within 15 days after the local board has mailed a Notice of Classification (SSS Form 110) to him. This 15-day period may be extended by the local board when it is satisfied that the registrant's failure to request a personal appearance within the 15-day period was due to some cause beyond his control.

SEC. 624.3. *Appointment for a personal appearance.* 1. The local board shall give the registrant no less than 15 days' notice before a personal appearance, unless the registrant requests an earlier appointment.

2. Should the registrant fail to appear at a scheduled personal appearance, he shall not be given an opportunity to appear at a later meeting regarding the same claim, unless he first establishes to the satisfaction of the local board good cause for his failure to appear. The registrant must file a written statement of the reason for his failure to appear at his scheduled meeting within 5 days after his failure to appear, or he will be deemed to have waived his right to appear at a later meeting of the local board, regarding the same claim. This 5-day period may be extended by the local board if it is satisfied that the registrant's failure to file a timely written statement of the reason for his failure to appear was due to some cause beyond his control.

V 37-69 APR 8 72 XUM

SEC. 624.4. *Procedure for a personal appearance before the local board.* 1. A quorum of the local board or appropriate panel of the local board must be present during all personal appearances. A majority of those present at the personal appearance will determine the classification action.

2. At any personal appearance the registrant may:

a. Present evidence, and up to three witnesses;

b. Discuss his classification;

c. Point out in the class or classes in which he feels he should be placed;

d. Direct attention to any information in his file which he believes the local board has overlooked, or to which he feels it has not given sufficient weight.

The registrant may present any further information which he believes will assist the local board in determining his proper classification. All new information shall be in writing. Oral statements by the registrant shall be summarized in writing by him and submitted for inclusion in his file folder. A summary of the personal appearance may also be placed in the registrant's file folder by the Board.

3. A registrant shall be given sufficient time at his personal appearance as is reasonably necessary for the fair presentation of his claim or claims. Normally 15 minutes will be deemed adequate for this purpose, but the local board shall extend this time if it appears that further time is reasonably necessary for the fair presentation of the registrant's claim. The registrant's entire presentation, including the testimony of witnesses, shall be made during this time period.

4. A registrant who is granted a personal appearance before his local board shall be considered for all classifications which he has claimed or for which he has submitted information, and shall be deemed to have had his personal appearance for all such classifications.

5. If the registrant does not speak English adequately, he may appear with a person to act as an interpreter. This interpreter will not be considered as one of the registrant's three witnesses unless he also testifies in behalf of the registrant.

6. No registrant may be represented at his personal appearance before the local board by anyone acting as attorney or legal counsel, but an attorney is not excluded from appearing solely as a witness for a registrant.

7. Recording devices will not be utilized during any personal appearance before the local board.

SEC. 624.5 *Conduct of a personal appearance before the local board.* 1. The local board shall thoroughly review each registrant's file prior to his personal appearance. This is to insure that each attending local board member is familiar with the case prior to the registrant's personal appearance.

2. Every person (including the registrant) testifying before the local board shall be administered the following oath by a member of the local board:

You swear (affirm) that the evidence you give here in this matter shall be the truth, the whole truth, and nothing but the truth. So help you God.

Completion of, or refusal to take, the oath by the registrant or a witness, will be noted by the local board in the registrant's file. In either case the personal appearance will continue to its normal conclusion.

3. The registrant shall be given the courtesy of being introduced to each local board member present at his personal appearance. Name plates may be used by local board members. The local board members should attempt to place the registrant at ease during his personal appearance.

4. Any questions asked by the local board member should be relevant to the registrant's case.

5. It is important that the registrant realize that his classification will be decided by the local board, and not by the compensated employee who may be present during his appearance. To accomplish this, the compensated employee should not participate in the hearing, except to answer questions directed at him or her by a local board member.

6. Witnesses who appear before the local board should appear singly (the registrant being present throughout his personal appearance), and they shall be extended the same courtesies given a registrant. Upon completion of a witness' testimony, he should be excused from the meeting room. The local board may, however, allow more than one witness to be present at the same time, and to remain throughout the entire proceedings, if it appears to be beneficial to the general presentation of the registrant's claim. It will be the responsibility of the registrant to reduce to writing, for inclusion in his file, any oral information presented by his witnesses.

7. Upon reaching the end of the actual personal appearance, the local board should advise the registrant of the following, prior to excusing him from the room:

a. That the local board will decide his classification, based upon the information within his file and the information that was presented to the local board at his personal appearance;

b. That a Notice of Classification will be mailed to him shortly, reflecting the local board's decision in this matter;

c. That if his claim is denied by the local board, he will be supplied with the reasons of its decision along with his Notice of Classification;

d. That he may appeal the local board's decision by filing a written appeal within 15 days of the mailing of the Notice of Classification;

e. The local board should advise the registrant of any other information that it deems appropriate at this time;

f. The local board should advise the registrant that he may prepare a summary of the personal appearance for inclusion in his file, at this time.

8. At this point, the local board should thank him for attending the personal appearance and advise him that his personal appearance is now concluded.

SEC. 624.6. *Procedure when a registrant fails to appear.* 1. Whenever a registrant for whom a personal appearance has been scheduled fails to appear as scheduled, the local board shall consider, in accordance with § 624.3(2), any explanation of such failure that has been filed within 5 days, or filed within any period of extension as granted by the local board. If, at the next scheduled local board meeting, the local board determines that the registrant's failure to appear for his personal appearance was without good cause, or if he failed to mail or submit an acceptable explanation within 5 days (or extension as granted by the local board), the registrant will be deemed to have had his personal appearance, and the following action will be taken:

a. If the scheduled personal appearance was a preclassification appearance, the local board will classify the registrant on the basis of the information in his file and mail him a Notice of Classification (SSS Form 110).

b. If the scheduled personal appearance was a post-classification appearance and the local board has not received new or additional information which in its judgment would warrant reopening the classification, the local board will notify the registrant in writing that it did not reopen and why.

c. If the scheduled personal appearance was a post-classification appearance and there is additional information in the file which the local board judges sufficient to warrant reopening, it will reopen and consider anew the classification and mail the registrant a Notice of Classification (SSS Form 110).

d. In the case of (a), (b), or (c) above the registrant will have the right of appeal to the appeal board.

In the event the local board classifies the registrant in a class other than that which he requested, it shall record the reasons on a Report of Information (SSS Form 119) or in a written statement which shall be signed by a local board member and filed in the registrant's file folder. The local board shall inform the registrant in writing of the reasons at the time it mails his Notice of Classification (SSS Form 110), retaining a copy of the letter in the registrant's file. The mailing of the SSS Form 110 will extend to the registrant the right to request an appeal, but will not extend the right of another personal appearance regarding the same claim. This action will be taken without regard to whether the scheduled personal appearance was a preclassification or a post-classification personal appearance. The reopening by the local board under the provisions of this section cancels any appeal which was filed during any previous period afforded the registrant to request an appeal.

2. A notation that the registrant failed to appear before the local board shall be entered on page 8 of his Classification Questionnaire (SSS Form 100) or on page 2 of his Registrant File Folder (SSS Form 101), as appropriate.

3. If, under the provisions of paragraph 2 of § 624.3, the local board determines that the registrant had good cause for failing to report for his personal appearance he will be given the opportunity to appear before the local board at a later meeting, and his case will be considered as if he had not been previously scheduled for a personal appearance regarding the same claim.

SEC. 624.7. *Procedure of the local board following a personal appearance.* 1. After the registrant appears before the local board, it shall classify the registrant, and mail a Notice of Classification (SSS Form 110) to him. If the scheduled personal appearance was a pre-classification personal appearance, the registrant shall be notified that he is not entitled to a post-classification personal appearance. In the event the local board classifies the registrant in a class other than that which he requested, it shall record the reasons on a Report of Information (SSS Form 119), which shall be signed by a local board member who was present at the meeting at which the registrant was classified, and this shall be filed in the registrant's file folder. The local board shall inform the registrant of the reasons for denial in writing at the time it mails his Notice of Classification (SSS Form 110).

2. A statement that the registrant has appeared before the local board shall be entered on page 8 of his Classification Questionnaire (SSS Form 100) or on page 2 of his Registrant File Folder (SSS Form 101), as appropriate.

SEC. 624.8. *Appearance before the local board stays an induction order, selection for alternate service or order to report for alternate service.* The local board shall not issue a registrant an order to report for induction, a selection for alternate service, or an order to report for alternate service during the period afforded him to request a personal appearance before the local board or, if he has requested a personal appearance, during the period the personal appearance is pending. Any order to report for induction (SSS Form 252), selection for alternate service (SSS Form 155), or order to report for alternate service (SSS Form 153) which has been issued during either period shall be canceled by the local board, and the registrant shall be notified of the cancellation.

CHAPTER 626—APPEAL TO THE APPEAL BOARD

SEC. 626.1. *Who may appeal.* 1. The Director of Selective Service, the State Director of Selective Service of the local board of jurisdiction, or the State Director of Selective Service of the State where the local board which classified the registrant is located, may appeal from any classification action of a local board at any time prior to the induction of the registrant, or his reporting for alternate service.

2. The registrant may appeal to an appeal board within prescribed time limits, from any classification given to him by the local board except his initial administrative classification into Class 1-H.

SEC. 626.2. *Time limit within which registrant may appeal.* 1. The registrant must file his appeal (and his request for a personal appearance before the appeal board, if a personal appearance is desired) within 15 days after the date the local board mails to him a notice of classification (SSS Form 110).

2. Any time prior to the date the local board mails to the registrant an order to report for induction (SSS Form 252) or order to report for alternate Service (SSS Form 153), the local board will permit him to appeal even though the period for taking an appeal has elapsed, if the local board is satisfied that his failure to appeal within was due to some cause beyond his control. When the local board grants an extension of time to appeal to the registrant, he may within the extended period also request a personal appearance before the appeal board. When the local board grants an extension of time, an entry will be made on page 2 of the Registrant File Folder (SSS Form 101), or page 8 of the Classification Questionnaire (SSS Form 100).

SEC. 626.3. *Procedure for taking an appeal.* 1. Any person entitled to do so may appeal to the appeal board by filing with the local board a written notice of appeal. If the Director of Selective Service or the State Director of Selective Service appeals to the appeal board he shall place in the registrant's file a written statement of his reasons for taking such appeal.

2. Whenever an appeal is taken from a local board's classification by the Director of Selective Service or the State Director of Selective Service, the local board shall notify the registrant in writing of the action, the reasons therefor, and inform him that (1) his appeal will be considered by the appeal board for the area in which his local board is located unless he files, within 15 days from the date on the letter of notification, a written request with the local board that the appeal be considered by the appeal board having jurisdiction over the area in which is located his principal place of employment or residence, and (2) he may request a personal appearance before the appeal board if he files with the local board within 15 days from the date on the letter of notification a written request for such personal appearance. The 15-day period may be extended by the local board when it is satisfied that the registrant's failure to file a written request within such period was due to some cause beyond his control.

3. If the Director or state director has the registrant's file folder in his possession when the appeal is taken, he shall return the file folder to the local board (when the file folder is in the possession of the Director, it shall be returned through the state director) with a notice in writing that the appeal is being taken and statement of his reasons for taking such appeal. The local board shall send the registrant's file folder to the appeal board having jurisdiction over the area in which the registrant's local board of jurisdiction is located unless the registrant has timely filed his request that it be sent to another appeal board. If the registrant has timely filed such request, the file folder shall be sent to the appeal board in accordance with that request.

4. When the registrant is taking the appeal, he may also request an opportunity to appear in person before the appeal board and that the appeal be considered by the appeal board having jurisdiction over the area in which is located his principal place of employment or residence. The notice of appeal need not be in any particular form, but must include the name of the registrant and his request. Any notice shall be liberally construed so as to permit the appeal.

5. The appeal board for the area in which the registrant's local board is located shall consider the appeal of the registrant's classification unless the registrant has timely filed with his local board having jurisdiction over the area in which is located his principal place of employment or residence.

6. The registrant may attach to his appeal a statement specifying the reasons he believes the classification inappropriate, directing attention to any information in his file which he believes received inadequate consideration, and setting out more fully any information which was submitted.

7. Prior to forwarding the registrant's file folder through the State Director to the appeal board, the local board secretary will prepare the file and complete the procedures required for taking an appeal, to include the following:

a. Issuance of Individual Appeal Record (SSS Form 120) to the registrant. When the appeal has been taken by the Director or State Director, the reasons for taking the appeal will be stated in writing and attached to the SSS Form 120.

b. Insertion of the reasons for taking an appeal in the registrant's file folder, if it was taken by the Director or the State Director.

c. Insuring that all documents in the registrant's file folder are arranged in chronological sequence, latest on top, except that the SSS Form 100 shall always be the top document.

d. Insuring that the registrant's file folder does not contain information which has not been reviewed by the local board. If any such information is present, it shall be considered by the local board, and if the local board does not reopen the registrant's classification, the file shall be sent to the appeal board.

e. Insuring that the period for requesting a personal appearance or that the appeal be considered by an appeal board other than the one for the area in which the registrant's local board is located has expired.

f. Insuring that an entry has been made on page 2 of the registrant's file folder, or page 8 of the classification questionnaire indicating the date of mailing the file to the State Director for forwarding to the appeal board.

SEC. 626.4. *Review by appeal board.* 1. The appeal board shall consider appeals in the order of the registrant's vulnerability for induction or alternate service.

2. Upon receipt of the registrant's file folder, the appeal board shall check to see whether the registrant has requested a personal appearance before the appeal

V 37-69 APR 8 72 XUM

board. If no request for a personal appearance has been made, the appeal board may classify the registrant after 15 days have expired from the date of receipt of the registrant's file.

3. If a registrant has requested a personal appearance before the appeal board, the appeal board will notify the registrant of the date, time and place of his scheduled appearance and will mail him such notification at least 15 days prior to the scheduled appearance.

4. Should the registrant fail to appear as scheduled, except for good cause he establishes to the satisfaction of the appeal board, he shall not be given an opportunity to appear at a later meeting. The registrant must file a written statement of the reasons for his failure to appear at his scheduled meeting within five days after such failure, or the registrant will be deemed to have waived his right to an opportunity to appear at a later meeting. The 5-day period may be extended by the appeal board when it is satisfied that the registrant's failure to file a written statement within such period was due to some cause beyond his control. In any event, the appeal board shall not classify the registrant at the meeting at which the registrant failed to appear, unless the registrant had withdrawn his request to appear.

5. The registrant is entitled to such time for his personal appearance as the appeal board determines is reasonably necessary for the fair presentation of the claim. No registrant may be represented before the appeal board by anyone acting as attorney or legal counsel. The registrant shall not be entitled to present witnesses. If the registrant does not speak English adequately, he may appear with a person to act as an interpreter. Recording devices will not be utilized during any personal appearance before the appeal board.

6. At any personal appearance the registrant may:

a. Present evidence.

b. Discuss his classification.

c. Point out the class or classes in which he thinks he should have been placed.

d. May direct attention to any information in his file which he believes the local board has overlooked or to which he believes it has not given sufficient weight.

e. May furnish further information which he believes will assist the appeal board in determining his proper classification. Such information shall be in writing or if oral, shall be summarized in writing by the registrant and placed in his file. Such information shall be as concise as possible under the circumstances. A summary of the personal appearance may also be placed in the registrant's file folder by the board.

7. During a registrant's personal appearance there shall be present a quorum of the members of the appeal board, or appropriate panel of the appeal board, and only those members of the appeal board before whom the registrant appeared shall classify him. Classification of the registrant by the appeal board may take place after one of the following has occurred:

a. He has appeared before the board.

b. He withdrew his request to appear.

c. He waived his right to an opportunity to appear.

d. He failed to appear, without establishing to the satisfaction of the appeal board good cause therefor.

8. In reviewing the appeal and classifying the registrant, the appeal board shall consider the various classes in the order specified in chapter 623. The appeal board shall not receive or consider any information other than the following:

a. Information contained in the registrant's file folder as received from the local board.

b. General information concerning economic, industrial, and social conditions.

c. Oral statements by the registrant and written evidence submitted by him to the appeal board during his personal appearance.

9. After classifying the registrant, the appeal board shall prepare the Action by Appeal Board (SSS Form 120A). In the event that the appeal board classifies the registrant in a class other than that which he requested, it shall record its reasons on a Report of Information (SSS Form 119) which shall be signed by a member of the appeal board who was present at the meeting at which the registrant was classified, and this shall be filed in the registrant's file folder. The appeal board shall enclose SSS Form 120 A in the registrant's file folder, make entries on the Docket Book of Appeal Board (SSS Form 121) indicating the determination, and transmit the registrant's file folder through the appropriate State Director of Selective Service to the local board.

SEC. 626.5. *Procedure of local board following action by appeal board.* 1. When the registrant's file folder is received by the local board, it shall:

a. Complete and mail SSS Form 110 to the registrant, together with written notification of the appeal board's reasons for the classification, if the registrant was classified in a class other than that which he had suggested. Send copy of SSS Form 110 to the Data Processing Center.

b. Enter on the Classification Record (SSS Form 102) and the Registrant File Folder (SSS Form 101) or the Classification Questionnaire (SSS Form 100) the classification granted by the appeal board and the date of classification.

c. Enter date of mailing of SSS Form 110 on the registrant file folder or the classification questionnaire.

d. Enter the classification action on the Minutes of Local Board Meeting (SSS Form 112) of the next local board meeting.

SEC. 626.7. *Appeal stays induction and alternate service.* 1. The local board shall not issue an order to report for induction, a selection for alternate service, or an order to report for alternate service either during the period afforded the registrant to take an appeal to the appeal board or during the period such an appeal is pending. Any such form which has been issued during either of those periods shall be canceled by the local board. Upon cancellation, the registrant will be notified in writing, and a copy of the cancellation will be placed in his file folder and noted on page 2 of the file folder, or page 8 of the classification questionnaire.

CHAPTER 627—APPEAL TO THE PRESIDENT

SEC. 627.1. *Persons who may appeal to the President.* 1. The Director of Selective Service, the State Director of Selective Service of the State where the local board which classified the registrant is located, or the State Director of Selective Service of the State where the appeal board which classified the registrant is located, may appeal to the President from any determination of an appeal board at any time prior to the induction of the registrant, or his reporting for alternate service.

2. When a registrant has been classified by the appeal board and one or more members of the appeal board dissented from that classification, he may appeal to the President and request a personal appearance before the National Selective Service Appeal Board within 15 days after the mailing by the local board of the Notice of Classification (SSS Form 110) notifying him of his classification by the appeal board. The local board may permit any registrant who is entitled to appeal to the President under this section to do so at any time prior to the date the local board issues to him an order to report for induction (SSS Form 252) or an order to report for alternate service (SSS Form 153), even though the period of taking such an appeal has elapsed, if it is satisfied that his failure to appeal within such period was due to some cause beyond his control.

SEC. 627.2. *Procedure for taking an appeal to the President.* 1. Any person entitled to do so may appeal to the President by filing with the local board a written notice of appeal. This notice need not be in any particular form but must identify the registrant and indicate that the classification is being appealed to the President. If the Director or a State Director appeals, he shall place in the registrant's file folder a written statement of his reasons for taking the appeal. A copy of the notice of appeal shall be furnished to the State Director for the State where the appeal board which classified the registrant is located.

2. If the Director or State Director has the registrant's file folder in his possession when the appeal is taken, he shall return the file folder to the local board (when the file folder is in the possession of the Director, it shall be returned through the State Director) with a notice in writing that the appeal is being taken.

SEC. 627.3. *Procedure on appeal to the President.* 1. Whenever the Director or the State Director appeals to the President, the registrant shall be informed on SSS Form 120 that if he desires to appear before the National Selective Service Appeal Board (National Board) he must within 15 days from the date on the SSS Form 120 request an appearance in writing, addressed to his local board. The 15-day period may be extended by the local board when it is satisfied that the registrant's failure to request an appearance within that period was due to some cause beyond his control. The local board shall promptly notify the National Board of the registrant's request to appear before it. The local board shall then forward the entire file to the State Director of Selective Service, placing copies of SSS Form 120 in the registrant's file. The local board shall enter on page 2 of the Registrant File Folder (SSS Form 101) or page 8 of the Classification Questionnaire (SSS Form 100) the date the file is forwarded.

2. If the registrant is taking the appeal, he may at the same time file a written request with the local board to appear before the National Board. This request shall be placed in the registrant's file and acknowledged prior to being forwarded.

3. When the registrant's file is received by the State Director for forwarding to the President, the State Director shall check the file to be sure that all procedural requirements have been properly complied with, including the issuance of SSS Form 120 confirming such an appeal has been taken. If he discovers any procedural error, he shall return the file to the local board for corrective action. When any information has been placed in the file which was not considered by the local board in making the classification from which the appeal to the President is taken, the State Director shall review such information. When in his opinion, the information, if true, would justify a different classification of the registrant, he shall return the file to the local board with a request that the local board reopen and classify the registrant anew.

4. When the State Director has complied with the provisions of the preceding paragraph he shall, unless the file is returned to the local board, forward the file to the Director of Selective Service: Attention: NSSAB.

5. If an appeal is withdrawn by the Director or State Director, the registrant will be informed in writing. If an appeal or request for a personal appearance is withdrawn by the registrant, his withdrawal will be acknowledged.

SEC. 627.4. *Procedures of the National Selective Service Appeal Board.* 1. An appeal to the President is determined by the National Selective Service Appeal Board (National Board).

2. The National Board shall classify any registrant who has not requested a personal appearance after the specified time in which to request a personal appearance has expired.

3. Not less than 15 days in advance of the meeting at which his classification will be considered, the National Board shall inform any registrant who has requested a personal appearance that he may appear at such meeting and present evidence, other than witnesses, bearing on his classification. Should the registrant fail to appear at the scheduled meeting (except for good cause he establishes to the satisfaction of the National Board), he shall not be granted an opportunity to appear at a later meeting. The registrant must file a written statement of the reasons for his failure to appear at his scheduled meeting within 5 days after such failure, or he will be deemed to have waived his right to an opportunity to appear at a later meeting. If he establishes to the satisfaction of the National Board that he has good cause for not appearing on the date originally scheduled, he shall be scheduled to appear at a later date. His 5-day period may be extended by the National Board when it is satisfied that his failure to file a written statement within such period was due to some cause beyond the registrant's control.

4. The registrant is entitled to 15 minutes for his personal appearance. The National Board may, in its discretion, extend the time of the registrant's personal appearance. A registrant cannot be represented before the National Board by anyone acting as attorney or legal counsel. The registrant shall not be entitled to present witnesses. If the registrant does not speak English adequately, he may appear with a person to act as an interpreter. Recording devices will not be utilized during any personal appearance before the National Board.

5. At any such appearance, the registrant may discuss his classification, may point out the class or classes in which he thinks he should have been placed, and may direct attention to any information on his file which he believes the local board has overlooked or to which he believes it has not given sufficient weight. At the time the registrant requests a personal appearance he may furnish such further information as he believes will assist the National Board in determining his proper classification.

6. The National Board shall classify a registrant who has requested a personal appearance after (a) he has appeared before the National Board, (b) he withdrew his request to appear, (c) he waived his right to an opportunity to appear, or (d) he failed to appear without establishing good cause to the satisfaction of the National Board. When a registrant appears before the National Board, only those members of the Board before whom the registrant appeared shall classify him. Classifications will be determined by a quorum of the National Board or appropriate panel of the National Board.

7. In reviewing the appeal and classifying the registrant, the National Board shall not receive or consider any information other than the following:

a. Information contained in the registrant's file folder received from the local board;

b. General information concerning economic, industrial, and social conditions; and

c. Oral statements by the registrant and written evidence submitted by him to the National Board during his personal appearance. Oral statements by the registrant shall be summarized in writing by him and submitted for inclusion in his file folder. A summary of the personal appearance may also be placed in the registrant's file folder by the Board.

8. In the event that the National Board classifies the registrant in a class other than that which he requested, it shall record its reasons in his file. Upon the receipt by the local board of a written request from the registrant within 30 days following the mailing of a Notice of Classification (SSS Form 110), the local board shall furnish to the registrant a brief statement of the reasons for the decision of the National Board.

SEC. 627.5. *File to be returned after appeal to the President is decided.* When the appeal to the President has been decided, Minutes of Action Upon Appeal to the President completed, and the Docket Book entries recorded, the file shall be returned to the local board through the appropriate State Director of Selective Service.

SEC. 627.6. *Procedure of Local Board after file is returned.* When the file of the registrant is received by the local board, it shall:

(1) Mail an SSS Form 110 to the registrant, and

(2) Enter on the Classification Record (SSS Form 102), on the Minutes of Local Board Meeting (SSS Form 112) and on page 2 of the Registrant File Folder (SSS Form 101) or page 8 of the Classification Questionnaire (SSS Form 100) the classification given the registrant by the National Board. Also enter the date of mailing of the SSS Form 110 on page 2 of the Registrant File Folder or page 8 of the Classification Questionnaire.

SEC. 627.7. *Appeal to the President stays induction or order for alternate service.* The local board shall not issue a registrant an order to report for induction (SSS Form 252), a selection for alternate service (SSS Form 155), or an order to report for alternate service (SSS Form 153) during the period afforded the registrant to take an appeal to the President or during the period his appeal is pending. Any such form which has been issued during either of those periods shall be canceled by the local board, and the registrant will be notified in writing of the cancellation. A copy of the cancellation will be placed in his file folder and an entry made on page 2 of the Registrant File Folder or page 8 of the Classification Questionnaire.

CURTIS W. TARR,
Director.

SMALL BUSINESS ADMINISTRATION

BUSINESS GROWTH INVESTMENTS CORP.

Notice of Surrender of License To Operate as Small Business Investment Company

Notice is hereby given that Business Growth Investments Corp. (Business), 525 South Troost, Tulsa, OK 74120, has, pursuant to § 107.105 of the regulations governing small business investment companies (13 CFR 107.105

V 37-69 APR 8 72 XUM

(1971)), surrendered its license to operate as a small business investment company (SBIC).

Business was incorporated under the laws of the State of Oklahoma to operate solely as an SBIC under the Small Business Investment Act of 1958, as amended (15 U.S.C. 661 et seq.) (Act), and it was issued license number 10–0009 by the Small Business Administration (SBA) on May 24, 1960.

Under the authority vested by the Act and the regulations promulgated thereunder, the surrender of the license of Business is hereby accepted and, accordingly, it is no longer licensed to operate as an SBIC.

Dated: April 3, 1972.

A. H. SINGER,
Associate Administrator for Investment.

[License 03/03-5112]

GREATER PHILADELPHIA VENTURE CAPITAL CORPORATION, INC.

Notice of Issuance of License to Operate as Minority Enterprise Small Business Investment Company

On March 14, 1972, a notice was published in the FEDERAL REGISTER (37 F.R. 5336), stating that Greater Philadelphia Venture Capital Corporation, Inc., 920 Lewis Tower Building, 225 South 15th Street, Philadelphia, PA 19102, had filed an application with the Small Business Administration, pursuant to § 107.102 of the SBA rules and regulations governing small business investment companies (13 CFR 107.102 (1971)) for a license to operate as a minority enterprise small business investment company (MESBIC).

Interested parties were given to the close of business March 24, 1972, to submit their written comments to SBA.

Notice is hereby given that, having considered the application and all other pertinent information, SBA has issued License No. 03/03-5112 to Greater Philadelphia Venture Capital Corporation, Inc., pursuant to section 301(c) of the Small Business Investment Act of 1958, as amended.

Dated: April 3, 1972.

A. H. SINGER,
Associate Administrator for Investment.

[FR Doc.72-5379 Filed 4-7-72;8:45 am]

SUTTER HILL CAPITAL CORP.

Notice of Filing of an Application for Exemption With Respect to Conflict-of-Interest Transaction

Notice is hereby given that Sutter Hill Capital Corp. (SHCC), 2600 El Camino Real, Palo Alto, CA 94306, a Federal licensee under the Small Business Investment Act of 1958, as amended (the Act), License No. 09/12-0087, has filed an application pursuant to § 107.1004 of the Small Business Administration rules and regulations (13 CFR § 107.1004 (1971)) for an exemption with respect to a conflict-of-interest transaction covered by section 312 of the Act.

On August 17, 1971, SHCC guaranteed $59,700 of a $500,000 loan to Mohawk Products, Inc. (Mohawk), Gloversville, N.Y. This investment comes within the purview of the above-cited regulation because Mr. William H. Draper III, who is president and a director of SHCC, together with other members of the Draper family owns 103,520 shares, approximately 25 percent, of the outstanding common stock of Mohawk. Further, Mr. William H. Draper, Jr., is a member of the Board of Directors of Mohawk.

The application represents the following:

1. In consideration for this guarantee, Mohawk will issue to the guarantors, on a pro rata basis, 150,000 3-year warrants to acquire additional common stock of Mohawk at $1 per share.

2. The financing was fair and reasonable to all parties concerned.

3. The guarantee was required in order to support lines of credit covering the purchase of materials.

4. The guarantee does not jeopardize SBA's position as a creditor of SHCC.

On September 9, 1969, SBA granted SHCC exemptive approval with respect to its making an equity investment in Mohawk in the amount of $100,016 (30,080 shares). Also, on April 8, 1971, SBA granted SHCC exemptive approval to increase its ownership to 38,400 shares at a total cost of $132,516.

Notice is further given that any interested person may, not later than 15 days from the publication of this notice, submit to SBA, in writing, relevant comments on this transaction. Any such comments should be addressed to the Associate Administrator for Investment, 1441 L Street NW., Washington, DC 20416. After the aforementioned 15-day period, SBA may, under the Regulations, dispose of the application on the basis of the information stated in said application and other relevant data.

Dated: April 3, 1972.

A. H. SINGER,
Associate Administrator for Investment.

[License Application 05/05-5089]

CHICAGO COMMUNITY VENTURES, INC.

Notice of Application for License as Minority Enterprise Small Business Investment Company

An application for a license to operate as a minority enterprise small business investment company (MESBIC) under the provisions of the Small Business Investment Act of 1958, as amended (15 U.S.C. 661 et seq.), has been filed by Chicago Community Ventures, Inc. (applicant) with the Small Business Administration (SBA) pursuant to § 107.102 of the SBA Rules and Regulations governing small business investment companies (13 CFR 107.102 (1971)).

The officers and directors of the applicant are as follows:

Benjamin C. Duster, President, Director, 19 South La Salle Street, Chicago, IL 60603.
Daryl F. Grisham, Chairman, Board of Directors, 4605 South State Street, Chicago, IL 60609.
Richard H. Chandler, Vice Chairman, Board of Directors, 7100 McCormick Road, Chicago, IL 60645.
Victor Sholis, Secretary, Director, 2201 North Cleveland Avenue, Chicago, IL 60614.
Frederick C. Ford, Treasurer, Director, 30 West Monroe Street, Chicago, IL 60603.
Warren H. Bacon, Director, 30 West Monroe Street, Chicago, IL 60603.
Roland W. Burris, Director, 231 South La Salle Street, Chicago, IL 60604.
Marvin Chandler, Director, Post Office Box 190, Aurora, IL 60607.
Walter L. Coleman, Director, 19 South La Salle Street, Chicago, IL 60603.
Ernest Collins, Director, 327 East 79th Street, Chicago, IL 60619.
Bertel W. Daigre, Director, 5437 South Wabash, Chicago, IL 60615.
A. E. Dotson, Director, 6233 South Halsted, Chicago, IL 60621.
Vincent D. Geimer, Director, 111 East Wacker Drive, Chicago, IL 60601.
Harry Henderson, Director, 310 South Michigan Avenue, Chicago, IL 60604.
Donald Jackson, Director, 333 North Michigan Avenue, Chicago, IL 60601.
Robert Logan, Director, 120 South La Salle Street, Chicago, IL 60603.
Louis E. Martin, Director, 2400 South Michigan Avenue, Chicago, IL 60616.
Roscoe Mitchell, Director, 19 South La Salle Street, Chicago, IL 60603.
George Perez, Director, 2511 West North Avenue, Chicago, IL 60647.
Robert Stuart, Director, 5959 South Cicero Avenue, Chicago, IL 60638.
J. W. Van Gorkom, Director, 111 West Jackson Boulevard, Chicago, IL 60604.
John Viera, Director, 3500 North California Avenue, Chicago, IL 60618.

The applicant, a Delaware corporation, qualified to do business in the State of Illinois and having its principal place of business in Illinois, located at 19 South La Salle Street, Chicago, IL 60603, will begin operations with $1,005,000 of paid-in capital, consisting of 10,050 shares of common stock issued to the following stockholders:

Armour-Dial, Inc., 111 East Wacker Drive, Chicago, IL 60601.
Bell & Howell Co., 7100 McCormick Road, Chicago, IL 60645.
Central National Bank in Chicago, 120 South La Salle Street, Chicago, IL 60603.
Chicago Urban League, South Side Office, 4500 South Michigan Avenue, Chicago, IL 60653.
Commonwealth Edison Co., 1 First National Plaza, Chicago, IL 60690.
Continental Illinois National Bank & Trust Co. of Chicago, 231 South La Salle Street, Chicago, IL 60604.
Field Enterprises, Inc., 401 North Wabash Avenue, Chicago, IL 60611.
Illinois Central Industries, Inc., 135 East 11th Place, Chicago, IL 60605.
Illinois Tool Works, Inc., 8501 West Higgins Avenue, Chicago, IL 60631.
Interlake Steel Co., 310 South Michigan Avenue, Chicago, IL 60604.
Marcor, Inc., 619 West Chicago Avenue, Chicago, IL 60607.
National Can Co., 5959 South Cicero Avenue, Chicago, IL 60638.
Northern Illinois Gas Co., East-West Tollway at Route 59, Aurora, IL 60507.
Northern Trust Co., 50 South La Salle Street, Chicago, IL 60603.
Sears, Roebuck & Co., 925 South Homan Avenue, Chicago, IL 60607.
Trans Union Corp., 111 West Jackson Boulevard, Chicago, IL 60604.
Zenith Radio Corp., 1900 West Austin Avenue, Chicago, IL 60639.

None of the applicant's stockholders owns 10 percent or more of the outstanding stock.

Applicant will not concentrate its investments in any particular industry. According to the company's stated investment policy, its investments will be made solely in small business concerns which will contribute to a well-balanced national economy by facilitating ownership in such concerns by persons whose participation in the free enterprise system is hampered because of social or economic disadvantages.

Matters involved in SBA's consideration of the applicant include the general business reputation and character of the proposed owners and management, and the probability of successful operation of the applicant under their management, including adequate profitability and financial soundness, in accordance with the Small Business Investment Act and the SBA Rules and Regulations.

Any interested person may, not later than 10 days from the date of publication of this notice, submit to SBA, in writing, relevant comments on the proposed MESBIC. Any such communication should be addressed to the Associate Administrator for Investment, Small Business Administration, 1441 L Street NW., Washington, DC 20416.

A copy of this notice shall be published in a newspaper of general circulation in Chicago, Ill.

Dated: April 7, 1972.

A. H. SINGER,
Associate Administrator for Investment.

TARIFF COMMISSION

[TEA-W-138]

OHIO LEATHER CO.

Workers' Petition for a Determination; Notice of Investigation

On the basis of a petition filed under section 301(a)(2) of the Trade Expansion Act of 1962, on behalf of the workers of the Ohio Leather Co., Girard, Ohio, the U.S. Tariff Commission, on April 4, 1972, instituted an investigation under section 301(c)(2) of the act to determine whether, as a result in major part of concessions granted under trade agreements, articles like or directly competitive with calf and kip upper leathers (of the types provided for in item number 121.30 of the Tariff Schedules of the United States) produced by said firm are being imported into the United States in such increased quantities as to cause, or threaten to cause, the unemployment or underemployment of a significant number or proportion of the workers of such company.

The petitioners have not requested a public hearing. A hearing will be held on request of any other party showing a proper interest in the subject matter of the investigation, provided such request is filed within 10 days after the notice is published in the FEDERAL REGISTER.

The petition filed in this case is available for inspection at the Office of the Secretary, U.S. Tariff Commission, 8th and E Streets NW., Washington, DC, and at the New York City office of the Tariff Commission located in Room 437 of the Customhouse.

Issued: April 5, 1972.

By order of the Commission.

[SEAL] KENNETH R. MASON,
Secretary.

[Notice 47]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

APRIL 4, 1972.

The following are notices of filing of applications[1] for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR Part 1131), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 1759 (Sub-No. 28 TA), filed March 20, 1972. Applicant: FROEHLICH TRANSPORTATION CO., INC., 31 Victory Street, Stamford, CT 06902. Applicant's representative: Attorney Reubin Kaminsky, 342 North Main Street, Suite 211, West Hartford, CT 06117. Area Code 203, 236-5933. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Bakery products, fresh*, except frozen and unleavened bakery products, from the plantsite of Nancy Lynn Bakery Division of the Grand Union Co. at Bridgeport, CT, to Landover, Md., (2) *Stale, damaged, refused, rejected*, and nonsalable bakery products, except frozen and unleavened bakery products and empty containers and empty racks from Landover, Md., to the plantsite of Nancy Lynn Bakery Division of the Grand Union Co., for 180 days. Supporting shipper: The Grand Union Co., 640 Winters Avenue, Paramus, NJ. Send protests to: District Supervisor Robert E. Lee, Bureau of Operations, Interstate Commerce Commission, 324 U.S. Post Office Building, 135 High Street, Hartford, CT 06101.

[Notice 42]

MOTOR CARRIER TRANSFER PROCEEDINGS

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC–FC–73460. By order of March 27, 1972, the Motor Carrier Board approved the transfer to Jeff's Trucking, Inc., Waupun, Wis., of the operating rights in certificates Nos. MC–8310, MC–8310 (Sub-No. 1), MC–8310 (Sub-No. 2), MC–8310 (Sub-No. 3), MC–8310 (Sub-No. 4), and MC–8310 (Sub-No. 5), issued March 29, 1945, November 9, 1951, November 9, 1951, January 23, 1952, November 30, 1970, and January 21, 1971, respectively, to Ray Jeffords, doing business as Jeff's Truck Service, Waupun, Wis., authorizing the transportation of household goods, radially, between points in Fond du Lac, Dodge, and Green Lake Counties, Wis., and points in Minnesota, Wisconsin, Iowa, Illinois, Indiana, and Michigan; and radially, between Columbus, Wis., and points within 50 miles of Columbus, and points in Illinois, Indiana, Iowa, and Minnesota; canned and preserved foodstuffs and materials, equipment, and supplies used thereof, except in bulk, in tank, or hopper type vehicles, from points in the township of Lomira, Dodge County, Wis., to points in Wisconsin; and tire patches, pneumatic tire repair kits, metal rivets, tire vulcanizers, tire retreaders, rivet machines, lubricating oils and greases, scrap metals, metal wire, and such supplies and materials as used in the manufacture of tire patches, and other related commodities, metal radiator and electrical enclosures, and sheet metal specialties, uncrated, from and to specified points in Illinois and Wisconsin. Nancy Johnson, 4506 Regent Street, Madison, WI 53705, attorney for applicants.

No. MC–FC–73484. By order or March 29, 1972, the Motor Carrier Board approved the transfer to Neal R. Gorham and David D. Gorham, a partnership, doing business as G B Trucking, Soldier, Iowa 51572, of the operating rights in certificate No. MC–93828 issued July 1, 1959, to Lawrence E. Hieber, Moorhead, Iowa 51558, authorizing the transportation of lumber and other building materials, feed, salt, agricultural implements and parts, and fencing, from Omaha, Nebr., to Pisgah, Iowa, and points within 15 miles of Pisgah.

No. MC–FC–73495. By order of March 27, 1972, the Motor Carrier Board approved the transfer to Clarence D. Hahn, Palmerton, Pa., of the operating rights in certificates Nos. MC–112517 and MC–112517 (Sub-No. 2) issued December 6, 1961, and April 29, 1971, respectively, to Harry Hahn, Palmerton, Pa., authorizing the transportation of coal, from points in Luzerne and Schuylkill Counties, Pa., to points in Monmouth, Bergen, and Essex Counties, N.J., and Rockland County, N.Y.; and from, Hazleton, Pa., points in Luzerne County, Pa., within 5 miles of Hazleton, and points in Schuylkill County, Pa., to Palisades Park, N.J., and points in Bronx County, N.Y. Sidney R. Webb, 540 Delaware Avenue, Palmerton, Pa. 18071, attorney for applicants.

No. MC–FC–73547. By order of March 29, 1972, the Motor Carrier Board approved the transfer to Byran and Brittingham, Inc., Box 54, Delmar, DE 19940, of the operating rights in Certificate No. MC–134719 (Sub-No. 2), issued May 19, 1971, to Raymond C. Dryden and Grace D. Venable, a partnership, doing business as Eagle Mills, Post Office Box 395, Pocomoke City, MD 21851, authorizing the transportation of prepared animal and poultry feed in bulk and germicides, vermifuges, disinfectants, and weed killers and specialty feeds, in containers, when transported at the same time and in the same vehicle with prepared animal and poultry feed, from the plantsite of Ralston-Purina Co. in or near Delmar, Del., to points in Queen Annes, Dorchester, Talbot, Caroline, Wicomico, Worchester, and Somerset Counties, Md., and Accomack and Northampton Counties, Va.

No. MC–FC–73548. By order of March 29, 1972, the Motor Carrier Board approved the transfer to Geetings, Inc., Bella, Iowa, of Certificate No. MC–34027 issued February 18, 1955, to Don E. Dykstra, doing business as Dykstra Transfer Co., 615 Oskaloosa Street, Pella, IA, authorizing the transportation of: Window screens, venetian blinds, doors, and materials and supplies therefor, between Pella, Iowa and Des Moines, Iowa.

No. MC–FC–73556. By order of March 29, 1972, the Motor Carrier Board approved the transfer to Mobile Home Movers and Services, Inc., Box 1727 K Star Route A, Anchorage, AK 99507, of the operating rights in Certificates Nos. MC–119558 (Sub-No. 1) and MC–119558 (Sub-No. 3), issued March 17, 1970 and February 11, 1966, respectively, to A. F. Fisher, doing business as Mobile Home Movers, Inc., Box 1727 K Star Route A, Anchorage, AK 99507, authorizing the transportation of mobile homes between points in Alaska, and between points in Alaska, on the one hand, and, on the other, points in Colorado, Idaho, Indiana, Kansas, Montana, Minnesota, Nebraska, Oklahoma, South Dakota, Washington, and Wisconsin.

Washington, D.C. 20402

FEDERAL REGISTER

Area Code 202 Phone 962–8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended (44 U.S.C. 1510). The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

HIGHLIGHTS—Continued

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1972, and specifies how they are affected.

Title 3—The President

PROCLAMATION 4122

Pan American Day and Pan American Week

By the President of the United States of America

A Proclamation

Eighty-two years ago this spring, the first International Conference of American States was completing its work in Washington. The hopes which millions of people throughout the Western Hemisphere held for that conference were voiced in these words of a leading churchman of the day, Edward Everett Hale: "We trust that the American Congress, representing North and South America, will address itself squarely to some * * * practicable system, not content with general statements * * * of the folly and cost and horror of war."

While the hemispheric court of arbitration for which Hale specifically argued was not created at that time, a "practicable system" was—the system which we now call the Organization of American States. And down all the decades since, that system has increasingly fulfilled the hopes of its founders for modes of cooperation and unity which should make peace permanent and war obsolete among the sister republics of the New World.

Today the Organization of American States stands as the oldest continuous regional body in the world, and one of the most vigorous and progressive as well. Geography, history, shared traditions of self-government, and common interests in the world give a special depth and durability to international ties in the Americas. The OAS, in turn, gives those ties structure, substance, and a strong arm for action.

It is an organization based on a workable combination of idealism and realism; on a capacity to grow and adjust with the times; and on the principle that all nations, large and small, are juridical equals, each entitled to mutual respect and equal rights. It embodies the steadily growing concern of the peoples of the Americas for joint efforts toward

V 37-70 APR 11 72 XUM

hastening economic and social development, maintaining collective security, and settling disputes peacefully. Its past is proud and its future promising.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, do hereby proclaim Friday, April 14, as Pan American Day, and the week beginning April 9 and ending April 15 as Pan American Week; and I call upon the Governors of the fifty States of the Union, the Governor of the Commonwealth of Puerto Rico, and appropriate officials of all other areas under the flag of the United States to issue similar proclamations.

IN WITNESS WHEREOF, I have hereunto set my hand this tenth day of April, in the year of our Lord nineteen hundred seventy-two, and of the Independence of the United States of America the one hundred ninety-sixth.

Richard Nixon

[FR Doc.72-5623 Filed 4-10-72; 12:10 pm]

EXECUTIVE ORDER 11665

James F. Byrnes

As a mark of respect to the memory of James F. Byrnes, it is hereby ordered, pursuant to the provisions of Section 4 of Proclamation 3044 of March 1, 1954, as amended, that until interment the flag of the United States shall be flown at half-staff on all buildings, grounds and naval vessels of the Federal Government in the District of Columbia and throughout the United States and its Territories and possessions. I also direct that the flag shall be flown at half-staff for the same length of time at all United States embassies, legations, consular offices, and other facilities abroad, including all military facilities and naval vessels and stations.

Richard Nixon

THE WHITE HOUSE,
April 10, 1972.

Rules and Regulations

Title 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 213—EXCEPTED SERVICE

Entire Executive Civil Service

Section 213.3102 of Schedule A is amended to give agencies the option of appointing students as assistants to scientific, professional, or technical employees for longer than 1 year when appropriate. For example, students in cooperative education programs can henceforth be appointed for the duration of their programs. Until now, appointments have characteristically been for only 1 year at a time.

Effective on publication in the FEDERAL REGISTER (4–11–72), paragraph (q) of § 213.3102 is amended as set out below.

§ 213.3102 Entire executive civil service.

• • • • • •

(q) Positions at GS–7 and below when the appointees are to assist scientific, professional, or technical employees. Persons employed under this provision shall be: (1) Bona fide students at high schools or accredited colleges or universities pursuing courses related to the field in which employed; or (2) bona fide high school science and mathematics teachers. No person shall be employed under this provision: (i) In a position of a routine clerical type; or (ii) in excess of 1,040 working hours a year; except that the 1,040-working-hours-a-year limitation shall not apply to persons employed under this provision in positions at GS–5 and below which are established in connection with an organized work-study program involving alternating periods of work experience and related study at an accredited college or university in a cooperative curriculum in which the work experience is a prerequisite to the award of a degree. Appointments under this authority may be made only to positions for which qualification standards established under Part 302 of this chapter are consistent with the education and experience standards established for comparable positions in the competitive service.

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.72–5505 Filed 4–10–72;8:50 am]

PART 213—EXCEPTED SERVICE

Department of Commerce

Section 213.3314 is amended to show that one position of Personal and Confidential Assistant to the Chairman, National Advisory Committee on Oceans and Atmosphere, is excepted under Schedule C.

Effective on publication in the FEDERAL REGISTER (4–11–72), paragraph (s) is added to § 213.3314 as set out below.

§ 213.3314 Department of Commerce.

• • • • • •

(s) *National Advisory Committee on Oceans and Atmosphere.* (1) One Personal and Confidential Assistant to the Chairman.

(5 U.S.C. secs. 3301, 3302, E.O. 10577; 3 CFR 1954–58 Comp. p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,

Title 7—AGRICULTURE

Chapter VII—Agricultural Stabilization and Conservation Service (Agricultural Adjustment), Department of Agriculture

SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS

[Amdt. 4]

PART 722—COTTON

Subpart—Regulations for 1968 and Succeeding Years Extra Long Staple Cotton Program

1972 CROP PRICE SUPPORT PAYMENT FACTOR AND PRICE SUPPORT PAYMENT RATE

On December 10, 1971, notice of proposed rule making regarding determinations with respect to the 1972 crop of extra long staple cotton was published in the FEDERAL REGISTER (36 F.R. 23574). Interested persons were invited to submit written data, views, and recommendations regarding the determinations within 30 days after publication of the notice. No comments were received in response to such notice.

This amendment to the regulations governing the Extra Long Staple Cotton Program for 1968 and Succeeding Years is issued pursuant to section 101(f) of the Agricultural Act of 1949, as amended, for the purpose of (1) announcing the 1972 price support payment factor and the price support payment rate and (2) incorporating by reference the regulations in Part 796 prohibiting the making of payments to program participants who harvest or knowingly permit to be harvested for illegal use marihuana or other such prohibited drug-producing plants on any part of the lands owned or controlled by them.

The regulations governing the Extra Long Staple Cotton Program for 1968, and Succeeding Years, 33 F.R. 19159, as amended, are hereby further amended as follows:

1. Section 722.704 is amended by adding a new paragraph (c) to read as follows:

§ 722.704 Price support payment factor.

• • • • • •

(c) For 1972, the price support payment factor is 0.6912.

2. Section 722.709(a) is amended by adding at the end thereof the following new sentence:

§ 722.709 Price support payment.

(a) • • • For 1972, the price support payment rate shall be 12.85 cents per pound.

• • • • • •

3. A new § 722.720 is added to read as follows:

§ 722.720 Prohibition against payments to producers.

The regulations in Part 796 of this chapter prohibiting the making of payments to program participants who harvest or knowingly permit to be harvested for illegal use marihuana or other such prohibited drug-producing plants on any part of the lands owned or controlled by them are applicable to this program.

(Sec. 101(f), as amended, 82 Stat. 701, 7 U.S.C. 1441(f))

Effective date. Date of publication in the FEDERAL REGISTER (4–11–72).

Signed at Washington, D.C., on April 4, 1972.

KENNETH E. FRICK,
Administrator, Agricultural Stabilization and Conservation Service.

Chapter IX—Agricultural Marketing Service [1] (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

PART 989—RAISINS PRODUCED FROM GRAPES IN CALIFORNIA

Handler Representation on Raisin Advisory Board and Raisin Administrative Committee

Notice was published in the March 18, 1972, issue of the FEDERAL REGISTER (37 F.R. 5704), regarding a proposal to amend Subpart—Administrative Rules and Regulations (7 CFR 989.101—989.176; 36 F.R. 13980) by adding new sections, §§ 989.127 and 989.140, in regard to changing the number of handlers comprising certain size groups for purposes of handler representation on the Raisin Advisory Board and the Raisin Administrative Committee. The subpart is operative pursuant to the marketing agreement, as amended, and Order No. 989, as amended (7 CFR Part 989), regulating the handling of raisins produced from grapes grown in California. The amended marketing agreement and order, hereinafter referred to collectively as the "order", are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

The notice afforded interested persons an opportunity to submit written data, views, or arguments on the proposal. None were received within the prescribed time.

Section 989.26a authorizes the Secretary, upon recommendation of the Committee, to make certain changes in the handler representation on the Raisin Advisory Board, including the number of handlers comprising any size groups; and similar changes in the handler representation on the Raisin Administrative Committee are authorized by § 989.39a. As required by §§ 989.26a and 989.39a, in recommending the changes, the Committee took into consideration such factors as changes in the numbers of handlers, the relative raisin acquisition positions of handlers, and their similarity of interests in the handling of raisins.

With respect to the Raisin Advisory Board, the Committee recommended the number of handlers comprising the groups set forth in § 989.26 (c) and (d) be changed from two and five, respectively, to three and four, respectively; with respect to the Raisin Administrative Committee, the Committee recommended the number of handlers comprising the groups set forth in § 989.39 (c) and (d) be changed from two and five, respectively, to three and four, respectively.

Based upon their acquisitions of raisins, the handlers in the groups set forth in §§ 989.26(c) and 989.39(c) are commonly referred to by the industry as "medium size" independent handlers; those in the groups set forth in §§ 989.26 (d) and 989.39(d) are commonly referred to as "small size" independent handlers.

The present handler size groupings on the Board and Committee have been in effect since 1960. Since that time, one of the handlers currently included in the small size independent handler group has increased his raisin acquisitions to such a degree that he should be included in the medium size group. Hence, this change places the handler in the group with which he has more similarity of interests in raisin handling.

After consideration of all relevant matter presented, including that in the notice, the information and recommendation submitted by the Raisin Administrative Committee, the factors set forth in the order, and other available information, it is hereby found that changing the number of handlers comprising certain size groups for purposes of representation on the Raisin Advisory Board and the Raisin Administrative Committee, as hereinafter set forth, would tend to effectuate the declared policy of the act.

It is, therefore, ordered, That, Subpart—Administrative Rules and Regulations (7 CFR 989.101–989.176; 36 F.R. 13980) be amended as follows:

1. Add a new § 989.127 to read as follows:

§ 989.127 Handler representation on Raisin Advisory Board.

Commencing with the term of office beginning May 1, 1972, the handler members of the Board shall include the following: (a) One member selected from and representing handlers doing business as cooperative marketing associations, or cooperative marketing organizations engaged in the business of packing raisins, each of which acquired not less than 10 percent of the total raisin acquisitions during the 12-month period preceding the then current crop year; (b) two members selected from and representing the three handlers, other than cooperatives, who acquired the largest percentages of the total raisin acquisitions during the 12-month period preceding the then current crop year; (c) one member selected from and representing the three handlers, other than cooperatives, who acquired the next largest percentages of the total raisin acquisitions during the 12-month period preceding the then current crop year; (d) two members selected from and representing the four handlers, other than cooperatives, who acquired the next largest percentages of the total raisin acquisitions during the 12-month period preceding the then current crop year; and (e) two members selected from and representing all other handlers, including cooperatives, each of which acquired less than 10 percent of the total raisin acquisitions during the 12-month period preceding the then current crop year, and including all processors.

2. Add a new § 989.140 to read as follows:

§ 989.140 Handler representation on Raisin Administrative Committee.

Commencing with the term of office beginning June 1, 1972, of the five handler members of the Committee, one shall be selected from and represent each of the following divisions: (a) The handlers doing business as cooperative marketing associations, or cooperative marketing organizations engaged in the business of packing raisins, each of which acquired not less than 10 percent of the total raisin acquisitions during the 12-month period preceding the then current crop year; (b) the three handlers, other than cooperatives, who acquired the largest percentages of total raisin acquisitions during the 12-month period preceding the then current crop year; (c) the three handlers, other than cooperatives, who acquired the next largest percentages of the total raisin acquisitions during the 12-month period preceding the then current crop year; (d) the four handlers, other than cooperatives, who acquired the next largest percentages of the total raisin acquisitions during the 12-month period preceding the then current crop year; and (e) all other handlers, including cooperatives, each of which acquired not less than 10 percent of the total raisin acquisitions during the 12-month period preceding the then current crop year, and including all processors.

It is hereby further found that good cause exists for making this action effective promptly and for not postponing the effective time until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that: (1) In accordance with § 989.28(b) of the order, handler members on the Raisin Advisory Board serve for a term of 1 year beginning May 1 and ending April 30 of the following year; (2) the industry is preparing to nominate successors to the members whose terms end April 30; (3) this action should become effective promptly in order that handlers will be able to nominate their new representatives for the term of office commencing May 1, 1972, in accordance with the changed grouping; (4) this action imposes no restrictions on handlers; and (5) no useful purpose would be served by postponing the effective time of this action beyond the date of publication in the FEDERAL REGISTER.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated April 5, 1972, to become effective upon publication in the FEDERAL REGISTER (4–11–72).

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.72–5480 Filed 4–10–72;8:48 am]

Chapter XIV—Commodity Credit Corporation, Department of Agriculture

[CCC Farm Storage and Drying Equipment Loan Program Regs., Amdt. 8]

PART 1474—FARM STORAGE FACILITIES

Farm Storage and Drying Equipment Loan Program Regulations

Correction

In F.R. Doc. 72–4894 appearing at page 6491 in the issue of Thursday, March 30, 1972, the reference to "§ 1474.3" in the first line of ordering paragraph 3 should read "§ 1474.8".

[Rev. 3, Amdt. 7]

PART 1475—EMERGENCY FEED PROGRAM

Subpart—Livestock Feed Program

PRICING OF GRAIN

The regulations issued by the Commodity Credit Corporation published at 29 F.R. 13475, 30 F.R. 2854, 6909, 31 F.R. 13532, 32 F.R. 14372, 34 F.R. 14206, and 36 F.R. 9497, which contain specific requirements for the Livestock Feed Program are further amended to restate the basis for determining the sales price of feed grain for secondary livestock, restate the "county base price" as the "county loan rate," and other minor editorial changes. Accordingly, paragraphs (a), (b), (c), and (d) of § 1475.208 are amended to read as follows:

§ 1475.208 Pricing of grain.

(a) *Price for primary livestock.* The sales price of feed grain approved for primary livestock shall be 75 percent of the applicable county loan rate.

(b) *Price for secondary livestock.* The sales price of feed grain approved for secondary livestock shall be: (1) For barley and oats the applicable county loan rate; (2) for corn and grain sorghum the applicable county loan rate plus 6 cents per bushel for corn and 11 cents per hundredweight for grain sorghum.

(c) *Applicable county loan rate.* The county loan rate to be used in determining sales prices shall be the loan rate as set forth in the applicable annual crop supplement to the CCC loan and purchase program regulations for the county in which the grain is delivered. The basis for the price shall be in store for farm stored grain and f.o.b. purchaser's conveyance at delivery point for all other grain. If no such county loan rate is set forth in the CCC annual crop supplement, it shall be a comparable rate as determined by DASCO. Notwithstanding the foregoing, in cases where it results in savings of delivery costs to CCC and it is determined to be necessary to effectuate the purposes of the program, DASCO may authorize delivery of grain in a county other than the county in which the application is filed.

(d) *Inadvertent overdeliveries.* Inadvertent overdelivery of the properly determined total approved quantity stated in the application which is delivered to an owner from a binsite under § 1475.210(b), carrier's conveyance under § 1475.210(d), or because of an error on the part of CCC shall be settled between the owner and CCC at a price equal to the county loan rate, plus, in the case of corn and grain sorghum sold under paragraph (b) of this section, the markup indicated therein. Overdeliveries in excess of such total approved quantity by warehouses, handlers or dealers not due to error by CCC shall be settled between them and the owner.

(Secs. 1–4 of 73 Stat. 574, as amended; secs. 407 and 421 of 63 Stat. 1055, as amended; secs. 4 and 5 of 62 Stat. 1070, as amended; 7 U.S.C. 1427, 1427 note and 1433; 15 U.S.C. 714 h and c)

Effective date. Upon publication in the FEDERAL REGISTER (4–11–72).

Signed at Washington, D.C., on April 4, 1972.

KENNETH E. FRICK,
Executive Vice President, Commodity Credit Corporation.

[FR Doc.72–5482 Filed 4–10–72;8:48 am]

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Docket No. 72–CE–2–AD; Amdt. 39–1431]

PART 39—AIRWORTHINESS DIRECTIVES

Certain Cessna Airplanes

Amendment 39–1385 (37 F.R. 1357, 1358), AD 72–3–3, effective February 1, 1972, applicable to certain models of Cessna 150, 172, 177, 182, 205, 206, 207, and 210 airplanes is an Airworthiness Directive which superseded Amendment 39–1050 (35 F.R. 12059, 12060), as amended by Amendment 39–1104 (35 F.R. 17030), AD 70–15–16. Paragraph D of AD 72–3–3 requires on or before January 1, 1973, modification of the flap actuator system on these airplanes in accordance with Cessna Service Letter SE72–2, dated January 21, 1972.

Subsequent to the issuance of AD 72–3–3, the manufacturer issued Cessna Service Letter SE72–2, Supplement 1, dated March 24, 1972, which provides additional information for this modification. Accordingly, paragraph D is being revised to include reference to the supplemental information.

Since this amendment provides additional information and is clarifying in nature, compliance with the notice and public procedure provisions of the Administrative Procedure Act is not necessary and good cause exists for making this amendment effective in less than thirty (30) days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (31 F.R. 13697), § 39.13 of Part 39 of the Federal Aviation Regulations, amendment 39–1385 (37 F.R. 1357, 1358), AD 72–3–3 is amended by changing paragraph D so that it now reads as follows:

(D) On or before January 1, 1973, modify the applicable aircraft in accordance with Cessna Service Letter SE72–2, dated January 21, 1972, and Cessna Service Letter SE72–2, Supplement 1, dated March 24, 1972. Equivalent methods of compliance with this paragrapm must be approved by Chief, Engineering and Manufacturing Branch, FAA, Central Region.

This amendment becomes effective April 13, 1972.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Kansas City, Mo., on March 31, 1972.

JOHN M. CYROCKI,
Director, Central Region.

[FR Doc.72–5461 Filed 4–10–72;8:47 am]

[Docket No. 11594; Amdt. No. 39–1434]

PART 39—AIRWORTHINESS DIRECTIVES

Piper Model PA–18 Series Airplanes Modified in Accordance With Supplemental Type Certificate SA 136 AL

Amendment 39–1369 (36 F.R. 24988), AD 72–1–7 requires the installation of P/N 12351–12 engine mount assemblies on Piper Model PA–18 Series airplanes which have been modified in accordance with Supplemental Type Certificate SA 136 AL. After issuing Amendment 39–1369, the FAA has received a number of inquiries as to which airplanes are affected by the AD. Therefore, the AD is being amended to clarify and expand the clauses which describe the affected Piper airplanes.

Since this amendment provides a clarification only, and imposes no additional burden on any person, notice and public procedure hereon are unnecessary and the amendment may be made effective in less than 30 days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 39–1369 (36 F.R. 24988) is amended as follows:

1. By amending the applicability statement to read:

PIPER. Applies to Piper Model PA–18, PA–18–105, PA–18–125, PA–18–135, PA–18A, PA–18A–125, PA–18A–135, and seaplane versions of those models which have been modified after May 14, 1968 in accordance with Supplemental Type Certificate SA 136 AL to incorporate the installation of the Lycoming O–320 engine (150 hp.). Factory delivered models having serial numbers 18–3771 and 18–3781 and above, incorporating the O–320 engine, are not affected by this AD.

2. By amending the note following the AD to read:

NOTE: Engine mount assembly P/N 12351–12 may be identified by the gage of Tube "A" and Tube "B" which measure 0.049 inch, and by the incorporation of two reinforcing plates, number 14438, mounted at the lower right engine attachment points, as shown on Piper Drawing Number 12351, Mount Assembly-Engine, including Revision J dated January 16, 1968.

[1] Formerly Consumer and Marketing Service. Name changed to Agricultural Marketing Service effective April 2, 1972, 37 F.R. 6327.

V 37-70
APR 11 72
XUM

This amendment becomes effective April 17, 1972.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, 1423, sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on April 5, 1972.

JAMES F. RUDOLPH,
Director, Flight Standards Service.

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Areas

On pages 937 and 938 of the FEDERAL REGISTER dated January 21, 1972, the Federal Aviation Administration published a notice of proposed rule making which would amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the transition areas at Duluth, Minn. and Green Bay, Wis.

Interested persons were given 45 days to submit written comments, suggestions, or objections regarding the proposed amendment. No objections have been received and the proposed amendment is hereby adopted without change and is set forth below.

This amendment shall be effective 0901 G.m.t., May 25, 1972.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Des Plaines, Illinois on March 22, 1972.

LYLE K. BROWN,
Director, Great Lakes Region.

In § 71.181 (37 F.R. 2143), the following transition areas are amended to read:

DULUTH, MINN.

Add, "that airspace extending upward from 5,000 feet MSL in the area bounded by V129, V26, V191, and V217".

GREEN BAY, WIS.

Add, "that airspace extending upward from 5,000 feet MSL in the area bounded by V191E, V26, and V217".

[Airspace Docket No. 71-GL-22]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Control Zone and Alteration of Transition Area; Correction

In F.R. Doc. 72-3751, on page 5285 in the issue of Tuesday, March 14, 1972, the Columbus, Ohio (Bolton Field) control zone description (§ 71.171) should be corrected to read as follows:

Within a 3-mile radius of Bolton Field (latitude 39°54'07" N., longitude 83°08'12" W.) and 2 miles either side of the 213° bearing from the airport extending from the 3-mile radius to 4 miles southwest of the airport excluding a 1-mile radius of Columbus Southwest Airport (latitude 39°54'45" N., longitude 83°11'00" W.). This control zone is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will, therefore, be continuously published in the Airman's Information Manual.

Issued in Des Plaines, Ill., on March 23, 1972.

LYLE K. BROWN,
Director, Great Lakes Region.

[FR Doc.72-5463 Filed 4-10-72;8:47 am]

[Airspace Docket No. 71-GL-38]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

On page 937 of the FEDERAL REGISTER dated January 21, 1972, the Federal Aviation Administration published a notice of proposed rule making which would amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to designate a transition area at Boulder Junction, Wis.

Interested persons were given 45 days to submit written comments, suggestions or objections regarding the proposed amendment. No objections have been received and the proposed amendment is hereby adopted without change and is set forth below.

This amendment shall be effective 0901 G.m.t., May 25, 1972.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Des Plaines, Ill. on March 22, 1972.

LYLE K. BROWN,
Director, Great Lakes Region.

In § 71.181 (37 F.R. 2143), the following transition area is amended to read:

BOULDER JUNCTION, WIS.

That airspace extending upward from 700 feet above the surface within a 5½-mile radius of Boulder Junction Airport (latitude 46°08'15" N., longitude 89°38'45" W.); and within 3 miles each side of the 049° bearing from the Boulder Junction Airport, extending from the 5½-mile-radius area to 8 miles northeast of the airport; that airspace extending upward from 1,200 feet above the surface within 4½ miles south and 9½ miles north of the 049° bearing from Boulder Junction Airport, extending from the airport to 18½ miles northeast of the airport, excluding the portion which overlies the Land O'Lakes transition area.

[FR Doc.72-5465 Filed 4-10-72;8:47 am]

[Airspace Docket No. 70-EA-113]

PART 75—ESTABLISHMENT OF JET ROUTES AND AREA HIGH ROUTES

Designation of Area High Routes

On February 17, 1972, F.R. Doc. 72-2401 was published in the FEDERAL REGISTER (37 F.R. 3510) with an effective date of April 27, 1972.

This document amended Part 75 of the Federal Aviation Regulations, in part, by establishing area navigation routes J987R and J988R. Route J987R serves operations between Montreal, Canada, and J. F. Kennedy International Airport, N.Y.

Subsequent to the publication of this amendment, area high route J883R was designated between Minneapolis, Minn., and New York, N.Y. The last waypoint in J883R and the next to last waypoint in J987R are very closely located. Changing one of the two waypoints to coincide with the other one would simplify charting and preclude possible misunderstanding by pilots. Therefore, action is taken herein to change "Countess, N.Y.," waypoint in J987R to "Kingston, N.Y.," waypoint. In addition, a Standard Terminal Arrival Route (STAR) is now being developed for J987R that will be based on Kennedy VORTAC. Consequently, transition from the en route phase to the arrival phase of flight would be simplified if the same reference facility was used for the last en route waypoint and for the proposed STAR. Therefore, action is also taken herein to change the reference facility for "Empire, N.J.," waypoint from "Hancock, N.Y.," to "Kennedy, N.Y."

Since this amendment is minor in nature with no substantive change in the regulations, notice and public procedure thereon are unnecessary, and good cause exists for making this amendment effective on less than 30-days' notice.

In consideration of the foregoing, F.R. Doc. 72-2401 (§ 75.400, 37 F.R. 3510) is amended, effective 0901 G.m.t., April 27, 1972, as hereinafter set forth.

In J987R delete third waypoint information "Countess, N.Y. 41°39'51" N., 73° 49'20" W., Hancock, N.Y." and substitute "Kingston, N.Y. 41°39'55" N., 73°49' 22" W., Huguenot, N.Y." Delete fourth waypoint information "Empire, N.J. 40° 47'11" N., 74°02'36" W., Hancock, N.Y." and substitute "Empire, N.J. 40°47'11" N., 74°02'36" W., Kennedy, N.Y." therefor.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on April 5, 1972.

H. B. HELSTROM,
Chief, Airspace and Air Traffic Rules Division.

[FR Doc.72-5466 Filed 4-10-72;8:47 am]

[Docket No. 11432; Amdt. 121-90]

PART 121—CERTIFICATION AND OPERATIONS: DOMESTIC, FLAG, AND SUPPLEMENTAL AIR CARRIERS AND COMMERCIAL OPERATORS OF LARGE AIRCRAFT

Aviation Security; Certain Air Carriers and Commercial Operators; Security Programs and Other Requirements

The purpose of this amendment to § 121.538 of the Federal Aviation Regulations is to supply language inadvertently omitted in Amendment 121-85 issued February 29, 1972 (37 F.R. 4904).

One of the criteria for amendment of a screening system or approved security program, as stated in paragraph (g) of § 121.538, is "safety in air transportation." This should also include "safety in air commerce" since the section also applies to a commercial operator engaging in intrastate common carriage covered by § 121.7. Accordingly, paragraph (g) is amended to provide for the amendment of a screening system or approved security program where safety in air commerce and the public interest requires such an amendment.

Because this amendment corrects an inadvertent omission and imposes no additional burden on any person, I find that notice and public procedure thereon are unnecessary and that this amendment may be made effective in less than 30 days.

In consideration of the foregoing, paragraph (g) of § 121.538 of the Federal Aviation Regulations is amended, effective April 11, 1972, by inserting the phrase "(or in air commerce, in the case of a commercial operator)" after the words "air transportation" in the lead-in statement and in the fourth sentence in subparagraph (1).

(Secs. 313(a), 601, 604, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, 1424; Sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on April 4, 1972.

J. M. SHAFFER,
Administrator.

[FR Doc.72-5467 Filed 4-10-72;8:47 am]

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER C—DRUGS

PART 135a—NEW ANIMAL DRUGS FOR OPHTHALMIC AND TOPICAL USE

Oxytetracycline Hydrochloride, Polymyxin B Sulfate Ophthalmic Ointment, Veterinary

The Commissioner of Food and Drugs has evaluated a supplemental new animal drug application (8-763V) filed by Pfizer, Inc., 235 East 42d Street, New York, NY 10017, proposing revised labeling regarding the safe and effective use of oxytetracycline hydrochloride, polymyxin B sulfate ophthalmic ointment, veterinary, for the treatment of dogs, cats, cattle, sheep, and horses. The supplemental application is approved.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), Part 135a is amended by adding the following new section:

§ 135a.24 Oxytetracycline hydrochloride, polymyxin B sulfate ophthalmic ointment, veterinary.

(a) *Specifications.* Each gram of the ointment contains oxytetracycline hydrochloride equivalent to 5 milligrams of oxytetracyline and 10,000 units of polymyxin B sulfate.

(b) *Sponsor.* See code No. 030 in § 135.501(c) of this chapter.

(c) *Conditions of use.* (1) The drug is used for the prophylaxis and local treatment of superficial ocular infections due to oxytetracycline- and polymyxin-sensitive organisms. These infections include the following: Ocular infections due to streptococci, rickettsiae, *E. coli*, and *A. aerogenes* (such as conjunctivitis, keratitis, pinkeye, corneal ulcer, and blepharitis in dogs, cats, cattle, sheep, and horses); ocular infections due to secondary bacterial complications associated with distemper in dogs; and ocular infections due to bacterial inflammatory conditions which may occur secondary to other infectious diseases in dogs, cats, cattle, sheep, and horses.

(2) It is administered topically to the eye two to four times daily.

(3) Allergic reactions may occasionally occur. Treatment should be discontinued if reactions are severe. If new infections due to nonsensitive bacteria or fungi appear during therapy, appropriate measures should be taken.

Effective date. This order shall be effective upon publication in the FEDERAL REGISTER (4-11-72).

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i))

Dated: March 30, 1972.

C. D. VAN HOUWELING,
Director,
Bureau of Veterinary Medicine.

[FR Doc.72-5460 Filed 4-10-72;8:46 am]

SUBCHAPTER D—COSMETICS

PART 170—VOLUNTARY REGISTRATION OF COSMETIC PRODUCT ESTABLISHMENTS

PART 172—VOLUNTARY FILING OF COSMETIC PRODUCT INGREDIENT AND COSMETIC RAW MATERIAL COMPOSITION STATEMENTS

In the matter of issuing regulations establishing a procedure for (1) the voluntary registration of cosmetic product establishments and (2) the voluntary filing of cosmetic product ingredient statements:

A notice regarding these regulations which were based on two petitions filed by the Cosmetic, Toiletry, and Fragrance Association, Inc. (CTFA), 1625 I Street NW, Washington, DC 20006, was published in the FEDERAL REGISTER of August 26, 1971 (36 F.R. 16934). In the same notice the Commissioner of Food and Drugs proposed a parenthetical statement which, if the regulations were adopted, would be inserted to identify certain cosmetic products that are also regarded as drugs by the Food and Drug Administration. Interested persons were invited to submit comments on the proposal within a 30-day period which ended September 25, 1971. Twenty-two comments were received.

With regard to the promulgation of these regulations in general, a member of Congress urged that the registration and filing of ingredient statements by producers of cosmetics be mandatory, that foreign producers of cosmetics be subjected to the regulations, and that ingredient labeling of cosmetic products be required. Two other comments challenged the legality of establishing voluntary regulations under section 701(a) of the Federal Food, Drug, and Cosmetic Act and urged that the regulations issued be mandatory. These two comments included legal arguments to support claims that it is extra legal to provide that data submitted voluntarily by firms filing cosmetic product ingredient statements be kept confidential by FDA; that authority now exists to require mandatory registration of cosmetic product establishments, filing of cosmetic ingredient statements, label declaration of ingredients on cosmetic products, and label declaration of any registration number issued by the Commissioner; and that authority now exists to provide that any cosmetic product that did not have an FDA-issued registration number on the label would be deemed to be misbranded.

The Commissioner has considered these comments and concludes that under section 701(a) of the act he is authorized to accept the voluntary registration of cosmetic product establishments and the voluntary filing of cosmetic product ingredient statements and cosmetic raw material composition statements as set forth in the regulations established below. He also agrees that foreign producers should be included in this voluntary registration. He concludes however that promulgation of a mandatory regulation could result in lengthy litigation that would seriously delay FDA from obtaining the type of information expected as result of this promulgation. If it is determined that the information obtained through the procedure established in these regulations does not adequately contribute to the efficient enforcement of the act, additional steps will be taken to promulgate mandatory regulations. The Commissioner further concludes that mandatory ingredient labeling goes beyond the scope of the proposal and cannot be implemented by these regulations.

Comments recommending label declarations of ingredients for cosmetic products are considered by the Commissioner to be meritorious. The Commissioner recognizes that regulations requiring cosmetic product ingredient disclosure on the labels of such products will prevent the deception of consumers and facilitate value comparisons. This issue was not a part of the CTFA petitions. Consideration is being given to publishing a proposal under the Federal Fair Packaging and Labeling Act, section 5(c)(3), 15 U.S.C. 1454(c)(3), for labeling of sensitizing ingredients.

V 37 170 APR 11 72 XUM

A dermatologist commented that the proposed regulations were a step in the right direction but that they did not go far enough, particularly in the provision for providing coded samples to physicians treating persons suffering from allergic reaction. He urged establishment of a "Register" that would list all ingredients of all cosmetic products used in the United States and would be made available to every practicing dermatologist. The Commissioner concludes that a "Register" of cosmetic ingredients goes beyond the scope of the proposal and cannot be implemented by these regulations. The Commissioner considers that promulgation of labeling requirements for cosmetic ingredients will substantially satisfy the need of dermatologists for this type of data.

One comment from a professor at a school of medicine urged that feminine hygiene deodorants be considered drugs as are feminine douche products. This request was also included in the comment submitted by the member of Congress. Twelve of those commenting opposed the Commissioner's proposed parenthetical statement. These comments have been fully considered.

The Commissioner concludes that the parenthetical statement is not a necessary element of this voluntary regulation. In lieu of this statement, the proposed regulations have been changed to indicate that a cosmetic product which is also a drug is subject to the drug requirements of the Federal Food, Drug, and Cosmetic Act.

In his proposed parenthetical statement, the Commissioner cited cosmetic product categories which are also regarded as drugs because of their intended use. He would like to point out that the failure to cite feminine hygiene deodorants as an example should not be construed to indicate that such products may not also be considered drugs under appropriate circumstances.

One comment concerned the possible theft of ingredient information and urged that funds commensurate with the value of the formulations submitted to FDA be set aside to reimburse the owner of a stolen cosmetic formulation. The Commissioner concludes that creation of a special fund goes beyond the scope of the proposal and cannot be implemented by these regulations.

A public interest group objected to the all-inclusive scope of the petitioner's proposed provisions concerning confidentiality of statements submitted pursuant to Part 172. The commissioner concludes that these objections are valid, and the regulations have been changed so that such provisions are consistent with the mandate of section (3)(e)(4) of the Administrative Procedures Act (5 U.S.C. 552(b)(4)).

Fourteen associations or firms that are either involved in or closely allied to the cosmetic product industry favored the regulations proposed by the petitioner. However, some of these suggested amendatory language that would clarify and improve the procedure for obtaining compositional information regarding proprietary ingredients used in finished cosmetics.

Accordingly, on the basis of the comments received and the Commissioner's conclusions, the proposed regulations are being promulgated with the following changes:

1. For clarity, the titles of Parts 170 and 172 have been changed and new definitions are added to §§ 171.1 and 172.1.

2. Changes have been made throughout Parts 170 and 172 in order to include foreign cosmetic producers in these voluntary registration procedures.

3. A sentence has been added to § 172.1 (b) to point out that a cosmetic product which is also a drug is subject to the drug provisions of the act.

4. Clarifying changes have been made in § 172.5(a)(1) and (2), (b)(5), (d)(2) and (3), and (e), and a new subdivision has been added to paragraph (d)(1).

5. A new § 172.6 *Information requested about cosmetic* raw material has been added, and proposed §§ 172.6–172.9 have been redesignated as §§ 172.7–172.10.

6. To further implement new § 172.6, appropriate amendments have been made in §§ 172.2, 172.3, 172.4, 172.7 and 172.9.

7. The section heading of § 172.8 has been changed and the section is revised to clarify the procedure for acknowledging the receipt of statements, advising persons filing incomplete statements, and issuing statement numbers to persons filing complete statements.

8. Section 172.9 is revised to clarify the conditions under which trade secrets, and other privileged and confidential commercial information will be held in confidence consistent with the provisions of section 3(e)(4) of the Administrative Procedures Act as amended.

9. A new paragraph (b) has been added to § 172.10 to explain how the Food and Drug Administration Cosmetic Raw Material Composition Statement Number may be used.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 601, 602, 701(a), 704, 52 Stat. 1054 as amended, 1055, 1057 as amended; 21 U.S.C. 361, 362, 371(a), 374) and under authority delegated to the Commissioner (21 CFR 2.120): *It is ordered*, That 21 CFR Chapter I be editorially amended by redesignating the present Subchapters D and E as Subchapters E and F, respectively, and that a new Subchapter D—Cosmetics be established consisting at this time of two new Parts 170 and 172, as follows:

Sec.
170.1 Definitions.
170.2 Who should register.
170.3 Time for registration.
170.4 How and where to register.
170.5 Information requested.
170.6 Amendments to registration.
170.7 Notification of registrant; cosmetic products establishment registration number.
170.8 Inspection of registrations.
170.9 Misbranding by reference to registration or to registration number.
170.51 Exemptions.

AUTHORITY: The provisions of this Part 170 issued under secs. 601, 602, 701(a), 704, 52 Stat. 1054, as amended, 1055, 1057, as amended; 21 U.S.C. 361, 362, 371(a), 374.

§ 170.1 Definitions.

(a) The term "cosmetic product" means a finished cosmetic the manufacture of which has been completed.

(b) "Establishment" means a place of business where cosmetic products are manufactured or packaged.

(c) The term "manufacture" of a cosmetic product means the making of any cosmetic product by chemical, physical, biological, or other procedures, including manipulation, sampling, testing, or control procedures applied to the product.

(d) The term "packaging" of a cosmetic product means filling or labeling the product container, including changing the immediate container or label (but excluding changing other labeling) at any point in the distribution of the cosmetic product from the original place of manufacture to the person who makes final delivery or sale to the ultimate consumer.

(e) The term "all business trading names used by the establishment" means any name which is used on a cosmetic product label and owned by the cosmetic product manufacturer or packer, but is different from the principal name under which the cosmetic product manufacturer or packer is registered.

(f) The term "act" means the Federal Food, Drug, and Cosmetic Act.

(g) The definitions and interpretations contained in sections 201 and 602 of the Federal Food, Drug, and Cosmetic Act shall be applicable to such terms when used in the regulations in this part.

§ 170.2 Who should register.

The owner or operator of a cosmetic product establishment which is not exempt under § 170.51 and engages in the manufacture or packaging of a cosmetic product is requested to register for each such establishment, whether or not the product enters interstate commerce. This request extends to any foreign cosmetic product establishment whose products are exported for sale in any State as defined in section 201(a)(1) of the act. No registration fee is required.

§ 170.3 Time for registration.

The owner or operator of an establishment entering into the manufacture or packaging of a cosmetic product should register his establishment within 30 days after the operation begins.

§ 170.4 How and where to register.

FD Form 2511 ("Registration of Cosmetic Product Establishment") is obtainable on request from the Food and Drug Administration, Department of Health, Education, and Welfare, Washington, D.C. 20204, or at any Food and Drug Administration district office. The completed form should be mailed to Cosmetic Product Establishment Registration, Food and Drug Administration, Department of Health, Education, and Welfare, Washington, D.C. 20204.

(c) Persons who manufacture, prepare, compound, or process cosmetic products solely for use in research, pilot plant production, teaching, or chemical analysis, and who do not sell these products.

(d) Carriers, by reason of their receipt, carriage, holding, or delivery of cosmetic products in the usual course of business.

Sec.
172.1 Definitions.
172.2 Who should file.
172.3 Times for filing.
172.4 How and where to file.
172.5 Information requested about cosmetic products.
172.6 Information requested about cosmetic raw materials.
172.7 Amendments to statement.
172.8 Notification of person submitting cosmetic product ingredient statement cosmetic raw material composition statement.
172.9 Confidentiality of statements.
172.10 Misbranding by reference to filing or to statement number.

AUTHORITY: The provisions of this Part 172 issued under secs. 601, 602, 701(a), 704, 52 Stat. 1054, as amended, 1055, 1057, as amended; 21 U.S.C. 361, 362, 371(a), 374.

§ 172.1 Definitions.

(a) The term "commercial distribution" of a cosmetic product means annual gross sales in excess of $1,000 for that product.

(b) The term "cosmetic product" means a finished cosmetic the manufacture of which has been completed. Any cosmetic product which is also a drug or device or component thereof is also subject to the requirements of Chapter V of the act.

(c) The term "flavor" means any natural or synthetic substance or substances used solely to impart a taste to a cosmetic product.

(d) The term "fragrance" means any natural or synthetic substance or substances used solely to impart an odor to a cosmetic product.

(e) The term "ingredient" means any single chemical entity or mixture used as a component in the manufacture of a cosmetic product.

(f) The term "proprietary ingredient" means any cosmetic product ingredient whose name, composition, or manufacturing process is protected from competition by secrecy, patent, or copyright.

(g) The term "chemical description" means a concise definition of the chemical composition using standard chemical nomenclature so that the chemical structure or structures of the components of the ingredient would be clear to a practicing chemist. When the composition cannot be described chemically, the substance shall be described in terms of its source and processing.

(h) The term "cosmetic raw material" means any ingredient, including an ingredient that is a mixture, which is used in the manufacture of a cosmetic product for commercial distribution and is supplied to a cosmetic product manufacturer, packer, or distributor by a cosmetic raw material manufacturer or supplier.

(i) The definitions and interpretations contained in sections 201, 601, and 602 of the act shall be applicable to such terms when used in the regulations in this part.

§ 172.2 Who should file.

(a) Either the manufacturer, packer, or distributor of a cosmetic product is requested to file FD Form 2512 ("Cosmetic Product Ingredient Statement") whether or not the cosmetic product enters interstate commerce. This request extends to any foreign manufacturer, packer, or distributor of a cosmetic product exported for sale in any State as defined in section 201(a)(1) of the act. No filing fee is required.

(b) It is requested that FD Form 2513 ("Cosmetic Raw Material Composition Statement") be filed by either the manufacturer or supplier of a cosmetic raw material that is a proprietary ingredient or whose precise composition is not known to the cosmetic manufacturer, packer, or distributor receiving the ingredient whether or not the raw material enters into interstate commerce. This request extends to any foreign manufacturer or supplier of a cosmetic raw material that is exported for such use in any State as defined in section 201(a)(1) of the act. No filing fee is required.

§ 172.3 Times for filing.

(a) Within 180 days after forms are made available to the industry, FD Form 2512 should be filed for each cosmetic product being commercially distributed as of the effective date of this part. FD Form 2512 should be filed within 60 days after the beginning of commercial distribution of any product not covered within the 180-day period.

(b) FD Form 2513 should be filed, pursuant to § 172.2(b), by a cosmetic raw material manufacturer or supplier for each cosmetic raw material.

§ 172.4 How and where to file.

FD Form 2512 and FD Form 2513 and FD Form 2514 ("Discontinuance of Commercial Distribution of Cosmetic Product or Cosmetic Raw Material") are obtainable on request from the Food and Drug Administration, Department of Health, Education, and Welfare, Washington, D.C. 20204, or at any Food and Drug Administration district office. The completed form should be mailed or delivered to: Cosmetic Product Statement, Food and Drug Administration, Department of Health, Education, and Welfare, Washington, D.C. 20204, according to the instructions provided with the forms.

§ 172.5 Information requested about cosmetic products.

(a) FD Form 2512 requests information on:

(1) The name and address, including post office ZIP code, of the person (manufacturer, packer, or distributor) designated on the label of the product.

(2) The name and address, including post office ZIP code, of the manufacturer or packer of the product if different from the person designated on the label of the product, when the manufacturer or

§ 170.5 Information requested.

FD Form 2511 requests information on the name and address of the cosmetic product establishment, including post office ZIP code; all business trading names used by the establishment; the kind of ownership or operation (e.g., individually owned, partnership, or corporation); and the type of business (manufacturer, packer, and/or distributor). The information requested should be given separately for each establishment as defined in § 170.1(b).

§ 170.6 Amendments to registration.

Within 30 days after a change in any of the information contained on a submitted FD Form 2511, a new FD Form 2511 should be submitted to amend the registration. This amendment is also necessary when a registration is to be canceled because an establishment has changed its name and no longer conducts business under the original name.

§ 170.7 Notification of registrant; cosmetic product establishment registration number.

The Commissioner of Food and Drugs will provide the registrant with a validated copy of FD Form 2511 as evidence of registration. This validated copy will be sent only to the location shown for the registering establishment. A permanent registration number will be assigned to each cosmetic product establishment registered in accordance with the regulations in this part.

§ 170.8 Inspection of registrations.

A copy of the FD Form 2511 filed by the registrant will be available for inspection at the Food and Drug Administration, Department of Health, Education, and Welfare, Washington, D.C. 20204.

§ 170.9 Misbranding by reference to registration or to registration number.

Registration of a cosmetic product establishment or assignment of a registration number does not in any way denote approval of the firm or its products by the Food and Drug Administration. Any representation in labeling or advertising that creates an impression of official approval because of registration or possession of a registration number will be considered misleading.

§ 170.51 Exemptions.

The following classes of persons are not requested to register in accordance with this Part 170 because the Commissioner has found that such registration is not justified:

(a) Beauty shops, cosmetologists, retailers, pharmacies, and other persons and organizations that compound cosmetic products at a single location and administer, dispense, or distribute them at retail from that location and who do not otherwise manufacture or package cosmetic products at that location.

(b) Physicians, hospitals, clinics, and public health agencies.

V 37-70 APR 11 72 XUM

packer submits the information requested under this paragraph.

(3) The brand name or names of the cosmetic product.

(4) The cosmetic product category or categories.

(5) The ingredients in the product.

(b) The person filing FD Form 2512 should:

(1) Provide the information requested in paragraph (a) of this section.

(2) Have the form signed by an authorized individual.

(3) Provide poison control centers with ingredient information and/or adequate diagnostic and therapeutic procedures to permit rapid evaluation and treatment of accidental ingestion or other accidental use of the cosmetic product.

(4) Provide ingredient information (and, when requested, ingredient samples) to a licensed physician who, in connection with the treatment of a patient, requests assistance in determining whether an ingredient in the cosmetic product is the cause of the problem for which the patient is being treated.

(5) Request that an FD Form 2513 be filed pursuant to § 172.6(b) by the manufacturer or supplier of any proprietary ingredient (including mixtures) or of any other cosmetic raw material which is used as an ingredient and has not as yet been assigned a cosmetic raw material composition statement number.

(c) One or more of the following cosmetic product categories should be cited to indicate the product's intended use.

(1) *Baby products.* (i) Baby shampoos.
(ii) Lotions, oils, powders, and creams.
(iii) Other baby products.

(2) *Bath preparations.* (i) Bath oils, tablets, and salts.
(ii) Bubble baths.
(iii) Bath capsules.
(iv) Other bath preparations.

(3) *Eye makeup preparations.* (i) Eyebrow pencil.
(ii) Eyeliner.
(iii) Eye shadow.
(iv) Eye lotion.
(v) Eye makeup remover.
(vi) Mascara.
(vii) Other eye makeup preparations.

(4) *Fragrance preparations.* (i) Colognes and toilet waters.
(ii) Perfumes.
(iii) Powders (dusting and talcum) (excluding aftershave talc).
(iv) Sachets.
(v) Other fragrance preparations.

(5) *Hair preparations (noncoloring).* (i) Hair conditioners.
(ii) Hair sprays (aerosol fixatives).
(iii) Hair straighteners.
(iv) Permanent waves.
(v) Rinses (noncoloring).
(vi) Shampoos (noncoloring).
(vii) Tonics, dressings, and other hair grooming aids.
(viii) Wave sets.
(ix) Other hair preparations.

(6) *Hair coloring preparations.* (i) Hair dyes and colors (all types requiring caution statement and patch test).
(ii) Hair tints.
(iii) Hair rinses (coloring).
(iv) Hair shampoos (coloring).
(v) Hair color sprays (aerosol).
(vi) Hair lighteners with color.
(vii) Hair bleaches.
(viii) Other hair coloring preparations.

(7) *Makeup preparations (not eye).* (i) Blushers (all types).
(ii) Face powders.
(iii) Foundations.
(iv) Leg and body paints.
(v) Lipstick.
(vi) Makeup bases.
(vii) Rouges.
(viii) Makeup fixatives.
(ix) Other makeup preparations.

(8) *Manicuring preparations.* (i) Basecoats and undercoats.
(ii) Cuticle softeners.
(iii) Nail creams and lotions.
(iv) Nail extenders.
(v) Nail polish and enamel.
(vi) Nail polish and enamel removers.
(vii) Other manicuring preparations.

(9) *Oral hygiene products.* (i) Dentifrices (aerosol, liquid, pastes, and powders).
(ii) Mouthwashes and breath fresheners (liquids and sprays).
(iii) Other oral hygiene products.

(10) *Personal cleanliness.* (i) Bath soaps and detergents.
(ii) Deodorants (underarm).
(iii) Douches.
(iv) Feminine hygiene deodorants.
(v) Other personal cleanliness products.

(11) *Shaving preparations.* (i) Aftershave lotions.
(ii) Beard softeners.
(iii) Men's talcum.
(iv) Preshave lotions (all types).
(v) Shaving cream (aerosol, brushless, and lather).
(vi) Shaving soap (cakes, sticks, etc.).
(vii) Other shaving preparation products.

(12) *Skin care preparations (creams, lotions, powder, and sprays).* (i) Cleansing (cold creams, cleansing lotions, liquids, and pads).
(ii) Depilatories.
(iii) Face, body, and hand (excluding shaving preparations).
(iv) Foot powders and sprays.
(v) Hormone.
(vi) Moisturizing.
(vii) Night.
(viii) Paste marks (mud packs).
(ix) Skin lighteners.
(x) Skin fresheners.
(xi) Wrinkle smoothing (removers).
(xii) Other skin care preparations.

(13) *Suntan and sunscreen preparations.* (i) Suntan gels, creams, and liquids.
(ii) Indoor tanning preparations.
(iii) Other suntan preparations.

(d) Ingredients in the product should be indicated as follows:

(1) A list of each ingredient of the cosmetic product in descending order of predominance by weight (except that the fragrance and/or flavor may be designated as such without naming each individual ingredient when the manufacturer or supplier of the fragrance and/or flavor refuses to disclose ingredient data) should be accompanied by a letter designating the percentage of the ingredient added, as follows:

(i) The letter A represents over 50 percent.

(ii) The letter B represents over 25 percent to 50 percent.

(iii) The letter C represents over 10 percent to 25 percent.

(iv) The letter D represents over 5 percent to 10 percent.

(v) The letter E represents over 1 percent to 5 percent.

(vi) The letter F represents over 0.1 percent to 1 percent.

(vii) The letter G represents 0.1 percent or less.

(viii) The letter H represents 0 percent. (The letter H is to be used only to indicate that a particular color additive is absent in certain shades of a product as described in the instructions in FD Form 2512.)

(2) An ingredient, including an ingredient that is a mixture, should be listed by its common or usual name, if it has one; or by its chemical name (except proprietary ingredients); or by its trade name and the name of manufacturer or supplier. If such ingredient complies with a published standard (e.g., "The United States Pharmacopeia," "National Formulary," "Food Chemicals Codex," "CTFA Standards—Specifications," etc.) list only the common, usual, or chemical name found in the published standard and the name of the standard used. If a cosmetic raw material composition statement number has already been assigned to an ingredient, list only the number and the name under which the ingredient was registered.

(3) When the manufacturer or supplier of a fragrance and/or flavor refuses to disclose ingredient data, the fragrance and/or flavor should be listed as such with the product name and/or trade name or number and the name of the manufacturer or supplier of each proprietary mixture that is included.

(e) A separate FD Form 2512 should be filed for each different formulation of a cosmetic product. However, except for the hair coloring preparations listed in paragraph (c)(6) of this section for which a statement for each shade of such product is required, a single FD Form 2512 may be filed for two or more shades of a cosmetic product where only the amounts of the color additive ingredient used are varied or in the case of flavors and fragrances where only the amounts of the flavors and fragrances used are varied.

§ 172.6 Information requested about cosmetic raw materials.

(a) FD Form 2513 requests information on:

(1) The name and address, including post office ZIP code, of the manufacturer or supplier of the cosmetic raw material.

(2) The trade name or names of the cosmetic raw material.

(3) The identity of the ingredient in a cosmetic raw material or of the ingredients if the cosmetic raw material is a mixture.

(b) The person filing FD Form 2513 should:

(1) Provide the information requested in paragraph (a) of this section for each cosmetic raw material which is to be an ingredient in a cosmetic product offered for commercial distribution, whenever it is a proprietary ingredient (except that the fragrance and/or flavor may be designated as such without naming each individual ingredient when the manufacturer or supplier of the fragrance and/or flavor refuses to disclose ingredient data) or an ingredient whose precise composition is not known to the cosmetic product manufacturer, packer, or distributor using it.

(2) Have it signed by an authorized individual.

(c) Information on the composition of cosmetic raw material should be shown as follows:

(1) A cosmetic raw material or an ingredient in a cosmetic raw material, including mixtures, should be listed by its common or usual name, if it has one; or its chemical name; or its chemical description. If this information is not available, list the trade name and supplier and request the manufacturer or supplier to file an FD Form 2513. If such cosmetic raw material or ingredient complies with a published standard (e.g. "The United States Pharmacopeia," "National Formulary," "Food Chemicals Codex," "CTFA Standards—Specifications," etc.) list only the common, usual, or chemical name in the published standard and the name of the standard used. If a cosmetic raw material composition statement number has already been assigned to an ingredient, list only the number and the name under which the ingredient was registered.

(2) A cosmetic raw material that is a prepared mixture of ingredients should have each ingredient listed in descending order of predominance by weight (except that fragrance and/or flavor, if present, may be designated as such without naming each individual ingredient when the manufacturer or supplier of the fragrance and/or flavor refuses to disclose ingredient data) with a letter designating the percentage of the ingredient added as described under § 172.5(d)(1).

(3) When the manufacturer or supplier of a fragrance and/or flavor refuses to disclose ingredient data, the fragrance and/or flavor used in a cosmetic raw material should be listed as such with the product name and/or trade name or number and the name of the manufacturer or supplier.

(4) Ingredients in a prepared mixture of color additives, with or without diluents, that are used as cosmetic raw materials should be listed as described in subparagraphs (1) and (2) of this paragraph, using the approved FDA name of the color additive and/or diluent as listed in Part 8 of this chapter.

(d) The information requested should be given separately for each cosmetic raw material.

§ 172.7 Amendments to statement.

(a) Changes in the information requested under § 172.5(a) (3) and (5) on the ingredients or brand name of a cosmetic product should be submitted by filing an amended FD Form 2512, within 60 days after the product is entered into commercial distribution. Other changes do not justify immediate amendment, but should be shown by filing an amended FD Form 2512 within a year after such changes. Notice of discontinuance of commercial distribution of a cosmetic product should be submitted by FD Form 2514 within 180 days after discontinuance of commercial distribution becomes known to the person filing.

(b) Changes in the information requested under § 172.6(a) (2) and (3) on the name or ingredients of a cosmetic raw material should be submitted by filing an amended FD Form 2513 on or before the time the cosmetic raw material is supplied to a cosmetic product manufacturer, packer, or distributor for use in a product for commercial distribution. The manufacturer, packer, or distributor should also be informed about any change in the name of a cosmetic raw material so he can send an amended FD Form 2512 as requested in paragraph (a) of this section. Other changes should be indicated by filing an amended FD Form 2513 within a year after these changes are made. Notice of discontinuance of commercial distribution of a cosmetic raw material should be submitted by FD Form 2514 within 180 days after discontinuance of commercial distribution becomes known to the person filing.

§ 172.8 Notification of person submitting cosmetic product ingredient statement and cosmetic raw material composition statement.

When FD Forms 2512 and 2513 are received, the Commissioner of Food and Drugs will either assign a permanent cosmetic statement number or an FDA reference number in those cases where a permanent number cannot be assigned. Receipt of the forms will be acknowledged by sending the individual signing the statement an appropriate notice bearing either the FDA reference number or the permanent cosmetic statement number. If the person submitting FD Form 2512 has not complied with § 172.5(b)(1) and (2) or the person submitting FD Forms 2513 has not complied with § 172.6(b), he will be notified as to the manner in which his statement is incomplete.

§ 172.9 Confidentiality of statements.

(a) Each item of information contained in, attached to, or included with FD Forms 2512, 2513, 2514, and amendments thereto and constituting a trade secret or other privileged and confidential commercial information exempt from disclosure to the public must be clearly marked as confidential. Each item of information so marked must be accompanied by a statement setting forth adequate grounds to justify its confidentiality. If the Food and Drug Administration concludes that an item so marked is not exempt from disclosure to the public, the person submitting the information will be informed and will be given an opportunity to appeal that decision to the Assistant Commissioner for Public Affairs, whose decision on the matter will be final.

(b) Data and information otherwise exempt from public disclosure may be revealed in administrative or court enforcement proceedings where the data or information are relevant. Any such use will be in a manner that reduces public disclosure to the minimum necessary under the circumstances.

(c) Data and information otherwise exempt from public disclosure may be disclosed to consultants, advisory committees, and other persons who are special government employees. Such persons are thereafter subject to the same restrictions with respect to disclosure as any Food and Drug Administration employee.

§ 172.10 Misbranding by reference to filing or to statement number.

(a) The filing of an FD Form 2512 or 2513 or assignment of a number to the statement does not in any way denote approval by the Food and Drug Administration of the firm or the product. Any representation in labeling or advertising that creates an impression of official approval because of such filing or such number will be considered misleading, except as set forth in paragraph (b) of this section.

(b) The manufacturer or supplier of a cosmetic raw material that has been assigned a Food and Drug Administration Cosmetic Raw Material Composition Statement number (FDA CRMCS No.) pursuant to § 172.8 may use this number without violating the misbranding provision of this section under the following conditions:

(1) The FDA CRMCS No. is placed on the label of the container which is used to ship or transport the cosmetic raw material to a manufacturing establishment if the principal display panel of the label also contains the following disclaimer: "The FDA Cosmetic Raw Material Composition Statement number is assigned for raw material identification purposes only and does not in any way denote approval of the firm or the raw material by the Food and Drug Administration." The disclaimer phrase shall be prominently placed thereon with such conspicuousness (as compared with other words, statements, designs, or devices) as to render it likely to be read and understood by the ordinary individual.

(2) The FDA CRMCS No. is used in cosmetic raw material trade literature, catalogue citations, and correspondence if the disclaimer specified in subparagraph (1) of this paragraph is made on the same page that the FDA CRMCS No. appears.

Effective date. Part 170 shall become effective 30 days after notice that FD Form 2511 is available for distribution, and Part 172 shall become effective 30

V 37-70 APR 11 72 XUM

days after notice that FD Forms 2512, 2513, and 2514 are available for distribution. Notice of the date each of the forms will be available will be published in the FEDERAL REGISTER. It is anticipated that FD Form 2511 will be available on a date to be announced during April 1972 and that FD Forms 2512, 2513, and 2514 will be available on a date to be announced in May 1972. In the meantime, those desiring any of these forms may submit requests to the Food and Drug Administration as set forth in §§ 170.4 and 172.14 (21 CFR 170.4 and 172.4).

Dated: March 31, 1972.

CHARLES C. EDWARDS,
Commissioner of Food and Drugs.

[FR Doc.72-5298 Filed 4-6-72;8:45 am]

Title 22—FOREIGN RELATIONS

Chapter I—Department of State

[Dept. Reg. 108.657]

PART 41—VISAS: DOCUMENTATION OF NONIMMIGRANTS UNDER THE IMMIGRATION AND NATIONALITY ACT, AS AMENDED

Exchange Visitors

Part 41, Chapter I, Title 22 of the Code of Federal Regulations is amended to provide regulations on the applicability of section 212(e) of the Immigration and Nationality Act, as amended, to alien exchange visitors who enter the United States or thereafter acquire status as an exchange visitor and engage in a field of specialized knowledge or skill which had been designated by the Secretary of State as a field in which the alien's country of nationality or last residence clearly required the services of persons so engaged.

Section 41.65 is amended to read as follows:

§ 41.65 Exchange visitors.

(a) *Classification.* An alien shall be classifiable as an exchange visitor if he qualifies under the provisions of section 101(a)(15)(J) of the Act and establishes to the satisfaction of the consular officer that:

(1) He has been accepted to participate, and intends to participate, in an exchange visitor program designated by the Department as evidenced by the presentation of a properly executed Form DSP-66 (Certificate of Eligibility for Exchange Visitor Status);

(2) He has sufficient funds to cover his expenses or other arrangements have been made to provide for his expenses;

(3) He has sufficient knowledge of the English language to enable him to undertake the program for which he has been selected or the organization sponsoring him is aware of his deficiency in this respect and has indicated its willingness to accept him regardless of that deficiency; or that

(4) He is the spouse or minor child of such an exchange-visitor program participant.

(b) *Applicability of section 212(e) of the Act.* (1) An alien is subject to the 2-year foreign residence requirement of section 212(e) of the Act if—

(i) His participation in one or more exchange programs was wholly or partially financed, directly or indirectly, by the Government of the United States or by the government of his country of nationality or last residence; or

(ii) At the time of the issuance to him of an exchange visitor visa and admission to the United States, or, if not required to obtain a nonimmigrant visa, at the time of his admission to the United States as an exchange visitor, or at the time of his acquisition of such status after admission, he was a national or resident of a country which the Secretary of State had designated, through publication by public notice in the FEDERAL REGISTER, as clearly requiring the services of persons engaged in the field of specialized knowledge or skill in which the alien was engaged in his exchange-visitor program.

(2) For the purposes of this subsection, the terms "financed directly" and "financed indirectly" shall be defined as set forth in § 63.1 of this chapter.

(3) If an alien is subject to the 2-year foreign residence requirement of section 212(e) of the Act, the spouse or child of such alien shall also be subject to such requirement if such spouse or child is admitted to the United States pursuant to section 101(a)(15)(J) of the Act for the purpose of accompanying or following to join such alien.

(4) The consular officer to whom an alien applies for an exchange visitor visa shall, prior to the issuance of such visa, determine whether the alien will be subject to the 2-year foreign residence requirement of section 212(e) of the Act if admitted to the United States under section 101(a)(15)(J) of the Act, and shall inform the alien of such determination.

Effective date. These amendments shall become effective upon publication in the FEDERAL REGISTER (4-11-72).

The provisions of the Administrative Procedure Act (80 Stat. 383; 5 U.S.C. 553) relative to notice of proposed rule making are inapplicable to this order because the regulations contained herein involve foreign affairs functions of the United States.

(Sec. 104, 66 Stat. 174; 8 U.S.C. 1104)

Dated: March 31, 1972.

BARBARA M. WATSON,
Administrator, Bureau of Security and Consular Affairs.

Title 24—HOUSING AND URBAN DEVELOPMENT

Chapter II—Office of Assistant Secretary for Housing Production and Mortgage Credit-Federal Housing Commissioner (Federal Housing Administration), Department of Housing and Urban Development

SUBCHAPTER A—GENERAL

[Docket No. R-72-177]

PART 200—INTRODUCTION

Subpart D—Delegations of Basic Authority and Functions

INSURANCE OF MORTGAGES

Part 200 is being amended to add a new § 200.119 to designate officials who may act on behalf of the Area Director with respect to the execution of specified instruments essential to the insurance of mortgages.

Accordingly, Part 200, Subpart D is amended in the table of contents and text by adding a new § 200.119 as follows:

Sec.
200.119 Designation of officials to perform certain functions with respect to the insurance of mortgages.

§ 200.119 Designation of officials to perform certain functions with respect to the insurance of mortgages.

(a) *Specification of functions.* Each of the officials appointed to the positions set forth in paragraph (b) of this section is designated to act for the Area Director solely for the purpose of executing the following instruments essential to the approval of a mortgage for insurance:

(1) The regulatory agreement between the Secretary and the owner;

(2) The agreement and certification between the Secretary, mortgagor, and mortgagee;

(3) The rent supplement contract between the Secretary and the housing owner; and

(4) The endorsement of the note for mortgage insurance.

(b) *Officials designated.* The functions described in paragraph (a) of this section may be exercised by the officials appointed to the following positions:

(1) The Deputy Area Director;

(2) The Director, Operations Division;

(3) The Deputy Director, Operations Division; and

(4) The Assistant to the Director, Operations Division.

(Secretary's delegation of authority, 36 F.R. 5006, Mar. 16, 1971)

Effective date. This designation shall be effective upon publication in the FEDERAL REGISTER (4-11-72).

EUGENE A. GULLEDGE,
Assistant Secretary for Housing Production and Mortgage Credit-FHA Commissioner.

[FR Doc.72-5501 Filed 4-10-72;8:50 am]

SUBCHAPTER B—MORTGAGE AND LOAN INSURANCE PROGRAMS UNDER NATIONAL HOUSING ACT

[Docket No. R-72-176]

PART 236—MORTGAGE INSURANCE AND INTEREST REDUCTION PAYMENTS FOR RENTAL PROJECTS

Policy Respecting Fair Market Rentals in Determination of Project Feasibility

Section 236 of the National Housing Act requires a mortgagor to establish, with the approval of the Secretary, a basic monthly rental charge and a fair market monthly rental charge for each rental unit in a project. In processing applications for section 236 rental projects, the Department will now require that determinations of feasibility be based on estimated fair market rental charges which do not exceed rents obtainable for reasonably comparable nonsubsidized rental dwelling units similarly located. An exception to this Department policy is provided for projects to be located in deteriorating residential neighborhoods. The exception provides that a project proposal with fair market rental charges exceeding those obtainable in a deteriorating neighborhood may be approved upon a finding that the project can be expected to contribute to the stabilization or improvement of the neighborhood and that the fair market rentals do not exceed those obtainable in comparable projects in stable neighborhoods.

Inasmuch as this amendment is a statement of policy of the Department, notice and public procedure hereon are not required.

Accordingly, Part 236 is amended by adding a new § 236.56 to read as follows:

§ 236.56 Determination of project feasibility—fair market rentals.

(a) In the determination of project feasibility prior to issuing a commitment for mortgage insurance under this part, the fair market rentals estimated in accordance with § 236.55(a)(2) shall be at a level that can be expected to attract nonsubsidized tenants, who will pay fair market rentals, and shall not exceed the rentals obtainable for reasonably comparable nonsubsidized rental dwelling units similarly located. Adjustments may be made in such rentals to reflect additional management services such as increased tenant screening, counseling, and income certification and recertifications.

(b) In determining the feasibility of a project to be located in a deteriorating residential neighborhood, the Commissioner may determine a project to be feasible with estimated fair market rental levels in excess of those than can be expected to attract nonsubsidized tenants in that neighborhood provided that:

(1) The estimated fair market rentals do not exceed estimated fair market rentals obtainable in comparable projects in more stable neighborhoods, and

(2) The proposed project can be expected to contribute to the stabilization or improvement of the neighborhood.

(Secs. 211 and 236, 52 Stat. 23, 82 Stat. 498; 12 U.S.C. 1717b, 1715z-1)

Effective date. This regulation is effective on May 10, 1972.

EUGENE A. GULLEDGE,
Assistant Secretary-Commissioner.

[FR Doc.72-5500 Filed 4-10-72;8:50 am]

Title 26—INTERNAL REVENUE

Chapter I—Internal Revenue Service, Department of the Treasury

SUBCHAPTER D—MISCELLANEOUS EXCISE TAXES

[T.D. 7178]

PART 147—TEMPORARY REGULATIONS UNDER THE INTEREST EQUALIZATION TAX ACT

Place for Filing Notice of Acquisition of Canadian Issues—Form 3779

In order to prescribe a new place for filing notices of acquisition of Canadian issues on Form 3779 under § 147.4-1 of the temporary regulations concerning the interest equalization tax (26 CFR Part 147), § 147.4-1(c)(2) is amended, effective May 11, 1972, to read as follows:

§ 147.4-1 Exclusion for original or new issues where required for international monetary stability.

* * * * *

(c) *Notice of acquisition of Canadian issues.* * * *

(2) *Manner of filing.* Except as otherwise provided in the instructions accompanying the form, each U.S. person claiming an exclusion for an acquisition of original or new Canadian stock or debt obligations under section 4917(a) in accordance with Executive Order No. 11304 (or in accordance with Executive Order No. 11175 with respect to an acquisition made before September 12, 1966), shall file the notice of acquisition required under this section on Form 3779 with the Internal Revenue Service Center, 310 Lowell Street, Andover, MA 01812, and such notice shall set forth the information required by the form.

* * * * *

Because this Treasury decision amends existing temporary regulations merely by changing the place for filing forms of notice of acquisition of Canadian issues (Form 3779) in a manner not unfavorable to taxpayers, it is hereby found that it is unnecessary to issue this Treasury decision with notice and public procedure thereon under section 553(b) of title 5 of the United States Code, or subject to the effective date limitation of section 553(d).

(Sec. 7805, Internal Revenue Code of 1954, 68A Stat. 917; 26 U.S.C. 7805)

[SEAL] JOHNNIE M. WALTERS,
Commissioner of Internal Revenue.

Approved: April 3, 1972.

FREDERIC W. HICKMAN,
Acting Assistant Secretary of the Treasury.

[FR Doc.72-5872 Filed 4-10-72;8:45 am]

Title 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans Administration

PART 1—GENERAL PROVISIONS

Public Participation in Regulatory Development

On page 3552 of the FEDERAL REGISTER of February 17, 1972, there was published a notice of proposed rule making to issue a regulation concerning the policy of the Veterans Administration to use rule making procedures in certain cases even though not required by law. Interested persons were given 30 days in which to submit written comments, suggestions, or objections regarding the proposed regulations.

No written objections have been received. It has been determined, however, that it would be more appropriate to refer to the new procedures as regulatory development procedures rather than rule making procedures. Hence, the proposed regulation is hereby adopted subject to the following changes:

In the title and the first and third sentences the words "rule making," each time they occur, are changed to read "regulatory development."

Effective date. This regulation is effective upon publication in the FEDERAL REGISTER (4-11-72).

Approved: April 4, 1972.

By the direction of the Administrator.

[SEAL] FRED B. RHODES,
Deputy Administrator.

New § 1.12 is added; to read as follows:

§ 1.12 Public participation in regulatory development.

It is the policy of the Veterans' Administration to afford the public general notice, published in the FEDERAL REGISTER, of proposed regulatory development, and an opportunity to participate in the regulatory development in accordance with the provisions of the Administrative Procedure Act (APA). All written comments received will be available for public inspection. Exceptions to the policy of permitting public participation in the regulatory development may be authorized by the Administrator or one of his Deputies if adequately justified

V 37-70
APR 11 72
XUM

and concurred in by the General Counsel. Such exceptions, unless public comment is required by statute, may be recommended when (a) the proposed regulations consist of interpretative rules, general statements of policy, or rules of Veterans' Administration organization procedure or practice, or (b) when the Veterans' Administration for good cause finds (and incorporates the finding and a brief statement of reasons therefor in the rules issued) that notice and public procedure thereon are impracticable, unnecessary, or contrary to the public interest. (5 U.S.C. 553)

SUBCHAPTER E—PESTICIDES PROGRAMS

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

4-(Methylsulfonyl)-2,6-Dinitro-*N,N*-Dipropylaniline

A petition (PP 0F0981) was filed by Shell Chemical Co., Division of Shell Oil Co., 1700 K Street NW., Washington, DC 20006, in accordance with provisions of the Federal Food, Drug, and Cosmetic Act as amended (21 U.S.C. 346a), proposing establishment of tolerances for negligible residues of the herbicide 4-(methylsulfonyl)-2, 6-dinitro-*N,N*-dipropylaniline in or on the raw agricultural commodities carrots at 0.2 part per million and grapes, cucurbits, and root crop vegetables (except carrots) at 0.1 part per million.

Subsequently, the petitioner amended the petition by withdrawing the request for tolerances on carrots and root crop vegetables.

Prior to December 2, 1970, the Secretary of Agriculture certified that this pesticide chemical is useful for the purpose for which a tolerance is being established, and the Fish and Wildlife Service, Department of the Interior, stated that it has no objection to the proposed tolerance.

Part 120, Chapter I, Title 21 was redesignated Part 420 and transferred to Chapter III (36 F.R. 424). Subsequently, Part 420, Chapter III, Title 21 was redesignated Part 180 and transferred to Subchapter E, Chapter I, Title 40 (36 F.R. 22369).

Based on consideration given data submitted in the petition and other relevant material, it is concluded that:

1. The proposed uses are not reasonably expected to result in residues of the pesticide in eggs, meat, milk, and poultry. The uses are classified in the category specified in § 180.6(a)(3).

2. The tolerances established by this order will protect the public health.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2)), the authority transferred to the Administrator of the Environmental Protection Agency (35 F.R. 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticides Programs (36 F.R. 9038), § 180.237 is revised to read as follows:

§ 180.237 4-(Methylsulfonyl)-2,6-dinitro-*N,N*-dipropylaniline; tolerances for residues.

Tolerances are established for negligible residues of the herbicide 4-(methylsulfonyl) - 2,6-dinitro-*N,N*-dipropylaniline in or on the raw agricultural commodities broccoli, brussels sprouts, cabbage, cauliflower, cottonseed, cucurbits, forage legumes, fruiting vegetables, grapes, peanuts, safflower seed, seed, and pod vegetables, and soybeans (dry form) at 0.1 part per million.

Any person who will be adversely affected by the foregoing order may at any time within 30 days after its date of publication in the FEDERAL REGISTER file with the Objections Clerk, Environmental Protection Agency, Room 3175, South Agriculture Building, 12th Street and Independence Avenue SW., Washington, DC 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on its date of publication in the FEDERAL REGISTER (4-11-72).

(Sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2))

Dated: April 5, 1972.

WILLIAM M. UPHOLT,
Deputy Assistant Administrator for Pesticides Programs.

[FR Doc.72-5476 Filed 4-10-72;8:48 am]

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Methanearsonic Acid

A petition (PP 2F1181) was filed by the Ansul Co., Marinette, Wis. 54143, in accordance with provisions of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a), proposing establishment of a tolerance for negligible residues of the herbicide methanearsonic acid (calculated as As_2O_3) in or on the raw agricultural commodity citrus fruit at 0.35 part per million resulting from application of the disodium and monosodium salts of methanearsonic acid.

Part 120, Chapter I, Title 21 was redesignated Part 420 and transferred to Chapter III (36 F.R. 424). Subsequently, Part 420, Chapter III, Title 21 was redesignated Part 180 and transferred to Subchapter E, Chapter I, Title 40 (36 F.R. 22369).

Based on consideration given data submitted in the petition and other relevant material, it is concluded that:

1. The compound is useful for the purpose for which the tolerance is being established.

2. The proposed usage is not reasonably expected to result in residues of the pesticide in eggs, meat, milk, and poultry. The usage is classified in the category specified in § 180.6(a)(3).

3. The tolerance established by this order is not a negligible level, but it will protect the public health.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346(d)(2)), the authority transferred to the Administrator of the Environmental Protection Agency (35 F.R. 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticides Programs (36 F.R. 9038), § 180.289 is revised to read as follows:

§ 180.289 Methanearsonic acid; tolerances for residues.

Tolerances are established for residues of the herbicide methanearsonic acid (calculated as As_2O_3) from application of the disodium and monosodium salts of methanearsonic acid in or on raw agricultural commodities as follows:

0.7 part per million in or on cottonseed.

0.35 part per million in or on citrus fruit.

Any person who will be adversely affected by the foregoing order may at any time within 30 days after its date of publication in the FEDERAL REGISTER file with the Objections Clerk, Environmental Protection Agency, Room 3175, South Agriculture Building, 12th Street and Independence Avenue SW., Washington, DC 20460, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof.

Effective date. This order shall become effective on its date of publication in the FEDERAL REGISTER (4-11-72).

(Sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2))

Dated: April 5, 1972.

WILLIAM M. UPHOLT,
Deputy Assistant Administrator for Pesticides Programs.

Title 43—PUBLIC LANDS: INTERIOR

Chapter II—Bureau of Land Management, Department of the Interior

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 5197]

[Idaho 3844]

IDAHO

Revocation of National Forest Administrative Site Withdrawals

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is ordered as follows:

1. The departmental orders of December 30, 1907, and March 16, 1908, withdrawing national forest lands as administrative sites, are hereby revoked so far as they affect the following described lands:

CACHE NATIONAL FOREST

BOISE MERIDIAN

Green Basin Administrative Site

T. 14 S., R. 42 E.,
Sec. 32, an area described by metes and bounds in the S½NE¼ and N½SE¼, as shown on a plat on file in the Idaho State Office of the Bureau of Land Management.

The area described contains approximately 67.1 acres in Bear Lake County.

TARGHEE NATIONAL FOREST

Coal Kiln Administrative Site

T. 11 N., R. 27 E. (Protracted Survey),
Sec. 1, SW¼NE¼.

The area described contains 40 acres in Lemhi County.

2. At 10 a.m. on May 11, 1972, the lands shall be open to such forms of disposition as may by law be made of national forest lands.

HARRISON LOESCH,
Assistant Secretary of the Interior.

APRIL 5, 1972.

[FR Doc.72-5452 Filed 4-10-72;8:46 am]

[Public Land Order 5198]

[Wyoming 31006]

WYOMING

Partial Revocation of Stock Driveway Withdrawal

By virtue of the authority contained in section 10 of the Act of December 29, 1916, 39 Stat. 865, as amended, 43 U.S.C. sec. 300 (1970), it is ordered as follows:

1. The departmental order of March 18, 1920, creating Stock Driveway Withdrawal No. 128 (Wyoming No. 13), is hereby revoked so far as it affects the following described land:

SIXTH PRINCIPAL MERIDIAN

T. 39 N., R. 90 W.,
Sec. 23, SE¼SE¼SW¼SW¼.

The area described contains 2.5 acres in Fremont County.

The land lies some 3 miles northeast of Lost Cabin, Wyo. The terrain is flat to gently rolling at a mean elevation of 5,600 feet. Soils are a mixture of sand, silt, and clay on limey shales. Vegetation is confined to sagebrush, assorted short grasses, weeds, and semidesert type shrubs.

2. At 10 a.m. on May 11, 1972, the land shall be open to the operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received at or prior to 10 a.m. on May 11, 1972, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

The land has been and continues to be open to applications and offers under the mineral leasing laws, and to location under the U.S. mining laws.

Inquiries concerning the land should be addressed to the Chief, Branch of Lands and Minerals Operations, Bureau of Land Management, Cheyenne, Wyo.

HARRISON LOESCH,
Assistant Secretary of the Interior.

APRIL 5, 1972.

Title 49—TRANSPORTATION

Chapter X—Interstate Commerce Commission

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[S.O. 1074, Amdt. 4]

PART 1033—CAR SERVICE

Union Pacific Railroad Co. Authorized To Operate Over Certain Trackage of Burlington Northern Inc.

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 29th day of March 1972.

Upon further consideration of Service Order No. 1074 (36 F.R. 12225, 25424; 37 F.R. 1046, 4429), and good cause appearing therefor:

It is ordered, That § 1033.1074 *Service Order No. 1074* (Union Pacific Railroad Co. authorized to operate over certain trackage of Burlington Northern Inc.) be, and it is hereby, amended by substituting the following paragraph (e) for paragraph (e) thereof:

(e) *Expiration date.* This order shall expire at 11:59 p.m., April 30, 1972, unless otherwise modified, changed, or suspended by order of this Commission.

Effective date. This amendment shall become effective at 11:59 p.m., March 31, 1972.

(Secs. 1, 12, 15 and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies secs. 1(10-17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10-17), 15(4), and 17(2))

It is further ordered, That copies of this amendment shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.72-5525 Filed 4-10-72;8:52 am]

[Ex Parte MC-19 (Sub. 15)]

PART 1056—TRANSPORTATION OF HOUSEHOLD GOODS IN INTERSTATE OR FOREIGN COMMERCE

Practices of Motor Common Carriers of Household Goods; Reservation of Vehicle Space by Shippers

Order. At a general session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 28th day of February 1971.

It appearing, that on the Commission's own motion a rule making proceeding was initiated on June 17, 1971 (36 F.R. 11671), to determine whether it would be in the public interest to modify and revise the Commission's regulations applicable to the motor transportation of household goods so as to regulate or prohibit estimates and charges based on space reservation for a portion of a vehicle.

It further appearing, that investigation of the matters and things involved in these proceedings has been made and that the Commission has made and filed its report herein containing its findings of facts and conclusions thereon, which report is hereby referred to and made a part hereof;

It is ordered, That §§ 1056.7 and 1056.8, and 1056.12(b), of Part 1056 of Chapter X of Title 49 of the Code of Federal Regulations, Transportation of Household Goods in Interstate or Foreign Commerce, be, and they are hereby, modified and revised in the following manner.

1. Amend 49 CFR 1056.3 by adding paragraph (d) to read:

V 37-70 APR 11 72 XUM

§ 1056.3 **Accessorial or terminal services; tariffs providing therefor; containers, packing, and unpacking charges.**

* * * * *

(d) *Estimates and charges based on space reservation for a portion of a vehicle prohibited.* Carrier estimates and charges made in compliance with this subsection shall not be based upon specific reservation by a shipper of a portion of the capacity of a vehicle. Each motor common carrier of household goods shall file with the Regional Office of the Interstate Commerce Commission in the region in which the carrier maintains its principal office, a quarterly report, on a report form prescribed by the Commission, of all instances during the reporting period in which the carrier split or divided tendered shipments weighing less than 10,000 pounds, for transportation (including pickup or delivery) on two or more vehicles. The report shall contain the total number of shipments delivered by the carrier (on a monthly basis), and the total number of such split shipments delivered by the carrier (on a monthly basis), as well as the bill of lading number and the vehicle-load manifest number for each such split shipment.

§ 1056.7 [Amended]

2. Revise 49 CFR 1056.7, *Summary of Information for Shippers of Household Goods*, the chapter entitled "How Do I Know the Weight of My Shipment?", by adding the following paragraph after the last paragraph:

You are entitled to have your shipment transported without reserving space on a moving van. A carrier's estimates and charges may not be based on the reservation of a portion of the space of the moving van. It may sometimes be necessary for a mover to loan part of your shipment onto one partially loaded vehicle and the remaining part of your shipment onto another partially loaded vehicle in order to use vehicle space with the maximum efficiency. The carrier is required to report such instances to the Commission where the total weight of your shipment does not exceed 10,000 pounds.

3. Amend 49 CFR 1056.12(b) by adding after the last sentence the following:

§ 1056.12 **Reasonable dispatch.**

* * * * *

(b) * * * Shipper is entitled to have his shipment transported without reserving specific space in a vehicle. Estimates or charges based on space reservation for a portion of a vehicle are prohibited.

* * * * *

It is further ordered, That the amendments specified in the next preceding paragraphs be, and they are hereby, prescribed to become effective April 28, 1972, and to apply only on household goods removed from the shipper's premises on and after the said effective date.

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy thereof in the Office of the Secretary of the Commission at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.72-5522 Filed 4-10-72;8:51 am]

SUBCHAPTER B—PRACTICE AND PROCEDURE

[Ex Parte 275]

PART 1115—ISSUANCE OF SECURITIES, ASSUMPTION OF OBLIGATIONS AND FILING OF CERTIFICATES AND REPORTS

Expanded Definition of Term "Securities"

ORDER. At a general session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 22d day of March 1972.

It appearing, that the Commission, on the date hereof, has made and filed its report in this proceeding setting forth its conclusions and findings and its reasons therefor, which report is hereby referred to and made a part hereof; and

It further appearing, that since the proposed amendments to existing regulations relate to matters of practice and procedure resulting from the herein proceeding, further notice and public proceedings under 5 U.S.C. 533 are not necessary and good cause exists for making the amendments effective within 60 days after publication thereof in the FEDERAL REGISTER:

It is ordered, that Part 1115 of Subchapter B of Chapter X of Title 49 of the Code of Federal Regulations be, and it is hereby, amended by adding the following to Form BF-6, referred to in § 1115.1:

Item 1(c). A statement clearly outlining the measures taken by a carrier, and its subsidiaries or affiliates, to insure that compliance with section 10 of the Clayton Antitrust Act (15 U.S.C. 20) has been achieved with respect to the proposed financing and all nonsecurity financing entered into in the current year of the application and the 2 previous calendar years.

Item 2(d). Applicant shall file a list of the amounts, terms, and purposes of all nonsecurity financing for the current year and 2 previous calendar years, by separate category, including, but not limited to, conditional sale contracts, chattel mortgages, security agreements, mortgages, deeds of trust, loan agreements in the nature of standby credit agreements, credit agreements, and advances.

The terms of each category of nonsecurity financing shall include the interest rate, terms of repayment, collateral pledged as security therefor, material restrictions of such arrangements, as well as detailed breakdown as to the use of the proceeds or credit thus obtained, specifically identifying uses for noncarrier purposes.

Item 2(e). Applicant shall file the following:

(i) Consolidated balance sheet and a consolidated income statement for applicant and its subsidiaries, showing intercompany eliminations.

(ii) A balance sheet and income statement for each of applicant's subsidiaries, or if this is not possible, a statement listing the annual net income and stockholders' equity (net worth) of each of the subsidiaries.

(iii) Applicant's pro forma income statement showing its forecasted revenues, expenses, and net income for the 12 months following the application date.

(iv) Applicant's cash flow statement for the 12 months preceding the filing of the application and its forecasted cash flow statement for the 12 months subsequent to such filing. These statements should show opening cash on hand, receipts by categories, disbursements by items, and cash balance at the end of the period, with a breakdown of funds flowing to and from carrier subsidiaries.

It is further ordered, That this order shall become effective 60 days after publication in the FEDERAL REGISTER;

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy of this notice in the Office of the Secretary of this Commission at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

Title 50—WILDLIFE AND FISHERIES

Chapter I—Bureau of Sport Fisheries and Wildlife, Fish and Wildlife Service, Department of the Interior

PART 33—SPORT FISHING

J. Clark Salyer National Wildlife Refuge, N. Dak.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER (4-11-72).

§ 33.5 **Special regulations; sport fishing; for individual wildlife refuge areas.**

NORTH DAKOTA

J. CLARK SALYER NATIONAL WILDLIFE REFUGE

Sport fishing on the J. Clark Salyer National Wildlife Refuge, N. Dak., is permitted only on the areas designated by signs as open to fishing. These open areas, comprising 1,000 acres or 9 percent of the total water area of the refuge, are delineated on a map and described in a leaflet available at the refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, Federal Building, Fort Snelling, Twin Cities, Minn. 55111. Sport fishing shall be in accordance with all applicable State regulations subject to the following special condition:

(1) The open season for sport fishing on the refuge extends from May 6, 1972, through September 14, 1972, daylight hours only. The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Part 33, and are effective through September 14, 1972.

ROBERT C. FIELDS,
Refuge Manager, J. Clark Salyer National Wildlife Refuge, Upham, N. Dak.

APRIL 3, 1972.

[FR Doc.72-5458 Filed 4-10-72;8:46 am]

PART 33—SPORT FISHING

Rice Lake National Wildlife Refuge, Minn.

The following special regulation is effective on date of publication in the FEDERAL REGISTER (4-11-72).

§ 33.5 **Special regulations; sport fishing; for individual wildlife refuge areas.**

MINNESOTA

RICE LAKE NATIONAL WILDLIFE REFUGE

Sport fishing on the Rice Lake National Wildlife Refuge, Minn., is permitted only on the area designated by signs as open to fishing. This posted area comprising 50 acres is delineated on a map available at the refuge headquarters and from the office of the Regional Director, Bureau of Sport Fisheries and Wildlife, Federal Building, Fort Snelling, Minneapolis, Minn. 55111. Sport fishing shall be in accordance with all applicable State regulations subject to the following special conditions:

(1) The open season for sport fishing on the refuge extends from May 13, 1972, through September 30, 1972, during daylight hours only.

(2) The use of motors on boats is not permitted.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife areas generally which are set forth in Title 50, Part 33, and are effective through September 30, 1972.

CARL E. POSPICHAL,
Refuge Manager, Rice Lake National Wildlife Refuge, McGregor, Minn. 55760.

Proposed Rule Making

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR Part 1]

INCOME TAX

Certain Corporate Reorganizations

Notice is hereby given that the regulations proposed to be prescribed under sections 358, 362, and 368 of the Internal Revenue Code of 1954, which were published in tentative form with a notice of proposed rule making in the FEDERAL REGISTER for April 23, 1968 (33 F.R. 6163), are withdrawn.

Further, notice is hereby given that the regulations set forth in tentative form below, are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing, preferably in six copies, to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224, by May 11, 1972. Any written comments or suggestions not specifically designated as confidential in accordance with 26 CFR 601.601(b) may be inspected by any person upon request. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Commissioner by May 11, 1972. In such case, a public hearing will be held, and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER, unless the person or persons who have requested a hearing withdraw their requests for a hearing before notice of the hearing has been filed with the Office of the Federal Register. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

[SEAL] JOHNNIE M. WALTERS,
Commissioner of Internal Revenue.

In order to conform the Income Tax Regulations (26 CFR Part 1) to section 218 of the Revenue Act of 1964 (78 Stat. 57) and the Act of October 22, 1968 (82 Stat. 1310), such regulations are amended as follows:

PARAGRAPH 1. Section 1.358 is amended by revising subsection (e) of section 358 and the historical note to read as follows:

§ 1.358 Statutory provisions; basis to distributees.

Sec. 358. *Basis to distributees.* • • •

(e) *Exception.* This section shall not apply to property acquired by a corporation by the exchange of its stock or securities (or the stock or securities of a corporation which is in control of the acquiring corporation) as consideration in whole or in part for the transfer of the property to it.

[Sec. 358 as amended by sec. 21, Technical Amendments Act 1958 (72 Stat. 1620); sec. 2(a), Act of Oct. 22, 1968 (Public Law 90-621, 82 Stat. 1311)]

PAR. 2. Section 1.358-4 is amended to read as follows:

§ 1.358-4 Exceptions.

(a) *Plan of reorganization adopted after October 22, 1968.* In the case of a plan of reorganization adopted after October 22, 1968, section 358 does not apply in determining the basis of property acquired by a corporation in connection with such reorganization by the exchange of its stock or securities (or by the exchange of stock or securities of a corporation which is in control of the acquiring corporation) as the consideration in whole or in part for the transfer of the property to it. See section 362 and the regulations pertaining to that section for rules relating to basis to corporations of property acquired in such cases.

(b) *Plan of reorganization adopted before October 23, 1968.* In the case of a plan of reorganization adopted before October 23, 1968, section 358 does not apply in determining the basis of property acquired by a corporation in connection with such reorganization by the issuance of stock or securities of such corporation (or by the issuance of stock or securities of another corporation which is in control of such corporation) as the consideration in whole or in part for the transfer of the property to it. The term "issuance of stock or securities" includes any transfer of stock or securities, including stock or securities which were purchased or were acquired as a contribution to capital. See section 362 and the regulations pertaining to that section for rules relating to basis to corporations of property acquired in such cases.

PAR. 3. Section 1.362 is amended by revising subsection (b) of section 362 and by adding a historical note to read as follows:

§ 1.362 Statutory provisions; basis to corporations.

Sec. 362. *Basis to corporations.* • • •

(b) *Transfers to corporations.* If property was acquired by a corporation in connection with a reorganization to which this part applies, then the basis shall be the same as it would be in the hands of the transferor, increased in the amount of gain recognized to the transferor on such transfer. This subsection shall not apply if the property acquired consists of stock or securities in a corporation a party to the reorganization, unless acquired by the exchange of stock or securities of the transferee (or of a corporation which is in control of the transferee) as the consideration in whole or in part for the transfer.

• • • • • •

[Sec. 362 as amended by sec. 2. (b), Act of Oct. 22, 1968 (Public Law 90-621, 82 Stat. 1311)]

PAR. 4. Section 1.362-1 is amended to read as follows:

§ 1.362-1 Basis to corporations.

(a) *In general.* Section 362 provides, as a general rule, that if property was acquired on or after June 22, 1954, by a corporation (1) in connection with a transaction to which section 351 (relating to transfer of property to corporation controlled by transferor) applies, (2) as paid-in surplus or as a contribution to capital, or (3) in connection with a reorganization to which Part III, subchapter C, Chapter 1 of the Code applies, then the basis shall be the same as it would be in the hands of the transferor, increased in the amount of gain recognized to the transferor on such transfer. (See also § 1.362-2.)

(b) *Exceptions.* (1) In the case of a plan of reorganization adopted after October 22, 1968, section 362 does not apply if the property acquired in connection with such reorganization consists of stock or securities in a corporation a party to the reorganization, unless acquired by the exchange of stock or securities of the transferee (or of a corporation which is in control of the transferee) as the consideration in whole or in part for the transfer.

(2) In the case of a plan of reorganization adopted before October 23, 1968, section 362 does not apply if the property acquired in connection with such reorganization consists of stock or securities in a corporation a party to the reorganization, unless acquired by the issuance of stock or securities of the transferee (or, in the case of transactions occurring after December 31, 1963, of a corporation which is in control of the transferee) as the consideration in whole or in part for the transfer. The term "issuance of stock or securities" includes any transfer of stock or securities, including stock or securities which were purchased or were acquired as a contribution to capital.

PAR. 5. Section 1.368 is amended by revising section 368(a)(1)(B) and (2)(C), by adding a new section 368(a)(2)(D), by revising section 368(b), and by adding a historical note. The revised and added provisions read as follows:

§ 1.368 Statutory provisions; definitions relating to corporation reorganizations.

Sec. 368. *Definitions relating to corporate reorganizations*—(a) *Reorganization*—(1) *In general.* • • •

(B) The acquisition by one corporation, in exchange solely for all or a part of its voting stock (or in exchange solely for all or a part of the voting stock of a corporation which is in control of the acquiring corporation), of stock of another corporation if, immediately after the acquisition, the acquiring corporation has control of such other corporation (whether or not such acquiring corporation had control immediately before the acquisition);

• • • • • •

(2) *Special rules relating to paragraph (1).* • • •

(C) *Transfers of assets or stock to subsidiaries in certain paragraph (1)(A), (1)(B), and (1)(C) cases.* A transaction otherwise qualifying under paragraph (1)(A), (1)(B), or (1)(C) shall not be disqualified by reason of the fact that part or all of the assets or stock which were acquired in the transaction are transferred to a corporation controlled by the corporation acquiring such assets or stock.

(D) *Statutory merger using stock of controlling corporation.* The acquisition by one corporation, in exchange for stock of a corporation (referred to in this subparagraph as "controlling corporation") which is in control of the acquiring corporation, of substantially all of the properties of another corporation which in the transaction is merged into the acquiring corporation shall not disqualify a transaction under paragraph (1)(A) if (i) such transaction would have qualified under paragraph (1)(A) if the merger had been into the controlling corporation, and (ii) no stock of the acquiring corporation is used in the transaction.

(b) *Party to a reorganization.* For purposes of this part, the term "a party to a reorganization" includes—

(1) A corporation resulting from a reorganization, and

(2) Both corporations, in the case of a reorganization resulting from the acquisition by one corporation of stock or properties of another.

In the case of a reorganization qualifying under paragraph (1)(B) or (1)(C) of subsection (a), if the stock exchanged for stock or properties is stock of a corporation which is in control of the acquiring corporation, the term "a party to a reorganization" includes the corporation so controlling the acquiring corporation. In the case of a reorganization qualifying under paragraph (1)(A), (1)(B), or (1)(C) of subsection (a) by reason of paragraph (2)(C) of subsection (a), the term "a party to a reorganization" includes the corporation controlling the corporation to which the acquired assets or stock are transferred. In the case of a reorganization qualifying under paragraph (1)(A) of subsection (a) by reason of paragraph (2)(D) of that subsection, the term "a party to a reorganization" includes the controlling corporation referred to in such paragraph (2)(D).

• • • • • •

[Sec. 368 as amended by sec. 218, Rev. Act 1964 (78 Stat. 57); sec. 1, Act of Oct. 22, 1968 (Public Law 90-621, 82 Stat. 1310)]

PAR. 6. Paragraphs (b) and (c) of § 1.368-2 are revised to read as follows:

§ 1.368-2 Definition of terms.

• • • • • •

(b) (1) In order to qualify as a reorganization under section 368(a)(1)(A) the transaction must be a merger or consolidation effected pursuant to the corporation laws of the United States or a State or territory, or the District of Columbia.

(2) In order for the transaction to qualify under section 368(a)(1)(A) by reason of the application of section 368(a)(2)(D), one corporation (the acquiring corporation) must acquire substantially all of the properties of another corporation (the acquired corporation) partly or entirely in exchange for stock of a corporation which is in control of the acquiring corporation (the controlling corporation), provided that (i) the transaction would have qualified under section 368(a)(1)(A) if the merger had been into the controlling corporation, and (ii) no stock of the acquiring corporation is used in the transaction. The foregoing test of whether the transaction would have qualified under section 368(a)(1)(A) if the merger had been into the controlling corporation means that the general requirements of a reorganization under section 368(a)(1)(A) (such as a business purpose, continuity of business enterprise, and continuity of interest) must be met in addition to the special requirements of section 368(a)(2)(D). Under this test, it is not relevant whether the merger into the controlling corporation could have been effected pursuant to State or Federal corporation law. The term "substantially all" has the same meaning as it has in section 368(a)(1)(C). Although no stock of the acquiring corporation can be used in the transaction, there is no prohibition (other than the continuity of interest requirement) against using other property, such as cash or securities, of either the acquiring corporation or the parent or both. In addition, the controlling corporation may assume liabilities of the acquired corporation without disqualifying the transaction under section 368(a)(2)(D). For example, if the controlling corporation agrees to substitute its stock for stock of the acquired corporation under an outstanding employee stock option agreement, this assumption of liability will not prevent the transaction from qualifying as a reorganization under section 368(a)(2)(D) and the assumption of liability is not treated as money or other property for purposes of section 361(b). Section 368(a)(2)(D) applies whether or not the controlling corporation (or the acquiring corporation) is formed immediately before the merger, in anticipation of the merger, or after preliminary steps have been taken to merge directly into the controlling corporation. Section 368(a)(2)(D) applies only to statutory mergers occurring after October 22, 1968.

(c) In order to qualify as a "reorganization" under section 368(a)(1)(B), the acquisition by the acquiring corporation of stock of another corporation must be in exchange solely for all or a part of the voting stock of the acquiring corporation (or, in the case of transactions occurring after December 31, 1963, solely for all or a part of the voting stock of a corporation which is in control of the acquiring corporation), and the acquiring corporation must be in control of the other corporation immediately after the transaction. If, for example, corporation X in one transaction exchanges nonvoting preferred stock or bonds in addition to all or a part of its voting stock in the acquisition of stock of corporation Y, the transaction is not a reorganization under section 368(a)(1)(B). Nor is a transaction a reorganization described in section 368(a)(1)(B) if stock is acquired in exchange for voting stock both of the acquiring corporation and of a corporation which is in control of the acquiring corporation. The acquisition of stock of another corporation by the acquiring corporation solely for its voting stock (or solely for voting stock of a corporation which is in control of the acquiring corporation) is permitted tax free even though the acquiring corporation already owns some of the stock of the other corporation. Such an acquisition is permitted tax free in a single transaction or in a series of transactions taking place over a relatively short period of time such as 12 months. For example, corporation A purchased 30 percent of the common stock of corporation W (the only class of stock outstanding) for cash in 1939. On March 1, 1955, corporation A offers to exchange its own voting stock for all the stock of corporation W tendered within 6 months from the date of the offer. Within the 6-months' period corporation A acquires an additional 60 percent of stock of corporation W solely for its own voting stock, so that it owns 90 percent of the stock of corporation W. No gain or loss is recognized with respect to the exchanges of stock of corporation A for stock of corporation W. For this purpose, it is immaterial whether such exchanges occurred before corporation A acquired control (80 percent) of corporation W or after such control was acquired. If corporation A had acquired 80 percent of the stock of corporation W for cash in 1939, it could likewise acquire some or all of the remainder of such stock solely in exchange for its own voting stock without recognition of gain or loss.

INSPECTION AND CERTIFICATION OF FISHERY PRODUCTS

Fees and Charges

APRIL 5, 1972.

Notice is hereby given that pursuant to the authority vested in the Secretary of Commerce by Reorganization Plan No. 4 of 1970 (35 F.R. 15627), it is proposed to amend certain sections of Part 260—Inspection and Certification pertaining to fees and charges. The intent of this proposal is to provide for reimbursement to the Department for all government costs attributable to the program for inspection and certification of fishery products. This proposal incorporates changes in the procedure relative to the treatment of rotation and reassignment costs of government personnel for the benefit of the government, and other additional costs attributable to the management of the Department within the legislative authority for conducting the program. These additional costs were not heretofore included in the rate structure.

Interested persons may submit written comments in regard to the proposed amendments to the regulations to the Director, National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Department of Commerce, Washington, D.C. 20235.

All relevant material received not later than 60 days after publication of this notice will be considered.

ROBERT M. WHITE,
Administrator.

ROBERT W. SCHONING,
Acting Director.

1. In § 260.70 paragraphs (b)(1) and (2) and (d)(2) are revised as follows:

§ 260.70 Schedule of fees.

• • • • •

(b) Unless otherwise provided in the regulations in this part, the fees to be charged and collected for any inspection service performed under the regulations in this part shall be based on the applicable rates specified in this section for the type of service performed.

(1) *Type I—Official establishment and product inspection—contract basis.*

	Per hour
Regular time	$13.80
Overtime	16.60
Sunday and Legal Holidays (2 hours minimum)	20.80

The contracting party shall be charged at an hourly rate of $13.80 per hour for regular time; $16.60 per hour for overtime in excess of 8 hours per shift per day; and $20.80 per hour for Sunday and national legal holidays for service performed by inspectors at official establishment(s) operating under Federal inspection. The contracting party shall be billed monthly for services rendered in accordance with contractual provisions at the rates prescribed in this section. At an official establishment designated in a contract, products also designated therein will be inspected during processing at the hourly rate for regular time, plus overtime, when appropriate. Products not designated in the contract will be inspected upon request on a lot inspection basis at lot inspection rates as prescribed in this section.

(2) *Type II—Lot inspection—Officially and unofficially drawn samples.*

	Per hour
Regular time	$17.30
Overtime	20.75
Sunday and Legal Holidays (2 hours minimum)	25.95
Minimum fee	13.00

For lot inspection services performed between the hours of 7 a.m. and 5 p.m.: Monday through Friday—$17.30 per hours;

For lot inspection services performed at times Monday through Friday other than 7 a.m. to 5 p.m., and on Saturdays (2 hours minimum)—$20.75 per hour;

For lot inspection services performed on Sunday and national legal holidays (2 hour minimum)—$25.95 per hour.

The minimum service fee to be charged and collected for inspection of any lot or lots of products requiring less than 1 hour shall be $13.00.

• • • • • •

(d) • • •

(2) Fees to be charged for any analysis performed at a government laboratory not specifically shown in this paragraph (d) will be based on the time required to perform such analysis at an hourly rate of $13.80.

• • • • •

Section 260.71 is revised as follows:

§ 260.71 Fee for inauguration of inspection service on a contract basis.

Prior to inauguration of inspection service, a fee of $17.50 per contract hour of inspection service will be charged and collected following completion of the final establishment survey and approval of it as an official establishment. The number of hours to which the fee for inauguration applies is the minimum number of man-hours of inspection per week determined in accordance with § 260.97(a).

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 51]

CANNED VEGETABLES OTHER THAN THOSE SPECIFICALLY REGULATED

Proposed Identity Standard for Use of Any Edible Organic Acid

Notice is given that a petition has been filed by the National Canners Association, Washington, D.C. 20036, proposing that the standard of identity for canned vegetables other than those specifically regulated (21 CFR 51.990) be amended to permit the use of any edible organic acid as an alternative to the acidifiers presently permitted. The proposal also provides for label declaration of the name of the edible organic acid used in all canned vegetables where acidification is provided for under the standard except for canned artichokes. As it concerns artichokes, the omission may have been due to an oversight. The Commissioner of Food and Drugs therefore proposes, on his own initiative, that the proposed labeling provision also apply to canned artichokes.

Grounds set forth in the petition in support of the proposal are that the proposed alternative acidifying agents are as effective (or more effective) and less expensive than the citric acid or vinegar presently permitted.

Accordingly, it is proposed that § 51.990 (21 CFR 51.990) be amended to provide for the use of any edible organic acid, with label declaration, as an alternative to the acidifiers presently permitted in canned vegetables other than those specifically regulated.

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 401, 701, 52 Stat. 1046, 1055, as amended 70 Stat. 919, 72 Stat. 948; 21 U.S.C. 341, 371) and in accordance with authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120), interested persons are invited to submit their views in writing (preferably in quintuplicate) regarding this proposal within 60 days after its date of FEDERAL REGISTER publication. Such views and comments should be addressed to the Hearing Clerk, Department of Health, Education, and Welfare, Room 6–88, 5600 Fishers Lane, Rockville, Md. 20852, and may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: March 22, 1972.

VIRGIL O. WODICKA,
Director, Bureau of Foods.

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 71-RM-29]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the description of the Bryce Canyon, Utah, transition area.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Division, Federal Aviation Administration, Park Hill Station, Post Office Box 7213, Denver, CO 80207.

All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the office of the Regional Counsel, Federal Aviation Administration, 10255 East 25th Avenue, Aurora, CO 80010.

A new public instrument approach procedure has been developed for the Bryce Canyon Airport, Bryce Canyon, Utah. Accordingly, it is necessary to alter the present Bryce Canyon, Utah, transition area to protect this approach procedure.

In consideration of the foregoing, the FAA proposes the following airspace action.

In § 71.181 (37 F.R. 2143) the description of the Bryce Canyon, Utah, transition area is amended to read as follows:

BRYCE CANYON, UTAH

That airspace extending upward from 700 feet above the surface within a 5-mile radius of Bryce Canyon Airport (latitude 37°42'00" N., longitude 112°09'30" W.) and within 2 miles each side of the Bryce Canyon, Utah VORTAC 085° radial, extending from the 5-mile radius area to the VORTAC; and that airspace extending upward from 1,200 feet above the surface within 8 miles southeast and 9½ miles northwest of the Bryce Canyon VORTAC 240° and 060° radials, extending from 18½ miles southwest to 13 miles northeast of the VORTAC.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Aurora, Colo., on April 3, 1972.

M. M. MARTIN,
Director, Rocky Mountain Region.

[14 CFR Part 71]

[Airspace Docket No. 72-GL-16]

CONTROL ZONE AND TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to alter the control zone at Carbondale, Ill., and alter the transition area at Marion, Ill.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Great Lakes Region, Federal Aviation Administration, 3166 Des Plaines Avenue, Des Plaines, IL 60018. All communications received within 45 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendments. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief.

Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposals contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 3166 Des Plaines Avenue, Des Plaines, IL 60018.

A new instrument approach procedure has been developed for the Southern Illinois Airport, Carbondale, Ill. Consequently, it is necessary to provide controlled airspace protection for aircraft executing this new approach procedure by altering the Carbondale, Ill. control zone and the Marion, Ill. transition area.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.171 (37 F.R. 2056), the following control zone is amended to read:

CARBONDALE, ILL.

Within a 5-mile radius of the Southern Illinois Airport (latitude 37°46'45" N., longitude 89°15'00" W.) and within 3 miles either side of the 010° bearing from the Southern Illinois Airport, extending from the 5-mile-radius zone to 8 miles north of the airport, and 3 miles either side of the 249° bearing from the airport extending from the 5-mile-radius zone to 8 miles southwest of the airport. This control zone is effective during the specific dates and times established in advance by the Notice to Airmen. The effective dates and times will thereafter be continuously published in the Airman's Information Manual.

In § 71.181 (37 F.R. 2143), the following transition area is amended to read:

MARION, ILL.

That airspace extending upward from 700 feet above the surface, bounded by a line beginning at latitude 37°53'40" N., longitude 88°48'35" W., thence west to latitude 37°56'25" N., longitude 89°02'40" W., thence west to latitude 37°58'45" N., longitude 89°20'25" W., thence south to latitude 37°48'30" N., longitude 89°23'50" W., thence south to latitude 37°17'00" N., longitude 89°25'25" W., thence southeast to latitude 37°41'50" N., longitude 89°22'45" W., thence southeast to latitude 37°32'50" N., longitude 88°59'00" W., thence northeast to latitude 37°42'35" N., longitude 88°52'15" W., thence north to the point of beginning; and that airspace extending upward from 1,200 feet above the surface 9.5 miles southeast of and 4.5 miles northwest of the 249° bearing from the Southern Illinois Airport (latitude 37°46'45" N., longitude 89°15'00" W.) extending from the the airport to 18.5 miles southwest, excluding that portion within the State of Illinois.

These amendments are proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Des Plaines, Ill., on March 22, 1972.

LYLE K. BROWN,
Director, Great Lakes Region.

[FR Doc.72-5469 Filed 4-10-72;8:47 am]

[14 CFR Part 71]

[Airspace Docket No. 72-SW-25]

CONTROL ZONE

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation regulations to alter the Galveston, Tex., control zone.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to Chief, Airspace and Procedures Branch, Southwest Region, Federal Aviation Administration, Post Office Box 1689, Fort Worth, TX 76101. All communications received within 15 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Tex. An informal docket will also be available for examination at the Office of the Chief, Air Traffic Division.

It is proposed to amend Part 71 of the Federal Aviation regulations as hereinafter set forth.

In § 71.171 (37 F.R. 2056), the Galveston, Tex., control zone is amended by deleting "Galveston VOR" and substituting "Galveston VORTAC," therefor and by adding "This control zone is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual."

V 37-70
APR 11 72
XUM

The Southwest Region has received authorization to reduce the hours of operation of the Galveston Flight Service Station from 24 hours to 16 hours daily.

One of the requirements for the designation or continuation of a control zone is that there be a federally certificated weather observer available to provide all hourly and special weather observations at the primary airport upon which the control zone is designated, i.e., Scholes Field. Weather observations for Scholes Field are now provided by qualified personnel of the Galveston Flight Service Station. When the operational hours of the flight service station facility are reduced from 24 to 16 hours daily, there will be a corresponding reduction in the effective hours of the Galveston control zone.

It is anticipated the new effective hours of the Galveston control zone will be from 0600–2200, local time, daily.

During the period the control zone will not be in effect, the Galveston, Tex., area will continue to be served by the existing Galveston, Tex., 700-foot transition area which will provide instrument approach capability. Weather information will also be provided by the Automatic Meteorological Observation Station (AMOS) and supplemental information provided by the downtown National Weather Service office.

A foreign exchange line will be provided from Galveston to the Houston Flight Service Station during the hours the Galveston Flight Service Station is closed, i.e., from 2200–0600 daily.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Forth Worth, Tex., on March 30, 1972.

R. V. REYNOLDS,
Acting Director, Southwest Region.

[FR Doc.72-5472 Filed 4-10-72;8:48 am]

[14 CFR Parts 71, 73]

[Airspace Docket No. 72-GL-17]

RESTRICTED AREA AND CONTINENTAL CONTROL AREA

Proposed Alteration

The Federal Aviation Administration (FAA) is considering amendments to Parts 71 and 73 of the Federal Aviation Regulations that would alter Restricted Area R-6901, Camp McCoy, Wis., by making minor changes to the boundaries, extending the time of designation, designating it as a joint-use restricted area, designating the airspace as a control area, and including it in the continental control area.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 3166 Des Plaines Avenue, Des Plaines, IL 60018. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendments. The proposals contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, DC 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The proposals contained in this docket would alter the Camp McCoy restricted area as follows:

R-6901 CAMP MCCOY, WIS.

Boundaries: Beginning at latitude 44°08' 40" N., longitude 90°44'00" W.; to latitude 44°08'40" N., longitude 90°40'22" W.; to latitude 44°09'36" N., longitude 90°40'22" W.; to latitude 44°09'36" N., longitude 90°36' 50" W.; to latitude 44°00'02" N., longitude 90°36'35" W.; to latitude 44°00'02" N., longitude 90°35'15" W.; to latitude 43°55'25" N., longitude 90°35'22" W.; to latitude 43°55'25" N., longitude 90°43'45" W.; to latitude 43°54'10" N., longitude 90°45'50" W.; to latitude 43°56'31" N., longitude 90°45'50" W.; to point of beginning.

Designated Altitudes: Surface to 20,000 feet MSL.

Time of Designation: Continuous.

Using Agency: Commanding Officer, Camp McCoy, Wis.

Controlling Agency: Federal Aviation Administration, Chicago ARTC Center.

The proposed changes have been requested by the Department of the Army to include several firing points within the restricted area and to provide for needed flexibility in operation of the ranges. Joint use would allow for release of the area for the transit of aircraft when not in use by the using agency.

Part 71 of the Federal Aviation regulations would be altered to designate the area as controlled airspace and include it in the continental control area in order to provide air traffic control services to instrument flight rule traffic transiting the area.

These amendments are proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on April 5, 1972.

H. B. HELSTROM,
Chief, Airspace and Air Traffic Rules Division.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Office of Assistant Secretary for Housing Production and Mortgage Credit—Federal Housing Commissioner [Federal Housing Administration]

[24 CFR Part 235]

[Docket No. R-72-178]

MORTGAGE INSURANCE AND ASSISTANCE PAYMENTS FOR HOME OWNERSHIP AND PROJECT REHABILITATION

Eligibility Requirements for Homes for Lower Income Families

Pursuant to sections 211 and 235 of the National Housing Act (the Act) (12 U.S.C. 1715b, 1715z) and the Secretary's delegation of authority (36 F.R. 5006), it is proposed to amend Part 235 of the regulations governing eligibility requirements of family units in a condominium project. The proposal will make mortgages on family units in existing condominium projects, constructed without mortgage insurance, eligible for section 235 insurance if the family unit mortgagor qualifies as a family occupying low-rent public housing and if the project meets such standards as the Commissioner may prescribe.

All interested persons are invited to submit written comments or suggestions in triplicate with respect to this proposal, on or before May 11, 1972, addressed to the Rules Docket Clerk, Office of the General Counsel, Department of Housing and Urban Development, Room 10256, 451 Seventh Street SW., Washington, DC 20410. A copy of each communication will be available for public inspection during regular business hours at the above address.

The proposed amendment is set out in full below.

In § 235.20 paragraph (a) is amended to read:

§ 235.20 Requirements for family unit in condominium.

* * * * *

(a) *Family unit eligibility.* Except where a project involves 11 or less units, the family unit must be located:

(1) In a project which has been financed with a mortgage which is or has been insured under any of the FHA multifamily housing programs other than sections 213(a)(1) and 213(a)(2) of the National Housing Act; or

(2) In an existing condominium project which meets such standards as the Commissioner may prescribe, if the mortgage qualifies as a family occupying low-rent public housing.

MONTHLY REPORT OF COST AND QUALITY OF FUELS FOR STEAM-ELECTRIC PLANT

Notice Denying Request for Extension of Time

APRIL 3, 1972.

On March 30, 1972, the Edison Electric Institute filed a request for an extension of time within which to file comments concerning the notice of proposed alternatives in rulemaking, issued at 37 F.R. 5509, March 9, 1972, in the above-designated matter.

Upon consideration, notice is hereby given that the request for an extension of time is denied.

KENNETH F. PLUMB,
Secretary.

ALLIED SURETY COMPANY

Surety Company Acceptable on Federal Bonds

A certificate of authority as an acceptable surety on Federal bonds has been issued by the Secretary of the Treasury to the following company under sections 6 to 13 of title 6 of the United States Code. An underwriting limitation of $41,000 has been established for the company.

Name of company, location of principal executive office, and State in which incorporated

Allied Surety Company,
Pittsburgh, Pennsylvania,
Pennsylvania.

Certificates of authority expire on June 30 each year, unless sooner revoked, and new certificates are issued on July 1 so long as the companies remain qualified (31 CFR Part 223). A list of qualified companies is published annually as of July 1 in Department Circular 570, with details as to underwriting limitations, areas in which licensed to transact fidelity and surety business and other information. Copies of the circular, when issued, may be obtained from the Treasury Department, Bureau of Accounts, Audit Staff, Washington, D.C. 20226.

Dated: April 5, 1972.

Internal Revenue Service

NOTICE OF GRANTING OF RELIEF

Notice is hereby given that pursuant to 18 U.S.C. 925(c) the following named persons have been granted relief from disabilities imposed by Federal laws with respect to the acquisition, transfer, receipt, shipment, or possession of firearms incurred by reason of their convictions of crimes punishable by imprisonment for a term exceeding 1 year.

It has been established to my satisfaction that the circumstances regarding the convictions and each applicant's record and reputation are such that the applicant will not be likely to act in a manner dangerous to public safety, and that the granting of the relief will not be contrary to the public safety.

Avery, Benny Eugene, 227 Garfield Street, Apartment H, Kansas City, MO, convicted on March 2, 1964, in the 7th Judicial Circuit Court, Liberty, Clay County, Mo.

Brandt, Alvin K., Box 44, Humboldt, SD, convicted on February 16, 1968, in the Circuit Court of Minnehaha County, S. Dak.

Barnes, Calvin V., 506 Cheatwood Avenue, Richmond, Va., convicted on September 18, 1956, and on February 19, 1957, in the Hustings Court of the city of Richmond, Va.

Barron, James, 32-11 146th Street, Flushing, NY, convicted on October 28, 1955, in the Nassau County Court, State of New York.

Bennett, George Larry, 4460 Plainfield Avenue, NE., Grand Rapids, MI, convicted on March 21, 1944, in the Superior Court of Grand Rapids, Mich.

Brown, William Edward, Sr., 2 Oak Lane, Mexico, MO, convicted on November 24, 1936, in the Circuit Court of Lafayette County, Mo.

Buffen, Cornell J., 17560 Appoline Street, Detroit, MI, convicted on April 4, 1957, in the Recorder's Court for the city of Detroit, Mich.

Byrd, Robert S., Route 2, Box 65, Mullins, S.C., convicted on March 19, 1954, in the Court of General Sessions, County of Marion, State of South Carolina.

Cain, Earl Thomas, 1040 North Lake Avenue, Pasadena, CA, convicted on October 21, 1952, in the U.S. District Court, Eastern District of Texas, Tyler Division.

Dams, Irving Carl, Star Route 1, Box 377, Iron Mountain, Mich., convicted on January 24, 1949, in the Circuit Court for the County of Dickinson, Iron Mountain, Mich.

Elliott, John H., 40 Jefferson Street, Milford, MA, convicted on April 25, 1945, in the Worcester County Superior Court, Worcester, Mass.

Felix, Raymond E., 15323 Kennebec, Southgate, MI, convicted on February 17, 1948, in the Hopkins County Circuit Court, Kentucky; on October 12, 1948, in the Oakland County Circuit Court, Michigan; on April 18, 1949, in the Boone County Circuit Court, Kentucky; and on May 14, 1951, in the Recorder's Court, Detroit, Mich.

Genacanyon, Peter, 9111 East Jefferson, Detroit, MI, convicted on June 26, 1945, in the District Court of the Sixteenth Judicial Circuit, in and for Denton County, Tex.

Gerhardt, Richard J., 112 Wahconah Street, Pittsfield, MA, convicted on January 3, 1930, in the Erie County Court, Buffalo, N.Y.

Gordon, Glenn M., 1704 Marion Avenue, Mattoon, IL, convicted on December 14, 1964, in the Circuit Court, Fifth Judicial Circuit for the State of Illinois, Charleston, Ill.

Grant, James N., Rural Route No. 2, Box 165, McDonald Road, Elgin, Ill., convicted on September 5, 1958, in the Franklin County Circuit Court, Benton, Ill.

Grover, Frank William, Sr., 15 West 537 Fillmore Street, Elmhurst, IL, convicted on May 5, 1951, in the Du Page County Circuit Court, Wheaton, Ill.

Hale; Floyd Ray 2813 Rosebud Lane, Fort Worth, TX, convicted on January 13, 1959, in the District Court, Tarrant County, Tex.

Hauskins, Thomas, Post Office Box 85, Jonesburg, MO, convicted on May 8, 1939, in the Bond County Circuit Court, Ill.

Heinrich, Michael, J., 7113 Milton Street, Detroit, MI, convicted on March 8, 1961, in the Recorder's Court for the city of Detroit, Mich.

Horvath, George A., 1 Beekman Place, New York, NY, convicted on October 8, 1971, in U.S. District Court for the Southern District of New York.

Huebner, George W., Butterfield Road, Rindge, N.H., convicted on July 16, 1954, in the Somerset County Court, N.J.

Larsen, Ronald L., 5835 North 28th Avenue, Omaha, NE, convicted on October 19, 1961, in the Douglas County, Nebraska, District Court.

Lester, Duane D., 2809 Southeast 8th Court, Des Moines, IA, convicted on December 17, 1957, in the Marion County, Iowa, District Court.

McKinley, James Allen, 13-B College Park Apartments, Camp Hill, PA, convicted on February 20, 1969, in the Court of Common Pleas in and for the County of Dauphin, Commonwealth of Pennsylvania.

DEPARTMENT OF COMMERCE

Bureau of International Commerce

[File No. 28(70)-23]

USZER JOSEF FISZMAN, AND U. J. FISZMAN, IMPORT-EXPORT FABRIKATION/GROSSHANDEL ALLER ART

Order Denying Export Privileges for an Indefinite Period

In the matter of Uszer Josef Fiszman, doing business as U. J. Fiszman, Import-Export Fabrikation/Grosshandel aller Art, Breitlacherstrasse 96, 6 Frankfurt/Main, Federal Republic of Germany, respondent.

The Director, Compliance Division, Office of Export Control, Bureau of International Commerce, U.S. Department of Commerce, has applied for an order denying to the above-named respondent all United States export privileges for an indefinite period because the said respondent, without good cause being shown, failed to furnish answers to interrogatories and failed to furnish certain records and other writings specifically requested. This application was made pursuant to § 388.15 of the Export Control Regulations (Title 15, Chapter III, Subchapter B, Code of Federal Regulations).

In accordance with the usual practice, the application for an Indefinite Denial Order was referred to the Compliance Commissioner, Bureau of International Commerce, who, after consideration of the evidence, has recommended that the application be granted. The report of the Compliance Commissioner and the evidence in support of the application have been considered.

The evidence presented shows that the respondent, Uszer Josef Fiszman, does business under the firm name and style of U. J. Fiszman, Import-Export, Fabrikation/Grosshandel aller Art, with a place of business in Frankfurt/Main, Federal Republic of Germany; that he is a dealer in radios, phonographs, semiconductor devices, and measuring instruments; that in August 1967 he ordered from a supplier in New York City a quantity of transistors that required a validated license for exportation from the United States; that notwithstanding respondent's knowledge of the licensing requirements, there is reason to believe that on his direction an agent of his came from Frankfurt, West Germany, to New York, took delivery of the transistors, and transported them to West Germany, without the required export license having been obtained. The Compliance Division is conducting an investigation into this transaction to ascertain the details of the respondent's role in the transaction, what disposition was made of the transistors in question, and whether there were violations of the Export Control Regulations.

It is impracticable to subpena the respondent, and relevant and material interrogatories relating to his participation in the above transaction and regarding disposition of the commodities in question were served on him pursuant to § 388.15 of the Export Control Regulations. The respondent also, pursuant to said section, was requested to furnish certain specific documents relating to said transaction. The respondent has failed to furnish responsive answers to said interrogatories or to furnish the documents requested, and he has not shown good cause for such failure. I find that an order denying export privileges to said respondent for an indefinite period may properly be entered under § 388.15 of the Export Control Regulations and that such an order is reasonably necessary to protect the public interest and to achieve effective enforcement of the Export Administration Act of 1969.

Accordingly, it is hereby ordered:

I. All outstanding validated export licenses in which respondent appears or participates, in any manner or capacity, are hereby revoked and shall be returned forthwith to the Bureau of International Commerce for cancellation. The term "respondent" as used in this order includes any firm name or trade style under which respondent does business including U. J. Fiszman, Import-Export, Fabrikation/Grosshandel aller Art.

II. The respondent is denied all privileges of participating, directly or indirectly, in any manner or capacity, in any transaction involving commodities or technical data exported from the United States, in whole or in part, or to be exported, or which are otherwise subject to the Export Control Regulations. Without limitation of the generality of the foregoing, participation prohibited in any such transaction, either in the United States or abroad, shall include participation, directly or indirectly, in any manner or capacity: (a) As a party or as a representative of a party to any validated export license application; (b) in the preparation or filing of any export license application or reexportation authorization, or any document to be submitted therewith; (c) in the obtaining or using of any validated or general export license or other export control document; (d) in the carrying on of negotiations with respect to, or in the receiving, ordering, buying, selling, delivering, storing, using, or disposing of any commodities or technical data in whole or in part, exported or to be exported from the United States; and (e) in the financing, forwarding, transporting, or other servicing of such commodities or technical data.

III. Such denial of export privileges shall extend not only to the respondent, but also to his agents, employees, representatives, and partners, and to any other person, firm, corporation, or business organization with which the respondent now or hereafter may be related by affiliation, ownership, control, position of responsibility, or other connection in the conduct of trade or services connected therewith.

IV. This order shall remain in effect until the respondent provides responsive answers, written information and documents in response to the interrogatories heretofore served upon him or gives adequate reasons for failure to do so, except insofar as this order may be amended or modified hereafter in accordance with the Export Control Regulations.

V. No person, firm, corporation, partnership, or other business organization, whether in the United States or elsewhere, without prior disclosure to and specific authorization from the Bureau of International Commerce, shall do any of the following acts, directly or indirectly, or carry on negotiations with respect thereto, in any manner or capacity, on behalf of or in any association with the respondent or any related party, or whereby the respondent or related party may obtain any benefit therefrom or have any interest or participation therein, directly or indirectly: (a) Apply for, obtain, transfer, or use any license, Shipper's Export Declaration, bill of lading, or other export control document relating to any exportation, reexportation, transshipment, or diversion of any commodity or technical data exported or to be exported from the United States, by, to, or for any such respondent or related party denied export privileges; or

V 37-70 APR 11 72 XUM

(b) order, buy, receive, use, sell, deliver, store, dispose of, forward, transport, finance, or otherwise service or participate in any exportation, reexportation, transshipment, or diversion of any commodity or technical data exported or to be exported from the United States.

VI. A copy of this order shall be served on respondent.

VII. In accordance with the provisions of § 388.15 of the Export Control Regulations, the respondent may move at any time to vacate or modify this Indefinite Denial Order by filing with the Compliance Commissioner, Bureau of International Commerce, U.S. Department of Commerce, Washington, D.C. 20230, an appropriate motion for relief, supported by substantial evidence, and may also request an oral hearing thereon, which, if requested shall be held before the Compliance Commissioner, at Washington D.C., at the earliest convenient date.

Dated: April 4, 1972.

This order shall become effective on April 11, 1972.

RAUER H. MEYER,
Director,
Office of Export Control.

[FR Doc.72-5403 Filed 4-10-72;8:45 am]

National Oceanic and Atmospheric Administration

PAMLICO SOUND, N.C.

Determination of Commercial Fishery Failure Due To Resource Disaster

Whereas, many individuals and firms in North Carolina are engaged in harvesting, processing, and marketing oysters to meet consumer demand; and

Whereas, oyster producing grounds of Pamlico Sound area have been an important contributing oyster resource having an area of 33,000 acres containing in excess of 50,000 bushels of harvestable oysters; and

Whereas, 700 or more fishermen are involved; and

Whereas, damage to the oyster crop resulting from winds and rains of Hurricane Ginger ranged from 20 percent to 70 percent mortality, averaging 30 percent to 35 percent for the marketable 3-inch and larger oysters with an immediate economic loss of about $80,000 to the oyster fishermen; and

Whereas, it is known that the damaged resource can be effectively and economically restored;

Now, therefore, as authorized representative of the Secretary of Commerce, I hereby determine that the foregoing circumstances constitute a commercial fishery failure due to a resource disaster arising from natural causes within the meaning of subsection 4(b) of the Commercial Fisheries Research and Development Act as amended. Pursuant to this determination, I hereby authorize the use of funds appropriated under the aforementioned Act to restore the damaged oyster resource of Pamlico Sound, N.C.

R. M. WHITE,
Administrator, National Oceanic and Atmospheric Administration.

APRIL 5, 1972.

DEPARTMENT OF TRANSPORTATION

Hazardous Materials Regulations Board

SPECIAL PERMITS ISSUED AND DENIED

APRIL 4, 1972.

Pursuant to Docket No. HM-1, Rule-making Procedures of the Hazardous Materials Regulations Board, issued May 22, 1968 (33 F.R. 8277) 49 CFR Part 170, following is a list of new DOT Special Permits upon which Board action was completed during March 1972:

Special permit No.	Issued to—Subject	Mode or modes of transportation
6584	Shippers registered with this Board to ship corrosive liquids for which DOT-34 polyethylene containers is prescribed, in a fused three-piece polyethylene container having metal chime bands.	Highway, Rail, Water.
6588	Shippers registered with this Board to ship fissile and large quantities of radioactive material in the Model FM-2A irradiated fuel shipping cask.	Highway, Rail, Water
6589	Shippers registered with this Board to ship oxygen and nitrogen mixture in a pressure vessel assembly consisting of stainless steel tubing in a double coil configuration.	Highway, Rail.
6592	Ashland Chemical Company, Dublin, Ohio to ship nitric acid, 42° Baume, in unlined, non-DOT specification portable tanks made of 316 ELC stainless steel.	Highway.
6593	Chevron Chemical Company, San Francisco, California to ship paraquat dichloride in DOT specification 6D cylindrical steel overpack with inside DOT Specification 2SL polyethylene container.	Highway, Rail, Water.
6594	Rocky Mountain Dental Products Company, Denver, Colorado, to ship various flammable liquids in minute quantities packed with other nonregulated commodities in kits complying with 49 CFR 173.24.	Highway, Rail, Water.
6596	PPG Industries, Pittsburgh, Pa., to ship certain liquid organic peroxides each in solution of 50% by weight dissolved in a mineral spirit solvent, packed as prescribed in 49 CFR 173.221(a) (3) and overpacked in the Masterbuilt Container.	Highway, Water.
6597	Radiation Service Associates, Dover, New Jersey, to make one shipment of special form radioactive material in lead-filled, right cylindrical weldment conforming to DOT Specification 55.	Highway.
6600	Shippers registered with this Board to ship certain flammable liquids in 1-gallon metal cans overpacked in fiberboard boxes complying with specification 12B except inner flaps gap and fill-in pieces are not required.	Highway, Rail, Water.
6601	Shippers registered with this Board to ship large quantities of radioactive materials in the Model LL-50-100 Shipping Cask System.	Highway.
6602	Shippers registered with this Board to ship bromine chloride in DOT Specification 106A500W tank cars or 106A500X tanks.	Highway, Rail.
6603	Shippers registered with this Board to ship methyl parathion mixtures, liquid containing not more than 50% methyl parathion in DOT Specification 106A300W tank cars.	Rail.
6604	PPG Industries, Pittsburgh, Pa., to make one shipment of vinyl chloride in Specification 112A340W tank car having safety relief valve overdue for retest.	Rail.
6605	Shippers registered with this Board to ship low specific activity radioactive material in the form of tritiated water in insulated, cryogenic-type cargo tanks.	Highway.
6606	Stauffer Chemical Company, Ardsley, N.Y., to ship diethyl chlorophosphate in DOT Specification 17C steel drum with inside 2SL polyethylene container.	Highway, Water.
6607	Bio-Lab, Inc., Decatur, Ga., to ship trichloroisocyanuric acid, dry, compressed into the shape of a cylinder, in two identical interlocking molded polystyrene half packs.	Highway.
6609	Shippers registered with this Board to ship anhydrous ammonia in AAR Specification 120A300W tank cars with bottom outlets effectively sealed and rendered inoperative.	Rail.

Following is a list of requests for special permits which were denied during March 1972:

Denied—Subject:

1. **Thiokol Chemical Corp., Longhorn Division, Marshall, Tex. to reinstate special permit to authorize shipment** of ammonium perchlorate in 74-cubic foot capacity aluminum bins.

ALAN I. ROBERTS,
Secretary.

[FR Doc.72-5385 Filed 4-10-72;8:45 am]

ATOMIC ENERGY COMMISSION

SAFETY GUIDES

Notice of Issuance and Availability

The Atomic Energy Commission has issued two new safety guides and a supplement to Safety Guide No. 11 which have been developed to provide guidance on the acceptability of specific safety-related features of water cooled nuclear powerplants.

A total of 23 of these guides has been completed since the Commission, on November 13, 1970, announced development of a series of these guides.

The primary purpose of the safety guides is to make available to the industry positions that have been developed by the Regulatory Staff and the Commission's Advisory Committee on Reactor Safeguards on safety isues. Although the safety guides are not regulatory requirements, they do specifically identify safety issues that should be considered in the design and in the evaluation of water cooled nuclear powerplants and describe a set of principles and specifications which will represent an acceptable solution to the Regulatory Staff and Advisory Committee on Reactor Safeguards on these issues. Their use by an applicant will expedite the licensing review process.

Titles of the new guides are:

Safety Guide No. 22—"Periodic Testing of Protection System Actuation Functions."

Safety Guide No. 23—"Onsite Meteorological Programs."

Supplement to Safety Guide No. 11—"Instrument Lines Penetrating Primary Reactor Containment—Backfitting Considerations."

Other safety guides currently being developed include the following:

Assumptions used for evaluating the potential radiological consequences of a fuel handling accident for boiling and pressurized water reactors.

Radioactive gas storage tank failure assumptions.

Reactor coolant pressure boundary leakage detection.

Quality assurance for design of nuclear powerplants.

Ultimate heat sink.

Quality standards for systems and components.

Seismic design classification for structures, systems, and components.

Reactor coolant pressure boundary pipe rupture and pipe whip.

Liquid radioactive waste accident assumptions.

Supplementary quality assurance criteria for operation.

Monitoring and reporting of environmental levels.

Physical independence of protection, engineered safety feature, and Class IE electric systems.

Quality assurance program requirements (design and construction).

Comments and suggestions for improvements in the guides are encouraged. Comments and requests for copies of the guides should be sent to the Director, Division of Reactor Standards, U.S. Atomic Energy Commission, Washington, D.C. 20545.

(5 U.S.C. 552(a))

Dated at Bethesda, Md., this 3d day of April 1972.

For the Atomic Energy Commission.

L. MANNING MUNTZING,
Director of Regulation.

[FR Doc.72-5444 Filed 4-10-72;8:45 am]

[Dockets Nos. 50-354, 50-355]

PUBLIC SERVICE ELECTRIC AND GAS CO.

Order for Prehearing Conference

In the matter of Public Service Electric and Gas Co. (Newbold Island Nuclear Generating Station Units 1 and 2), Dockets Nos. 50-354, 50-355.

The Atomic Safety and Licensing Board has convened two prehearing conferences in accordance with the rules of practice of the Commission in order to aid in the simplification and clarification of the issues and the contentions of persons seeking intervention, as well as to develop methods and plans for the presentation of evidence, including possible stipulations of facts, determination of number of witnesses intended to be presented, and other matters as will aid in the orderly disposition of this proceeding. The Board, after a review of written communications from the parties, has determined that a further and similar prehearing conference should be scheduled.

Wherefore, it is ordered, In accordance with the Atomic Energy Act, as amended, and the rules of practice of the Commission, and take notice that a prehearing conference in this proceeding shall convene at 9:30 a.m. on Thursday, April 27, 1972, in the Cultural Center Auditorium of the New Jersey State House Complex, West State Street, Trenton, N.J., and shall include as participants the parties and petitioners seeking intervention.

Issued: April 4, 1972, Germantown, Md.

ATOMIC SAFETY AND LICENSING BOARD.
SAMUEL W. JENSCH,
Chairman.

[Docket No. CP 69-261]

MICHIGAN WISCONSIN PIPE LINE CO. AND NATURAL GAS PIPELINE COMPANY OF AMERICA

Notice of Joint Petition To Amend; Correction

MARCH 30, 1972.

In the notice of joint petition to amend, issued March 22, 1972 and published in the FEDERAL REGISTER March 29, 1972 (37 F.R. 6426): #3 Line 3 and #4 Line 2, change "Northern" to "Natural".

KENNETH F. PLUMB,
Secretary.

[FR Doc.72-5454 Filed 4-10-72;8:46 am]

[Docket Nos. CI72-590]

PHILLIPS PETROLEUM CO.

Notice of Applications

APRIL 4, 1972.

Take notice that on March 20, 1972, Phillips Petroleum Co. (Applicant), Bartlesville, Okla. 74004, filed applications in Docket Nos. CI72-590 through CI72-598 pursuant to section 7(c) of the Natural Gas Act for certificates of public convenience and necessity authorizing sales for resale to El Paso Natural Gas Co. (El Paso) of natural gas in interstate commerce, all as more fully set forth in the applications which are on file with the Commission and open to public inspection.

Applicant proposes to sell and deliver to El Paso, pursuant to a surplus residue gas purchase contract dated March 1, 1972, residue gas, remaining at the various plants listed below after processing raw gas produced from properties developed by Applicant and connected to its gathering systems from and after March 1, 1972, and after processing raw gas purchased from other producers under any renewal or extension of an existing contract and under new contracts entered into and after November 1, 1971:

Docket	Plant	County, State
CI72-590	Goldsmith	Ector County, Tex.
CI72-591	Eunice	Lea County, N. Mex.
CI72-592	Lee	Do.
CI72-593	Hobbs	Do.
CI72-594	Lusk	Do.
CI72-596	Fullerton	Andrews County, Tex.
CI72-596	Crane	Crane County, Tex.
CI72-597	Ector	Ector County, Tex.
CI72-598	Wilson	Lee County, Tex.

Applicant currently sells and delivers residue natural gas to El Paso from the aforesaid plants. Applicant states that in order to assure an adequate supply of raw gas to El Paso, it has been necessary to enter into the new March 1, 1972 contract which provides for substantially higher residue gas prices in order to encourage the development of more gas producing properties and to compete against the intrastate market.

V 37-70
APR 11 72
XUM

Under the terms of the subject contract, the initial price of the residue gas will be 30 cents per Mcf at 14.65 p.s.i.a. subject to B.t.u. adjustment. The contract term is to end January 1, 1987.

Any person desiring to be heard or to make any protest with reference to said applications should on or before April 24, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, hearings will be held without further notice before the Commission on these applications if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificates is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that formal hearings are required, further notice of such hearings will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecesary for Applicant to appear or be represented at the hearings.

KENNETH F. PLUMB,
Secretary.

JOEL S. PRICE, TRUSTEE ET AL.

Notice of Applications for "Small Producer" Certificates [1]

APRIL 3, 1972.

Take notice that each of the applicants listed herein has filed an application pursuant to section 7(c) of the Natural Gas Act and § 157.40 of the regulations thereunder for a "small producer" certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce, all as more fully set forth in the applications which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before May 1, 1972, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-7717]

MINNESOTA POWER & LIGHT CO.

Notice of Application

APRIL 6, 1972.

Take notice that on March 14, 1972, Minnesota Power & Light Co. (Applicant) filed an application with the Federal Power Commission seeking an order pursuant to section 204 of the Federal Power Act authorizing the issuance of 400,000 shares of its common stock.

Applicant is incorporated under the laws of the State of Minnesota, with its principal place of business office at Duluth, Minn., and is engaged in the electric utility business within the State of Minnesota.

The common stock will be sold at competitive bidding in accordance with the Commission's regulations.

The proceeds from the sale of the common stock will be used to reduce an estimated $19 million in short-term borrowings and will finance, in part, the Applicant's construction program which is expected to require the expenditure of $46 million in 1972. This program includes $38 million for production facilities and $8 million for transmission, distribution and general plant purposes.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 19, 1972, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to the proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

CIVIL AERONAUTICS BOARD

[Docket No. 23486; Order 72-3-33]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Fare Matters

Issued under delegated authority March 13, 1972.

Agreements have been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations between various air carriers, foreign air carriers, and other carriers embodied in the resolutions of Joint Conferences 1-2 and 1-2-3 of the International Air Transport Association (IATA).

The subject portions of the agreements, as designated by the above-referenced CAB agreement numbers, were adopted at January 1972 meetings in Geneva.

The instant agreements encompass certain resolutions dealing with Midland South Atlantic fare matters which, to the extent they apply in air transportation as defined by the Act, do not affect basic fare levels. Rather, they involve administrative, technical, and procedural matters which, by our action herein, we propose to approve. In accordance with past policy, we will disclaim jurisdiction with respect to the remaining portions of the subject agreements inasmuch as they embody resolutions not applicable in air transportation and governing special fares which may not be combined with fares in air transportation.

Pursuant to authority duly delegated by the Board in the Board's regulations, 14 CFR 385.14:

1. It is not found, on a tentative basis, that the following resolutions, which are incorporated in Agreement CAB 2263 [1] as indicated, are adverse to the public interest or in violation of the Act:

[1] Agreement CAB 22663, R-292 through R-296; R-299; R-302; R-303; R-307 through R-311; R-313; R-315; R-318; R-319; R-321.

Agreement CAB 22663	IATA No.	Title	Application
R-292	001b	Mid Atlantic Special Effectiveness Resolution (Tie-In)	1/2 (M. Atl.).
R-293	001pp	Special Mid Atlantic Escape Resolution (New)	1/2 (M. Atl.).
R-294	002	Standard Revalidation Resolution	1/2 (M. Atl.). 1/2/3 (M. Atl.).
R-295	003	Standard Reission Resolution	1/2 (M. Atl.). 1/2/3 (M. Atl.).
R-296	011a	Mileage Manual Non-IATA Sectors (Amending)	1/2 (M. Atl.). 1/2/3 (M. Atl.).
R-299	050	First Class Conditions of Service (Readopting and Amending)	1/2 (M. Atl.). 1/2/3 (M. Atl.).
R-302	060	Economy Class Conditions of Service (Readopting and Amending).	1/2 (M. Atl.). 1/2/3 (M. Atl.).
R-303	060a	Mixed Class Aircraft (Readopting and Amending)	1/2 (M. Atl.). 1/2/3 (M. Atl.).

2. It is not found that the following resolutions, which are incorporated in Agreement CAB 22663 as indicated, affect air transportation within the meaning of the Act:

Agreement CAB 22663	IATA No.	Title	Application
R-307	070o	Mid Atlantic Excursion Fares, U.K.-Caribbean (New)	1/2 (M. Atl.).
R-308	070v	Mid Atlantic 14 to 30 day Excursion Fares-Havana (Readopting and Amending).	1/2 (M. Atl.).
R-309	071e	Mid Atlantic 22-30 Day Excursion Fares—Colombia/Panama (New).	1/2 (M. Atl.).
R-310	071o	Mid Atlantic Special Excursion Fares—U.K.—Caribbean	1/2 (M. Atl.).
R-311	076f	Mid Atlantic Affinity Group Fares—U.K.-Caribbean	1/2 (M. Atl.).
R-313	076o	JT12 and JT123 Mid Atlantic 60 Day Affinity Group Fares (Readopting and Amending).	1/2 (M. Atl.). 1/2/3 (M. Atl.).
R-315	080k	Mid Atlantic 14-30 Day Individual Inclusive Tour Fares to Havana (Readopting and Amending).	1/2 (M. Atl.).
R-319	084q	Group Inclusive Tour Fares, Scandinavia-Barbados/Trinidad/Tobago (New).	1/2 (M. Atl.).
R-318	084o	Mid Atlantic Special Group Inclusive Tour Fares, U.K. to Caribbean (New).	1/2 (M. Atl.).
R-321	094a	Mid Atlantic Emigrani Fares—Caribbean to U.K. (Readopting and Amending).	1/2 (M. Atl.).

3. It is not found that the following resolution, which is incorporated in Agreement CAB 22900 as indicated, affects air transportation within the meaning of the Act:

Agreement CAB 22900	IATA No.	Title	Application
R-12	070yy	South Atlantic 90 Day Economy Class Excursion Fares (New)	1/2 (S. Atl.).

V 37-70 APR 11 72 XUM

Accordingly, it is ordered, That:

1. Action is deferred, with a view toward eventual approval, on those portions of Agreement CAB 22663 set forth in finding paragraph 1 above; and

2. Jurisdiction is disclaimed with respect to Agreement CAB 22900, R–13, and those portions of Agreement CAB 22663 set forth in finding paragraph 2 above.

Persons entitled to petition the Board for review of this order pursuant to the Board's regulations 14 CFR 385.50, may, within 10 days from the date of service of this order, file such petitions in support of or in opposition to our proposed action herein.

This order will be published in the FEDERAL REGISTER.

[SEAL] PHYLLIS T. KAYLOR,
Acting Secretary.

[FR Doc.72–5441 Filed 4–10–72;8:45 am]

[Order 72–4–12]

INDIRECT AIR CARRIERS

Order Granting Temporary Relief

Issued under delegated authority April 4, 1972.

Temporary relief of certain unauthorized indirect air carriers to perform household goods services for the Department of Defense.

From time to time, at the request of the Department of Defense (DOD), the Board has granted temporary relief from provisions of the Federal Aviation Act of 1958 (the Act) to permit unauthorized indirect air carriers to transport by air used household goods [1] of DOD personnel. The Board has granted this relief to 36 indirect air carriers.[2] The relief granted will expire 180 days after the Board's decision in Docket 20812 becomes final or, as to each individual company, upon Board disposition of such company's application for air freight forwarder and/or international air freight forwarder authority, whichever event shall occur first.

By letter dated March 22, 1972, the Department of the Army, acting on behalf of DOD, stated that in addition to the 36 carriers already exempted, it now has a requirement for the services of Astro Van-Pak, Inc., an unauthorized indirect air carrier, and requests that it be similarly relieved from the requirements of the Act.

In view of the foregoing circumstances, it is found that it is in the public interest to temporarily relieve Astro Van-Pak, Inc. from the provisions of the Act to transport by air used household goods of personnel of DOD.

Accordingly, it is ordered:

1. That pursuant to sections 101(3) and 204 of the Federal Aviation Act of 1958, as amended, Astro Van-Pak, Inc. is hereby relieved from the provisions of title IV and section 610(a)(4) of the Act to the extent necessary to transport by air used household goods of personnel of DOD upon tender by that Department.

2. That the relief granted herein shall terminate 180 days after the Board's decision in Docket 20812 becomes final, or upon Board disposition of Astro Van-Pak, Inc.'s application for air freight forwarder authority, whichever event shall occur first.

3. That this order may be amended or revoked at any time in the discretion of the Board, without hearing; and

4. That copies of this order shall be served on the Military Traffic Management and Terminal Service, U.S. Army, and Astro Van-Pak, Inc.

This order shall be published in the FEDERAL REGISTER.

Persons entitled to petition the Board for review of this order pursuant to the Board's regulations, 14 CFR 385.50, may file their petitions within 10 days after date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period unless within such period a petition for review is filed, or the Board gives notice that it will review this order on it own motion.

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc.72–5508 Filed 4–10–72;8:50 am]

[Dockets Nos. 20993 etc.; Order 72–3–104]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Transatlantic Passenger Fare and Cargo Rate Matters

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 30th day of March, 1972.

Agreements adopted by the Traffic Conferences of the International Air Transport Association relating to transatlantic passenger fare and cargo rate matters, Docket 20993: Agreement CAB 22659; Docket 22628: Agreements CAB 22628; 22630, R–2; and 22658, R–1 and R–2; Docket 23333: Agreements CAB 22460; [1] 22689; 22742; and 22900; [2] Docket 23486: Agreements CAB 22663; [3] and 22900; [2] Docket 23780.

Agreements have been filed with the Board, pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations, between various air carriers, foreign air carriers, and other carriers, embodied in the resolutions of the International Air Transport Association. Insofar as they are of significance in air transportation as defined by the Act, the agreements, which have been assigned the above-designated CAB agreement numbers, comprise the overall worldwide fare structures generally intended for effectiveness from April 1, 1972 and cargo rate structures in the Western Hemisphere and South Pacific.

By Order 72–2–33, dated February 10, 1972, procedural dates were established by the Board for the receipt of carrier data and justification, comments, objections, and replies with respect to the agreements on file with the Board. Data and comments have been received from numerous persons and the matter is now ready for the Board's decision. This order will deal with North, Mid-, and South Atlantic fare and rate matters and other orders issued contemporaneously herewith deal with other areas.

The agreements. The agreements before us represent a substantial modification of last year's transatlantic fare structure and are comprised of numerous increases and decreases of individual fares. The prior structure's two-tier, basic season-peak season structure would be converted for the most part to a three-tier structure by incorporating mid-level fares for application in the spring and fall, i.e., shoulder periods. Peak period fares tend to be higher than formerly while winter fares are lower in some instances and slightly higher in others. The 17–28-day individual excursion fare would be converted to 14–21 days and the 29–45-day excursion fare converted to 22–45 days. A youth fare is agreed to be added to the structure at levels well above the fares established last year by a number of governmental orders. Appendix A [4] compares the prior and proposed fares. Additionally, the agreements contain a limited number cargo rate and related resolutions which emanated from the Singapore cargo rate conference last year.

Carrier justification. The U.S. carriers urge approval of the agreements and have furnished statements and data in support of their views. In general, they contend that the agreed fares are far preferable from an economic standpoint to an open-rate situation. They also contend that the agreed fares are fully justified by higher costs of service including new charges levied by various governments for enroute facilities and by the devaluation of the U.S. dollar in relation to other currencies. The carriers' forecasts of their revenues, expenses, and earnings under the agreed fares are summarized in Appendix B,[4a] Table I.

A statement has also been filed on behalf of 13 transatlantic member carriers of IATA in support of the agreements, citing the circumstances associated with the changes in international monetary exchange rates which should be considered in relation to the proposed fare adjustments, and the necessity for recovery of revenue losses suffered by the IATA carriers in scheduled North Atlantic operations stemming therefrom. It is alleged that, for foreign-flag carriers operating on the North Atlantic, the average adjustment in fares and rates required to maintain the predevaluation level of selling fares in their respective currencies would be 9.8 percent. The impact on foreign-carriers in terms of revenue loss in their own currencies is alleged to be more serious than the corresponding effect on U.S. carriers who transact less of their business in foreign currencies. These carriers have submitted data indicating declining trends in profitability over the last several years and operating losses sustained in both 1970 and 1971 in transatlantic scheduled operations. They allege the agreement will not provide foreign carriers a total revenue offset for devaluation, but will hopefully improve the economic position of all carriers by stimulating traffic growth and improving load factors.

Comments and objections. The carrier members of the National Air Carrier Association (NACA) suggest that the fare agreements be approved by the Board subject to a condition that foreign governments shall not unreasonably withhold or restrict landing and uplift rights for charter flights by authorized U.S. carriers. These carriers also request that an evidentiary investigation of all scheduled transatlantic fares be instituted to develop guidelines for future transatlantic fare agreements.

The Aviation Consumer Action Project (ACAP) urges the Board to disapprove the new fare agreements as adverse to the public interest; to institute an investigation into the levels and structure of existing IATA North Atlantic fares in order to determine whether such fares are discriminatory and predatory; to issue a cease and desist order to restrain the IATA carriers from filing proportional fares and private currency exchange rates; to permanently restrain the carriers from discussing and adopting discriminatory fares such as youth and student fares and, in the case of Board approval, to make a finding that the question of reasonableness of all fares is left open and not decided by such approval.

The position of the Department of Transportation (DOT) is that approval of the North Atlantic fare package is warranted except insofar as it would permit the offering of youth fares. It is DOT's view that the public interest requires approval of the package, particularly in view of the fact that the agreement is only for a 1-year period. Although expressing serious reservations about certain of the individual fares, DOT believes that the fare package as a whole is compensatory to the U.S. scheduled carriers. Nevertheless, it requests the Board to inform the carriers as to the principles which will be applied to future IATA fare proposals to develop optimal load factor standards, and to design an appropriate fare structure curve which could be used as a reference point for each basic international fare.

The American Society of Travel Agents (ASTA),[4] while supporting the current fare proposal, requests that the Board condition the resolutions concerning North Atlantic excursion fares so as to negate the new requirement that inclusive tours based upon these fares must include a minimum of 14 nights' sleeping accommodations (with a $100 minimum tour price) if they are to qualify for the additional 3-percent commission override. These revised rules would allegedly alter the agents' flexibility in building tour packages and at the same time increase the price of these tours. ASTA's particular concern appears to be the fact that a minimum of 14 nights' sleeping accommodations is required, since under present conditions agents are permitted to build tours in conjunction with excursion fares and to collect the additional commission when the land portion amounts to 20 percent of the air fare With the present incentive, travel agents allegedly construct and sell a substantial number of inclusive tours.

Seaboard World Airlines, Inc. (Seaboard) requests the Board to condition any approval of the agreements before us by requiring that adjustments for currency realignment be made in the existing U.S. dollar North Atlantic cargo rates corresponding to the adjustments proposed in the North Atlantic passenger fares. Seaboard argues that all North Atlantic carriers have incurred cost increases as a result of currency revaluation and that, by not adjusting cargo rates, Seaboard is precluded from this recoupment, which constitutes an unjust discrimination and is in violation of sections 403(b) and 1002(f) of the Act.

Replies. Both Pan American and TWA have replied to the comments of the supplemental carriers and Seaboard, requesting that the relief sought by these parties be denied. Both respondents indicate that the supplemental carriers' request for investigation has been made in the past, considered by the Board, and disposed of in Order 71–3–87, and that nothing new has been presented that would justify a reversal of the Board's previous position. TWA points out that the Act plainly withholds from the Board the authority to establish international fares or fare levels, or to consider their reasonableness. With respect to conditioning the IATA agreements to preclude foreign governments from unreasonably withholding or restricting landing and uplift rights of certificated U.S. carriers, Pan American and TWA refer to a like request which was disposed of in Order 71–3–87. These carriers, they contend, have failed to show why the Board's reasoning in that order was or is now in error. TWA further comments that if the Board were to condition the IATA agreements in the manner suggested and, in the event that landing rights were unreasonably withheld, an open rate situation would exist, during which time even more restrictive and competitive reactions might take place with respect to charter operations.

Both carriers acknowledge that an agreement reflecting devaluation of the dollar is in order with respect to cargo rates, and that there is no valid reason to treat cargo rates differently from passenger fares. Both allege that Seaboard is well aware of the fact that there is at present no North Atlantic cargo rate agreement, and that regardless of what problems might exist regarding cargo rates, there is no basis for disapproving the adjustments for currency revaluation which have been agreed to for North Atlantic passenger fares.

Pan American has responded to ACAP's comments, stating that similar arguments were raised by ACAP with respect to the transpacific fare agreements being considered concurrently by the Board, and that it has responded thereto in connection with that matter. With respect to specific aspects of the North Atlantic fare agreement, Pan American alleges that it has shown in its justification that the proposed fares are reasonable in relation to its costs and that, in fact, it anticipates less revenues from the agreed fares than current fares would have yielded. Finally, Pan American contends that the youth fares are not unjustly discriminatory, and that the analyses of the ACAP regarding currency revaluation is based on selective data only and does not deal with the total impact on both revenues and expenses.

Findings. The North Atlantic fare structure, based on the New York-London market, encompasses increases ranging from 0.5 percent to 7.7 percent in a number of fare categories, while other fares (winter normal economy and the long-stay excursion) are decreased in amounts ranging from 4.9 percent to 19.5 percent. In addition, two new low-level fare categories have been agreed upon, winter group inclusive tour fares and youth fares. The structure offers discounts ranging up to 55 percent from the applicable normal economy fares and is the product of two agreements separately arrived at by the carriers.

The first agreement provides reductions in a majority of the fares, especially those applicable during the winter season and the low long-term excursion fares, and incorporates the two new promotional fares referred to above. First-class, peak, and shoulder normal economy fares, and peak season short-term excursion fares are modestly increased by a maximum of $4 for round-trip transportation to reflect increased costs attributable to the imposition of additional en route facilities charges.[5] The second agreement came about as a consequence of the devaluation of the dollar and revaluation of certain foreign cur-

[4] In a late filed document which we conclude should be accepted.

[5] By Order 71–9–43, the Board found that these charges should be incorporated into the fares rather than imposed as a surcharge.

V 37-70 APR 11 72 XUM

rencies. This agreement revised the fares previously agreed upward by 4 to 7 percent, and reflects a compromise between U.S. and foreign carriers, each of whose costs increased in varying amounts. The upward adjustment is something less than the full 8.57 percent devaluation of the dollar.

The three U.S. carriers estimate that traffic volume will increase (see Appendix B,[*] Table II), as a result of the new fare package, mainly because of the generative impact expected from the low long-term excursion fares and the winter group inclusive tour fares. However, at the same time some diversion from higher-rated fares is expected to occur, which will reduce the average yield from these passengers. All carriers project increased revenues over 1971 results. TWA and Pan American combined estimate that the revenues flowing from currency adjustments will be $25.4 million in 1972. The carriers' forecasts will be discussed more fully later in this order.

While the North Atlantic fare structure will continue to be relatively complex we believe the pattern of fares agreed upon reflects some desirable improvements. The three-tiered structure of normal fares and most discount fares, including particularly the winter GIT, should tend to flatten the demand curve which is presently subject to severe peaks and valleys, thereby enabling the carriers to better utilize the capacity they offer. Changes in the stopover conditions associated with various promotional fares and imposition of charges when stopovers are permitted appear to be consistent with the cost and value of these services. The prohibition of stopovers on the long-term excursion fares, which in effect creates a point-to-point fare, should improve the economics of those relatively low fares. The new low-level promotional fares, and the reduction from 17 to 14 days in the minimum-stay requirement for the short-term excursion fares should have a generative effect upon traffic, and result in improved load factors. The proposed youth fares would reduce the extreme discounts and improve the economics of the service. The structure is, in part of course, a competitive response to charter competition. While the fare structure falls far short of meeting the criteria set forth in our policy statement of September 24, 1971, it serves to resolve for the interim highly controversial issues among the carriers as to fare structure which had threatened to create an open-rate situation. In light of the financial condition of the carriers, it is apparent that an open rate at this juncture could seriously damage their financial posture to the ultimate detriment of the public. Moreover, disapproval of the instant agreements would forestall implementation of the fare structure improvements noted above. On balance, we cannot find that the agreed fare structure would be adverse to the public interest for the limited period of its effectiveness.

[*] Filed as part of the original document.

The Mid Atlantic fare structure is much simpler than the North Atlantic, being comprised of only excursion and GIT fares in addition to normal first-class and coach fares. The discounts are more modest than those available on the North Atlantic, with the largest discount at 50 percent of the normal economy fare. The present two-tiered structure for all fares except first class would be retained. Normal fares would be increased moderately while the promotional fares are agreed to be either reduced slightly or maintained in status quo.[6]

In response to Board Order 72–2–33, the carriers furnished detailed forecasts of the 1972 traffic, capacity, revenue, costs, investment and return on investment, based on both the present and proposed fares. Appendix B, Tables I and II summarize the carriers' submissions with respect to their transatlantic services.[7] The Board has reviewed these data, has made certain adjustments to the carriers' estimates of operating costs and investment, and has computed revised rates of return based on the adjusted figures, as shown in Appendix B, Table III.

In brief, each of the three U.S. passenger carriers projects substantial increases in passenger miles, as compared with 1971 volumes. Furthermore, each of the three carriers anticipates revenue increases over 1971 stemming from the agreements. However, Pan American forecasts only a 2.5-percent increase in capacity, notwithstanding an 18.4-percent increase in traffic, with the result that its load factor would rise to 57 percent. TWA, on the other hand, forecasts a 10-percent increase in capacity to accompany its 12-percent increase in traffic producing only 51.4 percent load factor in 1972, as compared with 50.6 percent in 1971. In estimating operating expenses, all three carriers relied on 1971 cost levels adjusted for changes in volume of operations projected for 1972, together with cost increases and decreases expected to be incurred during the future year. Pan American forecasts an improved operating profit and return on investment, the latter amounting to only 0.7 percent. TWA, however, estimates a reduction in operating profit and return on investment as compared with 1971. National estimates a moderate increase in operating profit but a small decline in return on investment.

In Phase 6B of the Domestic Passenger-Fare Investigation,[8] the Board adopted load factor standards as a means of determining for rate-making purposes, the volume of capacity properly chargeable to the fare and rate payers. While the standards adopted therein relate to domestic U.S. operations, the considerations and principles underlying their adoption apply as well to the carriers' international services. Accordingly, we have reviewed the carriers' projections of traffic and capacity in this light. As noted, Pan American bases its financial forecast on a 57-percent passenger load factor reflecting in part a very small increase in 1972 capacity over the preceding year. The carrier's forecasts of capacity, and the resulting load factor, appear reasonable and will be accepted for rate-making purposes. TWA, however, estimates an increase in capacity almost equal to its forecast increase in traffic despite the fact that its 1971 load factor was only 50.6 percent. There is no apparent justification for a capacity increase of this magnitude while load factors remain in the 50-percent range. However, we will recognize as reasonable for rate-making purposes, an increase in capacity of 5 percent which produces a passenger load factor of 54 percent. We recognize that our acceptance of the foregoing load factors involves a substantial element of judgment and that we have not had an opportunity to conduct a more thorough study of the capacity requirements in the various markets covered by the resolutions. Accordingly, our conclusions herein should be regarded as applicable solely to the fare agreements now before us, and without prejudice to a reevaluation of this entire question in connection with future agreements.

In constructing its estimate of operating expenses, Pan American included amounts for increases in wages, fuel prices, and enroute facilities charges. A further allowance was made for additional maintenance costs on B–747 aircraft. Additionally, the carrier projected about $5.5 million in cost increases stemming from the devaluation of the U.S. dollar. Finally, Pan American deducted $12.6 million representing improved productivity estimated at 10 percent of salaries and payroll costs other than flight crews. We have disallowed a portion of the projected wage increases as anticipatory in nature and have corrected an arithmetic error. Similarly, we have not recognized 50 percent of the projected increases in fuel costs since those increases do not appear to be embodied in binding contracts at this time. Lastly, we have not accepted the maintenance cost increase claimed by the carrier since we have no basis to assume, as did Pan American, that no recoveries under manufacturers' warranties would be made in 1972. TWA represents that the cost increases included in its forecasts are either annualizations of increases incurred in 1971 or fully covered by existing contracts for 1972. The Board will recognize them on that basis. The carrier also estimates the effect of the dollar devaluation on its transatlantic operating expenses at $7.4 million. We have, however, adjusted TWA's estimate of operating expenses by $9.9 million to reflect the disallowance of capacity previously discussed.

[6] The Mid Atlantic fares have not been increased for currency devaluation.

[7] The data relate to the carriers' combination services and do not reflect all-cargo services since a transatlantic cargo rate agreement has not been reached. Mid Atlantic services of the U.S. carriers are minimal.

[8] Domestic Passenger-Fare Investigation, Docket 21866–6B, Order 71–4–54.

On an adjusted basis, we estimate TWA's return on investment at 9.3 percent after allowance for taxes. The comparable figure for Pan American is 1.8 percent. Both forecast returns are, of course, well below the 12 percent rate of return standard adopted by the Board in Phase 8 of the Domestic Passenger Fare Investigation for domestic rate-making purposes. The TWA return percentage represents a moderate decline from levels achieved by that carrier over the past 5 years which ranged from 10–14 percent.[9] During the same period, Pan American reported marginal returns in some years and losses in others. Pan American's performance in this regard is difficult to rationalize in relation to TWA's but it may well reflect its consistently higher unit costs of operation. For example, the 1971 operating cost per available ton-mile were 19.19 cents, nearly 20 percent higher than TWA's. In terms of revenue ton-mile costs, Pan American's disadvantage was 23 percent. Moreover, a similar pattern exists in the carrier's other principal areas of operation.

We need not here examine further into this matter. It is to be expected that Pan American's situation is temporary and that on-going programs will restore it to a more favorable earnings' position. In these circumstances, therefore, we need not give much weight to Pan American's relatively unfavorable earnings, both historical and projected, but rather we shall rely primarily on TWA's results for purposes of disposing of the instant agreements. As noted, TWA's adjusted return on investment is estimated at 9.3 percent for 1972. However, as earlier noted, the principal factor in the fare increases for transatlantic services is the adjustment for the devaluation of the U.S. dollar in relation to other currencies. Exclusive of the currency adjustment, the return on investment projected for TWA would be 6.7 percent. Neither return is excessive either by itself or in relation to earnings' levels in recent years.

The currency adjustment stems, of course, from the policies adopted by this Government and others with respect to currency exchange rates in foreign trade generally. Since the devaluation of the U.S. dollar varied considerably as among the various European countries, the effect on the costs of operation of any given carrier would depend not only on the proportion of its business done in each such country, but also on the relationships of its revenues earned to expenses incurred in each currency. Pan American and TWA estimate increases in the dollar costs of doing business due to currency revaluations at $5.5 and $7.4 million, respectively. In each case, these higher costs would be more than offset by the proposed fare adjustment of 4–7 percent across-the-board. However, the statements and data submitted by the foreign carriers indicate that the reverse situation would obtain for them and it is reasonable to expect that this would be the case. In principle, a carrier should not be precluded from a fare or rate adjustment to offset cost increases flowing from a change in currency exchange rates, assuming, of course, that such carrier is not in an excess earnings position. However, there appears to be no way to adjust dollar fares so as to precisely match the adjustment to the impact of the currency adjustment on each carrier and at the same time maintain the uniform fares among carriers which are a competitive necessity and maintain approximately the same relationship among fares to the various points in Europe. The carriers' agreement to increase fares from 4–7 percent appears to be reasonably related to the range of changes in currency exchange rates and to the probable impact of these changes on the costs of the carriers as a group. On balance, therefore, we cannot conclude the currency adjustment is an unreasonable one or that this element of the agreement before us does not warrant approval.

Transatlantic cargo matters now before the Board are de minimis inasmuch as no basic rate structure was agreed for the principal North Atlantic area. On the mid-atlantic, where we are concerned with the traffic to/from Puerto Rico and the U.S. Virgin Islands, the 200 kg. weightbreak would be deleted within the general cargo rate scale and other rates would be increased by roughly 3 percent; minimum charges would, with the exception of traffic to Tel Aviv, remain at status quo. On the other hand, the carriers' resolutions include provisions for small increases in several ancillary charges, such as those relating to c.o.d. procedures, and these resolutions are intended for uniform transatlantic application irrespective of the absence of a basic North Atlantic rate structure. In view of the carriers' overall earnings in transatlantic services, as earlier discussed, the minor increases involved present no serious public interest problems, except with respect to a proposal that minimum charges for the carriage of live animals be increased to 150 percent of the otherwise applicable minimum charges for shipments of a general nature. The carriers have not now, nor following the adoption of such provisions at the Singapore cargo conference last year, provided justification in support of the singular treatment to be applied in the rating of small shipments of animals. Our approval of the pertinent resolution is therefore conditioned so as to preclude application of a higher minimum charge for live animals moving in air transportation.

The arguments advanced by the supplemental carriers to support the imposition of a condition that European governments shall not unreasonably withhold landing and up-lift rights for their charter services are essentially those put forward a year ago in connection with the transatlantic fare agreement currently in effect. In Order 71–3–87, the Board denied the request in the belief that such an action would not necessarily advance the interests of the supplemental carriers and, indeed, might generate a fare dispute and impair efforts to resolve present difficulties. In our opinion, the circumstances are not significantly different today and, accordingly, we will again deny the request.

With respect to Seaboard's comments, we can perceive no reason why appropriate adjustments in cargo rates should not be made; however, the fact remains that there is presently no cargo rate agreement covering North Atlantic services and we are not persuaded that there is an appropriate basis on which to condition the instant fare agreements or that such an action would necessarily accomplish the desired result.

As indicated, the supplemental carriers and ACAP request the Board to undertake a formal investigation of the transatlantic fare structure and DOT requests the Board to establish certain principles and standards. These requests involve complex issues related to the establishment of international, as opposed to domestic, fares. We need not resolve these issues before acting upon these agreements and, therefore, we will defer action on these requests at this time.

We must also reject ACAP's request that we issue a cease and desist order to restrain the IATA carriers from filing proportional fares. In no case are the proportionals higher than the corresponding normal first-class or coach domestic fares, excluding taxes, and in some cases they are lower than existing domestic fares. In any event, IATA agreement on proportional fares does not preclude the use of any domestic fare in lieu thereof, provided, of course, that the tariff conditions of the fare used are met. Certainly, the fact that through fares in international air transportation, constructed by use of agreed upon proportionals, are often lower than the combination of domestic and international air fares cannot be found to be adverse to the public interest. Similarly, we find no basis to purport to preclude discussion within IATA, subject to the usual controls and safeguards, of broad categories of fares since this would constitute an unwarranted prejudgement of the lawfulness or public interest aspects of such matters.

Finally, both ACAP and DOT urge that the youth fare agreement not be approved. The level of these fares is considerably higher than those in effect last year as a result of various government orders. They are set at the same levels as the 22–45-day excursion fares, the only effective difference being the length of stay requirement. However, the question of discrimination continues to exist and we are, therefore, ordering these fares consolidated into the current investigation in Docket 23780.

Other comments filed by ACAP go generally to the procedures followed by the carriers and the Board with respect to IATA matters. It is contended that documentation furnished by the carriers

[9] It is noted that the historical return percentages reflect below normal income tax accruals due to domestic system losses and therefore tend to be understated in relation to the return projected for the future which reflects a constructive tax at 48 percent. Appendix B, Table IV, shows both carriers' reported return on investment for each year from 1967 through 1971.

V 37-70 APR 11 72 XUM

is inadequate and the public does not have access to certain documents or participate in the Board's procedures. Our approval of the IATA machinery requires the carriers to furnish agenda and minutes of traffic conference meetings, as well as fare and rate proposals circulated by the carriers at such meetings.[10] Additionally, we required a daily summary to be furnished promptly after each session of the Miami Conference. All these documents were maintained by the Board in a public file open to all concerned.[11] Moreover, each of the agreements disposed of herein was the subject of at least one order issued by the Board inviting comments and objections, if any, by the public and interested persons. Indeed, ACAP's comments are evidence of the opportunity given the public to present views and evidence for Board consideration in conncetion with these agreements. In any event, the Board considers that the information available to it and to the public constitutes an entirely adequate basis on which to decide whether these agreements are in the public interest or in violation of the Act.

ACAP also refers to an alleged ex parte meeting between the Board and U.S. IATA carrier representatives, asserts that our policy statements issued on September 24, 1971, was based on information gained at that meeting, and that the statement gave a clear indication on the type of fare structure the Board would eventually approve. The meeting referred to was held in order to receive the views of the principal U.S. scheduled transatlantic carriers on the subject of fares filed between the U.S. and Germany by the German airline. A transcript was kept and was made public.[12] Moreover, as the transcript shows, the Board expressed no views or conclusions on the matters raised. Finally, a simple reading of the September policy statement reveals it set forth only general criteria and principles the Board considers relevant to rate-making, and in no way purported to describe the type of fare structure the Board would approve. Neither did the statement in any way deal with the tariff filing discussed at the meeting.

Finally, we will not adopt the condition urged by ASTA to be attached to our approval of the resolution containing the 22–45-day excursion fares. The new requirement that a minimum of 14 nights' sleeping accommodations be included in the land arrangements when the excursion fare is used in constructing an inclusive tour, appears to be reasonably related to the GIT fare requirement that sleeping accommodations be included throughout the trip. The 14-night requirement does not seem excessive for a fare which applies to trips of at least 22 days and as many as 45 days. Similarly, the requirement appears to be a reasonable restriction to assure the validity of an inclusive tour.

On the basis of all of the foregoing considerations, the Board concludes that the agreed North and mid-Atlantic passenger fares and rates[13] are reasonable both as to level and structure and that the underlying agreements should be approved.[14]

The Board, acting pursuant to sections 102, 204(a), 404(b), 412, and 1002 of the Act, makes the following findings:

1. It is not found that those resolutions and agreements set forth in Appendix C [14a] are adverse to the public interest or in violation of the Act;

2. It is not found that those resolutions set forth in Appendix D [14a] are adverse to the public interest or in violation of the Act, provided that approval is subject to conditions previously imposed by the Board;

3. It is not found that those resolutions and agreements set forth in Appendix E [14a] are adverse to the public interest or in violation of the Act provided that approval is subject to conditions stated therein;

4. It is not found that those resolutions set forth in Appendix F,[14a] which are indirectly applicable in air transportation as defined by the Act, are adverse to the public interest or in violation of the Act; and

5. Pending investigation in Docket 23780, it is not found that those resolutions set forth in Appendix G [14a] are adverse to the public interest or in violation of the Act, provided that Resolution 092g is subject to the condition stated therein.

Accordingly, it is ordered, That:

1. Those portions of Agreements CAB 22663, 22460, 22900, 22628, 22689, and 22742 set forth in Appendix C [14a] be and hereby are approved.

2. Those portions of Agreement CAB 22663 set forth in Appendix D [14a] are approved subject to previous conditions imposed by the Board;

3. Those portions of Agreements CAB 22663 and 22460 set forth in Appendices E and G [14a] be and hereby are approved, subject to the conditions set forth therein;

4. Those portions of Agreements CAB 22663 and 22460 set forth in Appendix F [14a] be and hereby are approved;

5. An investigation is hereby instituted to determine whether the resolutions set forth in Appendix G [14a] and incorporated in Agreement CAB 22663, R–181 and R–182, are adverse to the public interest or in violation of the Federal Aviation Act of 1958, and whether the fares, rules, conditions, and provisions which are, or will be, established pursuant to such agreements are or will be unjustly discriminatory or unduly preferential, or unduly prejudicial, and if such fares, rules, conditions, or provisions are found to be unjustly discriminatory, unduly preferential, or unduly prejudicial, to determine how such fares, rules, conditions or provisions should be altered, or what order should be made to remove such discrimination, preference or prejudice;

6. The investigation ordered in paragraph 5 above is consolidated into that currently pending in Docket 23780; and

7. Decision is deferred on the requests of NACA and ACAP for an investigation of transatlantic fares and on the request of the Department of Transportation for the establishment of principles and standards for transatlantic fares.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc.72–5509 Filed 4–10–72;8:50 am]

[Dockets Nos. 23333, 23486; Order 72–3–106]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Passenger Fare, Cargo Rate, and Related Matters in the Western Hemisphere

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 30th day of March 1972.

Agreements adopted by Traffic Conference 1 of the International Air Transport Association relating to passenger fare, cargo rate, and related matters in the Western Hemisphere, Docket 23333; Agreements CAB 22460;[1] 22689; 22742; 22822; and 22900[2]; Docket 23486; Agreements CAB 22663;[3] 22900;[4] and 22914.

Agreements have been filed with the Board, pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations, between various air carriers, foreign air carriers, and other carriers, embodied in the resolutions of the International Air Transport Association. Insofar as they are of significance in air transportation as defined by the Act, the agreements, which have been assigned the above-designated CAB agreement numbers, comprise the overall worldwide fare structures generally intended for effectiveness from April 1, 1972, and cargo rate structures in the Western Hemisphere and South Pacific.

By Order 72–2–33, dated February 10, 1972, procedural dates were established by the Board for the receipt of carrier data and justification, comments, objections, and repli with respect to the agreements on file with the Board. Data and comments have been received from numerous persons and the matter is now ready for the Board's decision. This order will deal with Western Hemisphere fare and rate matters and other orders issued contemporaneously herewith deal with other areas.

The agreements. The fare agreements reflect general increases stemming primarily from currency realignments rather than basic fare changes. The principal elements of the cargo agreements consist of rates for the movement of general cargo, specific commodities and containerized freight in unit load devices. In addition to increasing the rates as a result of devaluation of the dollar, northbound rates are increased which would tend to lessen the existing directional disparity and specific commodity rates have generally been increased. Further increases result from the cancellation of various rates and decreases result from the addition of new rates and descriptions. Appendix A [5] sets forth a comparison in principal markets of present and proposed fares and rates and percentage changes.

Carrier justification. The U.S. carriers request that the Board approve the various agreements. Generally, the carriers, in their statements, and data in support of their views, indicate that fare and rate alterations are justified by higher costs resulting from devaluation of the U.S. dollar in relation to other currencies and from a need to increase revenues and profits which in the past have been marginal.

Comments and objections. Comments have been filed by the National Industrial Traffic League (the League) requesting disapproval of an IATA resolution providing for the imposition of a $1.50 documentation charge in the Western Hemisphere when an IATA member or his agent issues or completes the air waybill. The League contends that the proposed charge is unreasonable and contrary to the public interest; that the establishment of a $1.50 charge as a minimum may be too high in relation to the costs incurred; that the imposition and collection of such a charge is inconsistent with long standing practices in surface transportation modes; that the text of the resolution is ambiguous as to when or under what circumstances the charge may be collected; and that the imposition of this proposed charge would create the possibility of double compensation of IATA agents, many of whom already impose a service charge for the preparation of the necessary shipping documents. The League further alleges that there are reported instances when the air carriers will not permit the shipper to prepare the air waybill, that air carriers will not release the air waybill form for the shipper to use, and that it is unreasonable for the carriers to collect a charge from the shipper for preparation of a document which is both a contract of carriage and a receipt.

Replies. Pan American has responded to the comments of the National Industrial Traffic League stating that a similar resolution has been in effect in other world areas for a number of years, and that at least 70 percent of Pan American's waybills issued in the United States are issued by agents who will be the beneficiaries of the charge. The carrier alleges that competitive considerations will stabilize the fee as specified in the resolution and that double compensation will not accrue to the agents because, to the best of its knowledge, documentation fees are assessed primarily for the execution of export/import documents required for international shipments. Pan American believes the wording contained in the resolution is not ambiguous as contended since the wording "issues or completes" applies only to those cases where an agent prepares an air waybill and is entitled to retain the fee. The carrier believes that the application of a nominal standard fee constitutes a better approach than the inclusion of the applicable charge in the rate structure which would produce a scale of charges depending on the weight of shipment.

Findings. As indicated earlier in this order, the fare increases proposed stem primarily from currency realigments rather than from changes to the basic fare structure. Between U.S. and Caribbean points, e.g., Montego Bay and Caracas fares are generally increased by about 5 percent. Fares to Rio de Janeiro and Buenos Aires are subject to lesser increases, however. Normal economy fares are increased by about 2 percent and promotional fares by only 1 percent, approximately. Fares to and from Mexico remain generally unchanged.

As regards cargo rates, in addition to increases resulting from devaluation,[6] northbound rates are increased to reduce the directional disparity compared with southbound rates and adjustments to the specific commodity rate structure have the effect of increasing some rates while reducing others.

In response to Board Order 72–2–33, the carriers furnished detailed forecasts of revenue, costs, investment, and rate of return on the basis of the present and proposed fares. Appendix B,[7] Table I, summarizes the carriers' submissions.

The carriers' forecasts of return on investment range from 0.8 percent for Pan American to 12.3 percent for Braniff. American's return is estimated to be 4.3 percent, while Eastern projects 10.9 percent. However, the Board has adjusted Pan American's estimate of operating expenses to exclude certain cost increases which appear to be anticipatory in character, as well as the B–747 maintenance expense increases, consistent with the adjustments adopted in our orders dealing with the transatlantic and transpacific agreements.[8]

On the basis of the adjusted level of operating expenses, PAA's return on investment would be 1.4 percent in the future year.[8]

Historically, the U.S.-flag carriers operating to South America have experienced modest earnings. The forecasts submitted in connection with our review of these agreements suggest that this pattern will continue, although the instant rate and fare agreements should result in a better earnings' situation than could be anticipated if current fares and rates were maintained. The area is marked by considerable instability of fares and rates due to non-IATA carrier filings and by instances of substantial currency instability.

Moreover, the bulk of the increases proposed by these agreements are the result of the currency adjustments and, as such, reflect a factor beyond the carriers' control and one which flows from currency exchange policies adopted by many governments. As we stated in the transatlantic IATA order, we know of no way to match exactly the adjustment applied to airline rates and fares to the additional costs of doing business stemming from the currency devaluation. On the basis of available data, the instant agreements do not appear unreasonable in this respect.

The fare agreement retains the present fare structure, which consists of individual excursion, GIT, and affinity group fares, although effecting some small changes in relationships among fares for these services. We are concerned with the economic soundness of the first-class excursion fare but will approve it for a further period since the fare has been in effect for several years. However, approval of this type of fare

---

[10] We would remind the carriers that our requirements extend to all carrier meetings whether or not they are labeled formal traffic conferences.

[11] It is true that some limited IATA documents are not now publicly maintained by the Board, e.g., reports of meetings of the Traffic Advisory Committee, the Executive Committee, and the Cost Committee. We are revetwing our practices in this regard. In any event we did not consider such documents herein.

[12] The Board is not aware of any "censorship" of the transcript, as ACAP asserts.

[13] We are, however, conditioning approval of Resolution 511, Rates for Live Animals, to preclude minimum charges for this type of traffic above the level of those established for consignments of a general nature. We are also conditioning the resolution so as to apply past Board policy with respect to the carriage of baby poultry, monkeys, and primates uniformly in all areas of air transportation as defined by the Act.

[14] To the extent that ACAP in its comments is suggesting that the Board, in disposing of these agreements, not consider the reasonableness of the fares included in the agreements, we must reject this contention. We have considered the fares' reasonableness to the extent necessary to conclude that the instant agreements are not adverse to the public interest or in violation of the Act. We have not, of course, undertaken an investigation of them under section 1002 of the Act, and we do not purport herein to make any findings as to the reasonableness of these fares under that section.

[14a] Filed as a part of the original document.

[1] Agreement CAB 22460: R–27; R–37; R–39; R–40; R–43 through R–46; R–48; R–49; R–53; R–60; and R–65.

[2] Agreement CAB 22900, R–3 through R–9; and R–11.

[3] Agreement CAB 22663, R–59; R–62 through R–65; R–71; R–72; R–75; R–76; R–79; R–84; R–92; R–94; R–101; R–103; R–104; R–107 through R–109; R–111; and R–114.

[4] Rates to/from Caribbean points are raised about 5 percent; to/from South America 1 percent. Rates for services to/from Mexico are unchanged.

[5] Filed as a part of the original document.

[6] Load factors ranging from 52–57 percent are embodied in the carriers' forecasts. These levels appear reasonable for their services for ratemaking purposes. Acceptance of these load factors is subject to the reservations expressed in our orders on transatlantic and transpacific fares issued contemporaneously herewith.

[7] Filed as a part of the original document.

[8] For the reasons set forth in our companion order on transatlantic fares, we do not give much weight to the results indicated for Pan American.

V 37-70 APR 11 72 XUM

beyond the term of the present agreement will depend upon full justification of it. Our action herein is not to be considered as a precedent for extension of such fares to U.S. domestic services. Aside from this fare, the fare structure, as such, appears reasonable.

In addition to the general increase in cargo rates stemming from the currency adjustments, the agreement also cancels some specific commodity rates, raises others, and raises northbound general commodity rates to lessen the present directional disparity. The modifications should improve the economics of the carriers' cargo services. Moreover, we are aware of no basis to maintain a higher level of rates for shipments from the U.S. than for shipments to the U.S.

With respect to the matter raised by the League, the Board has concluded to condition its approval of Resolution 512c that would permit a charge for the preparation of air waybills in the Western Hemisphere so as to have the effect of precluding such charge in the United States and its Western Hemisphere territories. The carriers have provided no data which would indicate the actual cost of issuing a waybill, nor have the cargo agents who allegedly issue some 70 percent of the waybills issued in this country shown that such a charge is warranted. Accordingly, we are unable to conclude that the proposed charge is reasonable and consistent with the public interest. We are also conditioning our approval of Resolution 511, Rates for Live Animals, so as to preclude high minimum charges for this type of traffic above the level of those established for consignments of a general nature. No justification has been submitted by the carriers for the 50-percent surcharge proposed. We are also conditioning the resolution so as to apply past Board policy with respect to the carriage of baby poultry, monkeys, and primates uniformly in all areas of air transportation as defined by the Act.

On the basis of all of the foregoing considerations and information, the Board concludes that the agreed passenger fares and cargo rates, except as set forth above, for services in the Caribbean and Central and South America, are reasonable both as to level and structure, and that the underlying agreements should be approved.

The Board, acting pursuant to sections 102, 204(a), and 412 of the Act, makes the following findings:

1. It is not found that those resolutions and agreements set forth in Appendix C[1] are adverse to the public interest or in violation of the Act;

2. It is found that those resolutions set forth in Appendix D[1] are adverse to the public interest or in violation of the Act: *Provided*, That approval is subject to conditions previously imposed by the Board; and

3. It is not found that those resolutions and agreements set forth in Appendix E[1] are adverse to the public interest or in violation of the Act, provided that approval is subject to conditions stated herein.

Accordingly, it is ordered, That:

1. Those portions of Agreements CAB 22663, 22460, 22900, 22689, and 22742, set forth in Appendix C[1] as well as Agreement CAB 22914, be and hereby are approved;

2. Those portions of Agreements CAB 22663 and 22460 set forth in Appendix D[1] are approved subject to previous conditions imposed by the Board; and

3. Those portions of Agreements CAB 22663 and 22460 set forth in Appendix E,[1] as well as Agreement CAB 22822 be and hereby are approved subject to the conditions set forth in Appendix E.[1]

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[Docket No. 18078; Order 72-4-9]

AMERICAN AIRLINES, INC.

Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 4th day of April 1972.

American Airlines, Inc. for the issuance of an order to show cause amending Order 68-9-8, as amended by Order 69-9-152 and 70-3-147.

By petition filed February 29, 1972, American Airlines, Inc. (American) requests that the service mail rates in effect for the transportation of military ordinary mail (MOM) as established by Order 68-9-8, as amended, be made applicable to the extent necessary to permit American and Seaboard World Airlines, Inc. (Seaboard) to equalize rates for MOM on through service between Washington, D.C. and Baltimore, Md., on the one hand, and Shannon, Glasgow, Paris, Amsterdam, Brussels, Hamburg, Dusseldorf, Cologne/Bonn, Stuttgart, Munich, Nuremburg, Copenhagen, Oslo, Stockholm, Geneva, Basel, Zurich, Milan, Naples, and Rome, on the other hand.

American states that the MOM rate presently applies to American in conjunction with through carriage of such mail involving the foreign points London-Frankfurt,[1] and seeks only to add the additional foreign points cited above. The carrier states that a notice of election and agreement for equalization covering this carriage of mail has been filed with the Board[2] and the service will be initiated upon the establishment of the rates as requested herein.

On March 20, 1972, the U.S. Postal Service filed a reply indicating the Postmaster General has no objections to American's petition.

The Board finds it is in the public interest to establish the service mail rates requested herein. Therefore, upon consideration of the petition and the reply filed herein, and other matters officially noticed, especially those set forth in Order 70-3-54,[3] the Board proposes to issue an order to include the following findings and conclusions:

1. The petition of American to permit further equalization of MOM rates in conjunction with through transportation of MOM mail involving the additional foreign points as stated therein shall be granted.

2. In order to accomplish such equalization Order 68-9-8 shall be further amended as follows:

Paragraph (3) of footnote 2, on page 2 of Order 68-9-8 shall be amended to read:

(3) Such service shall also include the carriage of MOM by American between Washington, D.C., and Baltimore, Md., on the one hand, and New York, N.Y., on the other hand, in conjunction with the through carriage of MOM between Washington, D.C. and Baltimore, Md., on the one hand, and London, Frankfurt, Shannon, Glasgow, Paris, Amsterdam, Brussels, Hamburg, Dusseldorf, Cologne/Bonn, Stuttgart, Munich, Nuremburg, Copenhagen, Oslo, Stockholm, Geneva, Basel, Zurich, Milan, Naples, and Rome, on the other hand.

3. The mail rates proposed herein are to be paid entirely by the Postmaster General.

Accordingly, pursuant to the Federal Aviation Act of 1958, particularly sections 204(a) and 406 thereof, and the regulations promulgated in 14 CFR, Part 302:

It is ordered, That:

1. All interested persons, and particularly American Airlines, Inc., National Airlines, Inc., Pan American World Airways, Inc., Seaboard World Airlines, Inc., Trans World Airlines, Inc., the Postmaster General, and the Department of Defense are directed to show cause why the Board should not further amend Order 68-9-8, September 4, 1968, as amended, as proposed above.

2. Further procedures herein shall be in accordance with the rules of practice, 14 CFR Part 302, and if there is any objection to the rates or to the other findings and conclusions specified herein, notice thereof shall be filed within 10 days, and, if notice is filed, written answer and supporting documents shall be filed within 30 days, after the date of service of this order.

3. If notice of objection is not filed within 10 days, or if notice is filed and answer is not filed within 30 days after service of this order, all persons shall be deemed to have waived the right to a hearing and all other procedural steps short of a final decision by the Board, and the Board may enter an order fixing the rates and incorporating the findings and conclusions stated herein.

[1] Order 70-3-147, March 30, 1970.
[2] Dockets 16349 and 18078.
[3] March 11, 1970.

4. If answer is filed presenting issues for hearing, the issues involved in determining the fair and reasonable rates herein shall be limited to those specifically raised by such answers except as otherwise provided in 14 CFR 302.307.

5. This order shall be served upon the parties enumerated in paragraph 1, above.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

ENVIRONMENTAL PROTECTION AGENCY

ENVIRONMENTAL IMPACT STATEMENTS

Availability of Comments

Appendix I contains a listing of draft environmental impact statements which the Environmental Protection Agency (EPA) has reviewed and commented upon in writing during the period from February 28, 1972, to March 15, 1972, as required by section 102(2)(C) of the National Environmental Policy Act of 1969 and section 309 of the Clean Air Act, as amended. The listing includes the Federal agency responsible for the statement, the number assigned by EPA to the statement, the title of the statement, the classification of the nature of EPA's comments, and the source for copies of the comments.

Appendix II contains a listing of proposed regulations reviewed by EPA during the period from February 28, 1972, to March 15, 1972, under section 309 of the Clean Air Act. The listing includes the Federal agency responsible for the proposed regulation, the title of the regulation, the classification of the nature of EPA's coments, and the source for copies of the comments.

Appendix III contains definitions of the four classifications of the general nature of EPA's comments. Copies of EPA's comments on these draft environmental impact statements are available to the public from the EPA offices noted.

Appendix IV contains a listing of the addresses of the sources for copies of EPA comments listed in Appendix I.

Copies of the draft environmental impact statements are available from the Federal department or agency which prepared the draft statement or from the National Technical Information Service, U.S. Department of Commerce, Springfield, Va. 22151.

Dated: April 4, 1972.

SHELDON MEYERS,
Director, Office of Federal Activities.

APPENDIX III

DEFINITION OF CODES FOR THE GENERAL NATURE OF EPA COMMENTS

(1) General Agreement/Lack of Objections: The Agency generally:

(a) Has no objections to the proposed action as described in the draft impact statement;

(b) Suggests only minor changes in the proposed action or the draft impact statement; or

(c) Has no comments on the draft impact statement or the proposed action.

(2) *Inadequate Information:*

The Agency feels that the draft impact statement does not contain adequate information to assess fully the environmental impact of the proposed action. The Agency's comments call for more information about the potential environmental hazards addressed in the statement, or ask that a potential environmental hazard be addressed since it was not addressed in the draft statement.

(3) *Major Changes Necessary:*

The Agency believes that the proposed action, as described in the draft impact statement, needs major revisions or major additional safeguards to adequately protect the environment.

(4) *Unsatisfactory:*

The Agency believes that the proposed action is unsatisfactory because of its potentially harmful effect on the environment. Furthermore, the Agency believes that the safeguards which might be utilized may not adequately protect the environment from the hazards arising from this action. The Agency therefore recommends that alternatives to the action be analyzed further (including the possibility of no action at all).

GEIGY AGRICULTURAL CHEMICALS

Notice of Extension of Temporary Tolerances

Geigy Agricultural Chemicals, Division of Ciba-Geigy Corp., Ardsley, NY 10502, was granted temporary tolerances for residues of the herbicide 2,4-bis-(isopropylamino) -6- methylthio-*s*-triazine in or on the raw agricultural commodities soybean fodder and forage at 1 part per million and soybeans at 0.25 part per million on August 8, 1969 (notice was published in the FEDERAL REGISTER of August 15, 1969 (34 F.R. 13286)). At the request of the firm, the temporary tolerances were extended to July 1, 1972 (notice was published in the FEDERAL REGISTER of August 17, 1971 (36 F.R. 15679)).

The firm has requested a 6-month extension to obtain additional efficacy data. It is concluded that such extension will protect the public health. A condition under which the temporary tolerances are extended is that the herbicide will be used in accordance with the temporary permit which is being issued concurrently by the Environmental Protection Agency and which provides for distribution under the Geigy Agricultural Chemicals name.

As extended, these temporary tolerances expire January 1, 1973.

This action is taken pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(j), 68 Stat. 516; 21 U.S.C. 346a(j)), the authority transferred to the Administrator of the Environmental Protection Agency (35 F.R. 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticides Programs (36 F.R. 9038).

Dated: April 5, 1972.

WILLIAM M. UPHOLT,
Deputy Assistant Administrator for Pesticides Programs.

FEDERAL RESERVE SYSTEM

FIRST CITY BANCORPORATION OF TEXAS, INC.

Order Approving Acquisition of Bank

First City Bancorporation of Texas, Inc., Houston, Tex., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent (less directors' qualifying shares) of the voting shares of a nonoperating bank formed for the purpose of acquiring the assets and assuming the liabilities of Gulfgate State Bank of Houston, Houston, Tex. (Bank). The proposed acquisition of the shares of the successor organization is treated herein as the proposed acquisition of the shares of Bank.

Notice of receipt of the application has been given in accordance with section 3(b) of the Act, and the time for filing comments and views has expired. The Board has considered the application and all comments received in the light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)) and finds that:

Applicant controls 7 banks with aggregate deposits of $1.3 billion, which amounts to 4.7 percent of the total commercial bank deposits in Texas. (Banking data are as of June 30, 1971, and reflect holding company formations and acquisitions approved through February 29, 1972.) Applicant presently owns 38.8 percent of the voting shares of Bank ($31 million in deposits) and controls it. Consummation of this proposed transaction would merely strengthen an affiliation that has existed since Bank was organized in 1950. On the basis of the record, it appears that consummation of the proposal is not likely to have an adverse effect on existing or potential competition in any relevant area nor would any competing bank be adversely affected.

Acquisition of the remaining stock of Bank would continue Bank's access to qualified personnel and participations in more extensive projects beyond Bank's lending capabilities. Considerations related to the convenience and needs of the communities to be served weigh slightly in favor of approval. The financial and managerial resources and future prospects of applicant and its subsidiaries and of Bank are generally satisfactory and consistent with approval. It is the Board's judgment that the proposed transaction would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the 30th calendar day following the date of this order or (b) later than 3 months after the date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Dallas, pursuant to delegated authority.

By order of the Board of Governors,[3] April 4, 1972.

[SEAL] TYNAN SMITH,
Secretary of the Board.

[FR Doc.72-5447 Filed 4-10-72;8:45 am]

POWHATAN COMMUNITY BANK

Order Approving Application for Merger of Banks

Powhatan Community Bank, Powhatan, Va., a member State bank of the Federal Reserve System, has applied for the Board's approval pursuant to the Bank Merger Act (12 U.S.C. 1828(c)) of the merger of that bank with Bank of Powhatan, Powhatan, Va., under the name of Bank of Powhatan.

As required by the Act, notice of the proposed merger, in form approved by the Board, has been published, and the Board has requested reports on competitive factors from the Attorney General, the Comptroller of the Currency, and the Federal Deposit Insurance Corporation. The Board has considered the application and all comments and reports received in light of the factors set forth in the Act.

On the basis of the record, the application is approved for the reasons summarized in the Board's order of this date relating to the application of Southern Bankshares, Inc. to acquire the Bank of Powhatan, provided that said merger shall not be consummated (a) before the 30th calendar day following the date of this order or (b) later than 3 months after the date of this order, unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Richmond pursuant to delegated authority.

By order of the Board of Governors,[1] April 4, 1972.

[SEAL] TYNAN SMITH,
Secretary of the Board.

SOUTHERN BANKSHARES, INC.

Order Approving Acquisition of Banks

Southern Bankshares, Inc., Richmond, Va., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent of the voting shares (less directors' qualifying shares) of the successors by merger to (1) Bank of Powhatan, Powhatan, Va. (Powhatan Bank), and (2) Bank of Goochland, Goochland, Va. (Goochland Bank).

The banks into which Powhatan Bank and Goochland Bank are to be merged have no significance except as a means of acquiring the voting shares of each Bank. Accordingly, the proposed acquisitions of the successor organizations are treated herein as the proposed acquisitions of the shares of each Bank.

Notice of receipt of the applications has been given in accordance with section 3(b) of the Act, and the time for filing comments and views has expired. The Board has considered the applications and all comments received in the light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)) and finds that:

Applicant controls two banks with total deposits of $120.5 million, representing 1.4 percent of the total deposits in commercial banks in Virginia, and is the State's 11th largest banking organization. (All banking data are as of June 30, 1971, and unless otherwise noted, reflect holding company formations and acquisitions approved through February 29, 1972.) Acquisition of Powhatan Bank (deposits of $30 million) and Goochland Bank (deposits of $14.3 million) would increase Applicant's share of deposits in the State by approximately 0.6 percentage point and advance its rank to 10th in the State. Consummation of the proposed transactions would not significantly increase the concentration of banking resources in the State.

Powhatan Bank is the only banking organization located in Powhatan and Cumberland Counties, which approximates both its primary service area and the relevant banking market. Goochland Bank is the only bank located in its service area approximated by Goochland County. Both Banks serve largely rural counties lying to the west, and adjacent to, the Richmond SMSA. Applicant's lead bank, Southern Bank & Trust Company (SBT), is located in Richmond and serves the Richmond SMSA, which represents a separate banking market from the banking markets in which Powhatan Bank and Goochland Bank compete. SBT's closest office to Powhatan Bank and Goochland Bank is 11 miles and 4.2 miles, respectively, from those institutions. There is minimal competition existing between Powhatan Bank and Goochland Bank, and some competition between the proposed subsidiaries and banks in the Richmond SMSA. However, the competition which exists is not regarded as significant. Moreover, there appears to be no significant incentive for applicant to establish a de novo bank in either of the markets served by Powhatan Bank or Goochland Bank. The Board, therefore, concludes that the effects on existing as well as potential competition resulting from consummation of the proposed acquisitions would be only slightly adverse. Applicant would remain the fifth largest among 12 banking organizations represented in the Richmond SMSA, where it controls 7.3 percent of market deposits. The proposed transactions should have no adverse effect on competing banks.

On the basis of the foregoing, the Board concludes that the competitive effects of the proposal are not inconsistent with approval of the applications, and for the reasons discussed hereinafter, any elimination of existing or potential competition that may result may be regarded as outweighed by the benefits that would result from the proposal.

The financial and managerial resources of Applicant are generally satisfactory and prospects for the group appear favorable. Both Powhatan Bank and Goochland Bank lack successor management, and applicant should be able to provide such management to avert any serious problem from arising. Banking factors, therefore, lend weight toward approval of the application. Although there is no evidence that significant banking needs of the communities involved are going unserved, consummation of the proposed acquisitions will enable both Powhatan Bank and Goochland Bank to initiate new services which will include trust, computer, and credit services as well as give each a larger lending capacity. Convenience and needs considerations lend some weight toward approval. It is the Board's judgment that the proposed transactions would be in the public interest and that the applications should be approved.

On the basis of the record, the applications are approved for the reasons summarized above. The transactions shall not be consummated (a) before the 30th calendar day following the date of this order or (b) later than 3 months after the date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Richmond pursuant to delegated authority.

By order of the Board of Governors,[1] April 4, 1972.

[SEAL] TYNAN SMITH,
Secretary of the Board.

OFFICE OF EMERGENCY PREPAREDNESS

CALIFORNIA

Notice of Major Disaster and Related Determinations

Pursuant to the authority vested in me by the President under Executive Order 11575 of December 31, 1970; and by virtue of the Act of December 31,

[3] Voting for this action: Vice Chairman Robertson and Governors Mitchell, Daane, Brimmer and Sheehan. Absent and not voting: Chairman Burns and Governor Maisel.

[1] Voting for this action: Vice Chairman Robertson and Governors Mitchell, Daane, Brimmer, and Sheehan. Absent and not voting: Chairman Burns and Governor Maisel.

V 37-70 APR 11 72 XUM

1970, entitled "Disaster Relief Act of 1970" (84 Stat. 1744), as amended by Public Law 92-209 (85 Stat. 742); notice is hereby given that on April 5, 1972, the President declared a major disaster as follows:

I have determined that the damages in certain areas of the State of California from severe storms and flooding, beginning about January 20, 1972, are of sufficient severity and magnitude to warrant a major disaster declaration under Public Law 91-606. I therefore declare that such a major disaster exists in the State of California. You are to determine the specific areas within the State eligible for Federal assistance under this declaration.

Notice is hereby given that pursuant to the authority vested in me by the President under Executive Order 11575 to administer the Disaster Relief Act of 1970 (Public Law 91-606, as amended), I hereby appoint Mr. Terrence S. Meade, Disaster Assistance Coordinator, OEP Region 9, to act as the Federal Coordinating Officer to perform the duties specified by section 201 of that Act for this disaster.

I do hereby determine the following areas in the State of California to have been adversely affected by this declared major disaster:

The counties of:

Del Norte. Humboldt.

Dated: April 5, 1972.

MICHIGAN

Notice of Major Disaster and Related Determinations

Pursuant to the authority vested in me by the President under Executive Order 11575 of December 31, 1970; and by virtue of the Act of December 31, 1970, entitle "Disaster Relief Act of 1970" (84 Stat. 1744), as amended by Public Law 92-209 (85 Stat. 742); notice is hereby given that on April 5, 1972, the President declared a major disaster as follows:

I have determined that the damages in certain areas of the State of Michigan from a severe storm and freezing, beginning about March 13, 1972, are of sufficient severity and magnitude to warrant a major disaster declaration under Public Law 91-606. I therefore declare that such a major disaster exists in the State of Michigan. You are to determine the specific areas within the State eligible for Federal assistance under this declaration.

Notice is hereby given that pursuant to the authority vested in me by the President under Executive Order 11575 to administer the Disaster Relief Act of 1970 (Public Law 91-606, as amended), I hereby appoint Mr. Robert E. Connor, Regional Director, OEP Region 5, to act as the Federal Coordinating Officer to perform the duties specified by section 201 of that Act for this disaster.

I do hereby determine the following areas in the State of Michigan to have been adversely affected by this declared major disaster:

The counties of:

Allegan.	Ingham.
Barry.	Jackson.
Calhoun.	Kalamazoo.
Eaton.	

Dated: April 5, 1972.

SECURITIES AND EXCHANGE COMMISSION

[File No. 500-1]

CANADIAN JAVELIN LTD.

Order Suspending Trading

APRIL 5, 1972.

The common stock, no par value, of Canadian Javelin Ltd. being traded on the American Stock Exchange pursuant to provisions of the Securities Exchange Act of 1934 and all other securities of Canadian Javelin Ltd. being traded otherwise than on a national securities exchange; and

It appearing to the Securities and Exchange Commission that the summary suspension of trading in such security on such exchanges and otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

It is ordered, Pursuant to sections 15(c)(5) and 19(a)(4) of the Securities Exchange Act of 1934, that trading in such securities on the above mentioned exchanges and otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period from April 6, 1972, through April 15, 1972.

By the Commission.

[59-114]

DELMARVA POWER & LIGHT CO., ET AL.

Notice of and Order for Hearing

APRIL 5, 1972.

In the matter of Delmarva Power & Light Co., Delmarva Power & Light Company of Maryland, Delmarva Power & Light Company of Virginia, respondents 800 King Street, Wilmington, DE 19899 (59-114).

The Commission having been advised by its Division of Corporate Regulation (Division) that the Division, pursuant to sections 11(a), 18(a), and 18(b) of the Public Utility Holding Company Act of 1935 (Act), has examined the corporate structure of Delmarva Power & Light Co., the corporate structure of its subsidiary companies, the relationships among the companies in the holding company system, the character of the interests thereof and the properties owned or controlled thereby; and it appearing to the Division from such examination that:

I. 1. Delmarva Power & Light Co. (Delmarva), formerly Delaware Power & Light Co., is a corporation incorporated under the laws of Delaware; it maintains its principal offices in the city of Wilmington, Del. Delmarva is both an electric utility company and a gas utility company, and also a holding company registered as such under section 5 of the Act.

2. Delmarva has two subsidiary companies: Delmarva Power & Light Company of Maryland (Delmarva-Md.), a Maryland corporation engaged exclusively in the electric utility business within the State of Maryland; and Delmarva Power & Light Company of Virginia (Delmarva-Va.), a Virginia corporation engaged exclusively in the electric utility business within the Commonwealth of Virginia. As an operating company, Delmarva is engaged within the State of Delaware in the electric, gas, and steam business. Together the utility businesses of Delmarva and its subsidiary companies (Delmarva System) are conducted within these three States in a total area of about 5,700 square miles having a total population in excess of 842,000. Delmarva holds 100 percent of the voting securities of its two utility subsidiaries.

3. (a) The consolidated gross operating revenues of the Delmarva System for the year ended December 31, 1970, amounted to $110,860,715, consisting of $87,195,679 from the sale of electricity; $18,336,942 from the sale of gas; and the balance ($5,328,094) from steam and electric service to a nonaffiliated oil refinery in the State of Delaware. Of the consolidated electric revenues (including steam revenues), about 75 percent were applicable to Delmarva, 21 percent to Delmarva-Md., and 4 percent to Delmarva-Va.

(b) As of December 31, 1970, the property account of the Delmarva System was as follows:

Property, plant, and equipment including intangibles:	
Electric plant	$446,791,693
Gas plant	45,735,801
Steam and Electric (Refinery service)	22,194,539
Common plant	[1] 12,252,986
Total	[1] 526,975,019
Less reserves for depreciation	124,454,451
Net property, plant and equipment including intangibles	$402,520,568

[1] Includes a total of $87,199,722 construction work in progress.

4. (a) The Delmarva System renders retail electric service in 12 municipalities, each with a population in excess of 10,000; of these municipalities, six are in Delaware, two in Maryland and four in Virginia. The System also renders wholesale electric service to 12 municipalities, three REA Cooperatives and two nonaffiliated utility companies. Of these wholesale customers, many of which purchase 100 percent of their electric energy requirements from the Delmarva System, nine municipalities and one Cooperative are located in Delaware; three municipalities, one Cooperative and the two nonaffiliated utilities are located in Maryland; and one Cooperative is in Virginia.

(b) The electric energy to meet the requirements of the Delmarva System in 1970 were supplied largely from four steam-electric generating plants, eight gas-turbine generating units and 10 internal combustion generating plants owned and operated by system companies; and from two mine-mouth steam-electric plants jointly owned with nonaffiliates. At December 31, 1970, the net system effective generating capacity, including 4,500 kw. of leased capacity, was 1,188,800 kw. In 1970, the system companies generated a total of approximately 5.9 billion kilowatt-hours, of which 92 percent was generated by Delmarva, 7 percent by Delmarva-Md. and 1 percent by Delmarva-Va.

5. (a) The service areas of the three companies in the Delmarva System are contiguous, all being located in the "Delmarva Peninsula" region of Delaware, Maryland, and Virginia. The system companies are physically interconnected and intrasystem interchanges of electric power is normal procedure, as more fully indicated in the following description of the electric operations of each of the system companies.

(b) (i) As an electric utility company, Delmarva owns and operates facilities for the generation, transmission and distribution of electric energy for sale. Delmarva's utility operations are conducted in the State of Delaware, where electric service is provided to approximately 145,000 retail customers in six cities and towns including the city of Wilmington, each having a population in excess of 10,000, within an aggregate area of about 2,057 square miles having an aggregate population of about 543,000. Delmarva also sells electric energy for resale to nine municipal utility systems and one REA Cooperative, and interchanges electric energy with Delmarva-Md. and with Philadelphia Electric Co., a nonaffiliate. Interchanges with the latter company are effected through the Pennsylvania-New Jersey-Maryland (PJM) Interconnection System, with which Delmarva is affiliated. In 1970, Delmarva generated 5,437,313,700 kw.-hr. and purchased (exclusive of interchange transactions) 78,934,400 kw.-hr. of energy. Its interchange transactions resulted in net deliveries of 155,405,000 kw.-hr. to Philadelphia Electric Co. and 930,567,900 kw.-hr. to Delmarva-Md. Its bulk sales for resale amounted to 545,844,400 kw.-hr., and its steam-electric service to an oil refinery customer included 7,702,000 pounds of steam. Delmarva's gross operating revenues from the sale of electricity in 1970 amounted to $69,623,410, including revenues of $5,328,094 from the steam-electric refinery service. At December 31, 1970, its gross electric utility plant, including construction work in progress, amounted to $378,503,732.

(ii) Delmarva-Md. owns and operates facilities for the generation, transmission and distribution of electricity for sale in eastern Maryland. Its service area comprises about 3,000 square miles, and its serves about 56,000 customers. In 1970, its total energy sales amounted to 1,184,821,300 kw.-hr., including 149,922,000 kw.-hr. of net interchange deliveries to Delmarva-Va. Its net interchange purchases from Delmarva amounted to about 70 percent of its total energy sales, and the 30 percent balance was derived from its own generation. The total energy sales included 261,777,400 kw.-hr. to nonsystem entities for resale. Gross operating revenues of Delmarva-Md. in 1970 amounted to $19,800,386; it gross utility plant at the end of that year amounted to $89,979,653.

(iii) Delmarva-Va. owns and operates facilities for the generation, transmission, and distribution of electricity in Accomack and Northampton Counties of Virginia. It serves about 12,400 customers in an area of about 666 square miles having a total population of about 37,400. In 1970, its gross operating revenues amounted to $3,298,511, and at the end of that year it had gross utility plant of $12,755,833. Delmarva-Va.'s total extra-System sales of electric energy in 1970 amounted to 165,824,000 kw.-hr., including 36,772,000 kw.-hr. to an REA Cooperative for resale. Its net purchases of interchange energy from Delmarva-Md. represented about 88 percent of these total sales.

II. 6. (a) Delmarva conducts the entire gas utility business of the Delmarva System. Its gross gas utility plant at December 31, 1970, amounted to $45,735,801, or 10.8 percent of its combined electric and gas gross utility plant. In the year ending on that date its gross operating revenues from the sale of gas amounted to $18,336,942, or 20.9 percent of its total gross operating revenues. Delmarva's gas operations are conducted in New Castle County, Del., within territory served by it with electricity. In 1970, it provided gas service to about 73,000 customers in an area including the city of Wilmington, of about 275 square miles having a total population of 382,000.

(b) Natural gas is distributed through approximately 973 miles of gas mains, and is supplemented with propane-air gas during periods of high usage. In 1970, Delmarva was supplied with natural gas by Transcontinental Pipe Line Corp. (Transco). Its contracts with Transco, as of the end of 1970, entitled Delmarva to receive 54,300 mcf per day of firm gas and an additional 30,844 mcf per day of storage and peaking gas during winter months. Delmarva has under construction a storage facility for liquefied natural gas with a storage capacity of 250,000 mcf equivalent, and an output capability of 50,000 mcf per day.

III. It appearing to the Commission, on the basis of the above allegations of the Division of Corporate Regulation, that a proceeding should be instituted under section 11(b)(1) of the Act with respect to the Delmarva Power & Light Co. holding company system:

It is ordered, That a proceeding be and the same hereby is instituted under section 11(b)(1) of the Act with respect to the Delmarva Power & Light Co. and each of its subsidiary companies hereinbefore named, all of which are made respondents herein.

It is further ordered, That a hearing be held at the offices of the Securities and Exchange Commission, 500 North Capitol Street, Washington, DC 20549 at a date later to be specified by the Secretary of the Commission. On such day the hearing room clerk will advise as to the room where such hearing will be held.

It is further ordered, That a Hearing Examiner, hereafter to be designated, shall preside at said hearing. The officer so designated is hereby authorized to exercise all powers granted to the Commission under section 18(c) of the Act and to a hearing officer under the Commission's rules of practice.

The Division of Corporate Regulation having advised the Commission that, upon the basis of its preliminary examination of the Delmarva Power & Light Co. holding company system, the following matters and questions are presented for consideration, without prejudice to its specifying additional matters and questions upon further examination:

(a) Whether the electric utility assets of the Delmarva Power & Light Co. holding company system constitute a single integrated electric utility system or more than one such system;

(b) Whether the gas utility operations of the Delmarva Power & Light Co. holding company system constitute a single integrated gas utility system or more than one such system;

(c) The nature, extent and location of the "single integrated public-utility system" of the Delmarva Power & Light Co. holding company system;

(d) Whether, along with the Delmarva Power & Light Co. holding company system's "single integrated public-utility system," any of its additional electric or gas utility systems may be retained under common control under the provisions of section 11(b)(1) of the Act, specifically Clauses (A), (B), and (C) thereof;

(e) What action is necessary to be taken by the Delmarva Power & Light Co. holding company system to limit the operations of the system to those of a single integrated public-utility system, together with such additional utility systems, and such other businesses, if any, as are retainable under the standards of section 11(b)(1) of the Act;

It is further ordered, That at the aforesaid hearing, consideration be given to the foregoing matters and questions, without prejudice to the presentation of additional matters and questions.

It is further ordered, That the Respondents shall file with the Secretary of the Commission on or before May 22,

V 37-70 APR 11 72 XUM

1972, their joint or several answers in the form prescribed in Rule 25 under the Act admitting, denying, or otherwise explaining their respective positions as to each of the allegations of Parts I and II hereof. The answer should state which of the properties and facilities of the Delmarva Power & Light Co. holding company system constitutes the retainable "single integrated public-utility system." Any such answer may include a statement of the claim of the Respondents, or any of them, as to: (a) The action, if any, which is necessary and should be required to be taken by any of the Respondents (including the divestment of control, securities or other assets), to limit the operations of the system to a single integrated public-utility system; and (b) the extent to which the system should be permitted to continue to control, in addition to its claimed "single integrated public-utility system," one or more additional integrated public-utility systems as may meet the requirements of Clauses (A), (B), and (C) of section 11(b)(1) of the Act. Any such answer may, if such Respondents so desire, state that they propose and are prepared to take such action as will cause them to comply with section 11(b)(1) within the meaning of the Act, together with a description of such action and the time within which they propose to take action.

It is further ordered, That any person, other than the Respondents, desiring to be heard in connection with this proceeding or proposing to intervene therein shall file with the Secretary of the Commission, on or before June 6, 1972, a written request relative thereto as provided in Rule 9 of the Commission's rules of practice. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the Respondents at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. Persons filing an application to participate or be heard will receive notice of the date of hearing or any adjournment thereof as well as other actions of the Commission involving the subject matter of these proceedings.

It is further ordered, That the Secretary of the Commission shall serve notice of the aforesaid by mailing a copy of this Notice of and Order for Hearing by certified mail to each of the respondent companies; the Federal Power Commission; the U.S. Department of Justice; the Maryland Public Service Commission; the Delaware Public Service Commission; the Virginia State Corporation Commission; the city of Wilmington, Del.; and the county of New Castle, Del.; and that notice of said hearing is hereby given to the aforesaid and to all States, municipalities, and political subdivisions of States within which are located any of the physical assets of the respondent companies, to all State commissions, State securities commissions and all agencies, authorities, or instrumentalities of any State, municipality, or other political subdivision having jurisdiction over any of the respondent companies or any of the business affairs or operations of any of them, and to all other interested persons, such notice to be given by a general release of the Commission and by publication of this notice and order in the FEDERAL REGISTER.

By the Commission.

[SEAL] RONALD F. HUNT, *Secretary.*

[FR Doc.72-5485 Filed 4-10-72;8:48 am]

[File No. 24SF-3852]

DINKY'S INC.

Order Temporarily Suspending Exemption, Statement of Reasons Therefor, and Notice of Opportunity for Hearing

APRIL 5, 1972.

I. Dinky's Inc., First National Bank Building, Suite 703, Las Vegas, Nev. 89101, incorporated in the State of Nevada on October 27, 1971, filed with the San Francisco Regional Office a Notification on Form 1-A and an Offering Circular relating to a proposed offering of 100,000 shares of its common stock at $5 per share for an aggregate offering of $500,000, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, pursuant to the provisions of section 3(b) thereof and Regulation A promulgated thereunder. Contemporary Securities Corp., a registered broker-dealer having its principal place of business in New York City, was the named underwriter for the proposed offering.

II. The Commission on the basis of information reported to it by its staff, has reasonable cause to believe that:

A. The Notification and Offering Circular of Dinky's Inc. omit to state material facts necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading and contain untrue statements of material facts, particularly with respect to:

1. The fact that Samuel R. Calabrese and Charles Calabrese were promoters of Dinky's Inc.;

2. The fact that Samuel R. Calabrese was an affiliate of Dinky's Inc.;

3. The fact the Samuel R. Calabrese is the subject of an injunction involving violations of the Federal securities laws; and

4. The issuance and sale of its shares to its officers and directors.

B. The terms and conditions of Regulation A have not been complied with in that:

1. Items 2 and 3 of the notification failed to contain the names of Samuel R. Calabrese and Charles Calabrese;

2. Item 6 of the notification failed to describe the injunction which affects Samuel Calabrese; and

3. Item 9 of the notification failed to reflect accurately the sale of Dinky's Inc. shares and the consideration paid for them.

C. Regulation A is not available to Dinky's Inc. pursuant to Rule 252(d)(2) because Samuel R. Calabrese, a promoter and affiliate of the company, is the subject of a consent injunction enjoining him from other further violations of the Securities Act of 1933 and the Securities Exchange Act of 1934.

D. The offering, if made, would be in violation of sections 5 and 17 of the Securities Act of 1933.

III. It appearing to the Commission that it is in the public interest and for the protection of investors that the exemption of the issuer under Regulation A be temporarily suspended:

It is ordered, Pursuant to Rule 261(a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption of Dinky's Inc. under Regulation A be, and it hereby is, temporarily suspended.

It is further ordered, Pursuant to Rule 7 of the Commission's rules of practice, that the issuer file an answer to the allegations contained in this order within 30 days of the entry thereof.

Notice is hereby given that any person having an interest in the matter may file with the Secretary of the Commission a written request for hearing within 30 days after the entry of this order; that within 20 days after receipt of such request the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission, for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; that, if no hearing is requested and none is ordered by the Commission, this order shall become permanent on the 30th day after its entry and shall remain in effect unless or until it is modified or vacated by the Commission; and that notice of the time and place for any hearing will be promptly given by the by the Commission.

By the Commission.

[SEAL] RONALD F. HUNT, *Secretary.*

[FR Doc.72-5486 Filed 4-10-72;8:48 am]

FINANCIERA METROPOLITANA, S.A., AND INSTITUCION FINANCIERA & FIDUCIERIA

Notice of Filing of Application for Order Exempting Company From Act

APRIL 5, 1972.

Notice is hereby given that Financiera Metropolitana, S.A. Institucion Financiera Y Fiduciería (Applicant), Avenida Juarez No. 42, Eighth Floor, Mexico 1, D.F., Mexico, a Mexican credit institution, has filed an application pursuant to section 6(c) of the Investment Company Act of 1940 (Act) for an order exempting Applicant from all provisions of the Act. All interested persons are referred to the application on file with the Commission for a statement of the material representations therein which are summarized below.

Applicant was incorporated on January 27, 1944, pursuant to Mexican law. Applicant has assets of over $67 million as of June 30, 1971, and states that as of December 31, 1971, its capital stock was held by 17 shareholders. Applicant represents that it does not offer its equity securities to the public, and that its business consists of borrowing money from other lenders, and reloaning the funds borrowed to various enterprises in Mexico.

Applicant's Form S-1 Registration Statement filed with the Commission registering an offering of its Financial Certificates, Series F (Financial Certificates) was declared effective on December 19, 1968, and is currently effective.

Applicant maintains that it should be granted an exemption because the purposes for which the Act is intended are in fact satisfied. Applicant states that its current registration and offering in the United States of its Financial Certificates complies with the provisions of the Trust Indenture Act of 1939. Applicant contends further protection to United States investors is offered by Applicant's currently effective registration covering the offering of its Financial Certificates pursuant to the Securities Act of 1933 (Securities Act).

Applicant represents that it is regulated under Mexican law. All financieras, such as Applicant, are required to deposit with the Bank of Mexico all funds acquired from the sale of financial certificates, bonds, and notes of varying maturities issued by them.

Applicant states that the Bank of Mexico and the Comision Nacional Bancaria (National Banking Commission) establish the basic credit policies of financieras, fix the interest rates which they may pay and charge, and establish their cash reserve requirements, and the types of business in which financieras may engage are explicitly limited by Mexican law. Financieras are prohibited from financing real estate transactions. They may not conduct banking functions such as accepting deposits of money or offering checking accounts. Financieras are also regulated so as to prevent them from acquiring control of other corporations by the purchase of equity securities. They may acquire shares only of those companies registered with the National Securities Commission of Mexico. Special authorization is required to acquire more than 25 percent of the shares of any other corporation. The acquisition of more than 50 percent of the shares of any other corporation is prohibited. Applicant's charter provides for the annual election of one or more "shareholders' examiners," who are charged with observing the conduct of Applicant's business and reporting to the shareholders annually. Such examiners can call shareholder meetings whenever they believe such meetings to be in the interest of shareholders. Business transactions by Applicant with its officers and/or shareholders' examiners are prohibited and such transactions with its board of directors are subject to approval of the disinterested directors.

The Philadelphia National Bank (Trustee), a national banking association duly organized under laws of the United States, and Applicant have entered into a Trust Indenture dated as of November 1, 1968 (Indenture) and Supplemental Indentures thereto dated as of April 1, 1969, May 1, 1970, and February 1, 1972, relating to the issuance of the Financial Certificates. The Trustee prepared a Statement of Eligibility and Qualification under the Trust Indenture Act of 1939 on Form T-1, filed with the Commission on July 19, 1968, as part of Applicant's Securities Act registration statement on Form S-1. Applicant represents the Indenture is made in full compliance with the provisions of the Trust Indenture Act of 1939. The Indenture provides that in the event of default the Trustee may institute proceedings with the National Banking Commission to have Applicant fulfill its obligations with respect to the Financial Certificates. The Trustee is also empowered to institute and prosecute any proceedings to enforce the rights of holders of the Financial Certificates.

Applicant states that the Supplemental Indentures offer U.S. purchasers of Financial Certificates additional rights. A Certificateholder can institute suit against Applicant for claims arising out of the offering of the Financial Certificates or an Event of Default under the Supplemental Indenture. A Certificateholder, who has obtained a judgment in the United States based on such a claim, may direct the Trustee to retain Mexican counsel in his behalf for the purpose of obtaining execution of this judgment in Mexico. In this regard, Applicant has appointed John Hoyt Stookey, an attorney, as its agent for service of process and its authorized representative in the United States.

Section 6(c) of the Act, as here pertinent, authorizes the Commission, by order upon application, conditionally or unconditionally to exempt any person or any class or classes of persons from any provision or provisions of the Act if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than April 26, 1972, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

By the Commission.

[Notice 48]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

APRIL 5, 1972.

The following are notices of filing of applications[1] for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR Part 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 1756 (Sub-No. 22 TA), filed March 22, 1972. Applicant: PEOPLES EXPRESS CO., 497 Raymond Boulevard, Newark, NJ 07105. Applicant's representative: Bert Collins, 140 Cedar Street, New York, NY 10006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Metal containers and container ends*, from the plantsite of National Can Corp., Danbury, Conn., to Cranston, R.I., Elmsford and Long Island City, N.Y., on automated equipment, for 180 days. Supporting shipper: National Can Corp., 5959 South Cicero Avenue, Chicago, IL 60638. Send protests to: Robert S. H. Vance, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 970 Broad Street, Newark, NJ 07102.

No. MC 3854 (Sub-No. 17 TA), filed March 21, 1972. Applicant: BURTON LINES, INC., Post Office Box 11306, East Durham Station, Durham, NC 27703. Applicant's representative: Edward G. Villalon, 1032 Pennsylvania Building, Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer materials*, in containers, from Knoxville and Johnson City, Tenn., to points in North Carolina and points in Virginia in and west of Tazewell and Smyth Counties, Va., for 180 days. Supporting shipper: Agrico Chemical Division, Continental Oil Co., Post Office Box 346, Memphis, TN 38101. Send protests to: Archie W. Andrews, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Post Office Box 26896, Raleigh, NC 27611.

No. MC 30837 (Sub-No. 450 TA), filed March 20, 1972. Applicant: KENOSHA AUTO TRANSPORT CORPORATION, 4200 39th Avenue, Post Office Box 160 (53141), Kenosha, WI 53140. Applicant's representative: Paul L. Martinson (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trucks, truck tractors, chassis, and station wagon type vehicles* on truck chassis designed to transport passenger and property, with or without bodies or parts thereof, in secondary movements, in truckaway service, from Framingham, Mass., and points within 20 miles thereof, to points in Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont. Restriction: Restricted to the transportation of vehicles manufactured or assembled at the IHC Plants at Fort Wayne, Ind.; Springfield, Ohio; San Leandro, Calif., and Chatham, Ontario, Canada, which have had a prior movement by rail or truck, for 180 days. Supporting shipper: International Harvester Co., 401 North Michigan Avenue, Chicago, IL 60622 (J. M. Gamble, General Traffic Manager). Send protests to: District Supervisor Lyle D. Helfer, Interstate Commerce Commission, Bureau of Operations, 135 West Wells Street, Room 807, Milwaukee, WI 53203.

No. MC 85621 (Sub-No. 7 TA), filed March 23, 1972. Applicant: VANN EXPRESS, INC., 620 Line Street, Attalla, AL 35954. Applicant's representative: Henslee & Bradley, Post Office Box 246, Gadsden, AL 35902. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* having a prior or subsequent movement by air except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those commodities requiring special equipment: (1) Between Huntsville Municipal Airport at or near Huntsville, Ala., and points in Alabama as follows: (a) Between Huntsville and Cleveland, Ala., from Huntsville, Ala., over U.S. Highway 431 to its junction with Alabama State Highway 79, thence over Alabama State Highway 79 to its junction with U.S. Highway 231 to Cleveland, Ala., and return over the same route; from Huntsville, Ala., over U.S. Highway 231 and Alabama State Highway 53 to Cleveland, Ala., and return over the same route, serving all intermediate points and the off-route points of Grant, Ala., and the plantsite of Monsanto Chemical Co. near Guntersville, Ala.; (b) between Huntsville and Fort Payne, Ala., from Huntsville, Ala., over U.S. Highway 431 to its junction with Alabama State Highway 79, thence over Alabama State Highway 79 to Scottsboro, Ala., thence over Alabama State Highway 35 to Fort Payne, Ala., and return over the same route, from Huntsville, Ala., thence over U.S. Highway 431 to Albertville, Ala., thence over Alabama State Highway 75 to Rainsville, Ala., and return over the same route, serving all intermediate points and serving the off-route points on Crossville, Dutton, Pisgah, Henegar, and Sylvania, Ala.; (c) between Huntsville and Arab, Ala., serving all intermediate points, from Huntsville, Ala., over U.S. Highway 431 to Guntersville, Ala., thence over Alabama State Highway 69 to Arab, Ala., annd return over the same route, serving all intermediate points;

(2) Between Gadsden Municipal Airport at or near Gadsden, Ala., and points in Alabama as follows: (a) Between Gadsden, Ala., and Valley Head, Ala., from Gadsden, Ala., over U.S. Highway 278 to Attalla, Ala., thence over U.S. Highway 11 and Interstate Highway 59 to Valley Head, Ala., and return over the same route, serving all intermediate points; (b) between Gadsden and Fort Payne, Ala., from Gadsden, Ala., over U.S. Highway 278 to Piedmont, Ala., thence over Alabama State Highway 9 to Centre, Ala., thence over Alabama State Highway 35 to Fort Payne, Ala., and return over the same route, serving all intermediate points; (c) between Gadsden, and Albertville, Ala., from Gadsden, Ala., over U.S. Highway 431 to Albertville, Ala., and return over the same route, serving all intermediate points; (d) between Gadsden and Talladega, Ala., from Gadsden, Ala., over U.S. Highway 278 to Attalla, Ala., thence over Alabama State Highway 77 to Talladega, Ala., and return over the same route, serving all intermediate points; (e) between Gadsden and Collinsville, Ala., from Gadsden, Ala., over U.S. Highway 411 to Centre, Ala., thence over Alabama State Highway 68 to Collinsville, Ala., and return over the same route, serving all intermediate points; (3) between Anniston Municipal Airport at or near Anniston, Ala., and points in Alabama as follows: (a) Between Anniston and Piedmont, Ala., from Anniston, Ala., over Alabama State Highway 21 to Piedmont, Ala., and return over the same route, serving all intermediate points; (b) between Anniston and Gadsden, Ala., from Anniston, Ala., over U.S. Highway 431 to Gadsden, Ala., and return over the same route, serving all intermediate points; (c) between Anniston and Talladega, Ala., from Anniston, Ala., over Alabama State Highway 21 to Talladega, Ala., and return over the same route, serving all intermediate points; (d) between Gadsden and Jacksonville, Ala., from Gadsden, Ala., as specified immediately above to the junction of Alabama State Highway 204 and thence over Alabama State Highway 204 to Jacksonville, Ala., and return over the same route, serving all intermediate points; and

(4) Between Birmingham Municipal Airport at or near Birmingham, Ala., and points in Alabama as follows: (a) between Birmingham, Ala., and Cleveland, Ala., serving all intermediate points and the off route points of Oneonta, Ala., and Altoona, Ala., from Birmingham, Ala., over Alabama State Highway 79 to Cleveland, Ala., and return over the same route; (b) between Birmingham, and Attalla, Ala., serving all intermediate points; from Birmingham, Ala., over U.S. Highway 11 and Interstate Highway 59 to Attalla, Ala., and return over the same route; (c) between Birmingham, Ala., Anniston, Ala., serving all intermediate points, from Birmingham, Ala., over U.S. Highway 78 to its junction with Alabama State Highway 202 to Anniston, Ala.; and return over the same route; (d) between Birmingham, and Oxford, Ala., from Birmingham, Ala., as specified immediately above and thence over U.S. Highway 78 to Oxford, Ala., and return over the same route, serving all intermediate points. Restriction: The authority is restricted against traffic moving as follows: (1) Traffic moving between Birmingham and Attalla-Gadsden, Ala.; (2) Traffic moving between Birmingham and Huntsville, Ala.; (3) Traffic moving between Birmingham and Anniston, Ala.; and (4) Traffic moving between Birmingham and Talladega, Ala., for 180 days. NOTE: The following above-described routes shall be tacked or joined with one another for the purpose of performing a through service. Supported by: There are approximately 39 statements of support attached to the application, which may be examined here at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: Clifford W. White, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 814, 2121 Building, Birmingham, Ala. 35203.

No. MC 106603 (Sub-No. 119 TA), filed March 16, 1972. Applicant: DIRECT TRANSIT LINES, INC., 200 Colrain Street SW., Grand Rapids, MI 49508. Applicant's representative: Louis E. Cain (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Urethane and urethane products, urethane roofing and insulation and materials* used in the installation thereof, from the plantsite of the Philip Carey Co., Division of Panacon Corp., Elizabethtown, Ky., to points in Illinois, Indiana, Iowa, Michigan, Minnesota, Missouri, New York, Ohio, Pennsylvania, West Virginia, and Wisconsin, for 180 days. Supporting shipper: Charles C. Kreutz, corporation manager of transportation, the Philip Carey Co., Division of Panacon Corp., 320 South Wayne Avenue, Cincinnati, OH 45215. Send protests to: C. R. Flemming, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 225, Federal Building, Lansing, Mich. 48933.

No. MC 107295 (Sub-No. 609 TA), filed March 22, 1972. Applicant: PRE-FAB TRANSIT CO., 100 South Main Street, Post Office Box 146, Farmer City, IL 61842. Applicant's representative: Bruce J. Kinnee (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Pipe and tubing* (other than iron or steel), *fittings, connections, valves, hydrants, gaskets and pipe cement, and accessories used in the installation thereof*, from Henderson, Ky., and Evansville, Ind., to points in Minnesota, Wisconsin, Michigan, Iowa, Illinois, Indiana, Ohio, Kentucky, Tennessee, Mississippi, Louisiana, Arkansas, Missouri, and Kansas, for 180 days. Supporting shipper: Donald Orth, purchasing agent, Crealine Plastic Pipe Co., Inc., 955 Diamond Avenue, Evansville, IN 47717. Send protests to: Harold C. Jolliff, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 325 West Adams Street, Room 476, Springfield, IL 62804.

No. MC 108859 (Sub-No. 58 TA), filed March 15, 1972. Applicant: CLAIRMONT TRANSFER CO., 1803 South Seventh Avenue, North, Escanaba, MI 49829. Applicant's Representative: Wilmer J. Wery (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, livestock commodities in bulk, household goods as defined by the Commission, classes A and B explosives, those requiring special equipment, and those injurious or contaminating to other lading, between Negaunee and Gwinn, Mich., over Michigan Highway 35, serving all intermediate points, between Marquette and Gwinn, Mich., via Marquette County Highway 553, and U.S. Highway 35, serving all intermediate points, for 180 days. NOTE: Applicant states it does intend to tack the authority with MC 108859. Supporting shippers: Paul G. Ameen, partner, Ameen Transfer Line, Marquette, Mich. 49855; H. G. Arbitee, owner, Arbitee's Sport Shop, Sands-Star Route, Gwinn, Mich. 49841; Gerald Froberg, owner, G. Froberg Co.,

[1] Except as otherwise specifically noted, each applicant (on applications filed after March 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

V 37-70 APR 11 72 XUM

Gwinn, Mich. 49841; Edward Mussatto, owner, Gambles, Gwinn, Mich. 49841; Gerald Froberg, owner, Froberg's Clothing, Gwinn, Mich. 49841; Brideson Wills, assistant superintendent, Gwinn Public Schools, Gwinn, Mich. 49841. Send protests to: C. R. Flemming, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 225, Federal Building, Lansing, Mich. 48933.

No. MC 111045 (Sub-No. 93 TA), filed March 23, 1972. Applicant: REDWING CARRIERS, INC., Post Office Box 426, 7809 Palm River Road, Tampa, FL 33601. Applicant's representative: J. V. McCoy (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Crude oil*, in bulk, in tank vehicles, from points in Escambia and Santa Rosa Counties, Fla., and Escambia County, Ala., to Mobile, Ala., for 180 days. Supporting shipper: Sun Oil Co., 907 South Detroit Avenue, Post Office Box 2039, Tulsa, OK 74101. Send protests to: District Supervisor Joseph B. Teichert, Interstate Commerce Commission, Bureau of Operations, 5720 Southwest 17th Street, Room 105, Miami, FL 33155.

No. MC 113267 (Sub-No. 278 TA), filed March 20, 1972. Applicant: CENTRAL & SOUTHERN TRUCK LINES, INC., 312 West Morris Street, Caseyville, IL 62232. Applicant's representative: Lawrence A. Fischer (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Piece goods, cotton or synthetic*, finished or unfinished, from Opelika, Pepperell, and Sylacauga, Ala., Augusta, Columbus, and Thomaston, Ga., Erwin, Greensboro, and Haw River, N.C., Graniteville and Greenville, S.C., and Brenham, Tex.; (2) *hardware*, from Lawrenceburg, Ky.; (3) *thread*, from Ft. Wayne, Ind., and Kansas City, Mo.; and (4) *zippers*, from St. Louis, Mo., to LeMars, Sheldon, Sioux City, Spencer and Storm Lake, Iowa, for 180 days. Supporting shipper: Wm. E. MOTOR CARRIER TRANSFER PROCEEDINGS

Synopses of orders entered pursuant to section 212(b) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC–FC–73353. By order of April 4, 1972, the Motor Carrier Board approved the transfer to Anthony George Forbeck, doing business as Lake Geneva Warehouse & Transfer Co., 910 Madison Street, Lake Geneva, WI 53147, of the operating rights in certificate No. MC–79498 issued March 14, 1956, to Harry J. LaDuc, doing business as Lake Geneva Warehouse & Transfer Co., 910 Madison Street, Lake Geneva, WI 53147, authorizing the transportation of household goods, as defined by the Commission, between Lake Geneva, Wis., and points in Wisconsin within 25 miles thereof, on the one hand, and, on the other, points in Illinois.

No. MC–FC–73354. By order of April 4, 1972, the Motor Carrier Board approved the transfer to Anthony George Forbeck and Jennifer K. Forbeck, a partnership, doing business as Whitewater Transfer Co., 910 Madison Street, Lake Geneva, WI 53147, of the operating rights in certificate N. MC–117402 issued December 14, 1970, to Harry J. LaDuc and Marian R. LaDuc, a partnership, doing business as Whitewater Transfer Co., 910 Madison Street, Lake Geneva, WI 53147, authorizing the transportation of household goods, as defined by the Commission, between Whitewater, Wis., and points within 5 miles thereof, on the one hand, and, on the other, specified points in Illinois, and office furniture and equipment, and store fixtures, between points in Jefferson, Rock, and Walworth Counties, Wis., on the one hand, and, on the other, specified points in Illinois.

No. MC–FC–73477. By order of April 4, 1972, the Motor Carrier Board approved the transfer to David J. Ariola and Albert J. Ariola, a partnership, doing business as McHenry's Motor Service, Bellwood, Ill., of the certificate of registration in No. MC–100694 (Sub-No. 3), issued March 6, 1964, to John T. McHenry, doing business as McHenry's Motor Service, Chicago, Ill., evidencing a right to engage in transportation in interstate or foreign commerce corresponding in scope to the authority granted in certificate No. 2646MC dated May 19, 1954, issued by the Illinois Commerce Commission. Robert H. Levy, 29 South LaSalle Street, Chicago, IL 60063, attorney for applicants.

No. MC–FC–73576. By order of March 31, 1972, the Motor Carrier Board approved the transfer to Gerald N. Evenson, Inc., Pelican Rapids, Iowa, of Permit No. MC–133883 (Sub-No. 2), issued May 24, 1971, to Gerald Evenson, Pelican Rapids, Iowa, authorizing the transportation of: Kitchen and bathroom cabinets, from Fergus Falls, Minn., to points in the United States except Alaska and Hawaii, and return of materials and supplies from specified States to Fergus Falls, Minn.

[No. 35558]

ARKANSAS

Intrastate Freight Rates and Charges, 1972

Order. At a session of the Interstate Commerce Commission, Division 2, held at its office in Washington, D.C., on the 7th day of March 1972.

By petition filed February 10, 1972, Chicago, Rock Island, and Pacific Railroad Co., The Kansas City Southern Railway Co., Louisiana & Arkansas Railway Co., Missouri Pacific Railroad Co., St. Louis-San Francisco Railway Co., and St. Louis Southwestern Railway Co., carriers by railroad within the State of Arkansas, state that the Arkansas Transportation Commission has not permitted increases in the intrastate rates and charges on soybean meal as permitted by this Commission on interstate commerce in Ex Parte Nos. 265, "Increased Freight Rates, 1970 and 1971," 339 ICC 125, nor has the Arkansas Commission permitted increases in the intrastate rates and charges on any traffic comparative to the increases permitted by this Commission on interstate commerce in Ex Parte No. 267, "Increased Freight Rates, 1970 and 1971," 339 ICC 125; and

It appearing, that the petitioners allege that the increases were authorized on interstate commerce based on revenue needs of the carriers and that the interstate rates are just and reasonable; that interstate and intrastate movements from, to, and between points in Arkansas are generally commingled and handled in the same trains; and that intrastate traffic is transported under conditions no more favorable than those surrounding interstate traffic; that the rates imposed by the Arkansas Commission, to the extent they fail to include increases sought herein, applied in the intended sequence on intrastate commerce within the State of Arkansas, deprive the petitioners of badly needed revenue; result in undue and unreasonable advantage to shippers and receivers in Arkansas intrastate commerce, and in undue and unreasonable prejudice to shippers of interstate traffic, to, from, and through Arkansas; and result in undue, unreasonable, and unjust discrimination against, and an undue burden upon, interstate commerce; thus, petitioners request that the Commission institute an investigation, under sections 13 and 15a(2) of the Interstate Commerce Act, of the Arkansas intrastate rates as more fully described above, and enter an order removing the alleged unlawfulness; and

V 37-70 APR 11 72 XUM

that special expedition be given to the hearing and decision in this proceeding;

And it further appearing, that there have been brought in issue by the railroad petitioners matters sufficient to require an investigation into the lawfulness of intrastate rates and charges made or imposed by the State of Arkansas; therefore,

It is ordered, That the petition be, and it is hereby granted.

It is further ordered, That an investigation be, and it is hereby instituted under sections 13 and 15a(2) of the Interstate Commerce Act to determine whether the intrastate rates and charges of the petitioning carriers by railroads, or any of them, operating in the State of Arkansas, for the intrastate transportation of property, made or imposed by the State of Arkansas, as previously indicated, cause or will cause, by reason of the failure of such rates and charges to include increases corresponding to those authorized on interstate traffic by this Commission in Ex Parte No. 265, Increased Freight Rates, 1970, supra, on soybean meal, and Ex Parte No. 267, Increased Freight Rates, 1971, supra, on all traffic, any undue or unreasonable advantage, preference, or prejudice, as between persons or localities in intrastate commerce on the one hand, and those in interstate commerce, on the other, or any undue, unreasonable, or unjust discrimination against, or undue burden on, interstate or foreign commerce, and to determine what rates and charges, if any, or what maximum, or minimum, or maximum and minimum, rates and charges should be prescribed to remove the unlawful advantage, preference, discrimination or undue burden, if any, that may be found to exist.

It is further ordered, That all carriers by railroad operating within the State of Arkansas, subject to the jurisdiction of this Commission, be, and they are hereby, made respondents to this proceeding.

It is further ordered, That any person intending to participate in this proceeding by submitting initial or reply statements, or otherwise, shall notify this Commission, by filing with the Secretary, Interstate Commerce Commission, within 30 days of the service date of this order, the original and one copy of a statement of his intention to participate. Inasmuch as the Commission desires wherever possible (a) to conserve time, (b) to avoid unnecessary expense to the public, and (c) to require the service of pleading by parties in proceedings of this type only upon those who intend to take an active part in the proceeding, the statement of intention to participate shall include a detailed specification of the extent of such person's interest, including (1) whether such interest extends merely to receiving Commission releases in this proceeding, (2) whether he genuinely wishes to participate by receiving or filing initial and/or reply statements, (3) if he desires to participate as described in (2), whether he will consolidate or is capable of consolidating his interests with those of other interested parties by filing joint statements in order to limit the number of copies of pleadings that need be served, such consolidation of interests being strongly urged by the Commission, and (4) any other pertinent information which will aid in limiting the service list to be issued in this proceeding; that this Commission shall then prepare and make available to all such persons a list containing the names and addresses of all parties desiring to participate in this proceeding and upon whom copies of all statements must be filed; and that at the time of service of this service list the Commission will fix the time within which initial statements and replies must be filed.

It is further ordered, That a copy of this order be served upon each of the said petitioners, and that the State of Arkansas be notified by sending copies of this order and the said petition by certified mail to the Governor of Arkansas, Little Rock, Ark., and to the Arkansas Transportation Commission, Little Rock, Ark.

And it is further ordered, That notice of this proceeding be given to the public by depositing a copy of this order in the office of the Secretary of the Commission at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register, for publication therein. Interested persons shall be afforded the opportunity to inspect the pleadings at the Office of the Secretary of the Commission in Washington, D.C.

By the Commission, Division 2.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[Ex Parte 265]

ALGERS, WINSLOW AND WESTERN RAILROAD CO. ET AL.

Increased Freight Rates, 1970

It appearing, that pursuant to the provisions of the report and order of the Commission entered March 4, 1971 (339 ICC 125) the parties to these proceedings listed in Appendix A below of this order have severally petitioned the Commission for relief from the provisions of the order in Ex Parte No. 265, entered on March 4, 1971 (339 ICC 125 p. 307), requiring the filing with the Commission of quarterly reports on or before July 1, October 1, January 1, and March 1 of each year, describing their actions to correct service deficiencies set forth in the aforesaid report of the Commission.

It further appearing, that the record in these proceedings and the quarterly reports submitted by these petitioners in response to the order of the Commission disclose that the operations of the carriers listed in Appendix A below of this order do not have a significant effect on the overall standards of service given to shippers by the railroads as a whole.

It is ordered, That the parties named in Appendix A below of this order be, and they are hereby, relieved of filing with the Commission quarterly reports of their actions to correct service deficiencies.

Dated at Washington, D.C., this 28th day of March 1972.

By the Commission, Commissioner Walrath.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[Ex Parte 265]

BIRMINGHAM SOUTHERN RAILROAD CO. ET AL.

Increased Freight Rates, 1970

It appearing, that pursuant to the provisions of the report and order of the Commission entered March 4, 1971 (339 ICC 125), the carriers listed below have severally petitioned the Commission for relief from the provisions of the order in Ex Parte No. 265, entered on March 4, 1971 (339 ICC 125 p. 307), requiring the filing with the Commission of quarterly reports on or before July 1, October 1, January 1, and March 1 of each year, describing their actions to correct service deficiencies set forth in the aforesaid report of the Commission:

Birmingham Southern Railroad Co.;
New York, Susquehanna and Western Railroad Co.;
Union Railroad Co.;
Upper Merion and Plymouth Railroad Co.

It further appearing, that the record in these proceedings and the quarterly reports submitted by these petitioners in response to the order of the Commission disclose that the operations of the carriers listed herein have a significant effect on the overall standards of service given to shippers by the railroads as a whole; and that the petitions state no errors or fact or law warranting the relief sought, and for good cause appearing;

It is ordered, That the petitions be, and they are hereby denied.

Dated at Washington, D.C., this 31st day of March 1972.

By the Commission, Commissioner Walrath.

Know your Government...

The Manual describes the creation and authority, organization, and functions of the agencies in the legislative, judicial, and executive branches.

Most agency statements include new "Sources of Information" listings which tell you what offices to contact for information on such matters as:

- Consumer activities
- Environmental programs
- Government contracts
- Employment
- Services to small businesses
- Availability of speakers and films for educational and civic groups

This handbook is an indispensable reference tool for teachers, students, librarians, researchers, businessmen, and lawyers who need current official information about the U.S. Government.

FEDERAL REGISTER
Area Code 202 Phone 962-8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended (44 U.S.C. 1510). The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

Title 3—The President

EXECUTIVE ORDER 11666

Qualification for the Investment Credit on Certain Articles and Classes of Articles of Predominantly Foreign Origin

By virtue of the authority vested in me by section 48(a)(7)(C) of the Internal Revenue Code of 1954, as amended (26 U.S.C. 48(a)(7)(C)), and having determined that the application of section 48(a)(7)(A) to the articles or class of articles described herein is not in the public interest, it is hereby ordered that section 48(a)(7)(A) shall not apply to an acquisition by the taxpayer of:

(a) Any article the unit cost of which to the taxpayer is not in excess of $500; or

(b) Agricultural implements, machinery, and equipment which are determined by the Secretary of the Treasury to be free of duty under an item of the tariff schedules of the United States (19 U.S.C. 1202), lists of the items to be published from time to time in the FEDERAL REGISTER.

The provisions of this Executive Order shall apply to property described herein acquired pursuant to an order placed by the taxpayer after August 15, 1971, and before December 20, 1971.

Richard Nixon

THE WHITE HOUSE,
April 11, 1972.

Rules and Regulations

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

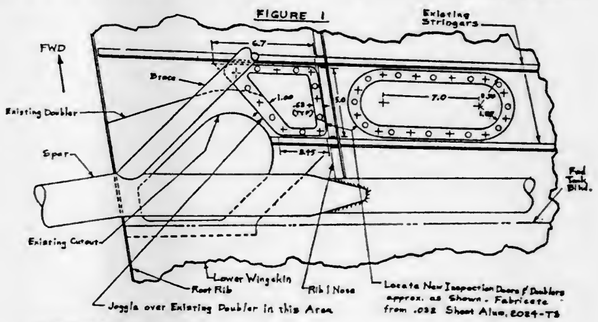
[Docket No. 72-CE-9-AD, Amdt. 39-1432]

PART 39—AIRWORTHINESS DIRECTIVES

Beech Model 18 Series Airplanes

The following Airworthiness Directives currently affect Beech Model 18 series airplanes, namely; AD 67-16-1 (Amendments 39-419, 39-430, 39-441, 39-643, and 39-715); AD 67-20-2 (Amendment 39-437); and AD 71-11-5 (Amendment 39-1214). These ADs require various inspections of the wing spar center section truss on these series airplanes. The agency believes that the number of ADs pertaining to the same subject matter may be causing unnecessary confusion for users. In addition, the inspection procedures set forth in the ADs need clarification. Also some criteria for minimum allowable X-ray and magnetic particle inspection equipment should be included. Finally, an improved optional design for inspection cutout is needed because some users feel the present cutout shown in AD 71-11-5 is inadequate. Accordingly, a new AD is being issued which will supersede ADs 67-16-1, 67-20-2, and 71-11-5. It will encompass all the pertinent information contained in the superseded ADs as well as correcting the deficiencies listed above.

Since this amendment provides clarification, it imposes no additional burden on any person. Consequently, notice and public procedure hereon are impracticable and good cause exists for making the amendment effective in less than thirty (30) days.



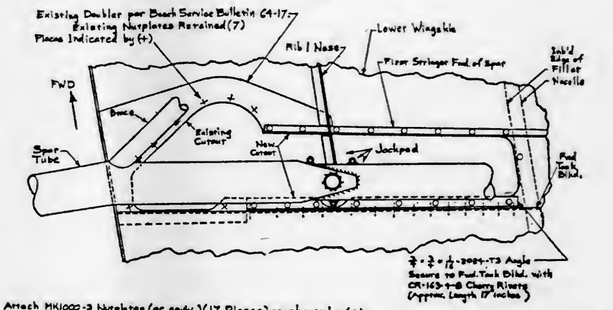
In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator, 14 CFR 11.89 (31 F.R. 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new AD.

BEECH. Applies to all serial numbers of Models C18S, AT-11, C-45, C45A, UC-45B, UC-45F, AT-7, AT-7A, AT-7B, AT-7C, JRB-1, JRB-2, JRB-3, JRB-4, SNB-1, SNB-2, SNB-2C, D18S, D18C, C-45G, TC-45G, C-45H, TC-45H, TC-45J (SNB-5), JRB-6, E18S, E18S-9700, G18S, 3N, 3NM, 3TM, D18C-T and RC-45J (SNB-5P), and H18 airplanes with Serial Nos. BA-730 and below; and to aircraft of the above models subsequently redesignated under a Supplemental Type Certificate, except those modified under the Supplemental Type Certificates listed in paragraph D hereof or any other airplane which has been modified in accordance with an STC which specifically exempts said aircraft from the requirements of this AD.

To prevent possible wing failure, for airplanes with 1,500 or more total hours' time in service on the effective date of this AD or airplanes that subsequently accumulate 1,500 total hours' time in service after that date, in order to detect cracks in the elliptical front spar lower cap of the wing center section, accomplish the following within the next 50 hours' time in service after the effective date of this AD (or 500 hours' time in service after the last complete AD 67-16-1/71-11-5 inspection, if applicable), and thereafter at intervals not to exceed 500 hours' time in service from the date of the date of the last inspection. (These inspections may be performed at one time or may be staggered, provided that no given area exceeds 500 hours' time in service between inspections.)

(A) Modify the lower wing skin in accordance with Figure (1) of Figure (2) or an FAA-approved equivalent to facilitate the inspections specified in paragraph B.

FIGURE 1



OPERATIONS:
Drill #10 (.193) hole thru new doors, wingskin & doublers as shown by (O) 19 places (approx. 2.4" spacing).
Attach (19) nutplates to doublers with countersunk AD3 rivets. (MK1000-3 Nutplates Recommended).
Attach doublers to skin with AD4 rivets shown by (+) 19 places (approx. 2.4" spacing).
Install doors on lower side with #10 screws 19 places.

(B) Inspect the elliptical front/lower spar cap of the wing center section by visual, X-ray and magnetic particle methods in an area adjacent to each of the following locations: (Each location is identified by its approximate wing station (WS) as shown on Figure (3).)

Right Hand Wing Shown – View Looking Aft at Main Spar
Left Hand Opposite
* INDICATES AREAS TO BE INSPECTED PER THIS A.D.
† SEE AD 64-21-1, part (b) and AD 64-21-3, part (b).

FIGURE 3

WS 90, tips of clevis fitting tangs, upper and lower.

WS 81 and 73, toes of slide tube cluster gussets.

WS 64 and 57, toes of the nacelle inboard cluster gussets.

WS 46 and 43, both sides of jackpad cluster.

WS 32, tips of wing splice plate at junctures with fore and aft sides of elliptical tube.

Where possible, inspect the upper and lower surfaces, but where access does not permit visual or magnetic particle inspection of the lower half of the spar cap, inspection of the upper half will suffice. However, at the wing fitting area, WS 90, inspection shall be directed to both top and bottom sides of the spar cap. Also, at the splice plate area, WS 32, the inspection shall be directed to the toes of the weld on the forward and aft sides of the spar cap. X-ray inspection must follow MIL-STD-453, which is general. Specific instructions are given in Beech Service Bulletins 64-15, 64-16, 64-17 and 66-10, Rev. II. Sensitivity of the radiograph must be adequate to discern the outline of the 0.010-inch hole in a 0.005-inch thick steel penetrameter. The radiation source is taped beneath the wing, the penetrameter is taped on the lower side of the spar cap, and the film is placed on top of the spar cap. Magnetic particle inspection equipment must be equivalent to that specified in Beech Service Bulletins 64-15, 64-16, 64-17 and 66-10, Rev. II. These bulletins contain pertinent information on the subject.

(C) If as a result of such inspections, cracks are found in the lower spar cap, before further flight, either replace the affected part or repair it in accordance with a method approved by the Chief, Engineering and Manufacturing Branch, FAA, Central Region. The following approved repair kits are currently available from Beech:

Kit No.	Spar locations (Fig. (3))	Wing
18-4024-1	81, 73, 64, and 57	Left.
18-4024-2	81, 73, 64, and 57	Right.
598	77 (Sprocket Supt)	Both.
791	32	Do.
792-1	81 and 73—Tail wheel	Do.
792-5	81 and 73—Trigear	Do.

Beech will fabricate repairs for locations 46 and 43 upon request.

(D) The STC modifications listed below exempt an airplane from inspections required by this AD. Each applies to all models listed on Aircraft Specifications A-765 and A-757 with minor exceptions. Each is compatible with the Volpar trigear modifications.

STC No. and holder	Address	Spar area beefed up
SA1192WE, Aircraft Tank Service.	10201 Cohasset St., Burbank, CA 91504.	Center section only.
SA1532WE, Hamilton Aircraft Co.	Post Office Box 11427, International Airport, Tucson, AZ 85706.	Do.
SA832SW, Dee Howard Co.	Post Office Box 16216, San Antonio, TX 78216.	Do.
SA806SW, Dee Howard Co.	Post Office Box 16216, San Antonio, TX 78216.	Outboard wing, goes with SA833SW.
SA2000WE, Hamilton Aircraft Co.	Post Office Box 11427, International Airport, Tucson, AZ 85706.	Full span.
SA643CE, Ray M. Jourdan.	11001 East 59th, Raytown, MO 64133.	Center section only.

(E) Notification in writing must be sent to the Chief, Engineering and Manufacturing Branch, FAA, Central Region, stating the location and length of any cracks found during inspections required by this AD and the total time on the aircraft when the crack was discovered. (Reporting approved by the Bureau of the Budget under BOB No. 04-R0174.)

For those aircraft which have not been previously inspected per AD 67-16-1, the initial inspection shall be reported as above, whether cracks are found or not.

This AD supersedes AD 67-16-1 (Amendments 39-419, 39-430, 39-441, 39-643 and 39-715); AD 67-20-2 (Amendment 39-437); and AD 71-11-5 (Amendment 39-1214).

NOTE: Part (b) of AD 64-21-1 and Part (b) of AD 64-21-3 requiring magnetic particle inspection of the nacelle area and slide tube cluster, remain in effect.

This amendment becomes effective April 13, 1972.

Sec. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Kansas City, Mo., on March 31, 1972.

JOHN M. CYROCKI,
Director, Central Region.

[FR Doc.72-5460 Filed 4-11-72;8:45 am]

[Docket No. 72-SO-33, Amdt. 39-1433]

PART 39—AIRWORTHINESS DIRECTIVES

Piper PA-28 and PA-32 Series Airplanes

There have been cracks in the main landing gear torque links on Piper PA-28 and PA-32 series airplanes that have resulted in failure of the torque link. Since this condition is likely to exist or develop in other airplanes of the same type design, an airworthiness directive is being issued to require inspection of the main landing gear torque links on Piper Model PA-28 and PA-32 airplanes.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 F.R. 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

PIPER: Applies to Model PA 28-140 airplanes, Serial Numbers 28-20000 and up; Model PA 28-150/-160/-180 airplanes, Serial Numbers 28-01 and up; Model PA 28-235 airplanes, Serial Numbers 28-10000 and up; Model PA 32-260 airplanes, Serial Numbers 32-01 and up; and Model PA 32-300 airplanes, Serial Numbers 32-40000 and up. Serial Numbers prefixed by model year, such as 28-7120000 are included in effectivity.

For airplanes having main landing gear torque links, P/N 65691-00 or P/N 65691-00V, compliance required within the next 50 hours or torque link time in service from the effective date of this AD, or before the accumulation of 750 hours of torque link time in service, whichever occurs later, unless already accomplished in the last 450 hours of torque link time in service. Repetitive inspections are required at intervals not to exceed 500 hours of torque link time in service from last inspection.

To detect cracks adjacent to the 2½" diameter machined boss in any of the four main landing gear torque links (Piper Part No. 65691-00 or 65691-00V) accomplish the following:

(a) Remove paint at least 1 inch away from the large boss by any suitable means which does not leave a wax residue.

(b) Clean this area for inspection and allow to dry if necessary.

(c) Inspect for cracks by any of the following methods:

(1) Visually with the aid of at least a 10 power magnifying glass.

(2) Flourescent or dye penetrant inspection.

(3) FAA approved equivalent inspection.

(d) If cracks are present, replace the torque links with serviceable torque links of the same part number before further flight, except that the airplane may be flown in accordance with FAR 21.197 to a base where installation can be performed.

Piper Service Letter No. 600 pertains to this same subject; however, compliance times must be in accordance with the provisions of this AD.

Operators who have not kept records of hours time in service on individual torque links shall substitute airplane hours time in service in lieu thereof.

Previous AD's 67-20-4 and 70-18-5, concerning main landing gear torque links, are still applicable. Piper Kit No. 757-123 as mentioned in these AD's contains appropriate hardware for torque link installation and may be reused.

This amendment becomes effective April 14, 1972.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in East Point, Ga., on April 3, 1972.

DUANE W. FREER,
Acting Director, Southern Region.

[FR Doc.72-5524 Filed 4-11-72;8:45 am]

[Airspace Docket No. 72-SO-7]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On March 17, 1972, F.R. Doc. No. 72-4057 was published in the FEDERAL REGISTER (37 F.R. 5605), amending Part 71 of the Federal Aviation Regulations by altering the Statesboro, Ga., transition area.

In the amendment, the geographic coordinate for the Statesboro RBN was cited as lat. 32°28'50" N., long. 81°-44'22" W. Refined plotting by National Ocean Survey disclosed that the Statesboro RBN is located at lat. 32°28'27" N., long. 81°44'40" W. It is necessary to amend the FEDERAL REGISTER document to reflect this change. Since this amendment is minor in nature, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, effective immediately, F.R. Doc. 72-4057 is amended as follows: In lines six and seven of the Statesboro, Ga., transition area description "• • • (lat. 32°28'50" N., long. 81°44'22" W.) • • •" is deleted and "• • • (lat. 32°28'27" N., long. 81°44'40" W.) • • •" is substituted therefor. • • •

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in East Point, Ga., on April 3, 1972.

DUANE W. FREER,
Acting Director, Southern Region.

[FR Doc.72-5535 Filed 4-11-72;8:45 am]

[Airspace Docket No. 72-SW-22]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Revocation of Control Zone

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to revoke the part-time control zone at Walnut Ridge, Ark.

At Walnut Ridge, Ark., there has been a part-time control zone. The effective hours of the control zone were continuously published in the Airman's Information Manual (AIM), Part 3.

Among the requirements for any control zone is the necessity for a federally certified weather observer who must take hourly and special weather observations at the primary airport (the airport upon which the control zone is designated). These observations must be made during the days and hours the control zone is effective. At Walnut Ridge, Ark., there has not been a federally certified weather observer available for approximately 1 year. The entry in the AIM, Part 3, was changed to state that the Walnut Ridge, Ark., control zone was "not in effect"; however, aeronautical charts have continued to depict the Walnut Ridge, Ark., control zone. This could place an undue burden on the flying public as there has not been a control zone in effect at Walnut Ridge, Ark.

In view of the above, the Walnut Ridge, Ark., control zone is being revoked. Should a federally certified weather observer subsequently become available who will provide all hourly and special weather observations, the Walnut Ridge, Ark., control zone can again be designated.

The area of Walnut Ridge, Ark., will continue to be served by the existing 700-foot Walnut Ridge transition area as well as the overlying 1,200-foot State of Arkansas transition area. Instrument approach capability will continue to exist at Walnut Ridge, Ark.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective immediately, as herein set forth.

In § 71.171 (37 F.R. 2056), the Walnut Ridge, Ark., control zone is revoked.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act 49 U.S.C. 1655(c))

Issued in Fort Worth, Tex., on April 3, 1972.

R. V. REYNOLDS,
Acting Director, Southwest Region.

[FR Doc.72-5536 Filed 4-11-72;8:45 am]

[Docket No. 11848, Amdt. 805]

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Miscellaneous Amendments

This amendment to Part 97 of the Federal Aviation Regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Procedures (SIAP's) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAP's for the changes and additions covered by this amendment are described in FAA Forms 3139, 8260-3, 8260-4, or 8260-5 and made a part of the public rule making dockets of the FAA in accordance with the procedures set forth in Amendment No. 97-696 (35 F.R. 5609).

SIAP's are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20591. Copies of SIAP's adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAP's may be purchased from the FAA Public Document Inspection Facility, HQ-405, 800 Independence Avenue SW., Washington, DC 20591, or from the applicable FAA regional office in accordance with the fee schedule prescribed in 49 CFR 7.85. This fee is payable in advance and may be paid by check, draft or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of $125 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation Regulations is amended as follows, effective on the dates specified:

1. Section 97.23 is amended by establishing, revising, or canceling the following VOR-VOR/DME SIAP's, effective May 11, 1972.

Atlantic City, N.J.—NAFEC Atlantic City/Pomona Airport; VOR Runway 4, Amdt. 10; Revised.

Cheyenne, Wyo.—Cheyenne Municipal Airport; VOR-A, Amdt. 1; Revised.

V 37-71 APR 12 72 XUM

Ely, Nev.—Ely-Yelland Field; VOR-A, Amdt. 2; Revised.

Title 32—NATIONAL DEFENSE

Chapter V—Department of the Army

SUBCHAPTER A—AIDE OF CIVIL AUTHORITIES AND PUBLIC RELATIONS

PART 504—PUBLIC INFORMATION ACTIVITIES

Release of Information by Manufacturers, Research Organizations, Educational Institutions Holding Army Contracts, and Other Commercial Entities

Sections 504.31–504.33 are revised and §§ 504.34 and 504.35 are revoked. The revisions and revocations contained in this document update §§ 504.31–504.33 to conform with the Armed Services Procurement Regulation and the Freedom of Information Act and are effective April 15, 1972, as follows:

§ 504.31 General.

Freedom of information policy. The policy of the Department of the Army is that maximum accurate information shall be made available to the public concerning Army relationships with manufacturers, educational institutions, research organizations, and other professional and commercial entities and individuals. That policy requires maximum disclosure of information other than that exempted by the Freedom of Information Act, 5 U.S.C. 552. Exemptions of specific application for this directive include information which:

(a) Would be of material assistance to potential enemies of the United States; or

(b) Would offer an unfair competitive advantage to specific entities or individuals who are seeking to provide material or services for the Army as specified in Armed Service Procurement Regulation (Chapter I, Subchapter A of this title) and Army Procurement Procedure (Subchapter G of this chapter).

(c) In case of doubt as to whether the release of information will result in a violation of security, the manufacturer, educational institution, or research organization holding Army contracts will be responsible for obtaining proper clearance prior to releasing the information.

§ 504.32 Contract relationships.

(a) *Armed services procurement regulation.* (1) In prescribing submission, review and clearance of industry originated information materials, the Department of the Army defers to Armed Services Procurement Regulation (Chapter I, Subchapter A of this title) guidance on Army/industry interface, the official information responsibilities of the contracting officer as defined in Chapter I, Subchapter A of this title, and the specific nature of each Army/industry relationship as expressed by terms of a contract if a contract exists. Pertinent release guidance is to be found in §§ 1.329 through 1.329–4, 1.1001 through 1.1007–4, 2.211, and 3.507–2 of this title.

(2) Requirements are applicable to educational institutions which receive from Department of the Army, or any component thereof, information concerning preaward negotiations, contract award, including letter contract, modification thereof, or grant, for the accomplishment of military research and development projects.

(3) Department of the Army agencies or educational institutions will not release procurement information regarding research and development projects performed under Army contract without approval or clearance.

(b) *Classified contracts.* A classified contract is that which requires access to classified information (Confidential, Secret, Top Secret) either to submit a bid or proposal or to perform the contract. A contract may be a classified contract even though the contract document is not classified. In those cases where a classified contract exists, the contractor is guided by any specific security items written into the contract and by terms of the Department of Defense Security Agreement (DD Form 441) that is thereto appended. Specific security criteria are contained in DoD Contract Security Specification (DD Form 254). Procedures required to safeguard classified defense information which U.S. contractors, subcontractors, vendors or suppliers will possess or have access to are set forth in the Department of Defense Industrial Security Regulation (DoD 5220.22–R) and its companion publication, the Department of Defense Industrial Security Manual for Safeguarding Classified Information (DoD 5220.22–M).

(c) *Other contracts.* In cases where unclassified contracts exist and the terms of contractual documents do not provide specific instructions on publication of information, the contractors are encouraged by the Department of the Army to submit materials prior to publication to the Administrative Contracting Officer or to any Information Office the Administrative Contracting Officer may designate. If the submission is made to any other office, it will be referred immediately to the appropriate Administrative Contracting Officer for action. Such a voluntary submission is simply business courtesy and affords safeguard against accidental release of inaccurate or classified information.

(d) *Commercial entities.* In cases where no contractual agreement exists, industrial and business concerns, advertising and public relations agencies, and other commercial persons or entities desiring to use Army themes in information or promotional campaigns are encouraged to submit proposed treatments to the Department of the Army. Originators may submit materials to any Army installation or headquarters, or direct to the Chief of Public Information (HQDA (DAIO–FOI)).

(e) *Advisory nature of Army review.* Except for information materials generated in accord with contractual requirements, Information Officers exercise an advisory role in the review of information material voluntarily submitted, leaving the final decision in matters of accuracy, style and good taste with the originator.

(f) *Scientific and technical information.* Information Officers will accomplish review and release of scientific and technical information materials at the lowest possible level, to include results of research, development, test and evaluation, prepared for presentation/publication within or outside of CONUS—except those whose clearance is set forth in the Industrial Security Manual as prerogative of Defense Department.

(g) *Defense reservations.* Scientific and technological information should not be released locally if it:

(1) Discloses classified military applications or unclassified military applications, disclosure of which might not be in the national interest.

(2) Contains subject matter specifically identified by Officer of the Secretary of Defense guidance as requiring OSD review prior to release (§ 504.8(a)(3)).

(3) Might generate national interest and, therefore, be reserved for announcement at the seat of government.

(h) *Joint authorship.* Informational materials prepared under joint Army/industry authorship will be processed for review and clearance in the same manner as specified for Army authorship.

§ 504.33 Procedures.

(a) *General policy.* A copy of §§ 504.31 through 504.33 and any future amendments thereof shall be separately and currently published in the FEDERAL REGISTER for the guidance of the public.

(b) *Specific policy.* A copy of §§ 504.31 through 504.33 should be included with other instructions given to contractors by the Procuring Contracting Officer at the time of contract award and made available to other possible sources of submissions upon request.

(c) *Submission requirements.* (1) For written materials and still photographs—five copies—photos to be properly captioned (add one copy for each intervening headquarters for record file).

(i) For technical papers and presentations—each copy to include viewgraphs, photographs, charts, graphs, and similar material, properly captioned.

(ii) For brochures—each copy to include copy, layout, and all illustrative material.

(iii) For advertisements—each copy to include copy and layout proposed for subsequent finish and placement.

(2) For motion picture production, a series of review procedures is recommended:

(i) Preliminary written story/concept/outline treatment—five copies (add one copy for each intervening headquarters for record file).

(ii) Final shooting script to include scene description/narration—five copies (add one copy for each intervening headquarters for record file).

(iii) Rough cut film minus sound track before final editing; copy of final draft narration—one copy each for final review, or

(iv) One print for final review.

(3) For TV news film—submit B-wind master for eventual release and file and two prints for review and return to originator.

(4) For exhibits—design/layout with copy—five copies—proposed for subsequent production.

(d) *Review.* (1) If there is a contract involved, the primary reviewing office first will establish whether the contract is classified or unclassified.

(2) Information materials arising out of classified contracts will be reviewed according to paragraph 5o, DoD 5220.22–M.

(3) Information materials arising out of unclassified contracts will be reviewed and cleared for public release at the primary office level.

(4) Review at any level will include criteria that insures the detection of:

(i) Classified information.

(ii) Factual inaccuracies.

(iii) Implied Department of the Army endorsement of a commercial firm, product, or service.

(iv) The comparison of relative merits of one specific item of military materiel with another.

(v) The presence of official Department of Defense specification details or results of acceptance tests.

(5) Reviewers at all levels should process materials with the least possible delay and forward them to the next higher echelon for review, if required.

(6) Chief of Public Information, Department of the Army will coordinate the review of materials within the Department of the Army.

§§ 504.34, 504.35 [Revoked]

[AR 360–27, Mar. 15, 1972] (Sec. 3012, 70A Stat. 157; 10 U.S.C. 3012)

Title 43—PUBLIC LANDS: INTERIOR

Chapter II—Bureau of Land Management, Department of the Interior

APPENDIX—PUBLIC LAND ORDERS

[Public land order 5199]

[Nevada 051758, 051763, 051771]

NEVADA

Revocation of Air Navigation Site Withdrawals

By virtue of the authority contained in section 4 of the Act of May 24, 1928, 45 Stat. 729, 49 U.S.C. section 214 (1970), it is ordered as follows:

1. The departmental orders of August 13, 1928, November 17, 1930, October 13, 1950, and May 12, 1938, which withdrew lands as Air Navigation Sites No. 6, No. 45, and No. 120, respectively, are hereby revoked as to the remaining lands embraced therein, described as follows:

MOUNT DIABLO MERIDIAN

AIR NAVIGATION SITE NO. 6

T. 28 N., R. 40 E.,
Sec. 8, E½SW¼NW¼.
Containing 20 acres.

AIR NAVIGATION SITE NO. 45

T. 26 N., R. 34 E.,
Sec. 32, NE¼NW¼SW¼SE¼.
T. 27 N., R. 37 E.,
Sec. 15, SW¼NW¼SE¼SE¼.
T. 28 N., R. 40 E.,
Sec. 6, SW¼SW¼SW¼SE¼.
Containing 7.5 acres.

AIR NAVIGATION SITE NO. 120

T. 26 N., R. 34 E.,
Sec. 24, S½SW¼, SW¼SE¼;
Sec. 26, N½N½.
Containing 280 acres.

The areas described above aggregate a total of 307.5 acres in Pershing County.

2. At 10 a.m. on May 11, 1972, the lands shall be open to operation of the public land laws generally including the U.S. mining laws, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received at or prior to 10 a.m. on May 11, 1972, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the

V 37-71
APR 12 72
XUM

order of filing. The lands have been and continue to be open to the filing of applications and offers under the mineral leasing laws.

Inquiries concerning the lands should be addressed to Chief, Division of Technical Services, Nevada State Office, Bureau of Land Management, 300 Booth Street, Reno, NV 89502.

HARRISON LOESCH,
Assistant Secretary of the Interior.

OREGON

Revocation of Withdrawal for National Forest Administrative Site

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is ordered as follows:

1. The Secretary's Order of January 28, 1908, withdrawing land for a national forest administrative site is hereby revoked in its entirety as to the following described land:

WILLAMETTE MERIDIAN

WILLAMETTE NATIONAL FOREST

McKenzie Administrative Site

T. 16 S., R. 5 E.,
Sec. 14, W½NE¼ and NE¼NW¼.

The area described contains 120 acres in Lane County.

2. Of the land described above, the SW¼NE¼ shall immediately be made available for the consummation of a pending Forest Service exchange. The remainder, described as the NW¼NE¼ and NE¼NW¼, at 10 a.m. on May 11, 1972, shall be open to such disposition as may by law be made of national forest lands.

HARRISON LOESCH,
Assistant Secretary of the Interior.

[Idaho 4038]

IDAHO

Partial Revocation of Reclamation Project Withdrawal

By virtue of the authority contained in section 3 of the Act of June 17, 1902, 32 Stat. 388, as amended and supplemented, 43 U.S.C. section 416 (1970), it is ordered as follows:

1. The Secretary's Order of April 15, 1919, withdrawing lands for the Boise Project, Black Canyon Unit, is hereby revoked so far as it affects the following described land:

BOISE MERIDIAN

T. 6 N., R. 5 W.
Sec. 10, S½SE¼.

The area described contains 80 acres in Payette County.

The land is located 3 miles north of Parma, Idaho. Access is by unimproved roads. Elevation varies from a low of 2,420 feet at the southwest corner to a high of 2,522 feet at the southeast corner. Topography is level to gently rolling; soils are a fine sandy loam moderately deep. Vegetation is cheat grass and annual forbes.

2. At 10 a.m. on May 11, 1972, the land shall be open to operation of the public land laws generally, including the U.S. mining laws, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received at or prior to 10 a.m. on May 11, 1972, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing. The land has been and will continue to be open to the filing of applications and offers under the mineral leasing laws.

Inquiries concerning the land should be addressed to the Chief, Division of Technical Services, Bureau of Land Management, Boise, Idaho 83702.

HARRISON LOESCH,
Assistant Secretary of the Interior.

Withdrawal for National Forest Research Natural Area

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is ordered as follows:

1. Subject to valid existing rights, the following described national forest lands are withdrawn from appropriation under the mining laws (30 U.S.C., ch. 2), but not from leasing under the mineral leasing laws, in aid of programs of the Department of Agriculture:

MENDOCINO NATIONAL FOREST

MOUNT DIABLO MERIDIAN

Frenzel Creek Research Natural Area

T. 16 N., R. 6 W.,
Sec. 5, lots 2, 3, 4, S½NW¼, W½SW¼;
Sec. 6, lot 1, SE¼NE¼, E½SE¼.
T. 17 N., R. 6 W.,
Sec. 29, S½SW¼;
Sec. 31, SE¼NE¼, NE¼SE¼, S½SE¼;
Sec. 32, NE¼, W½, N½SE¼, SW¼SE¼.

The area described aggregates 1,282.12 acres in Colusa County.

2. The withdrawal made by this order does not alter the applicability of those public land laws governing the use of the national forest lands under lease, license, or permit, or governing the disposal of their mineral or vegetative resources other than under the mining laws.

HARRISON LOESCH,
Assistant Secretary of the Interior.

COLORADO

Partial Revocation of Public Water Reserve No. 107

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is ordered as follows:

The Executive order of April 17, 1926, creating Public Water Reserve No. 107, as construed by Interpretation No. 77 of January 3, 1929, is hereby revoked so far as it affects the following described lands:

SIXTH PRINCIPAL MERIDIAN

T. 8 N., R. 102 W.,
Sec. 30, SW¼SW¼ (lot 8), E½SW¼, SE¼;
Sec. 31, NW¼NW¼ (lot 5), NE¼NW¼.
T. 7 N., R. 103 W.,
Sec. 1, SW¼NW¼.

The areas described aggregate 392.09 acres in Moffat County.

By Presidential Proclamation No. 2290 of July 14, 1938, the described lands were added to and made a part of the Dinosaur National Monument established pursuant to the Act of June 8, 1906, 34 Stat. 225, as amended by the Act of September 8, 1960, 74 Stat. 857.

HARRISON LOESCH,

[Public Land Order 5205]

[Wyoming 28973]

WYOMING

Partial Revocation of Stock Driveway Withdrawal

By virtue of the authority contained in section 10 of the Act of December 29, 1916, 39 Stat. 865, as amended, 43 U.S.C. section 300 (1970), it is ordered as follows:

1. The departmental order of February 5, 1924, enlarging Stock Driveway Withdrawal No. 3 (Wyoming No. 1), is hereby revoked so far as it affects the following described lands:

SIXTH PRINCIPAL MERIDIAN

T. 47 N., R. 87 W.,
Sec. 33, W½SW¼SE¼SE¼, SE¼SW¼SE¼SE¼.

The area described contains 7.5 acres in Washakie County.

The land is located approximately 8 miles southeast of Tensleep, Wyo. The vegetal aspect is a sagebrush-grassland association of fair carrying capacity.

2. At 10 a.m. May 12, 1972, the land shall be open to the operation of the public land laws generally, subject to valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law. All valid applications received at or prior to 10 a.m. on May 12, 1972, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing.

The land has been and continues to be open to applications and offers under the mineral leasing laws, and to location under the U.S. mining laws.

Inquiries concerning the land should be addressed to the Chief, Branch of Lands and Minerals Operations, Bureau of Land Management, Cheyenne, Wyo.

HARRISON LOESCH,
Assistant Secretary of the Interior.

Title 49—TRANSPORTATION

Chapter V—National Highway Traffic Safety Administration, Department of Transportation

[Docket No. 70-26; Notice 3]

PART 571—FEDERAL MOTOR VEHICLE SAFETY STANDARDS

Motorcycle Controls and Displays

This notice amends Part 571 of Title 49, Code of Federal Regulations, to add a new Motor Vehicle Safety Standard No. 123 (49 CFR 571.123) that establishes requirements for motorcycle controls and displays. A notice of proposed rule making on this subject was published on November 6, 1970 (35 F.R. 17117).

The National Highway Traffic Safety Administration estimates that over 3,000 accidents may be avoided annually by specifying a uniform standard for motorcycle controls and displays. As this agency commented in the prior notice: "Controls and displays link the operator and the machine, and if there is confusion as to their location, interpretation, or operation, a dangerous situation may result. A cyclist, especially the novice and the cyclist who has changed from one make of machine to another, must not hesitate when confronted with an emergency." The purpose of the new standard is to minimize operator error in responding to the motoring environment, by standardizing certain motorcycle controls and displays.

The basic operational requirement of Standard No. 123 is that handlebar-mounted controls be operable throughout their full range without the operator removing his hand from the handgrip. Standard No. 123 requires all motorcycles to have a supplemental engine stop control, operable from the right handlebar, intended for use in emergency situations. Notice of this requirement was proposed in Notice 2 to Docket No. 69-20, Accelerator Control Systems (35 F.R. 15241). Standard No. 123 also requires that if any of 10 other specified equipment items are provided on a motorcycle, the location and method of operation of the applicable control shall be standardized. These items are: manual clutch or integrated clutch and gear change, foot-operated gear change, headlamp upper-lower beam control, horn, turn signal lamps, ignition, manual fuel shutoff control, twist-grip throttle, front wheel brake, and rear wheel brakes. Motorcycles that are designed and sold exclusively for use by law enforcement agencies are excluded from Standard No. 123, as the configuration of certain controls on such vehicles, necessary for law enforcement purposes, differs from that required by the new standard. Proposals applicable to the instrument illumination intensity control, the electric starter, and the kick starter have not been adopted as insufficient correlation with motor vehicle safety has been found for these items.

As noted below, some of the location and operational requirements that were proposed have not been adopted in the following instances. Otherwise, the location and operation of controls are required as proposed.

1. *Foot-operated gear change.* The likelihood of inadvertent engagement of reverse gear has been found to be so slight that a means to prohibit it has not been found necessary. Further, no requirement has been specified for location of neutral gear. Under proposal A, neutral would have occurred lowest in the gear sequence. Proposal A was not adopted because of the likelihood of overshooting low gear when downshifting, thus contributing to a possible loss of control. In proposal B, the transmission would be put into neutral by a rearward motion of the operator's heel on a control device separate from the shift lever. This method was not adopted since it appears to have no inherent safety advantages over any other means of finding neutral. The intent of proposal B was to insure that neutral can reliably be selected when desired without being selected inadvertently when not desired. The conventional neutral light may serve as an aid to such shifting; however, any system which requires eye movements away from the road merely to shift gears cannot be considered to be an adjunct to safety.

The present standard does not impose specific requirements for ease of locating the gear position, or for protection against inadvertent shifting into neutral. However, the Administration considers these to be desirable objectives and will consider amending the standard if it appears necessary to do so.

2. *Headlamp control.* Because heavy gloves are needed for safe riding, only a simple "up for higher beam, down for lower beam" requirement has been adopted.

3. *Turn signal lamps.* Because turn signal lamps are not a required item of motorcycle equipment until January 1, 1973, and the industry is experimenting with various controls, Standard No. 123 specifies only that the turn signal lamp control be located on the handlebars.

4. *Ignition:* Because of the adoption of the requirement that motorcycles be equipped with a supplemental engine stop control on the right handlebar, the need to specify a location and method of operation for the ignition has diminished. Accordingly, the sole ignition control requirement is that the "off" position be counterclockwise from all other positions.

5. *Manual fuel shutoff control.* The requirements adopted do not apply to automatic fuel shutoff controls. No location for a manual control is specified. Based upon comments, revisions have been made in the direction of valve operation.

Substantial modifications have been made as well in the display proposals. Because of the limited range within which displays can be located on a motorcycle, it has been determined that no specific location requirements are necessary. Illumination of the neutral position and the speedometer has been deemed essential; the proposal that a green lamp indicate neutral position has been adopted, and the speedometer must be illuminated whenever the headlamp is activated. Because turn signals and upper beam indicators are covered in Standard No. 108, they have been omitted from the display illumination requirements of Standard No. 123.

Proposals for control identification, stands, and passenger footrests have been adopted substantially as proposed. Since operating instructions are invariably provided with motorcycles, the NHTSA has not adpoted the proposal covering them.

Effective date. September 1, 1974. Because of the leadtime necessary for preparation for production, it is found, for good cause shown, that an effective date later than one year after the issue date is in the public interest.

In consideration of the foregoing, Title 49, Code of Federal Regulations, is amended by adding § 571.123, Motor Vehicle Safety Standard No. 123, Motorcycle Controls and Displays as set forth below.

(Sec. 103, 119, National Traffic and Motor Vehicle Safety Act of 1966, 15 U.S.C. 1392, 1407; delegation of authority from the Secretary of Transportation to the National Highway Traffic Safety Administrator, 49 CFR 1.51)

Issued on April 4, 1972.

DOUGLAS W. TOMS,
Administrator.

§ 571.123 Standard No. 123; motorcycle controls and displays. (Effective Sept. 1, 1974)

S1. *Scope.* This standard specifies requirements for the location, operation, identification, and illumination of motorcycle controls and displays, and requirements for motorcycle stands and footrests.

S2. *Purpose.* The purpose of this standard is to minimize accidents caused by operator error in responding to the motoring environment, by standardizing certain motorcycle controls and displays.

S3. *Application.* This standard applies to motorcycles equipped with handlebars, except for motorcycles that are designed, and sold exclusively for use by law enforcement agencies.

S4. *Definitions.* "Clockwise" and "counterclockwise" mean opposing directions of rotation around the following axes, as applicable.

(a) The operational axis of the ignition control, viewed from in front of the ignition lock opening;

V 37-71 APR 12 72 XUM

(b) The axis of the right handlebar on which the twist-grip throttle is located, viewed from the end of that handlebar;

(c) The axis perpendicular to the center of the speedometer, viewed from the operator's normal eye position.

S5. *Requirements.*

S5.1. Each motorcycle shall be equipped with a supplemental engine stop control, located and operable as specified in Table I.

S5.2 Each motorcycle to which this standard applies shall meet the following requirements:

S5.2.1 *Control location and operation.* If any item of equipment listed in Table 1, Column 1, is provided, the control for such item shall be located as specified in Column 2, and operable as specified in Column 3. Each control located on a right handlebar shall be operable by the operator's right hand throughout its full range without removal of the operator's right hand from the throttle. Each control located on a left handlebar shall be operable by the operator's left hand throughout its full range without removal of the operator's left hand from the handgrip. If a motorcycle with an automatic clutch is equipped with a supplemental rear brake control, the control shall be located on the left handlebar. If a motorcycle is equipped with self-proportioning or antilock braking devices utilizing a single control for front and rear brakes, the control shall be located and operable in the same manner as a rear brake control.

S5.2.2 *Display illumination and operation.* If an item of equipment listed in Table 2, Column 1, is provided, the display for such item shall be visible to a seated operator under daylight conditions, shall illuminate as specified in Column 2, and shall operate as specified in Column 3.

S5.2.3 *Control and display identification.* If an item of equipment listed in Table 3, Column 1, is provided, the control for such item shall be identified by the word or words shown in Column 2 and any corresponding word in Column 3, placed on or adjacent to the control.

Control positions shall be identified as specified in Column 3, to signify the function performed at that setting. The abbreviations used in Columns 2 and 3 are minimum requirements and appropriate words may be spelled in full. Identification shall appear to the operator in an upright position. Functional identification need not be provided for equipment items with no entry in Column 3.

S5.2.4 *Stands.* A stand shall fold rearward and upward if it contacts the ground when the motorcycle is moving forward.

S5.2.5 *Footrests.* Footrests shall be provided for each designated seating position. Each footrest for a passenger other than an operator shall fold rearward and upward when not in use.

TABLE 1.—MOTORCYCLE CONTROL LOCATION AND OPERATION REQUIREMENTS

Equipment control	Location	Operation
Column 1	Column 2	Column 3
1. Manual clutch or integrated clutch or gear change.	Left handlebar	Squeeze to disengage clutch.
2. Foot operated gear change	Left foot control	An upward motion of the operator's toe shifts transmission toward lower numerical gear ratios (commonly referred to as "higher gears"), and a downward motion toward higher numerical gear ratios (commonly referred to as "lower gears"). If three or more gears are provided it shall not be possible to shift from the highest gear directly to the lowest gear, or vice versa.
3. Headlamp upper-lower beam control.	Left handlebar	Up for upper beam, down for lower beam. If combined with the headlight on-off switch, means shall be provided to prevent inadvertent actuation of the "off" function.
4. Horn	do	Push to activate.
5. Turn signal lamps	Handlebars	"Off"—counterclockwise from other positions.
6. Ignition		"Off"—control pointing forward, "On"—control pointing downward, "Reserve" (if provided)—control pointing upward.
7. Manual fuel shutoff control		
8. Twist-grip throttle	Right handlebar	Self-closing to idle in a clockwise direction after release of hand.
9. Supplemental engine stop	do	
10. Front wheel brake	do	Squeeze to engage.
11. Rear wheel brakes	Right foot control [1]	Depress to engage.

[1] See S5.2.1 for requirements for vehicles with a single control for front and rear brakes, and with a supplemental rear brake control.

TABLE 2—MOTORCYCLE DISPLAY ILLUMINATION AND OPERATION REQUIREMENTS

Display	Illumination	Operation
Column 1	Column 2	Column 3
1. Speedometer	Yes	The display is illuminated whenever the headlamp is activated.
2. Neutral indication	Green display lamp	The display lamp illuminates when the gear selector is in neutral position.

TABLE 3—MOTORCYCLE CONTROL AND DISPLAY IDENTIFICATION REQUIREMENTS

Equipment	Control and display identification	Identification at appropriate position of control or display
Column 1	Column 2	Column 3
1. Ignition	Ignition	Off.
2. Supplemental engine stop	Engine stop	Off, run.
3. Manual choke	Choke	
4. Electric starter		Start.[1]
5. Headlamp upper-lower beam control.	Lights	Hi, Lo.
6. Horn	Horn	
7. Turn signal	Turn	L, R.
8. Speedometer	M.p.h.	M.P.H. increase in a clockwise direction. Major and minor graduations and numerals appear at the 10 and 5 M.P.H. intervals, respectively.
9. Neutral indicator	Neutral	
10. Upper beam indicator	High beam	
11. Tachometer	R.p.m.	
12. Fuel tank shutoff valve	Fuel	Off, on, res.

[1] Required only if electric starter is separate from ignition switch.

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 72-SW-23]

CONTROL ZONE

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations to alter controlled airspace in the Corpus Christi NAS, Tex., terminal area.

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to Chief, Airspace and Procedures Branch, Southwest Region, Federal Aviation Administration, Post Office Box 1689, Fort Worth, TX 76101. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Tex. An informal docket will also be available for examination at the Office of the Chief, Air Traffic Division.

It is proposed to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth.

In § 71.171 (37 F.R. 2056), the Corpus Christi NAS, Tex., control zone is amended, in part, as follows: Delete "within 2 miles each side of the Navy Corpus TACAN 137° and 139° radials, extending from the 5-mile radius zone to 6 miles southeast of the TACAN; and within 2 miles each side of the Navy Corpus TACAN 313° radial, extending from the 5-mile radius zone to 6 miles northwest of the TACAN." and substitute therefor "within 2 miles each side of the Navy Corpus TACAN 326° radial, extending from the 5-mile radius zone to 6 miles northwest of the TACAN; and within 2 miles each side of the Navy Corpus TACAN 119° radial, extending from the 5-mile radius zone to 6 miles southeast of the TACAN."

Alteration of the control zone will provide controlled airspace necessary to accommodate the Hi-TACAN runway 13R and Hi-TACAN runway 31L approach procedures at NAS Corpus Christi, Tex., Airport.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Fort Worth, Tex., on April 4, 1972.

R. V. REYNOLDS,
Acting Director, Southwest Region.

[14 CFR Part 71]

[Airspace Docket No. 72-SW-24]

TRANSITION AREAS

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations to designate a 700-foot and a 1,200-foot transition area at Miami, Okla.

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to Chief, Airspace and Procedures Branch, Southwest Region, Federal Aviation Administration, Post Office Box 1689, Fort Worth, TX 76101. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Fort Worth, Tex. An informal docket will also be available for examination at the Office of the Chief, Air Traffic Division.

It is proposed to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth.

In § 71.181 (37 F.R. 2143), the following transition areas are added:

MIAMI, OKLA.

That airspace extending upward from 700 feet above the surface within an 8-mile radius of the Miami Municipal Airport (latitude 36°54'02", longitude 94°53'09") and that airspace within the State of Kansas extending upward from 1,200 feet above the surface which is bounded on the south by the Kansas-Oklahoma State line and on the west along a line which is 7 miles east of and parallel to the Oswego, Kans., VOR 207° radial, on the north by the south edge of VOR Airway V-190 and on the east by the west edge of VOR Airway V-88. The State of Oklahoma is covered by a 1,200-foot transition area.

The proposed transition areas will provide controlled airspace for aircraft executing approach/departure procedures proposed at the Miami, Okla., Municipal Airport.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Fort Worth, Tex., on April 3, 1972.

R. V. REYNOLDS,
Acting Director, Southwest Region.

[FR Doc.72-5537 Filed 4-11-72;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 72-EA-31]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending § 71.181 of Part 71 of the Federal Aviation Regulations so as to designate a Wise, Va., transition area.

V 37-71
APR 12 72
XUM

New VOR and NDB instrument approach procedures have been developed for Lonesome Pine Airport, Wise, Va., and will require designation of a 700-foot floor transition area to protect IFR arrivals and departures at Lonesome Pine Airport.

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attn.: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y. 11430. All communications received within 15 days after publication in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with the Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region. Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Wise, Va., proposes the airspace action hereinafter set forth:

1. Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to designate a Wise, Va., 700-foot floor transition area as follows:

WISE, VA.

That airspace extending upward from 700 feet above the surface within an 11-mile radius of the center 36°59'15" N., 82°31'50" W. of Lonesome Pine Airport, Wise, Va., and within 3 miles each side of the 065° bearing from the Wise RBN 37°01'18" N., 82°28'04" W. extending from the 11-mile radius area to 8.5 miles northeast of the RBN.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Jamaica, N.Y., on March 30, 1972.

ROBERT H. STANTON,
Acting Director, Eastern Region.

[FR Doc.72-5539 Filed 4-11-72;8:46 am]

[14 CFR Part 71]

[Airspace Docket No. 72-EA-43]

CONTROL ZONE AND TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending §§ 71.171 and 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the Clarksburg, W. Va., control zone (37 F.R. 2070, 1358) and transition area (37 F.R. 2171, 1358).

New NDB and ILS instrument approach procedures developed for Benedum Airport, Clarksburg, W. Va., will require alteration of the control zone and 700-foot floor transition area to provide controlled airspace protection for aircraft executing the procedures.

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attn: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y. 11430. All communications received with 30 days after publication in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Clarksburg, W. Va., proposes the airspace action hereinafter set forth:

1. Amend § 71.171 of Part 71 of the Federal Aviation Regulations so as to delete the description of the Clarksburg, W. Va., control zone and insert the following in lieu thereof:

'Within a 5.5-mile radius of the center 39°17'44" N., 80°13'46" W. of Benedum Airport; within 3 miles each side of the Clarksburg VOR 219° radial, extending from the 5.5-mile radius zone to 8.5 miles southwest of the VOR; and within 2.5 miles each side of the Benedum Airport ILS localizer northeast course, extending from the 5.5-mile radius zone to 1 mile southwest of the OM. This control zone is effective from 0700 to 2300 hours, local time, daily.

2. Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to delete the description of the Clarksburg, W. Va., 700-foot floor transition area and insert the following in lieu thereof:

That airspace extending upward from 700 feet above the surface within an 8.5-mile radius of the center 39°17'44" N., 80°13'46" W., of Benedum Airport; within 5 miles each side of the Clarksburg VOR 219° radial, extending from the 8.5-mile radius area to 11.5 miles southwest of the VOR and within 5 miles each side of the Benedum Airport ILS localizer northeast course, extending from the 8.5-mile radius area to 10 miles northeast of the OM.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Jamaica, N.Y., on March 31, 1972.

ROBERT H. STANTON,
Acting Director, Eastern Region.

[FR Doc.72-5540 Filed 4-11-72;8:46 am]

National Highway Traffic Safety Administration

[49 CFR Part 571]

[Docket No. 70-7; Notice 2]

FIELDS OF DIRECT VIEW

Proposed Motor Vehicle Safety Standard

The NHTSA hereby proposes to issue a new motor vehicle safety standard, Fields of Direct View, in Part 571 of Title 49, Code of Federal Regulations. An advance notice of proposed rule making on this subject was published on March 7, 1970 (35 F.R. 4266).

The proposed standard is intended to reduce the likelihood that a motor vehicle will collide with a pedestrian, stationary object, or another vehicle because the driver either did not see the object collided with or saw it too late to avoid collision. Generally, the proposed standard specifies requirements for (a) maximum allowable obstructions in the driver's fields of direct view; (b) light transmittance levels of glazing materials that provide fields of direct view; (c) visibility of the corners of the vehicle; (d) visibility of specified ground surface targets for multipurpose passenger vehicles, trucks, and buses; and (e) view interception, adjustment, and light transmittance of sun visors.

The proposed standard is based in part on research sponsored by NHTSA, reports and papers of the Society of Automotive Engineers and the Highway Research Board, and other published information, which have been placed in this docket for public examination. Comments received in response to the advance notice of proposed rule making on this docket and the consumer information proposals concerning Field of View of the Driver (Docket 28-5, 33 F.R. 18382, 35 F.R. 8667), along with other public comments and published articles on visibility problems, have also been placed in this docket and considered in preparing this proposal. The requirements are also based partly upon the October 1971 draft regulation of the Economic Commission of Europe, Working Party 29, entitled "Uniform Provisions Concerning the Approval of Vehicles With Regard to the Driver's Field of Vision." In particular, nomenclature such as "R point," "vision origin points," "P points," and "E points," and the eye reference point positioning techniques, are taken from this ECE draft regulation.

The proposed standard divides the viewing space around the central vision origin point of the driver into six zones. Zone I is directly in front of the driver and is considered the zone with the highest priority for driver vision; no obstruction by any part of the vehicle is allowed in this zone. Zones II and III are to the right and left sides of Zone I, and together with Zone I they comprise 200° of forward and side vision. Zones IV and V are to the left and right rear sides of the vehicle respectively, comprising an additional 70° of azimuthal vision.

In Zones II, III, IV, and V there are two testing techniques used to limit the width of allowable obstructions: A binocular test on a single horizontal plane through the midpoint of the eye reference points, and a monocular test specifying maximum cumulative obstructions in any horizontal plane within the zone boundaries. In Zone VI, the 90° directly to the rear of the vehicle, the requirements are limited to the field of view necessary for backing and parking maneuvers, since rearview mirror requirements are covered in Standard No. 111, § 571.111, and the rule making docket on Indirect Visibility (Docket No. 71-3a, 36 F.R. 1156, January 23, 1971).

Passenger cars must meet maximum allowable obstruction requirements in all six zones. Multipurpose passenger vehicles, trucks, and buses have requirements in Zone I, II, and III only. Motorcycles are dealt with separately; they may have no vision obstructions in the forward direction other than an optional windshield and windshield support 18 inches above the lowest part of the driver's seat. The proposal makes some exceptions to the obstruction requirements for outside rearview mirrors on some larger multipurpose passenger vehicles, trucks, and buses, but it requires that these mirrors be mounted in an area that will be below the driver's line of sight in most cases. The obstruction requirements are intended to provide the driver with adequate external visibility by placing limits on the size of obstructions in each zone, while recognizing that certain fields of view are more important to the driver than others.

The proposed standard specifies light transmission requirements for glazing materials in all zones. These requirements are intended to improve driver seeing distance, especially under adverse weather, dusk, and nighttime driving conditions. In addition, shade bands are specified for Zone I to protect the driver from sky and sun glare in the upper part of the windshield.

In addition to the maximum allowable obstruction requirements, larger multipurpose passenger vehicles, trucks and buses would be required to provide unobstructed view of specified minimum percentages of a 40-foot ground surface arc within Zone I, in order to minimize the obscuration by the front hood and other vehicle structure of pedestrians, especially children. Buses would have the most stringent requirements, since the accident potential is so great in their modes of use. In connection with ground surface target requirements for larger multipurpose passenger vehicles and trucks, allowance would be made for decreased upward viewing angles, since the driver in those vehicles sits higher and has a different vantage point from which to view overhead signs and signals.

Sun visor requirements would be designed to accommodate larger rearview devices, which would be required under the proposed standard on Indirect Visibility (Docket No. 71-3a, 36 F.R. 1156, January 23, 1971). They would include view interception, adjustability, and light transmittance in the visible and infrared spectral regions. The intent of these requirements is to provide adequate and flexible protection against sunlight glare. It is expected that the existing sun visor requirements in S3.3 of Standard No. 201, § 571.201, will be adjusted in light of these requirements if and when they become effective.

Proposed effective date: September 1, 1976. It is recognized that the proposed requirements would in some cases have a significant effect on body design, and the proposed leadtime is designed to take account of that fact. Manufacturers would be expected to phase in their compliance with the standard at dates leading up to the effective date in accordance with their model changeover cycles.

In light of the foregoing, it is proposed that a new motor vehicle safety standard, Fields of Direct View, be added to Part 571 of Title 49, Code of Federal Regulations, as set forth below. Interested persons are invited to submit comments on the proposal. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5221, 400 Seventh Street SW., Washington, DC 20590. It is requested but not required that 10 copies be submitted.

All comments received before the close of business on July 7, 1972, will be considered, and will be available for examination in the docket at the above address both before and after the closing date. To the extent possible, comments filed after the above date will also be considered by the Administration. However, the rule making action may proceed at any time after that date, and comments received after the closing date and too late for consideration in regard to the action will be treated as suggestions for future rule making. The Administration will continue to file relevant material, as it becomes available, in the docket after the closing date, and it is recommended that interested persons continue to examine the docket for new materials.

This notice is issued under the authority of sections 103, 112, and 119 of the National Traffic and Motor Vehicle Safety Act (15 U.S.C. 1392, 1401, 1407) and the delegations of authority at 49 CFR 1.51 and 49 CFR 501.8.

Issued on April 3, 1972.

ROBERT L. CARTER,
Acting Associate Administrator, Motor Vehicle Programs.

MOTOR VEHICLE SAFETY STANDARD NO. ——

FIELDS OF DIRECT VIEW

S1. *Scope.* This standard specifies requirements for freedom from obstructions in fields of direct view of motor vehicle drivers, for light transmittance of glazing materials within those fields of view, for visibility of the front vehicle corners, and for the installation, view interception, adjustment, and spectral transmittance of sun visors.

S2. *Purpose.* The purpose of this standard is to reduce motor vehicle injuries and deaths by providing motor vehicle drivers with better visibility of the motoring environment in their direct fields of view.

S3. *Application.* This standard applies to passenger cars, multipurpose passenger vehicles, trucks, buses, and motorcycles. However, it does not apply to vehicles that are not designed for a seated driver.

S4. *Definitions.*

"Light transmittance" means the ratio, expressed as a percentage, of the amount of light from a given source that reaches a viewing point after passing through glazing material or a sun visor to the amount that reaches the same viewing point with the glazing material or sun visor absent.

"Longitudinal adjustment range" means the longitudinal distance between the forwardmost and rearmost driving positions of the driver's seat. It does not include any additional adjustment due to placing the seat in nondriving positions, such as those for converting the seat into a bed or for improving access into the vehicle.

"Obstruction" means any vehicle structure or glazing material that does not meet all applicable light transmittance requirements of this standard. However, with respect to trucks and multipurpose passenger vehicles, work performing devices, such as construction cranes or ladders, are not considered to be obstructions.

S5. *Geometric reference system.* The field of view requirements of this standard are established in accordance with the geometric reference system set forth below. All directional references are based on the vehicle in its design attitude.

S5.1 *R point.* The manufacturer's R point, shown in Figure 1, is established in accordance with the requirements of S6.

S5.2 *Reference axes.* Three orthogonal reference axes pass through the R point. The X axis is a horizontal line in the direction of the vehicle's longitudinal dimension; it is negative forward of the R point, positive to the rear. The Y axis is a horizontal (transverse) line perpendicular to the X axis; it is negative to the left of the R point, positive to the right. The Z axis is a vertical line perpendicular to both the X and Y axes; it is negative below the R point and positive above it. (Figure 2)

S5.3 *Reference planes.* The plane through the X and Z axes is called the X plane, the plane through the X and Y axes is called the Y plane, and the plane through the Y and Z axes is called the Z plane. (Figure 2)

S5.4 *Central vision origin point.* The central vision origin point, V_o, is the basic reference point for driver eye positioning. It is located in the X plane (i.e., its Y coordinate is 0). The X and Z coordinates of V_o are set forth in Table 1 on the

V 37-71 APR 12 72 XUM

basis of recommended seat back angle, with corrections of the X coordinate in Table II for longitudinal adjustment ranges of the driver's seat that are 4.25 inches or more. (Figure 1)

S5.5 *Other vision origin points.* Vision origin points V_1, V_2, V_3, and V_4 represent a range of driver eye positions. V_1 and V_4 are on a transverse line through V_0 parallel to the Y axis, 3.3 inches to the left and 3.3 inches to the right of V_0 respectively. V_2 and V_3 are on a vertical line through V_0, 1.8 inches above and 1.8 inches below V_0 respectively. (Figure 1)

S5.6 *Pivot points.* Points P_1 and P_2 are pivot points for head turning, fixed with reference to V_0, and in the same horizontal plane. P_1 is 1.4 inches to the rear and 0.8 inches to the left of V_0. P_2 is 2.5 inches to the rear and 1.9 inches to the right of V_0. (Figure 3)

S5.7 *Eye position points.* Points E_1 and E_2 represent the left and right eye positions respectively for binocular measurements to the left of the X plane. E_2 and E_1 are the corresponding eye positions for binocular measurements to the right of the X plane. They remain in the same horizontal plane as V_0, rotating about P_1 or P_2. They are located as follows: Points Q_1 and Q_2 are 3.88 inches from P_2 and P_2 respectively, rotating about the P points in the same horizontal plane, E_1 and E_2 are 2.54 inches apart; Q_1 is the midpoint of the line E_1E_2; and E_1E_2 is perpendicular to the line P_1Q_1. E_2 and E_1 bear the same relationship to P_2 and Q_2. (Figure 3)

S5.8 *Spatial zones.* The driver's fields of view are divided into spatial zones, as follows.

S5.8.1 Zone I is the portion of the space forward of point V_0 bounded by—

(a) A vertical plane passing through V_1 and at a forward angle of 17° to the left of the X plane;

(b) A vertical plane passing through V_4 and at a forward angle of 17° to the right of the X plane;

(c) A curved surface that is the locus of all lines extending upward from V_2 at an angle of 11° above the Y plane; and

(d) A curved surface that is the locus of all lines extending downward from V_1 at an angle of 5° below the Y plane.

S5.8.2 Zone Ia is the portion of Zone I below a curved surface that is the locus of all lines extending upward from V_2 at an angle of 5° above the Y plane.

S5.8.3 Zone Ib is the portion of Zone I between a curved surface that is the locus of all lines extending upward from V_2 at an angle of 5° above the Y plane and a curved surface that is the locus of all lines extending upward from V_2 at an angle of 8° above the Y plane.

S5.8.4 Zone Ic is the portion of Zone I above a curved surface that is the locus of all lines extending upward from V_2 at an angle of 8° above the Y plane.

S5.8.5 Zone II is the portion of the space to the left of V_0 bounded by—

(a) A vertical plane passing through V_1 and at a forward angle of 17° to the left of the X plane;

(b) A vertical plane passing through V_0 and at a rearward angle of 80° to the left of the X plane;

(c) A curved surface that is the locus of all lines extending upward from V_2 at an angle of 4° above the Y plane; and

(d) A curved surface that is the locus of all lines extending downward from V_2 at an angle of 4° below the Y plane.

S5.8.6 Zone III is the portion of the space to the right of V_0 bounded by—

(a) A vertical plane passing through V_4 and at a forward angle of 17° to the right of the X plane;

(b) A vertical plane passing through V_0 and at a rearward angle of 80° to the right of the X plane;

(c) A curved surface that is the locus of all lines extending upward from V_2 at an angle of 4° above the Y plane; and

(d) A curved surface that is the locus of all lines extending downward from V_2 at an angle of 4° below the Y plane.

S5.8.7 Zone IV is the portion of the space to the left and rear of V_0 bounded by—

(a) A vertical plane passing through V_0 and at a rearward angle of 80° to the left of the X plane;

(b) A vertical plane passing through V_0 and at a rearward angle of 45° to the left of the X plane;

(c) A curved surface that is the locus of all lines extending upward from V_2 at an angle of 3° above the Y plane; and

(d) A curved surface that is the locus of all lines extending downward from V_2 at an angle of 3° below the Y plane.

S5.8.8 Zone V is the portion of the space to the right and rear of V_0 bounded by—

(a) A vertical plane passing through V_0 and at a rearward angle of 80° to the right of the X plane;

(b) A vertical plane passing through V_0 and at a rearward angle of 45° to the right of the X plane;

(c) A curved surface that is the locus of all lines extending upward from V_2 at an angle of 3° above the Y plane; and

(d) A curved surface that is the locus of all lines extending downward from V_2 at an angle of 3° below the Y plane.

S5.8.9 Zone VI is the portion of the space to the rear of V_0 bounded by—

(a) A vertical plane passing through V_0 and at a rearward angle of 45° to the left of the X plane;

(b) A vertical plane passing through V_0 and at a rearward angle of 45° to the right of the X plane;

(c) A curved surface that is the locus of all lines extending upward from V_2 at an angle of 1° above the Y plane; and

(d) A curved surface that is the locus of all lines extending downward from V_2 at an angle of 1° below the Y plane.

S6. *Vehicle reference information.* The manufacturer of each vehicle, except for motorcycles, shall provide the following information immediately upon request by any person with respect to one or more particular vehicles.

S6.1 The location of the R point, which shall be on a transverse horizontal line through the seating reference point, and between a vertical longitudinal plane through the centerline of the steering wheel and a parallel plane 2 inches outboard of the first plane. (Figure 1) The location shall be established by reference to permanent marks or other identifiable permanent points on the vehicle.

S6.2 The vehicle's design attitude, in which the vehicle is designed to comply with the requirements of this standard, established as in S6.1 above by reference to permanent marks or points on the vehicle.

S6.3 The recommended seat back angle for each adjustable seat, with reference to which the vehicle is designed to comply with the requirements of this standard. This shall be the angle from the vertical of the torso line of a two-dimensional drafting template as described in SAE Standard J826a, August 1970, placed on the seat with its H-point at the seating reference point, and the seat back at the recommended angle.

S7. *General requirements.* Each vehicle, except for motorcycles, shall meet the following requirements when tested in accordance with the conditions of S11. and the applicable procedures of S12.

S7.1 *Light transmittance.* The light transmittance of glazing materials, measured in accordance with S12.2, shall be not less than the following percentages:

(a) Zone Ia—80 percent.
(b) Zone Ib—6 percent.
(c) Zone Ic—6 percent.
(d) Zones II, III, IV, and V—70 percent.
(e) Zone VI—60 percent.

The light transmittance in Zone Ic shall be not more than 15 percent.

S7.2 *Corner reference points.* A portion of each front corner of the vehicle shall be visible from Point V_3. The visible portion of each corner shall be within the portion of space bounded by—

(a) A vertical transverse plane tangent to the forwardmost point of the vehicle;

(b) A vertical tranverse plane 18 inches to the rear of the forwardmost point of the vehicle;

(c) A vertical longitudinal plane tangent to the outermost point on the side of the vehicle between the planes described in paragraph (a) and (b); and

(d) A vertical longitudinal plane 9 inches inboard of the plane described in paragraph (c).

S7.3 *Sun visors.*

S7.3.1 Each vehicle shall have one or more sun visors that together can do the following (not necessarily simultaneously):

(a) Intercept not less than 90 percent of the view from Point V_0 through the portion of the glazing material that is within Zone I and above a horizontal plane passing through Point V_0; and

(b) Intercept not less than 45 percent of the view from Point V_0 through the portion of the glazing material that is within Zone II and above a horizontal plane passing through Point V_0; and

(c) Meet the same requirement for Zone III as specified in (b) for Zone II.

S7.3.2 The sun visor or sun visors that are designed to meet the requirements specified in S7.3.1 shall be continuously adjustable between their positions of maximum and minimum view interception.

S7.3.3 Each sun visor shall be adjustable to a position such that no portion of it is within any zone.

S7.3.4 Each sun visor shall have a light transmittance, measured in accordance with S12.3, of not more than 15 percent.

S7.3.5 Each sun visor shall have a spectral transmittance of not more than 5 percent in the spectral region from 900 to 1,700 nanometers.

S8. *Ground visibility.* On each multipurpose passenger vehicle, bus, and truck whose R point is more than 36 inches above ground, obstructions shall not obscure more than the percentages listed below of an arc on the ground surface, within the lateral boundaries of Zone I, with a 40-foot radius and its center directly below V_0, when viewed from V_0 under the conditions of S11.

Buses with R point more than 36 inches above ground—Zero percent.
Multipurpose passenger vehicles and trucks with R point more than 36 inches but not more than 50 inches above ground—15 percent.
Multipurpose passenger vehicles and trucks with R point more than 50 inches above ground—7.5 percent.

S9. *Horizontal angular width of obstructions.* The horizontal angular width of obstructions, measured in accordance with the conditions of S11, and the procedures of S12.1, shall be not more than the following for the vehicle types indicated:

S9.1 *Passenger cars.*

(a) Zone I—Zero degrees (no obstructions), except for electrical conductors in Zone Ic that individually have a maximum cross-sectional width of not more than 0.005 inch.

(b) Zones II and III—4° for each obstruction measured binocularly, and a total of 11° for all obstructions across the width of each zone measured monocularly, except for electrical conductors that individually have a maximum cross-sectional width of not more than 0.0005 inch and are spaced not less than 0.125 inch apart.

(c) Zones IV and V—6 degrees for each obstruction measured binocularly, and a total of 15° for all obstructions other than the driver's seat back and head restraint across the width of each zone measured monocularly, except for electrical conductors that individually have a maximum cross-sectional width of not more than 0.0005 inch and are spaced not less than 0.125 inch apart.

(d) Zone VI—Zero degrees (no obstructions) within the portion of this zone between two vertical planes passing through Point E when line P_1Q_1 is parallel to the Y axis, one plane making a 12° angle to the left and the other a 12° angle to the right of the X plane, except for electrical conductors that individually have a maximum cross-sectional width of not more than 0.005 inch and are spaced not more than 0.125 inch apart. (Figure 4)

S9.2 *Multipurpose passenger vehicles, trucks, and buses, whose R point is not more than 36 inches above the ground.*

(a) Zone I—Zero degrees (no obstructions), except for electrical conductors in Zone Ic that individually have a maximum cross-sectional width of not more than 0.005 inch.

(b) Zones II and III—5° for each obstruction measured binocularly, and a total of 12° for all obstructions across the width of each zone measured monocularly, except for electrical conductors that individually have a maximum cross-sectional width of not more than 0.0005 inch and are spaced not less than 0.125 inch apart, and except for outside rearview mirrors and supports therefor which are below a horizontal plane passing through V_3.

S9.3 *Buses whose R point is more than 36 inches above the ground.*

(a) Zone I—Zero degrees (no obstructions), except for electrical conductors in Zone Ic that individually have a maximum cross-sectional width of not more than 0.005 inch.

(b) Zone II—5° for each obstruction measured binocularly, and a total of 13° for all obstructions across the width of the zone measured monocularly, except for electrical conductors that individually have a maximum cross-sectional width of not more than 0.0005 inch and are spaced not less than 0.125 inch apart, and except for outside rearview mirrors and supports therefor which are below a horizontal plane passing through V_3.

(c) Zone III—5° for each obstruction measured binocularly, and a total of 16° for all obstructions across the width of the zone measured monocularly, except for electrical conductors that individually have a maximum cross-sectional width of not more than 0.0005 inch and are spaced not less than 0.125 inch apart, and except for outside rearview mirrors and supports therefor.

S9.4 *Multipurpose passenger vehicles and trucks whose R point is more than 36 inches but not more than 50 inches above the ground.*

(a) Zones Ia and Ib—Zero degrees (no obstructions).

(b) Zone Ic—Obstructions within the zone shall not obstruct more than 33⅓ percent of the view through the zone from V_3, except for electrical conductors that individually have a maximum cross-sectional width of not more than 0.005 inch.

(c) Zone II—6° for each obstruction measured binocularly, and a total of 13° for all obstructions across the width of the zone measured monocularly, except for electrical conductors that individually have a maximum cross-sectional width of not more than 0.0005 inch and are spaced not less than 0.125 inch apart, and except for outside rearview mirrors and supports therefor which are below a horizontal plane passing through V_3.

(d) Zone III—6° for each obstruction measured binocularly, and a total of 13° for all obstructions across the width of the zone measured monocularly, except for electrical conductors that individually have a maximum cross-sectional width of not more than 0.0005 inch and are spaced not less than 0.125 inch apart, and except for outside rearview mirrors and supports therefor which are below a horizontal plane passing through V_3.

S9.5 *Multipurpose passenger vehicles and trucks whose R point is more than 50 inches above the ground.*

(a) Zones Ia and Ib—Zero degrees (no obstructions),

(b) Zone Ic—Obstructions within the zone shall not obstruct more than 66⅔ percent of the view through the zone from V_3, except for electrical conductors that individually have a maximum cross-sectional width of not more than 0.005 inch.

(c) Zones II and III—7.5° for each obstruction measured binocularly, and a total of 17° for all obstructions across the width of each zone measured monocularly, except for electrical conductors that individually have a maximum cross-sectional width of not more than 0.0005 inch and are spaced not less than 0.125 inch apart, and except for outside rearview mirrors, and supports therefor.

S10. *Requirements for motorcycles.* Each motorcycle shall meet the following requirements when tested in accordance with the conditions of S11 and the procedures of S12.

S10.1 *Horizontal angular width of obstructions.* There shall be no obstructions forward of the forwardmost point of the driver's seat that are above a horizontal plane 18 inches above the lowest seating surface of the driver's seat, except for a single windshield support that has a maximum cross-sectional width of not more than 0.25 inch.

S10.2 *Light transmittance.* The light transmittance of glazing material in the windshield or windscreen shall be not less than 80 percent.

S11. *Conditions.*

S11.1 The requirements specified in S6, S7, S8, S9, and S10 shall be met under the following conditions.

S11.1.1 The vehicle is positioned in its design attitude.

S11.1.2 All vehicle openings (such as doors, tailgates, windows, hoods, and movable or convertible tops) are closed.

S11.1.3 Each rearview mirror is adjusted to provide the indirect fields of view required by Motor Vehicle Safety Standard No. 111.

S11.1.4 An adjustable steering wheel is positioned so that it is in its lowest driving position.

S11.1.5 Adjustable head restraints are placed in any adjustable position.

S11.1.6 Each sun visor is adjusted so that no portion of it is within any zone. Sun visors are removed from the vehicle for the purpose of testing their light transmittance.

S11.1.7 Each adjustable seat is adjusted so that it is in its rearmost longitudinal driving position and its lowest vertical adjustment in the rearmost position, and so that its seat back is at the angle recommended in accordance with S6.3.

S12. *Procedures.*

S12.1 *Horizontal angular width of obstructions.*

S12.1.1 *Binocular obstructions.*

S12.1.1.1 *Zone II.*

(a) Determine the horizontal angular width of an obstruction by rotating the P_1Q_1 line around P_1 until the E_1E_2 line makes a 120° angle with a line drawn from E_1 tangent to the rear side of the obstruction.

(b) Draw a line from E_2 to the obstruction parallel to the line from E_1.

(c) Measure the angle between the parallel line from E_2 and another line

V 37-71 APR 12 72 XUM

from E_2 tangent to the front side of the obstruction. (Figure 5)

S12.1.1.2 *Zone III.*

Use the procedure specified in S12.1.1.1, except that the P point is P_3 and the eye reference points are E_3 and E_4. (Figure 5)

S12.1.1.3 *Zone IV.*

(a) Determine the horizontal angular width of an obstruction by rotating the P_1Q_1 line around P_1 until the line is parallel to the Z plane.

(b) Draw line from E_1 tangent to the rear side of the obstruction.

(c) Draw a line from E_2 to the obstruction parallel to the line from E_1.

(d) Measure the angle between the parallel line from E_2 and another line from E_2 drawn tangent to the front side of the obstruction. (Figure 6)

S12.1.1.4 *Zone V.*

Use the procedure specified in S12.1.1.3, except that the P point is P_2 and the eye reference points are E_3 and E_4. (Figure 6)

S12.1.2 *Monocular obstructions.*

(a) Determine the monocular horizontal angular width of an obstruction by measuring the angle between two horizontal lines that are tangent to either side of the obstruction and intersect at a point on a vertical line passing through V_o.

(b) Make the measurements at points on the vertical line at all heights between the highest and lowest points of the vehicle that are within the zone.

(c) In each horizontal plane within the zone, add the monocular horizontal angles.

S12.2 *Light transmittance of glazing materials.*

(a) Use a light source with the spectral distribution of "Illuminant A."

(b) Use a photometer whose spectral sensitivity is that of the CIE luminous efficiency function.

(c) Prevent any ambient light, other than that emanating from the light source, from affecting the measurements.

(d) Limit the field of view of the photometer so that only undiffused light from the light source is measured.

(e) Place the light source outside the vehicle and the photometer inside the vehicle so that they are equidistant from the glazing material and both are 12 inches from it.

(f) Align the optical axes of the light source and photometer so that they are horizontal.

(g) Align the optical axis of the photometer so that it is parallel to the X plane to measure the light transmittance of the windshield of all vehicles and the rear window of the passenger cars.

(h) Align the optical axis of the photometer so that it is parallel to the Z plane to measure the light transmittance of the side windows.

(i) Measure the intensity of the incident light emanating from the light source, both with and without the glazing material in place.

(j) Calculate the light transmittance of a particular portion of glazing material by dividing the value obtained with the glazing material in place by the value obtained without the glazing material in place and multiply the result by 100.

(k) Make the measurements and calculations for all points on the portion of glazing material required to comply with S7.1 and S10.2.

S12.3 *Spectral transmittance of sun visors.* To test the spectral transmittance of transparent sun visors, follow the procedures of S12.2, except remove the sun visor from the vehicle and position the sun visor so that it is perpendicular to the light beam.

CIVIL AERONAUTICS BOARD

[14 CFR Part 241]

[Docket No. 23166; EDR-196B]

UNIFORM SYSTEM OF ACCOUNTS AND REPORTS OF CERTIFICATED AIR CARRIERS

Schedule B-16, Annual Report of Overdue and Uncollectible Accounts

For the reasons set forth in the attached explanatory statement, the Board has determined to issue a notice of proposed rule making to amend Part 241 of its economic regulations (14 CFR Part 241) so as to require certificated air carriers to file an annual report on a new schedule of the Form 41 reports setting forth (1) individual accounts overdue for 60 days or more, with a principal balance of more than $10,000, and (2) individual accounts aggregating more than $1,000 which have been charged to a reserve or directly expensed as uncollectible during the preceding calendar year.

The principal features of the proposal are described in the explanatory statement and the proposed amendment is set forth in the proposed rule. The amendments are proposed under sections 204(a), 401, and 407 of the Federal Aviation Act of 1958, as amended (72 Stat. 743, 754 (as amended by 76 Stat. 143, 82 Stat. 867), 760; 49 U.S.C. 1324, 1371, 1377).

Interested persons may participate in the rule making through submission of twelve (12) copies of written data, views, or arguments pertaining thereto, addressed to the Docket Section, Civil Aeronautics Board, Washington, D.C. 20428. All relevant material in communications received on or before May 11, 1972, will be considered by the Board before taking final action on the proposed rules. Copies of such communications will be available for examination by interested persons in the Docket Section of the Board, Room 712 Universal Building, 1825 Connecticut Avenue NW., Washington, DC, upon receipt thereof.

Dated: April 5, 1972.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK, *Secretary.*

EXPLANATORY STATEMENT

By advance notice of proposed rule making, EDR-196, dated February 25, 1971, 36 F.R. 4627, the Board stated that it was considering a proposal to limit the extent to which certificated route air carriers may grant credit for air transportation, and otherwise amend related provisions of Part 241 (14 CFR Part 241). The draft rule would have been set forth in a new part, to bar the extension of credit by a certificated route carrier to any customer for more than $1,000 or for longer than 60 days, unless the carrier and the customer enter into a written agreement which would, in accordance with standards established by the carrier and published in its filed tariffs, provide reasonable assurance that the indebtedness would be fully paid on its due date. Further, the tariffs would have been required to specify the procedures to be followed for collection in the event of default. The related draft amendments to Part 241 would have provided for an annual report schedule to be filed with the Board by each certificated route carrier, setting forth basic information concerning the amount and age of outstanding credit. Interested persons were invited to participate in the rule making proceeding.

A principal comment was received from the Airline Finance and Accounting Conference of Air Transport Association (ATA), on behalf of all trunkline carriers, and on behalf of eight of the nine local service carriers and one foreign air carrier,[1] with supplemental comments filed by three certificated route carriers.[2] In addition, comments were filed by The Flying Tiger Line Inc. (Flying Tiger), Univac Division of Sperry Rand Corp. (Univac), Hawaii Air Cargo Shippers Association, Inc. (Hawaii Shippers), and by the State of California and its Public Utilities Commission (California PUC). All of the comments, except those of Flying Tiger[3] and California PUC, oppose the draft rule.

The principal thrust of the comments in opposition to the proposed rule are that:

(1) There is no indication that the problem of credit abuses is sufficiently serious to warrant regulation by the Board;

(2) The proposed rules insofar as they require individual written agreements for any extension of credit beyond either the specified maximum sum of $1,000 or the maximum period of 60 days, would be extremely burdensome and impractical;

(3) Moreover, insofar as the individual agreements would have to provide "reasonable assurances" for repayment, use of such agreement would as a practical matter be precluded, because only letters of credit, bank guarantees or substantial collateral constitute "reasonable assurances" of repayment, and normal commercial accounts demand and received credit without posting such forms of security; and

(4) In light of the difficulties involved in obtaining credit from the carriers, as described in (2) and (3), above, the carriers' customers would be driven to obtain credit for air transportation from outside sources, such as Diners Club and American Express Co., the cost of whose services is largely borne by the carriers.

In light of the comments received, we have determined to propose a substitute rule which differs substantially from that set forth in the advance notice. Instead of proposing a general rule to restrict the extension of credit in air transportation, we are merely proposing that an annual report be filed. However, whereas the initial restrictive proposal would have applied only to certificated route air carriers, we are proposing to impose the far less burdensome reporting requirement upon all certificated air carriers, including supplemental air carriers.[4] The proposed report would consist of a schedule (Schedule B-16 of Form 41, a copy of which is attached hereto as Appendix A) setting forth a list of every individual account receivable (1) having a principal balance in excess of $10,000 which, at the end of the calendar year, has been outstanding for 60 days or more; and (2) which, having a principal balance of more than $1,000, has already been deemed uncollectible and directly expensed or charged to a reserve at any time during the preceding calendar year. The proposed rule would cover the extension of credit for passengers as well as for cargo in air transportation.[5]

PROPOSED RULE

Part 241. 1. Amend section 22—*General Reporting Instructions* by inserting a new Schedule B-16—*Overdue and Uncollectible Accounts*, in the list of schedules under paragraph (a) so that the list in pertinent part reads:

Section 22—General Reporting Instructions

(a) • • •

Schedule No.		Frequency	Postmark interval (days)
• • •		• • •	• • •
B-14	Summary of property obtained under long-term leases.	Quarterly...	40
B-16	Overdue and uncollectible accounts.	Annually...	90
B-41	Investments held by, or for the account of, respondent.	.....do.....	90
• • •		• • •	• • •

2. Amend Section 23—*Certification and Balance Sheet Elements* by inserting instructions for new Schedule B-16 as follows:

Section 23—Certification and Balance Sheet Elements

• • • • •

[1] The interest of this Canadian carrier is unclear, since the draft rule would apply only to U.S. certificated route air carriers.

[2] Texas International Airlines, Inc. (TTA), Trans World Airlines, Inc. (TWA), and United Air Lines, Inc. (United).

[3] Even Flying Tiger, which supports in principle a rule to restrict credit practices, would prefer a different rule from the draft described in EDR-196. Flying Tiger states, inter alia, that it would be unnecessarily burdensome for carriers to report delinquencies under $5,000, or to report a narrative of steps taken to collect delinquent accounts.

[4] They are: Capitol International Airways, Inc. (Capitol); Interstate Airmotive, Inc. (Interstate); Johnson Flying Service, Inc. (Johnson Flying Service); McCulloch International Airlines, Inc. (McCulloch); Modern Air Transport, Inc. (Modern); Overseas National Airways, Inc. (ONA); Purdue Airlines, Inc. (Purdue); Saturn Airways, Inc. (Saturn); Southern Air Transport, Inc. (Southern); Standard Airways, Inc. (Standard); Trans International Airlines, Inc. (TIA); Universal Airlines, Inc. (Universal); and World Airways, Inc. (World).

[5] The rule proposed herein would relate to general credit practices of air carriers. The special credit problem posed by political candidates is the subject of separate rule making proceedings recently instituted by the Board. (SPDR-29, issued Mar. 8, 1972, Docket 24275.)

Schedule B-16—Overdue and Uncollectable Accounts

(a) This schedule shall be filed by all route air carriers.

(b) Column 1 shall identify the name of each individual or firm with an account overdue for 60 days or more and with a principal balance of more than $10,000 as at the end of the calendar year, and those individuals or firms with accounts aggregating more than $1,000 during the calendar year which are or were determined to be uncollectable.

(c) Column 2 shall reflect, for each name listed in column 1, the total receivables due as at the end of the calendar year.

(d) Column 3 shall reflect the receivables which have been overdue for 60 days or more with a principal balance of more than $10,000 as at the end of the calendar year.

(e) Columns 4 through 6 shall reflect data pertaining to uncollectable accounts aggregating more than $1,000 during the calendar year. Column 4 shall reflect the account number against which uncollectables are charged; column 5 shall reflect the amounts charged directly to expense accounts; and column 6 shall reflect amounts charged to a reserve.

3. Amend Section 32—*General Reporting Instructions* by inserting a new Schedule B-16—*Overdue and Uncollectable Accounts*, as shown in Exhibit A attached, in the list of schedules under paragraph (a) so that the list in pertinent part reads:

Section 32—General Reporting Instructions

(a) • • •

Schedule No.		Frequency	Postmark interval (days)
• • •		• • •	• • •
B-14	Summary of property obtained under long-term leases.	Quarterly...	40
B-16	Overdue and uncollectible accounts.	Annually...	90
B-41	Investments held by, or for the account of, Respondent.	.....do.....	90
• • •		• • •	• • •

4. Amend Section 33—*Certification and Balance Sheet Elements* by inserting instructions for new Schedule B-16 as follows:

Section 33—Certification and Balance Sheet Elements

• • • • • •

Schedule B-16—Overdue and Uncollectable Accounts

(a) This schedule shall be filed by each supplemental air carrier.

(b) Column 1 shall identify the name of each individual or firm with an account overdue for 60 days or more and with a principal balance of more than $10,000 as at the end of the calendar year, and those individuals or firms with accounts aggregating more than $1,000 during the calendar year which are or were determined to be uncollectable.

V 37-71 APR 12 72 XUM

(c) Column 2 shall reflect, for each name listed in column 1, the total receivables due as of the end of the calendar year.

(d) Column 3 shall reflect the receivables which have been overdue for 60 days or more with a principal balance of more than $10,000 as at the end of the calendar year.

(e) Columns 4 through 6 shall reflect data pertaining to uncollectable accounts aggregating more than $1,000 during the calendar year. Column 4 shall reflect the account number against which uncollectables are charged; column 5 shall reflect the amounts charged directly to expense accounts; and column 6 shall reflect amounts charged to a reserve.

APPENDIX A

SCHEDULE S-16

Overdue and uncollectible accounts — Air carrier _____ As at December 31, 19____

Name of individual or firm	Total receivables as at December 31	Accounts overdue for 60 days or more with principal balance of more than $10,000	Uncollectible accounts aggregating more than $1,000		
			Account No.	Charged directly to expense	Charged to a reserve

NATIONAL CREDIT UNION ADMINISTRATION

[12 CFR Part 701]

SAFE DEPOSIT BOX SERVICE

Vault Requirements

Notice is hereby given that the Administrator of the National Credit Union Administration, pursuant to the authority conferred by section 120, 73 Stat. 635, 12 U.S.C. 1766, proposes to revise § 701.30(b) (12 CFR 701.30(b)) as set forth below.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposed revision to the Administrator, National Credit Union Administration, Washington, D.C. 20456, to be received not later than May 17, 1972.

HERMAN NICKERSON, JR.,
Administrator.

MARCH 31, 1972.

§ 701.30 Safe deposit box service.

* * * * *

(b) The safe deposit boxes will be located in a vault on the premises where the credit union maintains an office for the transaction of business with its members. Space will be provided whereby the tenants or deputies, if any, can have access to the contents of their specific safe deposit boxes in private. The vault and safe deposit boxes shall meet the minimum construction and safety standards specified by the insurance company writing the liability insurance mentioned in paragraph (c)(6) of this section. Such vault may be used for additional purposes: *Provided*, That the portion to be used for the safe deposit boxes is physically separated by means of a steel wall, gate, or similar partition: *And provided further*, That the door between the two sections have a two-key arrangement (one in the possession of the safe deposit box attendant and the other in possession of the credit union employee seeking access to the vault).

FARM CREDIT ADMINISTRATION

[12 CFR Ch. VI]

FARM CREDIT SYSTEM

Notice of Proposed Rule Making

Notice is hereby given that the Farm Credit Administration, by its Federal Farm Credit Board, has under consideration a proposed revision of all regulations it has heretofore issued which are now in effect. The reasons for the proposed revision are set forth in an explanatory statement that follows.

Interested persons may participate in the proposed rule making by submitting ten (10) copies of written data, views, or arguments pertaining thereto to E. A. Jaenke, Governor, Farm Credit Administration, Washington, D.C. 20578. All relevant material received not later than 30 days after the date this notice is published in the FEDERAL REGISTER will be considered by the Federal Farm Credit Board before final action is taken on the proposed revision. Copies of all communications received will be available for examination by interested persons in the office of the Director of Information, Farm Credit Administration.

EXPLANATORY STATEMENT

The Farm Credit Act of 1971, Public Law 92-181, approved December 10, 1971, is a complete recodification and replacement for prior laws under which the Farm Credit Administration and the institutions of the Farm Credit System were organized and operated. Prior laws which are repealed and superseded by the Act are identified in section 5.26(a) thereof. Section 5.26(b) retained the effectiveness of the existing regulations of the Farm Credit Administration and the Farm Credit System, the institutions' charters, bylaws, resolutions, stock classifications, policy, and elections until superseded, modified, or replaced under the authority of the 1971 Act. All obligations and contracts under prior laws remain enforceable unless and until modified in accordance with the 1971 Act. It is, therefore, the purpose of these regulations when approved in final form by the Federal Farm Credit Board to supersede regulations of the Farm Credit Administration issued under prior authority and to implement, as of the date of such approval of these regulations, the provisions of the 1971 Act. Contracts, including but not limited to notes, bonds, debentures, loans, security, collateral, entered into by the Farm Credit Administration or any of the institutions of the System before the final approval of these regulations shall remain valid and enforceable upon their terms unless and until they are subsequently modified.

SUBCHAPTER A—ADMINISTRATIVE PROVISIONS

PART 600—ORGANIZATION AND FUNCTIONS

Subpart A—Farm Credit Administration

Sec.
600.1 Farm Credit Administration.
600.2 Federal Farm Credit Board.
600.3 Governor.
600.4 Deputy Governors.
600.5 Other administrative units.

Subpart B—Farm Credit System

600.10 Farm Credit districts.
600.20 Federal land banks.
600.30 Federal land bank associations.
600.40 Federal intermediate credit banks.
600.50 Production credit associations.
600.60 Banks for cooperatives.

AUTHORITY: The provisions of this Part 600 issued under sec. 5.9, 5.18, 5.26, 85 Stat. 619, 621, 624.

Subpart A—Farm Credit Administration

§ 600.1 Farm Credit Administration.

The Farm Credit Administration is an independent agency in the executive branch of the Government. It consists of the Federal Farm Credit Board, the Governor, and other officers and employees. The central offices of the Farm Credit Administration are located in the South Agriculture Building, 14th Street and Independence Avenue SW., Washington, D.C. Its mailing address is Farm Credit Administration, Washington, D.C. 20578. The hours of business are 8:15 a.m.–4:45 p.m. Monday through Friday, excluding holidays.

§ 600.2 Federal Farm Credit Board.

The Federal Farm Credit Board is a part-time, policymaking board which consists of 13 members, 12 of whom are appointed by the President with the advice and consent of the Senate. In making the appointments, one from each of the 12 Farm Credit districts, the President receives and considers nominations from each district by the Federal land bank associations, the production credit associations and the stockholders of the banks for cooperatives. The 13th member of the Board is designated by the Secretary of Agriculture as his representative on the Board. The Federal Farm Credit Board establishes the general policy for the guidance of the Farm Credit Administration and approves the rules and regulations which implement applicable laws.

§ 600.3 Governor.

The Governor of the Farm Credit Administration is its chief executive officer. He is appointed by the Federal Farm Credit Board, and serves at its pleasure. During any period in which the Governor holds any stock in any of the institutions subject to supervision of the Farm Credit Administration, the appointment of the Governor shall be subject to approval by the President and during any such period the President shall have the power to remove the Governor. On December 31, 1968, the Government capital then remaining in the banks and associations was retired. Under the general supervision of the Federal Farm Credit Board, the Governor is responsible for the execution of laws creating the powers, functions, and duties of the Farm Credit Administration. The Farm Credit Administration makes no loans. All inquiries which concern the obtaining of loans should be addressed to the banks and associations described in §§ 600.20–600.70.

§ 600.4 Deputy Governors.

The Governor of the Farm Credit Administration is assisted in executing his responsibilities by deputy governors appointed by him.

(a) The Credit Service, headed by the Director who also is a Deputy Governor regulates and supervises the extension and administration of credit by the banks and associations of the Farm Credit System.

(b) The Operations and Finance Service, headed by the Director who also is a Deputy Governor regulates and supervises the operating and financial policies and practices of the banks and associations.

§ 600.5 Other administrative units.

The Farm Credit Administration also includes the following: Accounting, Budget and Data Management Division; Examination Division; Office of the General Counsel; Personnel and Administrative Services Division; Research Division, and Information Division.

(a) The Accounting, Budget and Data Management Division headed by the Director, administers Farm Credit Administration accounting, budget and payroll activities; coordinates securities transactions; formulates accounting and reporting requirements for banks and associations and reviews and analyzes their financial condition and earnings; advises on EDP management and utilization, supervises district and Federal board elections.

(b) The Examination Division, headed by the Chief Examiner, examines the banks and the associations supervised by the Farm Credit Administration.

(c) The Office of the General Counsel, headed by the General Counsel, performs legal services for the Federal Farm Credit Board, the Governor, and members of his staff, and consults with and coordinates the work of attorneys employed by the banks.

(d) The Personnel and Administrative Services Division, headed by the Director, plans and directs the personnel program for the Farm Credit Administration; coordinates and advises in the administration of the personnel programs in the Farm Credit districts; provides administrative services to the Farm Credit Administration.

(e) The Research Division, headed by the Director, makes studies of economic, financial, and credit factors affecting the gathering of loan funds, and the extension of sound, useful credit.

(f) The Information Division, headed by the Director, carries on information, member relations, and educational programs to inform farmers of the availability and the use of credit, provides information services for the Farm Credit Administration, and coordinates system-wide activities of the banks and associations supervised by the Farm Credit Administration and conducts foreign training programs in agricultural credit.

Subpart B—Farm Credit System

§ 600.10 Farm Credit districts.

(a) The United States is divided into 12 Farm Credit districts. In each district there are a Federal land bank and a number of Federal land bank associations, a Federal intermediate credit bank and a number of production credit associations, and a bank for cooperatives. Additionally, there is a Central Bank for Cooperatives located in the District of Columbia. The three banks in each district maintain their offices together. The city in which their offices are located in each district and the area comprising each district are as follows:

District name	District No.	District States
Springfield	1	Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey.
Baltimore	2	Pennsylvania, Delaware, Maryland, Virginia, West Virginia, District of Columbia, Puerto Rico.
Columbia	3	North Carolina, South Carolina, Georgia, Florida.
Louisville	4	Ohio, Indiana, Kentucky, Tennessee.
New Orleans	5	Alabama, Mississippi, Louisiana.
St. Louis	6	Illinois, Missouri, Arkansas.
St. Paul	7	Michigan, Wisconsin, Minnesota, North Dakota.
Omaha	8	Iowa, Nebraska, South Dakota, Wyoming.
Wichita	9	Oklahoma, Kansas, Colorado, New Mexico.
Houston	10	Texas.
Berkeley	11	California, Nevada, Utah, Arizona, Hawaii.
Spokane	12	Washington, Oregon, Montana, Idaho, Alaska.

Each district has a part-time, policymaking Farm Credit board of seven members who are ex officio, directors of each of the three banks in that district. The Central Bank for Cooperatives has a separate board of 13 directors. Each bank has its own officials.

(b) In each district, the Federal land bank associations, the production credit associations, and the cooperatives which borrow from the banks for cooperatives, as separate groups are each entitled to elect two members of the district Farm Credit board. The seventh member of the district board is appointed by the Governor of the Farm Credit Administration with the advice and consent of the Federal Farm Credit Board. Activities of the three banks in each district are coordinated through the district Farm Credit board and a committee composed of the bank presidents.

(c) From each district, the board of directors of the bank for cooperatives elects a director of the Central Bank. The 13th director of the Central Bank is appointed by the Governor with the advice and consent of the Federal Farm Credit Board.

§ 600.20 Federal land banks.

The 12 Federal land banks, one in each Farm Credit district, were organized in 1917 under the Federal Farm Loan Act (39 Stat. 360), and are continued under the Farm Credit Act of 1971 (85 Stat. 583). The Federal land banks were established as permanent institutions designed to provide long-term farm mortgage credit for agriculture. The banks, together with the Federal land bank associations, constitute the Federal Land Bank System which is cooperatively and completely farmer-owned. The principal function of the Federal land bank is to make first mortgage loans on farm lands to eligible applicants.

§ 600.30 Federal land bank associations.

The associations receive applications for loans made by the Federal land bank, elect the loan applicants to association membership, and endorse such loans. All of the stock of the Federal land bank associations is owned by their member-borrowers. The member-borrower purchases capital stock in the Federal land bank association. The association in turn purchases a like amount of capital stock in the Federal land bank. Each Federal land bank association is managed by a board of directors elected by and from the membership.

§ 600.40 Federal intermediate credit banks.

The 12 Federal intermediate credit banks, one in each Farm Credit district, were established as permanent institutions under the Federal Farm Loan Act as amended by the Agricultural Credits Act of 1923 (42 Stat. 1454), and are continued under the Farm Credit Act of 1971 (85 Stat. 583). The capital stock of the Federal intermediate credit banks is owned by production credit associations. The Federal intermediate credit banks are primarily banks of discount

V 37-71
APR 12 72
XUM

for production credit associations and other agricultural and livestock lending institutions.

§ 600.50 Production credit associations.

The associations are corporations organized under the Farm Credit Act of 1933 (48 Stat. 259), and continued under the Farm Credit Act of 1971 (85 Stat. 583). Production credit associations may finance on a short- and intermediate-term basis farmers and ranchers and producers or harvesters of aquatic products.

§ 600.60 Banks for cooperatives.

The banks for cooperatives, one in each Farm Credit district and a Central Bank for Cooperatives in the District of Columbia, were organized under the Farm Credit Act of 1933 (48 Stat. 257), and continued under the Farm Credit Act of 1971 (85 Stat. 583). The banks extend credit to certain cooperatives. The Central Bank for Cooperatives services district banks for cooperatives by making direct loans to them and participating in loans that exceed their respective lending limits.

PART 601—EMPLOYEE RESPONSIBILITIES AND CONDUCT

Sec.

601.100 General policy.
601.101 Responsibilities.
601.110 Conflict of interest.
601.115 Applicable laws.
601.120 Cases of trivial interest or relationship.
601.125 Devotion of time to official duties.
601.126 Teaching, writing, and lecturing.
601.130 Farm Credit examiners.
601.135 Use of Government-owned property.
601.140 Political activity.
601.141 Soliciting support in nomination and election polls.
601.145 Comments on proposed legislation.
601.150 Distribution of printed material by employees.
601.151 Improper use of official stationery.
601.155 Gifts or favors from subordinates prohibited.
601.160 Voluntary services.
601.165 Foreign decorations.
601.170 Statements of employment and financial interests.
601.171 Time and place for submission of statements.

601.176 Confidentiality of statements.
601.177 Effect of statements on other requirements.
601.178 Review of statements.
601.180 Special Government employees.

AUTHORITY: The provisions of this Part 601 issued under sec. 5.9, 5.18, 5.26, 85 Stat. 619, 621, 624.

§ 601.100 General policy.

(a) It is the policy of the Farm Credit Administration that all of its officers and employees shall observe the highest standards of conduct in the discharge of the duties and responsibilities that are assigned to them, and that they shall conduct themselves at all times in a manner becoming officers and employees of the Federal Government, so as not to cause embarrassment to the Farm Credit Administration or the Government.

(b) Each officer and employee has an obligation to the Government, to the people he serves, and to his fellow officers and employees to carry out the purpose and spirit of this policy.

(c) Rules and regulations concerning responsibilities and conduct are contained in handbooks or special releases issued to all officers and employees. It is expected that they will keep currently informed thereon, and comply therewith.

§ 601.101 Responsibilities.

(a) In the administration of the policy set forth in § 602.200 of this chapter, and the rules and regulations thereunder, the Director of Personnel and Administrative Services is responsible for (1) general coordination, (2) dissemination of information, (3) handling of complaints, (4) assignment of investigations, (5) administrative interpretation, and (6) periodic review and evaluation of compliance.

(b) The Director of Personnel and Administrative services shall serve as counselor on ethical conduct and shall be responsible for assuring that counseling and interpretations on questions dealing with employee conduct and conflicts of interest are available to any officer or employee who desires advice and guidance on such questions.

§ 601.105 Disciplinary and other remedial action.

A violation of the provisions of this part which deal with employee conduct may be cause for appropriate disciplinary action which may be in addition to any penalty prescribed by law.

§ 601.110 Conflict of interest.

Except as specifically authorized by law or these regulations, no officer or employee of the Farm Credit Administration:

(a) Shall, in any manner directly or indirectly, participate in the deliberation upon, or the determination of, any question affecting his personal interests, those of any person related to him by blood or marriage, or those of any partnership, association, or any corporation in which he is directly or indirectly interested;

(b) Shall, except in the performance of his official duties, divulge to another person, or utilize for his personal benefit or that of another, any fact or information acquired by such officer or employee, directly or indirectly, by virtue of his employment;

(c) Shall, directly or indirectly, purchase bonds, debentures, or other obligations issued by any Farm Credit institution if his position is one of the following: Governor, Deputy Governor, Service Director, Deputy Service Director and other officials authorized to act as Service Director, General Counsel, Assistant General Counsel, Director of Accounting, Budget and Data Management Division, Comptroller, Chief Examiner, and farm credit examiners.

(d) Shall solicit, accept, or receive, directly or indirectly,

(1) From any borrowers from or debtor to, or any officer or employee of, any corporation under the supervision of the Farm Credit Administration, or

(2) From any person who has or is seeking to obtain contractual or other business or financial relations with the Farm Credit Administration, or

(3) From any loan applicant or representative thereof, or

(4) From any person who has an interest that may be substantially affected by the performance or nonperformance of such officer's or employee's official duty, any salary, loan, fee, commission, or honorarium or, for any purpose or in any way, any gift, favor, entertainment, or other benefit which might reasonably be interpreted by others as being of such nature that it could affect his impartiality; Exception: Such officer or employee may accept food and refreshments of nominal value on infrequent occasions in the ordinary course of a luncheon or dinner meeting or other meeting where such officer or employee may properly be in attendance, may accept unsolicited advertising or promotional material such as pens, pencils, note pads, calendars and other items of nominal value, and may accept, with the written approval of the Governor and upon such conditions as he may prescribe, any benefit otherwise enjoined hereby if the circumstances make clear that the motivating factor for the extension of such benefit is not based on the Government responsibilities of the officer or employee and the business of the other person concerned.

(5) Nothing in this subpart precludes an employee from receipt of bona fide reimbursement, unless prohibited by law, for expenses of travel and such other necessary subsistence as is compatible with this subpart for which no Government payment or reimbursement is made. However, this paragraph does not allow an employee to be reimbursed, or payment to be made on his behalf, for excessive personal living expenses, gifts, entertainment or other personal benefits, nor does it allow an employee to be reimbursed by a person for travel on official business under agency orders when reimbursement is proscribed by Decision B-128527 of the Comptroller General dated March 7, 1967.

(e) Shall acquire, directly or indirectly (including acquisition by membership in syndicates) any lands, or any interests therein, including mineral interests and interests as mortgagee or lessee, which are owned by or mortgaged to any corporation under Farm Credit Administration supervision or which were thus owned or mortgaged at any time within the preceding 12 months. However, such lands, or interests there in, may be acquired by will or inheritance or upon the written approval of the Governor subject to such conditions as he may prescribe. As used in this paragraph (e), "mineral interests" means any interest in minerals, oil, or gas, including but not limited to, any right derived directly or indirectly from a mineral, oil, or gas lease, deed or royalty conveyance;

(f) Shall participate directly or indirectly in any transaction concerning the purchase or sale of corporate stocks or bonds, commodities, or other property if such action might tend to interfere with the proper and impartial performance of his duties or bring discredit upon the Farm Credit Administration or any corporation under its supervision;

(g) Shall engage in criminal, infamous, dishonest, immoral, or notoriously disgraceful conduct, or otherwise conduct himself in a manner which might be prejudicial and cause embarrassment to or criticism of the Government or the Farm Credit Administration or any corporation under its supervision or interfere with the efficient performance of his duties;

(h) Shall receive any salary or anything of monetary value from a private source as compensation for his services to the Government;

(i) Shall refuse to pay in a proper and timely manner each financial obligation which is imposed by law, such as Federal, State, or local taxes, or which he has acknowledged, or which has been reduced to judgment by a court. As used herein, "proper and timely" means in a manner which the Farm Credit Administration deems does not, under the circumstances, reflect adversely on the Farm Credit Administration as his employer. In the event of a dispute between an employee and an alleged creditor, this section does not require the Farm Credit Administration to determine the validity or amount of the disputed debt;

(j) Shall participate, while on Government-owned or leased property or while on duty for the Farm Credit Administration, in any gambling activity including the operation of a gambling device, in conducting a lottery or pool, in a game for money or property, or in selling or purchasing a numbers slip or tickets;

(k) Shall take any action, whether or not otherwise expressly prohibited hereby, which might result in or create the appearance of:

(1) Using public office for private gain,

(2) Giving preferential treatment to any person,

(3) Impeding Government efficiency or economy,

(4) Losing complete independence or impartiality,

(5) Making a Government decision outside official channels, or,

(6) Affecting adversely the confidence of the public in the integrity of the Government.

§ 601.115 Applicable laws.

(a) Particular attention is directed to the following provisions of law containing the Federal penal provisions which relate particularly to officers and employees of the Farm Credit Administration: Paragraphs (b) and (d) of section 15 of the Agricultural Marketing Act (46 Stat. 18; 12 U.S.C. 1141j); and sections 213, 371, 432, 493, 657, 1006, 1011, 1014, 1907, and 1909 of title 18 United States Code, Crimes and Criminal Procedure.

(b) Attention is also directed to Public Law 87-849, approved October 23, 1962 (18 U.S.C. 201 et seq.) which imposes restraints on Government employees.

(1) A regular officer or employee (one appointed or employed to serve more than 130 days in any period of 365 days) is in general subject to the following major prohibitions:

(i) He may not, except in the discharge of his official duties, represent anyone else before a court or Government agency in a matter in which the United States is a party or has an interest (18 U.S.C. 203 and 205);

(ii) He may not participate in his governmental capacity in any matter in which he, his spouse, minor child, outside business associate or person with whom he is negotiating for employment has a financial interest (18 U.S.C. 208);

(iii) He may not, after his Government employment has ended, represent anyone other than the United States in connection with a matter in which the United States is a party or has an interest and in which he participated personally and substantially for the Government (18 U.S.C. 207(a));

(iv) He may not, for 1 year after his Government employment has ended, represent anyone other than the United States in connection with a matter in which the United States is a party or has an interest and which was within the boundaries of his official responsibility during the last year of his Government service (18 U.S.C. 207(b));

(v) He may not receive any salary, or supplementation of his Government salary, from a private source as compensation for his services to the Government (18 U.S.C. 209).

(2) A special Government employee is in general subject only to the following major prohibitions:

(i) He may not, except in the discharge of his official duties, represent anyone else before a court or Government agency in a matter in which the United States is a party or has an interest and in which he has at any time participated personally and substantially for the Government (18 U.S.C. 203 and 205);

(ii) He may not, except in the discharge of his official duties, represent anyone else in a matter pending before the agency he serves unless he has served there no more than 60 days during the past 365 (18 U.S.C. 203 and 205);

(iii) He may not participate in his governmental capacity in any matter in which he, his spouse, minor child, outside business associate or person with whom he is negotiating for employment has a financial interest (18 U.S.C. 208);

(iv) He may not, after his Government employment has ended, represent anyone other than the United States in connection with a matter in which the United States is a party or has an interest and in which he participated personally and substantially for the Government (18 U.S.C. 207(a));

(v) He may not, for 1 year after his Government employment has ended, represent anyone other than the United States in connection with a matter in which the United States is a party or has an interest and which was within the boundaries of his official responsibility during the last year of his Government service (18 U.S.C. 207(b)).

(c) In addition to the statutes referred to in paragraphs (a) and (b) of this section, the attention of officers and employees, as well as special Government employees (who are defined to include, among others, officers and employees of the departments and agencies who are appointed or employed to serve, with or without compensation, for not more than 130 days during any period of 365 consecutive days either on a full-time or intermittent basis), is directed to the following statutes:

(1) House Concurrent Resolution 175, 85th Congress, 2d Session, 72 Stat. B12, the "Code of Ethics for Government Service."

(2) The prohibition against lobbying with appropriated funds (18 U.S.C. 1913).

(3) The prohibitions against disloyalty and striking (5 U.S.C. 7311, 18 U.S.C. 1918).

(4) The prohibition against the employment of a member of a Communist organization (50 U.S.C. 784).

(5) The prohibitions against the disclosure of classified information (18 U.S.C. 798, 50 U.S.C. 783), and the disclosure of confidential information (18 U.S.C. 1905).

(6) The provision relating to the habitual use of intoxicants to excess (5 U.S.C. 7352).

(7) The prohibition against the misuse of a Government vehicle (31 U.S.C. 638a (c)).

(8) The prohibition against the misuse of the franking privilege (18 U.S.C. 1719).

(9) The prohibition against the use of deceit in an examination or personnel action in connection with Government employment (18 U.S.C. 1917).

(10) The prohibition against fraud or false statements in a Government matter (18 U.S.C. 1001).

(11) The prohibition against mutilating or destroying a public record (18 U.S.C. 2071).

(12) The prohibition against counterfeiting and forging transportation requests (18 U.S.C. 508).

(13) The prohibitions against embezzlement of Government money or property (18 U.S.C. 641), failing to account for public money (18 U.S.C. 643), and embezzlement of the money or property of another person in the possession of an employee by reason of his employment (18 U.S.C. 654).

(14) The prohibition against unauthorized use of documents relating to claims from or by the Government (18 U.S.C. 285).

(15) The prohibitions against political activities in subchapter III of chapter 73 of title 5, U.S. Code and 18 U.S.C. 602, 603, 607, and 608.

(16) The prohibition against an employee acting as the agent of a foreign principal registered under the Foreign Agents Registration Act (18 U.S.C. 219).
